Comments on the draft environmental statement and on matters set forth therein are solicited from and may be submitted by State and local agencies and members of the public. Such comments should be submitted to the Associate Administrator, National Aeronautics and Space Administration, Washington, D.C. 20546. All comments must be received within 60 calendar days of the publication of this notice in the FEDERAL REGISTER in order to be considered in the preparation of the final environmental statement.

Copies of the draft statement may be obtained or examined at any of the following locations:

(a) National Aeronautics and Space Administration, Public Documents Room (Room 126), 600 Independence Avenue SW., Washington, DC 20546.

(b) Ames Research Center, NASA (Building 201, Room 17), Moffett Field, Calif. 94035.

(c) Flight Research Center, NASA (Building 4800, Room 1017), Post Office Box 273, Edwards, CA 93523.

(d) Goddard Space Flight Center, NASA (Building 8, Room 150), Greenbelt, Md. 20771.

(e) John F. Kennedy Space Center, NASA (Headquarters Building, Room 1207), Kennedy Space Center, Fla. 32899.

(f) Langley Research Center, NASA (Building 1219, Room 304), Hampton, Va. 23365.

(g) Lewis Research Center, NASA (Administration Building, Room 120), 21000 Brookpark Road, Cleveland, OH 44135.

(h) Manned Spacecraft Center, NASA (Building 1, Room 136), Houston, Tex. 77058.

(i) George C. Marshall Space Flight Center, NASA (Building 4200, Room G–11), Huntsville, Ala. 35812.

(j) Mississippi Test Facility, NASA (Building 1100, Room A–213), Bay St. Louis, Miss. 39520.

(k) NASA Pasadena Office (Jet Propulsion Laboratory, Building 180, Room 600), 4800 Oak Grove Drive, Pasadena, CA 91103.

(l) Wallops Station, NASA (Library Building, Room E–105), Wallops Island, Va. 23337.

Done at Washington, D.C., this 17th day of November 1972.

By direction of the Administrator.

HOMER E. NEWELL,
Associate Administrator, National Aeronautics and Space Administration.

[Notice (72-24)]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL

Committee on Space Propulsion and Power Meeting

The NASA Research and Technology Advisory Council, Committee on Space Propulsion and Power will meet on December 13–14, 1972, at the Headquarters of the National Aeronautics and Space Administration, Washington, D.C. 20546. The meeting will be held in Room 625, Federal Office Building 10–B, 600 Independence Avenue SW., beginning at 9 a.m. on December 13. Members of the public will be admitted to the open portion of the meeting as specified on the attached agenda on a first-come, first-served basis up to the seating capacity of the room, which is about 40 persons. All visitors must report to the recording secretary in Room 625.

The NASA Research and Technology Advisory Council, Committee on Space Propulsion and Power serves in an advisory capacity only. In this capacity, the Committee is concerned with space propulsion, i.e., chemical, nuclear, or electric. The Committee is also concerned with the generation of electric power by solar, chemical, nuclear, or mechanical means. The current Chairman is Dr. Beno Sternlicht. There are currently 12 members. For further information please call Mr. William Woodward, area code 202—755–2377, or Mr. David Gabriel, area code 301—973–3927.

DECEMBER 13, 1972

Time	Topic
9 a.m.	Chairman and Executive Secretaries Reports. (Purpose: To review results of last Research and Technology Advisory Council meeting, development of internal Committee activities, NASA policies, and programs.)
9:45 a.m.	Space Research and Technology (SPART) Study Report. (Purpose: For the Committee to receive and discuss the recommendations of the NASA Space Research and Technology (SPART) Study pertaining to the areas under the cognizance of the Committee. The Space Research and Technology (SPART) Study was undertaken to assist in the establishment of the overall needs, emphases, and priorities for NASA's space research and technology activities for the future.)
11:15 a.m.	Review of Report of the Ad Hoc Panel on Advanced Reactors. (Purpose: To discuss the Panel's first draft report.)
2–4:30 p.m.	Review of Report of Ad Hoc Panel on Advanced and Conventional Propulsion. (Purpose: To discuss the Panel's first draft report.)

DECEMBER 14, 1972

9 a.m.–12:30 p.m.	Potential future Committee agenda items. (Purpose: To select items for future Committee consideration including: Future NASA mission power and propulsion requirements through 1990; concepts for very advanced power and propulsion systems; and, terrestrial application of space technology in power generation.)
1:30–3:30 p.m.	Closed session. (Purpose: The Committee will hear and discuss preliminary internal NASA information on priorities, program planning and funding.)

HOMER E. NEWELL,
Associate Administrator, National Aeronautics and Space Administration.

NOVEMBER 20, 1972.

NATIONAL ENDOWMENT FOR THE ARTS

ADVISORY COMMITTEES

Notice of Determination

The National Endowment for the Arts utilizes advice and recommendations of

V37-228 NOV 25 72 XUM

advisory committees, including the National Council on the Arts, in carrying out many of its functions and activities.

On June 5, 1972, the President issued Executive Order 11671 governing the formation, use, conduct, management, and accessibility to the public of committees formed to advise and assist the Federal Government. Section 13 of the order specified that department and agency heads shall make adequate provision for participation by the public in the activities of advisory committees, except to the extent a determination is made in writing by the department or agency head that committee activities are matters which fall within policies analogous to those recognized in the Freedom of Information Act, section 552 (b) of title 5 of the United States Code, and the public interest requires such activities to be withheld from disclosure.

In administering the Freedom of Information Act, the Endowments' policy is to make fullest possible disclosure of records to the public, limited only by obligations of confidentiality and administrative necessity. Consistent with this policy, the Endowment will open to the public as many advisory committee meetings as possible.

Committees while engaged in the review, discussion, evaluation, and/or ranking of grant applications and contract proposals, or in evaluation of grantee and contractor performance, should not, however, be required to hold open meetings. The endowment, grant applicants, and persons submitting contract proposals have long and customarily treated as confidential information submitted in support of grant applications and contract proposals. Information and data are furnished to the Endowment with assurance they will be treated on a confidential basis and not disclosed to the public. This information may include such matters as details relating to the type or design of work to be performed, adequacy of the applicant's facilities, competence of the applicant's or contractor's staff, proposed budget, and other material which would not otherwise be disclosed.

In addition, to operate most effectively, the grant and contract review and evaluation process requires that members of committees considering such matters be free to engage in full and frank discussion. If the process were not to continue on a confidential basis, grant applicants and potential contractors would not supply sufficiently detailed information so essential for complete and effective review.

Grant applications, contract proposals, and detailed records of deliberations of the committees reviewing them are presently exempt from mandatory disclosure under the Freedom of Information Act.

When an advisory committee considers, discusses and formulates its advice, conclusions or report, effective functioning of a committee requires that its members have an opportunity to express their individual views and judgments to each other without the presence of the public in arriving at the views and judgments of the committee.

In the interest of meeting our obligations of confidentiality of matters submitted as part of grant applications and contract proposals and encouraging candid expression of opinion concerning the merits of grant applications and contract proposals and the evaluation of grantee and contractor performance, so vital to the review process, and in the interest of assuring committee members necessary opportunity to express their views and judgments to each other in the process of formulating advice to the chairman of the endowment on matters of Endowment policy: It is hereby determined in accordance with the provisions of section 13(d) of the order:

(1) The confidentiality required for grant applications and contract proposals, and evaluations and for the free discussion thereof as outlined herein is analogous to the policies recognized in the Freedom of Information Act, section 552(b) of title 5 of the United States Code, and in particular, subsections 552 (b) (4) and (5);

(2) The public interest requires such matters not be disclosed so the endowment may continue to receive information and advice necessary to appropriate decisions with respect to grant and contract matters; and

(3) The public interest also requires that there be closed to the public meetings or portions thereof held for the sole purpose of considering and formulating advice which the committee will give or any report it will render and involving exclusively the internal expression of views and judgments of the members, which if reduced to writing would be exempt as internal memoranda from mandatory disclosure under section 3 (e)(5) of the Freedom of Information Act (5 U.S.C. 552(b)(5)).

Therefore, until January 7, 1973, meetings or portions thereof, of all endowment advisory committees, including the National Council on the Arts, devoted to review, discussion, evaluation and/or ranking of grant applications, contract proposals, or performance by grantees and contractors or the formulation of advice shall not be open to the public.

The Executive Secretary of each such committee shall prepare a summary of any meeting or portion thereof not open to the public. Such summaries shall be consistent with the considerations which justified the closing of the meeting and shall be made available upon request to any member of the public.

All other advisory committee meetings shall be open to the public unless the Chairman of the National Endowment for the Arts or his designee determines otherwise in accordance with section 13(d) of the order.

The Public Information Officer of the endowment shall be responsible for publication in the FEDERAL REGISTER or as appropriate in local media, notice of all advisory committee meetings. Such notice shall be published in advance of the meeting and contain:

(1) Name of the committee and its purpose;

(2) Date, time, place, and agenda of the meeting;

(3) A statement that the meeting is open to the public, or, if the meeting or any portion thereof is not to be open to the public, a statement to that effect; and

(4) The name of the person from whom summaries of closed meetings and rosters of committee members may be obtained.

Subject to the availability of space any interested persons may attend, as observers, meetings, or portions thereof, of advisory committees which are open to the public.

Members of the public attending a meeting will be permitted to participate in the committee's discussion at the discretion of the Chairman of the committee, if the Chairman is a full-time Federal employee; if the Chairman is not a full-time Federal employee, then public participation will be permitted at the Chairman's discretion with the approval of the full-time Federal employee in attendance at the meeting in compliance with the order.

NANCY HANKS,
Chairman,
National Endowment for the Arts.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL COUNCIL FOR THE ARTS

Notice of Meeting

Pursuant to Executive Order 11671, notice is hereby given that a closed meeting of the National Council on the Arts will be held at 9:30 a.m. on December 3, 1972, at the Sheraton-Carlton Hotel, 16th and K Streets, Washington, D.C. 20006.

This meeting is for the purpose of Council review, discussion, and evaluation of grant applications and, in accordance with the determination of the Chairman, NEA, under section 13(d) of Executive Order 11671, involves matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b)(4)).

Further information with reference to this meeting can be obtained from Mrs. L. Diamond, Secretary, National Council on the Arts 806 15th Street NW., Washington, DC 20506.

PAUL BERMAN,
Director of Administration National Foundation on the Arts and the Humanities.

OFFICE OF EMERGENCY PREPAREDNESS

NEW MEXICO

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in me by the President under Executive Order 11575 of December 31, 1970; and by virtue of the Act of December 31, 1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92–209 (85 Stat. 742); notice is hereby given that on November 20, 1972, the President declared a major disaster as follows:

I have determined that the damages in certain areas of the State of New Mexico from heavy rains and flooding, beginning about October 19, 1972, are of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91–606. I therefore declare that such a major disaster exists in the State of New Mexico. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in me by the President under Executive Order 11575 to administer the Disaster Relief Act of 1970 (Public Law 91–606, as amended), I hereby appoint Mr. George E. Hastings, Regional Director, OEP Region 6, to act as the Federal Coordinating Officer to perform the duties specified by section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of New Mexico to have been adversely affected by this declared major disaster:

The Counties of:
Catron. Hidalgo.
Grant.

Dated: November 20, 1972.

G. A. LINCOLN,
Director,
Office of Emergency Preparedness.

POSTAL RATE COMMISSION

[Administrative Order 1; Amdt. 1]

CAREER AND EXCEPTED SERVICE

Change of Title of Hearing Examiner to Administrative Law Judge

NOVEMBER 22, 1972.

By Administrative Order 1 (36 F.R. 19279, October 1, 1971), the Postal Rate Commission, acting pursuant to section 3604 of title 39 of the United States Code, established the Postal Rate Commission Career Service and the Postal Rate Commission Excepted Service and set forth the rules governing the operation and regulation thereof. The Commission's rules as so set forth contain references to hearing examiner and hearing examiners.

The Civil Service Commission having amended Subpart B, Part 930, Title 5, Code of Federal Regulations, to change the title of hearing examiner to Administrative Law Judge (37 F.R. 16787, August 19, 1972), this Commission hereby amends its Administrative Order 1 as follows to conform the nomenclature therein to that of the Civil Service Commission:

1. In Rule 2, the title hearing examiners is hereby changed to Administrative Law Judges.

2. In Rules 8(d), 9(b), 10(a), and 12(b), the title hearing examiner is hereby changed to Administrative Law Judge.

This amendment shall be effective on November 25, 1972. The Secretary shall cause publication of this amendment to be made in the FEDERAL REGISTER on that date.

By the Commission.

[SEAL] JOSEPH A. FISHER,
Secretary.

RAILROAD RETIREMENT BOARD

RAILROAD RETIREMENT SUPPLEMENTAL ANNUITY PROGRAM

Determination of Quarterly Rate of Excise Tax

In accordance with directions in section 3221(c) of the Railroad Retirement Tax Act (26 U.S.C. 3221(c)) as amended by section 5(a) of Public Law 91–215, the Railroad Retirement Board has determined that the excise tax imposed by such section 3221(c) on every employer, with respect to having individuals in his employ, for each man-hour for which compensation is paid by such employer for services rendered to him during the quarter beginning January 1, 1973, shall be at the rate of 7½ cents.

Dated: November 17, 1972.

By authority of the Board.

[SEAL] RICHARD F. BUTLER,
Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION

[70-5270]

ALABAMA POWER CO.

Notice of Proposed Amendment of Charter and Solicitation of Proxies

NOVEMBER 20, 1972.

Notice is hereby given that Alabama Power Co. (Alabama), Post Office Box 2641, Birmingham, AL 35291, an electric utility subsidiary of The Southern Co. (Southern), a registered holding company has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a) and 7 and Rule 62 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Alabama proposes to amend its charter so as to increase the authorized number of shares of its cumulative preferred stock, par value $100 per share, from 2 million shares, of which 1,504,000 shares are currently outstanding, to 2,500,000 shares. An affirmative vote of holders of a majority of the shares of preferred stock at the time outstanding is required for the adoption of the proposed amendment. Alabama proposes to solicit proxies from the holders of its preferred stock for a special meeting to be held on February 14, 1973.

The terms of Alabama's preferred stock as set forth in its charter provide, in effect, that, except for limited specified purposes or except with the affirmative vote in favor thereof by the holders of at least a majority of the shares of the preferred stock at the time outstanding, the amount of securities representing unsecured indebtedness which the company may issue shall not exceed 10 percent of its other capitalization, namely the sum of (a) the total principal amount of all bonds and other securities representing secured indebtedness then issued or assumed by the company and outstanding, and (b) the capital and surplus of the company (paid-in, earned and other, if any) as stated on its books. In the proxies to be sent for the February 14, 1973 meeting, Alabama also proposes to request the requisite affirmative vote of its preferred shareholders so as to authorize Alabama, until July 1, 1976, to incur unsecured debt in excess of the 10 percent limitation; provided, that (a) none of such unsecured debt outstanding on January 1, 1977, shall exceed such 10 percent limitation and (b) Alabama's total indebtedness shall at no time exceed 20 percent of its other capitalization, as defined above.

It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. The fees and expenses to be incurred in connection with the proposed transactions are estimated to be $70,000, including State of Alabama charter fee of $50,000, counsel fee of $7,500, and a fee of $4,000 for soliciting proxies:

Notice is further given that any interested person may, not later than December 12, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary,

Securities and Exchange Commission, that with certain exceptions, a trustee Debentures under the 1956, 1971, and

Louisiana proposes to issue and sell to

V37-228 NOV 25 72 XUM

Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.72-20294 Filed 11-24-72;8:50 am]

[Files Nos. 2-39432 (22-6508); 2-42619 (22-7006)]

GENERAL ELECRIC OVERSEAS CAPITAL CORP.

Notice of Application and Opportunity for Hearing

NOVEMBER 17, 1972.

Notice is hereby given that General Electric Overseas Capital Corp. (Capital Corporation) and General Electric Co. (the Company) have filed an application under clause (ii) of section 310(b)(1) of the Trust Indenture Act of 1939 (the Act) for a finding by the Commission that the trusteeship of the First National City Bank (First National) under indentures dated May 1, 1956 (the 1956 Indenture), December 1, 1965 (the 1965 Indenture) which were qualified under the Act and June 15, 1972 (the June 1972 Indenture) which was not qualified under the Act and the trusteeship of First National as successor trustee of indentures dated as of March 15, 1971 (the 1971 Indenture) and January 15, 1972 (the January 1972 Indenture) which were qualified under the Act, is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for protection of investors to disqualify First National from acting as trustee under any of said Indentures.

Section 310(b) of the Act provides in part that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest, it shall within 90 days after ascertaining that it has such conflicting interest either eliminate such conflicting interest or resign. Subsection (1) of such section provides, that with certain exceptions, a trustee under a qualified indenture shall be deemed to have a conflicting interest if such trustee is trustee under another indenture under which any other securities of the same issuer are outstanding. However, under clause (ii) of subsection (1), there may be excluded from the operation of this provision another indenture under which other securities of such issuer are outstanding, if the issuer shall have sustained the burden of proving, on application to the Commission and after opportunity for hearing thereon, that the trusteeship under such qualified indenture and such other indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protecton of investors to disqualify such trustee from acting as trustee under both such indentures.

The Company alleges that:

(1) The Company issued 20-year 3¼ percent Debentures Due 1976, principal amount of $300 million under the 1956 Indenture between the Company and Morgan Guaranty Trust Company of New York (Morgan Guaranty). Effective February 10, 1965, Morgan Guaranty resigned as Trustee and First National was appointed successor Trustee.

(2) The Company guaranteed 4¼ percent Guaranteed Bonds Due 1985, issued by Capital Corporation, a wholly owned subsidiary of the Company, in the principal amount of $50 million convertible from May 1, 1967 to November 30, 1975 into common stock of the company under the 1965 Indenture among the Company, Capital Corporation, and First National.

(3) The Company issued 7½ percent Debentures Due 1996, in the principal amount of $200 million under the 1971 Indenture between the Company and Morgan Guaranty.

(4) The Company issued 6¼ percent Debentures Due 1979, in the principal amount of $125 million under the January 1972 Indenture between the Company and Morgan Guaranty.

(5) The Company guaranteed 4¼ percent Convertible Guaranteed Debentures Due 1987, in the principal amount of $50 million issued by the Capital Corporation under the June 1972 Indenture between the Company, Capital Corporation and First National.

(6) The 1956, 1971, and the January 1972 Indenture are wholly unsecured and the Company and Capital Corporation are not in default under any of these Indentures. The rights of the holders of the 1956, 1971, and the January 1972 Debentures rank on a parity with each other as to the Company and Capital Corporation.

(7) The 1965 and June 1972 Indentures also are wholly unsecured, and the Company has unconditionally guaranteed the performance of all covenants under said Indentures and should the Company be called upon to honor its Guarantee, the holders of Debentures under the 1965 and June 1972 Indentures would rank on a parity with holders of Debentures under the 1956, 1971, and January 1972 Indentures. The Company and Capital Corporation are not in default under any of the subject Indentures.

(8) On October 12, 1972 Morgan Guaranty (by reason of the existence of a disqualifying conflict of interest resulting from the election of a third director of Morgan Guaranty to the Board of Directors of the Company) resigned as Trustee under the 1971 Indenture and the January 1972 Indenture, said resignation to take effect upon the acceptance of appointment of a successor trustee. First National has agreed to accept appointment as successor Trustee provided that it qualified to so serve under the provisions of said Indenture.

The Company has waived notice of hearing and hearing, in connection with the matter referred to in this application.

For a more detailed statement of the matters of fact and law asserted here, all persons are referred to said application, which is a public document on file in the office of the Commission, at 500 North Capitol Street, Washington, DC 20549.

Notice is further given that any interested person may, not later than December 11, 1972, request in writing that hearing be held on such matter, stating the nature of this interest, the reason for such request, and the issues of fact or law raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and the interest of investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.72-20295 Filed 11-24-72;8:50 am]

[70-5268]

MIDDLE SOUTH UTILITIES, INC., AND LOUISIANA POWER & LIGHT CO.

Notice of Proposed Issue and Sales of Notes, Additional Common Capital Stock, and Increase in Amount of Authorized Preferred Stock

NOVEMBER 20, 1972.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), 280 Park Avenue, New York, NY 10017, a registered holding company, and its public utility subsidiary, Louisiana Power & Light Co. ("Louisiana"), 143 Delarone Street, New Orleans, LA 70114, have filed an application-declaration and amendments thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 10, and 12(f) of the Act and Rules 23, 43, and 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Louisiana proposes, from time to time through June 30, 1974, to issue and sell short-term notes to banks and to a dealer in commercial paper, in an aggregate principal amount not exceeding $50,000,000 outstanding at any one time. Louisiana intends to utilize the proceeds of the sale of its notes for construction expenditures and other corporate purposes. Louisiana's construction program contemplates construction expenditures of approximately $112,900,000 in 1972, $178,800,000 in 1973 and $184,200,000 in 1974.

Louisiana has arranged to borrow, through December 31, 1973, from the banks and in the maximum amounts indicated below:

Bank	Maximum amount
The Chase Manhattan Bank (National Association), New York, N.Y.	$16,000,000
Whitney National Bank of New Orleans, New Orleans, La.	8,000,000
First National Bank of Commerce, New Orleans, La.	6,000,000
Hibernia National Bank in New Orleans, New Orleans, La.	2,500,000
Irving Trust Co., New York, N.Y.	2,000,000
National American Bank of New Orleans, New Orleans, La.	2,000,000
The Bank of New Orleans and Trust Co., New Orleans, La.	500,000
Central Bank, Monroe, La.	500,000
The National Bank of Commerce in Jefferson Parish, New Orleans, La.	500,000
First State Bank & Trust Co., Bogalusa, La.	300,000
First National Bank of West Monroe, West Monroe, La.	150,000
International City Bank & Trust Co., New Orleans, La.	100,000
Terrebonne Bank & Trust Co., Houma, La.	100,000
The First National Bank of Jefferson Parish, Gretna, La.	100,000
Guaranty Bank & Trust Co., Gretna, La.	100,000
Metairie Savings Bank & Trust Co., Metairie, La.	100,000
The Ouachita National Bank in Monroe, Monroe, La.	100,000
American Bank & Trust Co. in Monroe, Monroe, La.	100,000
Citizens Bank & Trust Co., Thibodaux, La.	80,000
First Guaranty Bank, Hammond, La.	75,000
Assumption Bank and Trust Co., Napoleonville, La.	70,000
Bank of Louisiana in New Orleans, New Orleans, La.	60,000
Bank of the South, Gretna, La.	60,000
Franklin State Bank & Trust Co., Winnsboro, La.	50,000
Winnsboro State Bank & Trust Co., Winnsboro, La.	50,000
Bastrop National Bank, Bastrop, La.	50,000
Bank of Morehouse, Bastrop, La.	25,000
Total	39,670,000

Any changes in the named banks or in the amounts indicated will be set forth in subsequent amendments hereto. The proposed notes to banks will bear interest at the prime commercial bank rate in effect from time to time as of the dates the notes are executed; will mature not later than December 31, 1974; and will be subject to prepayment at any time without penalty. The filing indicates that Louisiana and other companies in the Middle South system normally maintain balances with the lending banks. If such balances were deemed to be "compensating balances", the effective interest rates on said notes would be 6.4 percent and 7.2 percent on balances of 10 percent and 20 percent, respectively, of outstanding notes, assuming a prime rate of 5¾ percent.

The commercial paper will have maturities of not over 9 months, and will be sold by Louisiana directly to Lehman Commercial Paper, Inc. ("Lehman") in denominations of not less than $50,000 or more than $1 million, at a discount which will not be in excess of the discount rate per annum prevailing at the date of issuance for commercial paper of comparable quality and maturity. No commercial paper notes will be issued having a maturity of more than 90 days if the effective interest cost thereof would exceed that at which Louisiana could borrow from banks.

No commission or fee will be payable in connection with the issue and sale of the commercial paper notes. Lehman, as principal, will reoffer such notes at a discount of one-eighth of 1 percent per annum less than the prevailing discount rate to Louisiana. The notes will be reoffered in a manner which will not constitute a public offering to no more than 100 identified and designated customers in a list (nonpublic) prepared in advance by Lehman.

Louisiana expects to retire the bank notes and commercial paper from the net proceeds of the sale of first mortgage bonds and/or preferred stock and/or other securities.

Louisiana requests exception from the competitive bidding requirements of Rule 50 for the proposed issue and sale of its commercial paper pursuant to paragraph (a)(5) thereof. It is stated that it is not practical to invite competitive bids for commercial paper and that current rates for commercial paper for such prime borrowers as Louisiana are published daily in financial publications. Louisiana also requests authority to file certificates under Rule 24 with respect to the issue and sale of commercial paper on a quarterly basis.

Louisiana proposes to issue and sell to Middle South, and Middle proposes to acquire, 3,150,000 shares of Louisiana's authorized but unissued common stock, no par or nominal value, for an aggregate purchase price of $20,000,000. Proceeds of this common stock sale are to be used for payment of short-term notes outstanding, for financing Louisiana's construction program, and for other corporate purposes.

Louisiana also proposes to pay a cash dividend of $4,130,000 from its restricted retained earnings account, and Middle South, the sole stockholder, will concurrently purchase 650,000 additional shares of Louisiana's authorized but unissued common stock for $4,130,000.

Louisiana further proposes to amend its certificate of incorporation to increase by 350,000 shares, the number of authorized shares of its preferred stock, $100 par value, from the present 705,000 shares (all of which are outstanding) to 1,055,000 shares. Louisiana estimates that it will issue and sell such shares within 3 years. The proposed amendment to the certificate of incorporation does not require a vote of preferred shareholders.

It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Fees and expenses to be incurred in connection with the proposed transactions are estimated at approximately $13,750, including fees of Louisiana's counsel not exceeding $3,000.

Notice is further given that any interested person may, not later than December 14, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the

V 37-228 NOV 25 72 XUM

date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[812-3279]

SHEARSON APPRECIATION FUND, INC., ET AL.

Notice of Filing of Application for Exemption

NOVEMBER 20, 1972.

Notice is hereby given that The Shearson Appreciation Fund, Inc. ("Appreciation Fund"), Shearson Income Fund, Inc. ("Income Fund") and Shearson Investors Fund, Inc. ("Investors Fund"), (hereinafter collectively "the Applicants"), 14 Wall Street, New York, NY 10005, all of which are diversified, open end management companies registered under the Investment Company Act of 1940 ("Act") have filed an application pursuant to section 6(c) of the Act for an exemption from the provisions of section 22(d) of the Act to the extent necessary to permit shareholders of Investors Fund who purchased shares during such Fund's initial offering period between March 8, 1971 and April 2, 1971 at net asset value plus a maximum sales charge of 7 percent to exchange such shares for shares of Appreciation Fund or Income Fund at net asset value. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

Section 22(d) provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except at a current offering price described in its prospectus, and would preclude those shareholders who purchased Investors Fund shares at a maximum sales charge of 7 percent from exchanging such shares for those of the other Applicants unless such shareholders paid an additional charge.

Shares of Appreciation Fund and Income Fund are currently being offered at net asset value plus a maximum sales charge of 8.5 percent. Shares of Investors Fund have been continuously offered to the public at net asset value plus a maximum sales charge of 8.5 percent subsequent to April 2, 1971. Applicants assert that since the exchange privilege is offered as a convenience to investors and since there are no selling expenses incurred by them in effecting such an exchange, no additional sales charge would be imposed on such shareholders absent the requirements of section 22(d). Applicants further assert that granting the proposed exemption is consistent with the purpose of section 22(d) of the Act in that the shares of all applicants are currently offered for sale with an 8.5 percent sales charge, thus making speculative purchases of 7 percent shares impossible and precluding an adverse impact on the continuous offering of shares of all other Applicants. Applicants state that all shareholders other than holders of Investors Fund 7 percent shares presently have exchange privileges and that granting exchange privileges to holders of 7 percent shares would result in no unfair discrimination among shareholders.

Section 6(c) of the Act provides, among other things, that the Commission, by order upon application, may conditionally or unconditionally exempt any person from any provision or provisions of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than December 20, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in such application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

SMALL BUSINESS ADMINISTRATION

[License 02/02-0295]

BT CAPITAL CORP.

Notice of Issuance of Small Business Investment Company License

On October 19, 1972, a notice of application for a license as a small business investment company was published in the FEDERAL REGISTER (37 F.R. 22426) stating that an application has been filed with the Small Business Administration (SBA) pursuant to §107.102 of the regulations governing small business investment companies (13 CFR 107.102 (1972)) for a license as a small business investment company by BT Capital Corp., 600 Third Avenue, New York, NY 10016.

Interested parties were given until the close of business November 6, 1972, to submit their comments to SBA. No comments were received.

Notice is hereby given that pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended, after having considered the application and all other pertinent information and facts with regard thereto, SBA will issue License No. 02/02-0295 to BT Capital Corp., to operate as a small business investment company, subject to a closing on November 10, 1972.

Dated: November 16, 1972.

ANTHONY G. CHASE, *Deputy Administrator.*

[FR Doc.72-20268 Filed 11-24-72;8:48 am]

[License 04/04-0105]

C & C CAPITAL CORP.

Notice of Application for a License as a Small Business Investment Company

An application for a license to operate as a small business investment company (SBIC) under the provisions of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), has been filed by C & C Capital Corp., 1000 Val Street, Knoxville, TN 37921, with the Small Business Administration (SBA) pursuant to § 107.102 of the SBA rules and regulations governing small business investment companies (13 CFR 107.102 (1972)).

The officers and directors of the applicant are as follows:

Clifford E. Quimby, President, Director, General Manager, 733 Whirlaway Circle, Knoxville, TN 37919.

George W. Ridenour, Jr., Treasurer, Secretary, Director, Route 2, Westwood, Clinton, TN 37716.

Charles M. Armstrong, Director, Route 2, Powell, Tenn. 37849.

Cecil H. Butcher, Jr., Director, 3513 Black Oak Ridge Lane, Knoxville, TN 37918.

Jacob F. Butcher, Director, Route 4, Wilde Acres, Clinton, Tenn. 37716.

Creed A. Daniel, Director, Route 4, Rutledge, Tenn. 37861.

Rudolph F. Garren, Director, Route 2, Maynardville, Tenn. 37807.

Joseph S. Goodstein, Director, 520 Cherokee Boulevard, Knoxville, TN 37919.

Fred R. Langley, Director, 12309 North Fox Den, Concord, TN 37720.

Douglas J. Monroe, Director, 7545 Berkshire Boulevard, Powell, TN 37849.

Harry D. Vestal, Director, Highway 33, Maynardville, Tenn. 37807.

Jack D. Walls, Director, Highway 61, Oliver Springs, Tenn. 37840.

William K. Warren, Director, 5404 Nellwoods Drive, Knoxville, TN 37819.

Clyde B. Webb, Director, Athens, Tenn. 37303.

Lionel B. Wilde, Director, 1442 Darvee Drive, Morristown, TN 37814.

Robert L. Woodson, Jr., Director, 802 South Tennessee Avenue, La Follette, TN 37766.

The applicant, a Tennessee corporation with its principal place of business located at 1000 Val Street, Knoxville, TN 37921, will begin operations with $350,000 of paid-in capital, consisting of 350 shares of common stock. The applicant's stock is beneficially owned by 20 holders; however, because of family affiliation and common stock ownership, the following listed individuals control the largest percentage of the applicant's stock.

Stockholder	Percentage of applicants stock owned
Cecil H. Butcher, Jr. (brother to Jacob F.)	3.9
Jacob F. Butcher (brother to Cecil H.)	3.9
Lionel B. Wilde (brother-in-law to Jacob F. Butcher)	2.9
First National Bank, Jellico (owned 68.2 percent by the Butcher family and Wilde)	2.3
Union County Bank, Maynardville (owned 39.8 percent by the Butcher family)	6.4
First Farmers Bank, Athens (owned 67.9 percent by Financial Securities Corp.[1])	14.3
First National Bank of Anderson County (owned 52 percent by Financial Securities Corp.[1])	10.7
Southern Industrial Banking (owned 34.8 percent by the Butcher family)	4.9
Total	49.3

[1] Financial Securities Corp. is owned 66⅔ percent by the Butcher family.

The applicant will maintain a diversified investment policy. According to the applicant's investment policy, it recognizes the need for both equity and loan investments; however, as much as it is practicable, the applicant will emphasize equity investments with particular attention to growth potential. The applicant intends to offer management consulting services to borrowers and other small business concerns.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owners and management, and the probability of successful operation of the applicant under its management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA rules and regulations.

Any interested person may, not later than 20 days from the date of publication of this notice, submit to SBA, in writing, relevant comments on the proposed SBIC. Any such communication should be addressed to the Associate Administrator for Operations and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416. A copy of this notice shall be published in a newspaper of general circulation in Knoxville, Tenn.

Dated: November 16, 1972.

ANTHONY G. CHASE, *Deputy Administrator.*

[License 01/02-0145]

DEWEY INVESTMENT CORP.

Notice of Filing of Application for Transfer of Control of Licensed Small Business Investment Company

Notice is hereby given that application has been filed with the Small Business Administration (SBA) pursuant to § 107.701 of the regulations governing small business investment companies (13 CFR 107.701 (1972)) for transfer of control of Dewey Investment Corp., 18 Asylum Street, Hartford, CT 06813, a Federal licensee under the Small Business Investment Act of 1958, as amended (Act).

Dewey Investment Corp. was licensed on April 9, 1962, with paid-in capital and surplus of $160,240 which has remained unchanged since that date. However, the proposed new management has agreed to increase this amount pursuant to section 302(a) of the Act. It has 1,600 shares of issued and outstanding stock held by 18 stockholders.

The only investors who will own 10 percent or more of the outstanding stock, and their respective positions, are as follows:

Name	Title
George E. Mrosek, 27 Pitkin St., Manchester, CT 06040.	President.
Salvatore Filloramo, 375 South Main St., Manchester, CT 06040.	Vice President.
Loren J. Andreo, 382 Bush 111 Rd., Manchester, CT 06040.	Treasurer.

The proposed new owners do not intend to make any significant changes in the area of operations and investment policy. The principal office will be located at 101 Middle Turnpike, West, Manchester, CT 06040.

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed new owners, and the probability of successful operation of the company under their control and management in accordance with the Act and regulations.

Notice is further given that any interested person may submit their comments on the proposed transfer of control to the Associate Administrator for Operations and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416, within 10 days after the date of publication of this notice.

A similar notice shall be published by the proposed purchasers in a newspaper of general circulation in Manchester, Conn.

Dated: November 16, 1972.

TARIFF COMMISSION

[TEA-W-162]

BERNIE SHOE CO.

Workers' Petition for a Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers and former workers of the Bernie Shoe Co., Haverhill, Mass., the U.S. Tariff Commission on November 21, 1972, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for women (of the types provided for in items 700.43, 700.45, and 700.55 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed within 10 days after the notice is published in the FEDERAL REGISTER.

The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, DC, and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: November 22, 1972.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

MINNESOTA DEVELOPMENTAL PLAN

State Occupational Safety and Health Standards and Enforcement; Submission of Plan and Availability for Comment

1. *Submission and description of plan.* Pursuant to section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) and § 1902.11 of Title 29, Code of Federal Regulations, notice is hereby given that an occupational safety and health plan for the State of Minnesota has been submitted to the Assistant Secretary of Labor for Occupational Safety and Health. The Assistant Secretary has preliminarily reviewed the plan, and hereby gives notice that the question of approval of the plan is in issue before him.

The plan identifies the Department of Labor and Industry as the State agency designated by the Governor of the State to administer the plan throughout the State. It defines the covered occupational safety and health issues as defined by the Secretary of Labor in 29 CFR 1902.2(c)(1).

The plan includes proposed draft legislation to be considered by the Minnesota Legislature during its 1973 session. Under the legislation the Department of Labor and Industry will have full authority to enforce and administer laws respecting safety and health of employees in all workplaces of the State with the exception of domestic servants, employees of the United States, or where there is occupational safety and health protection of employees under the following Federal laws: the Atomic Energy Act of 1954, 42 U.S.C. 2021; the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 801; the Federal Metal and Nonmetallic Mine Safety Act, 30 U.S.C. 721; the Federal Safety Appliances Act, 45 U.S.C. 1; the Federal Railroad Safety Act of 1970, 45 U.S.C. 431; and the Longshoremen's and Harbor Workers' Compensation Act, 33 U.S.C. 901.

The legislation further proposes to bring the plan into conformity with the requirements of 29 CFR, Part 1902, in areas such as procedures for variances and the protection of employees from hazards, procedures for the development and promulgation of standards, including standards for protection of employees against new and unforeseen hazards; and procedures for prompt restraint, or elimination of imminent danger situations.

The legislation is also intended to insure inspections in response to complaints; give employer and employee representatives an opportunity to accompany inspectors in order to aid inspections; notification of employees or their representatives when no compliance action is taken as a result of alleged violations, including informal review; notification of employees of their protections and obligations; protection of employees against discharge or discrimination in terms and conditions of employment; adequate safeguards to protect trade secrets; provision for prompt notice to employers and employees of alleged violations of standards and abatement requirements; a system of sanctions against employers for violations of standards; employer right of review and employee participation in review proceedings; and coverage of employees of political subdivisions.

Included in the plan is a statement of the Governor's support for the proposed legislation and a statement of legal opinion that it will meet the requirements of the Occupational Safety and Health Act of 1970, and is consistent with the constitution and laws of Minnesota. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902 including provision for coverage of personnel under the existing merit system.

2. *Location of plan for inspection and copying.* A copy of the plan may be inspected and copied during normal business hours at the following locations: Office of State Programs, Occupational Safety and Health Administration, Room 503, Railway Labor Building, 400 First Street NW, Washington, DC 20210; Regional Administrator, Occupational Safety and Health Administration, Department of Labor, 12th floor, 300 South Wacker Drive, Chicago, IL 60606; State Capitol Building, Legislative Reference Library, St. Paul, Minn. Copies of the plan may be obtained at the expense of the person(s) requesting the copies.

3. *Public participation.* Interested persons are hereby given 30 days from the day of this publication in which to submit to the Assistant Secretary written data, views, and arguments concerning the plan. The submissions are to be addressed to the Director, Office of State Programs, OSHA, Railway Labor Building, Room 503, U.S. Department of Labor, Washington, D.C. 20210. The written comments will be available for public inspection and copying, at the expense of the person(s) requesting such copies, at the above address.

XUM
V37-228 NOV 25 72 V
XUM

Any interested person(s) may request an informal hearing concerning the proposed plan, or any part thereof, whenever particularized written objections thereto are filed within the 30 days specified above. If the Assistant Secretary finds that substantial objections are filed, he shall hold a formal or informal hearing on the subjects and issues involved. The Assistant Secretary of Labor for Occupational Safety and Health shall thereafter consider all relevant comments and arguments presented and issue his decision as to approval or disapproval of the plan.

Signed at Washington, D.C., this 21st day of November 1972.

G. C. GUENTHER,
Assistant Secretary of Labor.

V37-228 NOV 25 72 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions

Area wage determination decisions. Area Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 F.R. 21138), and of Secretary of Labor's Orders 12–71 and 15–71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisons of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to area wage determination decisions. Modifications and Supersedeas Decisions to Area Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 F.R. 21138), and of Secretary of Labor's Orders 13–71 and 15–71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original Area Wage Determination Decision.

The following is a list of the Area Wage Determination Decisions, Modifications, and Supersedeas Decisions which are set forth below in this document.

New Area Wage Determination Decisions Nos. AP–49 and AP–50 for the State of Minnesota and Decision No. AP–451 for the State of New York.

Modifications to Area Wage Determination Decisions for specified localities in the States of Alabama, Alaska, Connecticut, Florida, Illinois, Kentucky, Louisiana, Massachusetts, Missouri, New Mexico, Oklahoma, Oregon, Pennsylvania Tennessee, Texas, Vermont, and Washington which were published in the FEDERAL REGISTER on the following dates:

Decision No.	*Date*
AM–1,863; AM–1,864	Aug. 20, 1971.

Welders - receive rate prescribed for craft performing operation to which welding is incidental.						

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Holiday: E, provided the employee works the day after the holiday.

b. Holidays: A thru F.

c. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% of basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

d. Holidays: A thru F, Washington's Birthday, Good Friday and Christmas Eve, providing employee has worked 45 full days during the 120 days prior to the holiday, and the regularly scheduled work days immediately preceeding and following the holiday.

e. Holidays: A thru F; Washington's Birthday, Election Day for the President of the United States and Eleccion of Governor of New York (provided the employee works the day before and the day after the holiday).

f. One week vacation after one year's work; 2 weeks after 5 years work.

g. Holiday: D, providing employee was on the payroll the week before the holiday or on the payroll the week after the holiday.

h. Employer contributes $15.00 per year to an apprentice training program.

i. Employer contributes $.50 to an annuity fund.

j. Holidays: D & E, plus two hours on Election Day.

BUILDING CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	App. Tr.	Other
Power Equipment Operators:						
Oilers	6.74	.65	.35	a	.10	
Firemen and heavy duty greasers, all boilers and steam generators	6.87	.65	.35	a	.10	
Pumps, vibrators, concrete mixers, spreaders, concrete finishing machines, mortar mixers, air compressors, dust collectors, welding machines well points, two or more Herman Nelson and like heaters, batch and plant op., seed and mulching machines, generators, temporary light plants, concrete pump, beltcrete power pac (beltcrete system), electric submersible pump 4" and over	6.93	.65	.35	a	.10	
Dinkey locomotives, Barber Greene loaders, Loaders and conveyors, tractors, scoopmobiles, bulldozers, road rollers, form fine graders, power brooms and sweepers	7.12	.65	.35	a	.10	
Black top spreaders, black top rollers, high lifts, fork lifts, one drum hoist or hod hoists, post hole diggers, trenchavators, core and well drillers (one drum), economobile and similar type machines, elevators, A-L frame winches, power hoisting(single drum)	7.26	.65	.35	a	.10	
LeTourneau graders or scrapers, trenching machines, push cart	7.425	.65	.35	a	.10	
Tractor road pavers, cranes, power road graders, shovels, backhoes, draglines, pile drivers, hoists two or more drums, three drum engines, hysters, two drum and swinging engines, three drum swinging engine, locomotive cranes, gradalls, hydrocrane, model CHB Vibrotamp or similar machines, Murphy type diesel generator-beltcrete system, side booms, hydro hamser, tractor mounted drill (quarry master), euclid loaders, concrete pumps, all CMI equipment, concrete central mix plant, automated asphalt concrete plant, derrick, whirlies, tower cranes, cableways, hydraulic cranes, power hoisting (2 drum and over), mucking machine	7.48	.65	.35	a	.10	
Maintenance engineer	7.51	.65	.35	a	.10

DECISION #AP-358 (Cont'd)	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	App. Tr.	Others
Power Equipment Operators (Cont'd): Heavy Equipment (Cont'd): All other equipment or similar nature coming within the heavy class, when power operated						
Light Equipment: Farm type tractor (loader, under 1 yd.) with backhoe; Go-devil; Mixers, 14 cu. ft. or over; Rollers, over 10 tons; 2 pumps operated by one man; Air compressor and one tugger	$5.83	.30	.35		.05	
Winch trucks	5.73	.30	.35		.05	
2 air compressors; 1 air compressor and 1 pump; Front end scoopmobile loader & payloader	5.70	.30	.35		.05	
Blade grader, towed; Elevators, building; Fork lifts; Hoists, single drum or 1 line hoisting (1 tugger); Mixers less than 14 cu. ft.; Rollers; Screening plants; Welding machines (gas or diesel) min. 2 max. 7; Crushing plants; Tractors wheel type except when hauling material; Truck crane driver and/or oiler front end crane	5.59	.30	.35		.05	
Pulsometer; 1 pump; 1 air compressor; mechanic helper;	5.41	.30	.35		.05	
Welders helpers; fireman	5.22	.30	.35		.05	
Greasers	5.12	.30	.35		.05	
Oilers						
All other equipment of similar nature coming within the light class, when power operated						

DECISION #AP-438 - Mod. #1
(37 FR 21993 - October 11, 1972)
Statewide, Vermont

Change:
Power equipment operators' schedule

	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Oth
POWER EQUIPMENT OPERATORS: Shovels, crawler and truck cranes, derricks, backhoes, trenching machines, elevating grader, gradall, pile drivers, concrete pavers on site processing plant (engineer in charge), dragline, clam shell, cableways	$7.90	.25	.35	c	.05	
Rotary drill (with mounted compressor), compressor house (3 to 6 compressor), rock & earth boring machines (excluding McCarthy & similar drills), grader, 4-yd. or over front end loader (used as a loader)	7.65	.25	.35	c	.05	
Bulldozer, push cats, scraper (self-propelled or tractor-drawn), self-powered asphalt paver, 3/4 yd. to 4 yd. front end loader, mechanics, well driller, pumpcrete machine, engineer or fireman on high pressure boiler (on job) self-loading batch plant (on job), well point operators	7.45	.25	.35	c	.05	
Hoists, conveyors, self-powered rollers & compactors, power pavement breaker, self-propelled material spreader, self-powered concrete finishing machine, two bag mixer with skip, front end loader under 3/4 yd), McCarthy & similar drills, batch plant (not self-loading), bulk cement plant, 3 or more welding machines	6.90	.25	.35	c	.05	
Compressor (315 cu. ft. or over, one or two), pump 4" or over, tractor w/o blade drawing sheepsfoot, rubber tired roller or other type of compactors including machines for pulverizing & aerating soil	6.575	.25	.35	c	.05	
Compressor (up to 315 cu. ft.), small mixers with skip, oiler, pumps up to [illegible], A [illegible]	6.05	.25	.35	c	.05	

DECISION #AM-6,707 - Mod. #3
(37 FR 5195 - March 10, 1972)
Clallam, Grays Harbor, Island, Jefferson, King, Kitsap, Lewis, Mason, Pierce, San Juan, Skagit, Snohomish, Thurston and Whatcom Counties, Washington

	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Other

PAID HOLIDAYS: (Where Applicable)
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

b. Holidays: A through F.

c. Holidays: A through F, plus Washington's Birthday, Good Friday and Christmas Eve, providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and the regularly scheduled work days immediately preceding and following the holiday.

d. Holidays: A and D through F and Good Friday, providing the employee is available for work the days preceding and following the holiday.

e. Two (2) paid holidays: C and D providing the employee works the day before and the day after the holiday.

f. Holidays: B,C,D, plus Good Friday provided the employee has been employed 14 consecutive days immediately prior to the holiday.

g. Employer contributes fifty dollars per year.

h. Paid Holidays: A through F plus Good Friday.

i. Paid Holidays: Labor Day, ½ day on Christmas Eve and on New Year's Eve.

j. Paid Holidays: C through E.

k. Paid Holidays: C and D.

Welders - Receive rate prescribed for craft performing operation to which welding is incidental.

PAID HOLIDAYS

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes 4% basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

b. Paid holidays: A through F.

c. Paid holidays: A through F, Washington's Birthday, Good Friday and Christmas Eve, provided the employee has worked 45 full days during the 120 calendar days prior to the Holiday, and the regular scheduled days immediately preceding and following the holiday.

d. Paid holidays: A and D through F and Good Friday, provided the employee is available for work the days preceding and following the holiday.

e. Paid holidays: A through F, and Good Friday, provided the employee has been employed for at least 10 working days prior to the holiday and is available for work the day before and after the holiday.

f. Paid holidays: C & D; providing the employee works the day before and the day after the holiday.

g. Paid holidays: B through D, plus Good Friday, provided the employee has been employed 14 consecutive days immediately prior to the holiday.

h. Paid holidays: B through E.

j. Paid holidays: A through F plus Good Friday.

k. Paid holidays: C, D and E.

L. Paid holiday: Labor Day

M. Paid holiday: "D"

N. Paid Holidays C and D.

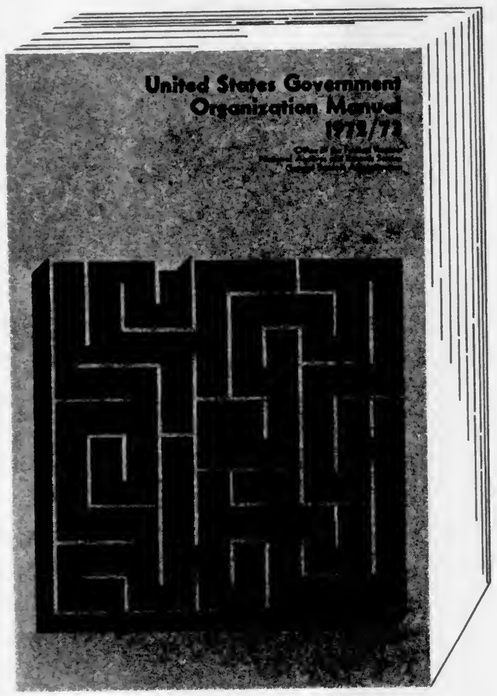
An Invaluable Reference Tool



1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

$3.00 per copy.

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

FEDERAL REGISTER V 37 - 229 NOV 28 72 XUM

Rules and Regulations

Title 7—AGRICULTURE

Chapter II—Food and Nutrition Service, Department of Agriculture

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

Food Stamp Program

Notice of proposed rule making was published in the FEDERAL REGISTER on July 18, 1972 (37 F.R. 14236) setting forth a proposal to amend the regulations governing the Food Stamp Program (7 CFR Part 271) to provide that the shelter hardship allowance be computed on the basis of income remaining after the deduction of all other allowable expenses. Interested persons were given 30 days in which to submit comments, suggestions, or objections to the proposed amendment. Responses to the proposed amendment were received from 35 interested persons and organizations. Eight respondents either opposed or suggested minor revisions of the proposed amendment.

After carefully considering the comments received, the Department has decided to adopt the proposed amendment published in the FEDERAL REGISTER on July 18, 1972. This change is adopted without alteration and is set forth below.

1. In order to provide for the implementation of the following amendments to § 271.3 and any subsequent amendments to the regulations in this subchapter which relate directly to the certification of households, § 271.1(s) is hereby amended by adding thereto a new subdivision (1)(viii) to read as follows:

§ 271.1 General terms and conditions for State agencies.

* * * * *

(s) *Implementation.* (1) Each State agency shall:

* * * * *

(viii) With respect to any amendment to this subchapter which relates directly to the certification of households by the State agency, put such amendment into effect for all new applications and household recertifications on the effective date of such amendment, and for all other households not later than 120 days after such date, unless otherwise provided in such amendment.

* * * * *

Because of the need for prompt implementation of the amendment to § 271.3(c) for the benefit of eligible households, it is determined that it is contrary to the public interest to follow proposed rule making procedures with respect to this amendment of § 271.1(s).

2. In § 271.3(c), subparagraph (1)(iii) is amended to read as set forth below. Because of the relettering of subdivisions in this amendment, in § 271.3(c)(1)(i)(*b*)(*1*) the reference to "subdivision (iii)(*b*)" is amended to read "subdivision (iii)(*f*)".

§ 271.3 Household eligibility.

* * * * *

(c) *Income and resource eligibility standards of other households.* * * *

(1) *Definition of income.* * * *

(iii) Deductions for the following household expenses shall be made:

(*a*) Mandatory deductions from earned income which are not elective at the option of the employee such as local, State, and Federal income taxes, social security taxes under FICA, and union dues;

(*b*) Payments for medical expenses, exclusive of special diets, when the costs exceed $10 per month per household;

(*c*) The payments for the care of a child or other persons when necessary for a household member to accept or continue employment;

(*d*) Unusual expenses incurred due to an individual household's disaster or casualty losses which could not be reasonably anticipated by the household;

(*e*) Educational expenses which are for tuition and mandatory school fees, including such expenses which are covered by scholarships, educational grants, loans, fellowships, and veterans' educational benefits; and

(*f*) Shelter costs in excess of 30 per centum of the household's income after the above deductions.

* * * * *

(78 Stat. 703, as amended; 7 U.S.C. 2011–2025)

Effective date. This amendment shall be effective on the date of its publication in the FEDERAL REGISTER (11–28–72).

RICHARD LYNG,
Assistant Secretary.

NOVEMBER 21, 1972.

[FR Doc.72–20357 Filed 11–27–72;8:47 am]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

PART 929—CRANBERRIES GROWN IN THE STATES OF MASSACHUSETTS, RHODE ISLAND, CONNECTICUT, NEW JERSEY, WISCONSIN, MICHIGAN, MINNESOTA, OREGON, WASHINGTON, AND LONG ISLAND IN THE STATE OF NEW YORK

Increase in Expenses for 1971–72 Fiscal Period

Notice was published in the FEDERAL REGISTER on November 11, 1972 (37 F.R. 24038) that consideration was being given to a proposal regarding an increase in the expenses previously approved for the fiscal period September 1, 1971, through August 31, 1972, recommended by the Cranberry Marketing Committee established pursuant to the marketing agreement, as amended, and Order No. 929, as amended (7 CFR Part 929), regulating the handling of cranberries grown in Massachusetts, Rhode Island, Connecticut, New Jersey, Wisconsin, Michigan, Minnesota, Oregon, Washington, and Long Island in the State of New York. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposal. None were submitted.

After consideration of all relevant matters presented, including the recommendation made by the committee, as set forth in the aforesaid notice, and other available information, it is hereby found that the amendment, as hereinafter set forth, is in accordance with said amended marketing agreement and order and will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) notice of proposed rule making concerning this amendment was published in the FEDERAL REGISTER on November 11, 1972, and no objection to this amendment was received; (2) in order for the committee to meet obligations incurred in accordance with the provisions of the amended marketing agreement and order during the 1971–72 fiscal period an immediate increase in the previously approved expenses is necessary, and (3) no increase in the rate of assessment fixed for the 1971–72 fiscal period is necessary since income already available to the committee is sufficient to cover the increase in expenses.

Therefore, the provisions of paragraph (a) of § 929.212 (36 F.R. 24213) are hereby amended to read as follows:

§ 929.212 Expenses and rate of assessment.

(a) *Expenses.* The expenses that are reasonable and likely to be incurred by the Cranberry Marketing Committee during the fiscal period September 1, 1971, through August 31, 1972, will amount to $54,575.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Dated: November 22, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Chapter X—Agricultural Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order 50]

PART 1050—MILK IN THE CENTRAL ILLINOIS MARKETING AREA

Order Suspending Certain Provisions

This suspension order is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Central Illinois marketing area.

Notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 23553) concerning a proposed suspension of certain provisions of the order. Interested persons were afforded opportunity to file written data, views, and arguments thereon.

After consideration of all relevant material, including the proposal set forth in the aforesaid notice, data, views, and arguments filed thereon, and other available information, it is hereby found and determined that for the month of November 1972 the following provisions of the order do not tend to effectuate the declared policy of the Act:

1. In § 1050.14, paragraphs (c) (2) and (3).

Statement of consideration. This suspension will permit unlimited diversion of producer milk under the Central Illinois order for the month of November 1972.

The suspension was requested by Associated Milk Producers, Inc., and is necessary in order to enable many of its member producers to maintain producer status under the order for November and thereby continue receiving the uniform price for their milk.

On October 4, 1972, a large distributing plant to which many of the association's member producers shipped their milk ceased all receiving and processing operations. Since that time the cooperative association has been attempting to find alternative outlets for the milk supplied by these producers. About half of such milk supply has been accommodated on another market via shipment through a reload station at McConnell, Ill. An additional farm bulk tank pick-up route of such milk is being marketed under yet another order by direct shipment. The remaining volume of milk (five farm bulk tank pick-up routes), however, is being marketed on a limited basis to other pool plants in the Central Illinois market. The association has not yet been able to arrange a regular alternative fluid market for such remaining member producer supply of milk.

While the cooperative has made arrangements with three other handlers in the Central Illinois market to receive this remaining volume of milk for at least 1 day in the month, such handlers do not need the milk on a regular basis.

The suspension of diversion limits will afford the cooperative an opportunity to divert such milk to nonpool plants as producer milk, thereby maintaining its regulated status under the order. As such, the producers of such milk will continue to receive the uniform price while the cooperative continues to seek more permanent marketing arrangements with respect to the milk of these producers who have supplied the market for many years.

It is hereby found and determined that 30 days' notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that it will provide a method for producers who have lost their pool plant outlet for milk to retain producer status under the order for an additional month while seeking other marketing arrangements.

(b) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rule making was given interested parties and they were afforded opportunity to file written data, views or arguments concerning this suspension. There were no views filed in opposition to the proposed suspension.

Therefore, good cause exists for making this order effective with respect to producer milk deliveries during November 1972.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for November 1972.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: Upon publication in the FEDERAL REGISTER (11–28–72).

Signed at Washington, D.C., on November 22, 1972.

RICHARD E. LYNG,
Acting Secretary.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 12385, Amdt. 39-1567]

PART 39—AIRWORTHINESS DIRECTIVES

Rolls Royce Continental Engines

There have been reports of oil pump drive shaft failures in service caused by gear wear on certain Rolls Royce Continental engines that could result in the loss of oil pressure and in engine failure. Since this condition is likely to exist or develop in other engines of the same type design, an airworthiness directive is being issued to require repetitive inspection of oil pump drive gear and replacement, if necessary, on specified Rolls Royce Continental engines.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impractical and contrary to the public interest and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

ROLLS ROYCE (1971) LIMITED. Applies to Rolls Royce Continental engines that have oil pump drive gear P/N's 22354/RR or 23403/RR installed. Those engines may include Model RR C90, except S/N's 11R021 and subsequent; Model RR O–200 engines, except S/N's 23R590 through 23R600 and 23R638 and subsequent; and Model RR O–300 engines, except S/N's 31R162 and subsequent.

Compliance required as indicated.

To prevent the loss of oil pressure due to excessive wear of oil pump drive gear P/N's 22354/RR or 23403/RR accomplish the following:

(a) Within the next 25 hours' time in service after the effective date of this AD, unless already accomplished within the last 25 hours' time in service before the effective date of this AD, and thereafter at the intervals specified in paragraph (b), determine the amount of backlash (angular movement) in the oil pump drive gear in accordance with Rolls Royce Service Bulletin No. T–200, dated November 26, 1971, or an FAA-approved equivalent.

(b) If the amount of backlash (angular movement) determined in accordance with paragraph (a) during an inspection required by paragraph (a) or this paragraph is—

(1) 6° or less, continue to inspect in accordance with paragraph (a) at intervals not to exceed 300 hours' time in service since the last inspection;

(2) More than 6° but not more than 10°, continue to inspect in accordance with paragraph (a) at intervals not to exceed 100 hours' time in service since the last inspection;

(3) More than 10° but not more than 14°, continue to inspect in accordance with paragraph (a) at intervals not to exceed 25 hours' time in service since the last inspection;

(4) More than 14°, before further flight, replace oil pump drive gear P/N's 22354/RR or 23403/RR, as applicable, with—

(i) An improved oil pump drive gear as specified in Rolls Royce Service Bulletin No. T–200, dated November 26, 1971, or an FAA-approved equivalent; or

(ii) An oil pump drive gear of the same part number with 14° or less of backlash (angular movement), determined in accordance with paragraph (a), and continue to comply with paragraph (b), as applicable.

(c) The repetitive inspections required by subparagraphs (b)(1), (b)(2), (b)(3), and (b)(4)(ii) may be discontinued when oil pump drive gear P/N's 22354/RR or 23403/RR are replaced with improved oil pump drive gear as specified in Rolls Royce Service Bulletin No. T–200, dated November 26, 1971, or an FAA-approved equivalent.

This amendment becomes effective December 4, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on November 20, 1972.

[Docket No. 11682, Amdt. 103-13]

PART 103—TRANSPORTATION OF DANGEROUS ARTICLES AND MAGNETIZED MATERIALS

Authority To Deviate

The purpose of this amendment to Part 103 of the Federal Aviation Regulations is to extend the authority in § 103.5 to grant deviations from the provisions of Part 103, under certain conditions, to cover the carriage of dangerous articles on flights of civil aircraft that depart from the United States for a place outside of the United States.

This amendment is based on a notice of proposed rule making, Notice No. 72–3, published in the FEDERAL REGISTER on February 3, 1972 (37 F.R. 2588). Except as specifically discussed hereinafter, this amendment and the reasons therefor are the same as those contained in Notice No. 72–3.

Three of the four public comments received in response to the notice favored the proposal; however, two of the comments recommended revisions to it. The first of these requested that the scope of the amendment be expanded to include flights of civil aircraft of United States registry anywhere in air commerce. Since Notice No. 72–3 was confined to extending the authority of § 103.5 to flights of civil aircraft that depart from the United States for a place outside thereof, the recommendation is considered beyond the scope of Notice No. 72–3; however, it may be considered in connection with a future rule-making action. The second revision was recommended by the U.S. Atomic Energy Commission (AEC) and advocated that radioactive materials be excluded from those articles for which deviation authority may be granted in view of the complexity of the many regulations that apply to these materials when shipped into foreign countries, including regulations of the FAA, the AEC, the Office of Hazardous Materials of the Department of Transportation, and the International Atomic Energy Authority. Based on further consideration of the proposal in the light of this comment, the FAA has concluded that deviations from the requirements of Part 103 for the transportation of radioactive materials on a flight departing the United States for a place outside thereof should be granted only in accordance with the more formal exemption procedures set forth in § 11.25 of the Federal Aviation Regulations. Accordingly, as adopted herein, subparagraph (11) does not permit deviation authority to be granted for radioactive substances on civil aircraft that depart from the United States for a place outside thereof. For such flights authority to deviate may be granted only for articles other than radioactive materials.

The FAA wishes to emphasize the fact that an authorization for deviation does not grant authority for flight over or into a foreign country with dangerous articles aboard, nor does it relieve the holder of an authorization from obtaining proper clearance from custom officials or other government agencies for the transportation of dangerous articles outside the United States. Accordingly, an authorization for deviation from the provisions of this part for one or more flights of an operation that have as their destination a place outside the United States does not grant authority for overflying a foreign country nor for landing in a foreign country; therefore, the holder of the authorization should secure permission from the foreign country or countries involved prior to flight over or into those countries with dangerous articles aboard. Furthermore, an authorization does not grant relief from compliance with applicable customs regulations or the applicable regulations of any other government agencies governing the transportation of dangerous articles outside the United States.

In consideration of the foregoing and for the reasons given in Notice 72–3, § 103.5(a) of Part 103 of the Federal Aviation Regulations is amended, effective January 29, 1973, by amending subparagraph (11) to read as follows:

§ 103.5 Authority to deviate.

(a) • • •

(11) The authorization is limited:

(i) To flights of civil aircraft between places in the United States and flights of civil aircraft that depart from the United States for a place outside thereof; and

(ii) For flights of civil aircraft that depart from the United States for a place outside thereof, to substances other than radioactive materials on board the aircraft.

• • • • •

(Sec. 313(a), 601(c), Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c)).

Issued in Washington, D.C., on November 20, 1972.

J. H. SHAFFER,
Administrator.

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER–780, Amdt. 4]

PART 245—REPORTS OF OWNERSHIP OF STOCK AND OTHER INTERESTS

Enlargement and Realignment of Shareholder Reporting Requirement

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 25th day of October 1972.

In notice of proposed rule making EDR–216,[1] the Board proposed to amend Part 245 of the Economic Regulations (14 CFR Part 245) so as to define more precisely which persons are required to submit reports of their interests in stock of air carriers and to expand the contents of such reports. More specifically, it was proposed to enlarge and realign the shareholder reporting requirements in Subpart B so that, inter alia, (1) "trustee" would be broadly defined to include any person, other than a beneficial owner, who holds record ownership of securities, or who possesses or exercises one or more of various rights with respect to such securities; (2) reports would be required to include identification of persons who possess or exercise the right to vote, sell, prevent sale, or otherwise dispose of the reported stock, or who receive dividends therefrom, along with a description of the business activities of each person named in the report; (3) a reporting corporation would be required to identify each of the shareholders holding more than 10 percent of its outstanding securities; (4) banks and brokers, insofar as they are "trustees," would be excepted from the requirement to file an annual report and report of acquisition, but they would be required to file a quarterly report with respect to any of their individual accounts which include one-half of 1 percent (0.5%) or more of a reported security as of the end of each quarter; and (5) transactions granting security interests in stocks would also be reported.

Pursuant to the subject notice, eight comments were filed, consisting of two by scheduled air carriers,[2] four by financial institutions[3] and one each by the Aviation Consumer Action Project (ACAP), and the Flight Engineers International Association (FEIA).

ACAP and FEIA support the proposed rules. Allegheny and Delta take no position on the merits of the proposed rules, but suggest several modifications to the provisions therein. Merrill Lynch opposes, in toto, the special reporting requirements for banks and brokers. ABA,

First National and NYCH support, in part, the substance of the rules proposed and suggest modifications of the provisions to which they object.

Upon full consideration of the relevant matters contained in the comments we have decided, for the reasons set forth hereinafter and in EDR–216, to adopt the amendments to Part 245 substantially as proposed. Except as modified herein, the tentative findings set forth in the explanatory statement to EDR–216 are incorporated by reference and made final. The most significant modifications to the proposed rules are: (1) The narrowing of the definition of "trustee" in § 245.11; (2) the reduction of the reporting requirement for banks and brokers in their capacities as "trustees," so that their reports need cover only individual accounts which include at least 1 percent of a reported security, instead of as little as one-half of 1 percent (0.5%), as proposed; and (3) the modification of the proposed reports, insofar as they require identification of persons who have various "rights of ownership" with respect to reported securities, so as to encompass only those rights which the Board has associated with control of, or the power to control, airline securities.

In addition to the foregoing modifications of the proposed rules, the within rules will also apply the Part 245 reporting requirements to 5-percent shareholders (and to officers and directors) of companies owning at least 95 percent of the voting stock of air carriers, as if they were shareholders (or officers and directors) of the subsidiary air carrier itself.

We first discuss the proposals dealing with the definition of "trustee" and with the reporting of individual accounts held as "trustees" by banks and brokers.[1]

Definition of "trustee." Certain of the parties variously take the position that the statute confines "trustee" to its traditional meaning, namely, a person who holds legal title in a res for the benefit of another. Other parties urge an even narrower interpretation which would encompass only record owners who also had the power to exercise "investment discretion" with respect to the res. The proposed definition of "trustee" covered persons having various "rights of ownership" with respect to securities even though they were neither record owners nor full beneficial owner in the economic sense. For example, the definition would have included custodians of shares, pledgees, holder of proxies and options to purchase, and even a lender who had imposed a negative covenant on the disposition of the assets of the borrower. It is argued that there is nothing in the language or legislative history of section 407(b) of the Act which would justify such broad coverage.

These comments further contend that, given the present capabilities of the centralized recordkeeping procedures of most banks, it is not feasible—particularly where the bank has branches—for banks to report the aggregate number of shares of an air carrier which they hold in various capacities, such as trustee, custodian, pledgee, or escrow agent, and that to require banks to set up the machinery necessary to obtain figures in each such capacity, would place an oppressive reporting burden on banks without fully indicating who controls the reported securities.

It is therefore urged that the proposed definition of "trustee" either (1) be withdrawn and replaced by a definition along traditional lines, so that the term can retain its "usual and accepted meaning," or (2) be narrowed to exclude at least such persons as pledgees, holders of proxies, options to purchase or first refusal rights, and those who merely receive dividends as a mailing address for a customer.

Upon reconsideration of the tentative views expressed in EDR–216 in light of the comments received, we have determined to confine the proposed definition to persons not beneficial owners who hold record ownership of securities, and we are further providing that if the record owner is a mere nominee for a bank or broker, then the bank or broker, rather than the nominee, shall be deemed the "trustee" of such security. In so doing we will exclude those nonrecord holders who merely have various limited rights with respect to air carrier securities. We think that our revised definition should enable us to achieve the objectives of section 407(b) of the act, by imposing a direct reporting requirement on those who have potential control of an air carrier through legal or equitable ownership of more than 5 percent of its stock.

In our judgment, the foregoing definition of "trustee" is within our statutory authority. By confining the definition to record owners, we have substantially mooted the legal argument of those parties who urged a redefinition of "trustee" along traditional lines. However, we are unable to accede to the argument, advanced by other parties, that Congress intended to constrict the scope of the term "trustee" to include only record owners who also have the power to exercise "investment discretion" with respect to air carrier securities. Such a standard is so vague as to be virtually unenforceable, involving—as it inevitably would—ad hoc subjective determinations with respect to whether a person, in fact, is vested with a measure of discretion over shares which he holds as the record owner. For example, as between the carrier and its shareholders the person whose name appears on the carrier's stock transfer books is generally regarded as having the right to vote the securities there registered. In instances where a trust relationship is established, and record and equitable ownership are separated, the record owner may sometimes act only as a conduit through which the beneficial owner invests the shares and exercises his voting rights thereto. On the other hand, the record owner may possess one or more of several different powers with respect to the shares held in trust each of which involves some degree of discretion, including, for example, the power to vote the shares in the absence of contrary instructions from the beneficial owner or the power to sell the shares and reinvest the proceeds. Whether in any given case, the record holder has the requisite "discretion" with respect to shares would thus entail not only an analysis of the enumerated powers in the trust document itself, but also an examination of the conduct of the parties to the trust agreement to determine if it may indicate the existence of implied discretionary powers in the record holder. Our reading of the legislative history of section 407(b) leads us to conclude that Congress could not have intended such a result, and the banking parties have not cited any legislative history or advanced convincing arguments, to the contrary. Rather, we believe Congress intended that the Board be empowered to treat as "trustees" 5-percent record owners of air carrier securities who are not themselves beneficial owners.

Quarterly report by banks and brokers. ABA, First National, NYCH, and Merrill Lynch urge elimination of the requirement that banks and brokers, filing reports as trustees of more than 5 percent of an air carrier's stock, must report with respect to any individual account which includes one-half of one percent (0.5%), or more, of such stock as of the end of each calendar quarter. Instead, ABA suggests that such bank or broker be required to file a quarterly report setting forth: (1) The aggregate number and class of shares so held and the number of such shares over which it has investment discretion or voting power; (2) the name and address of the settler of any trust account, or group of trust accounts, which includes 5 percent or more of the reported security at the end of each calendar quarter; and (3) the name and address of the person, if other than the reporting bank or broker, who has the power to vote or make investment decisions with respect to the shares covered by the report.[2]

In support of this request, the banking parties contend that the Board is without statutory authority to require banks and brokers covered by the regulation to list separately each account for which they hold shares amounting to only one-half of one percent (0.5%) or more of the outstanding shares of the reported security. Specifically, they argue that section 407(b) of the act refers to persons or trustees holding more than 5

[1] The financial institutions submitting comments generally oppose the substance of these proposals on both legal and policy grounds. Since their legal and policy arguments are closely interrelated, we have for analytical purposes grouped them together under each issue to which they are directed.

[2] Similarly, NYCH requests modification of the proposed rule so as to require the bank or broker to report only those accounts holding more than 5 percent of the stock of an air carrier and whether the bank has sole discretion with respect to investments or voting of the stock.

percent of any class of the capital stock of an air carrier, and neither the legislative history nor any other section of the act indicates that Congress intended the Board to require disclosures of holdings below the stated percentage.

They further argue that the proposed requirement would: (1) Arbitrarily invade the confidential relationship that exists between a bank or broker and its customers, and could thus lead customers to whom confidentiality is important to establish trust relationships with persons other than banks or brokers; and (2) serve no useful purpose, since a person could easily evade the requirement by setting up a series of bank and brokerage accounts, each holding less than one-half of one percent (0.5%), or by selecting only a bank or broker which he could know would hold as trustee less than 5 percent of a particular carrier's stock. Merrill Lynch adds that the proposed requirement will place upon brokerage firms the needlessly onerous burden of examining their securities records for every class of securities of every publicly owned air carrier four times per year and make the required computations, whether or not a reportable event is determined to exist.

As we have already stated above, we have decided to modify our proposal so as to require banks and brokers to report only with respect to any individual account which includes one percent (1%) or more of an air carrier's stock. This in itself will substantially lighten the reporting burden which our proposal would have imposed on banks and brokers. However, for the reasons hereinafter stated, we reject the arguments and counterproposals in the comments, insofar as they would be equally applicable to our modified rule.

In the rulemaking notice, we tentatively concluded that section 407(b), in conjunction with the Board's general powers under section 204(a) of the Act,[3] gives the Board broad authority to require trustee shareholders to disclose all beneficial interests in a reported security, however small in number. Our tentative conclusion was grounded on the fact that while, by its literal terms, section 407(b) appears only to require disclosures of 5-percent shareholding interests, the disclosure of beneficial owners of smaller amounts of a reported security is necessary to prevent circumvention of the statute where such beneficial holdings are, in fact, split up among several trustees, or held in different accounts by one trustee. For example, an individual could hold a large amount of a carrier's stock without being reported, so long as he spread his stockholdings among several different brokers or banks and each account consisted of less than 5 percent of a particular class of a carrier's stock. Clearly then, the reading of the statute urged by the banking parties would frustrate the intent of Congress to achieve full disclosure of substantial interests in airline securities. Statutory construction having such an effect should be avoided, and, in the absence of legislative history to the contrary, we believe that we are justified in exercising our rulemaking power to as to require banks and brokers covered by Part 245 to file reports with respect to accounts which include less than 5 percent of a reported stock.

Nor do we regard as compelling the banking parties' argument that implementation of the proposed rule will invade the privacy of those persons who are not in fact 5-percent holders of an airline's stock and thereby induce such persons to refrain from using the trust services of banks.[7] We concede that some of the reports received from bank and brokers will disclose information with respect to persons who are not subject to the shareholder reporting provisions of the statute. When viewed from a regulatory perspective, however, it is a bank's relationship with its customers, coupled with the sophisticated trust services which a bank can provide, which renders the institution a logical conduit for intentional or unintentional circumvention of the Part 245 disclosure requirements. In short, it is the very confidentiality which we are asked to perpetuate which may presently enable beneficial owners to use accounts maintained with banks and brokers to obscure their holdings from the Board's view.

In light of the foregoing, and on careful balance of the competing interests involved, we find that the public interest in assuring full disclosure of substantial interests in air carrier securities requires that banks, brokers and other trustees identify in their filed reports persons owning less than 5 percent of a carrier's stock.

We also take note of the banking parties' argument that our rule might encourage investors to establish trust relationships with financial intermediaries other than banks and brokers. However, such intermediaries, to the extent that they hold more than 5 percent of a carrier's stock, are also subject to our rules and would be required to file a trustee's annual or acquisition report, as the case may be, identifying all—not just 1 percent—beneficial owners of a reported security. Moreover, we are not persuaded that bank and brokers are so marginally competitive with other providers of investment services that imposition of the rule will result in a sizeable migration of accounts from banks and brokers to other financial institutions. In any event, to the extent that reports submitted by banks and brokers contain information concerning persons who are not 5-percent holders of a reported security, we will entertain applications to withhold said information from public disclosure, pursuant to section 1104 of the Act,[4] on the grounds that disclosure of such information would be prejudicial to the interests of such persons and is not required in the interest of the public.

We are not impressed by Merrill Lynch's stated apprehension that the proposed rule will impose upon banks and brokers a needlessly onerous reporting obligation. As to whether the obligation is onerous, it should be noted, as we explained in the rule making notice, that banks and brokers covered by the regulation will be excepted from the requirement, imposed upon other trustees, to file annual reports and reports of acquisition. They will be thus relieved of the substantial burdens involved in disclosing beneficial holdings of all customers, regardless of the size of individual holdings, and in determining the maximum number and class of shares held, as well as the percentage of such shares to total outstanding capital of the carrier, during the year covered by the annual report. It should also be noted that, as we further stated in the rule making notice, practically speaking the requirement to file quarterly reports with respect to accounts including a one-half (0.5%) percent interest in the stock of most airlines would not actually be very burdensome, in light of the considerable number of shares which comprise a 0.5 percent stock interest in most trunkline carriers. By modifying our proposal, so as to limit the reporting responsibility of a trustee bank or broker only to persons owning a minimum of 1 percent, instead of one-half percent, of a reported security, the burden is greatly reduced. In our view, this modification will thus facilitate preparation of the quarterly report without detracting from the essential value of the stock disclosure rules.

In the latter connection, the Board intends to publish from time to time a list of air carriers subject to Part 245 showing, as of the date of publication, the total number of shares of capital stock outstanding of each carrier on the list. As ABA points out, this information

[3] 49 U.S.C. 1324(a), which provides that: "The Board is empowered to perform such acts, to conduct such investigations, to issue and amend such orders, and to make and amend such general or special rules, regulations, and procedure, pursuant to and consistent with the provisions of this Act, as it shall deem necessary to carry out the provisions of, and to exercise and perform its powers and duties under this Act."

[4] 49 U.S.C. 1504.

[7] Nor are we persuaded that the proposed requirement should be abandoned because of the ease by which the banking parties conclusorily allege it may be circumvented. The proposed rule is obviously not intended to be a panacea for all of the possible subterfuges that could be used to conceal beneficial ownership of airline stocks, but to make evasion of the statute more difficult where beneficial holdings are maintained in accounts with banks and brokers. We think our rule accomplishes the latter purpose, since, to avoid detection, a beneficial owner and his financial intermediary will have to undertake the considerable cost and administrative burdens entailed in structuring their stock transactions to remain outside the scope of the reporting obligations for banks and brokers, involving a constant monitoring of account balances and aggregate holdings, to insure that they do not reach the percentage levels at which a bank or broker is required to file a report covering such beneficial interests.

will be very useful to banks and brokers in determining whether they must pre-

an oppressive reporting obligation where a large number of beneficiaries is typi-

ers since they are expected to know if anyone else has the power to vote their

Miscellaneous proposals. Several other matters require comment.[12]

1. ABA urges elimination of the phrase

parent company are required to report under Part 245, there exists a significant hiatus in the protection afforded by the

Our determination to apply the foregoing reporting requirements to 95-per-

XUM

will be very useful to banks and brokers in determining whether they must prepare and file a quarterly report with respect to air carrier shares which they hold as trustees, and, as such, should serve to further reduce the reporting burden on these institutions.[9]

Content of reports. Merrill Lynch, ABA, First National and NYCH, object to the proposal to require that every person reporting must identify every other person who (1) is a beneficial owner of the reported security, or (2) possesses or exercises the right to vote, sell, prevent sale or otherwise dispose of a reported security, or receives dividends therefrom. Merrill Lynch contends that since customers of brokers are free to sell, assign or otherwise deal with voting rights, dividends, or other incidents of their stock ownership without advising their brokers, compliance with this requirement on the part of brokers is not possible. ABA avers that where the report covers pension, retirement or large family trusts, identification of all the beneficiaries would impose an almost impossible burden on the trustee reporting; it suggests that where such large trust accounts are involved, those identified in the trustee's report should be only the person or persons who established the account.

We have decided to modify the content of the proposed reports in the following respects:

1. Where a report by a "trustee" under Subpart B covers shares held in pension or retirement trusts,[10] the person filing the report as to such shares shall be required to list only the name and address of the person or persons who created each trust, the number and class of shares held in each trust, the names of the trustees, and a description of the class of persons who are beneficiaries. We think this modification of our proposed reporting requirement is necessary in order to avoid saddling trustees with an oppressive reporting obligation where a large number of beneficiaries is typically involved and the identity of the individual members of the class of beneficiaries is not likely to be relevant in ascertaining questions concerning "control" of the shares held in trust.

2. We have narrowed the content of the proposed reports insofar as it requires identification of persons who have various "rights of ownership" with respect to reported securities, the report as revised to encompass only those rights which the Board associates with control, or the power to control, of airline securities—the right to vote or to control the voting of reported shares and powers to exercise control over the alienation of such shares. Specifically, we are withdrawing that portion of the proposed reports which would have required disclosure, by the reporting person, of persons who receive dividends from the reported securities. Upon reconsideration, identification of dividend recipients does not appear germane to the objectives of the Part 245 reporting system in that the bare possession of dividend rights to shares does not carry with it also the power to exercise control of carrier management. On the other hand, we have determined to adopt the requirement that reports identify persons who possess or exercise the right to sell, or to prevent sale or other disposition of a reported security, since such power can be utilized to influence carrier operations. In addition, we have modified that portion of the proposed report which covers disclosure of voting rights, so as to require identification of (1) persons who had either the power to issue instructions as to how any such voting shares should be voted or the power to vote such shares in the event that no instructions were issued; and (2) persons whom the reporting person was instructed to designate as his proxy in voting such shares. Voting instructions are materials which banks, brokers and other financial intermediaries handle in the normal course of their business operations, so that the burden entailed in furnishing such information to the Board would appear to be de minimis.

Merrill Lynch's concern that the proposed rule will require information from brokers to which they are not privy, is unfounded. The proposed rule was intended to require identification of those persons holding various rights of ownership to air carrier securities only insofar as such information is known to the person submitting the report.[11] However, since the proposed rule was not entirely explicit on this point, we have modified §§ 245.12 and 245.14 to indicate that if the person reporting is a trustee, he shall be required to identify in his report only those persons who are known by him to possess any of the various powers and rights enumerated therein with respect to a reported security. No parallel modification is being made with respect to to reports required of beneficial owners since they are expected to know if anyone else has the power to vote their shares or to exercise other rights with respect to their shares.

Reports by Officers and Directors. Allegheny requests the Board to except officers and directors of air carriers from the requirement to file a report of acquisition under proposed § 245.13. It contends that since, under Subpart A, all officers and directors owning any amount of air carrier stock must report their ownership annually, and since all new holdings acquired by an officer or director during any 1-year period will show up in their succeeding annual report, inclusion of such persons within the scope of § 245.13 is unnecessary. We will not grant this request. Although Allegheny is correct in its assertion that an officer's or director's annual reports will disclose his acquisition of shares during the period covered by the report, our experience is that, with several notable exceptions, it is so rare for an officer or director to own a significant block of air carrier stock, that we think it desirable that the Board be apprised of any such acquisition without awaiting filing of annual reports.

Acquisition reports. Delta questions whether proposed § 245.13(c)(2) adequately fulfills Part 245 objectives, insofar as the owner of more than 5 percent of the capital stock of a carrier, who has filed an annual report or acquisition report, is excepted from filing a report with respect to any additional acquisition of that carrier's shares. It is pointed out for example, that, during the interval between the date a person acquires 5 percent of a carrier's stock and the date on which he files an annual report, it would be possible for him to acquire a considerable number of shares in addition to those already disclosed to the Board, and thereby be in a position to exercise a greater degree of control over the carrier. We are therefore requested by Delta to modify the proposed rule so as to require the owner of more than 5 percent of the stock of a carrier to file a report within 10 days after the close of any calendar month in which there has been a change in such ownership; this would be similar to SEC practice, which is to require 10 percent security owners to file such special reports.

While this proposal has some merit, we are reluctant to encumber 5-percent shareholders of air carriers with the stringent reporting obligations urged by Delta, and, therefore, we adhere to our proposed requirement. The Board's staff has heretofore encountered no difficulty in monitoring the further stock acquisition activities of known 5-percent carrier shareholders, and we need not at this time deal with the problem.

[9] ABA, First National and NYCH also request that banks and brokers be permitted to file the quarterly report within 30 days after the end of each calendar quarter, instead of within 10 days as proposed. In their view, while 10 days may be adequate for the beneficial owner to file the annual report or report of acquisition, it is not practicable to require banks and brokers to prepare a quarterly report, covering a potentially large number of accounts, within 10 days after the end of each quarter. We agree and, accordingly, are making an appropriate modification to § 245.14.

[10] No such exception will be made for large family trusts, as urged by ABA. In addition to the obvious problem involved in defining what is meant by a "large family" trust we do not believe that the identification of the beneficial owners of the airline securities held in such trusts will impose an unreasonable administrative burden on the reporting entity. However, in cases where the requirement would cause hardship to the reporting entity, the Board would consider granting a waiver upon application and a proper showing.

[11] For example, where reported securities are held in an account maintained with a bank if the customer directs the bank to issue its proxy to another person, the bank would be required to disclose, in its quarterly report, the name and address of such other person.

Miscellaneous proposals. Several other matters require comment.[12]

1. ABA urges elimination of the phrase "or capital of an air carrier" where it is used in Part 245, and suggests substitution of the phrase "or equity interests of an air carrier." It is argued that an examination of the legislative history of the Act indicates that neither Congress nor the Board has intended to cause banks holding debt obligations of an air carrier to report such holdings, and that indeed it is clear from the rule making notice that the Board here intends to cover only "equity interests." However, the term "capital" was not intended to include debt obligations as such. That term is used in section 407(b), and was intended to cover ownership interests in air carriers which are not organized as corporations and which do not have stock, voting or otherwise—e.g., air carriers, such as air freight forwarders, which may actually operate as single proprietorships or partnerships. Accordingly, ABA's request is rejected.

2. We have adopted ACAP's suggestion to require a reporting corporation to identify each of its shareholders who holds more than 5 percent of its outstanding securities, instead of 10 percent as originally proposed. Accordingly, we are modifying § 245.12 to incorporate ACAP's proposal. As modified, the rule is in alinement with a parallel requirement for corporate affiliates of air carriers in Part 246, and should better enable the Board to determine whether a reporting corporation is controlled by or in a common control relationship with persons obliged to protect competing interests.[13]

3. Part 245 and section 407(b) of the Act embody the definition of "air carrier" in section 101(3) of the Act.[14] ACAP suggests that, for the purpose of Part 245, we should interpret this definition to include any person owning or controlling 100 percent of the voting securities of an air carrier, on the grounds that unless 5-percent shareholders of an air carrier's parent company are required to report under Part 245, there exists a significant hiatus in the protection afforded by the present shareholder reporting system. Under ACAP's proposal, those persons owning beneficially or as trustees 5 percent or more of the outstanding capital stock or capital of a company holding 100-percent control of an air carrier should be required to file reports as if they were stockholders of the wholly owned subsidiary air carrier.

ACAP's suggestion will strengthen our stock disclosure rules considerably, and we will adopt it. Although the parent of a wholly-owned subsidiary air carrier might not itself be an "air carrier" as defined in section 101(3) of the Act, section 407(e) of the Act provides, in relevant part: "The provisions of this section shall apply to the extent found by the Board to be reasonably necessary for the administration of the Act, to persons having control over any air carrier, or affiliated with any air carrier within the meaning of section 5(8) of the Interstate Commerce Act, as amended." The regulatory problem which prompted Congress to enact the shareholder reporting amendments to section 407(b)—i.e., that persons representing other interests could covertly acquire 10 percent of an air carrier's stock, which constitutes presumptive control under section 408(f) of the Act—is obviously present where control is acquired of a holding company owning substantially all of the voting stock of an air carrier.

Accordingly, we find that it is necessary, to enable the Board to administer the stock disclosure system prescribed by Congress in section 407 of the Act, to treat a company owning an air carrier as if it were itself the air carrier for the purpose of applying the reporting requirements which section 407(b) imposes on air carriers and their 5-percent shareholders. We do not at this time find it necessary to apply these reporting requirements to every parent company which has control of an air carrier through ownership of a simple majority interest, and we shall therefore limit our finding under section 407(e) only to companies which own at least 95 percent of an air carrier's voting stock. Such companies may reasonably be considered as virtual alter egos of the air carrier. Subpart B of Part 245 of the Board's regulations will thus apply also to persons owning, beneficially or as trustee, 5 percent or more of the capital stock or capital of a company owning 95 percent of the voting stock of an air carrier.

By the same token, we also find it necessary under section 407(e) to apply the reporting requirements of section 407(c) of the Act (reports of officers and directors) to officers and directors of a holding company owning 95 percent or more of the voting stock of an air carrier. Accordingly, we are now amending the definition of "air carrier" in Subpart A of Part 245, implementing section 407(c) of the Act, in the same manner as we are amending the definition of "air carrier" in Subpart B, in order to reflect the aforementioned modifications.

Our determination to apply the foregoing reporting requirements to 95-percent holding companies of air carriers does not rest solely on our findings pursuant to section 407(e) of the Act. Thus, the Board has held, in connection with applying other sections of the Act to holding companies, that in appropriate situation it will disregard the separate corporate entities where failure to do so might defeat the legislative purpose behind the statute.[15] We think this long-standing precedent also provides ample authority for the Board to require reports of stock ownership from shareholders and officers and directors of entities which have gained control of all or substantially all of the voting stock of an air carrier.

However, since application of the Part 245 reporting requirements to shareholders, officers, and directors of air carrier parent companies obviously imposes a burden on such persons, and since this change was not proposed in EDR–216, we shall allow petitions for reconsideration of the aforedescribed amendments to §§ 245.1 and 245.11. Twelve copies of such petitions shall be filed with the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428, on or before December 29, 1972. Copies of any petition filed will be available for examination by interested persons in the Docket Section.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 245 of the Economic Regulations (14 CFR Part 245) effective December 29, 1972, as follows:

1. Amend the table of contents to Subpart B to read as follows:

Subpart B—Reports of Owners of More Than 5 Per Centum of Any Class of Capital Stock or Capital of an Air Carrier

Sec.
245.11 Definitions.
245.12 Annual report.
245.13 Report of acquisition.
245.14 Quarterly report by banks and brokers.
245.15 Report of security transactions.
245.16 Responsibility of carriers.

AUTHORITY: The provisions of this Subpart B issued under sections 204(a), and 407, 72 Stat. 743, 766; 49 U.S.C. 1324, 1377. Interpret or apply section 101(3) of the Federal Aviation Act of 1958, as amended, 72 Stat.; 49 U.S.C. 1301.

2. Amend § 245.1 to read as follows:

§ 245.1 Reports required.

At the times and in the manner provided in this subpart, each officer and each director of each air carrier shall transmit to the Board (Attention Director, Bureau of Operating Rights) a report describing the shares of stock or other interests held by him in any air carrier, any person engaged in any phase of aeronautics, or any common carrier, and in any person whose principal business, in purpose or in fact, is the holding of stock in, or control of, air carriers,

[12] See, *e.g.*, Studebaker Corp., et al., Order E–19014, Nov. 15, 1962, and Vernon Stouffer and United Air Lines, Inc., Order 70–10–33, Oct. 6, 1970.

other persons engaged in any phase of aeronautics, or common carriers. For

(2) Name and address of bank or broker reporting.
(3) Number and class of shares held

(a) To notify each shareholder of record owning more than 1 percent of any class of its capital stock, or capital, of

CFR 203.6 relating to the right of a witness to obtain a copy of the transcript of his testimony taken in a nonpublic

XUM

other persons engaged in any phase of aeronautics, or common carriers. For the purpose of this subpart, "air carrier" means air carrier as defined in section 101(3) of the Act, and includes any person who owns 95 percent or more of the outstanding voting securities of any such air carrier, but does not include air carriers relieved or exempted from section 407(b) of the Act. "Persons" means any individual, firm, partnership, corporation, company, association, or any two or more persons acting in concert or under common control or direction.

3. Amend the footnote to § 245.1 to read as follows:

[6] See, *e.g.*, § 29811(*f*) of Part 298, § 373.3 of Part 373 and § 378.3 of Part 378 of this chapter exempting air taxi operators, study group charterers, and inclusive tour operators, respectively.

4. Amend Subpart B to read as follows:

Subpart B—Reports of Owners of More Than 5 Per Centum of Any Class of Capital Stock or Capital of an Air Carrier

§ 245.11 Definitions.

As used in this subpart, unless the context otherwise requires;

"Air carrier" means air carrier as defined in section 101(3) of the Act, and includes any person who own 95 percent or more of the outstanding voting securities of any such air carrier, but does not include air carriers relieved or exempted from section 407(b) of the Act.[16]

"Bank" means any person primarily engaged in business as a commercial bank or trust company, or both, and subject to regulation or examination under the laws of the United States or of any State.

"Broker" means any person engaged in the business of effecting transactions in securities for the account of others, but not a bank.

"Person" means an individual, firm, partnership, corporation, company, association, or any two or more persons acting in concert or under common control or direction.

"Shares" and "Shareholdings," or "stock" and "stockholdings" shall include any interest in the capital or capital stock of an air carrier.

"Trustee" means any person, other than a beneficial owner, who holds record ownership of shares: *Provided, however,* That, where a nominee of a bank or broker holds record ownership of shares, then the bank or broker, rather than its nominee, shall be deemed to be the trustee hereunder.

§ 245.12 Annual report.

(a) *Time for reporting.* On or before April 1 of each year, every person owning, either beneficially or as trustee, more than 5 per centum of any class of the capital stock or capital, as the case may be, of an air carrier shall file with the Board (Attention, Director, Bureau of Operating Rights) a report covering such shares or other interest owned as of December 31 of the preceding year: *Provided, however,* That this section shall not apply to a bank or broker insofar as it is a trustee, nor to an officer or director of an air carrier who has complied with the reporting requirement of Subpart A of this part.

(b) *Contents of annual report.* The reports required by this section shall include the following:

(1) Name of air carrier in which stockholdings are being reported.

(2) Name and address of person reporting.

(3) Number and class of shares covered and percentage of such shares to total outstanding capital, or a description of any other interest held, as of December 31 of the preceding year.

(4) Maximum number of each class of shares covered and percentage of such shares of each class to total outstanding capital during the preceding year.

(5) (i) If the person reporting is the beneficial owner, state the name and address of each person who was a trustee of any such shares and the number and class of shares of which he was trustee, during the preceding year. The reporting beneficial owner shall also state the name and address of each person (e.g., the reporting beneficial owner himself, the trustee and/or any third person or persons), who had or exercised (*a*) the power to issue instructions as to how any such voting shares should be voted; (*b*) the power to vote any such shares in the event that no instructions were issued; or (*c*) the right to sell, prevent sale or otherwise dispose of any such shares, during the preceding year. The number and class of shares so reported shall be stated.

(ii) If the person reporting is a trustee, state the name and address of each individual beneficial owner of any such shares, and the number and class of shares of which he was beneficial owner, during the preceding year: *Provided, however,* That if the trustee is reporting with respect to shares held in a retirement, pension or profit sharing trust or fund, then he need state only the name and address of the person(s) who established the trust or fund, and the name of the trustees thereof, and describe the class of persons who were the beneficiaries (e.g., "Employees of XYZ Corporation" or "Members of XYZ Union"). The reporting trustee shall also state the name and address of each person (e.g., the reporting trustee himself, the beneficial owner, and or third person or persons) who was known by him to have had or exercised (*a*) the power to issue instructions as to how any of such voting shares should be voted; (*b*) the power to vote any such shares in the event that no instructions were issued; (*c*) the power to vote any such shares pursuant to issued instructions; (*d*) the power to sell, prevent sale or otherwise dispose of any such shares, during the preceding year. The number and class of any shares so reported shall be stated.

(6) (i) If the person reporting is itself a corporation, set forth the name and address of each person holding more than 5 percent of the beneficial or record ownership of any class of the capital stock of the reporting corporation, and a description of the percentage of its shares of any class held by each such shareholder, indicating whether such class is voting, nonvoting, common or preferred.

(ii) If the person reporting is a partnership, association or a joint venture, set forth the names and addresses of all partners, associates or joint venturers and a description of their respective interests in the person reporting.

(7) A description of the principal occupation or business activity of each person named in the report, including the person reporting. Such description shall include, with respect to any named person performing common carrier service, the geographical area authorized to be served, and the nature of any license held by such person to perform such service.

§ 245.13 Report of acquisition.

(a) *Time for reporting.* Every person acquiring ownership, either beneficially or as trustee, of more than 5 percent, in the aggregate, of any class of the capital stock or capital of an air carrier, shall within 10 days after acquiring such ownership, file with the Board (Attention, Director, Bureau of Operating Rights) a report covering the share or the interest so acquired.

(b) *Contents of report of acquisition.* A report filed under this section shall contain the information specified in § 245.12(b), except that the information required by paragraph (b)(3) thereof shall be computed as of the date of acquisition.

(c) *Exceptions.* (1) A bank or broker, to the extent that it acquires stock as a trustee, need not file a report of acquisition.

(2) A person who owns, either beneficially or as trustee, more than 5 percent of any class of the capital stock or capital of an air carrier and has filed a report of acquisition under this section, or an annual report under § 245.12, need not file an additional report under this section with respect to an acquisition of additional shares of such carrier.

§ 245.14 Quarterly report by banks and brokers.

(a) *Time for reporting.* A bank or broker which holds as trustee more than 5 percent of any class of the capital stock or capital of an air carrier shall file with the Board (Attention, Director, Bureau of Operating Rights), within 30 days after the last day of each calendar quarter (i.e., March 31, June 30, September 30, and December 31), a report covering the shares so held on the last day of such quarter.

(b) *Contents of quarterly report.* The report required by this section shall include the following:

(1) Name of air carrier in which stockholdings are being reported.

[16] See footnote 6.

(2) Name and address of bank or broker reporting.

(3) Number and class of shares held as trustee.

(4) Number of accounts for which it holds such shares.

(5) Name and address of each person, if any, holding such shares as nominee for the bank or broker reporting and the number and class of shares so held by such nominee.

(6) As to any account for which it holds shares amounting to 1 percent or more of any class of the capital stock of the air carrier covered by the report, there shall also be stated:

(i) The name and address of each person for which such account is held: *Provided, however,* That if the shares covered by the report required in this subparagraph (6) are held in a retirement, pension or profit-sharing trust or fund, then the reporting trustee need state only the name and address of the person(s) who established the trust or fund and the names of the trustees thereof, and describe the class of persons who were beneficiaries (e.g., "Employees of XYZ Corporation" or "Members of XYZ Union").

(ii) The number and class of shares held for each such account and the percentage of such shares to the total outstanding capital stock of the air carrier as of the last day of the quarter covered by the report.

(iii) Each person (e.g., the reporting trustee, the beneficial owner and/or any third person or persons) who was known by said trustee to have had or exercised (*a*) the power to issue instructions as to how any of such voting shares should be voted; (*b*) the power to vote any such shares in the event that no instructions were issued; (*c*) the power to vote any such shares pursuant to issued instructions; (*d*) the power to sell, prevent sale or otherwise dispose of any such shares during the preceding quarter. The number and class of any shares so reported shall also be stated.

§ 245.15 Report of security transactions.

Any person subject to this subpart who has granted, pledged, assigned, hypothecated or otherwise transferred a security interest in more than 5 percent of any class of the capital stock or capital of an air carrier to another person shall, within 30 days after such transaction, file with the Board (Attention, Director, Bureau of Operating Rights) a report containing the following information:

(a) The name and address of the person to whom the security interest was granted.

(b) The term of the security agreement.

(c) A brief description of the rights accruing to the holder of the security interest, including the remedies available to him in the event of a default by the person reporting.

§ 245.16 Responsibility of carriers.

It shall be the responsibility of every air carrier, as defined in § 245.11:

(a) To notify each shareholder of record owning more than 1 percent of any class of its capital stock, or capital, of the requirements of this part by mailing to such persons a copy of this subpart on or before March 1 of each year; and

(b) To include in its annual report to shareholders a notice that: (1) Any person who either owns, as of December 31, of the year preceding issuance of such annual report, or subsequently acquires, beneficially or as trustee, more than 5 percent, in the aggregate, of any class of the capital stock or capital of the air carrier, shall file with the Board a report containing the information required by § 245.12, on or before April 1, as to the capital stock or capital owned as of December 31, of the preceding year, and, in the case of stock subsequently acquired, a report under § 245.13, within 10 days after such acquisition, unless such person has otherwise filed with the Board a report covering such acquisition or ownership; (2) any bank or broker covered by (i), to the extent that it holds shares as trustee on the last day of any quarter of a calendar year, shall file with the Board, within 30 days after the end of the quarter, a report in accordance with the provisions of § 245.14; and (3) any person required to report under this subpart who grants a security interest in more than 5 percent of any class of the capital stock or capital of the air carrier shall within 30 days after granting such security interest file with the Board a report containing the information required in § 245.15. The notice shall also state that any shareholder who believes that he may be required to file such a report may obtain further information by writing to the Director, Bureau of Operating Rights, Civil Aeronautics Board, Washington, D.C. 20428.

NOTE: The reporting requirements herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR, *Acting Secretary.*

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release Nos. 33-5331, 34-9862, 35-17765, 39-327, IC-7501, IA-350.]

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

PART 203—RULES RELATING TO INVESTIGATIONS

Right of Witness To Obtain Copy of Transcript of His Testimony Taken in a Nonpublic Investigation

The Commission has amended Rule 6 of its rules relating to investigations 17 CFR 203.6 relating to the right of a witness to obtain a copy of the transcript of his testimony taken in a nonpublic investigation. Under the amended rule the witness shall continue to have an absolute right to inspect his testimony, but the Commission may for good cause deny his request for a copy of his testimony.

The change has been effected by amending the second sentence in Rule 6 of the Commission's rules relating to investigations.

In making this change the Commission is returning to the practice followed in its private investigations prior to November 27, 1970. That practice was specifically authorized by the Administrative Procedure Act (5 U.S.C. section 555(c)) and upheld in Commercial Capital Corp., et al. v. Securities and Exchange Commission, 360 F. 2d 856 (C.A. 7, 1966). The exception to a witness's right to procure a copy of his transcript had been added to an earlier draft of the Administrative Procedure Act after this Commission has advised the congressional committees that "the furnishing of transcripts of testimony taken * * * [in private hearings] is a matter which should depend upon the likelihood of the transcript being used to defeat the discovery of facts essential to administration of the congressional policy laid down in the statutes authorizing the investigation." [1] The Commission pointed out, "Where transcripts are made available to witnesses, there is no way of guarding against their being made available to the persons whose activities are the principal subject of investigation." (*Ibid.*) In this connection it noted:

> In cases where the investigation involves examination of employees of the suspected law violator, the employees may be under considerable pressure from the employer, who may demand that they request, ostensibly on their own account, and turn over to it transcripts of their testimony. If a witness subject to such intimidation is entitled to a transcript of his testimony as a matter of law, he may be unwilling to testify fully and truthfully.

Id. at p. 17.

On October 16, 1962, the Administrative Conference of the United States recommended that agencies should afford all persons the opportunity to procure a copy of any transcript made of their evidence. At that time the Commission declined to implement that recommendation, but did so on November 27, 1970. In its subsequent experience the Commission has found that its previous fears were justified.

Technical amendments necessitated by the foregoing action have also been made to the rules delegating certain authority to the Director of the Division of Corporation Finance, the Director of the Division of Enforcement, the Director of the Division of Market Regulation, the Director of the Division of

[1] Comments of the Securities and Exchange Commission on S. 7 (Appendix p. 16), submitted on July 25, 1945, to the Senate and House Committees on the Judiciary, 79th Cong., first session.

Investment Company Regulation, and the Regional Administrators, as indicated below. The effect of these amendments is to delegate to such officials the authority to grant requests for copies of transcripts of testimony.

Commission Action: Pursuant to authority set forth in section 19 of the Securities Act of 1933, section 23(a) of the Securities Exchange Act of 1934, section 20 of the Public Utility Holding Company Act of 1935, section 319 of the Trust Indenture Act of 1939, section 38 of the Investment Company Act of 1940, section 211 of the Investment Advisers Act of 1940, and section 1 of Public Law 87–592, the Commission hereby amends §§ 200.30–1(i), 200.30–2(b)(2), 200.30–3(c), 200.30–4(a)(2), 200.30–5(d), 200.30–6(d), and 203.6 of Chapter II of Title 17 of the Code of Federal Regulations, as follows:

§§ 200.30–1—200.30–5 [Amended]

I. Paragraph (i) of § 200.30–1, subparagraph (2) of paragraph (b) of § 200.30–2, paragraph (c) of § 200.30–3, subparagraph (2) of paragraph (a) of § 200.30–4, and paragraph (d) of § 200.30–5 are amended by deleting certain language, and by adding new language reading "or Deputy Director" immediately after the word "Director" and by adding new language reading "subsequent to November 16, 1972 [17 CFR 203.6]" immediately after the word "effect" so that as amended each shall read as follows:

In nonpublic investigatory proceedings, within the responsibility of the Director or Deputy Director to grant requests of persons to procure copies of the transcript of their testimony given pursuant to Rule 6 of the Commission's rules relating to investigations as in effect subsequent to November 16, 1972 [17 CFR 203.6].

II. In § 200.30–6, present paragraph (d) is redesignated as paragraph (e); and a new paragraph (d) is inserted reading as follows:

§ 200.30–6 Delegation of authority to Regional Administrators.

* * * * *

(d) In nonpublic investigatory proceedings within the responsibility of the Regional Administrator, to grant requests of persons to procure copies of the transcript of their testimony given pursuant to Rule 6 of the Commission's rules relating to investigations as in effect subsequent to November 16, 1972 [17 CFR 203.6].

(e) Notwithstanding anything in the foregoing, in any case in which the Regional Administrator believes it appropriate, he may submit the matter to the Commission.

III. The second sentence in § 203.6 is amended, and as so amended § 203.6 reads as follows:

§ 203.6 Transcripts.

Transcripts, if any, of formal investigative proceedings shall be recorded solely by the official reporter, or by any other person or means designated by the officer conducting the investigation. A person who has submitted documentary evidence or testimony in a formal investigative proceeding shall be entitled, upon written request, to procure a copy of his documentary evidence or a transcript of his testimony on payment of the appropriate fees: *Provided, however,* That in a nonpublic formal investigative proceeding the Commission may for good cause deny such request. In any event, any witness, upon proper identification, shall have the right to inspect the official transcript of the witness' own testimony.

(Sec. 4(b), 48 Stat. 885, sec. 1106(a), 63 Stat. 972, 15 U.S.C. 78d(b); sec. 1, 76 Stat. 394, 15 U.S.C. 78d–1; secs. 19, 209, 48 Stat. 85, 908, 15 U.S.C. 77s; sec. 23(a), 48 Stat. 901, sec. 8, 49 Stat. 1379, 15 U.S.C. 78w(a); sec. 20, 49 Stat. 833, 15 U.S.C. 79t; sec. 319, 53 Stat. 1173, 15 U.S.C. 77sss; sec. 38, 54 Stat. 841, 15 U.S.C. 80a–37; sec. 211, 54 Stat. 855, sec. 14, 74 Stat. 888, 15 U.S.C. 80b–11)

The Commission finds that the foregoing amendments relate only to rules of agency organization, procedure and practice and, therefore, the provisions of 5 U.S.C. 553 relating to notice and procedures are not applicable. The foregoing amendments are declared to be effective with respect to all testimony given in private investigations commencing on or after the date this rule is published in the FEDERAL REGISTER, but shall not be applicable with respect to any testimony given before that date in any private investigation.

By the Commission.

[SEAL] GLADYS E. GREER,
Assistant Secretary.

NOVEMBER 16, 1972.

[FR Doc.72–20329 Filed 11–27–72;8:46 am]

[Release No. 34–9865]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Exemption of Certain Mortgages and Interests in Mortgages

The Securities and Exchange Commission today announced the adoption of Rule 3a–12–1 (17 CFR 240.3a–12–1) under the Securities Exchange Act of 1934. Under the new rule mortgages and interests in mortgages (as defined in section 302(d) of the Emergency Home Finance Act of 1970) sold by the Federal Home Loan Mortgage Corporation[1] (hereinafter referred to as "FHLMC") will become "exempt securities" under section 3(a)(12) of the Securities Exchange Act.

The Emergency Home Finance Act of 1970 was enacted by Congress after determining that the nation needed more capital in mortgages and that this could be best accomplished by the establishment of a liquid market in residential mortgages. FHLMC was established by this Act with the power "to make and enforce such bylaws, rules and regulations as may be necessary or appropriate to carry out the purposes or provisions of this title."[2]

FHLMC has designed and is ready to implement at this time two programs ("group programs" and "whole loan programs") to expand the secondary market in conventional (not guaranteed or insured by a Federal or State agency) mortgages on residential property. In both programs FHLMC will purchase mortgages that have been originated by a financial institution whose deposits or accounts are insured by an agency of the United States, and which meet generally the purchase standards imposed by private institutional mortgage investors.[3] These mortgages will then be sold by FHLMC according to one of the two programs. FHLMC contemplates that under both these programs a minimum purchase of $100,000 will be required so that the buyers will tend to be institutional investors, such as pension funds and insurance companies.

The "group programs" would involve the formation by FHLMC of groups of the mortgages, and then the sale by FHLMC of undivided interests in these groups. The minimum size group would contain mortgages with an initial aggregate unpaid principal balance of $5 million. The mortgages in each group would be serviced by the originators, although FHLMC would supervise the servicing and would collect from the servicers and remit to the purchaser all principal and interest payments on the mortgages (less servicing costs) in the group, and would also act as transfer agent.

Under the "whole loan programs" the mortgages would not be grouped but, rather, sold on a whole loan basis. These programs would be designed for institutional investors with particular requirements.

The Commission has decided to adopt Rule 3a–12–1, in view of the congressionally determined public need for more capital in mortgages, FHLMC's abilities and desire to regulate this field to the extent necessary and the probable lack of small investor participation. The principal impact of the new rule is that broker-dealers dealing solely in these mortgages and other exempt securities will not be subject to the registration and net capital requirements and other provisions of the Securities Exchange Act of 1934, which are not by their terms applicable to "exempt securities."

It should be borne in mind that transactions in the securities exempted by section 3(a)(12) or Commission rules adopted under that section are still subject to the antifraud provisions of the Act and implementing Commission rules under those provisions.

The new rule was adopted pursuant to authority conferred on the Securities and Exchange Commission by the Securities Exchange Act of 1934, particularly sections 3(a)(12) and 23(a) thereof.

Because the effect of the above described amendment would be to relax certain of the requirements of the Securities Exchange Act of 1934, the Commission finds that, for good cause the notice and procedure specified in the Administrative Procedure Act, 5 U.S.C. 553, is unnecessary, and accordingly it adopts Rule 3a–12–1 effective November 17, 1972.

Commission action. The Securities and Exchange Commission acting pursuant to the provisions of the Securities Exchange Act of 1934, and more particularly section 3(a)(12) thereof, hereby amends Part 240 of Chapter II of Title 16 of the Code of Federal Regulations by adopting § 240.3a–12–1 as set forth below.

§ 240.3a–12–1 Exemption of certain mortgages and interests in mortgages.

Mortgages, as defined in section 302(d) of the Emergency Home Finance Act of 1970, which are or have been sold by the Federal Home Loan Mortgage Corporation are hereby exempted from the operation of such provisions of the Act as by their terms do not apply to an "exempted security" or to "exempted securities".

(Sec. 3(a)(12), 48 Stat. 882, 15 U.S.C. 78(c))

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

[FR Doc.72–20328 Filed 11–27–72;8:46 am]

[1] FHLMC was established by title III of the Emergency Home Finance Act of 1970, cited as the "Federal Home Loan Mortgage Corporation Act," Public Law 91–351, 84 Stat. 451–458, 12 U.S.C. § 1451–1459. Its capital stock consists solely of nonvoting common stock held by the 12 Federal Home Loan Banks and its Board of Directors is composed of the three members of the Federal Home Loan Bank Board. It is an integral part of the Federal Home Loan Bank System.

[2] 12 U.S.C. section 1452(b)(3).

[3] Section 305(a)(1) of the Federal Home Loan Mortgage Corporation Act states that FHLMC can purchase only those mortgages that meet both requirements. FHLMC has determined that the private institutional mortgage investors standards at this time include the requirement that the originator warrant to FHLMC and to subsequent purchasers that the mortgages are valid first mortgages not in default.

In those cases where a medal, or a bar, emblem, or insignia in lieu thereof, awarded pursuant to this chapter (13) has been lost, destroyed, or rendered unfit for use without fault or neglect on the part of the person to whom it was awarded, such medal, or bar, emblem, or insignia in lieu thereof, shall be replaced without charge, or in the discretion of the Secretary, upon condition that the Government is reimbursed for the cost thereof.

To implement this statute, the Coast Guard promulgated in the August 2, 1967, issue of the FEDERAL REGISTER (32 F.R. 11211), regulations which provide for a medal, or a bar, emblem, or insignia in lieu thereof, that is lost, destroyed, or rendered unfit for use without fault or neglect on the part of the person to whom it was awarded by the Coast Guard, to be replaced without charge. For situations not meeting this criterion, costs for replacement of a medal, bar, emblem, and insignia were published.

Since first issued, these costs have not been updated and do not reflect current charges. The amendment in this document changes the costs to reflect current charges. In addition, textual material has been changed for clarification without any change in substance.

Since the amendment in this document relates to general statements of policy, it is exempted from notice of proposed rule making and may be made effective in less than 30 days.

In consideration of the foregoing, Subpart 1.26 of title 33, Code of Federal Regulations is amended as follows:

1. By revising § 1.26–5 to read as follows:

§ 1.26–5 Replacement of medals.

(a) A medal, or a bar, emblem, or insignia in lieu thereof, that is lost, destroyed, or rendered unfit for use without fault or neglect on the part of the person to whom it was awarded by the Coast Guard is replaced without charge by the Coast Guard as authorized in 14 U.S.C. 501.

(b) A medal, or a bar, emblem, or insignia in lieu thereof, that is lost, destroyed, or rendered unfit for use due to the fault or neglect of the person to whom it was awarded, is replaced after the Coast Guard is reimbursed for its cost, as contained in Table 1.26–5(b).

TABLE 1.26–5(b)

COST OF A REPLACEMENT MEDAL

Item	Cost
(1) Cost Guard Distinguished Service Medal	$33.00
(i) Miniature	23.50
(ii) Hinged-lid case	1.78
(2) Legion of Merit (Degree of Legionnaire) with case	12.50
(3) Distinguished Flying Cross and case	6.25
(4) Coast Guard Medal (for heroism)	17.00
(i) Miniature	12.50
(ii) Hinged-lid case	1.78
(5) Meritorious Service Medal and case	6.00
(6) Air Medal and case	5.75
(7) Coast Guard Commendation Medal	18.00
(i) Miniature	18.00
(ii) Hinged-lid case	1.78
(8) Coast Guard Achievement Medal	10.50
(i) Miniature	6.50
(ii) Hinged-lid case	1.78
(9) Gold Lifesaving Medal	178.00
(i) Miniature	73.00
(ii) Hinged-lid case with red lining	11.00
(10) Silver Lifesaving Medal	73.00
(i) Miniature	58.00
(ii) Hinged-lid case with blue lining	11.00
(11) Coast Guard Unit Commendation Ribbon	2.50
(12) Coast Guard Good Conduct Medal	3.75
(13) World War I Victory Medal	2.50
(14) American Area Campaign Medal	2.50
(15) European-African Middle Eastern Area Campaign Medal	2.50
(16) Asiatic-Pacific Area Campaign Medal	2.50
(17) American Defense Service Medal—Fleet, Sea, and Base Clasps	2.50
(18) World War II Victory Medal	2.50
(19) Navy Occupation Service Medal—Europe or Asia Clasps	3.25
(20) China Service Medal (1945–1957)	2.50
(21) National Defense Service Medal	2.50
(22) Korean Service Medal	2.50
(23) Antarctic Service Medal	3.00
(24) Armed Forces Expeditionary Medal	2.50
(25) Coast Guard Armed Forces Reserve Medal	3.00
(26) Coast Guard Expert Rifleman Medal	5.00
(27) Expert Pistol Shot Medal	5.00
(28) Coast Guard Distinguished Marksman Badge, Gold	63.00
(i) Ribbon attachment	1.00
(29) Coast Guard Excellence-In-Competition Badge:	
(i) Rifle or Pistol, Silver	21.00
(ii) Rifle or Pistol, Bronze	17.00
(iii) Ribbon Attachment, Silver or Bronze Medallion	1.00
(30) R. R. Waesche Rifle Team Trophy, Bronze Medallion	10.00
(31) F. C. Billard Pistol Team Trophy, Bronze Medallion	10.00
(32) United Nations Service Medal	2.50
(33) Vietnam Service Medal	2.50

(Sec. 1, 63 Stat. 537, 545, sec. 6(b(1), 80 Stat. 937; 14 U.S.C. 501, 633, 49 U.S.C. 1655(b)(1); 49 CFR 1.46(b))

Effective date. This amendment shall become effective on November 30, 1972.

Dated: November 21, 1972.

C. R. BENDER,
Admiral, U.S. Coast Guard Commandant.

[CGD 72–207 R]

PART 1—GENERAL PROVISIONS

Fees and Charges for Certain Records and for Duplicate Documents, Certificates, or Licenses

The purpose of this amendment to the user fee regulations is to reflect the current costs for the replacement of medals awarded by the Coast Guard.

Section 501 of title 14, United States Code, provides the following:

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

SUBCHAPTER A—GENERAL

[CGD 72–227R]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Humble Canal, La.

This amendment adds regulations for the State Highway 55 drawbridge across

the Humble Canal, mile 0.0 near Point Barre to allow the draw to remain closed for the passage of vessels from Janu-

Camellia City Telecasters, Inc., licensee of Station KTXL(TV), Sacramento filed comments in the nature of a counter-

ments, requested that Channel 15 be assigned to Merced for television use. To permit such an assignment, KTXL (TV)

majority of Merced County. Pappas claims that such a satellite would compete with KMPH and two other independent UHF stations (one in Fresno

law also points out that the "freeze" on Channel 15 is consistent with other cases involving the "land mobile" decision.

13. All the parties filing opposing com-

signal to approximately three-fourths of Merced County including Merced. The "Factbook" indicates that the cable system operating in Merced which serves

the Humble Canal, mile 0.0 near Point Barre to allow the draw to remain closed for the passage of vessels from January 29, 1973, through March 11, 1973, while essential maintenance is performed.

This rule is issued without notice of proposed rule making. The Coast Guard has found that good cause exists for taking this action on the basis that it would be contrary to the public interest to delay this work.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by adding § 117.545 immediately after § 117.535 to read as follows:

§ 117.545 Humble Canal, Point Barre, La.

The draw of this bridge shall operate in accordance with § 117.240 except that from January 29, 1973, through March 11, 1973, the draw need not be opened for the passage of vessels while necessary repairs to the bridge are being performed.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall be effective from January 29, 1973, through March 11, 1973.

Dated: November 15, 1972.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 19511; FCC 72-1025]

PART 73—RADIO BROADCAST SERVICES

Television Broadcast Stations in Vallejo-Fairfield and Sacramento, Calif.

Second report and order. In the matter of amendment of § 73.606(b), *Table of assignments,* Television Broadcast Stations (Vallejo-Fairfield and Sacramento, Calif.), Docket No. 19511, RM-1839.

1. On September 19, 1972, the Commission released the first report and order (FCC 72-821) in this proceeding that provided for the shifting of Channel 31 from Stockton, Calif., to Sacramento, Calif., and the assignment of Channel 64 to Stockton. This was our disposition of the Grayson Television Company, Inc., proposal (RM-1948). In the notice of proposed rule making (FCC 72-428, released May 22, 1972), it was proposed that Channel 15 which is assigned to Sacramento (but could not be utilized for television broadcasting because of the land mobile rules and policies) be "frozen" at Sacramento for television use until further action of the Commission. Camellia City Telecasters, Inc., licensee of Station KTXL(TV), Sacramento filed comments in the nature of a counterproposal requesting that Channel 15 not be "frozen" at Sacramento, but assigned to Merced, Calif., by shifting certain other UHF television assignments. No action was taken on this counterproposal in the first report and order. Because of incomplete data, we also did not act on the proposed assignment of Channel 66 to Vallejo-Fairfield, Calif., that was requested by Daniel C. McGrath doing business as NorCal Telecasters (RM-1839). It is these two matters that will be disposed of in this proceeding.

THE VALLEJO-FAIRFIELD ASSIGNMENT

2. The petitioner, Daniel C. McGrath did not file any additional material in support of the proposal to assign Channel 66 to Vallejo-Fairfield, Calif., but did file a letter stating that he does intend to apply for a construction permit and that the application is 80 percent complete and he is awaiting final action on the assignment. No other comments, pro or con, were filed as to the Vallejo-Fairfield proposed assignment.

3. As set out in the notice, a television station operating on Channel 66 would provide a first local service to Vallejo-Fairfield and would also serve Vacaville, Napa, Dixon, Davis and other small communities in the counties of Solano, Yolo, Napa and southeastern Sonoma County. Mare Island Naval Shipyard and Travis Air Force Base are located in or near the communities of Vallejo and Fairfield, and Mr. McGrath claims that those installations have a combined population in excess of 100,000 persons. The San Francisco and Sacramento television stations provide a Grade A signal to the communities of Vallejo and Fairfield, but it is claimed that those stations provide little or no local area information.

4. Vallejo is located approximately 30 miles from San Francisco and 50 miles from Sacramento; Fairfield is approximately 40 miles from San Francisco and Sacramento. The "1970 U.S. Census Advance Report" shows the population of Vallejo and Fairfield to be 66,733 and 44,146 respectively. The proposed assignment meets the mileage separations of § 73.610 of the Commission's rules. We have considered the assignment proposed in the notice and find it to be in the public interest. It is hereby adopted. It will bring a first local service to the communities of Vallejo-Fairfield, California which is consistent with the priorities and policies of the Commission.

THE KTXL PROPOSAL

5. In the first report and order, the Commission shifted Channel 31 to Sacramento, Calif. from Stockton, Calif., and substituted Channel 64 at Stockton, as proposed in the notice of proposed rule making. In the notice, because of the decision in the "land mobile" proceeding, it was proposed to "freeze" Channel 15 at Sacramento so that it would not be available for television use until further action by the Commission. Camellia City Telecasters, Inc., licensee of Station KTXL (TV), Sacramento, in its comments, requested that Channel 15 be assigned to Merced for television use. To permit such an assignment, KTXL (TV) proposes a realignment of channels including substitution of Channel *60 for Channel *15 at San Luis Obispo, Calif., and requests that the Commission grant a rule making petition (RM-1964) of Capital Cities Broadcasting Corp. to substitute Channel 34 for Channel 30 at Fresno and consolidate that proposal in this proceeding.

6. Reply pleadings filed in connection with the KTXL request are opposition comments, variously titled, of Grayson Television Company, Inc., the holder of a UHF construction permit (KMUV (TV)) on Channel 31 (Channel 15 prior to the first report and order), at Sacramento; Pappas Television Inc., permittee of UHF Station KMPH, Tulare, Calif.; McClatchy Newspapers, licensee of VHF Station KOVR(TV), Stockton, and UHF Station KMJ-TV, Fresno; Capital Cities Broadcasting Corp., licensee of UHF Station KFSN-TV, Fresno; and Retlaw Enterprises, Inc., licensee of UHF Station KJEO(TV), Fresno. KTXL also filed a comment in reply. Grayson filed a motion to strike the KTXL reply comment.

7. The KTXL proposal outlined above, claims that Channel 15 can be used at Merced, located over 90 miles from San Francisco-Oakland, without restricting land mobile operations in the San Francisco-Oakland area, and that such use will be in compliance with § 91.114(b) of the Commission's rules. It is contended that the "freezing" of Channel 15 at Sacramento is an inefficient use of the frequency and that use at Merced would be more efficient. KTXL asserts that there is a potential demand for use of Channel 15 at Merced. Jack F. Matranga, the president of KTXL states in an affidavit:

> In the event that the Federal Communications Commission assigns Channel 15 to Merced, Calif., Camellia City Telecasters, Inc., will give serious consideration to applying for a satellite of Station KTXL in Merced, Calif.

KTXL also contends the use of Channel 15 at Merced, and the proposed realignment at San Luis Obispo and Fresno comply with the technical rules of the Commission. In support of this technical claim, an engineering affidavit was submitted.

8. The primary concern of Grayson in these pleadings was that its proposal to assign Channel 31 to Sacramento not be consolidated with the Camellia proposal to assign Channel 15 to Merced. Since we assigned Channel 31 to Sacramento by our first report and order in this proceeding (FCC 72-821, released September 19, 1972), we have already disposed of the Grayson request. Insofar as the pleadings support the Camellia proposal, they are dealt with herein on the merits.

9. The Pappas comments set forth that a television satellite station in Merced would serve an area overlapping the service area of KMPH. KMPH, Tulare, claims it places a predicted Grade B signal up to a point just outside Merced and that its actual Grade B contour, based on a filed affidavit of its consulting engineer appears to encompass all of Merced and the

No. 229——3

majority of Merced County. Pappas claims that such a satellite would compete with KMPH and two other independent UHF stations (one in Fresno and one in Modesto) as well as the three network affiliated UHF stations in Fresno, so that there is no lack of service in the area. Pappas claims that KTXL has not shown "one fact" which would indicate a need for another service, and that this is especially significant because only a satellite is proposed. KMPH states that would aggravate an already economically tenuous television market. Its sets forth that UHF stations in Tulare, Visalia, and Hanford have failed for economic reasons. Pappas also asserts that the KTXL proposal is properly the subject matter of a separate petition for rule making rather than a proper counterproposal, so that appropriate notice could be given to interested parties such as KMPH. Pappas further points out that there is a question that the KTXL proposal can be made because of the "land mobile" decision.

10. McClatchy in its opposition, does not comment on substantive merits of the KTXL proposal, but is of the opinion that any action on the KTXL proposal would not comply with the notice requirements of the Administrative Procedure Act and the Commission's rules. McClatchy claims that it is defective as a counterproposal because no public interest reasons have been presented why the channel should be assigned to Merced, but only presents a private reason in support of the move, and no showing has been made as to the preclusionary effect of the assignment or its effect on existing independent UHF stations.

11. Capital Cities states that the Commission's freeze of Channel 15 at Sacramento is consistent with the "land mobile" decision. Capital Cities has a pending petition (RM-1964) to substitute Channel 34 for Channel 30 for the operation of its UHF Station KFSN at Fresno. KFSN reaffirms its request as to that shift. It then points out that Merced is a part of the Fresno market and that there is a real question of the need for another service to the Fresno market. KFSN contends there has been no showing as to the need for a local service to Merced and that there has been no commitment to apply for the channel if it is assigned to Merced and that no preclusion study was submitted.

12. Retlaw, in its opposition, contends that the KTXL proposal must be rejected because of the Commission's policy of not assigning UHF channels to communities of less than 25,000 population in the absence of a specific showing of need and a commitment to build the station. It is claimed that KTXL has not met this burden. Retlaw claims that there is a plethora of service to Merced, both by off-the-air and cable television service. Retlaw also claims that no showing of impact on UHF stations has been made, and that this is especially important because of new or recently revived stations in the Fresno area which should be given an opportunity to develop without further damaging competition. Retlaw also points out that the "freeze" on Channel 15 is consistent with other cases involving the "land mobile" decision.

13. All the parties filing opposing comments, except Capital Cities, have raised the threshold question that the KTXL proposal is not a true counterproposal that can be handled in this proceeding, but must be handled in a separate rule making proceeding in order to comply with the notice provisions set forth in section 553(b) of the Administrative Procedure Act (5 U.S.C. section 553(b)). KTXL, in its reply comments, contends that it has the right to file its counterproposal in this proceeding, because it involves an alternative proposal for the disposition of a television channel for which a proposed disposition was made in the Notice, citing "FM Table of Assignments, Docket No. 16212 (Southbridge, Massachusetts)", 4 F.C.C. 2d 521, 525 (1966) at paragraph 11. The Commission agrees that the KTXL proposal which was first presented in timely filed comments in response to the Notice of Proposed Rule Making in this proceeding is a proper counterproposal. It was proposed to "freeze" Channel 15 for television use at Sacramento. KTXL proposes to utilize Channel 15 at Merced. The purpose of a notice of proposed rule making is to give general notice of the subject matter of the proceeding—here, the "freezing" of Channel 15 for television use at Sacramento—so that parties may furnish relevant views and data which will be of assistance to the Commission in reaching an appropriate resolution of the matter. Counterproposals, such as other uses of the channel involved, advanced in timely comments, will be considered because other parties have an opportunity to comment thereon in reply comments. See, for example, "FM Table of Assignments, Docket No. 15935 (Oxford, Mississippi)", 1 F.C.C. 2d 639 (1965). This follows the procedural requirements for notice set forth in "Owensboro on the Air, Inc. et al. v. U.S.", 262 F. 2d 702 (1958). Therefore, the KTXL alternative proposal for the disposition of Channel 15 will be considered on the merits herein.

14. According to "1970 U.S. Census Advance Report," the population of Merced is 22,670; it is located in Merced County with a population of 104,629. Merced is approximately 50 miles from Fresno, 80 miles from Monterey-Salinas, and 70 miles from San Jose. According to the 1971-72 edition of "Television Factbook," the city of Merced receives a Grade A signal and over half of Merced County receives a Grade B signal from UHF Station KFSN-TV, Fresno; the city of Merced and approximately half of Merced County receives a Grade B signal from UHF Station KJEO(TV), Fresno; VHF Station KSBW-TV, Salinas and UHF Station KMST(TV), Monterey furnish a Grade B signal to Merced and to substantially all of Merced County; and VHF Station KNTV(TV) furnishes a Grade B signal to Merced and to over three quarters of Merced County. UHF Station KMPH(TV), Tulare, in its comments, states in an engineering affidavit, that it provides a Grade B or better signal to approximately three-fourths of Merced County including Merced. The "Factbook" indicates that the cable system operating in Merced which serves Merced and also Atwater also holds the franchise to serve the unincorporated areas of Merced County. It carries the signals of KMJ-TV, KFSN-TV, and KJEO, Fresno; KNTV, San Jose, KLOC-TV, Modesto, KTVU, Oakland, KICU-TV, Visalia and KGO-TV, KRON-TV, KPIX and KQED, San Francisco.

15. In Docket No. 14229, the Commission in the Fourth Report and Order in "Fostering the Expanded Use of UHF Television Channels," 41 F.C.C. 1082, at 1088, in order to retain flexibility, adopted an "unsaturated" plan for UHF channels by not making assignments to cities with less than 25,000 population until a specific need arises. This was affirmed in the "Fifth Report," 2 F.C.C. 2d 527 (1966) and in a "Memorandum Opinion and Order," FCC 66-609, 7 R.R. 2d 1704 (1966). In the latter document, the Commission said that the decision on an assignment to small communities would not be made "until an actual demand is indicated." KTXL has submitted no information as to an "actual demand" for a station in Merced as required by the "Memorandum Opinion and Order, supra." Thus we will deny the KTXL counterproposal to assign Channel 15 to Merced, and will retain it at Sacramento marked to show that it is not available for television use without further action by the Commission.

16. We also note that the use of Channel 15 at Merced would still be detrimental to the use of Channel 16 at San Francisco-Oakland for land mobile operations because operation of a television station on Channel 15 in Merced would result in substantially comparable operating limits as the limits which would have been created by the Sacramento Channel 15 operation for which the construction permit was initially issued in 1968.

17. Grayson filed a motion to strike the reply comments by KTXL, relying on § 1.415(c) of the rules, because they are not directed solely to the Grayson comments, the only initial comments filed in this proceeding other than KTXL's comments, but rather to Grayson's reply comments and other matters. Portions of the KTXL reply comments do deal with Grayson's comments as to material incorporated therein from its petition for rule making. The KTXL reply comments contained no additional facts concerning its counterproposal, but rather deals primarily with the legal question of its right to file a counterproposal. The motion to strike will be denied.

18. KTXL, in its reply comments, stated that certain statements in Grayson's reply comments and other Grayson pleadings impute an intent by KTXL to complicate or delay the Grayson proposal. The counterproposal of KTXL (which it had the legal right to file in this proceeding) probably did cause a slight time delay in handling the Grayson request because of time extensions to file reply pleadings, granted to other parties interested in KTXL's proposal. The

XUM V37-I229 NOV28 72 XUM

Grayson statements were no more than hard-hitting verbiage directed at a potential competitor in the Sacramento market and did indicate its continuing interest in effectuating its proposal to construct and operate its station. However, since KTXL only suggested that the Commission should strike the Grayson statements, no action is required and none will be taken with respect to the Grayson statements.

19. In view of the foregoing: *It is ordered*, That, effective December 28, 1972, pursuant to authority contained in sections 4(i), 303 (g) and (r) and 307(b) of the Commission's rules, the Television Table of Assignments, is amended to read as follows:

City	Channel No.
Vallejo-Fairfield, Calif	66

20. *It is further ordered*, That the action taken in the first report and order (FCC 72-821) whereby a footnote was added to the Channel 31 assignment at Sacramento, is reaffirmed, and that the Television Table of Assignments shall continue to read as follows:

City	Channel No.
Sacramento, Calif	3, *6, 10, 15[1], 31, 40

[1] Channel 15 will not be available for television use until further action by the Commission.

21. *It is further ordered*, That the proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: November 15, 1972.

Released: November 17, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72-20374 Filed 11-27-72;8:49 am]

[Docket No. 19543; FCC 72-1013]

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

Requirement for Two Receivers on Board Vessels

Report and order. In the matter of amendment of Part 83 concerning requirements for two receivers on board vessels licensed in the 156–162MHz band, Docket No. 19543.

[1] Commissioners Johnson and Wiley concurring in the result. Commissioner Reid absent.

1. A notice of proposed rule making in the above captioned matter was adopted on July 12, 1972, and was published in the FEDERAL REGISTER on July 20, 1972 (37 F.R. 14409). The dates for filing comments and reply comments have passed.

2. In that notice, we proposed to amend Part 83 by deleting the requirement for ship stations to maintain a "watch" on the distress, safety and calling frequency 156.800 MHz when the station is being used for transmission on that frequency, or for communications on another channel in the 156–162 MHz band.

3. Comments were filed by: North Pacific Marine Radio Council; Southern California Marine Radio Council; the Dillinham Corp.; and the Central Committee on Communication Facilities of the American Petroleum Institute (Central Committee).

4. All of the above parties fully supported the proposal as set forth below to our notice and urged its adoption.

5. The Central Committee, in addition to supporting our proposal, has suggested that the Commission should at a later date consider a similar amendment of § 81.191(d) which requires that the operator of a coast station stand an effective "watch" on the frequency 156.800 MHz even while simultaneously exchanging communications on another frequency in the VHF band. We believe the operational circumstances of coast stations are substantially different from ship stations which operate on the high seas, in a more noisy environment, often in severely adverse weather and usually with restricted numbers of operators. Coast stations ordinarily are permanently located in weatherized shore installations chosen by the licensee and in times of emergency or peak traffic can more easily have station operating personnel augmented. We also believe that it is especially desirable for a coast station to maintain a watch on the distress frequency at least while receiving on a working frequency because the coast station is more likely to engage in extensive and protracted exchanges of communications on a working frequency during which time without our present requirements there would be no watch at all on the distress frequency. For these reasons we are not considering comparable rule changes for limited coast stations.

6. As an ancillary matter, the term continuous and efficient watch as used in § 83.207 needs clarification. Accordingly, an explanatory note has been added to this section to the effect that the requirement for a continuous and efficient watch is not violated when the receiver being used for the watch is temporarily rendered inoperative due to transmissions by the ship station.

7. In view of the foregoing: *It is ordered*, That pursuant to the authority contained in sections 4(i), and 303 (f) and (r) of the Communications Act of 1934, as amended, Part 83 of the Commission's rules is amended, effective December 28, 1972, as set forth below.

8. *It is further ordered*, That the preceding in Docket 19543 is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: November 15, 1972.

Released: November 17, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

Part 83 of Chapter 1 of Title 47 of the Code of Federal Regulations is amended as follows:

§ 83.207 [Amended]

1. Section 83.207 is amended by adding a note to read as follows:

NOTE: Automatic muting of the watch receiver during the brief periods when the VHF equipment is transmitting authorized traffic is not considered as interrupting the continuity or lowering the efficiency of the required watch.

2. Section 83.224 is amended, and the footnote deleted to read as follows:

§ 83.224 Watch on 156.800 MHz.

Each ship station, or, if more than one maritime mobile station is being operated from a vessel, then at least one station licensed to transmit by telephony on one or more frequencies within the band 156–162 MHz shall, during its hours of service for telephony in this band, maintain an efficient watch for the reception of F3 emissions on the frequency 156.800 MHz whenever such station is not being used for transmission on that frequency, or for communication on other frequencies in this band: *Provided, however*, That ship stations operating under the provisions of § 83.106(b)(5) or the note to § 83.106 of the rules are exempt from the watch requirements on 156.800 MHz.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Part 818]

SWEETENED CHOCOLATE, CANDY, AND CONFECTIONERY

Proposed Import Quotas for Calendar Year 1973

Notice is hereby given that the Secretary of Agriculture, pursuant to authority vested in him by the Sugar Act of 1948, as amended by Public Law 92-138 approved October 14, 1971, is considering the issuance of Sugar Regulation 818 which will establish import quotas on sweetened chocolate (other than in bars or blocks of 10 pounds or more each), candy and confectionery for the calendar year 1973.

In accordance with the rule making requirements of 5 U.S.C. 553 (80 Stat. 378), all persons who desire to submit data, views, or arguments for consideration in connection with the proposed regulation shall file the same in duplicate with the Director, Sugar Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250, not later than December 20, 1972.

The proposed regulation to establish import quotas on sweetened chocolate, candy, and confectionery for the calendar year 1973 is set forth essentially in form and language appropriate for issuance, if adopted by the Secretary, as follows:

Purpose and basis. The purpose of this regulation is to implement the limitation on the importation of sweetened chocolate, candy, and confectionery pursuant to paragraph (d) of section 206 of the Sugar Act which was added by Public Law 92-138 and which reads in pertinent part as follows:

> • • • the Secretary shall each year, beginning with the calendar year 1972, limit the quantity of sweetened chocolate, candy, and confectionery provided for in Items 156.30 and 157.10 of Part 10, Schedule 1, of the Tariff Schedules of the United States which may be entered or withdrawn from warehouse, for consumption in the United States as hereinafter provided. The quantity which may be so entered or withdrawn during any calendar year shall be determined in the fourth quarter of the preceding calendar year and the total amount thereof shall be equivalent to the larger of (1) the average annual quantity of products entered, or withdrawn from warehouse, for consumption under the foregoing items of the Tariff Schedules of the United States for the 3 calendar years immediately preceding the year in which each such quantity is determined or (2) a quantity equal to 5 percent of the amount of sweetened chocolate and confectionery of the same description of United States manufacture sold in the United States during the most recent calendar year for which data are available. The total quantity to be imported under this subsection may be allocated to countries on such basis as the Secretary determines to be fair and reasonable, taking into consideration the past importations or entries from such countries. For purposes of this subsection the Secretary shall accept statistical data of the U.S. Department of Commerce as to the quantity of sweetened chocolate and confectionery of United States manufacture sold in the United States.

Bases and considerations. The average annual quantity of products entered, or withdrawn from warehouse, for consumption under the Tariff Schedules of the United States (TSUS) Items 156.30 and 157.10 for the calendar years 1969, 1970, and 1971 amounted to 143,772,997 pounds. That quantity was determined from data published by the Bureau of Census, U.S. Department of Commerce, in the annual reports FT 246 under the TSUSA reporting Nos. 156.3000, 156.3020, 156.3040, 157.1020, and 157.1040.

The quantity of sweetened chocolate and confectionery of U.S. manufacture sold in the United States in 1971 amounted to 3,974,618,000 pounds as shown in "Confectionery Manufacturers' Sales and Distribution 1971" published by the Bureau of Domestic Commerce, U.S. Department of Commerce. Five percent of that quantity amounts to 198,730,900 pounds.

Accordingly, the quantity of sweetened chocolate, candy, and confectionery which may be imported for consumption under TSUS items 156.30 and 157.10 during the calendar year 1973 shall be limited to 198,730,900 pounds which is the larger of the two alternatives as provided in sec. 206(d) of the Sugar Act, i.e., the 1969–71 average imports or 5 percent of 1971 confectionery sales.

Pursuant to section 206(d) of the Act the total quantity permitted to be imported may be allocated to countries on such basis as the Secretary determines to be fair and reasonable taking into consideration the past importations or entries from such countries. This regulation does not establish import quotas for any individual countries but makes the total quota available for all countries as a group on a first come, first served basis. The import limitations for 1973 are about 30 percent greater than imports in 1971 and 28 percent greater than the average annual imports from 1968 through 1971. A global quota has been in effect for 1972, the initial year of confectionery quotas, and through October 28, just under 106 million pounds has been imported. This is only 60 percent of the 1972 quota with 82 percent of the year gone. This compares with 104 and 106 million pounds imported through October in 1970 and 1971, respectively. In 1970 and 1971 the annual imports were 127 and 120 million pounds, respectively. The quantities referred to in this paragraph include only confectionery imports for consumption at retail to which this proposal applies and excludes items imported under Tariff Schedules of the United States (TSUSA), items 156.3000 and 156.3040, which are not for consumption at retail and imports of which are limited under section 22 of the Agricultural Adjustment Act (7 U.S.C. 624).

In view of 1972 imports thus far and imports in past years, it is likely that total 1973 import limits will not be approached by actual imports. On the assumption that imports will not reach the liberal import limits, a global quota will provide the least impediment to commerce and to the play of economic factors and the least burden on Customs Service. A global quota will also eliminate the possibility of limiting imports from some countries when there is little likelihood that the total quota will be filled.

In the remote event that the global quota is filled and countries which ship late in the year are prevented from shipping their normal amounts, a portion of the global quota, representing 30 percent is reserved for entry during the last quarter of the year. Recent import history indicates about 30 percent of such imports normally occur during the last quarter of each year.

The provision to exempt each shipment of articles with an aggregate value of not more than $25 from import quotas is necessary so that tourists will be able to bring in small quantities of candy and confectionery for personal use.

The regulation provides that a quantity of the quota equivalent to the quota for "chocolate crumb" established pursuant to Section 22 of the Agricultural Adjustment Act, as amended, shall be reserved solely for the importation subject to the section 22 quota under licenses issued pursuant to regulations of the Administrator, Foreign Agricultural Service, U.S. Department of Agriculture.

Sec.
818.10 Confectionery quotas for foreign countries.
818.11 Import requirements.
818.12 Restrictions on importations.
818.13 Revision of quotas.
818.14 Delegation of authority.

AUTHORITY: The provisions of these §§ 818.10 to 818.14 issued under Sec. 206, 403; 61 Stat. 927, as amended, 932, as amended; 7 U.S.C. 1116, 1153.

§ 818.10 Confectionery quotas for foreign countries, 1973.

(a) For the calendar year 1973, the quantity of sweetened chocolate, candy and confectionary provided for in Items 156.30 and 157.10 of Part 10, Schedule 1,

V37-229 NOV 28 72 XUM

of Tariff Schedules of the United States which may be entered or withdrawn from warehouse, for consumption in the United States and Puerto Rico is 198,730,900 pounds. Of the total quota 21,680,000 pounds are reserved solely for the importation of sweetened chocolate for other than consumption at retail as candy or confectionery (TSUSA Item 156.3040). This quantity is subject to quotas established pursuant to section 22 of the Agricultural Adjustment Act, as amended, and as set forth in Items 950.15 and 950.16 of Part 3 of the Appendix to TSUS, which may be imported only under licenses issued pursuant to regulations of the Administrator, Foreign Agricultural Service, U.S. Department of Agriculture as follows: Ireland—13,200,000 (9,450,000 under TSUS 950.15 and 3,750,000 under TSUS 95.16); United Kingdom—8,380,000 (7,450,000 under TSUS 950.15 and 930,000 under TSUS 950.16) and Netherlands—100,000 (all under TSUS 950.15). Of the remaining quantity of 177,050,900 pounds (198,730,900–21,680,000) a quantity not to exceed 123,935,630 pounds may be entered or withdrawn from warehouse for consumption in the United States and Puerto Rico on or before September 30, 1972.

(b) The quota established by paragraph (a) of this section shall not apply to articles with an aggregate value of $25 or less in any shipment.

§ 818.11 Import requirements.

Articles subject to quota limitations pursuant to § 818.10 shall be entered on a first-come, first-served basis under the control of the Bureau of Customs, except articles subject to quotas established pursuant to section 22 of the Agricultural Adjustment Act, as amended.

§ 818.12 Restrictions on importations.

Subject to the exception in paragraph (b) of § 818.10 all persons are prohibited from entering or withdrawing from warehouse, for consumption into the United States and Puerto Rico any article provided for in TSUS Items 156.30 and 157.10 after the applicable quotas set forth in paragraph (a) of § 818.10 have been filled.

§ 818.13 Revision of quotas.

The quota established under this order may be revised to reflect the substitution of revised or corrected data used in the quota determination.

§ 818.14 Delegation of authority.

The Director of the Sugar Division (or any person in such division designated by the Director), Agricultural Stabilization and Conservation Service of the Department is hereby authorized to act on behalf of the Secretary in administering §§ 818.10 through 818.12 except as otherwise provided for in §§ 818.10 and 818.11.

Signed at Washington, D.C., on November 24, 1972.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.72-20484 Filed 11-27-72;8:52 am]

DEPARTMENT OF COMMERCE

Patent Office

[37 CFR Part 1]

IMPLEMENTATION OF INVENTOR'S CERTIFICATE LEGISLATION

Serial Number and Filing Date

Notice is hereby given that, pursuant to the authority contained in section 6 of the Act of July 19, 1952 (66 Stat. 793; 35 U.S.C. 6), as amended October 5, 1971, Public Law 92-132, 85 Stat. 364, the Patent Office proposes to add a new paragraph (c) to § 1.55 (37 CFR 1.55(c)) to read as set forth below.

All persons are invited to present their views, objections, recommendations, or suggestions in connection with the proposed changes to the Commissioner of Patents, Washington, D.C. 20231, on or before February 12, 1973. No oral hearings will be held. Any written comments or suggestions may be inspected by any person, upon written request, a reasonable time after the closing date for submitting comments.

The proposed rule change is intended to implement Public Law 92-358, dated July 28, 1972, reprinted below,[1] which accords rights of priority to applications where the claims for priority are based on earlier filed applications for inventor's certificates under certain conditions. This legislation now enables the United States to complete its ratification of the Stockholm Revision of the Paris Convention.

By the terms of the new legislation, inventor's certificates filed in a foreign country in which applicants have a right to apply, at their discretion, either for a patent or for an inventor's certificate may form the basis for rights of priority.

The new paragraph proposed below would insure that the right of priority would be granted for inventor's certificates involving subject matter for which an applicant in the country of earlier filing has an option to file for either a patent or inventor's certificate, as required by the new legislation. It should be noted that in certain countries which grant both patents and inventor's certificates to reward inventors, applicants may only be able to apply for inventor's certificates as to certain subject matter, generally pharmaceuticals, foodstuffs, and cosmetics.

The text of the proposed new paragraph is as follows:

§ 1.55 Serial number and filing date of application.

. . . . . .

(c) An applicant may under certain circumstances claim priority on the basis of an application for an inventor's certificate in a country granting both inventor's certificates and patents. When an applicant wishes to claim the right of priority as to a claim or claims of the application on the basis of an application for an inventor's certificate in such a country under 35 U.S.C. 119, last paragraph (as amended July 28, 1972), the applicant or his attorney or agent, when submitting a claim for such right as specified in paragraph (b) of this section, shall include an affidavit or declaration including a specific statement that, upon an investigation, he has satisfied himself that to the best of his knowledge the applicant, when filing his application for the inventor's certificate, had the option to file an application either for a patent or an inventor's certificate as to the subject matter of the identified claim or claims forming the basis for the claim of priority.

ROBERT GOTTSCHALK,
Commissioner of Patents.

Approved: November 21, 1972.

RICHARD O. SIMPSON,
Acting Assistant Secretary for Science and Technology.

[37 CFR Part 1]

RESTRICTION PRACTICE

Notice of Change in Date of Hearing

On October 20, 1972, the Patent Office published a notice of proposed rule making on restriction practice in patent cases (37 F.R. 22625). The notice proposed to amend Title 37 of the Code of Federal Regulations by revising §§ 1.141, 1.142, 1.144, 1.145, and 1.146. In the notice, it was stated that a hearing would be held at 9:30 a.m. on December 12, 1972, in Room 11 C 24, Building 3, 2021 Jefferson Davis Highway, Arlington, VA.

The Patent Office has received requests from interested persons that the hearing be postponed to a later date to allow ample opportunity to consider the proposed amendments. The hearing, accordingly, will not be held at the time originally set but has been rescheduled for 2:30 p.m. on January 16, 1973, in Room 11 C 24, Building 3, 2021 Jefferson Davis Highway, Arlington, VA. Written views, objections, recommendations or suggestions will be considered if submitted on or before the date of the hearing.

ROBERT GOTTSCHALK,
Commissioner of Patents.

Approved: November 22, 1972.

RICHARD O. SIMPSON,
Acting Assistant Secretary for Sicence and Technology.

DEPARTMENT OF LABOR

Manpower Administration

[20 CFR Part 615]

EXTENDED UNEMPLOYMENT COMPENSATION

Notice of Proposed Rule Making

I hereby propose to amend Part 615 of Chapter V of Title 20 of the Code of Federal Regulations by (1) adding to

§ 615.2(g)(2) the word "applicable" before the term "benefit year" the first time it appears in the paragraph; (2) adding to § 615.2 a new paragraph (h) defining the term "applicable benefit year"; (3) deleting from § 615.4(b) (1) and (2) the word "current"; (4) deleting from 615.4(b)(4) reference to the Automotive Trade Products Act which is no longer in effect; (5) deleting from § 615.4(c) the word "current" and by inserting in lieu thereof the word "applicable"; (6) deleting from § 615.5(a)(1) the words "current benefit year, or if he has no current benefit year, his most recent benefit year" and by inserting in lieu thereof the words "applicable benefit year"; (7) adding to § 615.5(b)(3) the parenthetical phrase "(or less)" after the word "more" in two places in the paragraph; (8) revising the title of § 615.6, lettering the present § 615.6 as (a) and adding a new paragraph (b) relating to cases where a decision on appeal reduces regular compensation and, as a consequence, reduces extended compensation; and (9) changing § 615.14(b)(3) to provide a formula based on principles of the perpetual calendar for establishing in the two preceding calendar years a corresponding week to each week constituting a 13-week period; the amendments to read as set forth below.

Interested persons may submit written data, views, or arguments regarding the proposal by mailing them to the Secretary of Labor, U.S. Department of Labor, Washington, D.C. 20210, Attention of Robert C. Goodwin, Associate Manpower Administrator for Unemployment Insurance, within 15 days after this notice is published in the FEDERAL REGISTER. Persons interested in inspecting or copying submissions received pursuant to this notice should call 202-961-2701 and necessary arrangements will be made.

1. As proposed § 615.2 would be amended by amending paragraph (g)(2) and by adding paragraph (h) to read as follows:

§ 615.2 Definitions.

. . . . . .

(g) The term "sharable compensation" is described in the Act to include—

. . . . . .

(2) Regular compensation paid to an individual for weeks of unemployment in his eligibility period to the extent that the sum of such compensation, plus the regular compensation paid (or deemed paid) to him with respect to prior weeks of unemployment in the applicable benefit year exceeds 26 times (and does not exceed 39 times) the average weekly benefit amount (including allowances for dependents) for weeks of total unemployment payable to such individual during such benefit year.

(h) The term "applicable benefit year" means, with respect to an individual, his current benefit year if at the time he files a claim for extended compensation he has an unexpired benefit year only in the State in which he files such claim or, in any other case, his most recent benefit year. For this purpose his most recent benefit year, if he has unexpired benefit years in more than one State when he files a claim for extended compensation, is the benefit year with the latest ending date or, if such benefit years have the same ending date, the benefit year in which his latest continued claim for regular compensation was filed.

2. As proposed § 615.4 would be amended by amending paragraph (b) (1), (2) and (4) and the introductory sentence of paragraph (c) to read as follows:

§ 615.4 Entitlement; exhaustee.

. . . . . .

(b) Exhaustee: An individual is an exhaustee with respect to a week of unemployment in his eligibility period if—

(1) He has received, prior to such week, all the regular compensation payable to him according to the monetary determination for his benefit year that includes such week under the unemployment compensation law of the State in which he files a claim for extended compensation or the unemployment compensation law of any other State; or

(2) He has received, prior to such week, all the regular compensation available to him in his benefit year that includes such week under the unemployment compensation law of the State in which he files a claim for extended compensation or the unemployment compensation law of any other State after a cancellation of some or all of his wage credits or the partial or total reduction of his right to regular compensation; or

. . . . . .

(4) He has no right to unemployment compensation or allowances, as the case may be, under the following Federal laws: The Railroad Unemployment Insurance Act, and the Trade Expansion Act; and

. . . . . .

(c) For the purposes of paragraphs (b) (1) and (2) of this section, an individual shall be deemed to have received in his applicable benefit year all of the regular compensation payable to him according to the monetary determination or available to him, as the case may be, even though—

. . . . . .

3. As proposed to be amended § 615.5 (a)(1) and (b)(3) would read:

§ 615.5 Amount of extended compensation.

(a) *Weekly amount*—(1) *Total unemployment.* The State law shall specify that the weekly amount of extended compensation payable to an individual for a week of total unemployment in his eligibility period shall be the amount of regular compensation payable to him for a week of total unemployment during his applicable benefit year. If the individual had more than one weekly amount of regular compensation for total unemployment during such benefit year, the weekly amount of extended compensation for total unemployment shall be any one of the following specified in the State law:

. . . . . .

(b) *Individual's extended compensation account.* . . .

(3) If an individual is entitled to more (or less) extended compensation as a result of an appeal which afforded him more (or less) regular compensation, an appropriate change shall be made in the individual's extended compensation account.

4. As proposed to be amended, the title of § 615.6 would be as amended, the present § 615.6 would be lettered (a) and a new paragraph (b) would be added to read:

§ 615.6 Changes in amount of extended compensation resulting from changes in amount of regular compensation awarded on appeal.

. . . . . .

(b) If an individual who has received extended compensation for week(s) of unemployment is determined to be entitled to less regular compensation as the result of an appeal, and as a consequence is entitled to less extended compensation, any extended compensation he has been paid in excess of the amount he is determined to be entitled to after the decision on appeal shall be considered an overpayment which the individual shall have to repay on the same basis and in the same manner that he has to repay the regular compensation he has been paid which is in excess of the amount payable to him pursuant to the decision on appeal. If such decision reduces the duration of his regular compensation, his claim for extended compensation shall be backdated to the earliest date, subsequent to the date when the redetermined regular compensation was exhausted and within the extended benefit period, that the individual was eligible to file a claim for extended compensation. An amended determination shall be made of his entitlement to extended compensation and a notice of such determination shall be given to the individual and, if appropriate under the State law, to his employer(s), as provided in § 615.9(a)(3).

5. As proposed to be amended § 615.14 (b)(3) would read:

§ 615.14 Computation of total rate of insured unemployment.

. . . . . .

(b) *State "on" and "off" indicators.* . . .

(3) For the purpose of determining the corresponding 13-week period ending in each of the preceding two calendar years:

(i) Each calendar week shall be identified by the date (calendar month and day of the month) on which it ends;

(ii) For any specific calendar week, the date of the comparable week in the immediately preceding calendar year shall be determined by adding (1) to the date of the end of such specific week or by adding two (2) if:

(*a*) The date of the end of the specific week is February 29; or

(*b*) A February 29 intervenes between,

(*1*) The beginning date of the week in which occurs the date established by

this proposal. The proposed regulations

Coos Bay, Lower Columbia River high-

John F. Kennedy International Airport,

V37-229 NOV 28 72 XUM

the addition of one (1) to the ending date of the specific week, and

(2) The ending date of the specific week.

(iii) For any specific calendar week, the ending date of the comparable week in the second preceding calendar year shall be determined by adding two (2) to the end date of the specific week or by adding three (3) if:

(a) The ending date of the specific week is February 29; or

(b) A February 29 intervenes between.

(1) The beginning date of the week in which occurs the date established by the addition of two (2) to the ending date of the specific week, and

(2) The ending date of the specific week.

* * * * *

Signed at Washington, D.C., this 22d day of November 1972.

M. R. LOVELL, Jr.,
Assistant Secretary for Manpower.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 72-230P]

BISCAYNE BAY, FLA.

Proposed Drawbridge Operation Regulations

The Coast Guard is considering amending the regulations for the Venetian Causeway drawbridges, both east and west spans, to provide that these regulations exclude Saturdays, Sundays and holidays from November 1 through April 30. The regulations presently apply 7 days a week during this period. This change is being considered because of reduced vehicular traffic during these days. The requirement for Officers of the Police Departments of Miami and Miami Beach to be stationed at the draws and causeways is no longer considered necessary and is therefore deleted.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Seventh Coast Guard District, Room 1018, Federal Building, 51 SW 1st Avenue, Miami, Fla. 33130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Seventh Coast Guard District.

The Commander, Seventh Coast Guard District, will forward any comments received before January 2, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising § 117.447 to read as follows:

§ 117.447 Biscayne Bay, Fla., MacArthur Causeway, and East and West spans of the Venetian Causeway; bridges.

(a) MacArthur Causeway: The draws shall open promptly on signal however from November 1 through April 30 from 7 a.m. to 9 a.m. and 4:30 p.m. to 6:30 p.m. the draw need open only on the hour and half hour if any vessels are waiting to pass.

(b) West span Venetian Causeway: The draws shall open promptly on signal however from November 1 through April 30, from 7 a.m. to 9 a.m. and 4:30 p.m. to 6:30 p.m., Monday through Friday, the draws need open only on the hour and half hour if any vessels are waiting to pass. The draws shall open promptly on signal on Thanksgiving, Christmas, New Years, and Washington's Birthday.

(c) East span Venetian Causeway: The draw shall open promptly on signal however the draw need not open from November 1 through April 30, from 7:15 a.m. to 8:45 a.m. and 4:45 p.m. to 6:15 p.m., Monday through Friday, except that the draw shall open at 7:45 a.m., 8:15 a.m., 5:15 p.m. and 5:45 p.m., if any vessels are waiting to pass during this period. The draw shall open promptly on signal on Thanksgiving, Christmas, New Years, and Washington's Birthday.

(d) The draws of these bridges shall open at any time for passage of public vessels of the United States, tugs with tows, regularly scheduled cruise boats and vessels in distress. The opening signal from these vessels shall be 4 blasts of a whistle, horn, other sound producing device or by shouting.

(e) The owner of or agency controlling the bridges shall post notices containing the substance of these regulations, both upstream and downstream, on the bridges or elsewhere, in such a manner that they can easily be read at all times from an approaching vessel.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Dated: November 21, 1972.

J. D. MCCANN,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine, Environment and Systems.

[33 CFR Part 117]

[CGD 72-231P]

DRAWBRIDGES IN THE STATE OF OREGON WHERE CONSTANT ATTENDANCE IS NOT REQUIRED

Proposed Drawbridge Operation Regulations

The Coast Guard is considering amending the regulations for the drawbridges in the State of Oregon where constant attendance is not required to include the Burlington Northern (Spokane, Portland, and Seattle) Railway bridges across the John Day River near Astoria and the Blind Slough and Clatskanie River near Clatskanie. These drawbridges are presently required to open on signal. The proposed change would require that these drawbridges open on signal if at least 1 hour notice has been given. The reason for this proposed change is limited use of the waterways by vessels that require openings of these drawbridges.

Also under consideration are amendments for Oregon State Highway Division bridges that also require infrequent openings. The U.S. 101 drawbridges across the Coquille River at Bandon and the U.S. 101 drawbridge across the Siuslaw River at Florence are presently required to open on signal. The proposed change would require at least 2 hours notice at all times for both bridges. The Coos River secondary highway drawbridge across Isthmus Slough at Coos Bay is presently required to open on signal. The proposed change would require at least 4 hours notice at all times. The Coos River secondary highway drawbridge across the Coos River at Coos Bay is presently required to open on signal. The proposed change would require at least 12 hours notice at all times. The Coos River secondary highway drawbridge across Catching Slough at Coos Bay and the Nehalem secondary highway drawbridge across the Walluski River at Astoria are presently required to open on signal, and the Lower Columbia River highway drawbridge across the John Day River at Astoria is required if at least 12 hours notice has been given. The proposed change affecting these three drawbridges would require at least 48 hours notice at all times. The Oregon Coast highway drawbridges across Coalbank Slough at Coos Bay is presently required to open if at least 24 hours notice has been given. The proposed change would allow the draw to remain closed to vessels but would provide for reactivation of the draws upon notification by the Commandant, U.S. Coast Guard to the bridge owner to take such action. Reference to several of these bridges would be deleted from § 117.740 and added to § 117.759b to assure greater clarity.

Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Commander (oan) Thirteenth Coast Guard District, 618 Second Avenue, Seattle, WA 98104. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Thirteenth Coast Guard District.

The Commander, Thirteenth Coast Guard District, will forward any comments received before January 2, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on

this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by:

1. Revoking § 117.740(a), (3), (6), (7), (8), and (9); (b) and the note at end of the section.

2. Revising § 117.740 to read as follows:

§ 117.740 Youngs Bay, Lewis and Clark River and Skipanon River, Oreg.; bridges.

(a) The drawbridges across Youngs Bay, Lewis and Clark River and Skipanon River, all in Clatsop County, and the bridge across the Skipanon River in Columbia County shall open on signal for the passage of vessels. The signals which may be made by a whistle, horn, siren, trumpet or by shouting for each bridge are:

(1) Highway bridge across Youngs Bay at Smith Point—Two long blasts followed by two short blasts.

(2) Burlington Northern (Spokane, Portland, and Seattle) railroad bridge across Youngs Bay at Smith Point—one long blast followed by one short blast.

(3) Youngs Bay highway bridge at the foot of Fifth Street, Astoria—two long blasts followed by one short blast.

(4) Lewis and Clark River highway bridge, near the mouth—one long blast followed by one short blast.

(5) Skipanon River railroad and highway bridges at Warrenton—one long blast followed by one short blast.

3. Amending subparagraph (4) of paragraph (f) of § 117.759b and adding subparagraphs (10) through (15) to § 117.759b(f) to read as follows:

§ 117.759b Drawbridges in the State of Oregon where constant attendance is not required.

* * * * *

(f) * * *

(4) Highway bridge across John Day River. The draw shall open on signal if at least 48 hours notice is given.

* * * * *

(10) Burlington Northern (Spokane, Portland, and Seattle) railroad bridges across the John Day River near Astoria, Blind Slough and the Clatskanie River near Clatskanie. The draws shall open on signal if at least 1 hour notice is given.

(11) Oregon Coast U.S. 101 drawbridges across the Siuslaw River at Florence and the Coquille River at Bandon. The draws shall open on signal if at least 2 hours notice is given. This notice may be given by marine radio, telephone, radio telephone via the marine operator, or any other suitable means to the Coos Bay South Slough Bridge attendant.

(12) Coos River secondary highway drawbridge across the Isthmus Slough at Coos Bay. The draw shall open on signal if at least 3 hours notice is given.

(13) Coos River secondary highway drawbridge across the Coos River at Coos Bay. The draw shall open on signal if at least 12 hours notice is given.

(14) Coos River secondary highway drawbridge across Catching Slough at Coos Bay, Lower Columbia River highway drawbridge across the John Day River at Astoria and the Nehalem secondary highway drawbridge across the Walluski River at Astoria. The draws shall open on signal if at least 48 hours notice is given.

(15) Oregon Coast highway drawbridge across Coalbank Slough at Coos Bay. The draw need not open for the passage of vessels and the machinery for the draw need not be maintained in operable condition. However, the draw shall be returned to operable condition by the owner of the bridge within 6 months after notification by the Commandant, U.S. Coast Guard to take such action.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Dated November 21, 1972.

J. D. MCCANN,
Captain, U.S. Coast Guard, Acting Chief Office of Marine Environment and Systems.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72-EA-112]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Philipsburg, Pa., control zone (37 F.R. 2118) and transition area (37 F.R. 2262).

A review of the Philipsburg, Pa., terminal area establishes a need to alter the subject area in conformance with the criteria of the Terminal Instrument Procedures (TERP's).

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, NY 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Philipsburg, Pa., proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Philipsburg, Pa., control zone and insert the following in lieu thereof:

Within a 6-mile radius of the center, 40°53'00" N., 78°05'15" W. of Mid-State Airport, Philipsburg, Pa.; within 4 miles each side of a 327° bearing from a point 40°53'09" N., 78°05'06" W., extending from said point to a point 8.5 miles northwest.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Philipsburg, Pa., 700-foot floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the center, 40°53'00" N., 78°05'15" W., of Mid-State Airport, Philipsburg, Pa., extending clockwise from a 270° bearing to a 300° bearing from the airport; within a 10.5-mile radius of the center of the airport, extending clockwise from a 300° bearing to a 180° bearing from the airport; within an 11-mile radius of the center of the airport, extending clockwise from a 180° bearing to a 210° bearing from the airport; within a 10.5-mile radius of the center of the airport, extending clockwise from a 210° bearing to a 270° bearing from the airport; within 3.5 miles each side of a 340° bearing from the Ginter RBN, extending from the RBN to 10 miles north of the RBN; within 3.5 miles each side of the Philipsburg VORTAC 067° radial, extending from the VORTAC to 11.5 miles northeast of the VORTAC; within 4 miles each side of a 327° bearing from a point 40°53'09" N., 78°05'06" W., extending from said point to a point 8.5 miles northwest.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on November 14, 1972

ROBERT H. STANTON,
Acting Director, Eastern Region.

[Docket No. 19638; FCC 72-1024]

TV BROADCAST STATIONS IN HOUSTON, MISSISSIPPI

Proposed Television Table of Assignments

In the matter of amendment of § 73.606(b) Television table of assignments, TV Broadcast Stations (Houston, Mississippi) Docket No. 19638, RM-1986.

1. On June 12, 1972, John D. Dyer filed a petition (RM-1986) requesting the assignment of Channel 45 to Houston, Miss.

2. Houston, population 2,720[1], is located in Chickasaw County in northeastern Mississippi. There are no television broadcast channels assigned to Houston, and no assignments in the area are available for use under the provisions of the 15-mile rule.

3. If his request is granted, petitioner states that he will apply for authority to construct and operate a station on Channel 45 at Houston with a view to providing (1) a first local service to Houston and to a number of communities around it, (2) an additional local service to the northeastern section of Mississippi, and (3) the ABC network service to a substantial area and population which presently does not receive these services.

4. Petitioner further states the facility he contemplates would (1) provide a new television service to 555,705 persons in an area of 14,519 square miles; (2) provide a first ABC television service to 388,401 persons in 9,225 square miles; (3) provide a second commercial television service to 88,203 persons in 2,150 square miles and (4) provide a third commercial television service to 363,605 persons in 8,880 square miles.

5. We have investigated the assignment area with the aid of our Univac III computer and find that Channel 45 can be assigned at the Houston reference point and at the transmitter site proposed in the petition in accordance with the technical requirements of the Commission's rules.

6. In view of the above, we believe that a rule making proceeding looking toward the assignment of Channel 45 to Houston, Miss., is warranted. Authority for the action proposed herein is contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

7. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before December 28, 1972, and reply comments on or before January 8, 1973. All submissions by parties to this proceeding or persons action on behalf of such parties must be made in written comments, reply comments or other appropriate pleadings.

8. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

9. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its Headquarters in Washington, D.C. (1919 M Street, NW.).

Adopted: November 15, 1972.

Released: November 17, 1972.

FEDERAL RESERVE SYSTEM

[12 CFR Part 201]

[Reg. A]

ADVANCES AND DISCOUNTS BY FEDERAL RESERVE BANKS

Extension of Credit

The Board of Governors proposes to amend Part 201 by changing the heading to read "Extensions of Credit by Federal Reserve Banks"; deleting § 201.0; amending §§ 201.1, 201.2, 201.3, 201.4, 201.5, and 201.6; and by adding §§ 201.7 and 201.8 as set forth below.

The principal purposes of the proposed revision of the Board's Regulation A are (1) to make specific provision for extensions of seasonal credit; (2) to eliminate certain restrictions with respect to the eligibility of paper as collateral for Federal Reserve credit; and (3) to condense and simplify technical provisions of the regulation. Short-term Federal Reserve credit would continue to be provided in accordance with present rules. No change in the posture of monetary policy in the short or long run would result from the adoption of the proposals.

The major impact of the new rules would be to improve the ability of banks to meet strong seasonal credit needs of their communities. Such seasonal credit would be provided to banks to accommodate intermediate-term recurring needs for funds over and above a threshold amount, for such amounts and duration as the applying member bank is able to demonstrate a need.

The new rules would include certain changes as to the eligibility of paper for discount or as security for Federal Reserve advances. The present regulation makes ineligible any paper the proceeds of which are used for "permanent or fixed investments of any kind, such as land, buildings, or machinery, or for any other fixed capital purpose." This provision, which is not statutory, would be omitted, so that paper given for such purposes would be eligible for discount or as collateral for advances if it meets the 90-day maturity requirement of the law and if the funds are not used merely for investment purposes. The revision would also make it clear that paper given for the purchase of services, as well as tangible goods, would be eligible for discount and as collateral for advances.

Finally, the revision would condense, simplify, or clarify a number of technical provisions of the regulation. For example, detailed limitations and conditions with respect to the discounting of bankers' acceptances would be replaced by a general paraphrasing of statutory requirements regarding the types of bankers' acceptances eligible for discount; it would be made clear that the limitation on the amount of paper of one borrower that may be discounted applies in the same manner to both national and State member banks and to Reserve Bank advances at the discount rate as well as to discounts; detailed provisions regarding financial statements and other information would be eliminated; and there would be included a new section regarding the circumstances under which advances would be made to individuals, partnerships, and corporations other than member banks.

The revised rules would reaffirm the System's readiness to supply credit assistance to its member banks in general or isolated emergency situations. In addition, it would recognize that in its role as lender of last resort the Federal Reserve should be prepared, under emergency liquidity conditions, to provide certain types of credit assistance to financial institutions other than member banks.

This notice is published pursuant to section 553(b) of Title 5, United States Code, and § 262.2(a) of the rules of procedure of the Board of Governors.

To aid in the consideration of this matter by the Board, interested persons are invited to submit relevant data, views, or arguments. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than February 28, 1973.

Following receipt of these comments, the Board will weigh them in arriving at a final decision regarding the adoption of the proposed amendments.

By order of the Board of Governors, November 20, 1972.

[SEAL] MICHAEL A. GREENSPAN, *Assistant Secretary to the Board.*

PART 201—EXTENSIONS OF CREDIT BY FEDERAL RESERVE BANKS

Sec.
201.1 Authority and scope.
201.2 General principles.
201.3 Policy guidelines.
201.4 Advances to member banks.
201.5 Discounts for member banks.
201.6 General requirements.
201.7 Federal Intermediate Credit banks.
201.8 Emergency credit for others.

AUTHORITY: The provisions of this Part 201 issued under 12 U.S.C. 84, 248, 301, 330, 343–347, 347b, 347c, 348, 349, 351, 352, 361, 371, 372, 373, 374.

§ 201.1 Authority and scope.

This part is issued under section 13 and other provisions of the Federal Reserve Act and relates to extensions of credit by Federal Reserve Banks.

§ 201.2 General principles.

(a) Extending credit to member banks to accommodate commerce, industry, and agriculture is a principal function of Reserve Banks. While open market operations and changes in member bank reserve requirements are important means of affecting the overall supply of bank reserves, the lending function of the Reserve Banks is an effective method of supplying reserves to meet the particular needs of individual member banks.

(b) The lending functions of the Federal Reserve System are conducted with due regard to the basic objectives of the Employment Act of 1946 and the maintenance of a sound and orderly financial system. These basic objectives are promoted by influencing the overall volume and cost of credit through actions affecting the volume and cost of reserves to member banks. Borrowing by individual member banks, at a rate of interest adjusted from time to time in accordance with general economic and money market conditions, has a direct impact on the reserve position of the borrowing banks and thus on their ability to meet the needs of their customers. However, the effects of such borrowing do not remain localized but have an important bearing on overall monetary and credit conditions.

(c) Federal Reserve credit is available on a short-term basis to assist member banks in meeting temporary requirements for funds and in meeting more persistent outflows pending an orderly adjustment of a member bank's asset and liability structure. Federal Reserve credit is also available for longer periods in order to assist member banks in meeting significant seasonal needs. Federal Reserve credit is available to assist member banks in meeting emergency or unusual situations, such as may result from national, regional, or local difficulties or from exceptional circumstances involving only particular member banks. Emergency credit assistance may also be made available in exigent circumstances to other than member banks under such terms and conditions as may be specified. Federal Reserve credit is not a substitute for capital and ordinarily is not available for extended periods.

(d) Each Reserve Bank is required by law (1) to keep itself informed of the general character and amount of the loans and investments of its member banks with a view to ascertaining whether undue use is being made of bank credit for the speculative carrying of or trading in securities, real estate, or commodities or for any other purpose inconsistent with the maintenance of sound credit conditions, and (2) to give consideration to such information in determining whether to extend credit.

§ 201.3 Policy guidelines.

In conformity with the foregoing principles and the requirements and limitations of the Federal Reserve Act and this part, Reserve Banks will ordinarily extend credit as follows:

(a) *Adjustment credit.* A Reserve Bank may, under such rules as may be prescribed, extend credit to a member bank to such extent as may be appropriate to assist in meeting temporary requirements for funds or to cushion more persistent outflows of funds pending an orderly adjustment of the member bank's assets and liabilities.

(b) *Seasonal borrowing privilege.* (1) Credit will also be extended to a member bank that lacks reasonably reliable access to national money markets to assist in meeting seasonal needs for funds arising from a combination of expected patterns of movement in its deposits and loans. Such seasonal credit will ordinarily be limited to the amount by which the member bank's seasonal needs exceed 5 percent of its average total deposits in the preceding calendar year. It will be available if (i) the member bank has arranged in advance for such seasonal credit for the full period, as far as possible, for which the credit is expected to be required, and (ii) the Reserve Bank is satisfied that the member bank's qualifying need for funds is seasonal and will persist for at least 8 consecutive weeks.

(2) In making such arrangements for seasonal credit, a Reserve Bank may agree to extend such credit for a period of up to 90 days,[1] subject to compliance with applicable requirements of law at the time such credit is extended. However, in the event that a member bank's seasonal needs should persist beyond such period, the Reserve Bank will normally be prepared to entertain a request by the member bank for further credit extensions under the seasonal credit arrangement.

(c) *Emergency credit.* A Reserve Bank may also extend credit (1) to any of its member banks in unusual or emergency circumstances, and (2) to individuals, partnerships, and corporations that are not member banks in emergency circumstances in accordance with § 201.8 of this Part if in its judgment credit is not practicably available from other sources and failure to obtain such credit would adversely affect the economy.

§ 201.4 Advances to member banks.

(a) *Advances on obligations or eligible paper.* Reserve Banks may make advances to member banks for not more than 90 days if secured by obligations or other paper eligible under the Federal Reserve Act for discount or purchase by Reserve Banks.

(b) *Advances on other security.* A Reserve Bank may make advances to a member bank for not more than 4 months if secured to the satisfaction of the Reserve Bank, whether or not secured in conformity with § 201.4(a), but the rate on such advances shall be at least one-half of 1 percent per annum higher than the rate applicable to advances made under § 201.4(a).

§ 201.5 Discounts for member banks.

If a Reserve Bank should conclude that a member bank would be better accommodated by the discount of paper than by an advance on the security thereof, it may discount for such member bank any paper endorsed by the member bank and meeting the following requirements:

(a) *Commercial or agricultural paper.* A note, draft, or bill of exchange issued or drawn or the proceeds of which have been or are to be used (1) in producing, purchasing, carrying, or marketing goods in the process of production, manufacture, or distribution, (2) for the purchase of services, (3) in meeting current operating expenses of a commercial, agricultural, or industrial business, or (4) for the purpose of carrying or trading in direct obligations of the United States; provided that (i) such paper has a period remaining to maturity of not more than 90 days, except that agricultural paper (including paper of cooperative marketing associations) may have a period remaining to maturity of not more than 9 months, and (ii) the proceeds of such paper have not been and are not to be used merely for the purpose of investment, speculation, or dealing in stocks, bonds, or other such securities, except direct obligations of the United States.

(b) *Bankers' acceptances.* A banker's acceptance (1) arising out of an importation or exportation or domestic shipment of goods or the storage of readily marketable staples or (2) drawn by a bank in a foreign country or dependency or insular possession of the United States for the purpose of furnishing dollar exchange; provided that such acceptance complies with applicable requirements of section 13 of the Federal Reserve Act.

(c) *Construction paper.* A note representing a loan made to finance construction of a residential or farm building, whether or not secured by a lien upon real estate, which matures not more than 9 months from the date the loan was made and has a period remaining to maturity of not more than 90 days, if accompanied by an agreement requiring some person acceptable to the Reserve Bank to advance the full amount of the loan upon completion of such construction.

§ 201.6 General requirements.

(a) *Information.* A Reserve Bank shall require such information as it deems necessary to insure that paper tendered as collateral or for discount is acceptable and meets any pertinent eligibility requirements and that the credit granted is used consistently with this part.

(b) *Amount of collateral.* A Reserve Bank shall require only such amount

[1] As provided in the law and in this part, the maturity of advances to member banks is limited to 90 days, except as provided in § 201.4(b) of this part.

of collateral as it deems necessary or advisable.

(c) *Indirect credit for nonmember banks.* Except with the permission of the Board of Governors, no member bank shall act as the medium or agent of a nonmember bank (other than a Federal Intermediate Credit bank) in receiving credit from a Reserve Bank and, in the absence of such permission, a member bank applying for credit shall be deemed to represent and guarantee that it is not so acting.

(d) *Limitation as to one obligor.* Except as to credit granted under §201.4 (b), a member bank applying for credit shall be deemed to certify or guarantee that as long as the credit is outstanding no obligor on paper tendered as collateral or for discount will be indebted to it in an amount exceeding the limitations in section 5200 of the Revised Statutes (12 U.S.C. 84), which for this purpose shall be deemed to apply to State member as well as national banks.

§ 201.7 Federal intermediate credit banks.

A Reserve Bany may discount for any Federal Intermediate Credit bank (a) agricultural paper, or (b) notes payable to and bearing the endorsement of such Federal Intermediate Credit bank covering loans or advances made under section 202(a) of Title II of the Federal Farm Loan Act which are secured by paper eligible for discount by Reserve Banks. Any paper so discounted shall not have a period remaining to maturity of more than 9 months or bear the endorsement of a nonmember State bank.

§ 201.8 Emergency credit for others.

In emergency circumstances a Reserve Bank may extend credit for periods of not more than 90 days to individuals, partnerships, and corporations (other than member banks) on the security of direct obligations of the United States or any obligations which are direct obligations of, or fully guaranteed as to principal and interest by, any agency of the United States, at such rate in excess of the rate in effect at the Reserve Bank for advances under § 201.4(a) as its board of directors may establish subject to review and determination of the Board of Governors.

SELECTIVE SERVICE SYSTEM

[32 CFR Parts 1621, 1622, 1623, 1631]

SELECTIVE SERVICE REGULATIONS

Notice of Proposed Rule Making

Pursuant to the Military Selective Service Act, as amended (50 U.S. Code App., sections 451 et seq.), and Executive Order No. 11623 dated October 12, 1971, the Director of Selective Service hereby gives public notice that consideration is being given to the following proposed amendments to the Selective Service Regulations constituting a portion of Chapter XVI of the Code of Federal Regulations. These regulations implement the Military Selective Service Act, as amended (50 U.S. Code App., sections 451 et seq.).

All persons who desire to submit views to the Director on the proposals should prepare them in writing and forward them to the General Counsel, National Headquarters, Selective Service System, 1724 F Street NW., Washington, DC 20435. Comments received within 30 days following the publication of this notice in the FEDERAL REGISTER will be considered.

The proposed amendments follow:

Section 1621.14 is amended to read as follows:

§ 1621.14 Securing information from welfare and governmental agencies.

The local board is authorized to request and receive information from welfare and governmental agencies whenever such information will assist it in determining the proper classification of a registrant.

Section 1622.30 is amended to read as follows:

§ 1622.30 Class 3–A: Registrant deferred by reason of hardship to dependents.

(a) In Class 3–A shall be placed any registrant:

(1) Whose induction would result in extreme hardship to his wife when she is his only dependent;

(2) Whose induction would result in undue and genuine hardship to his child, parent, grandparent, brother or sister who is dependent upon him for support;

(3) Who has been separated from active military service by reason of dependency or hardship; or

(4) Who prior to April 23, 1970, submitted to his local board information establishing his eligibility for deferment on the grounds of fatherhood under regulations in effect prior to such date.

(b) Any registrant classified prior to April 23, 1970, in Class 3–A on the grounds of fatherhood and who continues to maintain a bona fide relationship in their home with his child or children may be retained in Class 3–A.

(c) The local board will reopen and consider anew the classification of each registrant in Class 3–A not later than 365 days after he was last classified in Class 3–A.

(d) As used in this section:

(1) The term "child" shall include any person under 18 years of age who is a legitimate or an illegitimate child from the date of its conception, a stepchild, a foster child, or a child legally adopted;

(2) Dependency. Dependency exists when by reason of death or disability of a member of the registrant's family, other members of his family become principally dependent upon him for care or support;

(3) Hardship. Hardship exists when in circumstances not involving death or disability of a member of the registrant's family, his induction will materially affect the care or support of his family by aggravating or causing undue and genuine hardship.

(4) The term "parent" shall include any person who has stood in the place of a parent to the registrant for at least 5 years preceding the 18th anniversary of the registrant's date of birth.

Section 1623.1(b) is amended to read as follows:

§ 1623.1 Commencement of classification.

* * * * *

(b) The registrant's classification shall be determined on the basis of the official forms of the Selective Service System and other written information in his file, oral statements by the registrant at his personal appearance before the local board, appeal board, or National Selective Service Appeal Board, and oral statements by the registrant's witnesses at his personal appearance before the local board. No information in any written summary of the oral information presented at a registrant's personal appearance that was prepared by an official or employee of the Selective Service System will be considered or placed in the registrant's file unless a copy of it has been furnished to the registrant by the Selective Service System. No information in any other document in the registrant's file shall be considered in classifying the registrant unless that document was supplied by the registrant or a copy of it or a fair resume of its contents has been furnished to him by the Selective Service System.

Section 1631.6(b)(2) is amended to read as follows:

§ 1631.6 Action by local board upon receipt of allocation.

* * * * *

(b) * * *

(2) Nonvolunteers in the Extended Priority Selection Group in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1: *Provided*, That, in the calendar year 1973, no registrant who first entered this group before December 31, 1972, shall be inducted.

* * * * *

BYRON V. PEPITONE,
Acting Director.

DEPARTMENT OF THE TREASURY

Bureau of Engraving and Printing

STATEMENT OF ORGANIZATION, FUNCTIONS, AND PUBLIC INFORMATION PROCEDURES

In compliance with the provisions of 5 U.S.C. 552, this notice provides a description for the guidance of the public of the Bureau of Engraving and Printing's organization, including a statement of the established places at which, the officers from whom, and the methods whereby the public may secure information, make submittals or requests, or obtain decisions. The prior statements of organization, functions, and procedures of the Bureau of Engraving and Printing are revoked.

Sec.
1. Statement of functions and responsibilities.
2. Statement of organization.
3. Location of principal activity.
4. Procedures governing availability of records and information.

SECTION 1. *Statement of functions and responsibilities.* (a) The Bureau of Engraving and Printing designs, engraves, and prints all major items of a financial character issued by the United States. It produces paper currency; Treasury bonds (except the series E savings bonds), bills, notes, and certificates; postage, revenue, customs, and documentary stamps; food coupons; and military payment certificates. In addition, the Bureau prints commissions, certificates of award, permits, and a wide variety of other miscellaneous items for the various territories administered by the United States.

(b) The Bureau conducts its operations under a revolving fund method of financing. All agencies served reimburse the Bureau, out of funds available to them, for all costs incidental to the performance of work or services requisitioned.

SEC. 2. *Statement of organization.* (a) The affairs of the Bureau are administered by a Director, appointed by the Secretary of the Treasury, and a Deputy Director.

(b) The major organizational components of the Bureau are the Internal Audit Staff, the Product Control Division, and the Offices of—

Administrative Services:
  Management Services Division.
  Materials Management Division.
  Plant Services Division.
Currency and Stamp Printing:
  Plate Printing Division.
  Surface Printing Division.
Engineering:
  Construction and Maintenance Division.
  Engineering Division.
Engraving.
Financial Management.
Industrial Relations.
Research and Technical Services:
  Research Division.
  Technical Services Division.
Securities Processing:
  Examining Division.
  Postage Stamp Division.
Security:
  Security Division.

SEC. 3. *Location of principal activity.* All Bureau activities are conducted in its plant in Washington, D.C.

SEC. 4. *Procedures governing availability of records and information.* (a) The records of the Bureau of Engraving and Printing required by 5 U.S.C. 552 to be made available to the public shall be made available in accordance with the definitions, procedures, and other provisions of the regulations on the disclosure of records of the Office of the Secretary and other bureaus and offices of the Department issued under 5 U.S.C. 552 and published as Part 1 of Title 31 of the Code of Federal Regulations, 32 F.R. 9562, July 1, 1967.

(b) Any person desiring to review or copy any record maintained by the Bureau concerning the agency operations or any of its products, or obtain information or decisions or make submittals or requests, should communicate either orally or in writing with the Superintendent, Management Services Division, Office of Administrative Services, Room 602-13, Bureau of Engraving and Printing Annex Building, 14th and C Streets SW., Washington, D.C. 20226.

(c) Facilities are available in the Management Services Division where the public may review, copy from, or have copies made of Bureau records which are not exempt from disclosure. These accommodations are open to the public from 9 a.m. to 5 p.m. each Monday through Friday, except legal holidays.

(d) Use of the facilities is subject to all security regulations governing admission of the public to the Bureau buildings.

(e) If a record is not available from the files maintained by the Management Services Division, the superintendent of that division will arrange to secure the record from the appropriate Bureau component.

(f) A requested record will be made available as promptly as is reasonable under the particular circumstances.

(g) If the record is not readily available and it is necessary to perform research to locate a particular document, a basic charge of $5.80 will be made; thereafter, at one-fourth that rate for increments of 15 minutes, or any part thereof.

Before such a search is instituted, the inquirer may be required to make an advance payment of a specified estimated cost of the work involved.

(h) A charge of 25 cents per copy will be made for each photocopy furnished, up to and including 8½ inches by 14 inches in size. The price for making photoprint copies of any size which require preparation of a negative will be based on the actual processing cost at the time the work is performed, including, labor, materials, and overhead expenses.

(i) Denial to a requester of any record classified as exempt from disclosure under 5 U.S.C. 552 will be determined by the Director of the Bureau. Appeals of denials are to be made to the Assistant Secretary of the Treasury for Enforcement, Tariff and Trade Affairs, and Operations as specified in 31 CFR, Subtitle A, Part 1, section 1.7(a).

Effective date. This notice shall be effective on the date of its publication in the FEDERAL REGISTER (11–28–72).

Dated: November 20, 1972.

[SEAL] JAMES A. CONLON,
Director, Bureau of Engraving and Printing.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

COLVILLE RESERVATION, WASHINGTON

Notice of Tobacco Ordinance

NOVEMBER 22, 1972.

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 F.R. 13938).

Notice is hereby given that the Colville Business Council of the Confederated Tribes of the Colville Reservation, Wash., duly enacted the Colville Tobacco Ordinance on June 23, 1972, under authority contained in Article V, section 1(a) of the Constitution of the Confederated Tribes of the Colville Reservation which was ratified by the Colville Indians on February 26, 1938, and approved by the Commissioner of Indian Affairs on April 19, 1938. The Colville Tobacco Ordinance reads as follows:

AN ORDINANCE

GOVERNING SALE, DISTRIBUTION AND TAXATION OF TOBACCO PRODUCTS WITHIN THE COLVILLE

Sec. 8. *Excise tax imposed.* There is levied and there shall be collected as hereinafter provided, a tax upon the distribution of all

operator's tobacco outlet license as well as enforcement of the penalties provided in section 21 below.

Sec. 21. *Violation—penalties.* Any person

National Rice Advisory Committee at 1 pm on November 28, 1972, and at 9 am on November 29, 1972, in Room 218–A of the Administration Building, U.S. Department of Agriculture, Washington, D.C. during regular working hours.

These vessels are to engage in the carriage of export bulk raw and processed

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to inter-

XUM V37-229 NOV 28 72 XUM

AN ORDINANCE

GOVERNING SALE, DISTRIBUTION AND TAXATION OF TOBACCO PRODUCTS WITHIN THE COLVILLE INDIAN RESERVATION

Section 1. *Title.* This ordinance shall be known as the Colville Tobacco Ordinance.

Sec. 2. *Definitions.* As used in this ordinance, the following words and phrases shall each have the designated meaning unless a different meaning is expressly provided or the context is clearly indicated:

(1) "Tribes" shall mean the Confederated Tribes of the Colville Indian Reservation.

(2) "Council" shall mean the Colville Business Council.

(3) "Cigarettes" shall mean any roll for smoking made wholly or in part of tobacco, irrespective of size or shape irrespective of the tobacco being flavored, adulterated, or mixed with any other ingredient, where such roll has a wrapper or cover made of paper or any material, except where such wrapper is wholly or in the greater part made of natural leaf tobacco in its natural state.

(4) "Tobacco products" shall mean cigarettes, cigars, smoking tobacco, snuff, chewing tobacco, and other kinds and forms of tobacco prepared in such manner as to be suitable for chewing or smoking.

(5) "Retail selling price" shall mean the ordinary, customary, or usual price paid by the consumer for each tobacco product less the tax levied by this ordinance.

(6) "Wholesale distribution price" shall mean the price paid for each tobacco product by the Tribes together with all freight charges and other expenses incurred by the Tribes in their receipt and distribution.

(7) "Tobacco outlet" shall mean a licensed tribal retail sales business selling tobacco products on trust land in the Colville Indian Reservation.

(8) "Operator" shall mean an enrolled member of the Colville Confederated Tribes licensed by the Tribes to manage a tobacco outlet.

Sec. 3. *Establishment of tobacco outlets.* The Council shall establish one or more tobacco outlets within the Colville Indian Reservation as the Council in its sole discretion deems necessary to provide adequate service to consumers of cigarettes and tobacco products.

Sec. 4. *Nature of outlet.* Each tobacco outlet established hereunder shall be a tribal tobacco outlet and shall be managed for the Tribes by an operator pursuant to a license granted by the Council hereunder, and shall also be managed pursuant to a Federal Indian Trader's License as provided in section 7 hereof.

Sec. 5. *Application for tobacco outlet license.* Any enrolled member of the Colville Confederated Tribes may apply upon an application form provided by the Council for a tobacco outlet license. The application shall state the name and address of the applicant and shall be signed by the applicant, under oath.

Sec. 6. *Tobacco outlet license.* Upon approval of an application, the Council shall issue the applicant a tobacco outlet license for a 1-year period which shall entitle the operator to establish and maintain tobacco outlet on the Colville Indian Reservation. The license shall be renewable in such manner as the Council shall prescribe and shall be nontransferable.

Sec. 7. *Traders license.* No tobacco outlet license shall be issued to an operator until he has obtained a Federal Indian Trader's License from the Superintendent of the Colville Indian Agency. Revocation of the Federal Indian Trader's License shall be grounds for revocation of the operator's tobacco outlet license.

Sec. 8. *Excise tax imposed.* There is levied and there shall be collected as hereinafter provided, a tax upon the distribution of all cigarettes sold or distributed hereunder in the amount of 3 cents per package. The Council may levy an additional tax upon the distribution of cigarettes and other tobacco products as it deems desirable. The excise tax levied hereunder shall be a tax upon distribution of cigarettes and other tobacco products by the Tribes only and shall not constitute an assessment or license fee upon enrolled members of the Tribes doing business within the reservation or obtaining special rights or privileges. The excise tax levied hereunder shall be added to the retail selling price of tobacco products sold to the ultimate consumer.

Sec. 9. *Purchase by Tribes.* All tobacco products purchased by the Tribes pursuant hereto shall be purchased with federally restricted tribal funds.

Sec. 10. *Wholesale distribution.* Wholesale distribution of tobacco products by the Tribes to a tobacco outlet shall be upon a cash basis for the wholesale distribution price which shall have added to it the excise tax levied in section 8 hereof.

Sec. 11. *Tobacco products federally restricted tribal property.* The entire stock of tobacco products distributed hereunder shall remain federally restricted tribal property owned and possessed by the Tribes until sale to the ultimate consumer. Payment by the operator of the wholesale distribution price as provided in section 10 hereof shall entitle the operator to custody of distributed tobacco products for sale to the ultimate consumer, at the operator's sole risk in the event of any loss whatsoever.

Sec. 12. *Remuneration to operator.* As remuneration for managing a tobacco outlet, an operator shall be entitled to the gross revenue derived from sale of tobacco products distributed hereunder in excess of the wholesale distribution price and the excise tax levied hereunder.

Sec. 13. *Restricted sales to non-Indians.* An operator may not sell more than two cartons of cigarettes per sale to a non-Indian. The Council may restrict sales of other tobacco products to non-Indians as it deems necessary.

Sec. 14. *Restricted sales to minors.* An operator may not sell any tobacco products to any person under the age of 18 years.

Sec. 15. *Other business by operator.* An operator may conduct another business simultaneously with managing a tobacco outlet for the Tribes. The other business may be conducted on the same premises and the operator shall not be required to maintain separate books of account for the other business.

Sec. 16. *Tribal immunity—liability—credit.* An operator shall not attempt or be authorized to waive the sovereign immunity of the Tribes from suit, nor shall such operator attempt or be authorized to create any liability on behalf of the Tribes or to utilize tribal credit.

Sec. 17. *Operating without license.* No person shall operate a tobacco outlet on the Colville Indian Reservation without having in effect a valid tobacco outlet license issued pursuant hereto.

Sec. 18. *Purchases.* An operator shall purchase all tobacco products sold in his tobacco outlet from the Tribes.

Sec. 19. *Liability insurance.* An operator shall maintain liability insurance upon his premises in the sum of not less than $25,000.

Sec. 20. *Revocation of tobacco outlet license.* Failure of an operator to abide by the requirements of this ordinance and any additional requirement imposed by the Council will constitute grounds for revocation of the operator's tobacco outlet license as well as enforcement of the penalties provided in section 21 below.

Sec. 21. *Violation—penalties.* Any person violating the provisions of this ordinance shall be guilty of an offense and subject to a fine in Tribal Court of not less than $50 nor more than $250 and forfeiture of all of the Tribes' remaining stock of tobacco products distributed hereunder and situated in his tobacco outlet. The tribal law enforcement officers shall be empowered to seize forfeited tobacco products.

Sec. 22. *Separability.* If any provision of this ordinance or its application to any person or circumstance is held invalid, the remainder of this ordinance, or the application of the provision to other persons or circumstances is not affected.

On October 25, 1972, the Colville Tobacco Ordinance was conditionally approved by the Area Director, Portland Area Office, Bureau of Indian Affairs, under authority delegated to the Commissioner of Indian Affairs in section 18 of Secretarial Order 2508 and redelegated to the Area Director in 10 BIAM 3. The Area Director's approval was subject to the following comments:

We have received Colville Tribal Resolution 1972–125, enacted March 10, 1972, Resolution 1972–279, enacted May 25, 1972. Resolution 1972–375, enacted June 23, 1972, and Resolution 1972–376, Amendment No. 1, enacted June 23, 1972, concerning the sale, distribution and taxation of tobacco products on trust land within the Colville Indian Reservation.

We have reviewed the ordinance enacted on March 10, 1972, and the amendments thereto, and note that section 7 of the ordinance requires that an operator obtain a Federal Indian Trader's License from the Superintendent. The provision of the ordinance does not recognize the provision of the law as well as the Secretarial regulations which permit trading by an Indian of the full blood within an Indian reservation without obtaining a Federal Trader's License (25 U.S.C. § 264, 25 CFR 251.3). Should an Indian of the full blood of the Colville Tribes otherwise comply with the provisions of the ordinance governing the sale, distribution and taxation of tobacco products, he cannot be required to obtain a Trader's License as none would be issued to him by the superintendent and he cannot be denied an operator's license under the ordinance for such reason. Subject to the above paragraph, we approve the ordinance and the amendments thereto pursuant to authority delegated by Secretarial Order 2508 and 10 BIAM 3.1.

JOHN O. CROW,
Deputy Commissioner.

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S–313]

ACADEMY TANKERS, INC., ET AL.

Notice of Multiple Applications

Notice is hereby given that the following corporations have filed application for an operating-differential subsidy contract to carry bulk cargoes to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). The bulk cargo carrying vessels proposed to be subsidized and the trades in which each proposes to engage are presented also.

Applicant's name and address	Type of ship	Name of ship
Academy Tankers, Inc., Americana Bldg., 811 Dallas Ave., Houston, TX 77002.	Tanker	SS Thomas A.
	do	SS Thomas Q.
Marine Carriers Corp., 17 Battery Pl., New York, N Y 10004.	Bulk carrier.	SS Commander.
American Trading Transportation Company, Inc., 555 5th Ave., New York, N Y 10017.	Tanker	SS Maryland Trader.
	do	SS Virginia Trader.
	do	SS Washington Trader.
Penn Tanker Co., 405 Park Ave., New York, N Y 10022.	do	SS Penn Champion.
	do	SS Penn Challenger.
Mount Vernon Tanker Co., 888 7th Ave., New York, N Y 10019.	do	SS Mount Vernon Victory.
Do	do	SS Mount Washington.
World Wide Tankers, Inc., 1 New York Plaza, New York, N Y 10004.	do	SS Barbara Jane.
Vancor Steamship Corp., 11 Broadway, New York, N Y 10004.	do	SS Vantage Horizon.

The foregoing applications may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, D.C. during regular working hours.

These vessels are to engage in the carriage of export bulk raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the U.S. to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk raw and processed agricultural commodities subsidy program, including terms, conditions, and restrictions upon both the subsidized operators and vessels, appear in the regulations published in the FEDERAL REGISTER on November 16, 1972 (37 F.R. 24349).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that each vessel named will engage in the trades described on a full-time basis through June 30, 1973 (with extension to termination of approved subsidized voyages in progress on that date). Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the individual operating-differential subsidy contract for which there is no requirement for further notices under section 605(c) of the Act.

Any person having an interest in the granting of one or any of such applications and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before December 4, 1972, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing. Further, each such statement shall identify the applicant or applicants against which the intervention is lodged.

In the event a hearing under section 605(c) of the Act is ordered to be held with respect to any application(s), the purpose of such hearing will be to receive evidence relevant to (1) whether the application(s) hereinabove described is one with respect to vessels to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate, and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

Dated: November 22, 1972.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

CONSTRUCTION OF LIQUEFIED NATURAL GAS (LNG) VESSELS WITH CONCH SELF-SUPPORTING TANK DESIGN

Notice of Intent To Compute Estimated Foreign Cost

Notice is hereby given of the intent of the Maritime Subsidy Board, pursuant to the provisions of section 502(b) of the Merchant Marine Act, 1936, as amended, to compute the estimated foreign cost of the construction of 125,000 cubic meter liquefied natural gas (LNG) vessels with Conch self-supporting tank design.

Any person, firm, or corporation having any interest (within the meaning of section 502(b)) in such computations may file written statements by the close of business on December 8, 1972, with the Secretary, Maritime Subsidy Board, Maritime Administration, Room 3099B, Department of Commerce Building, 14th and E Streets NW., Washington, DC 20235.

Dated: November 24, 1972.

By order of the Maritime Subsidy Board, Maritime Administration.

Conjugated Estrogens With Meprobamate; Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications

In an announcement (DESI 10971) published in the FEDERAL REGISTER of August 26, 1970 (35 F.R. 13607), the Commissioner of Food and Drugs an-

nounced his conclusions pursuant to the evaluation of two reports received from the National Academy of Sciences-

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder

hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise

and caffeine; Chas. Pfizer and Co., Inc. (NDA 10–774).

C. METHYLPREDNISOLONE IN COMBINATION

the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there

XUM V37-229 NOV 28 72 XUM

nounced his conclusions pursuant to the evaluation of two reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs containing conjugated estrogens with meprobamate:

NDA 10-971: PMB-200 and PMB-400 tablets, marketed by Ayerst Laboratories, Division of American Home Products Corporation, 685 Third Avenue, New York, N.Y. 10017.

NDA 11-045; Milprem-200 and Milprem-400 tablets, marketed by Wallace Laboratories, Division of Carter-Wallace Inc., Half Acre Road, Cranbury, N.J. 08512.

The announcement stated that the Food and Drug Administration has considered the Academy reports, as well as other available evidence, and concludes there is a lack of substantial evidence that such fixed combination drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling and that each component of the combination drug contributes to the total effects claimed, and that the Commissioner of Food and Drugs intended to initiate proceedings to withdraw approval of the new drug applications. Interested persons were invited to submit pertinent data bearing on the proposal within 30 days following publication of the announcements. No data providing substantial evidence of effectiveness were received pursuant to the announcement.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 F.R. 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Md. 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

Within 30 days after publication hereof in the FEDERAL REGISTER the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within said 30 days will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, within 30 days after publication of this notice in the FEDERAL REGISTER, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after the expiration of such 30 days, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: November 14, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[DESI 9414; Docket No. FDC-D-528; NDA 9-414 etc.]

CERTAIN STEROID COMBINATION PREPARATIONS FOR ORAL USE

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications

In an announcement (DESI 9414) published in the FEDERAL REGISTER of July 11, 1972 (37 F.R. 13566), the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs:

A. PREDNISONE IN COMBINATION WITH OTHER ACTIVE COMPONENTS

1. Co-Deltra Tablets containing 2.5 mg. or 5.0 mg. prednisone, magnesium trisilicate, and dried aluminum hydroxide gel; Merck Sharp & Dohme, Division Merck and Co., Inc., West Point, Pa. 19486 (NDA 10-371).

B. PREDNISOLONE IN COMBINATION WITH OTHER ACTIVE COMPONENTS

1. Ataraxoid Tablets containing 2.5 mg. or 5.0 mg. prednisolone and hydroxyzine hydrochloride; Chas. Pfizer and Co., Inc., 235 East 42d Street, New York, NY 10017 (NDA 10-636).

2. Cordex Tablets and Cordex-Forte Tablets containing prednisolone and aspirin (NDA 10-185); and

3. Cordex (Buffered) Tablets and Cordex-Forte (Buffered) Tablets containing prednisolone, aspirin, and calcium carbonate (NDA 10-185); The Upjohn Co., 7171 Portage Road, Kalamazoo, MI 49002.

4. Deltacortril-APC Tablets containing prednisolone, aspirin, phenacetin, and caffeine; Chas. Pfizer and Co., Inc. (NDA 10-774).

C. METHYLPREDNISOLONE IN COMBINATION WITH OTHER ACTIVE COMPONENTS

1. Medaprin Tablets and Medadent Tablets containing methylprednisolone, aspirin, and calcium carbonate (NDA 11-632); and

2. Cordex Improved Tablets and Cordex-Forte Improved Tablets containing methylprednisolone and aspirin (NDA 11-455); The Upjohn Co.

D. DEXAMETHASONE IN COMBINATION WITH OTHER ACTIVE COMPONENTS

1. Decagesic Tablets containing dexamethasone, aspirin, and dried aluminum hydroxide gel; Merck Sharp & Dohme (NDA 12-187).

2. Delenar Tablets containing dexamethasone, orphenadrine hydrochloride, and aluminum aspirin; Schering Corp., 1011 Morris Avenue, Union, NJ 07083 (NDA 12-092).

3. Dronactin Tablets containing dexamethasone and cyproheptadine hydrochloride, Merck Sharp & Dohme (NDA 13-084).

E. CORTISONE ACETATE IN COMBINATION WITH OTHER ACTIVE COMPONENTS

1. Salcort Tablets containing cortisone acetate, sodium salicylate, dried aluminum hydroxide gel, calcium ascorbate, and calcium carbonate; The S. E. Massengill Co. (NDA 9-414).

In addition to the drugs listed above, the following preparation, although not reviewed by the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, is regarded to be affected by the announcement of July 11, 1972:

Stero-Darvon with A.S.A. Tablets containing paramethasone acetate, propoxyphene hydrochloride, and aspirin; Eli Lilly and Co., Post Office Box 618, Indianapolis, IN 46206 (NDA 14-768).

The announcement stated that there is a lack of substantial evidence that these fixed combination drugs will have the effects that they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling and that each component of such drugs contributes to the total effects claimed and that the Commissioner of Food and Drugs intended to initiate proceedings to withdraw approval of the new drug applications for the drugs. Interested persons were invited to submit pertinent data bearing on the proposal within 30 days following publication of the announcement. Data submitted by Merck Sharp & Dohme concerning Decagesic Tablets (NDA 12-187) were evaluated and found not to provide substantial evidence of effectiveness. No other data were received.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 F.R. 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

Within 30 days after publication hereof in the FEDERAL REGISTER the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within said 30 days will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, within 30 days after publication of this notice in the FEDERAL REGISTER, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after the expiration of such 30 days, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: November 14, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Formulation of recommendations in the task force groups.

Report on the findings of each task force

XUM V37-229-NOV28-72 XUM

1970 (35 F.R. 396), the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the combination drug described below stating that the drug is regarded as possibly effective and lacking substantial evidence of effectiveness for the various labeled indications. The possibility effective indications have been reclassified as lacking substantial evidence of effectiveness in that no new evidence of effectiveness of the drug has been submitted pursuant to the notice:

NDA 8-240; Strascogesic Tablets, containing 300 milligrams acetaminophen, 200 milligrams salicylamide, 2 milligrams amphetamine phosphate, and 0.5 milligram methylatropine nitrate per tablet; Strasenburgh Pharmaceutical Division, Pennwalt Corp., Post Office Box 1766, Rochester, N.Y. 14623.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 F.R. 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

Within 30 days after publication hereof in the FEDERAL REGISTER the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within said 30 days will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, within 30 days after publication of this notice in the FEDERAL REGISTER, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after the expiration of such 30 days, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: November 19, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Office of the Secretary

SECRETARY'S ADVISORY COMMITTEE ON AUTOMATED PERSONAL DATA SYSTEMS

Notice of Meeting

A meeting of the Secretary's Advisory Committee on Automated Personal Data Systems will be held from 9 a.m. to 6 p.m. on Friday, December 15, 1972, and from 9 a.m. to 3 p.m. on Saturday, December 16, 1972 in Room 3169, HEW North Building, 330 Independence Avenue SW., Washington, DC.

(1) *Purposes.* The Committee was appointed to advise and assist the Department of Health, Education, and Welfare in the preparation of analyses and recommendations which the Secretary determines will help the Department to take initiative in seeking to assure that the use of automated personal data systems will be managed to maximize their benefits and minimize their potential for harmful consequences.

(2) *Membership.* The Committee is chaired by Frances Grommers, M.D., and is composed of the following other members: Layman Allen, Juan Anglero, Stanley Aronoff, William Bagley, Philip Burgess, Gertrude Cox, Patricia Cross, Gerald Davey, Taylor DeWeese, Guy Dobbs, Robert Gallati, Florence Gaynor, John Gentile, Jane Hardaway, James Impara, Patricia Lanphere, Arthur Miller, Don Muchmore, Jane Noreen, Roy Siemiller, Ruth Silver, Sheila Smythe, Willis Ware, and Joseph Weizenbaum.

(3) *Agenda for meeting.* The meeting will be devoted exclusively to the purpose of considering and formulating advice to be included in the Committee's report to the Secretary. Accordingly, the Committee will meet in executive session, closed to the public.

Any persons desiring information about the Committee's work may telephone (202—963-3003) or write to the Office of the Executive Director, Room 5517, HEW North Building, 330 Independence Avenue SW., Washington, DC 20201.

DAVID B. H. MARTIN,
Executive Director.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

VOR/VORTAC SYSTEMS

Notice of Policy Change Regarding Discontinuance of Criteria in Utilization of VFR

On September 2, 1971, a notice of proposed policy change was published in the FEDERAL REGISTER concerning the consideration of VFR utilization of VOR/VORTAC's during any specific decommissioning process. This proposal was the result of an analysis indicating that regardless of a change in the IFR requirement for a specific VOR/VORTAC, no such NAVAID should be decommissioned without a thorough investigation into the effect the discontinuance of the facility would have on the flow of VFR air traffic.

At the time this notice was published, written FAA policy concerning discontinuance of a specific VOR/VORTAC for which there was no further IFR requirement made no reference to consideration of VFR use of the navigational aid. The notice advised of the intention to change FAA planning standards and requested comments from the public as to the proposal.

As a result of analysis of the comments received and further internal coordination, the FAA has amended its airway planning standards to incorporate consideration of VFR air traffic into the decommissioning process for VOR/VORTAC's. As now stated, Airway Planning Standard No. 2 reads in part:

3. *Criteria.* • • •
b. VOR/VORTAC's. • • •
(3) Discontinuance. • • •

An en route navigational facility is a candidate for decommissioning when there is no longer an IFR or a VFR requirement for the navigational capability provided by the facility.

(a) The VFR requirement is considered as satisfied and the facility may be discontinued if there is navigational guidance available from other facilities at and above 3,500 feet above ground level along the routes or flyways normally used by VFR aircraft.

(b) If there is no navigational guidance above 3,500 feet, possible retention of the aid for VFR purposes shall be based upon an estimate of the effect the deletion would have on the flow and safety of VFR air traffic. Consideration shall be given to the numbers of based aircraft in the vicinity, the number of VFR flight plans and VFR radio contacts generated in the area and the nature of the surrounding terrain.

(c) If retained for VFR purposes, a VORTAC could normally be downgraded to a VOR or a TVOR. If DME is required, the TACAN portion could be modified to or replaced with a single channel DME.

This notice is published in accordance with the Department of Transportation policy of regular consultation with the entire aviation community and the general public. Having requested comment on a specific proposal from those interested in aviation, it is deemed appropriate to advise of the action taken.

Issued in Washington, D.C., on November 14, 1972.

ROBERT F. BACON,
Director, Office of Aviation Policy and Plans.

[FR Doc.72-20344 Filed 11-27-72;8:47 am]

Office of the Secretary

OFFICE OF CONSUMER AFFAIRS

Notice of Open Meeting

On December 4 and 5, 1972, the Office of Consumer Affairs has invited the Citizens' Advisory Committee on Transportation Quality to participate in a Workshop on Consumer Involvement in the Development of Rules, Regulations, and Procedures in the Department of Transportation. The workshop will be held on both days in Rooms 2230-32 of the Nassif Building at 400 Seventh Street SW., Washington, D.C. The hours are from 9:30 a.m. on December 4 to 4:30 p.m. and from 9 a.m. on December 5 to 12:30 p.m.

There will be six task force groups, organized by modal administrations. These will meet at 2 p.m. on December 4 and at 9 a.m. on December 5 as indicated below:

	Room
U.S. Coast Guard	3200
Federal Aviation Administration	3202
Federal Highway Administration	3304
Federal Railroad Administration	4436
National Highway Traffic Safety Administration	4038
Urban Mass Transportation Administration	4040

Background and purpose. Encouraged by the White House Office of Consumer Affairs, Secretary Volpe has asked for a complete review of how consumers are involved in the rule making processes of DOT. The Administration is concerned that consumer involvement be furthered.

The workshop will seek to discover new and better ways of bringing consumers into the rule making process, particularly at the initial stages.

It will attempt to set forth recommendations within DOT that will encourage the further development of consumer involvement in rule making throughout the Department.

AGENDA MONDAY, DECEMBER 4

Opening remarks.
Presentation by the Director of the Office of Consumer Affairs on "Making our Rule Making Process Consumer-Responsive."
Explanation of the current practices in six modal administrations in the Department of Transportation.
Task force discussion groups organized by modal administrations.

TUESDAY, DECEMBER 5

Formulation of recommendations in the task force groups.
Report on the findings of each task force group.
Closing remarks.

Since this will be an open meeting, members of the public who plan to attend are invited to write or telephone the Office of Consumer Affairs in advance so that they can be registered for the workshop and assigned to an appropriate task force discussion group. Write to the Office of Consumer Affairs, Department of Transportation, Washington, D.C. 20590, or telephone 202—426-4518.

THE CITIZENS' ADVISORY COMMITTEE ON TRANSPORTATION QUALITY

The Committee is made up of 21 members who are principally private citizens. They are appointed for terms of 3 years from various sections of the United States. The Committee recommends transportation initiatives and assesses transportation policies from the consumers' viewpoint. It acts as a citizens' sounding board and provides advice to the Secretary in order to assist the Department in its formulations of transportation policy affecting citizens.

This notice is given pursuant to section 13 of Executive Order 11671 dated June 5, 1972.

Issued on November 16, 1972.

BENJAMIN O. DAVIS, JR.,
Assistant Secretary for Safety and Consumer Affairs.

ATOMIC ENERGY COMMISSION

[Docket No. 50-245]

CONNECTICUT LIGHT & POWER CO., ET AL.

Notice of Consideration of Conversion of Provisional Operating License to Full-Term Operating License; and Opportunity for Hearing

The Atomic Energy Commission (the Commission) will consider the issuance of a full-term facility operating license to the Millstone Point Co. (acting for itself and as agent for the Connecticut Light & Power Co., the Hartford Electric Light Co., and the Western Massachusetts Electric Co.) (the licensee) which would authorize the licensee to possess, use, and operate the Millstone Nuclear Power Station Unit No. 1 (the facility), located in the town of Waterford, Conn., at its presently licensed, steady-state power level of up to 2,011 megawatts (thermal) for a period of 40 years from May 19, 1966, the issuance date of the construction permit (CPPR-20) in accordance with the provisions of the license and the technical specifications appended thereto, upon the completion of a favorable safety evaluation of the

application by the Commission's Directorate of Licensing, the completion of the environmental review required by the

vironmental considerations, the report of the Advisory Committee on Reactor Safeguards (ACRS), the proposed construction permit, other relevant documents,

XUM V37-2290 NOV 28 72 XUM

application by the Commission's Directorate of Licensing, the completion of the environmental review required by the Commission's regulations in 10 CFR Part 50, Appendix D, the receipt of a report on the application from the Advisory Committee on Reactor Safeguards (ACRS), and a finding by the Commission that the application for the full-term facility license (as amended) complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Chapter I. The facility is presently being operated in accordance with Provisional Operating License No. DPR–21 issued by the Commission on October 7, 1970.

The full-term license will not be issued until the Commission has made the findings, reflecting its review of the application under the Atomic Energy Act of 1954, as amended, which will be set forth in the proposed license, and has concluded that the issuance of the license will not be inimical to the common defense and security or to the health and safety of the public. The licensee has satisfied its obligation concerning indemnification as required by section 170 of the act and 10 CFR Part 140 of the Commission's regulations.

The facility is subject to the provisions of section B of Appendix D to 10 CFR Part 50, which sets forth procedures applicable to review of environmental considerations for production and utilization facilities for which construction permits or operating licenses were issued in the period of January 1, 1970, through September 9, 1971. Notice is hereby given, pursuant to 10 CFR Part 2, "Rules of Practice," and Appendix D of 10 CFR Part 50, "Implementation of the National Environmental Policy Act of 1969," that the Commission is providing an opportunity for hearing with respect to whether, considering those matters covered by Appendix D to 10 CFR Part 50, the existing provisional operating license in the captioned proceeding should be continued, modified, terminated or appropriately conditioned to protect environmental values.

Within thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER, the licensee may file a request for a hearing with respect to the issuance of a full-term facility operating license and any person whose interest may be affected by this proceeding may file a petition for leave to intervene (1) with respect to the issuance of a full-term facility operating license and (2) with respect to whether, considering those matters covered by Appendix D to 10 CFR Part 50, the existing provisional operating license should be continued, modified, terminated, or appropriately conditioned to protect environmental values. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's rules of practice in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR 2.714. As required by 10 CFR 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) The nature of the petitioner's right under the act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or a petition for leave to intervene must be filed with the Office of the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention Chief, Public Proceedings Staff not later than thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER. Such requests or petitions within the same 30-day period may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, DC. A petition for leave to intervene which is not timely will not be granted unless the Commission determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the Commission has considered those factors specified in 10 CFR 2.714(a).

For further details with respect to the matters under consideration, see the licensee's application for conversion of Provisional Operating License No. DPR–21 to a full-term operating license dated September 1, 1972, and the licensee's environmental report dated November 15, 1971, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and at the Waterford Public Library, Rope Ferry Road, Route 156, Waterford, CT 06385. As they become available, the following documents will also be availabe at the above locations: (1) The Safety Evaluation prepared by the Directorate of Licensing; (2) the Commission's draft detailed statement on environmental considerations pursuant to 10 CFR Part 50, Appendix D; (3) the Commission's final detailed statement on environmental considerations; (4) the report of the Advisory Committee on Reactor Safeguards on the application for a full-term facility operating license; (5) the proposed full-term operating license, and (6) the proposed technical specifications, which will be attached to the proposed full-term facility operating license.

Copies of Items (1), (3), (4), and (5) may be obtained when they become available by request to the Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Dated at Bethesda, Md. this 22d day of November, 1972.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Acting Deputy Director for Reactor Projects, Directorate of Licensing.

[FR Doc.72–20454 Filed 11–27–72;8:52 am]

[Docket No. 50–412]

DUQUESNE LIGHT CO. ET AL.

Notice of Hearing on Application for Construction Permit

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, Licensing of Production and Utilization Facilities, and Part 2, Rules of Practice, notice is hereby given that a hearing will be held, at a time and place to be set in the future by an Atomic Safety and Licensing Board (Board), to consider the application filed under the Act by the Duquesne Light Co., Ohio Edison Co., Pennsylvania Power Co., the Cleveland Electric Illuminating Co., and the Toledo Edison Co. (the applicants), for a construction permit for a pressurized water nuclear reactor designated as the Beaver Valley Power Station, Unit No. 2 (the facility), which is designed for initial operation at approximately 2,660 thermal megawatts with a net electrical output of approximately 852 megawatts. The proposed facility is to be located on the south bank of the Ohio River in Shippingport Borough, Beaver County, Pa. The hearing will be scheduled to begin in the vicinity of the site of the proposed facility.

The Board will be designated by the Atomic Energy Commission (Commission). Notice as to its membership will be published in the FEDERAL REGISTER.

Upon completion by the Commission's regulatory staff of a favorable safety evaluation of the application and an environmental review, and upon receipt of a report by the Advisory Committee on Reactor Safeguards, the Director of Regulation will consider making affirmative findings on Items 1–3, a negative finding on Item 4, and an affirmative finding on Item 5 specified below as a basis for the issuance of a construction permit to the applicants:

ISSUES PURSUANT TO THE ATOMIC ENERGY ACT OF 1954, AS AMENDED

1. Whether in accordance with the provisions of 10 CFR 50.35(a):

(a) The applicants have described the proposed design of the facility including,

FEDERAL REGISTER, VOL. 37, NO. 229—TUESDAY, NOVEMBER 28, 1972

but not limited to, the principal architectural and engineering criteria for the design, and have identified the major features or components incorporated therein for the protection of the health and safety of the public;

(b) Such further technical or design information as may be required to complete the safety analysis and which can reasonably be left for later consideration, will be supplied in the final safety analysis report;

(c) Safety features or components, if any, which require research and development have been described by the applicants and the applicants have identified, and there will be conducted a research and development program reasonably designed to resolve any safety questions associated with such features or components; and

(d) On the basis of the foregoing, there is reasonable assurance that (i) such safety questions will be satisfactorily resolved at or before the latest date stated in the application for completion of construction of the proposed facility, and (ii) taking into consideration the site criteria contained in 10 CFR Part 100, the proposed facility can be constructed and operated at the proposed location without undue risk to the health and safety of the public.

2. Whether the applicants are technically qualified to design and construct the proposed facility;

3. Whether the applicants are financially qualified to design and construct the proposed facility; and

4. Whether the issuance of a permit for construction of the facility will be inimical to the common defense and security or to the health and safety of the public.

ISSUE PURSUANT TO NATIONAL ENVIRONMENTAL POLICY ACT OF 1969 (NEPA)

5. Whether, in accordance with the requirements of Appendix D of 10 CFR Part 50, the construction permit should be issued as proposed.

In the event that this proceeding is not a contested proceeding, as defined by 10 CFR 2.4(n), the Board will determine (1) without conducting a de novo evaluation of the application, whether the application and the record of the proceeding contain sufficient information, and the review of the application by the Commission's regulatory staff has been adequate, to support the findings proposed to be made by the Director of Regulation on Items 1–4 above, and to support, insofar as the Commission's licensing requirements under the Act are concerned, the issuance of the construction permit proposed by the Director of Regulation; and (2) determine whether the review conducted by the Commission pursuant to NEPA has been adequate. In the event that this proceeding is not contested the Board will convene a prehearing conference of the parties within sixty (60) days after this Notice of Hearing or such other time as may be appropriate, at a time and place to be set by the Board. It will also set the schedule for the evidentiary hearing. Notice of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

In the event that this proceeding becomes a contested proceeding, the Board will consider and initially decide, as issues in this proceeding, Items 1–5 above as a basis for determining whether the construction permit should be issued to the applicants.

The Board will convene a special prehearing conference of the parties to the proceeding and persons who have filed petitions for leave to intervene, or their counsel, to be held within sixty (60) days from the date of publication of this notice in the FEDERAL REGISTER, or within such other time as may be appropriate, at a place to be set by the Board for the purpose of dealing with the matters specified in 10 CFR 2.751a.

The Board will convene a prehearing conference of the parties, or their counsel, to be held subsequent to any special prehearing conference and within sixty (60) days after discovery has been completed, or within such other time as may be appropriate, at a place to be set by the Board for the purpose of dealing with the matters specified in 10 CFR 2.752.

Notices of the dates and places of the special prehearing conference, the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

With respect to the Commission's responsibilities under NEPA, and regardless of whether the proceeding is contested or uncontested, the Board will, in accordance with section A.11 of Appendix D of 10 CFR Part 50, (1) determine whether the requirements of section 102(2) (C) and (D) of NEPA and Appendix D of 10 CFR Part 50 have been complied with in this proceeding; (2) independently consider the final balance among conflicting factors contained in the record of the proceeding with a view to determining the appropriate action to be taken; and (3) determine whether the construction permit should be issued, denied, or appropriately conditioned to protect environmental values.

For further details, see the application for a construction permit which was docketed October 20, 1972, and amendments thereto, and the applicants' environmental report dated November 6, 1972, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, between the hours of 8:30 a.m. and 5 p.m., on weekdays. Copies of those documents will also be made available at the Beaver Area Memorial Library, 100 College Avenue, Beaver, PA 15009, for inspection by members of the public between the hours of 1 p.m. and 9 p.m., Monday through Thursday, between 9 a.m. and 9 p.m., on Friday, and between 9 a.m. and 5 p.m., on Saturday. As they become available, a copy of the safety evaluation by the Commission's Directorate of Licensing, the Commission's draft and final detailed statements on environmental considerations, the report of the Advisory Committee on Reactor Safeguards (ACRS), the proposed construction permit, other relevant documents, and the transcripts of the prehearing conferences and of the hearing will also be available at the above locations. Copies of the Directorate of Licensing's safety evaluation, the Commission's final detailed statement on environmental considerations, the proposed construction permit, and the ACRS report, may be obtained, when available, by request to the Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Any person who does not wish to, or is not qualified to become a party to this proceeding may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715. A person making a limited appearance may only make an oral or written statement on the record, and may not participate in the proceeding in any other way. Limited appearances will be permitted at the time of the hearing at the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, not later than thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER.

A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified in the issues set out above.

Any person whose interest may be affected by the proceeding, who does not wish to make a limited appearance but who wishes to participate as a party in the proceeding must file a written petition under oath or affirmation for leave to intervene in accordance with the provisions of 10 CFR 2.714.

A petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to

each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the

each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A petition for leave to intervene must be filed with the Office of the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, DC, not later than thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER. A petition for leave to intervene which is not timely will not be granted unless the Board determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the Board has considered those factors specified in 10 CFR 2.714(a).

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have all the rights of the applicants to participate fully in the conduct of the hearing, such as the examination and cross-examination of witnesses, with respect to their contentions related to the matters at issue in the proceeding.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705, must be filed by the applicants not later than twenty (20) days from the date of publication of this notice in the FEDERAL REGISTER.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708, an original and twenty (20) conformed copies of each such paper with the Commission.

With respect to this proceeding, pursuant to 10 CFR 2.785, an Atomic Safety and Licensing Appeal Board will exercise the authority and the review function which would otherwise be exercised and performed by the Commission. Notice as to the membership of the Appeal Board will be published in the FEDERAL REGISTER.

Dated at Washington, D.C., this 22d day of November 1972.

UNITED STATES ATOMIC ENERGY COMMISSION,
PAUL C. BENDER,
Secretary of the Commission.

[Docket No. 50-219]

JERSEY CENTRAL POWER & LIGHT CO.

Notice of Consideration of Conversion of Provisional Operating License to Full-Term Operating License and Opportunity for Hearing

The Atomic Energy Commission (the Commission) will consider the issuance of a full-term facility operating license to the Jersey Central Power & Light Co. (the licensee) which would authorize the licensee to possess, use and operate the Oyster Creek Nuclear Power Plant Unit No. 1 (the facility), located in Lacey Township, Ocean County, N.J., at its presently licensed steady state power level of up to 1930 megawatts (thermal) for a period of 40 years from December 15, 1964, the issuance date of the construction permit (CPPR-15) in accordance with the provisions of the license and the Technical Specifications appended thereto, upon the completion of a favorable safety evaluation of the application by the Commission's Directorate of Licensing, the completion of the environmental review required by the Commission's regulations in 10 CFR Part 50, Appendix D, the receipt of a report on the application from the Advisory Committee on Reactor Safeguards (ACRS), and a finding by the Commission that the application for the full-term facility license (as amended) complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Ch. I. The facility is presently being operated in accordance with Provisional Operating License No. DPR-16 issued by the Commission on April 9, 1969.

The full-term license will not be issued until the Commission has made the findings, reflecting its review of the application under the Atomic Energy Act of 1954, as amended, which will be set forth in the proposed license, and has concluded that the issuance of the license will not be inimical to the common defense and security or to the health and safety of the public. The licensee has satisfied its obligation concerning indemnification as required by section 170 of the Act and 10 CFR Part 140 of the Commission's regulations.

The facility is subject to the provisions of Section A of Appendix D to 10 CFR Part 50, which sets forth procedures applicable to review of environmental considerations for production and utilization facilities.

Within thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a petition for leave to intervene with respect to the issuance of a full-term facility operating license. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's rules of practice in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR 2.714. As required by 10 CFR 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, hoy that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or a petition for leave to intervene must be filed with the Office of the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention Chief, Public Proceedings Staff not later than thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER. Such requests or petitions within the same 30-day period may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, DC. A petition for leave to intervene which is not timely will not be granted unless the Commission determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the Commission has considered those factors specified in 10 CFR 2.714(a).

For further details with respect to the matters under consideration, see the licensee's application for conversion of Provisional Operating License No. DPR-16 to a full-term operating license dated March 6, 1972, and the licensee's environmental report dated March 6, 1972, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and at the Ocean County Library, 15 Hooper Avenue, Toms River, NJ 08750. As they become available, the following documents will also be available at the above locations: (1) The safety evaluation prepared by the Directorate of Licensing; (2) the Commission's draft detailed statement on environmental considerations pursuant to 10 CFR Part 50, Appendix D; (3) the Commission's

final detailed statement on environmental considerations; (4) the report of the Advisory Committee on Reactor Safeguards on the application for a full-term facility operating license; (5) the proposed full-term operating license, and (6) the proposed technical specifications, which will be attached to the proposed full-term facility operating license.

Copies of Items (1), (3), (4), and (5) may be obtained when they become available by request to the Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Dated at Bethesda, Md., this 22d day of November 1972.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Acting Deputy Director for Reactor Projects, Directorate of Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 24248; Order 72-11-97]

AEROLINEAS ARGENTINAS

Order Regarding Schedules

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 22d day of November 1972.

On September 25, 1972, the Board, pursuant to Part 213 of the Board's Economic Regulations, adopted Order 72-10-19 disapproving certain of the schedules as filed by Aerolineas Argentinas (Aerolineas) on March 2, 1972, and amended on April 10, 1972. The order stated that the Board would consider an application for approval of a proposed schedule pursuant to § 213.3(e) of the Economic Regulations to enable Aerolineas to provide turnaround service at Miami by changing the day of operation of the then existing Flights 390 and 361. On October 27, 1972, Aerolineas filed an application with the Board requesting reinstatement of its entire existing schedule, or alternatively, approval of a proposed schedule. This proposed schedule provided for changes in the days of operation of Flights 390, 361, 370, and 371 and for the inclusion of Lima as an intermediate point on Flights 370, 371, and 361 without traffic rights between Lima and the United States.

On November 10, 1972, the Board adopted Order 72-11-39 approving that part of Aerolineas' application which related to changing the days of operation of Flights 390 and 361. All other issues raised in the application were denied. On November 17, 1972, Aerolineas filed an application requesting the Board to reconsider its denial of that portion of its proposed schedule which provided for changes in the days of operation of Flights 370 and 371 and the inclusion of Lima as an intermediate point on Flights 361, 370, and 371 without traffic rights between Lima and the United States.

Since the proposed changes do not involve any increases in the frequency or the capacity of Aerolineas' services to the United States, the Board has decided to grant the request.

Accordingly, it is ordered, That:

1. Aerolineas shall be authorized to operate Flight 370 departing Buenos Aires on Monday, Wednesday, and Saturday and Flight 371 departing Los Angeles on Monday, Wednesday, and Saturday.

2. Aerolineas shall be authorized to add Lima as an intermediate point on Flights 361, 370, and 371 without traffic rights between Lima and the United States.

3. This order shall be effective on the day of adoption and shall remain in effect until December 31, 1972, unless otherwise ordered by the Board.

4. This order shall be served on Aerolineas Argentinas and the Ambassador of Argentina in Washington, D.C.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-20397 Filed 11-27-72;8:50 am]

[Docket No. 24488; Order 72-11-92]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Currency Matters

Issued under delegated authority November 21, 1972.

BENEFITS REVIEW BOARD

Designation of Acting Clerk

On October 27, 1972, the President approved the Longshoremen's and Harbor Workers' Compensation Act Amendments of 1972 (Public Law 92-576, 86 Stat. 1251). Section 15(a) of Public Law 92-576 provided for the establishment of a Benefits Review Board consisting of three members appointed by the Secretary of Labor "to hear and determine appeals raising a substantial question of law or fact taken by any party in interest from decisions with respect to claims of employees under this Act and the extensions thereof."

The effective date of the above-quoted section is 30 days after the enactment, or November 26, 1972. Appropriate orders creating the Benefits Review Board are currently being prepared for promulgation.

All applications for review by the Benefits Review Board shall, in the meantime, be filed with Frances O. Coghill, who is hereby designated as the Acting Clerk of the Benefits Review Board, Suite 720, Vanguard Building, 1111 20th Street NW., U.S. Department of Labor, Washington, DC 20210.

Signed at Washington, D.C., this 24th day of November 1972.

J. D. HODGSON,
Secretary of Labor.

FEDERAL COMMUNICATIONS COMMISSION

[Dockets Nos. 19632-19634; FCC 72-1018]

G AND G BROADCASTING, INC., ET AL.

Order Designating Applications for Consolidated Hearing on Stated Issues

In regard applications of G and G Broadcasting, Inc., Sioux City, Iowa, Docket No. 19632, File No. BPH-7732, Requests: 95.5 MHz, No. 238; 28.5 kw. (H & V); 138 feet; John L. Breece, Sioux City, Iowa, Docket No. 19633, File No. BPH-7840, Requests: 95.5 MHz, No. 238; 100 kw. (H & V); 742 feet; Jim and Tom Hassenger Broadcasting Co., Sioux City, Iowa, Docket No. 19634, File No. BPH-7861, Requests: 95.5 MHz, No. 238; 100 kw. (H & V); 898 feet; for construction permits.

1. The Commission has before it the captioned applications which are mutually exclusive in that operation by the applicants as proposed would result in mutually destructive interference. Therefore, a comparative hearing must be held.

2. According to cost estimates contained in its application, G and G Broadcasting, Inc. (G and G), will require $64,350 to construct and operate its proposed station for 1 year.[1] To meet this requirement, G and G relies on $9,000 in cash; $20,000 in profits from existing operations; a $30,000 loan from The Toy National Bank, Sioux City, Iowa; a $15,000 loan from Raymond W. Grandle; and a $5,000 loan from Wilmer W. Grabau. However, G and G has shown the availability of only $9,000 in cash and $20,000 in profits from existing operations to meet its first-year costs of $64,350. Specifically, the commitment from The Toy National Bank does not adequately describe the security required for the $30,000 loan, as required by paragraph 4(e), section III, FCC Form 301, which raises the question of whether G and G can meet all of the bank's security requirements. Moreover, the letter which expresses the bank's willingness to lend $30,000 to G and G expired under its own terms on May 12, 1972, and G and G has not submitted an updated bank commitment. Thus, G and G has not established the availability of the bank loan. In addition, Mr. Grandle has not submitted a balance sheet which shows sufficient current and liquid assets in excess of current liabilities to loan any money to G and G, under the standards delineated in paragraph 4(b), section III, FCC Form 301. Moreover, the balance sheets of G and G and of Mr. Grabau must be updated since they are about 1 year old. Further, the loan commitments of Messrs. Grandle and Grabau are no longer current, and they do not state the security required for their loans. Paragraph 4(a), section III, FCC Form 301, requires a lender to make a definite statement with respect to the security required; if no security is required, it must be so stated. In view of the foregoing, appropriate financial issues will be specified against G and G.

3. Data submitted by the applicants indicate that there would be a significant disparity between the G and G proposal and that of the other applicants in the size of the areas and populations which would receive service. Therefore, the areas and populations which would receive FM service of 1 mv./m or greater intensity, together with the availability of other primary (1 mv./m. or better for FM) aural services in such areas, will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to any of the applicants.

4. John L. Breece and the Jim and Tom Hassenger Broadcasting Co. propose independent programing, while G and G Broadcasting, Inc., proposes to duplicate the programing of its AM station, KSCJ, during at least 50 percent of its broadcast time. Therefore, evidence regarding program duplication will be admissible under the standard comparative issue. When duplicated programing is proposed, the showing permitted under the standard comparative issue will be limited to evidence concerning the benefits to be derived from the proposed duplication, and a full comparison of the applicants' program proposals will not be permitted in the absence of a specified programing inquiry. "Jones T. Sudbury," 8 FCC 2d 360 (1967).

5. John L. Breece and the Jim and Tom Hassenger Broadcasting Co. are qualified to construct, own, and operate the proposed new FM facility and, except as indicated by the issues set forth below, G and G Broadcasting, Inc., is qualified to construct, own and operate the proposed new facility. The applications are, however, mutually exclusive and the Commission is thus unable to make the statutory finding that a grant of the applications would serve the public interest, convenience and necessity. Therefore, the applications must be designated for hearing in a consolidated proceeding on the issues set forth below.

6. *Accordingly, it is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the captioned applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine, with respect to the application of G and G Broadcasting, Inc.:

(a) Whether the Toy National Bank, Sioux City, Iowa, is willing to loan $30,000 to the applicant, and if so, on what terms;

(b) Whether Raymond W. Grandle has sufficient current and liquid assets in excess of current liabilities to loan $15,000 to the applicant, and if so, on what terms;

(c) Whether the applicant currently has sufficient current and liquid assets in excess of current liabilities to provide $9,000 to its proposed FM facility;

(d) Whether Wilmer W. Grabau has sufficient current and liquid assets in excess of current liabilities to loan $5,000 to the applicant, and if so, on what terms;

(e) Whether, in light of the evidence adduced under the preceding issues, the applicant is financially qualified.

2. To determine which of the proposals would, on a comparative basis, best serve the public interest.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications for construction permits should be granted.

7. *It is further ordered*, That each of the applicants shall file a written appearance stating an intention to appear and present evidence on the specified issues, within the time and in the manner required by § 1.221(c) of our rules.

8. *It is further ordered*, That the applicants shall give notice of the hearing, within the time and in the manner specified in § 1.594 of our rules, and shall seasonably file the statement required by § 1.594(g).

Adopted: November 15, 1972.

Released: November 21, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[2]
BEN F. WAPLE,
Secretary.

[FR Doc.72-20378 Filed 11-27-72;8:49 am]

[Docket No. 19635; FCC, 72-1021]

MEDIA ENTERPRISES, INC. (KQXI)

Memorandum Opinion and Order Designating Application for Consolidated Hearing on Stated Issues

In regard application of Media Enterprizes, Inc. (KQXI), Arvada, Colo., Docket No. 19635, File No. BML-2320, requests: Change in station location to Denver, Colo., for modification of license.

1. The Commission has before it for consideration (i) the above-captioned application; (ii) a petition for acceptance, waiver, and grant filed by the applicant; (iii) a petition for reconsideration filed by KLIR, Inc., licensee of Station KLIR, Denver, Colo.; (iv) a petition to deny filed by Lakewood Broadcasting Service, Inc., licensee of Station KLAK, Lakewood, Colo.; (v) a petition to deny filed by KLIR, Inc.; and (vi) opposition and reply pleadings to the petitions to deny.

[1] G and G's first-year costs consist of the following: Down payment on equipment, $10,800; first-year payments on equipment, including interest, $11,820; building expenses, $2 000; miscellaneous expenses, $6,000; payments on bank loan, including interest, $12,250; and working capital, $21,480.

[2] Commissioner Reid absent.

2. KLIR has filed a petition for reconsideration of the Commission action (Order FCC 70-566 adopted May 27, 1970), waiving § 1.571, Note 2, of the rules (AM "freeze") and accepting the KQXI application for filing. Procedurally, KLIR argues that its petition should be accepted although it is allegedly untimely according to § 1.106(f) of the rules, which provides for the filing of a petition for reconsideration within 30 days of the release of the full text of the action taken. It contends that it filed the petition within 30 days of the release of the public notice of the adoption of the order and that the rule should be interpreted to allow the filing of a petition for reconsideration within 30 days from either the release or the full text of the order or the release of the public notice of the action taken.

3. Substantively, the petitioner claims that the application seeks to change an AM assignment on a demand basis, and that the change would have a significant effect on the radio allocations in the Denver area. It states that Arvada would be precluded from having a local broadcast facility due to the AM freeze, and that the absence of any technical changes in the proposal is incidental to the purposes of the freeze which should not have been waived to accept the KQXI application for filing. In addition, the petitioner alleges that the applicant showed no extraordinary circumstances to justify its waiver request, and that the application should be returned since it is substantially incomplete for failing to conduct a survey of community needs.

4. The petition for reconsideration was not timely filed and, therefore, cannot be considered. In any event the petitioner's contentions, in support of a reconsideration of our earlier action are unpersuasive. As stated in the order being challenged, a grant of the proposal would have no effect on allocations since there are no engineering changes proposed and, therefore, it is not the type of proposal for which the "freeze" was designed. Furthermore, the application will not be returned as being substantially incomplete since the necessity of conducting a community needs survey, as noted below, is an essential point of contention. The applicant, in good faith, contends that a survey is not necessary, and the application is as complete as the applicant believes it should be. Accordingly, the petition for reconsideration will be dismissed, and the merits of the KQXI proposal will be considered.

5. Lakewood Broadcasting Service, Inc., licensee of Station KLAK, Lakewood, Colo., claims standing by arguing that a grant of the application will enhance KQXI's opportunities to compete effectively with KLAK for program sources, listeners, and advertising revenues. KLAK states that both Lakewood and Arvada are separate suburban communities of the Denver metropolitan area; that KLAK and KQXI occupy adjacent channels and have sufficiently high power to be heard throughout the Denver urban area; that KQXI's move to Denver would confer additional commercial competitive advantages on KQXI; and that, therefore, KLAK has standing to object to a grant of the application. KLIR, Inc., licensee of Station KLIR, Denver, Colo., also claims standing. It argues that it is assigned to Denver, programs to the needs of Denver, draws advertising revenue from Denver, and that the reassignment of KQXI to Denver would have a direct adverse economic impact on KLIR.

6. The applicant claims that neither petitioner has standing as a party in interest. It states that KLAK cannot claim economic injury since the only licensed standard broadcast stations in suburban Jefferson County are KLAK and KQXI, and that KLAK would gain rather than lose listeners and advertisers by the removal to Denver of its only local competition. It argues that KLAK previously characterized KQXI as another Denver station and it cannot claim that a modification of KQXI's license to conform to that fact operates to KLAK's injury. In addition, the applicant contends that KLIR's case for standing is unsupported by any facts or affidavits and that it cannot be presumed that a modification of KQXI's license would cause economic injury to KLIR.

7. The Commission finds that the petitioners have standing as parties in interest within the meaning of section 309(d) (1) of the Communications Act of 1934, as amended, and § 1.580(i) of the Commission rules. A change in city of designation from a suburb to the larger city could affect the competitive position of the stations licensed either to the surrounding suburbs or the large city, and, accordingly, the petitioners have standing as parties in interest within the meaning of "Federal Communications Commission v. Sanders Brothers Radio Station," 309 US 470, 9 RR 2008 (1940).

8. The KQXI application has been filed on the basis of the applicant's interpretation of prior Commission actions involving applications previously submitted by KQXI. To gain perspective on the proposal some background information, therefore, is necessary. In September 1961, KQXI requested authority to change transmitter site, increase daytime power, add nighttime, and make additional engineering changes. The application was designated for hearing to determine, inter alia, whether, for purposes of § 73.28(d)(3) of the rules (the "10 percent rule"), Arvada is a separate community from Denver, Colo., and whether the nighttime proposal would be consistent with the Commission's coverage and separation requirements. The application was denied in a decision ("Denver Area Broadcasters," 38 FCC 583, 4 RR 895 (1965)), that concluded it was unnecessary to determine whether Arvada was a separate community entitling KQXI to the exception to the "10 percent rule." KQXI, however, was permitted to amend its application and return it to the processing line. As amended, the application sought authority to operate nighttime from a different site than that used for the daytime operation. Once again it was designated for hearing to determine whether, for purposes of § 73.28(d)(3), Arvada was a separate community from Denver and whether, as a consequence, the applicant met appropriate Commission requirements. In an initial decision, "Radio Station KQXI," 13 FCC 2d 184 (1967), the Hearing Examiner favored a grant of the application and stated that Arvada was a separate community entitling KQXI to the first local nighttime service exception to the "10 percent rule" and that a grant of the application would be consistent with Commission requirements. The Review Board, however, modified this finding and denied the application ("Radio Station KQXI," 13 FCC 2d 171, 13 RR 2d 363 (1968)). It held that, for the purposes of the "10 percent rule," Arvada was not a separate community from Denver and that the proposal would violate the rules. On January 19, 1969, FCC 69-36, the Commission denied, without opinion, KQXI's application for review of the Review Board's decision. In response, the applicant submitted an application to modify its license to specify Denver as its principal community, or, alternatively, reconsideration of the action denying its application for review of the Review Board's decision. By Order (FCC 69-304), the Commission dismissed the applicant's request. Since the tendered application, however, was still before the Commission, KQXI submitted a petition for acceptance, waiver, and grant in which it sought waiver of the "freeze" and change in its city of designation. The Commission waived the "freeze" and accepted the application for filing. Now before the Commission is the KQXI application to change its city of designation from the suburban community of Arvada to the larger city of Denver and opposition and supplemental pleadings.

9. The petitioners, KLAK and KLIR, argue that the application be denied or designated for hearing on the basis of section 307(b) of the Communications Act of 1934, as amended. They argue that Arvada, a suburb of Denver, has grown in 10 years from a population of 19,242 to 46,814 according to the recent census; that KQXI is the only standard broadcast station located in Arvada; that Commission rules do not provide for an FM or TV allocation for Arvada; that Denver has 12 standard broadcast facilities, 10 FM, six television, one VHF educational television and one educational standard broadcast station; and that, therefore, section 307(b) of the Act requires an assessment, in hearing, of the relative needs of the two cities for locally originated radio service. The petitioners also claim that the Commission's Review Board ruling denying KQXI's earlier requests for authority to extend its operating hours from daytime to fulltime is not determinative of the questions posed by the current proposal. They state that the Review Board concluded that KQXI failed to establish that Arvada is a separate community from Denver within the meaning of the

V37-229 NOV28 72 XUM

"10% rule" and that the Board was not confronted with a 307(b) determination. KLAK asserts that the Commission did

posed in the light of the Board's conclusion in 1967 that "programing directed specifically toward Arvada resi-

an issue with respect to this matter will be specified.

12. KLIR argues also that KQXI

vey is not necessary since Arvada and Denver are indistinguishable broadcast entities and a survey of the people of Denver is irrelevant to the applicant's

ignated for hearing on the issues set forth below.

20. *Accordingly, it is ordered*, That, pursuant to section 309(e) of the Com-

ner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

V3

"10% rule" and that the Board was not confronted with a 307(b) determination. KLAK asserts that the Commission did not find that Arvada lacks the characteristics of a separate community for licensing purposes under § 73.30 of the rules or that Arvada does not have separate characteristics to warrant provisions in the Commission's allocation scheme for a separate local daytime broadcast station in the community. It contends, therefore, that KQXI cannot maintain that its proposal is required or justified by prior Commission action. KLIR argues that the Commission, for allocation purposes, continues to recognize former town and city limits and small suburban communities where there has been a merger or annexation by a large community of a smaller political entity, and, accordingly, since Arvada has not been merged or annexed by Denver, it remains a recognized entity for Commission purposes.

10. In submitting its application, KQXI states that it proposes to change its city of designation without altering its technical operation.[1] It contends that it seeks to conform the KQXI license to the Commission's recent action in which it affirmed the Review Board's decision that Arvada lacks separate programing needs. In response to the petitioners, the applicant asserts that its proposal is not contrary to section 307(b) of the Communications Act. It states that in 1960, the Commission authorized the facilities of KQXI and denied an application for Denver on the basis of the contingent comparative issue and not 307(b) since both applicants proposed wide area coverage to virtually the same area. At that time, according to KQXI, the Commission wrote that "the existing Denver stations or a station operating on the facilities here in contest * * * could effectively meet such distinctly local needs as exist in Arvada." "Denver Broadcasting Co.," 28 FCC 662 at 676 (1960).[2] In addition, the applicant states that in 1969, the Commission refused to review the Review Board's decision that "KQXI failed to establish that Arvada is a separate community from Denver within the meaning of the 10 percent rule." On the basis of these two actions, KQXI asserts that it is in the anomalous position of being licensed to serve a "community which had been held—not once, but twice—to have no need for local service." The applicant states that it, therefore, submitted the instant application in order to conform its license to the Denver metropolitan area, the community which the Commission has twice found that it realistically serves. It adds that no change in the geographic emphasis of KQXI's programing is proposed in the light of the Board's conclusion in 1967 that "programing directed specifically toward Arvada residents on a regular basis is unimpressive, and * * * (that) the vast bulk of the programs described * * * are designed for * * * wide area appeal * * *" "Radio Station KQXI," 13 FCC 2d at 178, 13 RR 2d 363 at 372 (1968). In response to KLAK's objections, KQXI argues that KLAK is bound by its contentions in Docket No. 14817 where it successfully contended that Arvada is a bedroom community dependent upon Denver for essential services, and that its destiny "is inextricably tied to that of Denver and the whole metropolitan area." In response to KLIR's contentions regarding the merger of separate political entities, KQXI alleges that the petitioner's reliance on these cases is misplaced since the Commission has found on two occasions that the needs of Arvada and Denver are common rather than separate and distinct.

11. A grant of KQXI's request would bring a 12th local standard broadcast outlet to Denver while removing the only station licensed to serve Arvada, a city with a population of 46,814. There is, therefore, a substantial question as to whether a grant of this request would result in a fair, efficient, and equitable distribution of facilities within the meaning of section 307(b) of the Communications Act of 1934, as amended. "WKYR, Inc.," 24 RR 1097 (1963), "Radio San Juan, Inc.," 20 FCC 2d 92 (1969). The applicant argues that because the Commission has twice before held that Arvada was not a community, first in the original comparative proceeding, and later in a hearing on an application for nighttime service, we are now bound by those findings in this proceeding. That argument must be rejected. In the first proceeding the Commission held only that for the purpose of choosing between two applicants, one for Arvada and the other for Denver, the proposals were so similar in most respects that section 307(b) of the Act should not be controlling. In the second proceeding, although the issue was framed in terms of whether Arvada was a community for purposes of the 10-percent rule, the Review Board's conclusion was based on findings that KQXI was really trying to serve Denver nighttime, and, therefore, applied the criteria set forth in the Commission's "Policy Statement on Section 307(b) Considerations for Standard Broadcast Facilities Involving Suburban Communities," 2 FCC 2d 190 (1965). Thus, neither of these earlier findings are controlling here, because different considerations are involved when, as here, the question is simply whether the only station licensed to Arvada should be allowed to be licensed to Denver, which already has 11 standard broadcast stations. See, for example, the special emphasis placed upon the city of license in the "Primer on Ascertainment of Community Problems by Broadcast Applicants," 27 FCC 2d 650, 21 RR 2d 1507 (1971). Therefore, an issue with respect to this matter will be specified.

12. KLIR argues also that KQXI violated section 1.65 of the rules by misrepresenting its program format to the Commission. It claims that KQXI's information on file at the Commission and that being distributed to potential advertisers are irreconcilable and that these misrepresentations are the basis for an issue.[3] Specifically, the petitioner states that in June 1969 KQXI informed the Commission that it was changing its music format to country and western and in May 1970 that it was changing from country and western to gospel music. In July 1970, however, the petitioner states that KQXI distributed advertising promotions that claimed it was celebrating its first full year of broadcasting 100 percent religious music.

13. In reply, KQXI argues that, its assignment application filed July 14, 1969, and subsequent amendments state that there would be a "higher percentage of talk programs, including programs of a religious nature," that the station was "devoting as much as 40 percent of its weekly schedule to programing of a religious nature," and that the station had recently changed its music format to country and western. In a supplementary pleading, KQXI implies that there is no inconsistency between having a religious program format and a country and western music format, and states that the Commission was satisfied with its changes and explanation for them since the Commission subsequently granted its assignment application on September 24, 1969. It argues also that it notified the Commission by letter on May 28, 1970, that it changed its music format from country and western to gospel, and that, currently, it features both gospel and country and western music.

14. Upon consideration of the allegations of misrepresentation and the applicant's response thereto, we conclude that the petitioner has not alleged sufficient facts to warrant specifying an issue with respect to violation of § 1.65 of the rules. However, the contradictions between what KQXI reported to the Commission and what the station told potential advertisers are such as to raise a substantial question of misrepresentation. Therefore, we will specify an issue concerning the matter.

15. KLIR also contends that the applicant has failed to comply with the "Primer"[4] by not submitting a current community needs survey that includes the leaders and general public of Denver and by not justifying its 100 percent religious format. KXXI argues that a survey is not necessary since Arvada and Denver are indistinguishable broadcast entities and a survey of the people of Denver is irrelevant to the applicant's awareness of the needs of Denver and the surrounding area.

16. A survey of community needs was conducted by KQXI on December 8, 1970, and filed with its recent renewal application (BR-4102). KQXI satisfactorily explained the changes in its broadcast format, and the station's renewal was granted. The petitioner's objections, therefore, relating to KQXI's past programing practices will not be considered further. The contention, however, that KQXI failed to comply with the "Primer" is well taken. The "Primer" states specifically that a community needs survey must be submitted with an application for modification of license to change station location. Since KQXI intends to be responsive primarily to Denver, with service to communities outside the city of license, it must be aware of the current problems, needs, and interests of the residents of its community of license and the other areas it undertakes to serve. Accordingly, KQXI's response that it is aware of the needs of Arvada and that a survey of the people of Denver is irrelevant is inadequate, and an appropriate issue will be specified.

17. Finally, KLAK claims that a substantial question exists as to whether the applicant complied with the Commission's publication requirements. It asserts that KQXI published a notice in a newspaper in Denver but not in Arvada, and stated in the notice that the purpose of its application was to change the city of license to Denver, but failed to state that the main studio also would be moved to Denver. In response, the applicant argues that it was not necessary for it to publish in a newspaper and that the relocation of the main studio, which is a necessary consequence of the modification of license, was implicit in the notice that it published.

18. The Commission finds that the applicant complied with section 1.580 of the rules by broadcasting the notice as provided by the rules. The applicant, by also publishing the notice in a Denver newspaper, demonstrated its intention to fully apprise the public of the filing of its application, and the mere fact that KQXI failed to state that the main studio would be moved is not sufficient to raise a question as to whether the applicant has complied with § 1.580 of the rules.

19. Except as indicated by the issues specified below, the applicant is qualified to construct and operate as proposed. In view of the foregoing, however, the Commission is unable to make the statutory finding that a grant of the subject application would serve the public interest, convenience, and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below.

20. *Accordingly, it is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, whether a grant of the application would provide a fair, efficient, and equitable distribution of radio service.

2. To determine whether Station KQXI misrepresented its program format to the Commission or in promotional material to potential advertisers, and, if so, whether such misrepresentation reflects adversely on its qualifications to be a broadcast licensee.

3. To determine the efforts made by Station KQXI to ascertain the community needs and interests of the area to be served and the means by which the applicant proposes to meet those needs and interests.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the application would serve the public interest, convenience, and necessity.

21. *It is further ordered*, That the petition for reconsideration filed by KLIR, Inc., licensee of station KLIR, Denver, Colo., is dismissed.

22. *It is further ordered*, That the petitions to deny filed by KLIR, Inc., licensee of station KLIR, Denver, Colo., and Lakewood Broadcasting Service, Inc., licensee of station KLAK, Lakewood, Colo., are granted to the extent indicated above and are denied in all other respects.

23. *It is further ordered*, That KLIR, Inc., and Lakewood Broadcasting Service, Inc., are made parties to the proceeding.

24. *It is further ordered*, That, in the event of a grant of the application, the construction permit shall contain the following condition:

> The authority granted herein is subject to the condition that the licensee shall take whatever measures are necessary to prevent objectionable reradiation effects or cross-modulation with station KLZ, Denver, Colo.

25. *It is further ordered*, That, to avail itself of the opportunity to be heard, the applicant and parties respondent herein, pursuant to § 1.221(c) of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

26. *It is further ordered*, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission rules, give notice of the hearing, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: November 15, 1972.

Released: November 21, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[5]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72-20377 Filed 11-27-72;8:49 am]

[1] The present KQXI operation provides coverage to the city of Denver in accordance with Commission rules.

[2] The Commission did not find, however, that section 307(b) was not applicable, only that the decision should not be made on the basis of 307(b) considerations.

[3] On the basis of statements made in these promotional fliers distributed by KQXI, KLIR claims that KQXI has completed the transfer of its identity to Denver and that there has been a de facto abandonment of Arvada. The statements made by KQXI for advertising purposes are insufficient to justify charging KQXI with unauthorized abandonment of Arvada, and an issue on that matter has not been specified.

FEDERAL MARITIME COMMISSION

COMPANIA SUD AMERICANA DE VAPORES AND PRUDENTIAL-GRACE LINES, INC.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Stuart S. Dye, Esq., Kirlin, Campbell & Keating, The Farragut Building, 900 17th Street NW., Washington, DC 20006.

Agreement No. 9941-1, between Compania Sud Americana De Vapores and Prudential-Grace Lines, Inc., covers a petition by the parties to extend the termination date of their agreement from December 31, 1972 to December 31, 1975.

[Dockets Nos. E-7754, E-7772]

charges under Rate Schedules 24 and 25 were based upon utilization of an annual

V37-229 NOV 28 72 XUM

The basic agreement between the parties covers a pooling, sailing and equal access to government-controlled cargo arrangement in the southbound trade on all cargo, with certain exceptions moving from U.S. Atlantic Coast ports to ports on the Chilean Coast, as far south as and including the ports of Talcahuano and San Vicente.

By order of the Federal Maritime Commission.

Dated: November 21, 1972.

[Dockets Nos. E-7754, E-7772]

GREEN MOUNTAIN POWER CORP.

Order Providing for Hearing, Suspending Superseding Rate Schedule, and Consolidating Proceedings

NOVEMBER 17, 1972.

Green Mountain Power Corp. (Green Mountain) on August 31, 1972, tendered for filing a new Tranmission Contract, dated August 28, 1972 (designated as Green Mountain's FPC Rate Schedule No. 46) superseding its FPC Rate Schedules No. 24 and No. 25, which are applicable to transmission service to Vermont Electric Cooperative, Inc. (Co-op). The new agreement is proposed to become effective on November 1, 1972. In response to the Commission Secretary's notification of filing deficiencies, Green Mountain on October 18, 1972, submitted additional data and payment of the filing fee.

Under its FPC Rate Schedule No. 24, Green Mountain provides transmission service of up to 1,000 kw. of power and energy from Vermont Electric Power Co.'s (VELCO) substation in Essex, Vt., via Green Mountain's 34.5 kv. No. 3314 transmission line to pole No. 11 in Williston, Vt., a distance of 3 miles, at which point delivery is made to Co-op. Under its FPC Rate Schedule No. 25, Green Mountain provides transmission service of up to 1,000 kw. of power and energy from VELCO's Essex substation via Green Mountain's 34.5 kv. No. 3302 transmission line to tower No. 87 in Richmond, Vt., a distance of 8.5 miles, at which point delivery is made to Co-op. Under Rate Schedules 24 and 25, the charges to Co-op are $38.50 per month ($462 per annum) and $135.03 per month ($1,620.36 per annum), respectively. The total combined charges to Co-op are $173.53 per month or $2,082.36 per annum.

The proposed superseding agreement provides for the continuation of the transmission services presently provided under Rate Schedules 24 and 25. The transmission distances will remain the same as existing distances except that the terminus in Richmond has been changed to Green Mountain's substation, thus increasing the distance for service under Rate Schedule No. 25 from 8.5 miles to about 9.5 miles for that section of line. The amount of power and energy to be delivered to Co-op at appropriate points will be increased from 2,000 kw. to a total of 2,500 kw. For such services and wheeling services provided, Co-op shall pay Green Mountain a monthly charge of $266.39 ($3,196.68 per annum). Deliveries of power and energy to Co-op shall be adjusted for any losses which may be incurred therefor. Thus, the proposed increase in charges over those under Rate Schedules 24 and 25 is $1,114.32 per annum (53.5 percent).

In support of the proposed increased charges, Green Mountain states that the charges under Rate Schedules 24 and 25 were based upon utilization of an annual charge rate of 15 percent applied to an allocated portion of the original cost of facilities dedicated to Co-op's use. The 15 percent rate was intended to cover operating and maintenance expense, depreciation, taxes, and cost of capital. Under the proposed new agreement, the charges have been based upon the annual charge rate of 20.86 percent, derived from costs for the year 1971.

Green Mountain's proposed increased rates and charges in Docket No. E-7754, were suspended until February 12, 1973, and made subject to hearing by order issued September 7, 1972. A review of the Rate Schedule No. 46 and the data and material tendered for filing therewith, indicates that the proposed new agreement and the proposed increased rates and charges, raise issues which require development in an evidentiary hearing. The proposed increased rates and charges have not been shown to be just and reasonable, and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

In view of the fact that similar issues have been raised and are pending in Green Mountain's rate proceedings in Docket No. E-7754, the proceedings in Docket No. E-7772 will be consolidated as provided below. All persons or parties permitted to intervene in Docket No. E-7754, will be deemed by virtue of the consolidation to have been permitted to intervene in Docket No. E-7772.[1]

The Commission finds:

It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Green Mountain's proposed new FPC Rate Schedule No. 46 tendered for filing on August 31 and supplemented on October 18, 1972, and that such rate schedule be suspended and its use deferred as hereinafter provided.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR Ch. I), a public hearing shall be held commencing with a prehearing conference, on February 1, 1973, as fixed in Commission order issued herein on September 7, 1972, concerning the lawfulness of the rates, charges classifications, and services contained in Green Mountain's FPC Electric Rate Schedules, as proposed to be amended by the new Rate Schedule No. 46.

(B) Pending hearing and decision thereon, Green Mountain's proposed new

[Docket No. E–7806]

ILLINOIS POWER CO.

Notice of Proposed Change in Rates and Charges

NOVEMBER 21, 1972.

Take notice that on November 6, 1972, Illinois Power Co. (Illinois Power) tendered for filing proposed changes in its rates and charges applicable to nine electric cooperatives to be effective as of January 1, 1973. The tendered contracts are proposed to supersede Illinois Power's FPC Rate Schedules Nos. 36, 37, 38, 39, 40, 41, 42, 43, and 44. The changes include (1) an increase in the demand charge from $1.32 to 1.40 per kv.-a. of maximum demand, (2) an increase in the energy charge from 0.50 to .57¢ per kw.-hr. delivered, (3) a modification in the fuel adjustment provision, and (4) a revision of the low voltage metering charge. The company estimates the increase in revenue resulting therefrom to approximate $26,000 per annum based upon 1971 calendar year sales.

Illinois Power asserts that the increased rates are necessary because of "sharply increased construction and capital costs and operating expenses."

Any person desiring to be heard or to make any protest with any reference to said application should on or before December 6, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission rules and practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commisison and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.72–20356 Filed 11–27–72;8:47 am]

[Docket No. CP73–124]

KANSAS-NEBRASKA NATURAL GAS CO., INC.

Notice of Application

NOVEMBER 20, 1972.

Take notice that on November 10, 1972, Kansas-Nebraska Natural Gas Co., Inc. (Applicant), 300 North St. Joseph Avenue, Hastings, NE 68901, filed in Docket No. CP73–124 a budget-type application pursuant to sections 7(c) and 7(b) of the Natural Gas Act, implemented by § 157.7 (b) and (e) of the Commission's regulations thereunder, for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1973, and operation of certain natural gas purchase facilities, and for permission and approval to abandon, during the calendar year 1973, certain service and direct sales measuring, regulating and minor facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas in producing areas generally coextensive with its system and in abandoning and removing direct sales measuring, regulating, and minor facilities.

The total cost of the proposed facilities will not exceed $3,600,000, with no single project to exceed $900.000. Applicant plans to finance this cost out of working capital or by interim bank loans which at a later date will be funded by a security issue.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 11, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[Docket No. CP73–126]

NORTHERN NATURAL GAS CO.

Notice of Application

NOVEMBER 21, 1972.

Take notice that on November 10, 1972, Northern Natural Gas Co. (Applicant), 2223 Dodge Street, Omaha, NE 68102, filed in Docket No. CP73–126 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a satellite sales station and the transportation and sale of natural gas in interstate commerce, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to establish a satellite sales station near Sloan, Iowa, for the delivery of natural gas, on an interruptible basis, to Iowa Public Service Co. (IPS) for resale service to the George MacClure alfalfa and hay dehydration plant. The estimated requirements of this consumer are 480 Mcf per day and 85,800 Mcf annually (April through October).

Applicant estimates the cost of the proposed delivery station at $6,600, which it plans to finance from cash on hand. IPS will reimburse Applicant for the actual cost of construction.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 18, 1972, file with the Federal Power Commission, Washington, D.C. 20416, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file

[2] Five months suspension from Nov. 18, 1972 (30 days after filing was completed, Oct. 18, 1972, in accordance with regulations, § 35.13).

a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[FR Doc.72–20400 Filed 11–27–72;8:50 am]

[Docket No. CP73–128]

NORTHERN NATURAL GAS CO.

Notice of Application

NOVEMBER 21, 1972.

Take notice that on November 13, 1972, Northern Natural Gas Co. (Applicant), 2223 Dodge Street, Omaha, NE 68102, filed in Docket No. CP73–128 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain natural gas facilities in St. Louis County, Minn., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant requests authorization to abandon by removal approximately 1.33 miles of its 6-inch Chisholm branch line and by sale to Inter City Gas Ltd., Inc. (Inter City), its Chisholm No. 1 and No. 2 sales metering stations and a 0.31-mile segment of its Chisholm branch line. Applicant states that United States Steel Corp. (U.S. Steel), in order to permit the expansion of its mining operations, has canceled the right-of-way easements for the 1.33-mile segment and by special request consented to extend until July 1, 1973, the easement privileges for the 0.31-mile segment.

The facilities to be abandoned have been used to sell and deliver natural gas to Inter City for initial service to the community of Chisholm, Minn., and for interruptible service to Mesabi Tool & Drill Co. (Mesabi). Applicant states that it has constructed pursuant to § 2.55 of the Commission's general policy and interpretations (18 CFR 2.55), a new 2.45-mile segment of 4-inch branch line and a sales measuring station outside the ultimate pit limits of U.S. Steel's mining operation to connect its facilities with the distribution system of Inter City in order to assure maintenance of adequate service to the community of Chisholm. Applicant further states that the sale of the subject facilities to Inter City will allow Inter City to continue service to Mesabi.

Applicant estimates the cost of the proposed removal at $15,000, which it plans to finance from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 18, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Order Instituting Investigation and Hearing, Denying Certain Administrative Remedies, Denying Motion To Reject, Providing for Notice, and Permitting Intervention

NOVEMBER 20, 1972.

On July 3, 1972, Pacific Power & Light Co., on behalf of itself and six other public utilities, submitted an agreement entitled "The Seven Party Agreement," together with certificates of concurrence, providing for the sale over the Pacific Interties transmission system of surplus energy between the four Northwest companies (Pacific Power & Light Co., Portland General Electric Co., Puget Sound Power & Light Co., and the Washington Water Power Co.) and the three California companies (Pacific Gas & Electric Co., San Diego Gas & Electric Co., and Southern California Edison Co.). The subject seven party agreement is for a period of 20 years, and provides for the sale by the Northwest companies of excess energy to the California companies and the sale of excess energy by the California companies to the Northwest companies. The rates proposed for this service are the same or similar to those being offered by the companies to other wholesale customers in the area.

The Commission, by letter of the Secretary dated September 19, 1972, accepted the agreement for filing, to become effective on August 3, 1972, 30 days after the filing date.

On October 19, 1972, the city of Santa Clara, Calif., filed a petition to intervene herein and an application for rehearing of the Commission's action accepting for filing and making effective the seven party agreement. Santa Clara raises a number of technical as well as substantive objections to the seven party agreement and the Commission's action with respect thereto. These objections are (1) that the Commission erred in failing to determine whether the seven party agreement is an initial rate or a changed rate, (2) that in either case the sponsoring parties did not meet the necessary filing requirements, (3) that the Commission erred in failing to issue notice of the filing, (4) that the Commission erred in permitting the agreement to go into effect without opportunity for hearings, and (5) that the agreement is unlawful because it does not provide an opportunity for Santa Clara, other California utilities, or the U.S. Bureau of Reclamation to participate on an equal basis. Based on its stated objections, Santa Clara requests the Commission to enter an order granting rehearing and rejecting the seven party agreement. In the alternative, Santa Clara requests the Commission (1) to require the submission of additional information, (2) to condition any acceptance of the agreement upon modification thereof to include all electric utilities and to eliminate so-called "anticompetitive restrictions." (3) to issue a public notice of the filing, and (4) to suspend operation of the agreement for 5 months, enter into an investigation and hearings concerning the lawfulness of the agreement, and to permit the agreement to become effective subject to modification and refund.

For reasons hereinafter stated we do not believe the seven party agreement should be rejected. Santa Clara's filing of October 19, 1972, will be treated as a complaint pursuant to § 1.6 of the rules of practice and procedure. On the basis of the complaint, we find that good cause exists for the institution of an investigation and hearing pursuant to section 206 of the Federal Power Act for the purpose of determining the justness and reasonableness of the proposed seven party agreement.

The seven party agreement here involved is an initial rate filing governed

energy, spinning reserve or economy energy or in cases of coordination and

templated by the agreement. None of the participating companies has requested the imposition of refund requirements,

[Docket No. RP73–57]

SOUTH TEXAS NATURAL GAS GATHERING CO.

744 West Michigan Avenue, Jackson, MI 49201, filed in Docket No. CI73–368 an application pursuant to section

Review of the rate filing raises issues which require development in an evidentiary hearing. The proposed increases

XUM V37-229 NOV28 72 XUM V37-229 NOV28 72

XUM V37-229 NOV 28 72 XUM

The seven party agreement here involved is an initial rate filing governed by § 35.12 of the Commission's regulations under the Federal Power Act. With respect to the question of whether the agreement was filed in compliance with the regulations, the application for rehearing at page 21 states:

4. If an initial rate, the submittal does not comply with § 35.12(a). The submittal letter fails to give the date on which service is expected to commence, if operations under the Agreement have not already commenced. The Agreement is an interchange arrangement in the nature of a power pooling transaction, but no supporting data has been filed by either applicant or concurring systems. There are no estimates of quantities and revenues of services; and the purported explanation for the absence of such estimates will not hold water, i.e., that it depends on the "availability of power surplus to the needs of one party coincident requirement for such power by another party." It is believed that the large investments in the inter-tie transmission lines were justified in large part by the economies of surplus power transactions, and therefore the companies must in fact have made estimates with sufficient "relative accuracy" to provide some information necessary to evaluate this filing (§ 35.12(b)(1)). This is an important regional transaction, with severe restrictions on its face; and the order of magnitude of transactions must be known if there is to be any serious evaluation made thereof (§ 35.12(b)(2)). There is no showing of the basis of the rate or how it was derived (id.). Is is a "standard" or "special rate arrived through negotiations"? Were "unusual customer requirements or competitive factors involved"? Is it designed to produce a return, or is it incremental? Were special cost of service studies prepared, and, if so, why aren't they submitted? (id.). There is no summary statement of all cost computations involved in arriving at the derivation of the levels of the rate (§ 35.12(a)(11)). There is no comparison between the proposed rates and other rates of the companies for other surplus power or energy sales (id.).

It is true that the transmittal letter fails to give the date when service is to commence; however, it states that "[s]ince the transactions under this agreement will depend both upon the availability of power surplus to the needs of one party, and the coincident requirement for such power by another party, no estimate can be made of the approximate transactions to be made on a yearly basis under this agreement." This explanation is equally true for determining the time when the transactions will commence as it is for determining the amounts of such transactions for the year. Since no date was specified in the letter of transmittal and since it is assumed that the parties by filing wished to have a filed rate schedule available in the event that the operable conditions arose to permit the transaction, an effective date of 30 days after filing was assigned, in accordance with § 35.2(e) of the regulations.

Section 35.12(b)(1) of the regulations specifically states that estimates of the transactions or revenue are not required where they "cannot be made with relative accuracy as, for example, in cases of interconnection arrangements containing schedules of rates for emergency energy, spinning reserve or economy energy or in cases of coordination and integration of hydroelectric generating resources whose outputs cannot be predicted quantitatively due to water conditions." It is clear that the transactions contemplated by this filing are of the same nature as those cited in the regulations.

The transmittal letter indicates that the pricing provisions for the sale of surplus hydroenergy by the Northwest companies are similar to the intercompany pool agreement on file as Pacific Power & Light Co.'s FPC Rate Schedule No. 36, Supplement No. 6, and that such price is the same as the price established by rate schedules of Bonneville Power Administration for the sale of the same class of service. The transmittal letter also indicates that the pricing provisions for the sale of excess energy by the California companies are substantially identical to similar provisions in contracts filed with the Commission for sales by the California companies to Bonneville Power Administration.[1] These are therefore standard rates within the meaning of § 35.12(b)(2)(i) of the regulations.

Section 35.12(b)(2)(ii) of the regulations does not require a summary statement of cost computations in arriving at the derivation of the levels of the rate where the filing includes nothing more than service to one or more added customers at an established rate of the utility for a particular class of service. This is substantially the situation here since service is at the standard rate although more than one selling utility is involved.

Based on the foregoing considerations, we find that the filing of the seven party agreement complies with the applicable provisions of our regulations, and that no basis exists for rejecting the filing or requiring, at this time, the submission of additional information.

With respect to Santa Clara's request for modification of the seven party agreement, we find that no proper basis exists for any such attempted modification. Further action with respect to the filed agreement should not be taken prior to the investigation and hearing initiated by this order.

Since the subject agreement is an initial rate filing, it is not subject to suspension or refund. Section 2.4 of the Commission's general policy and interpretations specifically provides that initial rate schedules cannot be suspended. It follows that Santa Clara's requests for suspension of the seven party agreement should be denied. With respect to Santa Clara's request for refund requirements, it is clear that Santa Clara will be neither a purchaser nor seller under the provisions of the seven party agreement as filed and permitted to become effective. As such, it would not be in a position to either pay or receive refunds resulting from the excess energy exchange transactions contemplated by the agreement. None of the participating companies has requested the imposition of refund requirements, and there does not appear to be any basis for such requirements under the present circumstances. Santa Clara's request for refund requirements will therefore be denied.

On November 2, 1972, Pacific Gas & Electric Co. moved to reject Santa Clara's petition to intervene and application for rehearing. PG&E claims that Santa Clara has not demonstrated that its interests are presently affected by the seven party agreement. We do not agree. Santa Clara's petition and application shows that it is a customer of PG&E, and that it may be affected by the seven party agreement to a degree sufficient to warrant intervention. Accordingly, Santa Clara will be permitted to intervene, and PG&E's motion will be denied.

The Commission orders:

(A) Pursuant to the provisions of section 206 of the Federal Power Act, an investigation and hearing is hereby instituted for the purpose of determining the justness and reasonableness of the proposed seven party agreement filed in this docket on July 3, 1972.

(B) A prehearing conference shall be held on January 9, 1973, for the purpose of establishing necessary hearing procedures, including a schedule for the submission of evidence, if any, by the parties to the proceeding, and for the expeditious resolution of other related matters as may be required.

(C) Santa Clara's request for rejection of the seven party agreement is denied.

(D) Santa Clara's request for the submission of further information, for modification of the seven party agreement, for suspension of the seven party agreement, and for refund requirements are all severally denied.

(E) The motion to reject filed by Pacific Gas & Electric Company on November 2, 1972, is denied.

(F) Any person desiring to intervene in this proceeding should file a petition to intervene with the Federal Power Commission, Washington, D.C. 20426, in accordance with § 1.8 of the rules of practice and procedure. (18 CFR 1.8). All such petitions to intervene should be filed on or before December 18, 1972.

(G) Santa Clara is permitted to intervene in this proceeding, subject to the Commission's rules and regulations.

(H) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. CI73-368]

PATRICK PETROLEUM CORP.

Notice of Application

NOVEMBER 24, 1972.

Take notice that on November 20, 1972, Patrick Petroleum Corp. (Applicant), 744 West Michigan Avenue, Jackson, MI 49201, filed in Docket No. CI73-368 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corp. from the East Taft Field Area, San Patricio County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on November 6, 1972, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale for 1 year from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 2,000 Mcf of gas per day, plus any additional gas which may be available and which the purchaser has capacity to handle, at 35 cents per Mcf at 14.65 p.s.i.a., subject to downward B.t.u. adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before December 4, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[Docket No. RP73-57]

SOUTH TEXAS NATURAL GAS GATHERING CO.

Order Rejecting PGA Clause, Suspending Proposed Increased Rates, Providing for Hearing Procedures, and Permitting Interventions

NOVEMBER 16, 1972.

On October 17, 1972, South Texas Natural Gas Gathering Co. (South Texas) tendered for filing a $2.8 million annual rate increase for its sales to Transcontinental Gas Pipe Line Corp. (Transco), under its FPC Gas Rate Schedule No. 2, based on an overall rate of return of 10 percent increased purchased gas costs, and decreased annual sales, among other things. South Texas contends that the reasons for such an increase are contained in an amendatory agreement filed at the same time as the proposed rate increase. South Texas says that under this agreement it will be allowed to collect its gathering costs and to pass on its purchased gas costs. The effect of this agreement is that it may result in more frequent rate increases than now provided under South Texas' present rate schedule.

South Texas requests that the Commission waive notice requirements to permit the filed increase to become effective on a date to coincide with the Commission approval of the conditional settlement in the Docket No. RI72-240, or November 15, 1972, whichever is earlier.

Notice of the proposed increase and PGA clause was issued on October 26, 1972, with petitions to intervene or protests due on or before November 8, 1972. Petitions to intervene were timely filed by Natural Gas Pipeline Co. of America (Natural), Consolidated Edison Co. of New York, Inc. (Consolidated), and Transco. A notice of intervention was timely filed by the Public Service Commission for the State of New York.

South Texas filed an answer to Natural's petition to intervene arguing that it should be rejected since the instant proceeding in no way affects Natural, and that Natural's rights are being protected in pending Docket No. RP73-7. In view of our action herein granting petitions to intervene of other similarly situated parties, we shall grant Natural's petition to intervene.

Review of the proposed PGA clause reveals that it is unacceptable. The base price should be adjusted to eliminate the increase in rates provided in the aforementioned Docket No. RI72-240. South Texas must also furnish appropriate data which would reconcile this adjustment to the filing. In addition, paragraph B.1. of the proposed PGA clause should be modified explicitly to provide for the adjustment to recover the balance in South Texas' Unrecovered Purchased Gas Cost Account at no less than 6-month intervals. We shall therefore reject the PGA clause without prejudice to its resubmittal in a form consistent with § 154.38(d)(4) of our regulations.

Review of the rate filing raises issues which require development in an evidentiary hearing. The proposed increases in rates and changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful.

The Commission finds:

(1) The Commission should accept South Texas' increased rates for filing as herein conditioned except for the PGA clause.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed rates and charges contained in FPC Gas Rate Schedule No. 2, as proposed to be amended in this docket, and that the tariff sheets be suspended as hereinafter provided.

(3) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(4) The proposed PGA clause should be rejected.

(5) The proposed increased rates should be suspended for the full statutory 5 months, until April 17, 1973.

(6) In the event this proceeding is not concluded prior to the termination of the 5 months suspension period herein ordered, the placing of the increased rates applied for this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

(7) Participation of the above-named persons in this proceeding may be in the public interest.

The Commission orders:

(A) South Texas' proposed increased rates are accepted for filing as hereinafter conditioned.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, and 14 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing shall be held, commencing with a prehearing conference on March 16, 1973, at 10 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street, NW., Washington, DC 20426, concerning the lawfulness of the rates, charges, classifications, and services contained in South Texas' FPC Gas Rate Schedule No. 2, as proposed to be amended herein.

(C) At the prehearing conference on March 16, 1973, prepared testimony (Statement P) together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to the conference.

(D) On or before March 2, 1973, the Commission staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of all intervenors shall be served on or before March 23, 1973. Any rebuttal evidence by South Texas shall be served on or

before April 6, 1973. The public hearing herein ordered shall convene on April 17,

Box 2511, Houston, TX 77001, filed in Docket No. CP73-129 an application

Take further notice that, pursuant to the authority contained in and subject to

ing schedules of rates for emergency & Electric Co., FPC Rate Schedule No. 15. Patrick Petroleum Corp. (Applicant),

before April 6, 1973. The public hearing herein ordered shall convene on April 17, 1973, at 10 a.m. e.s.t.

(E) A Presiding Administrative Law Judge to be designated by the Chief Presiding Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(F) South Texas' proposed PGA clause is rejected without prejudice to its resubmittal in a form consistent with § 154.38(d)(4) of our regulations.

(G) Pending hearing and a decision thereon, South Texas' FPC Gas Rate Schedule No. 2 is suspended and the use thereof deferred as herein provided, and until such further time as it is made effective in the manner provided in the Natural Gas Act.

(H) Each of the petitioners for intervention listed above is hereby entitled to intervene in this proceeding subject to the Commission's rules of practice and procedure: *Provided however*, The participation of such intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in their respective petitions to intervene: *And provided further*, That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved by any order or orders entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.72-20402 Filed 11-27-72;8:50 am]

[Docket No. CP73-129]

TENNESSEE GAS PIPELINE CO.

Notice of Application

NOVEMBER 21, 1972.

Take notice that on November 14, 1972, Tennessee Gas Pipeline Co., a Division of Tenneco Inc. (Applicant), Post Office Box 2511, Houston, TX 77001, filed in Docket No. CP73-129 an application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the Commission's regulations thereunder, for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1973, and operation of certain natural gas purchase facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas in various producing areas generally coextensive with said system.

Applicant requests a waiver of § 157.7(b) of said regulations so that the total cost of the proposed facilities will not exceed $10 million, with no single onshore project to exceed $1,750,000 and no single offshore project to exceed $2,500,000. In justification for the waiver, Applicant states that because of great increases in costs of construction, it would have to burden the Commission with additional applications if it is restricted to the cost limits imposed by § 157.7(b). Applicant proposes to finance these costs from general funds or revolving credit.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 18, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-20398 Filed 11-27-72;8:50 am]

[Project No. 175, etc.]

PACIFIC GAS & ELECTRIC CO. ET AL.

Notice of Expiration

NOVEMBER 28, 1972.

So that the Congress may have an adequate opportunity to decide whether upon the expiration of the licenses, to take over the projects under section 14 of the Federal Power Act, as amended (16 U.S.C. 807), and that the licensees for the projects and others may have adequate notice and opportunity to file timely applications for new licenses under section 15 of the act, as amended (16 U.S.C. 808), public notice is hereby given that the licenses issued for the designated and described projects on the appended list will expire on the dates specified.

KENNETH F. PLUMB,
Secretary.

PROJECTS FOR WHICH LICENSES WILL EXPIRE BETWEEN JULY 1, 1972 AND JUNE 30, 1978 WHICH ARE SUBJECT TO TAKEOVER OR RELICENSING

FEDERAL RESERVE SYSTEM

BANK HOLDING COMPANIES

Grandfather Privileges

Notice was published in the FEDERAL REGISTER on October 19, 1972 (37 F.R. 22414; F.R. Doc. 72-17851), that the Board of Governors of the Federal Reserve System was reviewing, pursuant to section 4(a)(2) of the Bank Holding Company Act (12 U.S.C. 1843(a)(2)), the grandfather privileges of each of 44 listed companies that, by virtue of the 1970 Amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. It appears that some of the companies listed in that notice were engaged in on, and have continuously engaged in since, June 30, 1968, additional activities that were not included in the aforementioned notice. Listed below are the names of companies in question and the additional activities that were not included in the Board's earlier notice.

Bank Holding Company	*Activities engaged in on, and continuously since, June 30, 1968*
Cameron Financial Corp. (formerly First Union National Bancorporation), Charlotte, N.C.	Insurance agency activities, real estate activities, reinsurance.
D. H. Baldwin, Cincinnati, Ohio	Data processing and related financial services, manufactures musical instruments, operates music schools.
Republic National Bank of Dallas, Dallas, Tex.	Leasing real estate.
Memphis Trust Co., Memphis, Tenn.	Writes all forms of life insurance, general insurance agency business, bookkeeping and accounting services, sale of office furniture and equipment, holding real estate for bank premises, construction and maintenance services for holding company and subsidiaries.
Zions Utah Bancorporation, Salt Lake City, Utah.	Finance company and industrial bank activities.
First Oklahoma Bancorporation, Inc., Oklahoma City, Okla.	Issuing commercial paper, auditing and business advisory services, writes life insurance, small business loans and investments.
C.I.T. Financial Corp., New York, N.Y.	Owning securities and exercising control over wide variety of activities.
First Railroad & Banking Co. of Georgia, Augusta, Ga.	Providing service personnel for banking subsidiary.

To aid the Board in making its determinations, interested persons are hereby afforded an opportunity to submit relevant data, views, and arguments relating to the continuation of grandfather privileges of the subject companies with respect to the listed activities. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received no later than December 7, 1972. Such material will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's rules regarding availability of information.

Board of Governors of the Federal Reserve System, November 21, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.72-20361 Filed 11-27-72;8:48 am]

CORPUS CHRISTI BANK AND TRUST CO.

Termination of Proceeding

By order appearing in the FEDERAL REGISTER of July 13, 1971, the Board of Governors of the Federal Reserve System gave notice that it had been requested, pursuant to the provisions of section 2(g)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(g)(3)), by the Corpus Christi Bank and Trust Co., Corpus Christi, Tex. (Corpus Christi Bank), to determine that, with respect to certain sales of shares of First National Bank of Taft, Taft, Tex. (Taft Bank) to certain individuals, Corpus Christi Bank is not in fact capable of controlling the transferees, all of whose purchases of Taft Bank stock were financed by Corpus Christi Bank. Pursuant to section 2(g)(3), the Board's order provided an opportunity for filing a request for a hearing or written comments on the application filed by Corpus Christi Bank.

In view of steps taken by Corpus Christi Bank to remove itself from applicability of the rebuttable presumption of section 2(g)(3), by transferring to the Frost National Bank of San Antonio, San Antonio, Tex., loans made by Corpus Christi Bank in connection with the sale of shares of Taft Bank, further consideration of the requested determination is no longer warranted.

By order of the Board of Governors, November 20, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.72-20384 Filed 11-27-72;8:49 am]

UNITED CAROLINA BANCSHARES CORP.

Order Approving Acquisition of First Credit Corporation

United Carolina Bancshares Corp., Whiteville, North Carolina, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to retain all of the voting shares of First Credit Corporation, with offices in Wilmington and Shallotte, N.C. (First Credit), a company that engages in the activities of making loans with a cash advance of $900 or less and acting as agent with respect to credit life, accident, and health insurance directly related to an extension of credit. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(1) and (9)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 F.R. 16998). The time for filing comments and views has expired, and none have been timely received.

Applicant controls three banks with aggregate deposits of approximately $222 million, representing 2.7 percent of the total commercial bank deposits in the State, and is the ninth largest banking organization in North Carolina. (All banking and consumer loan data are as of December 31, 1971, and unless otherwise noted, adjusted to reflect bank holding company formations and acquisitions approved by the Board through September 30, 1972.)

First Credit is a consumer finance company licensed under State law to make consumer loans with cash advances not exceeding $900. First Credit also acts as agent with respect to the sale of credit life, accident, and health insurance in connection with its own extensions of credit.

First Credit of Shallotte was organized in January of 1970 as the Confidential Loan Corp. (Confidential). Applicant, through its lead bank, The Waccamaw Bank and Trust Co., Whiteville, N.C. (Bank), was instrumental in the formation of Confidential and loaned funds for its original working capital. Subsequently, Confidential defaulted on its loans from Bank. On March 20, 1971, Bank exercised its rights under the loan agreement and took possession of all of the capital stock of Confidential in satisfaction of the debt previously contracted. This resulted in applicant's indirect acquisition of Confidential. Thereafter, Confidential was reorganized and its name changed to First Credit Corporation. On April 4, 1972, applicant indirectly acquired through First Credit certain assets of the Atlantic Loan Co., Wilmington, N.C. (Atlantic). Using the accounts acquired from Atlantic as a base, applicant now operates an office of First Credit in Wilmington.

The Board has previously stated that when a bank holding company indirectly acquires a nonbanking company through a subsidiary bank and subsequently applies to retain the nonbanking company under authority of section 4(c)(8), the Board must consider the transaction as if the nonbanking company was being acquired initially from an independent third party (1972 Federal Reserve Bulletin 936). Accordingly, in such circumstances, the Board is required to find that neither the original acquisition, nor retention thereof, of the nonbanking company would result in an undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices. Applicant's retention of First Credit of Shallotte, together with First Credit of Wilmington, is therefore considered on this basis.

The relevant geographic market for the consumer loan activities engaged in by both offices of First Credit appears to be the Wilmington SMSA, which includes the counties of Brunswick and New Hanover. On the basis of aggregate consumer loans outstanding of about $502 thousand, First Credit is the eighth largest of 19 consumer loan companies in that market conducting a similar business, controlling about 5 percent of consumer loans outstanding.

Applicant, through Bank, operates eight banking offices in Brunswick County. First Credit is the sole consumer loan company in Shallotte. Due to differing rates of interest and lengths of time that credit is extended by Bank and First Credit of Shallotte, it does not appear that the respective institutions presently compete with one another to any significant degree. Further, it does not appear that significant potential competition for consumer loans would develop between Bank and First Credit. Accordingly, no significant existing or potential competition would be eliminated through the retention by applicant of First Credit's Shallotte office.

First Credit of Wilmington, with consumer loans outstanding of approximately $94,000, is the 18th largest of 19 offices located in Wilmington, N.C. Bank operates two offices in Wilmington, where it engages, to a limited degree, in making consumer loans. For the same reasons as discussed in connection with First Credit's Shallotte office, it does not appear that Bank and First Credit of Wilmington are engaged in significant competition for consumer loans, nor does it seem that the respective institutions would likely compete for consumer loans in the future. Accordingly, it is the Board's judgment that no significant existing or potential competition would be eliminated upon approval of applicant's retention of First Credit's Wilmington office.

First Credit's two offices also sell credit life insurance and accident and health insurance in connection with loans it originates. Due to the limited nature of its insurance activities it does not appear that applicant's retention of First Credit's insurance activities would have any significant effect on either existing or potential competition.

The financial and managerial resources of applicant and its subsidiary banks are considered satisfactory in view of applicant's commitment to provide additional capital for its two largest subsidiary banks, and projected growth and earnings for the group appear favorable. The financial condition of First Credit is, at present, inadequate. If the application to acquire First Credit is approved, applicant proposes to supply additional funds to First Credit as its operations require. First Credit's management is essentially the same as Bank's, and is considered experienced and capable. Considerations relating to the financial and managerial resources of applicant, its subsidiary banks, and First Credit are, therefore, consistent with approval of the application.

First Credit's Shallotte office is the only consumer finance company in Brunswick County and, therefore, adds materially to the convenience and needs of that area. Although the Wilmington office of First Credit is one of 19 consumer loan companies serving that city, it serves as an additional competitive alternative for such services. Accordingly, convenience and needs factors are consistent with, and lend some weight toward approval of the application.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company of any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[2] effective November 20, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

AUTOMATIC DATA PROCESSING EQUIPMENT (ADPE) PROCUREMENTS

Liability for Consequential Damages

On October 17, 1972, the General Services Administration distributed the following clause to all Federal agencies for use in solicitations and contracts for ADPE, unless the agency determines that it is in the best interest of the Government to require a greater degree of liability protection than that afforded by the clause.

CONSEQUENTIAL DAMAGES

This clause may be used until April 15, 1973, unless sooner rescinded or superseded.

GEORGE W. DOBSON, Jr.,
Assistant Commissioner for Automated Data Management Services.

NOVEMBER 20, 1972.

The contractor shall not be liable by reason of this clause, nor by reason of implied or statutory warranties for consequential damages suffered by the Government as a result of a failure of the supplies or services furnished to the Government to conform to the specification requirements of the contract. Nothing in this limitation shall serve to release the contractor or any subcontractor from liability for the negligence of the contractor or that of any subcontractor which results in liability of the Government to third persons.

INTERIM COMPLIANCE PANEL (COAL MINE HEALTH AND SAFETY)

PEERLESS EAGLE COAL CO.

Application for Renewal Permit; Notice of Opportunity for Public Hearing

Application for Renewal Permit for Noncompliance with the Electric Face Equipment Standard specified in the Federal Coal Mine Health and Safety Act of 1969 has been received as follows:

ICP Docket No. 3062 000, Peerless Eagle Coal Co., Mine No. 2A, USBM ID NO. 46 01616 0, Summersville, Nicholas County, W.Va., ICP Permit No. 3062 003-R-3 (Joy Coal Cutter, Ser. No. 15360).

In accordance with the provisions of section 305(a)(7) of the Federal Coal Mine Health and Safety Act of 1969 (83 Stat. 742, et seq., Public Law 91-173), notice is hereby given that requests for public hearing as to an application for renewal may be filed within 15 days after publication of this notice. Requests for public hearing must be completed in accordance with 30 CFR Part 505 (35 F.R. 11296, July 15, 1970), copies of which may be obtained from the Panel on request.

Copies of renewal applications are available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Eighth Floor, 1730 K Street NW., Washington, DC 20006.

GEORGE A. HORNBECK,
Chairman, Interim Compliance Panel.

V37-229 NOV28 72 XUM

Building 6, 400 Maryland Avenue SW., Washington, DC 20546. Members of the public will be admitted to the open portion of the meeting beginning at 10:30 a.m. on the agenda below on a first-come-first-served basis up to the seating capacity of the room, which is about 40 persons.

The NASA Historical Advisory Committee serves in an advisory capacity only. In this capacity it is concerned with all activities which the agency undertakes in the preservation, compilation, writing, and publication of the historical record of aeronautics and space activities. The current Chairman is Prof. Louis Morton. There are five members. The following list sets forth the approved agenda and schedule for the December 1 and 2, 1972, meeting of the Historical Advisory Committee. For further information, please contact Mr. James Nolan: Area code 202—755–8383.

FRIDAY, DECEMBER 1, 1972

Time	Topic
9 a.m.	*Executive session:* To exchange views on matters relating to the selection of candidates for authorship of NASA Historical Projects and internal management relationships of the agency. (Closed to the public.)
10:30 a.m.	*Introductory session:* To review with the Associate Administrator trends in NASA and to discuss the conduct of the meeting.
11 a.m.	*Review of NASA historical activities:* The NASA historian and his staff will highlight and answer questions on NASA historical activities including: Status of Committee Recomendations of 1971, Headquarters-Center Relationships, Current Historical Projects, Historical Publications & NASA's Role as Publisher, Projected Priority Projects, Archives and Records Activities, Summer Seminary, 1972. Relationships with Federal and Other Historical Activities, and NASA Chronology, Library of Congress. *Purpose:* To bring the Committee up to date on Results and Plans for Historical Activities with the objective of obtaining committee recommendations.
12:30 p.m.	Recess for lunch
1:30 p.m.	*Artifacts* Mr. Durant of the National Air and Space Museum will review with the Committee the role of the Smithsonian Institution in the inventory, preservation, and management of artifacts of space activity. Purpose: To inform the Committee of the status of this activity, should they choose to make recommendations.
2:30 p.m.	*Discussion period* The members will review among themselves the status and plans of the NASA historical program and their recommendations to the agency.

SATURDAY, DECEMBER 2, 1972

Time	Topic
9:00 a.m.	*Executive session:* to develop recommendations on candidates for selection as authors for NASA Historical Projects. (Closed to the public.)

HOMER E. NEWELL,
Associate Administrator, National Aeronautics and Space Administration.

RESEARCH AND TECHNOLOGY ADVISORY COUNCIL, COMMITTEE ON AERONAUTICS

Notice of Meeting

The NASA Research and Technology Advisory Council, Committee on Aeronautics will meet on December 7 and 8, 1972, at the NASA Langley Research Center, Hampton, Va. 23365. The meeting will be held in Room 225 of Building 1219. Members of the public will be admitted to the open portion of the meeting beginning at 9:45 a.m. on the agenda below on a first come first served basis up to the seating capacity of the room, which is about 40 persons. All visitors must report to the Langley Research Center receptionist in Building 1219.

The NASA Research and Technology Advisory Council, Committee on Aeronautics serves in an advisory capacity only. In this capacity, the Committee is concerned with aerodynamics and aircraft vehicle systems. The current chairman is Mr. E. S. Carter. There are 12 members. The following list sets forth the approved agenda for the December 7 and 8, 1972, meeting of the Aeronautics Committee. For further information, please contact Mr. J. Lloyd Jones, area code 202—755–2397.

DECEMBER 7, 1972

Time	Topic
9 a.m.	*Executive session* (*Purpose.* To discuss organization of the committee and to be briefed on status of relevant budget considerations.) Closed to public.
9:45 a.m.	Welcome—Deputy Director, Langley Research Center.
9:45 a.m.	*Chairman and Executive Secretary's Reports* (*Purpose.* To review results of RTAC meeting, recent developments of interest and NASA policies, programs and organizational changes.)
10 a.m.	Review of NASA's VTOL Research Program a. Systems Studies. b. Lift Fan Research. c. Tilt Rotor Research. d. Helicopter Research. e. Overview of VTOL Noise.
12:30 p.m.	Lunch.
1:30 p.m.	Tour V/STOL Tunnel.
2 p.m.	Discussion of NASA's VTOL Research Program. (*Purpose.* To review NASA's ongoing research on VTOL systems with a view to offering recommendations as to gaps in the progress and the relative emphasis applied to the various systems. NOTE: A detailed presentation will be made of the helicopter research with brief summaries of the lift fan and tilt rotor research as they were presented in detail to the Committee at its last meeting.)
4 p.m.	Review of the Langley Research Center's Airfoil Research. (*Purpose.* To review and comment on Langley's current airfoil research program.)

DECEMBER 8, 1972

Time	Topic
8:30 a.m.	Review of NASA's Hypersonic Research Program (*Purpose.* To review and comment on NASA's current hypersonic research program.)
10 a.m.	*Executive session.* (*Purpose* To consider final Committee action and recommendations on agenda items previously listed. Both classified and unclassified technology with relevant budget considerations.) Closed to public.
12:30 p.m.	Lunch.
2:30 p.m.	Adjournment.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-4313]

CONTINENTAL ILLINOIS REALTY

Notice for Application for Unlisted Trading Privileges and of Opportunity for Hearing

NOVEMBER 17, 1972.

In the matter of application of the PBW stock exchange, for unlisted trading privileges in a certain security, Securities Exchange Act of 1934.

The above-named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the shares of beneficial interest of the following company, which security is listed and registered on one or more other national securities exchanges:

	File No.
Continental Illinois Realty	7-4313

Upon receipt of a request, on or before December 3, 1972, from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GLADYS E. GREER,
Assistant Secretary.

[812-3266]

SYNCRO INCOME FUND, INC., ET AL.

Notice of Application for an Order Exempting Applicants

NOVEMBER 17, 1972.

Notice is hereby given that Syncro Income Fund, Inc., and Syncro Growth Fund, Inc. (funds), both diversified, open-end management investment companies registered under the Investment Company Act of 1940 (the "Act"), and Safeco Securities, Inc. (Safeco), 4347 Brooklyn Avenue NE., Seattle, WA 98105, principal underwriter for each of the Funds (hereinafter collectively referred to as "Applicants") have filed an application pursuant to section 6(c) of the Act for an order of the Commission exempting Applicants from Section 22(d) of the Act and Rule 22d-1 thereunder. All interested persons are referred to the application, as amended, on file with the Commission for a statement of the representations made therein, which are summarized below.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter thereof shall sell any redeemable security issued by such company to any person except at a current offering price described in the prospectus. The prospectuses of the Funds state that a sales commission is included in the offering price of the shares of such Funds.

Applicants request an exemption from section 22(d) of the Act and Rule 22d-1 thereunder to enable each of the Funds to sell its shares at the net asset value per share, i.e., without any sales charge, to persons who have caused their shares in such Fund to be redeemed within the previous 15 days. Investors will be permitted to reinvest up to the exact amount of the redemption proceeds (or to the nearest full share if fractional shares are not purchased) without any sales charges.

Applicants state that Safeco may, at its expense, probably by a statement included with the redemption check, advise eligible shareholders of the right to reinvest the proceeds at net asset value. To be effective, notice from such persons of the exercise of the privilege must be received by Applicants, or be postmarked, within 15 days after the date the request for redemption is received. Applicants also state that the proposed repurchases will be made at the net asset value per share next determined after receipt of the order and that no sales commission will be received by management or any sales representative on such repurchases.

Applicants further state that the privilege of reinvesting the proceeds of a redemption at net asset value will be limited to persons who have not previously exercised such privilege as to either of the Funds, and that because of this limitation, the proposed privilege will not afford an opportunity for speculative short-term trading in shares of the Funds.

Applicants contend that the proposed privilege will enable investors to be reminded of features of their investment which they may have overlooked or of which they may have been unsure at the time they redeemed.

Section 6(c) of the Act provides that the Commission may, upon application, conditionally or unconditionally exempt any person or transaction from any provisions of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than December 14, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

Gray, Interstate Commerce Commission, Bureau of Operations, 345 West Wayne Street, Room 204, Fort Wayne, IN 46802.

No. MC 128383 (Sub-No. 21 TA), filed November 2, 1972. Applicant: PINTO TRUCKING SERVICE, INC., 1414 Calcon Hook Road, Sharon Hill, PA 19079. Applicant's representative: James W. Paterson, 123 South Broad Street, Philadelphia, PA 19109. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk and commodities the transportation of which, because of size or weight requires the use of special equipment), between Weir Cook Airport near Indianapolis, Ind., and Chicago-O'Hara International Airport, Chicago, Ill., for 180 days. Supporting shipper: Pan American World Airways, 144 North Pennsylvania Avenue, Indianapolis, IN 46204. Send protests to: Peter R. Guman, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1518 Walnut Street, Room 1600, Philadelphia, PA 19102.

No. MC 128527 (Sub-No. 30 TA) (Correction), filed October 13, 1972, published in the FEDERAL REGISTER issue of November 4, 1972, corrected and republished as corrected this issue. Applicant: MAY TRUCKING COMPANY, Post Office Box 389, Payette, ID 83661. Applicant's representative: Gatchel & Batt, Professional Building, Payette, Idaho. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum sheet in coils and/or plates, pipe, or tubing; aluminum siding, roofing, and other component parts and accessories; rejected or damaged shipments of the same material; and scrap aluminum and pallets on a return movement;* authority is also sought to provide mixed loads of the aforementioned commodities between the points set forth. Material will be supplied for mobile homes, modular and assembled buildings, recreational vehicles and campers, from plantsite of AMAX Building Products, a division of AMAX Aluminum Mill Products, Inc. (Post Office Box 418, East Highway 30, Boise, ID 83701), to plantsites located in or near the cities of Calgary and Red Deer, in the Province of Alberta, Canada, for 180 days. NOTE: Applicant does not intend to tack authority or to interline with any other carrier. Supporting shipper: AMAX Building Products, Post Office Box 418, East Highway 30, Boise, ID 83701. Send protests to: C. W. Campbell, Bureau of Operations, Interstate Commerce Commission, 550 West Fort, Box 07, Boise, ID 83702. NOTE: The purpose of this republication is to broaden the authority sought.

No. MC 128772 (Sub-No. 7 TA), filed November 1, 1972. Applicant: STAR BULK TRANSPORT, INC., 821 North Front Street, New Ulm, MN 56073. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cheese*, from Rochester, Minn., to Charleston, W. Va., Salem, Va., Kansas City, Mo., Memphis, Tenn., North Little Rock, Ark., Houston and Irving, Tex., for 90 days. Supporting shipper: Pace Dairy Foods Co., Rochester, Minn. 55901. Send protests to: A. N. Spath, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 448 Federal Building, and U.S. Courthouse, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 134278 (Sub-No. 5 TA), filed November 1, 1972. Applicant: CHARLES R. GOODMAN, doing business as C. R. GOODMAN TRUCKING CO., 4255 South Second West Street, Murray, UT 84107. Applicant's representative: Irene Warr, Judge Building, Salt Lake City, Utah 84111. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts and articles distributed by meat packinghouses* as described in sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates 61 MCC 209 and 766, from the plantsite of Wilson Beef & Lamb Co. at Ogden, Utah, to points in California, for 180 days. Supporting shipper: Wilson Beef & Lamb Co., Post Office Box 1189, Ogden, UT 84402 (J. A. Lane, Manager, Lamb Department). Send protests to: District Supervisor Lyle D. Helfer, Bureau of Operations, Interstate Commerce Commission, 5239 Federal Building, 125 South State Street, Salt Lake City, UT 84111.

No. MC 138151 TA, filed October 30, 1972. Applicant: OREGON RUBBER CO. (A Corporation), 390 West 11th Avenue, Eugene, OR 97401. Applicant's representative: J. W. McCracken, Jr., 858 Pearl Street, Eugene, OR 97401. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from points in Lane County, Oreg., to points in New Mexico (except Rio Arriba and San Juan Counties), for 180 days. Supporting shipper: Cone Lumber Co., Goshen, Oreg. 97401. Send protests to: A. E. Odoms, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 450 Multnomah Building, 319 Southwest Pine Street, Portland, OR 97204.

No. MC 138159 TA, filed November 1, 1972. Applicant: DANIEL J. LEONARD, doing business as LEONARD TRUCKING, 1878 Delameter Road, Castle Rock, WA 98611. Applicant's representative: Daniel J. Leonard (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wine, beer, and malt beverages*, from Madera, Modesto, San Francisco, Van Nuys, and Azuza, Calif., to Chehalis and Longview, Wash., for 180 days. Supporting shipper: Cowlitz Distributing Co., 1156 12th Avenue, Longview, WA 98632; Peterson Distributing Co., 1024 Prindle Street, Chehalis, WA 98532. Send protests to: District Supervisor W. J. Huetig, Interstate Commerce Commission, Bureau of Operations, 450 Multnomah Building, 319 Southwest Pine Street, Portland, OR 97204.

By the Commission.

[Notice 169]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74026. By order of November 9, 1972, the Motor Carrier Board approved the transfer to Dressing Transport, Inc., Wilson, N.Y., of the operating rights in Permit No. MC-135124 (Sub-No. 1), issued March 23, 1972, to Charles Murray, Freemont, Ohio, authorizing the transportation of various commodities from and to points in New York, New Hampshire, Massachusetts, Connecticut, Pennsylvania, New Jersey, Maryland, Ohio, Michigan, Illinois, Florida, Georgia, South Carolina, Maine, Vermont, Rhode Island, West Virginia, Kentucky, Wisconsin, North Carolina, and the District of Columbia. Ronald W. Malin, Bankers Trust of Jamestown Building, Jamestown, N.Y. 14701, attorney for applicants.

No. MC-FC-74030. By order entered November 9, 1972, the Motor Carrier Board approved the transfer to Leo Montgomery and Norma Montgomery, doing business as A-1 Montgomery Van Lines, Vallejo, Calif., of the operating rights set forth in Certificate No. MC-127360 (Sub-No. 2), issued February 12, 1970, to John W. Roy, Jr., doing business as American Moving & Storage Co., Oakland, Calif., authorizing the transportation of used household goods, between points in Alameda, Contra Costa, Marin, San Francisco, San Mateo, Santa Clara, and Solano Counties, Calif., with certain specified restrictions. Alan F. Wohlstetter, 1700 K Street NW., Washington, DC 20006, attorney for applicants.

No. MC-FC-73974. By order entered November 10, 1972, the Motor Carrier Board approved the transfer to Transport Express, Inc., Holly, Colo., of the operating rights set forth in certificates Nos. MC-107799 (Sub-No. 4), and MC-107799 (Sub-No. 6), issued by the Commission October 22, 1968, and December 2, 1969, respectively, to J. O. Ringgenberg, Inc., Dodge City, Kans., authorizing the transportation of: Anhydrous ammonia, from specified points in Kansas, Texas, Nebraska, and Iowa, to points in Colorado, Wyoming, Texas, Oklahoma, Missouri, Nebraska, Iowa, Kansas, South Dakota, Illinois, Minnesota, and North Dakota. Grady L. Fox, 222 Amarillo Building, Amarillo, Tex. 79101, attorney for applicants.

No. MC-FC-73975. By order of November 13, 1972, the Motor Carrier Board approved the transfer to Pat's Transfer, Inc., Hershey, Nebr., of certificate No. MC-18352 issued to Howard McConnell, Hershey, Nebr., authoring the transportation of: Commodities of a general commodity nature, between specified points and areas in Nebraska, Colorado, Iowa, and Wyoming. Robert E. Roeder, attorney, Post Office Box 908, North Platte, NE 69101.

No. MC-FC-74021. By order of November 22, 1972, the Motor Carrier Board approved the transfer to Bob's Delivery Service, Inc., Santa Fe Springs, Calif., of certificate of registration No. MC-120590 (Sub-No. 1) issued July 23, 1968, to Mildred C. O'Donell, doing business as Bob's Delivery Service, Los Angeles, Calif., evidencing a right to engage in transportation in interstate commerce as described in certificate granted in decision No. 60069, dated May 9, 1960, transferred and reissued pursuant to decision No. 73016 dated September 6, 1967, by public Utilities Commission of California. Donald Murchison, 9454 Wilshire Boulevard, Suite 400, Glendale Federal Building, Beverly Hills, CA 90212, attorney for applicants.

[Notice 168]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74037 (Corrected).[1] By order entered November 6, 1972, Division 3, acting as an Appellate Division, approved the transfer to C & R Transfer Co., Sioux Falls, S. Dak., of the operating rights set forth in Permit No. MC-124576 (Sub-No. 6), issued May 21, 1968, to Williams Transportation, Inc., Belle Fourche, S. Dak., authorizing the transportation of: Posts, poles, pilings, and lumber, from points in Lawrence County, S. Dak., and Crook County, Wyo., to points in Iowa, Minnesota, Colorado, Montana, Nebraska, North Dakota, South Dakota, and Wyoming, limited to a transportation service to be performed under a continuing contract, or contracts, with Whitewood Post and Pole Co., Whitewood, S. Dak. Dual operations authorized. James R. Becker, 412 West Ninth Street, Sioux Falls, SD 57104, attorney for applicants.

No. MC-FC-73957. By order of November 9, 1972, the Motor Carrier Board approved the transfer to Fairall Detroit Rubbish, Inc., Wyandotte, Mich., of permits Nos. MC-29883 issued June 13, 1966, and MC-29883 (Sub-No. 6) issued December 16, 1968, to Fairall Trucking Co., Wyandotte, Mich., authorizing the transportation of automobile parts, paper and paper products, mattresses, beds, bed springs, bed rails, and studio couches, such merchandise as is dealt in by wholesale, retail, and chain grocery and food business houses, specified products and supplies used in the conduct of a creamery or butter warehouse or packaging plant, brickote products, brick and stone surfaced aluminum entryways, aluminum, stone, and brick siding, rain carrying equipment, shutters, and drugs, medicines, and packaging materials, from, to and between points as specified in Michigan, Indiana, Illinois, and Ohio. Wilhelmina Boersma, 1600 First Federal Building, Detroit, Mich. 48226, applicants' attorney.

No. MC-FC-74006. By order of November 20, 1972, the Motor Carrier Board approved the transfer to Hanson M. Savage, doing business as H. M. Savage, Chester Depot, Vt., of the operating rights in permit No. MC-124545 issued April 12, 1971, to Savage Trucking Co., Inc., Chester Depot, Vt., authorizing the transportation of mined and ground talc, in bags, in shipper-owned trailers, from Chester, Vt., to points in Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, and New Jersey. The operations authorized herein are limited to a transportation service to be performed under a continuing contract, or contracts, with Vermont Talc Company. Martin Werner, 2 West 45th Street, New York, NY 10036, attorney for applicants.

No. MC-FC-74011. By order of November 8, 1972, the Motor Carrier Board approved the transfer to Rayford Sadberry, Holliday, Tex., of certificate No. MC-55981 (Sub No. 3) and MC-55981 (Sub No. 4) issued to Gilbert L. Finnell, doing business as Gilbert L. Finnell Trucking Co., Holliday, Tex., authorizing the transportation of: Machinery, materials, supplies, and equipment, used in the natural gas and petroleum industry, and earth drilling machinery and equipment, pipe, etc., used in the well drilling industry, between points in Oklahoma and Texas. Hugh T. Matthews, attorney, 630 Fidelity Union Tower, Dallas, Tex. 75201.

CODE OF FEDERAL REGULATIONS

(Revised as of October 1, 1972)

Title 42—Public Health $2.75

Title 45—Public Welfare (Parts 1–99) 1.25

Title 45—Public Welfare (Parts 200–499) 2.00

[A Cumulative checklist of CFR issuances for 1972 appears in the first issue of the Federal Register each month under Title 1]

Order from Superintendent of Documents,
United States Government Printing Office,
Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

HIGHLIGHTS—Continued

DANGEROUS IMPORTS—OEP extends time to 12–7–72 for comments on power circuit breakers, transformers, and reactors 25262

WORK INCENTIVE PROGRAM—Labor Dept. adopts rules of practice for National Review Panel; effective 11–29–72 25232

UNIFORM RELOCATION AND ASSISTANCE—International Boundary and Water Comm. regulations for fair treatment of persons displaced by Federal programs 25257

ANTIDUMPING—
Tariff Comm. finds no injury from Japanese worsted fabrics 25269

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 72-SO-118, Amdt. 39-1564]

PART 39—AIRWORTHINESS DIRECTIVES

Piper Model PA-34-200 Series Airplanes

There have been failures of the exhaust system on Piper Model PA-34 airplanes. This condition could result in hot exhaust gases in the engine compartment. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require inspection of the exhaust system for loose, broken and cracked ducts or flanges.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator, 31 F.R. 13697, § 39.13 of Part 39 of the Federal Aviation regulations is amended by adding the following new airworthiness directive:

PIPER: Applies to PA-34-200 airplanes, Serial Numbers 34-E4 and 34-7250001 and up. Compliance required as indicated.

To insure that cracks are not present in the exhaust system, accomplish the following:

(a) For those airplanes with 25 or more hours' time in service on the effective date of this airworthiness directive, unless already accomplished within the last 25 hours' time in service, comply with paragraphs (c) and (d) within the next 10 hours' time in service and thereafter at intervals not to exceed 25 hours' time in service from the last inspection.

(b) For those airplanes with less than 25 hours' time in service on the effective date of this airworthiness directive, unless already accomplished, comply with paragraphs (c) and (d) upon the accumulation of 25 hours' time in service or within the next 10 hours, whichever is later, and thereafter at intervals not to exceed 25 hours' time in service from the last inspection.

(c) Open both left and right cowl doors on both right and left engines and make a thorough visual inspection of the exhaust system for any evidence of cracks or failed ducts or flanges.

(d) If the exhaust systems are found to contain cracked or broken ducts, flanges, or parts, replace with new replacement parts or repair the affected parts in accordance with Advisory Circular 43.13-1 before further flight.

Piper Service Bulletin No. 373 dated November 13, 1972, pertains to this subject.

This amendment is effective December 1, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on November 17, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72-20444 Filed 11-28-72;8:48 am]

[Docket No. 12062, Amdt. 39-1568]

PART 39—AIRWORTHINESS DIRECTIVES

Rolls Royce Dart Series Engines

Amendment 39-1491 (37 F.R. 14757), AD 72-16-5 requires replacement of certain specified first and second stage impellers, installed on Rolls Royce Dart Series Models 506, 510, 511, 514, 525 through 529, 531, and 532 engines and all variants within the next 50 flights after the effective date of that AD or before reaching the specified life limits on those impellers. After issuing Amendment 39-1491, based on stress analyses, investigations of a service failure, and evaluations of high time Rolls Royce Dart Series engine impellers, the FAA has determined that service life limits are necessary for a number of impellers not covered by Amendment 39-1491. Therefore, the AD is being amended to provide for service life limits for an expanded group of impellers installed on Rolls Royce Dart Series engines.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation regulations, Amendment 39-1491 (37 F.R. 14757), AD 72-16-5 is amended as follows:

1. The applicability statement is amended to read as follows:

ROLLS ROYCE (1971) LTD. Applies to Dart Series Models 506, 510, 511, 514, 525 through 529, 531, 532, and 542 engines and all variants.

2. The lead in sentence to paragraph (a) of the AD is amended by deleting the word "table" and inserting the word "tables" in place thereof.

3. Paragraph (b) is redesignated as paragraph (c) and a new paragraph (b) is added to read as follows:

(b) Within the next 50 flights after the effective date of this amendment, Amendment 39-1568, effective December 4, 1972, or before the accumulation of the number of flights specified in column 3, for the applicable impeller, whichever occurs later, and thereafter at intervals not to exceed the number of flights specified in column 3 replace the applicable impellers specified in column 2 when they are installed on the engines specified in column 1 with impellers having the same part number or a part number approved for that engine, which have not exceeded their life limits.

Column 1—Dart Engine Series	Column 2—Impellers	Column 3—Life Limits (flights)
Models 506, 510, 511, 514 and all variants.	First stage impellers incorporating Modification 1455.	14,000 since the incorporation of Modification 1455.
Models 525 through 529, 531, and 532 and all variants.	do	11,500 since the incorporation of Modification 1455.
Models 542-4 and 542-10 and all variants.	Second stage impellers incorporating all Pre-Modification 1455 modifications.	12,000.
	Second stage impellers incorporating Modification 1455.	16,000 since the incorporation of Modification 1455.
	Second stage impellers incorporating Modification 1475.	14,500.

This amendment becomes effective December 4, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on November 21, 1972.

C. R. MELUGIN, JR.,
Acting Director, Flight Standards Service.

[FR Doc.72-20443 Filed 11-28-72;8:48 am]

[Docket No. 12387; Amdt. 840]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes

* * * Effective November 17, 1972:

Issued in Washington, D.C., on November 22, 1972.

such aircraft or component part to perform its function satisfactorily through a range of operations determined by the

costs entailed in substituting components may be charged against the related

3. Amend section 7 to read in part as follows:

XUM V37-1230 NOV 29 72 XUM V37

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 F.R. 5609).

SIAPs are available for examination at the rules docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ–405, 800 Independence Avenue SW., Washington, DC 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by establishing, revising, or canceling the following VOR–VOR/DME SIAP's, effective January 11, 1973:

Big Lake, Alaska—Big Lake No. 2 Airport; VOR Runway 6, Amdt. 3; Revised.

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER–781; Amdt. 3]

PART 241—UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

Miscellaneous Amendments

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 24th day of November 1972.

The purpose of this editorial amendment is to correct certain errors and omissions which have come to our attention, as follows: (1) A reference to the "Federal Aviation Agency" should be corrected to refer to the "Federal Aviation Administration"; (2) references to "Civil Air Regulations" should be corrected to refer to "Federal Aviation Regulations"; (3) the word "international" in the title of Z501 under section 19–5(e) should be corrected to read "interairport"; and (4) revisions should be made in the chart in section 7 (Chart of Profit and Loss Accounts) to correct the omission of item 83, repetition of item 84.2 and the jumbling of item 86.

In addition, we are re-inserting paragraph (g), section 25, Schedule T–3 which was inadvertently dropped when Regulation ER–586 was adopted on August 6, 1969 (34 F.R. 14584). However, we shall reinsert this paragraph (g) in section 19.2, instead of section 25, and this change, in turn, necessitates parallel revisions in paragraph (d)(12) of section 22 and paragraph (d)(11) of section 32, which refer to said paragraph (g).

This regulation is issued by the undersigned pursuant to a delegation of authority from the Board to the General Counsel in 14 CFR 385.19, and shall become effective on December 19, 1972. Procedures for review of this amendment by the Board are set forth in Subpart C of Part 385 (14 CFR 385.50 and 385.54).

Accordingly, the Board hereby amends Part 241 of the Economic Regulations (14 CFR Part 241) effective December 19, 1972, as follows:

1. Amend Section 03 to read in part as follows:

Section 03—Definitions for Purposes of This System of Accounts and Reports

• • • • • •

Airworthiness (or *Airworthy*)—when applied to a particular aircraft or component part, it denotes the ability of such aircraft or component part to perform its function satisfactorily through a range of operations determined by the Federal Aviation Administration.

• • • • • •

2. Amend paragraph (f) of section 5–4 to read as follows:

Sec. 5–4 Property and equipment depreciation and overhaul.

• • • • • •

(f) Each air carrier shall adopt procedures of accounting for airframe and aircraft engine overhauls as will effectively result in the allocation of total maintenance expense between accounting periods in accordance with the use of airframes and aircraft engines. When overhauls are scheduled in such a manner as will produce a relatively equitable allocation of maintenance costs between accounting periods, the cost of each overhaul may be expensed directly as performed. Under circumstances in which overhaul procedures are such that the direct expensing of overhaul costs will not result in an equitable allocation of total maintenance costs as between different accounting periods the air carrier shall apply, consistently with respect to all airframe and engine types for which direct expensing of overhaul costs will not effectively produce an equitable allocation of cost, the accounting procedures set forth in paragraph (g) of this section 5–4. For the purposes of this system of accounts and reports, an airframe or aircraft engine "overhaul" shall be deemed to encompass the total of those inspections or replacements of major components performed in piecemeal phases, or in one operation, as are required to be performed at specified maximum periodic intervals by the Federal Aviation Regulations to recertify that airframes or aircraft engines are in a completely airworthy condition. Costs which attach to the routine replacement of minor parts and servicing or inspection of airframes and aircraft engines, performed on a recurrent but not scheduled basis, or on a scheduled basis without withdrawal from line service, to maintain airframes and aircraft engines in an operating condition, shall not be considered to be "overhaul" but shall be expensed directly as ordinary recurrent maintenance. Extraordinary costs of material amounts associated with the renewal of major structural parts of airframes and aircraft engines beyond the scope of normal periodic overhauls, or which are incurred at periodic intervals approximating the depreciable service life of the airframe and aircraft engine types to which related, shall not be considered to be overhauls. Such costs shall be accounted for as restoration of assets chargeable to the related property account. The cost of components removed, together with related depreciation reserves shall be treated as retired property and accounted for accordingly. In the event identification of the cost of the components removed is not feasible, the costs entailed in substituting components may be charged against the related depreciation reserves.

• • • • • •

3. Amend section 7 to read in part as follows:

Section 7—Chart of Profit and Loss Accounts

Objective classification of profit and loss elements	Functional or financial activity to which applicable (00)		
	Group I carriers	Group II carriers	Group III carriers
• • •	• • •	• • •	• • •
82 Unapplied cash discounts	81	81	81.
83 Interest income	81	81	81.
84 Income from subsidiary companies and dividend income			
84.1 Income from subsidiary companies	81	81	81.
84.2 Dividend income—other than subsidiary companies	81	81	81.
85 Foreign exchange adjustments	81	81	81.
86 Income from nontransport ventures	81	81	81.
• • •	• • •	• • •	• • •

4. Add paragraph (g) to section 19–2 so that the section will read in part as follows:

Sec. 19–2 Maintenance of data.

• • • • • •

(g) Each air carrier shall submit to the Civil Aeronautics Board a detailed statement of its method of computing available ton-miles and available seat-miles for each type of aircraft operated. Also, any future changes in methods of computation shall be submitted, subject to review and approval by the Civil Aeronautics Board. (See section 22(d).) The measurement of available aircraft capacity may reflect company minimum fuel requirements in lieu of the requirements under Federal Aviation Regulations, provided that the use of such company fuel requirements is indicated in the above statement and that the statement contain certification by a responsible company official that said fuel loads are not in excess of company safety requirements. The reason for exclusion of any installed seats in the computation of available seat-miles with respect to any aircraft type and the provisions made for protecting against the sale of such seats, shall be described in this statement and shall be certified to by a responsible company official. (See section 03 "seats available.")

5. Amend paragraph (e) of sec. 19–5 to read in part as follows:

Sec. 19–5 Air transport traffic and capacity elements.

• • • • • •

(e) The elements, by category and alpha-numeric code, for which data are to be maintained in accordance with the above are as follows:

AIRPORT-TO-AIRPORT TRAFFIC AND CAPACITY DATA

Z501 *Interairport distance.* The great circle distance, in statute miles, between airports served by each flight stage, as published in the Civil Aeronautics Board's "Official Route and Mileage Manual." (See Part 247 of the Economic Regulations.)

• • • • • •

6. Amend paragraph (d)(12) of section 22 to read as follows:

Section 22—General Reporting Instructions

• • • • • •

(d) Statements of accounting • • •

• • • • • •

(12) Procedures for computing available seat-miles and available ton-miles for each aircraft type, as required by paragraph (g) in section 19–2.

• • • • • •

7. Amend paragraph (d)(11) of section 32 to read as follows:

Section 32—General Reporting Instructions

• • • • • •

(d) Statement of accounting • • •

• • • • • •

(11) Procedures for computing available seat-miles and available ton-miles for each aircraft type, as required by paragraph (g) in section 19–2 and paragraph (i), in section 35, Schedule T–3.1.

• • • • • •

8. Amend paragraph (i) of the instructions for Schedule T–3.1 in section 35 to read as follows:

Section 35—Traffic and Capacity Elements

• • • • • •

Schedule T–3.1—Statement of Traffic and Capacity Statistics

• • • • • •

(i) Each supplemental air carrier shall submit to the Civil Aeronautics Board a detailed statement of its method of computing available ton-miles and available seat-miles for each type of aircraft operated. Also, any future changes in methods of computation shall be submitted, subject to review and approval by the Civil Aeronautics Board. (See sec. 32(d).) The measurement of available aircraft capacity may reflect company minimum fuel requirements in lieu of the requirements under Federal Aviation Regulations, provided that the use of such company fuel requirements is indicated in the above statement and that the statement contain certification by a responsible company official that

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release Nos. 33-5337, 34-9882, 35-17781, IC-7526, IA-352.]

PART 202—INFORMAL AND OTHER PROCEDURES

Consent Decrees in Judicial or Administrative Proceedings

The Securities and Exchange Commission today announced adoption of a policy with respect to consent decrees in judicial or administrative proceedings under the laws which it administers. In this connection it has amended § 202.5 of Part 202 of the Code of Federal Regulations relating to informal and other proceedings, as indicated below.

COMMISSION ACTION

Pursuant to the authority granted in section 19 of the Securities Act of 1933, section 23(a) of the Securities Exchange Act of 1934, section 20 of the Public Utility Holding Company Act of 1935, section 38 of the Investment Company Act of 1940 and section 211 of the Investment Advisers Act of 1940, the Securities and Exchange Commission hereby amends § 202.5 of Chapter II of Title 17 of the Code of Federal Regulations by adding thereunder a new paragraph (e) reading as follows:

§ 202.5 Enforcement activities.

* * * * *

(e) The Commission has adopted the policy that in any civil lawsuit brought by it or in any administrative proceeding of an accusatory nature pending before it, it is important to avoid creating, or permitting to be created, an impression that a decree is being entered or a sanction imposed, when the conduct alleged did not, in fact, occur. Accordingly, it hereby announces its policy not to permit a defendant or respondent to consent to a judgment or order that imposes a sanction while denying the allegations in the complaint or order for proceedings. In this regard, the Commission believes that a refusal to admit the allegations is equivalent to a denial, unless the defendant or respondent states that he neither admits nor denies the allegations.

(Secs. 19, 209, 48 Stat. 85, 908, 15 U.S.C. 77s; sec. 23(a), 48 Stat. 901, sec. 8, 49 Stat. 1379, 15 U.S.C. 78w(a); sec. 20, 49 Stat. 833, 15 U.S.C. 79t; sec. 38, 54 Stat. 841, 15 U.S.C. 80a-37; sec. 211, 54 Stat. 855, sec. 14, 74 Stat. 888, 15 U.S.C. 80b-11)

The Commission finds that the foregoing amendment relates only to rules of agency organization, procedure and practice and, therefore, notice and procedures specified in 5 U.S.C. 553 are unnecessary. The foregoing amendment is declared to be effective immediately.

By the Commission.

RONALD F. HUNT,
Secretary.

NOVEMBER 28, 1972.

[FR Doc.72-20559 Filed 11-28-72;8:54 am]

[Release No. 34-9856]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Broker-Dealers; Maintenance of Certain Basic Reserves

The Securities and Exchange Commission today announced the adoption of Rule 15c3-3 (17 CFR 240.15c3-3) under the Securities Exchange Act of 1934 (the "Act"). The rule provides a formula for the maintenance by broker-dealers of basic reserves with respect to customers' cash and cash realized through the utilization of customers' securities and enunciates standards for broker-dealers concerning the physical possession or control of fully-paid and excess margin of customers' securities.

On September 14, 1972, in Securities Exchange Act Release No. 9775, (37 F.R. 20260), and on two other occasions, May 31, 1972, in Securities Exchange Act Release No. 9622, (37 F.R. 11690) and November 8, 1971, in Securities Exchange Release No. 9388 (36 F.R. 22312) the Commission proposed Rule 15c3-3 and sought public comment. It has considered the comments and suggestions received in response to the proposals and now adopts the rule as set forth below. The basic principles and format of the September 14, 1972, proposal have been retained, the modifications to the September 14th proposal being primarily technical and in one instance to meet a hardship wich was represented to exist by certain members of the financial community.

OBJECTIVES OF RULE 15c3-3

It is the Commission's view that, in the context of the other customer protective provisions it has recently adopted,[1] Rule 15c3-3 as adopted herein is well fashioned to furnish the protection for the integrity of customer funds and securities as envisioned by Congress when it amended section 15(c)(3) of the Act by adopting section 7(d) of the Securities Investor Protection Act of 1970 (the "SIPC Act"). In meeting the Congressional directive for rules regarding the acceptance, custody and use of customers' securities and the maintenance of reserves with respect to customer deposits and credit balances the Commission seeks to accomplish the following in Rule 15c3-3:

(i) To insure that customers' funds held by a broker-dealer (both free credit balances and deposits which may be restricted as to withdrawal) and the cash which is realized through the lending, hypothecation and other permissible uses of customers' securities are deployed in safe areas of the broker-dealer's business related to servicing his customers, or to the extent that the funds are not deployed in these limited areas, that they be deposited in a reserve bank account. In this regard, the Commission has taken a broad view of the Congressional mandate by requiring that the reserve account include all funds which have as their source customer assets.

(ii) To require a broker-dealer promptly to obtain possession or control of all fully-paid securities and excess margin securities carried by that broker-dealer for the account of customers and to require him to act within designated time frames where possession or control has not been established.

(iii) To accomplish a separation of the brokerage operation of the firm's business from that of its firm activities such as underwriting and trading.

(iv) To require a broker-dealer to maintain more current records. Thus, Rule 15c3-3 requires a daily determination of security locations and periodic computations of the reserve.

(v) To motivate the securities industry to process its securities transactions in a more expeditious manner. This is particularly important in the area of the rule which penalizes a broker-dealer if a security is in a location which the Commission has determined to be unacceptable or has been out of the broker-dealer's possession for too long a period, as for example in transfer.

(vi) To inhibit the unwarranted expansion of a broker-dealer's business through the use of customers' funds by prohibiting the use of those funds except for designated purposes.

(vii) To augment the broad program of broker-dealer financial responsibility

[1] Among these are Rules: 17a-13 (the box count rule); 17a-5(j) and 17a-11 (establishing an effective early warning system); 17a-5 as amended (requiring the furnishings of financial information to customers); 15c3-1 as amended (increasing minimum net capital requirements); 15b1-2 and 15c3-1 as amended (imposing high minimum threshold net capital requirements and requiring detailed threshold information designed to effect conservative operation).

which the Commission has been developing as a result of the financial crisis experienced by the securities industry during the 1968–70 period.

(viii) To facilitate the liquidations of insolvent broker-dealers and to protect customer assets in the event of a SIPC liquidation through a clear delineation in Rule 15c3-3 of specificially identifiable property of customers.

In seeking these objectives the Commission has made every effort to make Rule 15c3-3 flexible enough to be compatible with the accounting, clearance, settlement, and depository systems presently operating or being developed in the securities industry. It is hoped that the rule will encourage the further development of these systems which will increase the protection of customers' funds and securities with the concomitant reduction in the need for this rule particularly in regard to those sections dealing with obtaining possession of securities which have not been brought under the broker-dealer's control within the normal settlement period. Where the provisions of the rule are at odds with present operational methods or where they require the development of new recordkeeping information it is because in the judgment of the Commission such systems or information are necessary to a comprehensive program of investor protection consistent not only with express congressional intent but with the high standards of financial responsibility which must prevail in the brokerage community. At the same time, however, the rule permits the smaller broker-dealer who does not hold customer funds or securities to effectuate his customer transactions through a special bank account and thereby avoid the computations and determinations of this rule which because of his size and capacity may be onerous to him.

PHYSICAL POSSESSION OR CONTROL OF FULLY PAID AND EXCESS MARGIN SECURITIES

An important element of Rule 15c3-3 is the requirement for daily determinations by the broker-dealer of the fully paid and excess margin securities in his physical possession or control. The various subparagraphs of paragraph (d) of the rule prescribe the time periods within which a broker-dealer must act to bring securities under his possession or control if his daily determinations show a deficit with respect to his customers' fully paid and excess margin securities. If the determination as at the close of a given business day reveals physical possession or control of all securities of a particular issue required to be in such broker-dealer's possession or control, subparagraph (b)(2) states that, during the following business day, a broker-dealer may effect delivery of shares of such issue received that day to fulfill any of that day's delivery obligations.

With respect to the provisions of the rule relating to control locations, paragraph (c)(4) has been changed to permit application by registered exchanges or the NASD with respect to the designation of foreign locations deemed to be good control under the rule. Additional points of control of securities under the rule are: securities held by a bank custodian, not subject to a lien or claim, which must be delivered to the broker-dealer upon demand without payment of money or other value (paragraph (c)(5)); securities held by a branch office or in transit between offices of the broker-dealer, or held by a guaranteed corporate subsidiary under the control of and operated as a branch office of the broker-dealer (paragraph (c)(6)); securities in the custody or control of a clearing corporation or carried in a special omnibus account (as defined) (paragraphs (c)(1) and (c)(2)); securities in transfer not in excess of 40 days (paragraph (c)(3)); and finally, to provide flexibility to deal with future developments in the securities industry, securities in such other locations as the Commission, upon application or on its own motion, finds adequate for the protection of customers.

Paragraph (d)(1) of the rule provides for 2 business days and 5 business days, respectively, for the release of securities from a lien and for the return of the loaned securities in order to reduce them to possession or control for compliance with the rule. In addition, under paragraph (d)(2), the time after which a fail to receive must be reduced to possession through a buy-in or other procedure is 30 days.

RESERVES WITH RESPECT TO CUSTOMERS' FUNDS

The revisions to the formula for determination of the reserve are principally technical in nature. In response to a number of public comments that Note B (1) to the formula may have a significant impact on the smaller broker-dealer in its ability to engage in the business of margin lending, the point at which debit balances in margin accounts are required to be reduced as permissible debits in the formula as a result of concentration in an underlying security collateralizing such margin indebtedness has been raised from 10 percent to 15 percent. Otherwise the formula has been retained in a form and concept identical to the September 14th proposal, placing on the credit side (items 1 through 9) funds for which the broker-dealer must be accountable and on the debit side (items 10 through 12) permissible areas where such funds may be deployed, otherwise to be deposited in a special reserve bank account (paragraphs (e)(1) and (e)(2) of the rule). The computation frequency has also been retained, monthly for the smaller firm and weekly for the firm which has aggregate indebtedness exceeding 800 percent of net capital or holds customer funds in excess of $1 million, as defined in the rule.

EXEMPTIONS

Subparagraph (k)(2)(B) exempts a broker-dealer whose transactions with customers consist exclusively of acting as an introducing broker-dealer to a clearing broker-dealer on a fully disclosed basis, and who transmits all customer funds and securities to the clearing broker-dealer who, in turn, carries all of the accounts of such customers. An additional exemption has been provided (subparagraph (k)(2)(A)) with respect to broker-dealers who carry no margin accounts, promptly transmit all customer funds and deliver all customer securities, do not otherwise hold funds or securities of customers and who effectuate all financial transactions with customers through one or more bank accounts designated as "Special Account for the Exclusive Benefit of his Customers." As with the Reserve Bank Accounts, a broker-dealer maintaining such a Special Account must receive and preserve a notification from the bank that the deposits are for the exclusive benefit of the broker-dealer's customers and are not subject to any lien or charge in favor of the bank or any person claiming through the bank. These exemptions are designed to provide an approach which alleviates difficulties many small and medium size broker-dealers may have in complying with the rule. At the same time the exemptions result in the complete separation of customer funds and property and afford protection over customer assets comparable with that to be attained under the provisions of the rule. The procedures outlined in these exemptions are consistent with one of the principal objectives of the SIPC Act that customer funds and securities not be exposed to risk of loss through broker-dealer insolvency.

OTHER PROVISIONS

The provisions of paragraph (l) delineate the right of a customer to delivery of his fully-paid and excess margin securities. Paragraph (l) articulates the existing rights of broker-dealers to impose maintenance and other margin requirements as permited by § 220.7(b) of Regulation T, provided that such requirements are imposed equitably and reasonably.

Paragraph (m) requires a broker-dealer who sells a security for a customer to obtain possession no later than 10 business days after the settlement date. Additionally, this paragraph clarifies that a broker-dealer who maintains a separate omnibus account conforming to section 4(b) of Regulation T with another broker-dealer is not to be deemed a customer of such other broker-dealer for the purposes of the 10 business day limitation.

Regarding the Commission's exercise of authority under section 6(c)(2)(C)(iii) of the SIPC Act, the rule provides that all fully-paid and excess margin securities in the broker-dealer's physical possession or control or in transfer or stock dividend receivable shall constitute the specifically identifiable property of those customers entitled thereto as evidenced from the broker-dealer's records or as is established otherwise by the preponderance of the evidence or other demonstration, as the respective customers' interests may appear. The cash and qualified securities in the Reserve Bank Account are determined to be the

specifically identifiable property of cus-

change Act as well as section 6(c)(2)(C)(iii) of the SIPC Act, and deeming it in

(5) The term "excess margin securities" shall mean those securities referred

and to establish that he has taken timely steps in good faith to place them in his

kind in favor of a bank or any person claiming through the bank; or

able, stock split or similar distribution for more than 45 calendar days, then the

specifically identifiable property of customers with free credit balances. To the extent that the specifically identifiable property of any group of customers is not sufficient to satisfy all their claims, the property is to be prorated among them. In the event, however, that such property should exceed the aggregate claims of such customers, the excess is to be placed in the Single and Separate Fund which is provided for in section 6(c)(2)(B) of the SIPC Act for customers generally.

Paragraph (n) provides for extensions of the time in which a broker-dealer is required to buy-in securities as specified in the rule upon good faith application to a self-regulatory body which would grant such extensions in only exceptional circumstances. Any extensions granted must be recorded together with the justification therefor and preserved for a period of not less than 3 years.

IMPACT AND MONITORING

Rule 15c3-3 represents the first comprehensive program undertaken by the Commission to provide regulatory safeguards over customers' funds and securities held by broker-dealers. The handling and processing of customers' funds and securities is a complex process and to a degree the necessary safeguards embodied in Rule 15c3-3 reflect that process. Inasmuch as the rule is comprehensive, touching upon many phases of the broker-dealer's business, its uniformity of application may lead in certain instances to significant impact upon some broker-dealers. Such impact may be attributable to a unique manner in which securities may be processed or held by a particular broker or to the type of business engaged in by the broker-dealer. These broker-dealers are encouraged to consult with the staff of the Commission in the case where the rule works an operational hardship or severely impacts to determine if substitute procedures can be devised which offer equal protection to customer assets or to ascertain whether a phasing in of a particular provision of the rule might be appropriate.

The operations of Rule 15c3-3 will be carefully monitored by the Commission to determine whether there will be need in the public interest and for the protection of investors to tighten or relax any of the restraints and time frames embodied in the rule. The Commission recognizes that this is by no means a final solution and that work must continue to develop a total systems approach which will reduce the time required to clear and settle securities transactions, reduce the paperwork, and increase the safety of customers' funds and securities.

STATUTORY BASIS AND EFFECTIVE DATE

The Securities and Exchange Commission, acting pursuant to the provision of the Securities Exchange Act of 1934 and the Securities Investor Protection Act of 1970, particularly sections 15(c)(3), 15(c)(2), 17(a) and 23(a) of the Exchange Act as well as section 6(c)(2)(C)(iii) of the SIPC Act, and deeming it in the public interest and for the protection of investors, hereby adopts new § 240.15c3-3 in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations as set forth below, effective January 15, 1973:

§ 240.15c3-3 Customer protection—reserves and custody of securities.

(a) *Definitions.* For the purpose of this section:

(1) The term "customer" shall mean any person from whom or on whose behalf a broker or dealer has received or acquired or holds funds or securities for the account of such person, but shall not include a broker or dealer, or a general, special or limited partner or director or officer of a broker or dealer, or any person to the extent that such person has a claim for property or funds which by contract, agreement or understanding, or by operation of law, is part of the capital of the broker or dealer or is subordinated to the claims of creditors of the broker or dealer: *Provided, however,* That the term "customer" shall also include a broker or dealer but only insofar as such broker or dealer maintains a special omnibus account carried with another broker or dealer in compliance with section 4(b) of Regulation T under the Securities Exchange Act of 1934 (12 CFR Part 220).

(2) The term "securities carried for the account of a customer" (hereinafter also "customer securities") shall mean:

(i) securities received by or on behalf of a broker or dealer for the account of any customer and securities carried long by a broker or dealer for the account of any customer; and

(ii) securities sold to, or bought for, a customer by a broker or dealer.

(3) The term "fully paid securities" shall include all securities carried for the account of a customer in a special cash account as defined in Regulation T promulgated by the Board of Governors of the Federal Reserve System, as well as margin equity securities within the meaning of Regulation T which are carried for the account of a customer in a general account or any special account under Regulation T during any period when section 8 of Regulation T (12 CFR 220.8) specifies that margin equity securities shall have no loan value in a general account or special convertible debt security account, and all such margin equity securities in such account if they are fully paid: *Provided, however,* That the term "fully paid securities" shall not apply to any securities which are purchased in transactions for which the customer has not made full payment.

(4) The term "margin securities" shall mean those securities carried for the account of a customer in a general account as defined in Regulation T, as well as securities carried in any special account (such general or special accounts hereinafter referred to as "margin accounts") other than the securities referred to in paragraph (a)(3) of this section.

(5) The term "excess margin securities" shall mean those securities referred to in paragraph (a)(4) of this section carried for the account of a customer having a market value in excess of 140 percent of the total of the debit balances in the customer's account or accounts encompassed by paragraph (a)(4) of this section which the broker or dealer identifies as not constituting margin securities.

(6) The term "qualified security" shall mean a security issued by the United States or a security in respect of which the principal and interest are guaranteed by the United States.

(7) The term "bank" shall mean a bank as defined in section 3(a)(6) of the Act and shall also mean any building and loan, savings and loan or similar banking institution subject to supervision by a Federal banking authority. With respect to a broker or dealer who maintains his principal place of business in the Dominion of Canada, the term "bank" shall also mean a Canadian bank subject to supervision by an authority of the Dominion of Canada.

(8) The term "free credit balances" shall mean liabilities of a broker or dealer to customers which are subject to immediate cash payment to customers on demand, whether resulting from sales of securities, dividends, interest, deposits or otherwise, excluding, however, funds in commodity accounts which are segregated in accordance with the Commodity Exchange Act or in a similar manner.

(9) The term "other credit balances" shall mean cash liabilities of a broker or dealer to customers other than free credit balances and funds in commodities accounts segregated as aforesaid.

(10) The term "funds carried for the account of any customer" (hereinafter also "customer funds") shall mean all free credit and other credit balances carried for the account of the customer.

(b) *Physical possession or control of securities.* (1) A broker or dealer shall promptly obtain and shall thereafter maintain the physical possession or control of all fully-paid securities and excess margin securities carried by a broker or dealer for the account of customers.

(2) A broker or dealer shall not be deemed to be in violation of the provisions of paragraph (b)(1) of this section regarding physical possession or control of customers' securities if, solely as the result of normal business operations, temporary lags occur between the time when a security is required to be in the possession or control of the broker or dealer and the time that it is placed in his physical possession or under his control, provided that the broker or dealer takes timely steps in good faith to establish prompt physical possession or control. The burden of proof shall be on the broker or dealer to establish that the failure to obtain physical possession or control of securities carried for the account of customers as required by paragraph (b)(1) of this section is merely temporary and solely the result of normal business operations including same day receipt and redelivery (turnaround),

and to establish that he has taken timely steps in good faith to place them in his physical possession or control.

(c) *Control of securities.* Securities under the control of a broker or dealer shall be deemed to be securities which:

(1) Are represented by one or more certificates in the custody or control of a clearing corporation or other subsidiary organization of either national securities exchanges or of a registered national securities association, or of a custodian bank in accordance with a system for the central handling of securities complying with the provisions of §§ 240.8c-1(g) and 240.15c2-1(g) the delivery of which certificates to the broker or dealer does not require the payment of money or value, and if the books or records of the broker or dealer identify the customers entitled to receive specified quantities or units of the securities so held for such customers collectively; or

(2) Are carried for the account of any customer by a broker or dealer and are carried in a special omnibus account in the name of such broker or dealer with another broker or dealer in compliance with the requirements of section 4(b) of Regulation T under the Act (12 CFR 220.4(b)), such securities being deemed to be under the control of such broker or dealer to the extent that he has instructed such carrying broker or dealer to maintain physical possession or control of them free of any charge, lien, or claim of any kind in favor of such carrying broker or dealer or any persons claiming through such carrying broker or dealer; or

(3) Are the subject of bona fide items of transfer; provided that securities shall be deemed not to be the subject of bona fide items of transfer if, within 40 calendar days after they have been transmitted for transfer by the broker or dealer to the issuer or its transfer agent, new certificates conforming to the instructions of the broker or dealer have not been received by him, he has not receivd a written statement by the issuer or its transfer agent acknowledging the transfer instructions and the possession of the securities or he has not obtained a revalidation of a window ticket from a transfer agent with respect to the certificate delivered for transfer; or

(4) Are in the custody of a foreign depository, foreign clearing agency or foreign custodian bank which the Commission upon application from a broker or dealer, a registered national securities exchange or a registered national securities association, or upon its own motion shall designate as a satisfactory control location for securities; or

(5) Are in the custody or control of a bank as defined in section 3(a)(6) of the Act, the delivery of which securities to the broker or dealer does not require the payment of money or value and the bank having acknowledged in writing that the securities in its custody or control are not subject to any right, charge, security interest, lien or claim of any kind in favor of a bank or any person claiming through the bank; or

(6)(i) Are held in or are in transit between offices of the broker or dealer; or (ii) are held by a corporate subsidiary if the broker or dealer owns and exercises a majority of the voting rights of all of the voting securities of such subsidiary, assumes or guarantees all of the subsidiary's obligations and liabilities, operates the subsidiary as a branch office of the broker or dealer, and assumes full responsibility for compliance by the subsidiary and all of its associated persons with the provisions of the Federal securities laws as well as for all of the other acts of the subsidiary and such associated persons; or

(7) Are held in such other locations as the Commission shall upon application from a broker or dealer find and designate to be adequate for the protection of customer securities.

(d) *Requirement to reduce securities to possession or control.* Not later than the next business day, a broker or dealer, as of the close of the preceding business day, shall determine from his books or records the quantity of fully paid securities and excess margin securities in his possession or control and the quantity of fully paid securities and excess margin securities not in his possession or control. In making this daily determination inactive margin accounts (accounts having no activity by reason of purchase or sale of securities, receipt or delivery of cash or securities or similar type events) may be computed not less than once weekly. If such books or records indicate, as of such close of the business day, that such broker or dealer has not obtained physical possession or control of all fully paid and excess margin securities as required by this section and there are securities of the same issue and class in any of the following noncontrol locations:

(1) Securities subject to a lien securing moneys borrowed by the broker or dealer or securities loaned to another broker or dealer or a clearing corporation, then the broker or dealer shall, not later than the business day following the day on which such determination is made, issue instructions for the release of such securities from the lien or return of such loaned securities and shall obtain physical possession or control of such securities within two business days following the date of issuance of the instructions in the case of securities loaned; or

(2) Securities included on his books or records as failed to receive more than 30 calendar days, then the broker or dealer shall, not later than the business day following the day on which such determination is made, take prompt steps to obtain physical possession or control of securities so failed to receive through a buy-in procedure or otherwise; or

(3) Securities receivable by the broker or dealer as a security dividend receivable, stock split or similar distribution for more than 45 calendar days, then the broker or dealer shall, not later than the business day following the day on which such determination is made, take prompt steps to obtain physical possession or control of securities so receivable through a buy-in procedure or otherwise.

(e) *Special reserve bank account for the exclusive benefit of customers.* (1) Every broker or dealer shall maintain with a bank or banks at all times when deposits are required or hereinafter specified a "Special Reserve Bank Account for the Exclusive Benefit of Customers" (hereinafter referred to as the "Reserve Bank Account"), and it shall be separate from any other bank account of the broker or dealer. Such broker or dealer shall at all times maintain in such Reserve Bank Account, through deposits made therein, cash and/or qualified securities in an amount not less than the amount computed in accordance with the formula set forth in § 240.15c3-3a.

(2) It shall be unlawful for any broker or dealer to accept or use any of the amounts under items comprising Total Credits under the formula referred to in paragraph (e)(1) of this section except for the specified purposes indicated under items comprising Total Debits under the formula, and, to the extent Total Credits exceed Total Debits, at least the net amount thereof shall be maintained in the Reserve Bank Account pursuant to paragraph (e)(1) of this section.

(3) Computations necessary to determine the amount required to be deposited as specified in paragraph (e)(1) of this section shall be made weekly, as of the close of the last business day of the week, and the deposit so computed shall be made no later than 1 hour after the opening of banking business on the second following business day: provided, however, a broker or dealer which has aggregate indebtedness not exceeding 800 percent of net capital (as defined in § 240.15c3-1 or in the capital rules of a national securities exchange of which it is a member and exempt from § 240.15c3-1 by subparagraph (b)(2) thereof) and which carries aggregate customer funds (as defined in paragraph (a)(10) of this section), as computed at the last required computation pursuant to this section, not exceeding $1 million, may in the alternative make the computation monthly, as of the close of the last business day of the month, and, in such event, shall deposit not less than 105 percent of the amount so computed no later than 1 hour after the opening of banking business on the second following business day. If a broker or dealer, computing on a monthly basis, has, at the time of any required computation, aggregate indebtedness in excess of 800 percent of net capital, such broker or dealer shall thereafter compute weekly as aforesaid until four successive weekly computations are made, none of which were made at a time when his aggregate indebtedness exceeded 800 percent of his

net capital. Computations in addition to

posit, as required by this section, the broker or dealer shall by telegram im-

participations in an insurance company separate account, whether or not regis-

(3) Upon written application by a broker or dealer, the Commission may exempt such broker or dealer from the

§ 240.15c3-3a Exhibit A—formula for determination reserve requirement of brokers and dealers under

Title 21—FOOD AND DRUGS

net capital. Computations in addition to the computations required in this subparagraph (3), may be made as of the close of any other business day, and the deposits so computed shall be made no later than 1 hour after the opening of banking business on the second following business day. The broker or dealer shall make and maintain a record of each such computation made pursuant to this subparagraph (3) or otherwise and preserve each such record in accordance with § 240.17a–4.

(f) *Notification of banks.* A broker or dealer required to maintain the reserve bank account prescribed by this section or who maintains a special account referred to in paragraph (k) of this section shall obtain and preserve in accordance with § 240.17a–4 written notification from each bank in which he has his reserve bank account or special account that the bank was informed that all cash and/or qualified securities deposited therein are being held by the bank for the exclusive benefit of customers of the broker or dealer in accordance with the regulations of the Commission, and are being kept separate from any other accounts maintained by the broker or dealer with the bank, and the broker or dealer shall have a written contract with the bank which provides that the cash and/or qualified securities shall at no time be used directly or indirectly as security for a loan to the broker or dealer by the bank and, shall be subject to no right, charge, security interest, lien, or claim of any kind in favor of the bank or any person claiming through the bank.

(g) *Withdrawals from the reserve bank account.* A broker or dealer may make withdrawals from his reserve bank account if and to the extent that at the time of the withdrawal the amount remaining in the reserve bank account is not less than the amount then required by paragraph (e) of this section. A bank may presume that any request for withdrawal from a reserve bank account is in conformity and compliance with this paragraph (g). On any business day on which a withdrawal is made, the broker or dealer shall make a record of the computation on the basis of which he makes such withdrawal, and he shall preserve such computation in accordance with § 240.17a–4.

(h) *Buy-in of short security differences.* A broker or dealer shall within 45 calendar days after the date of the examination, count, vertification and comparison of securities pursuant to § 240.17a–13 or otherwise or to the annual report of financial condition in accordance with § 240.17a–5, buy-in all short security differences which are not resolved during the 45-day period.

(i) *Notification in the event of failure to make a required deposit.* If a broker or dealer shall fail to make in his reserve bank account or special account a deposit, as required by this section, the broker or dealer shall by telegram immediately notify the Commission, the Securities Investor Protection Corp., and the regulatory authority for the broker or dealer, which examines such broker or dealer as to financial responsibility and shall promptly thereafter confirm such notification in writing.

(j) *Specifically identifiable property.* For the purpose of section 6(c)(2)(C)(iii) of the Securities Investor Protection Act of 1970 (15 U.S.C. 78fff(c)(2)(C)(iii)) the following are hereby determined to be allocated to and shall constitute the specifically identifiable property of customers:

(1) All fully paid and excess margin securities in the physical possession or control (including any such securities under the control of the broker or dealer in which a customer can demonstrate ownership rights where the condition of the books or records of the broker or dealer may otherwise fail to accurately reflect such rights) of the broker or dealer or in transfer or stock dividend receivable shall constitute the specifically identifiable property of customers having claims for fully paid and excess margin securities as their interests may appear from the books or records of the broker or dealer or as is otherwise established by a preponderance of the evidence or to the satisfaction of a trustee appointed pursuant to section 5(b) of the Securities Investor Protection Act (15 U.S.C. 78eee(b)).

(2) The cash and qualified securities on deposit in the reserve bank account of a broker or dealer shall be deemed to be the specifically identifiable property of those customers of the broker or dealer who have free credit balances.

(3) If specifically identifiable property allocable to customers pursuant to subparagraph (1) or (2) of this paragraph is insufficient to satisfy the respective claims of such customers, such specifically identifiable property shall be prorated among such customers in accordance with their respective interests.

(4) If the specifically identifiable property allocable to either of the specified classes of customers referred to in subparagraph (1) or (2) of this paragraph exceeds their aggregate claims against such property, such excess shall thereafter constitute part of the "Single and Separate Fund" provided for in section 6(c)(2)(B) the Securities Investor Protection Act (15 U.S.C. 78fff(c)(2)(B)).

(k) *Exemptions.* (1) The provisions of this section shall not be applicable to a broker or dealer meeting all of the following conditions:

(i) His dealer transactions (as principal for his own account) are limited to the purchase, sale, and redemption of redeemable securities of registered investment companies or of interests or participations in an insurance company separate account, whether or not registered as an investment company; except that a broker or dealer transacting business as a sole proprietor may also effect occasional transactions in other securities for his own account with or through another registered broker or dealer;

(ii) His transactions as broker (agent) are limited to: (*a*) The sale and redemption of redeemable securities of registered investment companies or of interests or participations in an insurance company separate account, whether or not registered as an investment company; (*b*) the solicitation of share accounts for savings and loan associations insured by an instrumentality of the United States; and (*c*) the sale of securities for the account of a customer to obtain funds for immediate reinvestment in redeemable securities of registered investment companies; and

(iii) He promptly transmits all funds and delivers all securities received in connection with his activities as a broker or dealer, and does not otherwise hold funds or securities for, or owe money or securities to, customers.

(iv) Notwithstanding the foregoing, this section shall not apply to any insurance company which is a registered broker-dealer, and which otherwise meets all of the conditions in subdivisions (i), (ii), and (iii) of this subparagraph, solely by reason of its participation in transactions that are a part of the business of insurance, including the purchasing, selling, or holding of securities for or on behalf of such company's general and separate accounts.

(2) The provisions of this section shall not be applicable to a broker or dealer:

(i) Who carries no margin accounts, promptly transmits all customer funds and delivers all securities received in connection with his activities as a broker or dealer, does not otherwise hold funds or securities for, or owe money or securities to, customers and effectuates all financial transactions between the broker or dealer and his customers through one or more bank accounts, each to be designated as "Special Account for the Exclusive Benefit of Customers of (name of the broker or dealer)"; or

(ii) Who, as an introducing broker or dealer, clears all transactions with and for customers on a fully disclosed basis with a clearing broker or dealer, and who promptly transmits all customer funds and securities to the clearing broker or dealer which carries all of the accounts of such customers and maintains and preserves such books and records pertaining thereto pursuant to the requirements of §§ 240.17a–3 and 240.17a–4 of this chapter, as are customarily made and kept by a clearing broker or dealer.

(3) Upon written application by a broker or dealer, the Commission may exempt such broker or dealer from the provisions of this section, either unconditionally or on specified terms and conditions, if the Commission finds that the broker or dealer has established safeguards for the protection of funds and securities of customers comparable with those provided for by this section and that it is not necessary in the public interest or for the protection of investors to subject the particular broker or dealer to the provisions of this section.

(l) *Delivery of securities.* Nothing stated in this section shall be construed as affecting the absolute right of a customer of a broker or dealer to receive in the course of normal business operations following demand made on the broker or dealer, the physical delivery of certificates for:

(1) Fully-paid securities to which he is entitled and,

(2) Margin securities upon full payment by such customer to the broker or dealer of his indebtedness to the broker or dealer; and, subject to the right of the broker or dealer under § 220.7(b) of Regulation T [12 CFR 220.7(b)] to retain collateral for his own protection beyond the requirements of Regulation T, excess margin securities not reasonably required to collateralize such customer's indebtedness to the broker or dealer.

(m) *Completion of sell orders on behalf of customers.* If a broker or dealer executes a sell order of a customer (other than an order to execute a sale of securities which the seller does not own) and if for any reason whatever the broker or dealer has not obtained possession of the securities from the customer within 10 business days after the settlement date, the broker or dealer shall immediately thereafter close the transaction with the customer by purchasing securities of like kind and quantity: *Provided, however,* The term "customer" for the purpose of this paragraph (m) shall not include a broker or dealer who maintains a special omnibus account with another broker or dealer in compliance with section 4(b) of Regulation T [12 CFR 220.4(b)].

(n) *Extensions of time.* If a registered national securities exchange or a registered national securities association is satisfied that a broker or dealer is acting in good faith in making the application and that exceptional circumstances warrant such action, such exchange or association, on application of the broker or dealer, may extend any period specified in subparagraphs (2) and (3) of paragraph (d), paragraph (h) and paragraph (m) of this section, relating to the requirement that such broker or dealer take action within a designated period of time to buy-in a security, for one or more limited periods commensurate with the circumstances. Each such exchange or association shall make and preserve for a period of not less than 3 years a record of each extension granted pursuant to paragraph (n) of this section which shall contain a summary of the justification for the granting of the extension.

§ 240.15c3–3a Exhibit A—formula for determination reserve requirement of brokers and dealers under § 240.15c3–3.

	Credits	Debits
1. Free credit balances and other credit balances in customers' security accounts. (See Note A)	$XXX	
2. Monies borrowed collateralized by securities carried for the accounts of customers	XXX	
3. Monies payable against customers' securities loaned	XXX	
4. Customers' securities failed to receive	XXX	
5. Credit balances in firm accounts which are attributable to principal sales to customers	XXX	
6. Market value of stock dividends, stock splits and similar distributions receivable outstanding over 30 calendar days	XXX	
7. Market value of short security count differences over 30 calendar days old	XXX	
8. Market value of short securities and credits (not to be offset by longs or by debits) in all suspense accounts over 30 calendar days	XXX	
9. Market value of securities which are in transfer in excess of 40 calendar days and have not been confirmed to be in transfer by the transfer agent or the issuer during the last 40 days	XXX	
10. Debit balances in customers' cash and margin accounts excluding unsecured accounts and accounts doubtful of collection. (See Note B)		$XXX

12. Failed to deliver of customers' securities not older than 30 calendar days	XXX	
Total	XXX	XXX
13. Excess of total credits (sum of items 1–9) over total debits (sum of items 10–12) required to be on deposit in the "Reserve Bank Account" (§ 240.15c3–3(e)). If the computation is made monthly as permitted by this section, the deposit shall be not less than 105 percent of the excess of total credits over total debits	XXX	

NOTE A. Item 1 shall include all outstanding drafts payable to customers which have been applied against free credit balances or other credit balances and shall also include checks drawn in excess of bank balances per the records of the broker or dealer.

NOTE B. (1) Debit balances in margin accounts shall be reduced by the amount by which a specific security (other than an exempted security) which is collateral for margin accounts exceeds in aggregate value 15 percent of the aggregate value of all securities which collateralize all margin accounts receivable; provided, however, the required reduction shall not be in excess of the amount of the debit balance required to be excluded because of this concentration rule. A specified security is deemed to be collateral for a margin account only to the extent it represents in value not more than 140 percent of the customer debit balance in a margin account.

(2) Debit balances in customers' cash and margin accounts included in the formula under item 10 shall be reduced by an amount equal to 1 percent of their aggregate value.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

RUBBER ARTICLES INTENDED FOR REPEATED USE

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 1B2635) filed by the B. F. Goodrich Co., 500 South Main St., Akron, OH 44318, and other relevant material, concludes that the food additive regulations should be amended, as set forth below, to provide for the safe use of polyurethane resins as elastomers in the formulation of rubber articles intended for repeated food-contact use.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2562(c)(4)(i) is amended by alphabetically adding to the list of substances a new item, as follows:

§ 121.2562 Rubber articles intended for repeated use.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (11–29–72).

SUBCHAPTER C—DRUGS

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

Chorionic Gonadotropin Suspension, Veterinary

The Commissioner of Food and Drugs has evaluated a new animal drug application (47-353V) filed by Elanco Products Co., Post Office Box 1750, Indianapolis, IN 46206, proposing the safe and effective use of chorionic gonadotropin suspension for use as an aid in increasing the pregnancy rate of estrus synchronized and normal cycling heifers. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under the authority delegated to the Commissioner (21 CFR 2.120), § 135b.50 is revised to read as follows:

§ 135b.50 Chorionic gonadotropin for injection, veterinary; Chorionic gonadtropin suspension, veterinary.

(a)(1) *Specifications.* Chorionic gonadtropin for injection, veterinary, when reconstituted with appropriate diluent, provides 1,000 U.S.P. units of chorionic gonadotropin per milliliter.

(2) *Sponsor.* See code No. 035 in § 135.501(c) of this chapter.

(3) *Conditions of use.* (i) The drug is intended for parenteral use in the treatment of cows for nymphomania (frequent or constant heat) due to cystic ovaries.

(ii) It is administered at a recommended dose of 10,000 U.S.P. units by deep intramuscular injection or 2,500 to 5,000 U.S.P. units intravenously or by intrafollicular injection of 500 to 2,500 U.S.P. units. Dosage may be repeated in 14 days if necessary.

(iii) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(b)(1) *Specifications.* Chorionic gonadotropin suspension, veterinary contains in each milliliter, 750 I.U. of chorionic gonadotropin suspended in white wax and sesame oil.

(2) *Sponsor.* See code No. 014 in § 135.501(c) of this chapter.

(3) *Conditions of use.* (i) The drug is used as an aid in increasing pregnancy rate of estrus synchronized and normal cycling heifers.

(ii) It is administered at the rate of 2 milliliters (1,500 I.U.) subcutaneously at the time of insemination in the neck or shoulder region.

(iii) The drug is not to be used to induce multiple ovulations. Doses higher than recommended may reduce pregnancy rate.

(iv) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (11-29-72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: November 20, 1972.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc.72-20460 Filed 11-28-72;8:49 am]

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter II—Office of Assistant Secretary for Housing Production and Mortgage Credit—Federal Housing Commissioner (Federal Housing Administration)

[Docket No. R-72-208]

FHA REQUIREMENT OF FLOOD INSURANCE IN SPECIAL FLOOD HAZARD AREAS

A proposal was published on August 15, 1972 (37 F.R. 16505) to amend Title 24 of the Code of Federal Regulations to require flood insurance coverage on one- to four-family dwellings financed with a mortgage insured by the Department, if the property is located in a special flood hazard area, as designated by the Secretary of HUD, and if the first-floor elevation of the dwelling is less than 1 foot above the specified maximum elevation of the special flood hazard area. To carry out this policy the proposed regulations would require the collection by the mortgagee and the payment of flood insurance premiums by the mortgagor, when such insurance is required.

Interested persons were given an opportunity to participate in the rule making through submission of comments. The comments received reflected a general concern that elevation information within a flood hazard area will not be readily available to the housing industry; that homes built in an area, after it has been designated as a special flood hazard area, will be subject to a very high flood insurance premium; and that the proposed rule would encourage, rather than restrict, the development of housing within flood hazard areas.

Special flood hazard areas will be mapped and information as to the areas and elevations included within these areas will be obtainable from the Federal Insurance Administration. However, we recognize that this information would not be adequate for determining the exact elevation of a particular property in relation to the 100-year flood level. This could only be accomplished by a special survey and engineering study of the particular parcel.

Flood insurance will be available on an actuarial basis for homes built in an area after it has been designated as a special flood hazard area. The actuarial premium is related to the elevation of the first floor of the dwelling and the premium will not be excessive for property meeting HUD/FHA eligibility standards. These standards require that the first-floor elevation of the dwelling be at or above the 100-year frequency flood elevation. It should be clearly understood that the requirement for flood insurance will not be substituted for compliance with the HUD/FHA flood hazard exposure standards for mortgage insurance eligibility.

The flood insurance requirement is intended to and will discourage the development of new housing within a special flood hazard area at elevations involving a high risk of flooding. High flood insurance premiums, at the actuarial rate, will be charged on housing subject to such high risk. Housing that complies with HUD/FHA's flood hazard exposure standards will involve a lower risk; and insurance on such housing will be available at lower actuarial rates.

On the basis of the comments received and after a further review of the matter, the Department is adopting a provision that will require flood insurance coverage, where available under the National Flood Insurance Program, on all one- to four-family dwellings financed with a HUD/FHA-insured mortgage, if the property is located in a designated special flood hazard area or is otherwise determined by HUD/FHA to be subject to a significant flood hazard. It is recognized that this all inclusive type of requirement could result in arbitrarily requiring flood insurance coverage in a few isolated instances, where property is located at such a high elevation as to make it inappropriate to require the flood insurance. To take care of these few cases, a provision is included under which the Secretary may exclude a property located in a special flood hazard area from the requirements for flood insurance, if he determines the property is located at such a high elevation that there is no risk of flooding.

The new provision eliminates the condition included in the original proposal that would have limited the requirement for flood insurance to dwellings where the first floor level is less than 1 foot above the specified maximum elevation of the special flood hazard area. This condition would have imposed an unnecessary burden and expense on property owners, in some cases, where it would have been necessary to make a special survey and engineering study to determine the level of a particular parcel in relation to the 100-year flood level.

Accordingly, Parts 203, 213, and 222 of Subchapter B of Chapter II of Title 24 of the Code of Federal Regulations is amended as follows:

PART 203—MUTUAL MORTGAGE INSURANCE AND INSURED HOME IMPROVEMENT LOANS

Subpart A—Eligibility Requirements

1. In the table of sections, the following new section is added in proper alphabetical sequence:

Sec.

. . . . . .

§ 203.16a Mortgagor and mortgagee requirement for maintaining flood insurance coverage

. . . . . .

2. A new § 203.16a is added, to read as follows:

§ 203.16a Mortgagor and mortgagee requirement for maintaining flood insurance coverage.

(a) If the mortgage is to cover property that (1) is located in an area designated by the Secretary as a flood plain area having special flood hazards or (2) is otherwise determined by the Commissioner to be subject to a flood hazard; and if flood insurance under the National Flood Insurance Program (NFIP) is available with respect to such property, the mortgagor and mortgagee shall be obligated, by a special condition to be included in the mortgage insurance commitment, to obtain and to maintain NFIP flood insurance coverage on the property during such time as the mortgage is insured. The flood insurance to be maintained shall be in an amount at least equal to either the outstanding balance of the mortgage or the maximum amount of NFIP insurance available with respect to the property, whichever is less.

(b) The Secretary may exclude a property located in a special flood hazard area from the requirements for flood insurance, specified in paragraph (a) of this section, if he determines the property is located at such a high elevation that there is no risk of flooding.

3. Section 203.23(a) is revised to read as follows:

§ 203.23 Mortgagor's payments to include other charges.

(a) The mortgage shall provide for such equal monthly payments by the mortgagor to the mortgagee as will amortize (1) The ground rents, if any; (2) the estimated amount of all taxes; (3) special assessments, if any; (4) flood insurance premiums, if flood insurance is required by the Commissioner; and (5) fire and other hazard insurance premiums, if any, within a period ending 1 month prior to the dates on which the same before delinquent. The mortgage shall further provide that such payments shall be held by the mortgagee in a manner satisfactory to the Commissioner for the purpose of paying such ground rents, taxes, assessments, and insurance premiums before the same become delinquent, for the benefit and account of the mortgagor. The mortgage must also make provisions for adjustments in case the estimated amount of such taxes, assessments, and insurance premiums shall prove to be more, or less, than the actual amount thereof so paid by the mortgagor.

. . . . . .

4. Section 203.24(a)(2) is revised to read as follows:

§ 203.24 Application of payments.

(a) • • •

(2) Ground rents, taxes, special assessments, flood insurance premiums, if required, and fire and other hazard insurance premiums.

. . . . . .

5. Section 203.26 is amended to read as follows:

§ 203.26 Mortgagor's payments when mortgage is executed.

The mortgagor must pay to the mortgagee, upon the execution of the mortgage, a sum that will be sufficient to pay the ground rents, if any, the estimated taxes, special assessments, flood insurance premiums, if required, and fire and other hazard insurance premiums for the period beginning on the date to which such ground rents, taxes, assessments, and insurance premiums were last paid and ending on the date of the first monthly payment under the mortgage plus an amount sufficient to pay the mortgage insurance premium from the date of closing the loan to the date of the first monthly payment.

(Sec. 203 National Housing Act; 12 U.S.C. 1709)

PART 213—COOPERATIVE HOUSING MORTGAGE INSURANCE

Subpart C—Eligibility Requirements—Individual Properties Released From Project Mortgage

1. Section 213.514(a) is amended to read as follows:

§ 213.514 Payments to include other charges.

(a) The mortgage shall provide for such equal monthly payments by the mortgagor to the mortgagee as will amortize: (1) The ground rents, if any; (2) the estimated amount of all taxes; (3) special assessments, if any; (4) flood insurance premiums, if flood insurance is required by the Commissioner; and (5) fire and other hazard inurance premiums, within a period ending 1 month prior to the dates on which the same become delinquent. The mortgage shall further provide that such payments shall be held by the mortgagee in a manner satisfactory to the Commissioner, for the purpose of paying such ground rents, taxes, assessments, and insurance premiums, before the same become delinquent, for the benefit and account of the mortgagor. The mortgage must also make provision for adjustments in case the estimated amount of such taxes, assessments, and insurance premiums shall prove to be more, or less, than the actual amount thereof so paid by the mortgagor.

. . . . . .

2. Section 213.515(b) is revised to read as follows:

§ 213.515 Payments, how applied.

. . . . . .

(b) Ground rents, taxes, special assessments, flood insurance premiums, if required, and fire and other hazard insurance premiums.

. . . . . .

3. Section 213.517 is amended to read as follows:

§ 213.517 Payments upon execution of mortgage.

The mortgagor must pay to the mortgagee upon the execution of the mortgage a sum that will be sufficient to pay the ground rents, if any, and the estimated taxes, special assessments, flood insurance premiums, if required, and fire and other hazard insurance premiums for the period beginning on the date to which such ground rents, taxes, assessments, and insurance premiums were last paid and ending on the date of the first monthly payment under the mortgage, and may be required to pay a further sum equal to the first annual mortgage insurance premium, plus an amount sufficient to pay the mortgage insurance premium from the date of closing the loan to the date of the first monthly payment.

(Sec. 213, National Housing Act; 12 U.S.C. 1715e)

PART 222—SERVICEMEN'S MORTGAGE INSURANCE

Subpart A—Eligibility Requirements

4. Section 222.6(a)(1) is revised to read as follows:

§ 222.6 Application of payments.

(a) • • •

(1) Ground rents, taxes, special assessments, flood insurance premiums, if required, and fire and other hazard insurance premiums:

. . . . . .

(Sec. 222, National Housing Act; 12 U.S.C. 1715m)

Effective date: These amendments shall become effective with respect to commitments for mortgage insurance issued pursuant to applicantions filed on and after January 1, 1973.

Issued at Washington, D.C. November 20, 1972.

JOHN L. GANLEY,
Deputy Assistant Secretary for Housing Production and Mortgage Credit.

Title 29—LABOR

Subtitle A—Office of the Secretary of Labor

PART 58—RULES OF PRACTICE OF THE NATIONAL REVIEW PANEL, WORK INCENTIVE PROGRAM

There is added to Title 29, Code of Federal Regulations, a new Part 58, Rules of Practice of the National Review Panel, Work Incentive Program, which sets up procedures for appeals at the National level arising out of the Work Incentive Program.

As this part is procedural in character, notice of proposed rulemaking is not required by 5 U.S.C. 553. Delay in the effective date is contrary to the public interest as appeals should not be delayed 30 days for lack of a procedure. Accordingly, this Part 58 shall be effective upon publication.

The new Part 58 reads as follows:

Sec.
58.1 Definitions.
58.2 Appeals where a State does not provide for an appellate procedure.
58.3 Appeals from State appellate bodies.
58.4 Request for NRP to accept certification.
58.5 Review by NRP of cases certified at its request.
58.6 Consideration by and decisions of the NRP.
58.7 Service and filing of papers.
58.8 Motions.
58.9 Intervention.
58.10 Amicus curiae.
58.11 Representation.
58.12 Right to examine transcripts.
58.13 Finality of decisions.

AUTHORITY: The provisions of this Part 58 issued under 5 U.S.C. 301; 42 U.S.C. 633(g); Secretary's Order No. 24-72.

§ 58.1 Definitions.

As used in these rules and regulations:

(a) "Act" means title IV of the Social Security Act as amended by Public Law 92-223, December 28, 1971.

(b) "AFDC" (Aid to Families with Dependent Children) means a program authorized by title IV of the Social Security Act to provide financial assistance and social services to needy families with children.

(c) "DOL" means the U.S. Department of Labor.

(d) "Exempt" means an AFDC recipient who is not legally required to register for employment or training under the WIN program.

(e) "NRP" means National Review Panel which is comprised of the DOL Chief Administrative Law Judge and eight (8) Administrative Law Judges appointed pursuant to Administrative Procedure Act requirements and designated by the Chief Judge to serve as members of the panel.

(f) "Participant" means a registrant who has been appraised and for whom an employability plan has been initiated by local WIN project and Separate Administrative Unit staff.

(g) "Registrant" means an AFDC recipient who has registered for manpower services, training, and employment as provided by the Act.

(h) "Registration" means the process whereby an AFDC applicant or recipient signs a completed registration card.

(i) "Secretary" means the Secretary of Labor.

(j) "State agency administering hearings in that State" means that State agency which is responsible for the hearings conducted by State hearing officers, State welfare hearing officers, and the State appellate body.

(k) "State appellate body" means the body provided by the State WIN sponsor or State welfare agency to review decisions of the hearing officer.

(l) "State hearing officer" means the hearing officer provided by the State WIN sponsor to hear and decide disputes arising out of (1) registrants'/participants' refusal or failure to accept employment or to participate in a work incentive program without good cause and (2) of exemption redeterminations of previously registered individuals.

(m) "State welfare hearing officer" means the hearing officer provided by the State welfare agency, as agent of DOL, to hear and decide disputes arising out of initial registration and nonexemption determinations under section 402(a)(19)(A) of the Act.

(n) "WIN" means the Work Incentive Program.

(o) "WIN sponsor" means the State Employment Service or other public or nonprofit private agency with which the Regional Manpower Administrator for the DOL contracts to administer the WIN program at the State or local level.

§ 58.2 Appeals where State does not provide for an appellate procedure.

Pursuant to §§ 57.8 and 57.9(c)(1) of this subtitle the NRP shall consider and decide appeals from State hearing officer or State welfare hearing officer decisions filed directly with it by aggrieved individuals, WIN project sponsors, or State welfare agencies where the State does not provide for an appellate procedure.

(a) *Who may appeal.* Any individual who is a party to the proceeding and is adversely affected by the decision, WIN project sponsors, or, State welfare agencies may appeal from State hearing officer decisions where the dispute arises out of a refusal or failure to accept employment or to participate in a work incentive program without good cause or out of an exemption redetermination. The same parties may appeal from State welfare hearing officer decisions concerning disputes arising out of initial registration and exemption determinations under section 402(a)(19)(A) of the Act.

(b) *Contents of the appeal.* The appeal must be in writing and may be in the form of a letter addressed to the National Review Panel or may be submitted on forms supplied with the State hearing officer or State welfare officer decision. It should contain a statement of reasons in support of the appeal. While such statement may be brief, it must be more than a mere statement that appellant disagrees with the hearing officer's decision. The hearing officer's decision should be attached to the appeal.

(c) *Time of filing.* The appeal must be filed within fifteen (15) days following the date of service of the hearing officer's written decision. An appeal filed by persons residing in the Commonwealth of Puerto Rico, the Virgin Islands, or Guam shall be filed within thirty (30) days following the date of service of the hearing officer's written decision.

(d) *Place of filing and number of copies.* The appeal from the hearing officer's decision shall be sent to the National Review Panel, U.S. Department of Labor, Washington, D.C. 20210. Whenever possible, a copy of the appeal should be sent or delivered to all other parties to the proceeding, including the State agency administering hearings in that State, and the appeal should list the names and addresses of the persons to whom copies were sent or delivered.

(e) *Response to appeal.* Any other party to the proceeding who wishes to respond to the appeal or comment thereon may send a response to the National Review Panel, U.S. Department of Labor, Washington, DC 20210, in support of or in opposition to the appeal. The response must be sent within seven (7) days after having received notification that an appeal has been filed. The response should contain a full statement of reasons in support of the position taken by the party filing the response. Whenever possible a copy of the response should be sent to all other parties to the proceeding, including the State agency administering hearings in that State.

(f) *Certification of the record.* Within fifteen (15) days of the filing of an appeal, the State agency administering hearings shall certify and file with the NRP the transcript of the hearing in writing together with all documents and exhibits and a copy of the hearing officer's decision. The State agency shall prepare and include an index of the documents transmitted and shall immediately serve a copy of the index on all parties to the proceeding.

§ 58.3 Appeals from State appellate bodies.

Pursuant to § 57.9(c)(4) of this subtitle the NRP at its discretion may consider and decide appeals from decisions of State appellate bodies. The NRP will grant an application that it review such decisions only where compelling reasons exist, including, but not limited to, situations where the case raises novel or substantial issues of law or policy.

(a) *Who may request review.* Any individual who is a party to the proceeding and is adversely affected by the decision; the WIN project sponsor; or, the State welfare agency may file a request for review of decisions of State appellate bodies.

(b) *Contents of the request for review.* The request that the National Review Panel review the decision of a State appellate body must be in writing and should contain a statement of reasons in support of the request for review. While such statement may be brief, it must be more than a mere statement that appellant disagrees with the State appeals decision. A copy of the hearing officer's decision and the State appeals decision should be attached to the request for review.

(c) *Time of filing.* The request for review must be filed within fifteen (15) days following the date of service of the State appellate body's written decision. A request for review filed by persons residing in the Commonwealth of Puerto Rico, the Virgin Islands, or Guam shall be filed within thirty (30) days following the date of service of the appellate body's written decision.

(d) *Place of filing and number of copies.* The request for review should be sent to the National Review Panel, U.S. Department of Labor, Washington, DC 20210. Whenever possible a copy of the request for review should be sent or delivered to all other parties to the proceeding, including the State agency administering hearings in that State, and the appeal should list the names and addresses of the persons to whom copies were sent and delivered.

(e) *Response to request for review.* Any other party to the proceeding who wishes to respond to the request for review or to comment thereon may file a response with the National Review Panel, U.S. Department of Labor, Washington, DC 20210, in support of or in opposition to the request for review. The response must be sent within seven (7) days after having received notification that a request for review has been filed. The response should contain a full statement of reasons in support of the position taken by the party filing the response. Whenever possible, a copy of the response should be sent to all other parties to the proceeding, including the State agency administering hearings in that State.

(f) *Certification of record.* Upon written request to it from the NRP the State appellate body, within fifteen (15) days of the receipt of the request, shall certify and file with the NRP a complete record of the proceedings below including the transcript in writing of the hearing before the hearing officer together with all documents and exhibits; a copy of the hearing officer's decision; a copy of the decision of the State appellate body; and, any other papers and documents relevant to the proceedings. The State appellate body shall prepare and include an index of the documents transmitted and shall serve immediately a copy of said index on every other party to the proceeding before the State appellate body.

§ 58.4 Request for NRP to accept certification.

Pursuant to § 57.9(c)(2) of this subtitle the NRP, at its discretion, may consider and decide cases certified to it by State appellate bodies, or in the absence of a State appellate body, by the State hearing officer or State welfare hearing officer, because the case involves novel questions of law or policy.

(a) *Who may request the NRP to accept certification.* The State appellate body, or, in the absence of a State appellate body, the State hearing officer or State welfare hearing officer may file a request that the NRP accept certification of a case.

(b) *Contents of request for certification.* The request must contain the following:

(1) A concise statement of the novel question of law or policy which is the basis for the request to accept certification;

(2) A brief summary of the relevant facts and evidence;

(3) Pertinent rulings, conclusions, and decisions by the hearing officer and/or the appellate body, as the case may be; and

(4) All reasons and arguments in support of the request, including citation of applicable laws and case decisions.

A copy of any written decisions by the hearing officer or appellate body must be attached to the request.

(c) *Time of filing.* A request for the NRP to accept certification shall be filed as follows:

(1) By the State appellate body within five (5) days following issuance of its written decision.

(2) In the absence of a State appellate body, by the State hearing officer or Statewelfare hearing officer within five (5) days after issuance of his written decision.

(d) *Place of filing and number of copies.* The party filing a request to the NRP to accept certification of a case shall file the original and three (3) copies with the NRP, the National Review Panel, U.S. Department of Labor, Washington, DC 20210, and simultaneously shall serve copies on every other party to the proceeding, including the State agency administering hearings in that State.

(e) *Response to request that NRP accept certification.* Any party to the proceeding who wishes to respond to the request or to comment thereon may file a response with the NRP in support of or in opposition to the request. The response should contain a statement of all reasons in support of the position taken by the party filing the response and should be sent to the National Review Panel, U.S. Department of Labor, Washington, DC 20210, within seven (7) days following service of a request that the NRP accept certification. Whenever possible, a copy of the response shall be served on all parties to the proceeding, including the State agency administering hearings in that State.

(f) *Certification of the record.* Upon receipt of written notice from the NRP that it has accepted certification of the case the State appellate body or the hearing officer, whichever is applicable, within fifteen (15) days of receipt of the notification, shall certify and file with the NRP a complete record of the proceedings below including the transcript in writing of the hearing before the hearing officer together with all documents and exhibits; a copy of the hearing officer's decision; where appropriate, a copy of the decision of the State appellate body; and, any other papers and documents relevant to the proceedings. The State appellate body or hearing officer, whichever is applicable, shall prepare and include an index of the documents transmitted and shall serve immediately a copy of said index on every party to the proceeding.

§ 58.5 Review by NRP of cases certified at its request.

Pursuant to § 57.9(c)(3) of this subtitle the NRP may consider and decide cases which it, on its own motion, has requested a State appellate body, or in the absence of a State appellate body, the State hearing officer or State welfare hearing officer after he had issued his decision, to certify to it.

(a) *Basis of request to certify.* When the NRP considers a case to raise novel or substantial issues of law or policy or that it be in the interest of justice to do so, it may request that a case be certified to it.

(b) *Contents of request and time for filing.* Requests by the NRP for certification of a case to it shall be made no later than thirty (30) days after issuance of a written decision by the State appellate body or hearing officer, whichever is applicable. The request to certify shall be in writing and shall be served on the State appellate body or hearing officer, whichever is applicable, on the State agency administering hearings in that State, and on all parties to the proceeding.

(c) *Briefs.* In all cases, any party to a proceeding may file briefs with the NRP in support of its position. The NRP, if it deems it necessary to its consideration of a particular case, may request briefs from all the parties.

(d) *Time for briefs.* Briefs should be filed within ten (10) days from the date of service by the NRP of its request that a case be certified to it. However, in cases where the NRP itself requests briefs, a different time limit may be established by the NRP. Wherever possible, an original and three (3) copies of the brief should be filed with the National Review Panel, U.S. Department of Labor, Washington, DC 20210. At the same time, one (1) copy of the brief should be served on all parties to the proceeding, including the State agency administering hearings in that State.

(e) *Certification of record.* Within fifteen (15) days of receipt of the request to certify a case to the NRP, the State appellate body or hearing officer, whichever is applicable, shall certify and file with the NRP a complete record of the proceedings below and including the transcript in writing of the hearing before the hearing officer together with all documents and exhibits; a copy of the

decision of the State appellate body, and shall at the same time serve copies

in conformance herewith shall submit with the document a written statement

itself has requested certification. The request for intervention must state the grounds upon which such person claims

Motor carrier safety investigators of the Federal Highway Administration are vested with the authority to place de-

ments for the shipment of etiologic agents (37 F.R. 20554).

Numerous petitions for reconsidera-

decision of the State appellate body, where applicable; and, any other papers and documents relevant to the proceedings. The State appellate body or hearing officer, whichever is applicable, shall prepare and include an index of the documents transmitted and immediately shall serve a copy of said index on all parties to the proceedings.

§ 58.6 Consideration by and decisions of the NRP.

In considering appeals before it, the NRP may sit in panels of three members. The Chief Administrative Law Judge, DOL, may designate any Administrative Law Judge employed by DOL to review or hear a particular case and to submit his findings and recommendations to the NRP or any duly designated panel thereof.

(a) In considering appeals before it the NRP, a duly designated panel thereof, or the designated Administrative Law Judge may request the parties to submit additional written statements of position, hear oral argument or hold additional hearings where deemed necessary in the interests of justice.

(b) *Hearing or oral presentation.*

(1) Any party to an appeal may make application in writing for a hearing or oral presentation before the NRP. Such application shall set forth the reasons in support thereof and be made within five (5) days of:

(i) Service of notification of the filing of an appeal from the decision of a State hearing officer where the State does not provide for an appellate body; or

(ii) Service of notification that the NRP at its discretion has accepted an appeal from the decision of a State appellate body; or

(iii) Service of notification that the NRP has accepted certification of a case whether at its request or upon the application of a State appellate body or hearing officer.

(2) If a hearing or oral argument is directed, the notice thereof shall state the date, time, place, nature, and purpose of the hearing or oral argument. Such notice shall be served on the appellant and all other parties to the proceeding.

(3) At any hearing or oral argument so ordered, the NRP, the designated NRP panel, or the designated Administrative Law Judge may require or direct any party or person to appear to testify or produce evidence.

(4) Any party to the proceeding may appear personally or be represented by an attorney or agent.

(5) If a hearing is directed before an Administrative Law Judge, the findings and recommendations of the Administrative Law Judge designated to conduct the hearing shall be served on the appellant and all other parties to the proceeding. All parties may file with the NRP written exceptions and brief in support thereof within ten (10) days of service of the Administrative Law Judge's findings and recommendations and shall at the same time serve copies of such exceptions and brief on all other parties to the proceeding. Any exceptions filed shall refer to specific findings and recommendations of the Administrative Law Judge.

(c) *Decisions by the National Review Panel.* The NRP shall prepare as expeditiously as possible a written decision setting forth its findings, the reasons for its conclusions, and an appropriate order. The decision shall be based on the record below and any additional evidence submitted to or obtained by the NRP. The decision may consist of affirmance, reversal, remand for further development of the evidence, or other appropriate action. Copies of NRP decisions, including notification that the NRP has denied a request that it review a decision of a State appellate body and notification that NRP has accepted certification of a case, shall be served on all parties to the proceeding and such other persons as may be appropriate.

§ 58.7 Service and filing of papers.

In promulgating these rules of practice, the National Review Panel has attempted to protect the rights of those appellants who may be unable, for financial reasons or otherwise, to comply with the normal requirements of serving multiple copies of documents on the NRP and parties to the proceeding. It is with this in mind that the phrase "wherever possible" is used throughout these rules of practice when referring to service of copies. The speedy administration of justice will be assisted immeasurably, however, if all parties to these proceedings adhere to the service requirements set forth herein.

(a) *Manner of service.* All papers and documents, including appeals, requests for review, requests for NRP to accept certification, motions, briefs, exceptions, responses, NRP decisions, rulings and notices, may be served in the following manner: Personally; by registered mail; by certified mail; by telegraph; by leaving a copy thereof at the principal office, place of business, or residence, of the person to be served; or in any manner provided for the service of papers in the State in which the proceeding arose. Of the foregoing, service by registered mail is generally preferable. However, service by regular mail also shall be deemed acceptable, absent a showing of prejudice by any other party, and where the timeliness of mailing is not a material issue.

(b) *Date of service.* The date of service shall be the day when the material served is deposited in the United States mail or is delivered in person, as the case may be. In computing the time from such date, the provisions of paragraph (e) of this section apply.

(c) *Proof of service.* When service is made by certified or registered mail, the return post office receipt shall be proof of service. When service is made in another manner provided by State law, proof of service shall be made in accordance with such State law. The person or party serving documents on other parties in conformance herewith shall submit with the document a written statement of service thereof to the NRP stating the names of the parties served and the date and manner of service. Such proof of service shall be required by the NRP only if subsequent to the receipt of the statement of service a question is raised with respect to proper service. Failure to make proof of service does not affect the validity of the service.

(d) *Service on attorneys and representatives.* Whenever these rules require or permit the service of any papers upon a party, a copy shall also be served on any attorney or other representative of the party who has entered a written appearance in the proceedig on behalf of the party. If a party is represented by more than one attorney or representative, service upon any one of such persons in addition to the party shall satisfy this requirement.

(e) *Computation of time; additional time after service by mail or by telegraph.* The computation of periods of time is based on "calendar" days and not "workdays," unless otherwise stated.

(1) In computing any period of time prescribed or allowed by these rules, the day of the act, event, or default after which the designated period of time begins to run is not to be included. The last day of the period so provided is to be included unless it is a Saturday, Sunday or a legal holiday, in which event the period runs until the end of the next day, which is neither a Saturday, Sunday nor a legal holiday.

(2) When the period of time provided is less than seven (7) days, intermediate Saturdays, Sundays, and holidays shall be excluded from the computation.

(3) Whenever a period of time is provided herein to take some action following service of a notice or some other paper and the notice or paper is served by mail or by telegraph, three (3) days shall be added to the prescribed period.

(4) All documents to be served on the NRP, including appeals, requests for review, requests for NRP to accept certification of a case, motions, briefs, exceptions, or other papers in any proceeding, must be received by the NRP or its agent designated to receive such matter before the close of business of the last day of the time limit provided.

§ 58.8 Motions.

All motions shall be in writing and filed with the National Review Panel, U.S. Department of Labor, Washington, DC 20210. Whenever possible, a copy of the motion should be filed with all other parties to the proceeding.

§ 58.9 Intervention.

Any person desiring to intervene in any proceeding shall file a motion in writing with the National Review Panel, U.S. Department of Labor, Washington, DC 20210, within seven (7) days of the date on which the NRP has notified the parties of receipt of an appeal, request for review, or request for certification, or has notified the parties that the NRP itself has requested certification. The request for intervention must state the grounds upon which such person claims an interest. The NRP may permit intervention in person or by counsel or other representative to such extent and upon such terms as it may deem proper.

§ 58.10 Amicus curiae.

The NRP, upon petition of an interested person and as it deems appropriate, may grant permission for the filing of a brief and/or oral argument by an amicus curiae and the parties shall be notified of such action by the NRP.

§ 58.11 Representation.

An individual may represent himself or be represented upon satisfactory proof of authorization, by legal counsel or by other spokesmen of his choice in any proceeding arising out of section 402(a)(19)(A) or part C of the Act.

§ 58.12 Right to examine transcripts.

Testimony at hearings conducted by State agencies shall be mechanically recorded. It shall be transcribed only as needed or when the hearing officer's decision is to be reviewed by an appellate body in the State or by the NRP. Parties shall have the right to examine, upon request, a copy of the transcript during normal working hours at the local office of the WIN agency, if it has a copy, or at a place designated by the agency conducting these hearings in the State.

§ 58.13 Finality of decisions.

The National Review Panel is the highest level of administrative appeal and its decision shall be the final decision of the Secretary in all cases considered and received by it. Final decisions of the Secretary shall be binding on all affected parties as to the subject matter reviewed and shall not be subject to review by any other Federal or State agency, or hearing officer.

Signed at Washington, D.C., this 17th day of November 1972.

H. STEPHAN GORDON,
Chairman, National Review Panel Work Incentive Program.

Title 49—TRANSPORTATION

Subtitle A—Office of the Secretary of Transportation

[OST Docket No. 16, Amdt. 99-5]

PART 99—EMPLOYEE RESPONSIBILITIES

List of Persons Required To File Financial Statements

The purpose of this amendment to Part 99 is to revise Appendix C—List of Employees Required to Submit Statements of Employment and Financial Interest, Under § 99.735-31, to add to the list the position of Motor Carrier Safety Investigator, GS-9/12.

Motor carrier safety investigators of the Federal Highway Administration are vested with the authority to place defective vehicles out of service. Such action by the investigators, often working without individual supervision, can result in a substantial economic impact on the motor carrier and driver. Ordinarily no employee below the grade of GS-13 is required to submit a statement of employment and financial interest. Because of the special nature of the investigators' functions, the requirement is being applied to them. Since this is a deviation from past practice, however, the Department will review the situation within one year to determine whether the statements required from the investigators are serving to prevent or correct any problems.

Part 99 was issued to implement Executive Order 11222 and Part 735 of the Civil Service Commission regulations and each amendment must be approved by the Commission before issuance. This amendment was approved by the Civil Service Commission on September 13, 1972.

Since this amendment relates to Departmental management, procedures, and practices, notice and public procedure thereon are not required, and it may be effective in less than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Part 99 of Title 49 of the Code of Federal Regulations is amended, effective November 22, 1972, by revising Appendix C to add to the list under "IV. Federal Highway Administration, Field Installations", the following:

Motor Carrier Safety Investigator, GS-9/12.

(Executive Order 11222 (30 F.R. 6469), sec. 9, Department of Transportation Act, 49 U.S.C. 1657)

Issued in Washington, D.C., on November 22, 1972.

JAMES M. BEGGS,
Acting Secretary of Transportation.

NOVEMBER 22, 1972.

Chapter I—Department of Transportation

SUBCHAPTER A—HAZARDOUS MATERIALS REGULATIONS BOARD

[Docket No. HM-96; Amdts. 172-17, 173-67]

PART 172—COMMODITY LIST OF HAZARDOUS MATERIALS CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 170–189 OF OF THIS CHAPTER

PART 173—SHIPPERS

Etiologic Agents; Postponement of Effective Date

On September 30, 1972, the Hazardous Materials Regulations Board published Amendments 172-17 and 173-67 in Docket No. HM-96 establishing requirements for the shipment of etiologic agents (37 F.R. 20554).

Numerous petitions for reconsideration have been received by the Board because the regulation does not permit the shipment of cultures of etiologic agents on passenger-carrying aircraft. The Board has reviewed these petitions, and on the basis of the arguments for change presented to it, has proposed a modification of the regulations. See page 25243 of this FEDERAL REGISTER for the text of the Board's proposed change.

Since the Board's action cannot be completed by December 30, 1972, the previously specified effective date of the subject regulation, the Board has changed the mandatory effective date for Amendments 172-17 and 173-67 from December 30, 1972 to March 31, 1973. However, voluntary compliance continues to be authorized.

Issued in Washington, D.C., on November 24, 1972.

Secretary.

[FR Doc.72-20476 Filed 11-28-72;8:50 am]

Chapter V—National Highway Traffic Safety Administration, Department of Transportation

[Docket No. 71-21; Notice 4]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Lamps, Reflective Devices and Associated Equipment

This notice amends 49 CFR 571.108, *Standard No. 108; Lamps, Reflective Devices, and Associated Equipment*, to specify minimum photometric-candlepower requirements for motorcycle turn signal lamps.

Standard No. 108 was amended on October 7, 1972 (37 F.R. 21328), effective January 1, 1973, to specify, in part, that turn signal lamps are not required to meet the minimum photometric values at each test point specified in table 2 of SAE Standard J575d, "Tests for Motor Vehicle Lighting Devices and Components," if the sum of the candlepower measured at the test points within the groups listed in figure 1 is not less than the sum of the candlepower values for such test points specified in J575d. Effective January 1, 1973, Class B turn signal lamps are required on motorcycles, and the minimum photometric candlepower values for such lamps are one-half those required for Class A turn signals. The amendment failed to make this distinction, and this notice corrects the omission.

In consideration of the foregoing, paragraph S4.1.1.12 of 49 CFR 571.108, Motor Vehicle Safety Standard No. 108, is amended to read as follows:

S4.1.1.12 A tail lamp, stop lamp, or turn signal lamp is not required to meet the minimum photometric values at each test point specified in Table 2 of SAE Standard J575d, "Tests for Motor Vehicle Lighting Devices and Components," if

XUM V37-230 NOV 29 72 XUM

the sum of the candlepower measured at the test points within the groups listed in Figure 1 is not less than the sum of the candlepower values for such test points specified in J575d, or, for motorcycle turn signal lamps, one-half of such sum. A lamp with two or three lighted compartments, or a lamp that is part of an array of two or three lamps used in a single design location to perform a single function, manufactured from January 1, 1973 to September 1, 1974, need only meet the group value total specified in Figure 1 for single compartment or single lamps.

Effective date: January 1, 1973. Because the amendment creates no additional burden it is found for good cause shown that an effective date earlier than 180 days after issuance is in the public interest.

(Secs. 103, 119, National Traffic and Motor Vehicle Safety Act of 1966, 15 U.S.C. 1392, 1407; Delegation of authority from the Secretary of Transportation to the National Highway Traffic Safety Administrator, 49 CFR 1.51)

Issued on November 21, 1972.

DOUGLAS W. TOMS,
Administrator.

Chapter X—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Second Rev. S.O. 1105, Amdt. 1]

PART 1033—CAR SERVICE

Distribution of Boxcars

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 22d day of November 1972.

Upon further consideration of Service Order No. 1105 (37 F.R. 22377), and good cause appearing therefor:

It is ordered, That: § 1033.1105 *Service Order No. 1105* (Distribution of Boxcars) be, and it is hereby, amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., January 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., November 30, 1972.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[S.O. 1107, Amdt. 1]

PART 1033—CAR SERVICE

Lehigh Valley Railroad Co. Authorized To Operate Over Tracks of Penn Central Transportation Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 20th day of November 1972.

Upon further consideration of Service Order No. 1107 (37 F.R. 16549), and good cause appearing therefor:

It is ordered, That: § 1033.1107 *Service Order No. 1107* (Lehigh Valley Railroad Co., John F. Nash and Richard C. Haldeman, trustees, authorized to operate over tracks of Penn Central Transportation Co., George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirtz, trustees) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., February 28, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., November 30, 1972.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[Rev. S.O. 1110, Amdt. 2]

PART 1033—CAR SERVICE

Penn Central Transportation Co. Required To Restore Service at the Buttonwood (Wilkes-Barre), Pennsylvania, Gateway

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 22d day of November 1972.

Upon further considerationof Revised Service Order No. 1110 (37 F.R. 19616 and 22871), and good cause appearing therefor:

It is ordered, That: § 1033.1110 *Revised Service Order No. 1110* (Penn Central Transportation Co., George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirtz, trustees, required to restore service at the Buttonwood (Wilkes-Barre), Pa., gateway and to reroute traffic originally routed via that gateway) be, and it is hereby, amended by substituting the following paragraphs (a) and (e) for paragraphs (a) and (e) thereof:

(a) The Penn Central Transportation Co., George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirtz, Trustees (Penn Central) be, and it is hereby, ordered to restore service via its p.m., September 15, 1972, and, as to paraway on or before December 29, 1972.

* * * * *

(e) *It is further ordered,* That this order shall become effective at 11:59 p.m., Septemer 15, 1972, and, as to paragraph 1033.1110(b), shall expire at 11:59 p.m., December 29, 1972, unless sooner vacated by order of this Commission upon restoration of service through the Buttonwood (Wilkes-Barre) gateway.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Department of the Interior

PART 33—SPORT FISHING

Audubon National Wildlife Refuge, N. Dak.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (11–29–72).

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

AUDUBON NATIONAL WILDLIFE REFUGE

Lake Audubon, within Audubon National Wildlife Refuge is open to all fishing December 16, 1972, through March 25, 1973, and is closed from March 26 through December 15, 1973.

Sport fishing on the Audubon National Wildlife Refuge, Coleharbor, N. Dak., is permitted on all water areas throughout the refuge. The water area, comprising 5,900 acres is delineated on maps available at refuge headquarters or at the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Sport fishing shall be in accordance with all applicable State regulations subject to the following conditions:

(1) The open season for sport fishing on the refuge extends from December 16, 1972, through March 25, 1973, inclusive.

The provision of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through March 25, 1973.

DAVID C. MCGLAUCHLIN,
Refuge Manager, Audubon National Wildlife Refuge, Coleharbor, N. Dak.

NOVEMBER 21, 1972.

V37-230 NOV 29 72 XUM V

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 58]

NONFAT DRY MILK, SPRAY AND ROLLER PROCESS

Proposed Standards for Grades; Grade Not Assignable

Notice is hereby given that the U.S. Department of Agriculture is considering the issuance as hereinafter provided, of amendments to the U.S. Standards for Grades of Nonfat Dry Milk (Spray and Roller Process). This grade standard is issued under authority of the Agriculture Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621) which provides for the issuance of official U.S. Grades to designate different levels of quality for the voluntary use of producers, buyers and consumers. Official grading service is provided under this Act upon request of the applicant and upon payment of a fee to cover the cost of the service.

The proposed amendments provide under Subparts L and M, §§ 58.2529 and 58.2554, respectively, "U.S. Grade Not Assignable" for a reduction in the direct microscopic bacterial count level of nonfat dry milk from 150 to 100 million per gram on which a U.S. grade will be assigned.

Statement of consideration. In 1969, an amendment was issued to the U.S. Standards for Grade of Nonfat Dry Milk (Spray and Roller Process) lowering the maximum level for which a U.S. grade would be assigned from 200 million to 150 million.

Since that time, records on nonfat dry milk graded by USDA, which represent about 53 percent of U.S. production, have shown improvements in the quality of milk used for manufacturing purposes and in processing methods. Nonfat dry milk graded by USDA shows a decrease in the numbers of carlots which exceed 100 million. The amount exceeding this figure was 2.6 percent of the total nonfat dry milk graded from October 1969 to September 1972. This percentage compares very favorably with the 3.5 percent that exceeded 150 million in the period studied from 1966 to 1968 when the last reduction was made in 1969.

It is the opinion of USDA that another reduction in the direct microscopic bacterial count level will further improve the quality of nonfat dry milk and recognize the efforts of those in industry who have been moving forward in quality improvement of the milk supply and processing methods.

Announcing the proposal at this time with a proposed effective date of April 1, 1973, will give industry sufficient time for compliance.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same in duplicate with the Hearing Clerk, Room 112, Administration Building, Washington, D.C. 20250, not later than 60 days from the date of publication in the FEDERAL REGISTER. All written submissions pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed amendments are as follows:

1. Change Subpart L, § 58.2529 U.S. Grade not assignable, to read as follows:

§ 58.2529 U.S. Grade not assignable.

Nonfat dry milk which fails to meet the requirements for U.S. Standard Grade and or shows a direct microscopic clump count exceeding 100 million per gram shall not be assigned a U.S. grade.

2. Change Subpart M, § 58.2554, U.S. Grade not assignable, to read as follows:

§ 58.2554 U.S. Grade not assignable.

Nonfat dry milk which fails to meet the requirements for U.S. Standard Grade and or shows a direct microscopic clump count exceeding 100 million per gram shall not be assigned a U.S. grade.

Effective date. It is proposed that these amendments shall become effective April 1, 1972.

Done at Washington, D.C., this 24th day of November 1972.

JOHN C. BLUM,
Acting Administrator.

[FR Doc.72-20511 Filed 11-28-72;8:53 am]

Agricultural Stabilization and Conservation Service

[7 CFR Part 812]

SUGAR IN HAWAII AND PUERTO RICO

Proposed Requirements and Quotas for Local Consumption for Calendar Year 1973

Notice is hereby given that the Administrator, Agricultural Stabilization and Conservation Service, pursuant to authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, as amended; 7 U.S.C. 1101), is considering the determination of sugar requirements and the establishment of quotas for local consumption in Hawaii and Puerto Rico for the calendar year 1973.

In accordance with the rule making requirements in 5 U.S.C. 553, all persons who desire to submit written data, views, or arguments for consideration in connection with the proposed regulation may file the same in duplicate with the Director, Sugar Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, DC 20250, on or before December 18, 1972. All written submissions made pursuant to this notice will be made available for public inspection at such time and places and in a manner convenient to the public business (7 CFR 1.27(b)).

The proposed determination of sugar requirements and quotas for Hawaii and Puerto Rico for the calendar year 1973, set forth in form and language appropriate for issuance if adopted by the Secretary, is as follows:

Basis and purpose. The purpose of Sugar Regulation 812 is to determine pursuant to sections 201 and 203 of the Sugar Act of 1948, as amended (hereinafter referred to as the "Act"), the amount of sugar needed to meet the requirements of consumers in Hawaii and in Puerto Rico and to establish quotas for local consumption in such areas for the calendar year 1973. To the extent required by section 201 of the Act, this regulation establishes sugar requirements based on official estimates of the Department of Agriculture and on statistics published by other agencies of the Government.

Since the Act provides that the Secretary of Agriculture determine sugar requirements for local consumption in Hawaii and in Puerto Rico and establish local consumption quotas to be effective on January 1, 1973, it is found to be impracticable and not in the public interest to comply with the 30-day effective date requirements in 5 U.S.C. 553(d) (80 Stat. 378), and these regulations shall be effective January 1, 1973.

Sec.
812.1 Sugar requirements and quota—Hawaii.
812.2 Sugar requirements and quota—Puerto Rico.
812.3 Restrictions on marketing.

AUTHORITY: The provisions of these §§ 812.1 through 812.3 issued under sec. 403, 61 Stat. 932; 7 U.S.C. 1153, secs. 201, 203, 209, 211, 61 Stat. 923, as amended, 925, 928; 7 U.S.C. 1111, 1113, 1119, 1121.

§ 812.1 Sugar requirements and quota—Hawaii.

It is hereby determined, pursuant to section 203 of the Act, that the amount of sugar needed to meet the requirements of consumers in Hawaii for the calendar year 1973 is 50,000 short tons, raw value, and a quota of 50,000 short tons, raw value, is hereby established for Hawaii for local consumption for the calendar year 1973.

§ 812.2 Sugar requirements and quota—Puerto Rico.

It is hereby determined, pursuant to section 203 of the Act, that the amount of sugar needed to meet the requirements of consumers in Puerto Rico for the calendar year 1973 is 140,000 short tons, raw value, and a quota of 140,000 short tons, raw value, is hereby established for Puerto Rico for local consumption for the calendar year 1973.

§ 812.3 Restrictions on marketing.

Pursuant to section 209 of the Act, for the calendar year 1973 all persons are hereby prohibited from marketing, pursuant to Part 816 of this chapter (33 F.R. 8495), in Hawaii or in Puerto Rico, for consumption therein, any sugar or liquid sugar after the quota for the area for the calendar year 1973 has been filled. Pursuant to section 211(c) of the Act, the quota for each area may be filled only with sugar produced from sugarcane grown in the respective area, except as provided in section 204(c). Furthermore, pursuant to section 211(c) of the Act, sugar may be unladed from a carrier and brought into a foreign trade zone for manipulating therein or manufacturing therein another product for the subsequent entry into Hawaii or Puerto Rico for consumption only if such sugar is charged, pursuant to S.R. 816, to the applicable respective local quota.

Statement of bases and consideration. Pursuant to section 203 of the Act, the determination of the amounts of sugar needed to meet the requirements of consumers in Hawaii and in Puerto Rico relate to (1) the quantities of sugar distributed for local consumption in Hawaii and in Puerto Rico during the 12-month period ended September 30, 1972, (2) deficiencies or surpluses in inventories of sugar, and (3) changes in consumption because of changes in population and demand conditions.

The quantities of sugar distributed for consumption in Hawaii and in Puerto Rico, including that which was lost in refining after charge to the local quotas, during such 12-month period are estimated to have been approximately 38,000 short tons of sugar, raw value, and 125,000 short tons of sugar, raw value, respectively.

Based on the latest U.S. Census data available, the population of Hawaii as of July 1, 1972, was 809,000 and the population of Puerto Rico as of April 1, 1970, was 2,712,000.

In Hawaii industrial use accounts for a substantial portion of the total consumption of sugar and this demand is a significant factor in the total sugar requirements. During the period 1962 through 1972 the annual sugar consumption in this area has varied from approximately 92.3 to 130.0 pounds, raw value, per person. These wide year-to-year variations suggest the possibility that requirements could be higher in 1973 than in the 12 months ended September 30, 1972, when sugar marketings approximated 38,000 short tons, raw value.

In Puerto Rico during the 12 months ended September 30, 1972, marketings of sugar for local consumption totaled approximately 125,000 short tons, raw value. After making allowance for possible consumption increases in 1973 resulting from probable population increases, the total sugar needed to meet requirements for local consumption in Puerto Rico in 1973 may be approximately 140,000 short tons, raw value.

Circumstances prevailing in the utilization of quota for local consumption in Hawaii and Puerto Rico are such that no special problems arise nor are the objectives of the Act jeopardized if the 1973 local quotas are not completely filled. It is, therefore, desirable to establish the 1973 requirements and quotas sufficiently high initially so that later adjustments may be avoided.

In accordance with the above, the requirements for local consumption in Hawaii and Puerto Rico for 1973 have been determined to be 50,000 and 140,000 short tons, raw value, respectively.

Signed at Washington, D.C., on November 22, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

DEPARTMENT OF COMMERCE

Office of the Secretary

[15 CFR Part 7]

UPHOLSTERED FURNITURE

Notice of Finding That Flammability Standard or Other Regulation May Be Needed and Institution of Proceedings

Finding. Pursuant to section 4(a) of the Flammable Fabrics Act, as amended (Sec. 3, 81 Stat. 569; 15 U.S.C. 1193) and § 7.5 of the Flammable Fabrics Act Procedures (33 F.R. 14642, October 1, 1968), and upon the basis of investigations or research conducted pursuant to section 14 of the Flammable Fabrics Act, as amended (sec. 10, 81 Stat. 573; 15 U.S.C. 1201), it is hereby found that a flammability standard or standards, or other regulation, including labeling, may be needed for upholstered furniture, and fabrics or related materials intended to be used, or which may reasonably be expected to be used, in these products, to protect the public against unreasonable risk of the occurrence of fire leading to death or personal injury, or significant property damage.

There now exists no national flammability standard for upholstered furniture affording the general public protection from an unreasonable risk of fire. Upholstered furniture, therefore, may be produced and made available for consumer purchase which through ordinary use would present such foreseeable hazards as continuous slow burning or smoldering and the resultant production of smoke or toxic atmospheres leading to death, injury, or significant property damage.

Bases for Need. A detailed analysis of the 130 upholstered furniture ignition incidents in the National Bureau of Standards' Flammable Fabrics Accident Case and Testing System (FFACTS) in April 1972 indicates the following:

a. The ignition sequence was known in 114 of the 130 incidents. Upholstered furniture was the first product ignited in 93 (81 percent) of these 114 incidents.

b. Of the 118 individuals directly involved in the 130 incidents, 74 were injured.

c. Thirty-three of these 74 individuals died as a result of their injuries.

d. Of the 118 persons directly involved, 91 persons became involved because of their own or someone else's smoking.

e. Cigarettes (77.9 percent) and unknown smoking materials (8.1 percent) were the ignition sources in 74 of the 86 incidents in which upholstered furniture was the first product ignited and the ignition source was known. In seven of the 93 incidents in which upholstery was the first to ignite the ignition source was unknown.

In addition to the foregoing, data obtained from public safety organizations and State and local fire departments indicate that upholstered furniture fires constitute an important category of fabric fires and cause major injury and economic losses. A study conducted between 1966 and 1968 by the National Fire Protection Association has indicated that smoking on upholstered furniture was responsible for over 16 percent of the single fatality nonclothing fires studied, for which the causes of ignition were known and stated. ("Single Fatality Fire," an NFPA Fire Record Department Study, "Fire Journal," January 1969.)

In a 1970 report on fires in Oregon involving furniture, furnishings, and clothing where loss occurred, bedding and upholstery material were the initial material ignited in 60.9 percent of the cases; upholstered furniture was the first material ignited in over 23 percent of these cases, with the remaining 37.5 percent attributed to mattresses or bedding ignitions. (Annual Statistical Report for the Calendar Year 1970—published in 1971, C. Walter Stickney, State Fire Marshal, Salem, Oreg.) In a New York State report, bedding and furniture fabric ignitions constituted 59 percent of the cases involving casualties and 52.6 percent of the reported fabric ignition death cases. Of these New York statistics, furniture fabric and furnishings accounted for 21.9 and 17.5 percent of the cases resulting in injuries and deaths, respectively, with the remainder of the cases attributed to bedding ignitions. (New York State Department of Health Burns Care Institute—Prevention Program "Reported Flammable Fabrics Episodes, 1967–1971".)

Institution of proceedings.—Pursuant to section 4(a) of the Flammable Fabrics

V37-230 NOV 29 72 XUM

XUM

V 37 I 230 NOV 29 72 XUM

Act, as amended (sec. 3, 81 Stat. 569; 15 U.S.C. 1193) and 7.6(a) of the Flammable Fabrics Act Procedures (33 F.R. 14642, October 1, 1968), notice is hereby given of the institution of proceedings for the development of an appropriate flammability standard or standards, or other regulation, including labeling, for upholstered furniture, and fabrics or related materials intended to be used, or which may reasonably be expected to be used, in these products.

Participation in Proceedings.—All interested persons are invited to submit written comments or suggestions within 30 days after the date of publication of this notice in the FEDERAL REGISTER relative to (1) the above finding that a new flammability standard or standards, or other regulation, including labeling, may be needed; and (2) the terms or substance of a flammability standard or standards, or other regulation, including labeling, that might be adopted in the event that a final finding is made by the Secretary of Commerce that such a standard or standards, or other regulation, are needed to adequately protect the public against the unreasonable risk of the occurrence of fire leading to death, injury, or significant property damage. Written comments or suggestions should be submitted in at least four (4) copies to the Assistant Secretary for Science and Technology, Room 3862, U.S. Department of Commerce, Washington, DC 20230, and should include any data or other information pertinent to the subject.

Inspection of Relevant Documents.—The written comments received pursuant to this notice will be available for public inspection at the Central Reference and Records Inspection Facility of the Department of Commerce, Room 7043, Main Commerce Building, 14th Street between E Street and Constitution Avenue NW., Washington, DC 20230.

A supporting document is available for inspection in the above facility. The document contains in more detail the data which are summarized in the preceding portions of this notice.

Issued: November 24, 1972.

RICHARD O. SIMPSON,
Acting Assistant Secretary for Science and Technology.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 146a]

PROCAINE PENICILLIN G IN OIL

Proposed Revised Labeling; Certification of Penicillin and Penicillin-Containing Drugs

The Commissioner of Food and Drugs has received a petition from G. C. Hanford Manufacturing Co., Post Office Box 1055, Syracuse, NY 13201, requesting that the regulations for procaine penicillin G in oil be amended to delete the requirement that inactive ingredients be listed on the labeling of such products intended for udder instillation in cattle.

The Commission of Food and Drugs has evaluated the petition and has concluded that there are adequate grounds to grant the requested exemption in that the inactive ingredients in such formulations are not of concern to the user and that such exemption would not be contrary to the public interest.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(n)(5), 82 Stat. 351; 21 U.S.C. 360b(n)(5)) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that Part 146a, be amended in § 146a.45(c)(2)(i) as follows:

§ 146a.45 Procaine penicillin G in oil.

. . . . . .

(c) . . .

(2) *It is packaged for dispensing and intended solely for veterinary use.* (i) If it does not contain adrenocorticotropic hormone, it shall comply with subparagraph (1) of this paragraph, except in lieu of the statement "Caution: Federal law prohibits dispensing without prescription" each package shall include adequate directions and warnings for the veterinary use of the drug by the laity. If it is intended for udder instillation in cattle, it shall be exempt from the requirements of § 1.106(b)(2)(v) of this chapter.

[Regs. 5]

FEDERAL HEALTH INSURANCE PROGRAM FOR THE AGED

Workmen's Compensation Exclusion

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553) that amendments to the regulations as set forth below in tentative form are proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments would provide (1) that where workmen's compensation does not cover all of the medical and hospital services furnished a medicare beneficiary, payment will be made under title XVIII for medicare services furnished which were not covered by the workmen's compensation payment, (2) that where a lump sum compromise settlement of a workmen's compensation claim does not specify the portion of the lump sum attributable to hospital and medical expenses, a formula is furnished for establishing the amount of the lump sum intended as payment of hospital and medical expenses for purposes of the workmen's compensation exclusion, and (3) that where a workmen's compensation claim is contested, payment will be made under title XVIII pending a final decision on the workmen's compensation claim, provided the intermediary or carrier obtains a subrogation agreement as assurance that medicare will be reimbursed in the event the workmen's compensation claim is allowed.

Prior to the final adoption of the proposed regulations, consideration will be given to any data, comments, objections, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, DC 20201, within a period of 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 3193, 330 Independence Avenue SW., Washington, DC 20201.

The proposed amendments are to be issued under the authority contained in sections 1102, 1861, 1863, 1864, and 1871, 49 Stat. 647, as amended, 79 Stat. 314; 42 U.S.C. 1302, 1395 et seq.

Dated: March 3, 1972.

ROBERT M. BALL,
Commissioner of Social Security.

Approved: November 21, 1972.

ELLIOT L. RICHARDSON,
Secretary of Health, Education, and Welfare.

Regulations No. 5 of the Social Security Administration, as amended (20 CFR 405), are further amended as follows:

1. Paragraphs (a) and (b) of § 405.316 are revised to read as follows:

§ 405.316 Nonreimbursable expenses; payment for services made under workmen's compensation law.

(a) Payment may not be made under title XVIII of the Act with respect to any item or service to the extent that payment has been made, or can reasonably be expected to be made, under a workmen's compensation law or plan of the United States or a State. However, where payment for any item or service may not be made by workmen's compensation because furnished by a source not authorized to provide such item or service under the workmen's compensation program, payment for such item or service may be made under title XVIII of the Act if otherwise covered. See § 405.317 (d), (e), and (f) for situations in which payment may be made under title XVIII for services for which payment is not made under the workmen's compensation award.

(b) Any payment under title XVIII of the Act with respect to any item or service shall be made on the condition that repayment will be made to the supplementary medical insurance trust fund or the hospital insurance trust fund, as appropriate, if information is received that payment for the item or srevice has been made under a workmen's compensation law or plan of the United States or a State.

. . . . . .

2. Section 405.317 is revised to read as follows:

§ 405.317 Effect of workmen's compensation payment.

(a) *Spell of illness.* A period of inpatient hospital or extended care services for which title XVIII payment may not be made because of § 405.316(a) will be considered in determining whether a spell of illness has begun or has ended (see section 1861(a) of the Act).

(b) *Expenses paid by workmen's compensation.* Services for which payment may not be made because of § 405.316(a) shall not be considered in determining:

(1) The 90-day limitation on inpatient hospital services in each spell of illness (see § 405.110(a)(1)).

(2) The additional 60 lifetime reserve days of inpatient hospital services (see § 405.110(a)(2)).

(3) The 100-day limitation on post-hospital extended care services in each spell of illness (see § 405.120(b)).

(4) The 190-day lifetime limitation for inpatient psychiatric hospital services (see § 405.110(d)).

(5) The 100 home health visits limitation under Part A or Part B of title XVIII (see § 405.130).

(6) The days for which payment for inpatient hospital services or post-hospital extended care services is reduced by the applicable deductible or coinsurance amount (see §§ 405.113, 405.115, and 405.124).

(c) *Deductibles and coinsurance.* Payments made under workmen's compensation cannot be counted toward the deductibles or coinsurance provisions of title XVIII. Thus, if an individual is hospitalized twice in the same spell of illness and the first hospitalization is completely paid for under workmen's compensation, the inpatient hospital deductible would apply to the second hospitallization. In the same way, medical expenses otherwise reimbursable under Part B must first be reduced by any workmen's compensation payment before applying the deductible and coinsurance provisions.

(d) *Limitation in workmen's compensation law on number of days of care or total amount payable.* Certain workmen's compensation programs specify limits on the number of days of care for which payment can be made or the total amount that can be paid for medical care under workmen's compensation with respect to a compensable injury. Services provided after these limits have been reached may be paid for under title XVIII of the Act subject to the deductible and coinsurance requirements. Where services have been furnished after such workmen's compensation limits have been reached, the following rules apply in determining the services for which payment may be made under title XVIII of the Act:

(1) The workmen's compensation payment for such services shall be allocated at the normal workmen's compensation rate of payment to those services furnished first in time until the workmen's compensation benefits are exhausted. Any services otherwise covered under title XVIII of the Act and not paid for under workmen's compensation after such allocation has been made may be paid for under title XVIII, subject to the program provisions as to reasonable cost and to any applicable deductible or coinsurance amounts.

Example. A beneficiary received 60 days of inpatient hospital services for an injury that is compensable under workmen's compensation. This is the beneficiary's first hospital stay in the spell of illness. The hospital's customary all-inclusive charge for inpatient services in semiprivate accommodations is $50 per day and the workmen's compensation payment is made on the basis of customary charges. Under the workmen's compensation law of the State, however, $1,500 is the maximum that can be paid for these services.

The $1,500 workmen's compensation payment would be allocated to the first 30 days of services and the remaining 30 days of that hospital stay would be reimbursable under title XVIII of the Act. The hospital would receive under title XVIII its full reasonable costs for the remaining 30 days less the inpatient hospital deductible. The beneficiary would be charged with 30 days utilization of inpatient hospital services in that spell of illness.

(2) Where the workmen's compensation payment for the last day to which it can be applied is less than the cost of the services provided on that day, payment may be made under Title XVIII of the Act for the difference between the workmen's compensation payment and the reasonable cost of the services furnished subject to any applicable deductible or coinsurance amounts. Such a day would be charged to the beneficiary's utilization record (except where lifetime reserve days are involved).

Example. A beneficiary received 45 days of inpatient hospital services for an injury that is compensable under workmen's compensation. This is the beneficiary's first hospital stay in the spell of illness. The hospital's customary all-inclusive charge for inpatient services in semiprivate accommodations is $60 per day and the workmen's compensation payment is made on the basis of customary charges. Under the workmen's compensation law of the State, however, $1,525 is the maximum that can be paid for these services.

The $1,525 workmen's compensation payment would be allocated as follows: $1,500 to the first 25 days of service and $25 towards the 26th day. The hospital would receive under Title XVIII of the Act its full reasonable costs for the last 20 days less the inpatient hospital deductible and the $25 paid by workmen's compensation for the 26th day. The beneficiary would be charged with 20 days utilization of inpatient hospital services in that spell of illness.

(e) *Patient received semiprivate accommodations but workmen's compensation paid only for ward accommodations.* (1) *Workmen's compensation pays customary charges for ward accommodations.* Where a beneficiary is furnished semiprivate accommodations but the workmen's compensation plan pays the hospital's customary charges for ward accommodations, payment under Title XVIII of the Act is limited to the amount by which the hospital's reasonable cost of furnishing semiprivate accommodations exceeds the hospital's customary charges for ward accommodations at the time of the stay.

(2) *Workmen's compensation pays special rate for ward accommodations.* Where a beneficiary is furnished semiprivate accommodations but the workmen's compensation plan pays only for ward accommodations at a special rate which is less than the hospital's customary charge for ward accommodations, it is assumed, in the absence of evidence to the contrary, that the special rate paid by the workmen's compensation program is deemed payment in full for ward accommodations under the State workmen's compensation law. In such case, payment under Title XVIII of the Act is limited to the amount by which the hospital's reasonable cost of furnishing semiprivate accommodations exceeds the hospital's customary charges for ward accommodations at the time of the stay. In cases, however, where the special rate paid by the workmen's compensation program is not deemed payment in full for ward accommodations, payment under Title XVIII is limited to the amount by which the reasonable cost of semiprivate accommodations exceeds the workmen's compensation payment.

Example. A beneficiary was furnished semiprivate accommodations at X Hospital for an illness that is covered under the workmen's compensation program. The workmen's compensation program pays only for ward accommodations ($50 per day). X Hospital's reasonable cost of furnishing semiprivate accommodations is $52. X Hospital is entitled to receive $2 per day reimbursement under Title XVIII (the $52 per day reasonable cost of semiprivate accommodations less the $50 per day paid by workmen's compensation).

If the workmen's compensation program paid a special rate of $40 per day for ward accommodations, which amount is deemed payment in full for ward accommodations under State law, X Hospital would still be

entitled to receive an additional $2 per day reimbursement under Title XVIII (the $52 per day reasonable cost of semiprivate accommodations less the $50 per day customary charge for ward accommodations).

(3) *Utilization days charged.* Where a beneficiary is furnished semiprivate accommodations and the workmen's compensation plan pays only for ward accommodations (at either the hospital's customary rate for ward accommodations or at a special rate which is less than the hospital's customary charge for such accommodations), the beneficiary is charged with utilization on a pro rata basis (based on the proportion which the payment made under Title XVIII of the Act bears to the total payment for the period during which these accommodations were furnished).

(f) *Workmen's compensation does not pay for certain ancillary services.* Sometimes an individual who is receiving inpatient hospital services for a work injury which is covered under workmen's compensation may also receive ancillary services for a condition which is not work-related, e.g., laboratory services or medication for a preexisting condition. In such cases, if the workmen's compensation plan pays for all of the hospital expenses related to the work injury (including the room and board charges) but not for the ancillary services which are not work-related, Title XVIII benefits may be paid for such ancillary services, subject to the Part A deductible or the Part B deductible and coinsurance provisions. The beneficiary would not be charged with utilization for the days on which these services were received.

Example. An individual was hospitalized for 20 days due to a work-related injury. His bill included $1,100 in charges for room and board and other items and services related to the work injury and $65 in laboratory and medication charges for services in connection with a preexisting condition. Workmen's compensation paid the $1,100 in charges for services related to the work injury, but did not pay the $65 in laboratory and medication charges for the preexisting condition. Since the $65 in charges for laboratory services and medication are not covered under workmen's compensation, Title XVIII benefits may be paid for such expenses subject to any applicable deductible and coinsurance provisions. The individual would not be charged with utilization for the day or days on which the services were received.

3. Sections 405.318–405.320 are revised to read as follows:

§ 405.318 Responsibility of the individual concerning workmen's compensation payment.

The individual is responsible for taking whatever action is necessary to obtain payment under workmen's compensation where payment under that system can reasonably be expected. Failure to take proper and timely action under such circumstances will preclude payment under Title XVIII of the Act to the extent that payment could have been expected under workmen's compensation if such action had been taken. Thus, so long as the facts indicate a reasonable expectation that payment may be made under a workmen's compensation statute, the individual must exhaust his remedies under that system before any payment may be made under Title XVIII of the Act, except as specified in § 405.319(b). Where the time limit for taking action under workmen's compensation has expired and the intermediary determines that payment under workmen's compensation could reasonably have been expected if timely action had been taken, payment under Title XVIII of the Act will be precluded to the extent that the disease or injury for which Title XVIII payment is claimed would be compensable under workmen's compensation had timely action been taken. However, in the event a workmen's compensation claim is subsequently filed and denied solely for reasons other than the delay in filing, the decision denying Title XVIII benefits will be reopened, and, if otherwise appropriate, the Title XVIII claim will be allowed.

§ 405.319 Responsibility of intermediary where there is a possibility of workmen's compensation coverage.

(a) *Investigation of possible workmen's compensation coverage.* Where it appears that a claim submitted to an intermediary is for services furnished with respect to a disease or injury which may be compensable under a State or Federal workmen's compensation law or plan, the intermediary will undertake an investigation to ascertain the extent to which payment under Title XVIII of the Act may be precluded.

(b) *Conditional payment in appealed workmen's compensation cases.* If a title XVIII beneficiary, his employer, or a workmen's compensation carrier is appealing a decision as to the compensability under workmen's compensation of services for which benefits could be paid under Title XVIII in the absence of such compensability, conditional Title XVIII payments may be made (if otherwise appropriate) pending a final decision on the workmen's compensation claim provided:

(1) The intermediary obtains a subrogation agreement signed by the following:

(i) The workmen's compensation carrier or State Workmen's Compensation Commission or agency; and

(ii) The individual or his qualified representative; and

(iii) The provider, physician, or other person who furnished the services for which payment is to be made.

(2) The subrogation agreement provides that the workmen's compensation carrier or State Workmen's Compensation Commission or agency:

(i) Will notify the intermediary promptly when a final decision is reached on the workmen's compensation claim; and

(ii) Will reimburse the intermediary the amount of the conditional payment made under Title XVIII up to the full amount of the workmen's compensation award, in the event that the services are found to be compensable.

§ 405.320 Effect of lump-sum settlement and final release.

Where a lump-sum settlement and final release of a workmen's compensation claim has been entered into and approved by the workmen's compensation board or agency, payment may be made under title XVIII of the Act for expenses incurred for covered services to the extent that such expenses cannot reasonably be deemed to have been reimbursed under the settlement. Therefore, where under the State law the signing of a final release of all rights under the workmen's compensation claim forecloses the possibility of further workmen's compensation benefits, medical expenses incurred thereafter are reimbursable under title XVIII, if otherwise covered, insofar as such medical expenses were not contemplated by and incorporated into the settlement.

4. Section 405.321 is added to read as follows:

§ 405.321 Apportionment of a lump-sum compromise settlement of a workmen's compensation claim.

(a) *General.* Where an individual receives a lump-sum payment as a compromise settlement of a workmen's compensation claim, which has been approved by the workmen's compensation agency, in accordance with the requirements of the State law, such payment shall be deemed a workmen's compensation payment for purposes of title XVIII, even if the settlement agreement stipulates that there is no liability under the workmen's compensation law.

(b) *Determining amount of compromise settlement attributable to medical and hospital expenses.* Where the compromise settlement specifies the items of medical expense covered by the lump-sum payment and has given reasonable recognition to the income replacement element, the apportionment so made shall be deemed conclusive and title XVIII payments may not be made for the same items of medical expense. However, where the settlement does not give recognition to both elements of a workmen's compensation award or does not apportion the sum granted, the portion of the workmen's compensation compromise settlement to be considered as payment for medical and hospital expenses will be calculated as follows:

(1) Determine the ratio which the amount awarded as a compromise settlement (less the reasonable and necessary costs incurred in procuring the settlement) bears to the commuted value of the total amount which would have been payable under workmen's compensation if the claim had not been compromised.

(2) Multiply the total medical and hospital expenses incurred as a result of the injury or disease up to the date of the settlement by such ratio. The product will be deemed to be the amount of the workmen's compensation settlement intended as payment for medical and hospital expenses.

Example: As the result of an injury which was compensable under the State workmen's compensation law an individual suffered a loss of income and incurred hospital and medical expenses for which the commuted value of the total workmen's compensation payment would have been $7,200 had the case not been compromised. The medical and hospital expenses amounted to $6,000. The workmen's compensation carrier made a settlement with the beneficiary under which it paid $2,400 in toto. A separate award was made for legal fees. Since the workmen's compensation compromise settlement was for one-third of the amount which would have been payable under workmen's compensation had the case not been compromised ($\frac{2400}{7200}=\frac{1}{3}$), the workmen's compensation compromise settlement is deemed to have paid for one-third of the total medical and hospital expenses ($\frac{1}{3}\times\$6{,}000=\$2{,}000$).

(c) *Determination of amount of medical expenses reimbursable under title XVIII.* The amount of the workmen's compensation award deemed as payment for medical and hospital expenses (obtained in paragraph (b) of this section) is applied at the prevailing workmen's compensation rate of payment in that jurisdiction, first to those medical and hospital services covered under workmen's compensation but not covered under title XVIII of the Act, then to expenses covered under workmen's compensation and under Part B, and last to expenses covered under workmen's compensation and under Part A. Any remaining medical and/or hospital expenses incurred up to the date of settlement and all medical and/or hospital expenses incurred after the date of settlement shall be deemed not reimbursed under workmen's compensation and therefore reimbursable under title XVIII of the Act.

Example: In the example in paragraph (b) of this section, the $6,000 in hospital and medical expenses included $3,400 in hospital services reimbursable under Part A, $2,100 in expenses for which payment would have been available under Part B, and $500 in expenses for services not reimbursable under title XVIII. The amount of title XVIII benefits payable would be figured as follows: The $2,000 of the compromise workmen's compensation settlement considered as payment for medical and hospital expenses would be applied first to the $500 in noncovered services; the remaining $1,500 would be applied to the $2,100 in expenses for which payment would have been available under Part B. The remaining $600 of such expenses would be reimbursable under Part B of title XVIII and all of the $3,400 in hospital expenses would be reimbursable under Part A, subject to the regular deductible and coinsurance requirements. It is assumed in this example that the expenses specified above as incurred by the individual are the amounts which would be paid by the workmen's compensation carrier for such services. If this is not the case, the services should be charged against the lump-sum payment at the usual workmen's compensation rate. No title XVIII payment will be made for any items so charged.

[FR Doc.72-20452 Filed 11-28-72;8:48 am]

DEPARTMENT OF TRANSPORTATION

Hazardous Materials Regulations Board

[49 CFR Part 173]

[Docket No. HM-96; Notice 72-13]

ETIOLOGIC AGENTS

Shipment on Passenger-Carrying Aircraft

On September 30, 1972, the Hazardous Materials Regulations Board published Amendments 172-17 and 173-67 in Docket No. HM-96 establishing requirements for the shipment of etiologic agents.

The regulation permits the shipment of diagnostic specimens and biological products on passenger-carrying aircraft. However, it does not permit the shipment of cultures of etiologic agents on such aircraft. These cultures are presently being transported on passenger-carrying aircraft and prior to the above amendment they were not prohibited.

The Board has received many petitions for reconsideration indicating that the proposed change in transportation conditions would seriously and detrimentally affect the timely response and diagnostic capability of many laboratories involved in the protection of the public health. This position was expressed to the Board by numerous State health agencies, by the American Society of Clinical Pathologists, the American Type Culture Collection, the College of American Pathologists, the Association of State and Territorial Laboratory Directors, The Mycological Society of America, the Institute for Medical Research, The American Association of Immunologists, the American Society for Medical Technology, the American Society for Microbiology, the Infectious Diseases Society of America, the Association of Schools of Public Health, Inc., the American Association of Bioanalysts, a large number of hospitals, clinics, Federal health agencies, and several individual members of the medical profession.

One commenter, the Center for Disease Control, Health Services and Mental Health Administration, U.S. Department of Health, Education, and Welfare, summarized part of the problem by stating that "• • • [a]s an example, the physicians who live in areas not served by cargo-only carriers will be forced to rely on surface transportation to carry cultures to laboratories for determination of antibiotic resistance of cultured bacterial isolates—knowledge which is essential for correct treatment. Loss of time due to slower surface transportation delays the treatment of the patient. In addition, some agents are so sensitive that they may perish if their arrival is delayed in any way. Other problems such as changes in the required degree of acidity, etc., which already cause difficulties in the shipment of microbiologic cultures, will be increased as time between shipment and receipt is lengthened. • • •" This type of concern and statements that the level of protection for public health would be seriously affected permeated the dozens of comments received by the Board.

The Center for Disease Control petitioned that the regulations be amended to permit cultures of etiologic agents in volumes of less than 50 milliliters (1.666 fluid ounces) to be transported on passenger-carrying aircraft. They stated that "• • • [b]ased on our past experience with over 100,000 shipments of etiologic agents annually, our scientific knowledge of these agents, and the public health need for their rapid movement, you are assured that undelayed shipments of cultures of etiologic agents in quantities less than 50 ml. are in the interest of public health, and that the hazard to passengers or crews of aircraft is infinitesimal. • • •"

Throughout this proceeding, the Board has relied on information supplied by the Center for Disease Control because of its expertise in the knowledge and handling of these agents. Based on the information it now has, the Board proposes to modify its regulations and to adopt the proposal of the U.S. Health Services and Mental Health Department. This action would have no effect on the present Department of Health, Education, and Welfare regulations on etiologic agents which continue to apply to the packaging of these substances.

In consideration of the foregoing, 49 CFR Part 173 would be amended as follows:

Paragraph (d) in § 173.386 would be amended by adding paragraph (3) to read as follows:

§ 173.386 Etiologic agents; definition and scope.

• • • • • •

(d) • • •

(3) Cultures of etiologic agents of less than 50 milliliters (1.666 fluid ounces) total quantity in one outside package.

• • • • • •

Interested persons are invited to give their views on this proposal. Communications should identify the docket number and be submitted in duplicate to the Secretary, Hazardous Materials Regulations Board, Department of Transportation, 400 Sixth Street SW., Washington, DC 20590. Communications received on or before January 23, 1973 will be considered before final action is taken on the proposal. All comments received will be available for examination by interested persons at the Office of the Secretary, Hazardous Materials Regulations Board, both before and after the closing date for comments.

This proposal is made under the authority of sections 831–835 of Title 18, United States Code, section 9 of the Department of Transportation (49 U.S.C. 1657), and Title VI and section 902(h) of the Federal Aviation Act of 1958 (49 U.S.C. 1421–1430 and 1472(h), 1655(c)).

V 37-230 NOV 29 72 XUM

Issued in Washington, D.C. on November 24, 1972.

W. J. BURNS,
Director,
Office of Hazardous Materials.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 180]

DIURON

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities

Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick, N.J. 08903, on behalf of the IR-4 Technical Committee and the Agricultural Experiment Stations of California, Delaware, Florida, Georgia, New Jersey, New York, North Carolina, South Carolina, and Virginia submitted a petition (PP 2E1263), proposing establishment of a tolerance for residues of the herbicide diuron (3-(3,4-dichlorophenyl)-1,1-dimethylurea) in or on the raw agricultural commodity peaches at 0.1 part per million.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The herbicide is useful for the purpose for which the tolerance is proposed.

2. There is no reasonable expectation of residues in eggs, meat, milk, or poultry, and § 180.6(a)(3) applies.

3. The proposed tolerance of 0.1 part per million is at a negligible level and will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), it is proposed that § 180.106 be amended by revising the paragraph "0.1 part per million * * *" as follows:

§ 180.106 Diuron; tolerances for residues.

* * * * *

0.1 part per million (negligible residue) in or on bananas, nuts, and peaches.

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, within 30 days after publication hereof in the FEDERAL REGISTER, that this proposal be referred to an advisory committee in accordance with section 408(e) of the act.

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, Fourth and M Streets SW., Waterside Mall, Washington, DC 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. All written submissions made pursuant to this proposal will be made available for public inspection at the office of the Hearing Clerk.

Dated: November 20, 1972.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72-20417 Filed 11-28-72;8:45 am]

[41 CFR Part 15-15]

CONTRACT COST PRINCIPLES AND PROCEDURES

Advance Understandings on Particular Cost Items

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that pursuant to the Federal Property and Administrative Services Act of 1949, as amended, the Environmental Protection Agency is considering an amendment to 41 CFR Chapter 15, Subpart 15-15.107, adding new Agency policy requiring advance agreements with the contractor as to the extent of allowability of payment for each individual expert or consultant, proposed as an element of cost under the contract, prior to contract award.

Interested parties may submit, in triplicate, written comments concerning the proposed amendment, to the Contracts Management Division, AMAC, Environmental Protection Agency, Washington, DC 20460. Communications received within 30 days from publication of this proposal in the FEDERAL REGISTER will be considered prior to adoption of the final regulation. A copy of each communication received will be placed on file for public inspection in the Contracts Management Division, Room 413, Waterside Mall West, Washington, DC 20460.

Dated: November 21, 1972.

WILLIAM D. RUCKELSHAUS,
Administrator.

Subpart 15-15.107—Advance Understandings on Particular Cost Items

§ 15-15.107.1 Professional services.

(a)(1) *Scope of subpart.* This subpart states EPA policy requiring advance agreements with the contractor, covering the extent of allowability of payments for each individual expert or consultant proposed as an element of cost under negotiated contracts. This subpart does not apply to the cost of experts or consultants hired under contracts for personal services as defined in EPPR 15-55.102(b).

(2) *Definition of experts and consultants.* For the purpose of this subpart, the term "experts" and "consultants" shall include those persons acting as individual agents, who are exceptionally qualified, by education or by practical experience in a particular field and who give professional advice or services regarding matters in the field of their special knowledge.

(3) *Policy.* (i) It is the policy of the Agency that prior to award of all negotiated contracts, an advance agreement shall be reached with the contractor covering the extent of allowability of payment for each individual expert or consultant, proposed as an element of cost under the contract. The agreement reached shall be made part of the contract schedule in all cost-reimbursement type contracts and shall set forth the maximum payment allowable for the specific individual expert or consultant. Where fixed price contracts are negotiated on the basis of cost or pricing data, the expert or consultant rates agreed to in establishing the price shall be documented in the contract file.

(ii) The maximum amount or rate of payment of the individual expert or consultant shall be determined on a case-by-case basis, taking into account the relative importance of the duties to be performed, the stature of the individual in his specialized field, comparable pay for positions under the Classification Act or other Federal pay systems, rates paid by private employers, and rates previously paid other experts or consultants for similar work. Compensation shall not exceed the highest rate fixed by the Classification Act pay schedule for GS-18.

(4) *Exceptions.* The foregoing policy may be waived by the chief officer responsible for procurement at the contracting activity, whenever he determines and justifies in writing that the waiver is in the best interest of the Agency. However, this exception does not apply to situations where the experts or consultants are hired under contracts for personal services as defined in EPPR 15-55.102(b). Also see EPPR 15-55.206(e).

PRINTERS' RUBBERIZED BLANKETS FROM THE UNITED KINGDOM

Determination of Sales at Not Less Than Fair Value

NOVEMBER 24, 1972.

On September 21, 1972, there was published in the FEDERAL REGISTER a "Notice of tentative negative determination" (37 F.R. 19654) that printers' rubberized blankets from the United Kingdom are not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)) (referred to in this notice as "the Act").

The statement of reasons for the tentative determination was published in the above-mentioned notice and interested parties were afforded an opportunity to make written submissions and to present oral views in connection with the tentative determination.

No written submissions or requests to present oral views having been received, I hereby determine that, for the reasons stated in the tentative determination, printers' rubberized blankets from the United Kingdom are not being, nor likely to be, sold at less than fair value (section 201(a) of the Act; 19 U.S.C. 160(a)).

This determination is published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)) and § 153.33(c), Customs Regulations (19 CFR 153.33(c)).

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[S 5337]

CALIFORNIA

Notice of Proposed Withdrawal and Reservation of Lands

NOVEMBER 20, 1972.

The Bureau of Land Management, U.S. Department of the Interior, has filed an application, Serial No. S 5337, for the withdrawal of public lands described below, from appropriation under the public land laws including the mining laws but not from leasing under the mineral leasing laws. The lands will be used for picnic, campground, and trailhead areas.

On or before December 30, 1972, all persons who wish to submit comments, suggestions, or objections in connection with the proposed protective withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, U.S. Department of the Interior, Room E-2841, Federal Office Building, 2800 Cottage Way, Sacramento, CA 95825.

The Department's regulations provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. Adjustments will be made as necessary to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN, CALIFORNIA

T. 17 N., R. 9 E., M.D. Meridian,
Sec. 19, Lots 1 and 2, NE¼, E½NW¼.

The area aggregates 321-40 acres.

WALTER F. HOLMES,
Chief, Branch of Lands and Minerals Operations.

OLYMPIC NATIONAL PARK

Notice of Intention To Extend Concession Contract

Pursuant to the provisions of section 5, of the Act of October 9, 1965; (79 Stat. 969; 16 U.S.C. 20) public notice is hereby given that 30 days after the date of publication of this notice, the Department of the Interior, through the Director of the National Park Service, proposes to extend the concession contract with Carl G. and Isabel Hansen authorizing them to provide concession facilities and services for the public within the Log Cabin Lodge area of Olympic National Park, for a

V 37-230 NOV 29 72 XUM

period of 2 years from January 1, 1973, through December 31, 1974.

The foregoing concessioners have performed their obligations under the expiring contract to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, are entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted within 30 days after the publication date of this notice.

Interested parties should contact the Chief of Concessions Management, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed contract.

Dated: November 20, 1972.

GRAIN STANDARDS

Cancellation of Maine Inspection Point

Statement of considerations. On August 22, 1972, there was published in the FEDERAL REGISTER (37 F.R. 16884) a notice announcing that as of July 1, 1972, the Maine Department of Agriculture ceased providing official grain inspection services under the U.S. Grain Standards Act (7 U.S.C. 71 et seq.), at Augusta, Maine. Interested organizations and persons were given until September 21, 1972, to make application for designation to operate an official inspection agency at Augusta, Maine. Members of the grain industry were given until September 21, 1972, to submit views and comments and to include the name of the person or agency which they recommend to operate an official inspection agency at Augusta, Maine.

No comments were received with respect to the August 22, 1972, notice in the FEDERAL REGISTER. Therefore, the designation of the Maine Department of Agriculture as the official grain inspection agency at Augusta, Maine, is canceled and no official inspection agency is designated under section 3(m) of the U.S. Grain Standards Act (7 U.S.C. 75(m)) to operate at Augusta, Maine. This notice does not preclude interested organizations and persons making application later for designation to operate an official inspection agency at Augusta, Maine, in accordance with the requirements in section 26.97 of the regulations (7 CFR 26.97) under the U.S. Grain Standards Act.

Done in Washington, D.C., on November 24, 1972.

JOHN C. BLUM,
Acting Administrator.

CLINTON L. BRACKETT

Notice of Loan Application

NOVEMBER 22, 1972.

Clinton L. Brackett, Townsend Avenue, Boothbay Harbor, Maine 04538, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a new fiber glass vessel, about 42 feet in length, to engage in the fishery for lobsters, shrimp, and groundfish.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

Social and Economic Statistics Administration

CENSUS ADVISORY COMMITTEE ON STATE AND LOCAL GOVERNMENT STATISTICS

Notice of Public Meeting

The Census Advisory Committee on State and Local Government Statistics will convene on December 8, 1972 at 9:30 a.m. The Committee will meet in room 2113, Federal Building 3, at the Bureau of the Census in Suitland, Md.

The Census Advisory Committee on State and Local Government Statistics was established in October 1948 to advise the Director, Bureau of the Census on planning current work and various censuses of governments, and to advise on where the needs of users of the statistics could be served better.

The Committee is composed of 10 members appointed by the Secretary of Commerce, and five members appointed by the organization they represent.

The agenda for the meeting is: (1) A panel discussion on Revenue Sharing; (2) Status report on the 1972 Census of Governments; and (3) Panel review of Current and Special Statistics of Governments.

A limited number of seats—approximately 15—will be available to the public. A brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing at least 3 days prior to the meeting.

Persons wishing to submit questions or statements, planning to attend the meeting, or wishing additional information should contact Mrs. Aileen Ashbaugh, Bureau of the Census, Room 2416, Federal Building 3, Suitland, MD. (Mail Address: Washington, D.C. 20233). Telephone: (301) 763-5262.

Dated: November 22, 1972.

HAROLD C. PASSER,
Assistant Secretary for
Economic Affairs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[DESI 9861; Docket No. FDC-D-495; NDA 9-861, etc.]

CERTAIN CARDIOVASCULAR PREPARATIONS

Notice of Withdrawal of Approval of New Drug Applications

On August 25, 1972, there was published in the FEDERAL REGISTER (37 F.R. 17226) notice of opportunity for hearing (DESI 9861) in which the Commissioner of Food and Drugs proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the new drug applications for the subject drugs in the absence of substantial evidence that these fixed combination drugs will have the effect they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling or that each component of the combinations contributes to the total effects claimed for the drugs.

On September 22, 1972, McNeil Laboratories, holder of NDA 9-921 Butiserpine tablets and NDA 10-646 Butiserpine R-A tablets, elected to avail itself of the opportunity for a hearing on the two drugs. This request for a hearing is under review and will be the subject of a future publication in the FEDERAL REGISTER.

Concerning Mephoserp tablets (reserpine and mephobarbital), reviewed by the National Academy of Sciences-National Research Council, Drug Efficacy Group, and listed in the notice of August 25, 1972, Nysco Laboratories has stated that the drug has not been manufactured since 1965. It was not the subject of an approved new drug application.

None of the holders of the following new drug applications or any other interested person have filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes an election by such persons not to avail themselves of the opportunity for a hearing:

1. NDA 9-861; Nembu-Serpin tablets and Nembu-Serpin ½ strength tablets containing reserpine and calcium pentobarbital; Abbott Laboratories, 14th and Sheridan Road, North Chicago, IL 60064.

2. NDA 11-191; Harmonyl-N tablets and Harmonyl-N half-strength tablets containing deserpidine and calcium pentobarbital; Abbott Laboratories.

3. NDA 10-456; Butiserpine Elixir containing reserpine and sodium butabarbital; McNeil Laboratories, Inc., Camp Hill Road, Fort Washington, PA 19034.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug applications reviewed and are subject to this notice. See 21 CFR 130.40 (37 F.R. 23185 October 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Md. 20852.

The Commissioner of Food and Drugs, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended, 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds on the basis of new information before him with respect to said drugs, evaluated together with the evidence available to him when the applications were approved, that there is a lack of substantial evidence that the drugs will have the effects they purport or are represented to have under the conditions of use prescribed, recommended or suggested in the labeling thereof.

Therefore, pursuant to the foregoing finding, approval of the above new drug applications, and all amendments and supplements applying thereto is withdrawn effective on the date of publication hereof in the FEDERAL REGISTER (11-28-72). Shipment in interstate commerce of any of the above-listed drug products or of any identical, related, or similar product, not the subject of an approved new drug application, is henceforth unlawful.

Dated: November 21, 1972.

SAM D. FINE,
Associate Commissioner
for Compliance.

[FR Doc.72-20463 Filed 11-28-72;8:49 am]

[DESI 11255; Docket No. FDC-D-566; NDA 6-547, etc.]

CERTAIN COMBINATION DRUGS CONTAINING ANTACIDS WITH ANTICHOLINERGICS

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications

In an announcement (DESI 11255) published in the FEDERAL REGISTER of September 8, 1972 (37 F.R. 18225), the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on the following drugs:

1. Modutrol tablets containing pipethanate hydrochloride, scopolamine methylnitrate, aluminum hydroxide, and magnesium hydroxide; Reed & Carnrick, 30 Boright Avenue, Kenilworth, NJ 07033 (NDA 11-255).

2. Estomul tablets containing orphenadrine hydrochloride, bismuth aluminate, magnesium oxide, aluminum hydroxide, and magnesium carbonate; Riker Laboratories, Inc., Division Dart Inc., 19901 Nordhoff Street, Northridge, CA 91324 (NDA 12-830).

3. Estomul liquid containing orphenadrine hydrochloride, bismuth aluminate, aluminum hydroxide, and magnesium carbonate; Riker Laboratories, Inc. (NDA 12-830).

4. Alzinox compound tablets and Magma containing dihydroxy-aluminum aminoacetate, phenobarbital, and homatropine methylbromide; Smith, Miller & Patch, Inc., 401 Joyce Kilmer Avenue, New Brunswick, NJ 08902 (NDA 6-547).

The announcement stated that these fixed combination drugs lack substantial evidence of effectiveness for their recommended uses and that drugs containing an anticholinergic with an antacid are not appropriate for administration as fixed-dose combinations within the guidelines set forth in the Statement of General Policy or Interpretation § 3.86 Fixed-combination prescription drugs for humans, published in the FEDERAL REGISTER of October 15, 1971 (36 F.R. 20037), and that the Commissioner of Food and Drugs intended to initiate proceedings to withdraw approval of the new drug applications for the drugs.

Interested persons were invited to submit pertinent data bearing on the proposal within 30 days following publication of the announcement. No data providing substantial evidence of effectiveness have been received.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the

XUM
V37-230 NOV 29 72 V
XUM

drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 F.R. 23185 October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, Md. 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

Within 30 days after publication hereof in the FEDERAL REGISTER the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within said 30 days will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, within 30 days after publication of this notice in the FEDERAL REGISTER, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after the expiration of such 30 days, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052–53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: November 21, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–20468 Filed 11–28–72;8:49 am]

[Dockets Nos. FDC–D–438; NADA 3–161V and NADA 3–162V]

HAVER-LOCKHART LABORATORIES

Certain Phenothiazine-Containing Products; Notice of Withdrawal of Approval of New Animal Drug Applications

In the FEDERAL REGISTER of September 27, 1972 (37 F.R. 20189), the Commissioner of Food and Drugs published a notice proposing to withdraw approval of new animal drug application (NADA) No. 3–161V for Phenothiazine tablets and NADA No. 3–162V for Phenothiazine Suspension (Red); marketed by Haver-Lockhart Laboratories, Box 390, Shawnee Mission, KS 66201.

Haver-Lockhart Laboratories waived an opportunity for a hearing. Therefore, based on the grounds set forth in the cited notice of opportunity for a hearing, the Commissioner concludes that approval of said new animal drug applications should be withdrawn. Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 3–161V and NADA No. 3–162V, including all amendments and supplements thereto, is hereby withdrawn effective on the date of publication of this document (11–29–72).

Dated: November 21, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–20470 Filed 11–28–72;8:49 am]

[Docket No. FDC–D–507; NADA 7–461V, 9–009V]

NELSON LABORATORIES, INC., AND MERCK SHARP & DOHME RESEARCH LABORATORIES

Certain Drug Products Containing Sulfaquinoxaline; Notice of Withdrawal of Approval of New Animal Drug Applications

In the FEDERAL REGISTER of September 22, 1972 (37 F.R. 19839), the Commissioner of Food and Drugs published a notice proposing to withdraw approval of new animal drug application (NADA) No. 7–461V for Sulfaquinoxaline Solution; marketed by Nelson Laboratories, Inc., 404 East 12th Street, Sioux Falls, SD 57101 and NADA No. 9–009V for S. Q. Tablet and Bolus; marketed by Merck Sharp & Dohme Research Laboratories, Division of Merck & Co., Inc., Rahway, NJ 07065.

Neither the above named firms nor any other interested persons have filed a written appearance in response to the above cited notice within said 30 days. This is construed as an election by said persons not to avail themselves of the opportunity for a hearing.

Therefore, based on the grounds set forth in said notice of opportunity for a hearing, the Commissioner concludes that approval of said new animal drug applications should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 7–461V and NADA No. 9–009V, including all amendments and supplements thereto, is hereby withdrawn effective on the date of publication of this document (11–29–72).

Dated: November 21, 1972.

[DESI 11562; Docket No. FDC–D–511; NDA 11–562]

PFIZER LABORATORIES

Carbetapentane Citrate Jel; Notice of Withdrawal of Approval of New Drug Application

On August 25, 1972 there was published in the FEDERAL REGISTER (37 F.R. 17227) a notice of opportunity for hearing (DESI 11562) in which the Commissioner of Food and Drugs proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the new drug application for the following drug:

NDA 11–562; Candette Cough Jel containing carbetapentane citrate; Pfizer Laboratories Division, Pfizer Inc., 235 East 42d Street, New York, NY 10017.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 F.R. 23185, October 31, 1972). Any person who wished to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, Md. 20852.

Neither Pfizer Laboratories nor any other interested person has filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes an election by such persons not to avail themselves of the opportunity for a hearing.

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that new evidence not contained in the new drug application or not available to the Commissioner until after the application was approved, evaluated together with the evidence available to him when the application was approved, reveals that the drug is not shown to be safe for use under the conditions of use upon the basis of which the application was approved. Specifically, the risks involved in its use outweigh any expected benefits in that inexact methods of determining dosage (of a gel) are potentially dangerous, particularly in the care of small children.

Therefore, pursuant to the foregoing findings, approval of new drug application 11–562 and all amendments and supplements applying thereto is withdrawn effective on the date of publication hereof in the FEDERAL REGISTER. Shipment in interstate commerce of the above-listed drug product or of any identical, related, or similar product, not the subject of an approved new drug application, is henceforth unlawful.

Dated: November 21, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–20469 Filed 11–28–72;8:49 am]

[DESI 97; Docket No. FDC–D–509; NDA 97 etc.]

ROCHE LABORATORIES AND AMERICAN PHARMACEUTICAL CO.

Certain OTC Multiple-Vitamin Preparations for Oral Use; Notice of Withdrawal of Approval of New Drug Applications

On September 13, 1972 there was published in the FEDERAL REGISTER (37 F.R. 18576) an announcement and notice of opportunity for hearing (DESI 97) in which the Commissioner of Food and Drugs proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the new drug applications for the following products:

1. NDA 97; Cal-C-Tose Powder containing in each serving 2,000 units vitamin A, 2 mg. vitamin B_1, 1 mg. vitamin B_2, 75 mg. vitamin C, 500 units vitamin D, and 5 mg. niacinamide; formerly marketed by Roche Laboratories, Division of Hoffmann La Roche Inc., Nutley, NJ 07110.

2. NDA 336; Codanol Vitamin Liquid, each 5 ml., containing 4,000 USP units vitamin A palmitate, 1,000 USP units ergocalciferol, 2 mg. thiamine mononitrate, 2 mg. sodium riboflavin phosphate, 1 mg. pyridoxine hydrochloride, 3 mcgm. cyanocobalamin, 50 mg. ascorbic acid and 5 mg. niacinamide; formerly marketed by American Pharmaceutical Co., 120 Bruckner Boulevard, Bronx, NY 10454.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug applications reviewed and are subject to this notice. See 21 CFR 130.40 (37 F.R. 23185, October 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, Md. 20852.

The notice stated that, formulated as described, the benefit-to-risk ratio associated with the products is unfavorable.

Neither the holders of the applications nor any other person have filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes an election by such persons not to avail themselves of the opportunity for a hearing.

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that new evidence not contained in the new drug applications or not available to the Commissioner until after the applications were approved, evaluated together with the evidence available to him when the applications were approved, reveals that the products are not shown to be safe for use under the conditions of use upon the basis of which the applications were approved.

Therefore, pursuant to the foregoing findings, approval of the above new drug applications and all amendments and supplements applying thereto, is withdrawn effective on the date of publication hereof in the FEDERAL REGISTER (11–29–72). Shipment in interstate commerce of any of the above-listed drug products or of any identical, related, or similar product, not the subject of an approved new drug application, is henceforth unlawful.

Dated: November 21, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Health Services and Mental Health Administration

NATIONAL ADVISORY COUNCIL ON HEALTH MANPOWER SHORTAGE AREAS AND NATIONAL ADVISORY MENTAL HEALTH COUNCIL

Notice of Meetings

Pursuant to Executive Order 11671, the Administrator, Health Services and Mental Health Administration, announces the meeting dates and other required information for the following

V 37-230 NOV 29 72 XUM

National Advisory bodies scheduled to assemble the month of December 1972, in accordance with provisions set forth in section 13(a) (1) and (2) of that Executive order:

Committee name	Date, time, place	Type of meeting and/or contact person
National Advisory Council on Health Manpower Shortage Areas.	Dec. 1-2, 9 a.m., Woodmont Room, Holiday Inn of Bethesda, 8120 Wisconsin Ave., Bethesda, MD.	Open. Contact Jane Hoffman, Room 6-05, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD., Code 301—443-4437.

Purpose. The Council is charged with establishing guidelines and regulations to improve the delivery of health care services; assigning Public Health Service personnel to areas where medical manpower and facilities are inadequate to meet the health needs of persons living in such areas; and on a nationwide basis recommending the criteria and personnel on which selection of areas are based.

Agenda. Agenda items will cover reports on Scope of Services and Scarcity Areas; discussion of extension of legislation authorizing the National Health Service Corps.

Committee name	Date, time, place	Type of meeting and/or contact person
National Advisory Mental Health Council.	Dec. 4-6, 9:30 a.m., Conference Room 14-105, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD.	Dec. 4—Open. Dec. 5-6—Closed. Contact K. Patrick Okura, Room 17C-26, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD., Code 301—443-4597 or Barbara O'Konek, Room 9C-05, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD. Code 301—443-1335.

Purpose. Advises on matters of program planning and evaluation relevant to mental health programs. Reviews applications for grants-in-aid relating to research, training, and instructions in the field of psychiatric disorder.

Agenda. December 4 will be devoted to a discussion of policy issues. Agenda items will include: a report by the Director, National Institute of Mental Health, on administrative and legislative developments; discussion with the Administrator, Health Services and Mental Health Administration; the implications of recently enacted Social Security Amendments for the field of mental health; and a report on the coordination of DHEW drug abuse programs.

On December 5 and 6 the Council will conduct a final review of grant applications for Federal assistance. This session will not be open to the public, in accordance with the determination by the Secretary of Health, Education, and Welfare, pursuant to the provisions of Executive Order 11671, section 13(d). Items for discussion are subject to change due to priorities as directed by the President of the United States, or the Secretary of Health, Education, and Welfare.

A roster of members may be obtained from the contact person listed above.

Dated: November 22, 1972.

ANDREW J. CARDINAL,
Associate Administrator for Management, Health Services and Mental Health Administration.

National Institutes of Health

NATIONAL INSTITUTE OF ALLERGY AND INFECTIOUS DISEASES

Notice of Public Meeting

Pursuant to Executive Order 11671, notice is hereby given of the meeting of the NIAID Influenza Subcommittee of the Infectious Disease Committee on December 2, 1972, at 8:30 a.m., National Institutes of Health, Building 31, Conference Room 7A-24. This meeting will be open to the public to discuss plans for future influenza workshops, in accordance with section 13(d) of Executive Order 11671 and the Secretary's determination of September 27, 1972. Attendance by the public will be limited to space available.

Mr. Robert Schreiber, NIAID Information Officer, National Institutes of Health, Building 31, Room 7A-34, phone 496-5717, will furnish a summary of the meeting and a roster of the committee members.

Mrs. Martha Mattheis, Executive Secretary, National Institutes of Health, Building 31, Room 7A-10, phone 496-5105, will furnish substantive program information.

Dated: November 21, 1972.

JOHN F. SHERMAN,
Deputy Director.

Office of the Secretary

TUSKEGEE SYPHILIS STUDY AD HOC ADVISORY PANEL

Notice of Meeting

A meeting of the Tuskegee Syphilis Study Ad Hoc Advisory Panel is to be held on November 30, 1972. This panel was established by the Assistant Secretary for Health and Scientific Affairs to provide advice on the circumstances surrounding the Tuskegee, Ala., study of untreated syphilis in the male Negro initiated by the U.S. Public Health Service in 1932. The Assistant Secretary for Health and Scientific Affairs requested the panel to advise him on the following specific aspects of the Tuskegee syphilis study:

1. Determine whether the study was justified in 1932 and whether it should have been continued when penicillin became generally available.

2. Recommend whether the study should be continued at this point in time, and if not, how it should be terminated in a way consistent with the rights and health needs of its remaining participants.

3. Determine whether existing policies to protect the rights of patients participating in health research conducted or supported by the Department of Health, Education, and Welfare are adequate and effective and to recommend improvements in these policies, if needed.

This meeting is for the sole purpose of considering and formulating the advice which the panel will give to the Assistant Secretary for Health and Scientific Affairs on the three charges outlined above, and will involve exclusively the internal expression of views and judgments of its members. Accordingly, under the authority of the Secretary's notice of Determination of September 27, 1972, this meeting is closed to the public. The meeting will begin at 10 a.m. in Conference Room 8, Building 31 at the National Institutes of Health, Bethesda, Md. A summary of the meeting and a roster of panel members may be obtained from Mr. John Blamphin (202—962-7906), Room 5614, HEW North Building, 330 Independence Avenue SW., Washington, DC 20201.

Dated: November 6, 1972.

R. C. BACKUS, Ph. D.,
Executive Secretary, Tuskegee Syphilis Study Ad Hoc Advisory Panel.

Social and Rehabilitation Service

NATIONAL ADVISORY COUNCIL ON VOCATIONAL REHABILITATION

Notice of Public Meeting

This Council advises on research and demonstration strategy and programs administered under the Vocational Rehabilitation Act.

The Council will meet December 7-8, 1972, at 9 a.m. in Room 5026, South Building, Department of Health, Education, and Welfare, 330 C Street SW., Washington, DC. Agenda items include a discussion on legislation, long-range planning, and research and demonstration activities. Meeting open to public observation.

WILLMAN A. MASSIE,
Executive Secretary.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. D-72-209]

REGIONAL COUNSELS

Redelegation of Authority

Pursuant to section B of the delegation of authority to the General Counsel at 36 F.R. 11052, and 24 CFR 17.7, there is hereby redelegated to each Regional Counsel the power and authority to consider, ascertain, adjust, determine, compromise, allow, deny, and otherwise dispose of each claim against the Department which meets the following criteria:

1. The claim is for property damage and/or personal injury and the amount claimed does not exceed $2,500.

2. The incident giving rise to the claim occurred within the HUD region for which the Regional Counsel considering the claim has jurisdiction.

3. The claim is not filed by, or on behalf of, a HUD employee.

This redelegation is concurrent with, and does not supersede, the authority delegated to the Associate General Counsel for Equal Opportunity, Litigation, and Administration on August 18, 1971.

Effective date. This redelegation of authority is effective as of the 15th day of November 1972.

DAVID O. MAXWELL,
General Counsel.

[Docket No. N-72-127]

MINIMUM PROPERTY STANDARDS

Publication and Availability

The Department of Housing and Urban Development has prepared new minimum property standards. The minimum property standards described physical standards for housing. They are intended to provide a sound technical basis for determining the acceptability of housing under the various housing programs of the Department.

The minimum property standards are to be published in three volumes: (1) Minimum Property Standards for One and Two-Family Dwellings, (2) Minimum Property Standards for Multifamily Housing, and (3) Minimum Property Standards for Care-Type Housing. Drafts of the minimum property standards are available until December 31, 1972, for public examination in each HUD Regional, Area, and Insuring Office.

It is expected that the new minimum property standards ultimately will be formally adopted by the Department. At that time they will be incorporated into the Department's regulations and will be available for purchase by all interested persons.

Issued at Washington, D.C. on November 22, 1972.

EUGENE A. GULLEDGE,
Assistant Secretary-Commissioner.

[Docket No. 50-412]

DUQUESNE LIGHT CO. ET AL.

Notice of Receipt of Application for Construction Permit and Facility License and Availability of Applicants' Environmental Report; Time for Submission of Views on Antitrust Matter

Duquesne Light Co., Ohio Edison Co., Pennsylvania Power Co., the Cleveland Electric Illuminating Co., and the Toledo Edison Co. (the applicants), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, have filed an application, which was docketed October 20, 1972, for authorization to construct and operate a pressurized water nuclear reactor at its site, located in Shippingport Borough, Beaver County, Pa. The site consists of 449 acres of land, and is located on the south bank of the Ohio River approximately 1 mile from Midland, Pa., 5 miles east of East Liverpool, Ohio, and 22 miles northwest of Pittsburgh, Pa.

The proposed nuclear facility, designated by the applicant as Beaver Valley Power Station, Unit 2, is designed for initial operation at approximately 2660 megawatts (thermal) with a net electrical output of approximately 852 megawatts.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the Commission within 60 days after November 28, 1972.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC 20545, and at the Beave Area Memorial Library, 100 College Avenue, Beaver, PA 15009.

The applicants have also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in appendix D to 10 CFR Part 50, a report entitled, "Applicants' Environmental Report—Construction Permit Stage," dated November 6, 1972. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations related to the proposed construction of the Beaver Valley Power Station, Unit 2, is also being made available at the Commonwealth of Pennsylvania, State Clearing House, 5100 Finance Building, Harrisburg, PA 17120, and at the Southwestern Pennsylvania Regional Planning Commission, 564 Forbes Avenue, Pittsburgh, PA 15219.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement related to the proposed action will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement. The summary notice will request comments from interested persons on the proposed action and on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received.

Dated at Bethesda, Md., this 21st day of November 1972.

For the Atomic Energy Commission.

R. C. DEYOUNG,
Assistant Director for Pressurized Water Reactors, Directorate of Licensing.

[FR Doc.72-20358 Filed 11-28-72;8:45 am]

[Docket No. 50-285]

OMAHA PUBLIC POWER DISTRICT

Notice and Order for Evidentiary Hearing

In the matter of Omaha Public Power District (Fort Calhoun Station, Unit No. 1).

Take notice, and *it is hereby ordered*, In accordance with the Atomic Energy Act as amended, the rules of practice of the Commission, and the Prehearing Conference Order of this Board dated November 15, 1972, that the initial session of the evidentiary hearing in this proceeding shall convene at 1:30 p.m., local time, on Monday, December 11, 1972, in the Caucus Room (New Annex) of the Holiday Inn, 3321 South 72d Street, Omaha, Nebr. 68124.

All persons having filed a request for a limited appearance will be afforded an opportunity to place their comments and views into the record on the first day.

The following general agenda will be followed:

1. Preliminary matters by the Board;
2. Opening statements of the parties;
3. Limited appearances;
4. Preliminary matters brought by parties including the consideration of stipulations, if any;
5. Introduction of testimony;
6. Questioning of witnesses by parties and Board; and
7. Closing matters.

Issued at Washington, D.C., this 22d day of November 1972.

THE ATOMIC SAFETY AND LICENSING BOARD,
JOHN B. FARMAKIDES,
Chairman.

[FR Doc 72-20457 Filed 11-28-72;8:48 am]

[Docket No. 50-395]

SOUTH CAROLINA ELECTRIC AND GAS CO.

Notice and Order for Prehearing Conference

In the matter of South Carolina Electric and Gas Co. (Virgil C. Summer Nuclear Station Unit 1).

Notice is hereby given that, pursuant to the Atomic Energy Commission's "Notice of Hearing on Application for Construction Permit" dated September 21, 1972 (37 F.R. 2190), the Atomic Safety and Licensing Board will hold a prehearing conference in such proceeding on December 18, 1972, at 10 a.m., local time, in the Fairfield County Courthouse, Congress Street, Winnsboro, S.C. This prehearing conference shall constitute both the special prehearing conference required pursuant to § 2.751a and the prehearing conference required pursuant to § 2.752 of the Commission's rules of practice, 10 CFR Part 2. This prehearing conference will deal with the following matters:

1. Outstanding petitions for intervention;
2. Identification, simplification and clarification of the issues;
3. The necessity or desirability of amending the pleadings;
4. The need for discovery, if any, and the time required therefor;
5. Stipulations, and admissions of fact and of the contents and authenticity of documents to avoid unnecessary proof;
6. Identification of witnesses and the limitation of the number of expert witnesses, and other steps to expedite the presentation of evidence;
7. Procedures, including rules of evidence, to be followed in the presentation of evidence at the evidentiary hearing;
8. The effect of the certification provision of the Federal Water Pollution Control Act Amendments of 1972 (section 401(a)), on the proof required at the evidentiary hearing in this proceeding. It is expected that the parties will be prepared to advise the Board regarding applicable State and Federal water quality standards and effluent limitations, and will also be prepared to advise the Board with regard to the effect on this proceeding of section 511(c) of the Federal Water Pollution Control Act Amendments of 1972;
9. Establishment of a schedule for further action, including the setting of a hearing schedule; and
10. Such other matters as may aid in the orderly disposition of the instant proceeding.

Members of the public are entitled to attend this prehearing conference as well as the evidentiary hearing to be held at a later date to be fixed by the Board. Members of the public wishing to make limited appearances may identify themselves at this prehearing conference but oral or written statements to be presented by limited appearance will not be received at this conference. The Board will receive such statements at the aforementioned evidentiary hearing.

It is ordered, That counsel for the applicant, the regulatory staff of the Commission, and any petitioners for intervention shall conduct such informal conferences, including telephone conferences, to the extent that they may be practicable, to expedite the proceeding and in particular to advance the purposes of the special prehearing conference.

Dated this 22d day of November 1972 at Washington, D.C.

By Order of the Atomic Safety and Licensing Board.

DANIEL M. HEAD,
Chairman.

WASHINGTON PUBLIC POWER SUPPLY SYSTEM

Order Scheduling Prehearing Conference; Correction

In the matter of the Washington Public Power Supply System (Hanford No. 2 Nuclear Powerplant); Docket No. 50-397.

The Licensing Board's order of November 20, 1972, published November 22, 1972 (37 F.R. 24843), giving notice of a prehearing conference in this proceeding is hereby amended to correct an error in the address of the hearing room. The address of the Richland Post Office and Court House is 825 Jadwin Avenue and not 25 Jadwin Avenue as set forth in the aforementioned order.

Wherefore, it is ordered, In accordance with the Atomic Energy Act of 1954, as amended, and the rules of practice of the Commission, that a prehearing conference in this proceeding shall convene at 2 p.m., local time, on Thursday, November 30, 1972, in the Post Office and Court House Auditorium, 825 Jadwin Avenue, Richland, WA 99352.

Issued at Washington, D.C., this 27th day of November 1972.

ATOMIC SAFETY AND LICENSING BOARD,
ROBERT M. LAZO, *Chairman.*

[FR Doc.72-20620 Filed 11-28-72;10:50 am]

CIVIL AERONAUTICS BOARD

[Docket No. 24950]

AMERICAN AIRLINES, INC.

Order of Investigation and Suspension Regarding Certain GIT Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 22d day of November 1972.

By tariff[1] marked to become effective December 4, 1972, American Airlines, Inc. (American) proposes to establish round-trip group inclusive tour basing fares for groups of 240 or more from Boston to Los Angeles and return, applicable only on Saturdays during February 1973. The proposed round-trip fares are $225.00 for adults, $160.00 for youths 12 through 20 years of age, and $120.00 for children under 12, providing discounts from the normal coach fare of 30, 50, and 64 percent, respectively. Not more than seven children (2-12 years of age) would be accepted for every four adult passengers, with no limitation on the number of passengers age 12 through 20. A minimum-stay requirement of 7 days applies, and return travel must be completed by February 24, 1973, when the tariff expires.

In support of its proposal, American alleges that the new group fares are intended to stimulate travel during the month of February, a period in which transcontinental traffic has historically been depressed. The carrier contends that the instant proposal is similar to fares which were in effect in previous years in the Boston-Los Angeles market; that the risk of diversion is limited to family groups of three or more; and that the fares are reasonably related to cost.

No complaints have been filed.

[1] American Airlines, Inc., Tariff C.A.B. No. 274.

Upon consideration of the tariff proposal, and all other relevant matters, the Board finds that the proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proposal should be suspended pending investigation.

Based on American's traffic and flight frequency data for February 1972, its present winter schedules, and its traffic forecast for 1973, the carrier apparently either intends to schedule additional flights in the Boston-Los Angeles market during February 1972 (compared to last February) or is prepared to operate extra sections. It is in view of this, and the carrier's failure to demonstrate the reasonableness of the fares on a fully allocated basis, that we have determined to suspend the fares.

American attempts to show the reasonableness of the fares by a comparison with the cost formula developed by the Board's Bureau of Economics in Phase 9 of the Domestic Passenger-Fare Investigation. American asserts that the proposed fares cover 53 percent of the costs determined under that formula, which was based on a 47.6-percent load factor, and concludes that, since the minimum-group size exceeds the capacity of its B-707 and DC-10 aircraft and represents close to 80 percent of the capacity of its B-747 aircraft, the load factors associated with the fares will be high and the fare/cost relationship is therefore reasonable.

However, in our opinion, the large minimum-group size may or may not result in the extremely high load factors on which American relies to justify the reasonableness of the fares. The minimum-group size is so large that the groups will have to be split. Even American's B-747 does not have 248 seats in the coach compartment.[2] To the extent extra sections will need to be operated, overall average high load factors would be difficult to attain notwithstanding a 100-percent load factor on the scheduled flight.

Last February, American's Saturday operations between Boston and Los Angeles consisted of two flights a day, one B-707 and one B-747.[3] Including first-class seats, American operated an average total of 246 empty seats a day during February 1972, which would not be sufficient to accommodate even one minimum group of 248 passengers, let alone the 400-a-day American has estimated. Thus, unless American has planned to schedule substantially more seats this February, extra sections would be the result. In either event, a serious question is raised as to the reasonableness of such greatly reduced fares.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. An investigation is instituted to determine whether the fares and provisions in American Airlines, Inc.'s C.A.B. No. 274, and rules, regulations, or practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, and practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions in American Airlines, Inc.'s C.A.B. No. 274, are suspended and their use deferred to and including March 3, 1973, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding ordered herein be assigned for hearing before an Administrative Law Judge of the Board at a time and place hereafter designated; and

4. Copies of this order be filed in the aforesaid tariff and be served upon American Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[4]

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-20493 Filed 11-28-72;8:52 am]

[Docket No. 23131]

SHULMAN AIR FREIGHT ENFORCEMENT PROCEEDING

Notice of Postponement of Hearing

Notice is hereby given that the hearing in the above-entitled proceeding now scheduled for November 30, 1972 (37 F.R. 23123, Oct. 28, 1972), is indefinitely postponed.

Dated at Washington, D.C., November 22, 1972.

[SEAL] JAMES S. KEITH,
Administrative Law Judge.

[FR Doc.72-20494 Filed 11-28-72;8:52 am]

[2] In addition to the group of 240 passengers eight tour conductors are permitted to travel with the group.

[3] American's present nonstop winter schedules, two round-trip DC-10 frequencies, provide approximately the same number of coach seats as it operated in the market last February.

[4] Members Minetti and Murphy filed a dissenting statement, filed as part of the original document.

ENVIRONMENTAL PROTECTION AGENCY

AMCHEM PRODUCTS, INC.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 3F1325) has been filed by Amchem Products, Inc., Ambler, Pa. 19002, proposing establishment of tolerances (40 CFR Part 180) for residues of the plant regulator ethephon ((2 - chloroethyl)phosphonic acid) in or on the raw agricultural commodities apples and pineapple foliage at 6 parts per million and pineapples at 2 parts per million.

The analytical method proposed in the petition for determining residues of the plant regulator is a gas chromatographic procedure with a flame photometric detector for phosphorus.

Dated: November 20, 1972.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.72-20419 Filed 11-28-72;8:45 am]

INTERNATIONAL MINERALS & CHEMICAL CORP.

Notice of Filing of Petition Regarding Microbial Pesticide

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 3F1304) has been filed by International Minerals & Chemical Corp., Libertyville, Ill. 60048, proposing establishment of an exemption from the requirement of a tolerance (40 CFR Part 180) for residues of the microbial insecticide nuclear polyhedrosis virus of *Heliothis zea* in or on the raw agricultural commodity cottonseed.

The analytical methods proposed in the petition for determining residues of the insecticide are: (1) A quantitative microscopic determination by counting the number of polyhedral inclusion bodies and (2) a bioassay method based on the mortality of Heliothis larvae.

Dated: November 20, 1972.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72-20420 Filed 11-28-72;8:45 am]

V 37-230 NOV 29 72 XUM

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Availability

Environmental Impact Statements Received by the Council From November 13 Through November 17, 1972

NOTE: At the head of the listing of statements received from each agency is the name of an individual who can answer questions regarding those statements.

DEPARTMENT OF AGRICULTURE

Contact: Dr. T. C. Byerly, Office of the Secretary, Washington, DC 20250, (202) 388–7803.

FOREST SERVICE

Draft, November 16

Land Exchange, U.S. Government and J. Hamilton, New Mexico. The statement refers to a proposed exchange of lands between the Forest Service and John S. Hamilton, Jr. of Silver City, New Mexico. Under the agreement Mr. Hamilton offers 976.41 acres of private land owned by him and wishes to select 9,771.72 acres of land owned by the United States Included in Mr. Hamilton's offer are 71.62 acre-ft. of water rights on the Gila River System which would be used for the Gila River Bird Management Area. Mr. Hamilton will utilize his new land for ranching purposes; this he already does under permit. If no exchange is made Mr. Hamilton would develop his lands for subdivision purposes, with adverse effects upon the Gila Wilderness. (36 pages) (ELR Order No. 05638) (NTIS Order No. EIS–72 5638–D)

Draft, November 14

Skyline Basin Winter Sports Development, Columbia County, Wash. The statement refers to the proposed development of a major winter sports (skiing) facility, with an initial capacity of 2,000 persons. Construction will adversely affect soil, water, and visual resources; the (unspecified) loss of habitat will adversely affect wildlife. (35 pages) (ELR Order No. 05623) (NTIS Order No. EIS–72 5623–D)

Draft, November 16

Herbicide Use, Washington National Forests, Wash. The statement refers to a proposed program for the use of the herbicides Amitrole, Atrazine, Dicamba, 2, 4-D, 2 4, 5-T, Silvex, and Picloram on the Okanogan, Umatilla, and Wenatchee National Forests. The purposes of the action include the control of vegetation which interferes with crop trees, is poisonous to livestock, or is classified as noxious on agricultural land. Additional purposes are the improvement of wildlife habitat and the reduction of rodent populations. The use of the chemicals will put herbicides into the environment in varying amounts; non-target species will be hit. Very little is known about the effects of these herbicides upon plant and wildlife communities. (Approx 350 pages) (ELR Order No. 05640) (NTIS Order No. EIS–72 5640–D)

Final, November 16

Upper Craig Creek, Jefferson National Forest, Montgomery, Craig, and Roanoke Counties, Va. The statement refers to the management of the Upper Craig Creek Unit. Blacksburg, and New Castle Ranger Districts of the Forest. The program will provide for increased recreational use, timber management, wildlife enhancement, and water quality control. New roads and trails will be built (including a horse trail), and a new trail shelter will be constructed on the Appalachian Trail. (26 pages) Comments made by EPA. (ELR Order No. 05637) (NTIS Order No. EIS–72 5637–F)

RURAL ELECTRIFICATION ADMINISTRATION

Draft, November 17

Creston Plant, Union County, Iowa. The statement considers a request by the Central Iowa Power Cooperative that it be granted a loan in order to install one 30MW gas turbine and waste-heat boiler at the plant. The operation of the turbine, combined with the closing of two existing coal-fired boilers, will result in an overall reduction of pollution levels. (88 pages) Comments made by USDA, EPA, FPC, DOI. (ELR Order No. 05646) (NTIS Order No. EIS–72 5646–F)

SOIL CONSERVATION SERVICE

Draft, November 17

Mendota Watershed, LaSalle and Bureau Counties, Ill. The statement refers to a proposed watershed protection project measuremen suesrmea which would include land treatment measures, five flood water retarding structures, and 0.9 mile of channel works. The program is intended to reduce erosion and flood damage. Approximately 52 acres would be in undated by the project; an additional 50 acres would be used for spoil deposit and structure sites. (22 pages) (ELR Order No. 05645) (NTIS Order No. EIS–72 5645–D)

ATOMIC ENERGY COMMISSION

Contact: For nonregulatory matters: Mr. Robert J. Catlin, Director, Division of Environmental Affairs, Washington, DC 20545, 202—973–5391.

For regulatory matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, Washington, DC 20545, 202—973–7373.

Draft, November 15

James A. FitzPatrick Nuclear Powerplant, Oswego County, N.Y. The statement refers to the proposed continuation of a construction permit and the issuance of an operating license to the Power Authority of the State of New York. The plant will utilize a 2436 MWt boiling water reactor with anticipated "stretch" levels of 2557 MWt and 821 MWe. Cooling will be by a once-through system, with water being drawn from and discharged to Lake Ontario at 370,000 gpm. Small amounts of radioactive gaseous and liquid effluents will be released to the environs. (174 pages) (ELR Order No. 05631) (NTIS Order No. EIS–72 5631–D)

DEPARTMENT OF DEFENSE, ARMY COAPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs. Attn: DAEN–PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, DC 20314, 202—693–7168.

Final, November 16

Aquatic Plant Control and Eradication, Texas. The statement refers to the proposed control and eradication of water hyacinth and alligatorweed in the navigable waters of Texas in the combined interests of navigation, flood control, drainage, agriculture, fish and wildlife conservation recreation, public health, and related purposes. Control measures will be biological for alligatorweed (using the Agasicles flea beetle), and chemical for water hyacinth (using the amine salt and butoxyethanol ester of 2, 4-D). Some risk is inherent in the use of the herbicide; dying vegetation may deplete dissolved oxygen and present a noxious condition toxic to fish. (100 pages) Comments made by USDA, DOC, EPA, DOI, State and local agencies and concerned citizens. (ELR Order No. 05641) (NTIS Order No. EIS–72 5641–F)

FEDERAL POWER COMMISSION

Contact: Dr. Richard F. Hill, Acting Advisor on Environmental Quality, 441 G Street NW., Washington, DC 20426, 202—386–6084.

Draft, November 13

Wisconsin River Division Project No. 2590, Portage County, Wis. The statement refers to an application for a major license filed by the Consolidated Water Power Co. for the constructed Wisconsin River Project. The project is a run of the river development consisting of a dam having a crest elevation of 1070.02; a 76-acre reservoir about 3 miles long; a powerhouse containing 1800 kw. of hydroelectric capacity and 6,090 hp. of hydromechanical capacity. As the project has been in existence for 80 years, no further environmental impact is expected. (11 pages) (ELR Order No. 05617) (NTIS Order No. IES–72 5617–D)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Environmental and Land Use, Planning Division, Washington, DC 20410, 202—755–6186.

Final, November 15

River Bend Apartments, Missouri. The statement refers to the proposed construction of a 98-unit, eight story, low- and moderate-income apartment building in the city of St. Louis. The project will increase residential density and demands on urban systems, and cause some social impact. (88 pages) Comments made by EPA, HEW, DOT, OEO. (ELR Order No. 05633) (NTIS Order No. EIS–72 5633–F)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, DC 20240, 202—343–3891.

BUREAU OF MINES

Final, November 15

Termination of Helium Purchase Contracts. The statement refers to the proposed termination of helium purchase contracts with National Helium Corp., Cities Service Helex, Inc., and Phillips Petroleum Co. Under the contracts helium is recovered from natural gas which passes to fuel markets. If the contracts terminate, the Government will forego the purchase and storage of 20.7 billion cubic feet of the gas. Approximately 35 billion cubic feet will be in Government storage by December 31, 1972. The contractors could then: Sell helium in the private market and store the surplus; continue to extract the helium as an adjunct to other operations and later discharge it; or cease helium extraction. (381 pages) Comments made by DOC, DOD, NSF, OST, OEP, AEC, NASA, EPA, FPC, HUD, TVA, State agencies of several States and concerned citizens. (ELR Order No. 05630) (NTIS Order No. EIS–72 5630–F)

BUREAU OF RECLAMATION

Final, November 13

Auburn-Folsom South Unit, several counties, California. The statement refers to a multi-purpose (water supply, irrigation, flood control, hydroelectric power, and recreation) dam and reservoir project. Also included is the Folsom South Canal, a 69-mile irrigation canal (from Lake Natoma to Lone Tree Creek). Approximately 32,815 acres will be required for the project. Of this 1,000 acres, along with 43 miles of free-flowing river, will be inundated, with adverse effects to wildlife populations. Seventeen archeological sites and 22 historic sites will be inundated. (255 pages) Comments made by USDA, COE, EPA, FPC, HEW, DOI, State and local agencies and concerned citizens. (ELR Order No. 05616) (NTIS Order No. EIS–72 5616–F)

TENNESSEE VALLEY AUTHORITY

Contact: Dr. Francis Gartrell, Director of Environmental Research and Development, 720 Edney Building, Chattanooga, Tenn. 37401, 615—755–2002.

Final, November 13

Watts Bar Nuclear Plant, Units 1 and 2, Rhea County, Tenn. The statement refers to the proposed construction of a two-unit nuclear generating station. The station will employ pressurized reactors with a total capacity of 2,540 MWt. Cooling water will be drawn from Chickamauga Reservoir and circulated through natural draft towers. The station will add minute sums of radioactivity to the air and water. Approximately 967 acres of land will be required for the station, along with easements on 3,165 acres for transmission lines. (Approximately 500 pages). Comments made by AEC, USDA, DOC, COE, EPA, FPC, HEW, HUD, DOI, State agencies. (ELR Order No. 05615) (NTIS Order No. EIS–72 5615–F)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 Seventh Street SW., Washington, DC 20590, 202—426–4355.

FEDERAL AVIATION ADMINISTRATION

Final, November 13

Oxford County Regional Airport, Oxford County, Maine. The proposed project is the construction of a new general aviation airport. A 3,000-foot by 60-foot runway, a taxiway, an apron, and lighting will be included. The statement mentions no significant adverse impact. (44 pages) Comments made by AEC, COE, EPA, FPC, USDA. (ELR Order No. 05621) (NTIS Order No. EIS–72 5621–F)

FEDERAL HIGHWAY ADMINISTRATION

Draft, November 15

Santiago Canyon Road, Orange County, Calif. The profect proposes construction of concreted-rock slope protection for roadway embarkments at four locations along FAS Route 1279. In addition, a concreted-rock lined channel and apron and some filling will be performed at a fifth location. The five sites are located between Silverado Canyon Road and Live Oak Canyon Road. The purpose of the project is protection against water erosion. (11 pages) (ELR Order No. 05629) (NTIS Order No. EIS–72 5629–D)

Draft, November 16

Black Blvd.—Slate Creek Exoressway, Shasta County, Calif. The project consists of reconstructing a four-lane exoressway with 4-foot median to a 65-m.p.h. four-lane expressway with 60-foot median from north of Black Boulevard to north of Slate Creek. Total length of the project is 5.7 miles. Approximately 200 acres of trees, brush, and grass will be cleared. Four families and one business will be displaced. (60 pages) (ELR Order No. 05639) (NTIS Order No. EIS–72 5639–D)

Draft, November 14

Relocation of U.S. 5, Hartford County, Conn. The proposed project involves the corridor determination for the relocation of U.S. 5 as a limited access expressway from the vicinity of Governor Street in East Hartford to I–291 in South Windsor. Nine residences and four businesses will be affected. Approximately 150 acres, much of it located in the Connecticut River Flood Plain, is required for right-of-way. A 4(f) review for encroachment on 26 acres of "open space" land owned by the Town of East Hartford is included. (109 pages) (ELR Order No. 05627) (NTIS Order No. EIS–72 5627–D)

S.R. 385, Hall and Habersham Counties, Ga. The statement refers to the proposed extension of S.R. 365 from the present terminus at Gainesville to a point west and north of Cornelia. The 22-mile extension will be on new location. Erosion and siltation may cause damage to fish spawning waters in the Chattahoochee River and Lake Sidney Lanier. Eighteen families and one business will be displaced. An unspecified amount of land will be acquired to provide a 300-foot right-of-way. (116 pages) (ELR Order No. 05626) (NTIS Order No. EIS–72 5626–D)

Draft, November 17

I–70N, Baltimore County, Md. This is a revised draft statement (draft filed May 4, 1971) for the design and construction of an eight-lane controlled access freeway known as I–70N from Ingleside Avenue and existing I–70N to Ellicott Driveway. Total length of the project is 3.5 miles. Adverse impacts, depending upon the alternate selected, include housing displacement varying from 0 to 1,200; major business displacements, acoustic impacts, and possible encroachment on park lands. (81 pages) (ELR Order No. 05643) (NTIS Order No. EIS–72 5643–D)

Draft, November 14

U.S. 212, Yellow, Medicin, and Renville Counties, Minn. The statement refers to a corridor study for the relocation and reconstruction of an 8.5-mile segment of U.S. 212 to bypass the city of Granite Falls. The project includes a 0.5 mile connection for proposed T.H. 23 east of Granite Falls. The Minnesota River backwater flood plain will be encroached upon. Approximately 375 acres of land will be committed to the project. One farmstead will be displaced and some property severed. (87 pages) (ELR Order No. 05624) (NTIS Order No. EIS–72 5624–D)

S–1110(2)–Bayard to Vanadium, Grant County, N. Mex. The proposed project is the improvement of 1.8 miles of S–1110 (2). Two residences, two mobile homes and one business will be displaced. Adverse effects will include increases in air and noise pollution. (14 pages). (ELR Order No. 05625) (NTIS Order No. EIS–72 5625–D)

Final, November 16

U.S. 41, Lee and Collier Counties, Fla. The proposed project involves four-laning a segment of U.S. 41 (SR 45) from south of Bonita Springs to north of Estern. Project length is 11.4 miles. The number of displacements will depend upon the route taken. Temporary increases in the turbidity of the water will occur where bridges are constructed spanning Halfway Creek and the Eastern River. (54 pages) Comments made by USDA, COE, EPA, HEW, DOI. (ELR Order No. 05634) (NTIS Order No. EIS–72 5634–F)

Final, November 13

State Route 64 (F.A. Route 28) Illinois, county: Ogle. The proposed project is the construction of a four-lane highway, 0.705 mile in length, located on S.R. 64. Land acquisition will include 1.8 acres. A storm sewer outlet will be constructed on the east bank of the Rock River causing an increase in water pollution. (85 pages) EIS 72 5619–F Comments made by: USDA, DOC, DOT, EPA, HUD, and State agencies. (ELR Order No. 05619) (NTIS Order No. EIS 72 5619–F)

F.A.S. Route 1746, Kansas, county: Shawnee. The proposed project is the highway improvement, including a bridge and channel, of F.A.S. Route 1746. Length is 0.208 mile. Four acres will be acquired for the project. A section 4(f) will be filed to obtain land from a public park. The Stinson Creek will be rechanneled. Loss of wildlife and increases of erosion and water pollution will occur. (27 pages) Comments made by: USDA, COE, DOI, HEW, HUD, and State agencies. (ELR Order No. 05622) (NTIS Order No. EIS 72 5622–F)

Final, November 9

Fifth Street North (U.S. 2), N. Dak., county: Grand Forks. The proposed project is the widening and resurfacing of Fifth Street North. The length is approximately nine blocks. Adverse effects will include increased noise pollution and loss of trees (35 pages) Comments made by: DOI, EPA, HEW, HUD, and State agencies. (ELR Order No. 05606) (NTIS Order No. EIS 72 5606–F)

Traffic Routes 22 and 220, Pennsylvania, county: Blair. The proposed project is the construction of TR 22 and TR 220 on new location. The length of TR 22 will be 4.88 miles and TR 220, 4.36 miles. The projects will displace 63 single-family dwellings, two multifamily dwellings, 13 mobile homes, 13 businesses, and 60 other structures. The projects will encompass one spring and part of the Kittanning Indian Trail, requiring the relocation of a monument. Increases in water pollution and in noise pollution, affecting three high schools will occur. (226 pages) Comments made by: USDA, DOI, DOT, EPA, FPC, HUD, and State and local agencies. (ELR Order No. 05605) (NTIS Order No. EIS 72 5605–F)

Final, November 13

State Route 71, Texas, county: Fayette. The proposed project is the construction of S.R. 71 from a two-lane to a four-lane divided highway. Two hundred and ten acres of land will be acquired. One family and one business will be displaced. Natural drainage of stream will be closed by concrete drainage structure. Increased water pollution will occur. (48 pages) Comments made by: USDA, COE, DOI, DOT, EPA, HEW, and local agencies. (ELR Order No. 05618) (NTIS Order No. EIS 72 5618–F)

Final, November 9

U.S. 12, Wisconsni, county: Dane. The proposed project is the construction and partial relocation of a portion of U.S. 12; length is 6 miles. Approximately 72 acres will be acquired. The project will displace 17 families, three mobile homes, and 12 businesses. Wetlands will be acquired for the project. Increases in noise pollution are expected. (59 pages) Comments made by: USDA, DOI, HEW, HUD, EPA, and State, regional, and local agencies. (ELR Order No. 05607) (NTIS Order No. EIS 72 5607–F)

V 37 I 230 NOV 29 72 XUM

Contact: Mr. Robert Hall, Director, Office of Environmental Affairs, Room 3200, Department of Transportation, 400 Seventh Street SW., Washington, DC 20590, 202—426–4357.

Draft, November 15

Interstate Route 5, Skagit County, Wash. The statement refers to the proposed construction of a 4.5-mile segment of I–5 from Bow Hill Road to Chuckanut Creek. Approximately 100 acres of land will be required for the project. Two businesses will be displaced. (Approx 100 pages) (ELR Order No. 05636) (NTIS Order No. EIS–72 5636–D)

Draft, November 16

Interstate Route 5, Skagit County, Wash. The statement refers to the proposed construction of a 4.5-mile segment of I–5 from Bow Hill Road to Chuckanut Creek. Approximately 100 acres of land will be required for the project. Two businesses will be displaced. (Approx 100 pages) (ELR Order No. 05636) (NTIS Order No. EIS–72 5636–D)

Draft, November 16

Interstate Route 5, Skagit County, Wash. The statement refers to the proposed construction of a 4.5-mile segment of I–5 from Bow Hill Road to Chuckanut Creek. Approximately 100 acres of land will be required for the project. Two businesses will be displaced. (Approx 100 pages) (ELR Order No. 05636) (NTIS Order No. EIS–72 5636–D)

Draft, November 16

Interstate Route 5, Skagit County, Wash. The statement refers to the proposed construction of a 4.5-mile segment of I–5 from Bow Hill Road to Chuckanut Creek. Approximately 100 acres of land will be required for the project. Two businesses will be displaced. (Approx 100 pages) (ELR Order No. 05636) (NTIS Order No. EIS–72 5636–D)

Draft, November 16

Interstate Route 5, Skagit County, Wash. The statement refers to the proposed construction of a 4.5-mile segment of I–5 from Bow Hill Road to Chuckanut Creek. Approximately 100 acres of land will be required for the project. Two businesses will be displaced. (Approx 100 pages) (ELR Order No. 05636) (NTIS Order No. EIS–72 5636–D)

Draft, November 16

Approximately 100 acres of land will be required for the project. Two businesses will be displaced. (Approx 100 pages) (ELR Order No. 05636) (NTIS Order No. EIS–72 5636–D)

Draft, November 16

Interstate Route 5, Skagit County, Wash. The statement refers to the proposed construction of a 4.5-mile segment of I–5 from Bow Hill Road to Chuckanut Creek. Approximately 100 acres of land will be required for the project. Two businesses will be displaced. (Approx 100 pages) (ELR Order No. 05636) (NTIS Order No. EIS–72 5636–D)

Final, November 13

Highway 27, Wisconsin, county: Monroe. The proposed project is the reconstruction of Highway 27 to a four-lane divided highway. The project will include bridge structures over the C.M. St.P and P., C. and N.W. Railroads and the La Crosse River. Acquisition of 415 acres of industrial zoned land will be required. Two families and one business will be displaced. Adverse effects will include increases in noise, water, and air pollution. (29 pages) Comments made by: USDA, DOI, EPA, and one State agency. (ELR Order No. 05620) (NTIS Order No. EIS 72 5620–F)

U.S. COAST GUARD

Draft, November 17

Kodiak Sewage Disposal System, Alaska. A sewage disposal system is proposed for USCG Base Kodiak. The system will consist of collection and treatment facilities in accordance with the Federal Water Pollution Control Act, as amended. Sewage is presently collected and discharged, without treatment, directly into tidal waters of St. Paul Harbor. (9 pages) (ELR Order No. 05644) (NTIS Order No. EIS 72 5644–D)

Final, November 9

Little Lake Butte des Morts, Wis., county: Winnebago. The statement considers the approval of plans and location for a medium level, multispan fixed highway bridge across Little Lake Butte des Morts. The project will connect two sections of the town of Menasha. Six residences will be displaced by the action. (30 pages) Comments made by: COE, DOI, DOT, HEW, and HUD. (ELR Order No. 05600) (NTIS Order No. EIS 72 5600–F)

BRIAN P. JENNINGS,
Acting General Counsel.

FEDERAL RESERVE SYSTEM

INDIAN HEAD BANKS, INC.

Acquisition of Bank

Indian Head Banks, Inc., Nashua, N.H., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 53.68 percent or more of the voting shares of the Lakeport National Bank of Laconia, Lakeport, N.H. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Boston. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than December 18, 1972.

Board of Governors of the Federal Reserve System, November 21, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.72-20421 Filed 11-28-72;8:45 am]

REDWOOD BANCORP

Proposed Acquisition of National Mortgage Co.

Redwood Bancorp, San Rafael, Calif., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of National Mortgage Co., Salt Lake City, Utah. Notice of the application was published on November 17, 1972, in the Salt Lake Times, a newspaper circulated in Salt Lake City, Utah; on November 15, 1972, in the Post & Register, a newspaper circulated in Idaho Falls, Idaho; and on November 14, 1972, in the Daily Reporter, a newspaper circulated in Tucson, Ariz.

Applicant states that the proposed subsidiary would engage in the activities of originating and servicing mortgage loans and acting as agent or broker in the sale of insurance directly related to extensions of credit. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than December 19, 1972.

Board of Governors of the Federal Reserve System, November 22, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970

Implementation Regulations

1. Persons eligible for benefits.
2. Assurance of adequate replacement housing prior to displacement.
3. Definition of decent, safe, and sanitary dwellings.
4. Moving and related expenses allowable under section 202(a) of the Act.
5. Exclusions on moving expenses and losses.

V 37-230 NOV 29 72 XUM

6. Payments under section 202 (b) and (c) of the Act in lieu of moving and related expenses.
7. Submittal of claims.
8. Replacement housing payments to homeowners under section 203(a) of the Act.
8.1 Payments.
8.2 Computation of replacement housing payment—differential payment for replacement housing.
8.3 Limitations.
9. Replacement housing payments to tenants and certain others under section 204 of the Act.
9.1 Payments.
9.2 Computation of replacement housing payment for displaced tenants—rental replacement housing payment.
9.3 Disbursement of rental replacement housing payment.
9.4 Purchases—replacement housing payment.
9.5 Computation of replacement housing payments for certain others.
10. Initiation of negotiations.
11. Relocation assistance advisory services under section 205 of the Act.
12. State agency required to furnish real property incident to Federal project.
13. Uniform real property acquisition policy.
14. Surrender of possession.
15. Rent after acquisition.
16. Tenants' rights in improvements.
17. Expense of transfer of title.
18. Proration of taxes.
19. Administrative review.
20. Annual report.
21. Definitions.

These regulations prescribe procedures for the U.S. Section of the International Boundary and Water Commission, United States and Mexico, hereinafter called the U.S. Section, in implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Public Law 91-646 (84 Stat. 1894), hereinafter called the Act. The Act and these regulations provide for uniform and equitable treatment of persons displaced from their homes, businesses, or farms by Federal programs and establish uniform and equitable land acquisition policies for Federal programs. The regulations shall be effective retroactively on and after January 2, 1971.

1. *Persons eligible for benefits.* Those eligible for benefits under these regulations are those persons, including individuals, partnerships, corporations or associations, who on or after January 2, 1971, move from real property, or move their personal property from real property, as a result of the acquisition of such real property by the U.S. Section, or move as the result of a written notice from the U.S. Section to vacate real property.

A person who lives on his business or farm property may be eligible for both moving and related expenses as a dwelling occupant in addition to being eligible for payments with respect to a business or farm operation. Also eligible, but only for payment of moving and related expenses and for relocation assistance advisory service as hereinafter provided are those persons who move as a result of the U.S. Section's acquisition of or as the result of a written notice from the U.S. Section to vacate other real property, on which any such person conducts a business or farm operation. The U.S. Section must serve personally or by certified (or registered) first class mail a written notice of displacement to each individual, family, business, or farm to be displaced.

(a) In order to qualify for benefits under these regulations, either of two conditions must be met:

(1) The person must have received a written notice to vacate, which may be given before or after initiation of negotiations for acquisition of the property; or

(2) The property must, in fact, have been acquired and the person must have moved as a result of its acquisition.

(b) A displaced person may not be paid for more than one move in relation to a single project unless the Chief, Real Estate Division, finds it to be equitable to pay for a subsequent move and gives approval for such payment prior to the subsequent move.

(c) For real property acquisitions under Federal law, contracts or options to purchase real property shall not incorporate provisions for making payments for relocation costs and related items in title II of the Act. Appraisers shall not give consideration to or include in their real property appraisals any allowances for the benefits provided by title II. In the event of condemnation with a declaration of taking, the estimated compensation shall be determined solely on the basis of the appraised value of the real property with no consideration being given to or reference contained therein to the payments to be made under title II of the Act.

2. *Assurance of adequate replacement housing prior to displacement.* Prior to the institution of any new project, and as soon as practicable with respect to any current project involving the displacement of any person, the Chief, Real Estate Division, shall determine that, within a reasonable period of time prior to displacement, there will be available on a basis consistent with title VIII of the Civil Rights Act of 1968 (Public Law 90-284), decent, safe, and sanitary dwellings, as described below, equal in number to the number of, and available to, such displaced persons who require such dwellings and reasonably accessible to their places of employment. Such dwellings shall be in areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents and prices within the financial means of the families and individuals displaced. Such determination shall be based on a current survey and analysis of available replacement housing, which shall take into account the competing demands on available housing.

3. *Definition of decent, safe, and sanitary dwellings.* A decent, safe, and sanitary dwelling is one which is found to be in sound, clean, and weathertight condition, and which meets local housing codes for the type of dwelling. If there are no applicable local housing codes, a housekeeping unit must include a kitchen with fully usable sink; a stove or connections for same; a separate complete bathroom; hot and cold running water in both the bathroom and kitchen; and adequate and safe wiring system for lighting and other electrical services; and heating as required by climatic conditions and regional housing codes. A nonhousekeeping unit shall meet local standards customary for boarding houses, hotels, or other congregate living in the area. Any dwelling unit considered suitable as replacement housing must be reasonably convenient to such community facilities as schools, stores, and public transportation.

4. *Moving and related expenses allowable under section 202(a) of the Act.* Upon receipt by the U.S. Section of a proper application for any displaced person who is eligible and elects to receive the benefits of section 202(a) of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, the U.S. Section will reimburse the displaced person for actual reasonable expenses incurred by him in moving as follows:

(a) Transportation of individuals, families, and property from the acquired site to the replacement site, not to exceed a distance of 50 miles, except where the Chief, Real Estate Division, determines that relocation beyond the 50-mile area is justified.

(b) Packing, and unpacking, crating, and uncrating of personal property.

(c) Advertising for packing, crating, and transportation when the Chief, Real Estate Division, determines that it is necessary.

(d) Storage of personal property for a period generally not to exceed 12 months when the Chief, Real Estate Division, determines that storage is necessary in connection with relocation.

(e) Insurance premiums covering loss and damage of personal property while in storage or transit.

(f) Removal, reinstallation, and reestablishment of machinery, equipment, appliances, and other items, not acquired as real property, including reconnection of utilities, which do not constitute an improvement to the replacement site, except when required by law. Prior to payment of any expenses for removal and reinstallation of such property, the displaced person shall be required to agree in writing that the property is personalty and that the U.S. Section is released from any payment for the property.

(g) Property lost, stolen, or damaged (not caused by the fault or negligence of the displaced person, his agent or employees), in the process of moving, where insurance to cover such loss or damage is not available.

(h) Such other reasonable expenses determined to be eligible under regulations issued by the U.S. Section.

(i) If the displaced person accomplishes the move himself, he shall be paid an amount not to exceed the estimated cost of moving commercially.

(j) When an item of personal property which is used in connection with any business or farm operation is not moved but is sold and promptly replaced with

a comparable item, reimbursement shall not exceed the replacement cost minus the proceeds received from the sale or the cost of moving, whichever is less.

(k) When personal property which is used in connection with any business or farm operation to be moved is of low value and high bulk, and the cost of moving would be disproportionate in relation to the value, in the sole judgment of the Chief, Real Estate Division, the allowable reimbursement for the expense of moving the personal property shall not exceed the difference between the amount which would have been received for such item on liquidation and the cost of replacing the same with a comparable item available on the market. This provision is applicable in such cases as the moving of junkyards, stockpiled sand, gravel, minerals, metals, and similar type items of personal property.

(l) If the cost of moving or relocating an outdoor advertising display or displays is determined to be equal to or in excess of the in-place value of the display, consideration will be given to acquiring such display or displays as a part of the real property.

(m) In the case of a business or farm operation, if the displaced person does not move the personal property he shall be required to make a bona fide effort to sell it. If the personal property is sold and the business or farm operation reestablished, he is entitled to payment provided in (j) above. If the business or farm operation is discontinued, the displaced person is entitled to the difference between the in-place value of the personal property and the sale proceeds, or the cost of moving, whichever is less. If the personal property is abandoned, he is entitled to payment for the difference between the in-place value and the amount which would have been received from the sale of the item, or the cost of moving, whichever is less. The cost of removal of the personal property shall not be considered as an offsetting charge against other payments to the displaced person.

(n) Expenses, not to exceed $500, unless the Chief, Real Estate Division, determines that a greater amount is justified, in searching for a replacement business or farm as follows:

(1) Travel costs at 10 cents a mile, not to exceed 300 miles, or the equivalent in public transportation fares.

(2) Costs for meals and lodging for no more than the equivalent of 3 full days of searching, at a rate of $2.50 for each meal and $12 for each night spent in a motel or other accommodation.

(3) Time spent in searching at the rate of the displaced person's salary or earnings, but not to exceed $10 per hour and not to exceed the equivalent of 3 full days of searching.

(4) Broker, realtor, or other professional fees in locating a replacement business or farm operation, provided the Chief, Real Estate Division, has approved such employment in advance.

5. *Exclusions on moving expenses and losses.* Reimbursement for moving expenses shall not include:

(a) Additional expenses incurred because of living in a new location.

(b) Cost of moving structures, improvements, or other real property in which the displaced person reserved ownership.

(c) Improvements to the replacement site, except when required by law.

(d) Interest on loans to cover moving expenses.

(e) Loss of goodwill.

(f) Loss of profits.

(g) Loss of trained employees.

(h) Personal injury.

(i) Cost of preparing the application for moving and related expenses.

(j) Modification of personal property to adapt it to the replacement site, except when required by law.

(k) Payment for search cost in connection with locating a replacement dwelling.

(l) Such other items as the Chief, Real Estate Division, determines should be excluded.

6. *Payments under section 202 (b) and (c) of the Act in lieu of moving and related expenses.*—(a) *Dwellings.* Any displaced person eligible for payments under 4 above who is displaced from a dwelling may elect to accept the following payments in lieu of the payments authorized under 4 above.

(1) A moving expense allowance, not to exceed $300, based on schedules maintained by the State Highway Department of the State where the displacement occurs.

(2) A dislocation allowance of $200.

(b) *Businesses.* Any displaced person eligible for payments under 4 above who is displaced from his place of business as defined in subsection 101(7) (A), (B), and (C) of the Act, or from his farm operation, may elect to accept the following payments, in lieu of the payments authorized by 4 above: A fixed payment in an amount equal to the average annual net earnings of the business or farm operation, except that such payment shall be not less than $2,500 nor more than $10,000. The term "average annual net earnings" means one-half of any net earnings of the business or farm operation, before Federal, State, and local income taxes, during the 2 taxable years immediately preceding the taxable year in which such business or farm operation moves from the real property acquired, and includes any compensation paid by the business or farm operation to the owner, his spouse, or his dependents during such period. If a business or farm operation has no net earnings, or has suffered losses during the period used to compute "average annual net earnings" it may nevertheless receive the $2,500 minimum payment.

Those businesses described in subsection 101(7)(D) of the Act are not eligible for a payment in lieu of moving and related expenses.

To be eligible for such payment, the business must contribute materially to the income of the displaced owner. Part-time family occupations which do not contribute materially to a displaced person's income are not eligible. Also, no payment shall be made hereunder unless the Chief, Real Estate Division, is satisfied that the business cannot be relocated without a substantial loss of its existing patronage and is not a part of a commercial enterprise having at least one other establishment not being acquired by the U.S. Section which is engaged in the same or similar business. In determining whether the business cannot be relocated without a substantial loss of its existing patronage, the following factors will be considered:

(1) The type of business conducted by the displaced person.

(2) The nature of the clientele of the displaced concern.

(3) The relative importance of the present and proposed location of the displaced business.

Where an entire farm is not acquired, payment hereunder will be made only if the Chief, Real Estate Division, determines that prior to its acquisition the farm met the definition of a farm operation set out in section 101(8) of the Act and that the property remaining after acquisition is no longer an economic farm unit.

(c) *Nonprofit organizations.* Where a nonprofit organization is displaced, no payment shall be made under subsection 202(c) until after the Chief, Real Estate Division, determines:

(1) That the nonprofit organization cannot be relocated without a substantial loss of its existing patronage. The term "existing patronage" as used in connection with nonprofit organizations includes the persons, community, or clientele served or affected by the activities of the nonprofit organization.

(2) That the nonprofit organization is not part of an organization having at least one other establishment not being acquired which is engaged in the same or similar activity.

7. *Submittal of claims.* All claims of reimbursement of moving expenses or for payments in connection with such expenses, as provided above, and all claims for the payment of housing supplements or payments in connection with such supplements, as provided below, must be submitted to the Chief, Real Estate Division, on prescribed forms no later than 18 months from the date of displacement.

8. *Replacement housing payments to homeowners under section 203(a) of the Act*—8.1 *Payments.* In addition to payments for moving and related expenses, a displaced person may receive payment not in excess of $15,000 if such person was displaced from a dwelling actually owned ("owned" refers to an interest in the title which allows absolute physical control) and occupied by him for not less than 180 days immediately prior to the initiation of negotiations for the acquisition of the property on which the dwelling is located and purchases and occupies a replacement dwelling which is decent, safe, and sanitary not later than the end of 1 year from the date he receives payment for the acquired dwelling or the date he moves from said dwelling, whichever is the later date. Such

V37-230 NOV 29 72 XUM

payment shall consist of the following:

(a) The amount, if any, which when added to the acquisition cost of the dwelling acquired by the U.S. Section equals the reasonable cost of a comparable replacement dwelling as established by the U.S. Section. A comparable replacement dwelling for such purpose shall be deemed to be one which is decent, safe, and sanitary and as functionally equivalent to and substantially the same as the acquired dwelling with respect to: the number of rooms, area of living space; age; state of repair; open to all persons regardless of race, color, religion, sex, or national origin and consistent with the requirements of the Civil Rights Acts of 1964 and 1968; located in an area not generally less desirable than the dwelling being acquired with respect to neighborhood conditions, including but not limited to municipal services and other environmental factors; public utilities and public commercial facilities; reasonably accessible to the relocatee's place of employment; available on the market to the displaced person; and, within the financial means of the displaced family or individual.

(b) The amount, if any, necessary to compensate a displaced person for any increased interest costs, including points paid by the purchaser. Such amount shall be paid only if the acquired dwelling was encumbered by a bona fide mortgage. The following shall be considered:

(1) The payment shall be equal to the excess in the aggregate interest and other debt service costs of that amount of the principal of the mortgage on the replacement dwelling which is equal to the unpaid balance of the bona fide mortgage on the acquired dwelling, at the time of acquisition, over the remainder term of the mortgage on the acquired dwelling, reduced to discounted present value;

(2) The discount rate shall be the prevailing interest rate paid on savings deposits by commercial banks in the general area in which the replacement dwelling is located;

(3) A "bona fide mortgage" is one which was a valid lien on the acquired dwelling for not less than 180 days prior to the initiation of negotiations;

(4) However, the interest payment shall be based on the present value of the reasonable cost of the interest differential, including points paid by the purchaser, on the amount financed not to exceed the amount of the unpaid debt on the acquired dwelling for its remaining term.

(c) The amount, if any, necessary to reimburse a displaced person for actual costs incurred by him incident to the purchase of the replacement dwelling (but not including prepaid expenses) such as:

(1) Legal, closing, and related costs including title search, preparing conveyance instruments, notary fees, surveys, preparing plats, and charges incident to recordation;

(2) Lenders', FHA or VA, appraisal fees;

(3) FHA application fee;

(4) Certification of structural soundness when required by lender, FHA or VA;

(5) Credit report;

(6) Title policies or abstracts of title;

(7) Escrow agent's fee; and

(8) State revenue stamps or sale or transfer of taxes.

No fee, cost, charge, or expense is reimbursable which is determined to be a part of the finance charge under the Truth in Lending Act, Title I, Public Law 90–321, and Regulation "Z" (12 CFR Part 226), issued pursuant thereto by the Board of Governors of the Federal Reserve System.

8.2 *Computation of replacement housing payment—Differential payment for replacement housing.* The Chief, Real Estate Division, may determine the amount which, if any, when added to the acquisition cost of the dwelling acquired by the displacing agency, is necessary to purchase a comparable replacement dwelling by either establishing a schedule or by using a comparative method.

(a) *Schedule method.* The U.S. Section may establish schedule of reasonable acquisition costs for comparable replacement dwellings of the various types of dwellings to be acquired and available on the private market. The schedule shall be based on a current market analysis sufficient to support determinations of the amount for each type of dwelling to be acquired. When more than one Federal agency is causing displacement in a community or an area, the heads of the agencies concerned shall coordinate the establishment of the schedule for replacement housing payments.

(b) *Comparative method.* The U.S. Section may determine the price of a comparable replacement dwelling by selecting a dwelling or dwellings most representative of the dwelling unit acquired, available to the displaced person, and which meets the definition of comparable replacement dwelling. A single dwelling shall be used only when additional comparable dwellings are not available.

(c) *Alternate method.* The Chief of the Real Estate Division may develop criteria for computing replacement housing payments when neither the schedule method nor the comparative method is feasible.

8.3 *Limitations.* The amount established by 8.1(a) as the differential payment for the replacement housing sets the upper limit of such payment. To qualify for the full amount the displaced person must purchase and occupy a decent, safe, and sanitary dwelling as established by the U.S. Section.

(a) If the displaced person on his own voluntarily purchases and occupies a decent, safe, and sanitary dwelling at a price less than the reasonable cost of a comparable replacement dwelling as established by the U.S. Section, the differential payment will be reduced to that amount required to pay the difference between the acquisition price of the acquired dwelling and the actual purchase price of the replacement dwelling.

(b) If the displaced person on his own voluntarily purchases and occupies a decent, safe, and sanitary dwelling at a price less than the acquisition price of the acquired dwelling, no differential payment under 8.1(a) shall be made.

9. *Replacement housing payments to tenants and certain others under section 204 of the Act.*— 9.1 *Payments.* (a) The U.S. Section will make a payment to or for any person displaced from any dwelling not eligible to receive a payment under paragraph 8 of these regulations, which dwelling was actually and lawfully occupied by such displaced person for not less than 90 days prior to the initiation of negotiations for acquisition of such dwelling. Such payment shall be either:

(1) The amount computed under 9.2 below to enable such displaced person to lease or rent for a period not to exceed 4 years, a decent, safe, and sanitary dwelling of standards adequate to accommodate such person in areas not generally less desirable in regard to public utilities and public and commercial facilities, and reasonably accessible to his place of employment, but not to exceed $4,000; or

(2) The amount necessary to enable such person to make a downpayment, including incidental expenses described in 8.1(c) above, on the purchase of a decent, safe, and sanitary dwelling of standards adequate to accommodate such person in areas not generally less desirable in regard to public utilities and commercial and public facilities, but not to exceed $4,000, except that if such amount exceeds $2,000, such person must equally match any such amount in excess of $2,000 in making the downpayment.

(b) An owner-occupant otherwise eligible for a payment under paragraph 8.1 of these regulations but who rents instead of purchases a replacement dwelling is eligible for replacement housing as a tenant (see 9.2 and 9.5 below).

9.2 *Computation of replacement housing payment for displaced tenants—rental replacement housing payment.* The Chief, Real Estate Division, may establish the amount necessary to rent a suitable replacement dwelling by either establishing a schedule or by using a comparative method.

(a) *Schedule method.* The payment should be computed by determining the amount necessary to rent a suitable replacement dwelling for 4 years (the average monthly cost from the schedule) and subtracting from such amount 48 times the average month's rent paid by the displaced tenant in the last 3 months prior to initiation of negotiations if such rent is reasonable, or if not reasonable, 48 times the monthly economic rent for the the dwelling unit. For purposes of these regulations, economic rent is defined as the amount of rent the displaced tenant would have had to pay for a similar dwelling unit in areas not generally less desirable than the dwelling unit to be acquired. The schedule should be based on a current analysis of the market to

determine an amount for each type of dwelling acquired.

(b) *Comparative method.* The average month's rent may be determined by selecting one or more dwellings representative of the dwelling unit acquired, available on the private market which meets the definition of a suitable replacement dwelling. The payment should be computed by determining the amount necessary to rent for 4 years a suitable replacement dwelling and subtracting from the amount so determined 48 times the average month's rent paid by the displaced tenant in the last 3 months prior to initiation of negotiations or if not reasonable, 48 times the monthly economic rent for the dwelling unit established by the U.S. Section.

(c) *Exceptions.* The Chief of the Real Estate Division may establish the average month's rent paid by the displaced person by using more than 3 months, if he deems it advisable. If rent is being paid to the displacing agency, economic rent shall be used in determining the amount of the payment to which the displaced tenant is entitled.

(d) *Alternate to (a) and (b), above.* When neither method is feasible, the Chief, Real Estate Division, shall develop criteria for computing the payment.

9.3 *Disbursement of rental replacement housing payment.* All rental replacement housing payments in excess of $1,000 will be made in four equal installments on an annual basis. Before making each installment payment, the Chief, Real Estate Division, must verify that the tenant is still in decent, safe, and sanitary housing.

9.4 *Purchases—replacement housing payment.* If the tenant elects to purchase a replacement dwelling instead of renting, the payment shall be computed by determining the amount necessary to enable him to make a downpayment and to cover incidental expenses on the purchase of replacement housing.

(a) The downpayment shall be the amount necessary to make a downpayment on a suitable replacement dwelling. Determination of the amount "necessary" for such downpayment shall be based on the amount of downpayment that would be required for a conventional loan.

(b) Incidental expenses of closing the transaction as described in paragraph 8.1(c) above.

(c) The full amount of the downpayment must be applied to the purchase price and such downpayment and incidental costs must be shown on the closing statement.

9.5 *Computation of replacement housing payments for certain others.* (a) A displaced owner-occupant eligible under paragraph 8 of these regulations who elects to rent rather than purchase a replacement dwelling may receive a rental replacement housing payment not to exceed $4,000. The payment shall be computed in the same manner as shown in 9.2 above, with the following additional criteria:

(1) The present rental rate for the acquired dwelling shall be economic rent as determined by market data; and

(2) The payment may not exceed the amount which the displaced owner-occupant would have received had he elected to receive a replacement housing payment under paragraph 8 of these regulations.

(b) A displaced owner-occupant who does not qualify for a replacement housing payment under paragraph 8 of these regulations because of the 180-day occupancy requirement but qualifies under paragraph 9 and elects to rent is eligible for a rental replacement housing payment not to exceed $4,000. The payment shall be computed in the same manner as shown in 9.2 above, except that the present rental rate for the acquired dwelling shall be economic rent as determined by market data.

(c) A displaced owner-occupant who does not qualify for a replacement housing payment under paragraph 8 of these regulations because of the 180-day occupancy requirement but qualifies under paragraph 9 and elects to purchase a replacement dwelling is eligible for a replacement housing payment pursuant to 9.1(b), which payment shall be computed in the same manner as shown in 9.4 above.

10. *Initiation of negotiations.* The term "initiation of negotiations" for real property means the date the U.S. Section makes the first contact with the owner or his representative when the U.S. Section's offer for the real property to be acquired is discussed or is presented in writing. When an offer to purchase is presented by mail, the initiation of negotiations will be considered to be the third day after the date of mailing. The U.S. Section will advise tenants and other occupants of the date negotiations begin with the owner.

11. *Relocation assistance advisory services under section 205 of the Act.* The Chief, Real Estate Division, will establish and maintain a program to provide advice and assistance, where needed, to persons displaced as a result of the acquisition of real property. Such program shall provide pertinent and current information regarding the availability, prices, and rentals of proper replacement properties; offer assistance in obtaining and relocating to such properties; and take such steps required to secure the cooperation of other agencies which may be of assistance in order to minimize hardships and assure that displaced persons receive the maximum assistance available to them. To the extent that the services of a central relocation agency are available to render assistance, such services will be used.

12. *State agency required to furnish real property incident to Federal project.* In those programs where real property is acquired by a State agency and furnished as a required local contribution to the U.S. Section project, the U.S. Section may not accept such property unless such State agency has made all payments and provided all assistance and assurances, as are required of a State agency by section 210 and 305 of the Act and according to these regulations. In its application of these regulations, the State agency acquiring the real property shall perform the functions, make the payments, and grant the assistance that would be required of the U.S. Section were it acquiring real property under the Act and these regulations. The head of such State agency shall perform the functions that would otherwise be performed by the Commissioner, U.S. Section, under the Act and these regulations, and the head of the Right-of-Way Department or Right-of-Way Section of such State agency shall perform the functions that would otherwise be performed by the Chief, Real Estate Division, under the Act and these regulations.

(a) *Reimbursement to State agency.* In those programs where real property is acquired by a State agency and furnished as a required local contribution to the U.S. Section project, the U.S. Section shall reimburse such State agency 100 percent of the first $25,000 of the cost of providing the payments and assistance required by the Act and these regulations in the case of any real property acquisition or displacement occurring prior to July 1, 1972. Where eligible persons are displaced, or the real property acquired, prior to July 1, 1972, the full amount of the first $25,000 of relocation payments are made prior to or subsequent to July 1, 1972.

(b) *Other federally assisted programs.* The U.S. Section has no programs, other than as above provided, affording Federal financial assistance within the meaning of the Act. If any such programs should be instituted, appropriate regulations and relocation assistance procedures relating thereto will be adopted.

13. *Uniform real property acquisition policy.* Before negotiations are initiated for acquisition of real property, the Chief, Real Estate Division, will cause the property to be appraised and establish an amount believed to be just compensation therefor. The appraiser shall afford the owner or his representative an opportunity to accompany him during his inspection of the property.

When negotiations are initiated to acquire real property, the owner will be given a written statement of, and summary of the basis for, the amount estimated as just compensation. The statement will identify the property and the interest therein to be acquired, including buildings and other improvements to be acquired as a part of the real property, the amount of the estimated just compensation, and the basis therefor. If only a portion of the property is to be acquired, the statement will include a statement of damages and benefits, if any, to the remainder.

14. *Surrender of possession.* Possession of real property will not be taken until the owner has been paid the agreed

V 37-230 NOV 29 72 XUM

purchase price or the U.S. Section's estimate of just compensation has been deposited in court in a condemnation proceeding.

To the greatest extent practicable, no person will be required to move from property acquired by the U.S. Section without at least 90 days' written notice thereof.

15. *Rent after acquisition.* If the U.S. Section rents real property acquired by it to the former owner or former tenant, the amount of rent shall not exceed the fair rental value on a short-term basis.

16. *Tenants' rights in improvements.* Tenants of real property being acquired by the U.S. Section will be paid just compensation for any improvements owned by them, whether or not they might have a right to remove such improvements under the terms of their tenancy. Such payment will be made only upon the condition that all right, title, and interest of the tenant in such improvements shall be transferred to the U.S. Section and upon the further condition that the owner of the real property being acquired shall execute a disclaimer of any interest in said improvements.

17. *Expense of transfer of title.* In connection with the acquisition of real property by the U.S. Section, the U.S. Section will, to the extent it deems fair and reasonable, bear all expenses incidental to the transfer of title to the United States, including penalty costs for the prepayment of any valid pre-existing recorded mortage.

18. *Proration of taxes.* Real property taxes shall be prorated to relieve the seller from paying taxes which are allocable to a period subsequent to vesting of title in the United States or the date of possession, whichever is earlier.

19. *Administrative review.* Determinations by the Chief, Real Estate Division, as to payments under these regulations shall be final. However, in the event of dissatisfaction by any displaced person the following rights of review will be followed:

Any dispute concerning a question of fact arising under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, which is not disposed of by agreement, shall be decided by the Chief, Real Estate Division, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the displaced person. This decision shall be final and conclusive unless within 30 days from the date of receipt of such copy the displaced person mails or otherwise furnishes a written appeal addressed to the Commissioner, United States Section, International Boundary and Water Commission, United States and Mexico, Post Office Box 1859, El Paso, TX 79950. The decision of the Commissioner or his duly authorized representative for the determination of such appeals shall be in writing and furnished to the displaced person and shall be final and conclusive. In connection with any appeal proceeding hereunder, the displaced person shall be afforded an opportunity to be heard and to offer evidence in support of his appeal.

20. *Annual report.* The head of the State agency acquiring real property or interests therein to be furnished to the U.S. Section for the purpose of one of its projects shall, on or before August 15 of each year, furnish to the U.S. Section the information required and complete the forms prescribed by the Chief of the Real Estate Division for the completion of the Annual Report required by section 214 of the Act.

21. *Definitions*—(a) *The Act.* "The Act" means the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Public Law 91-646), approved January 2, 1971.

(b) *Dwelling.* "Dwelling" means the place of permanent or customary and usual abode of a person. It includes a single family building; a one-family unit in a multifamily building; a unit of a condominium, or cooperative housing project; any other residential unit, including a mobile home which is either considered to be real property under State law, or cannot be moved without substantial damage or unreasonable cost.

(c) *Family.* A "family" means two or more individuals who are related by blood, adoption, marriage, or legal guardianship who live together as a family unit. However, upon appropriate determination by the Chief of the Real Estate Division, others who live together as a family unit may be treated as if they were a family for the purpose of determining benefits under title II of the Act.

(d) *Financial means.* For the purpose of determining financial means of families and individuals, a financial means test (ability to pay) must be made to satisfy the requirements set forth in paragraph 2 of these regulations. In order to meet a financial means test, a determination should be made as to the displaced person's ability to afford the replacement dwelling. In making this determination, the average monthly rental or housing cost (e.g., monthly mortgage payments, insurance for the dwelling unit, property taxes, and other reasonable recurring related expenses) which the displaced person will be required to pay, in general, should not exceed 25 percent of the monthly gross income or the present ratio of housing payment to the income of the displaced family or individual, including supplemental payments made by public agencies.

(e) *Owner.* "Owner" means a person who holds fee title, a life estate, a 99-year lease, or an interest in a cooperative housing project which includes the right of occupancy of a dwelling unit, or is the contract purchaser of any such estates or interest, or who is possessed of such other proprietary interest in the property acquired as, in the judgment of the Chief of the Real Estate Division, warrants consideration as ownership. In the case of one who has succeeded to any of the foregoing interests by devise, bequest, inheritance or operation of law, the tenure of ownership, not occupancy, of the succeeding owner shall include the tenure of the preceding owner.

OFFICE OF EMERGENCY PREPAREDNESS

EHV POWER CIRCUIT BREAKERS AND EHV POWER TRANSFORMERS AND REACTORS

Investigation of Imports—Extension of Time

On August 17, 1972, notice was published in the FEDERAL REGISTER (37 F.R. 16635) that, in accordance with the provisions of section 232 of the Trade Expansion Act of 1962 and OEP Regulation No. 4, the Director of the Office of Emergency Preparedness has ordered an investigation to determine whether or not extra high voltage (EHV) power circuit breakers and EHV power transformers and reactors are being imported into the United States in such quantities or under such circumstances as to threaten to impair the national security.

The time to submit any comment, opinion, or data relative to the investigation was extended to October 23, 1972. Rebuttal to material so submitted is extended to December 7, 1972. Any additional data or comments must be filed by December 22, 1972.

Dated: November 22, 1972.

G. A. LINCOLN,
Director, Office of Emergency Preparedness.

IOWA

Amendment to Notice of Major Disaster

Notice of major disaster for the State of Iowa, dated October 2, 1972, and published October 6, 1972 (37 F.R. 21207), is hereby amended to include the following county among those counties determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of September 26, 1972:

The county of:
Delaware.

Dated: November 22, 1972.

G. A. LINCOLN,
Director, Office of Emergency Preparedness.

[FR Doc.72-20487 Filed 11-28-72;8:51 am]

OHIO

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in me by the President under Executive Order 11575 of December 31, 1970; and by virtue of the Act of December 31, 1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92-209 (85 Stat. 742); notice is hereby given that on November 24, 1972, the President declared a major disaster as follows:

I have determined that the damages in certain areas of the State of Ohio from severe storms and flooding, beginning about November 14, 1972, are of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91-606. I therefore declare that such a major disaster exists in the State of Ohio. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in me by the President under Executive Order 11575 to administer the Disaster Relief Act of 1970 (Public Law 91-606, as amended), I hereby appoint Mr. Robert E. Connor, Regional Director, OEP Region 5, to act as the Federal Coordinating Officer to perform the duties specified by section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of Ohio to have been adversely affected by this declared major disaster:

The counties of:

Erie.	Lucas.
Lake.	Ottawa.
Lorain.	

Dated: November 24, 1972.

[File No. 7-4317 etc.]

ASHLAND OIL, INC., ET AL.

Notice of Applications for Unlisted Trading Privileges and of Opportunity for Hearing

NOVEMBER 22, 1972.

In the matter of applications of the Detroit Stock Exchange, for unlisted trading privileges in certain securities, Securities Exchange Act of 1934.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

	File No.
Ashland Oil, Inc	7-4317
Braniff Airways, Inc	7-4318
Consolidated Foods Corp	7-4319
First Charter Financial Corp	7-4320
Great Western Financial Corp	7-4321
The Louisiana Land and Exploration Co	7-4323
United States Fidelity & Guaranty Co.	7-4326

Upon receipt of a request, on or before December 8, 1972 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, DC 20549 not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[812-3155]

CONNECTICUT GENERAL LIFE INSURANCE CO. ET AL.

Notice of Application for Order Granting Exemption

NOVEMBER 21, 1972.

Notice is hereby given that Connecticut General Life Insurance Co., ("CG Life"), CG Fund, Inc., CG Income Fund, Inc. and CG Equity Sales Co. ("Equity Sales"), Hartford, Conn. 06115 (hereinafter collectively called "Applicants") have filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act"), for an order of the Commission exempting Applicants from Section 22(d) of the Act to the extent specified herein. The application was initially noticed on May 19, 1972 (Investment Company Act Release No. 7184). The notice was subsequently withdrawn on June 9, 1972 (Investment Company Act Release No. 7224). The application is hereby re-noticed in accordance with Applicant's request. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

CG Fund, Inc., and CG Income Fund, Inc. are diversified, open-end management investment companies. The principal objective of CG Fund, Inc. is long-term growth of capital, and the principal objective of CG Income Fund, Inc. is to provide as generous a level of current income as possible consistent with reasonable concern for safety of principal. Equity Sales, a registered broker-dealer under the Securities Exchange Act of 1934, is the principal underwriter of the shares of CG Fund, Inc. and CG Income Fund, Inc. All of the issued and outstanding shares of Equity Sales are owned by CG Investment Management Co., the investment adviser to CG Fund, Inc. and CG Income Fund, Inc. CG Investment Management Company is a wholly-owned subsidiary of Connecticut General Insurance Corp., the parent corporation of CG Life.

Shares of both CG Fund, Inc. and CG Income Fund, Inc. are offered to the public at net asset value plus a sales charge grading downward from 7.5 percent of the public offering price, in accordance with the following table:

Total investment	Sales charge as percent of offering price
Less than $10,000	7.5
$10,000 but less than $25,000	6.0
$25,000 but less than $50,000	5.0
$50,000 but less than $100,000	3.0
$100,000 but less than $250,000	2.0
$250,000 but less than $500,000	1.5
$500,000 but less than $1,000,000	1.0
$1,000,000 or more	1.0

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter shall sell any redeemable security to the public except at a current public offering price described in the prospectus. The

V 37-230 NOV 29 72 XUM

section has been construed as prohibiting variations in the sales load except on a uniform basis. Exemption is requested from section 22(d) to permit the application of amounts payable under insurance contracts issued by CG Life ("insurance proceeds") to the purchase at a reduced sales charge of shares of CG Fund, Inc. and CG Income Fund, Inc. These insurance proceeds include the death benefit under life policies, the maturity value of endowment contracts, the cash value of fixed-dollar life insurance and annuity contracts, and lump sum cash options available to beneficiaries. The insurance proceeds would be applied to purchase shares of CG Fund, Inc. and CG Income Fund, Inc. at a reduced sales load, grading downward from 5.25 percent of the public offering price, depending on the amount of the purchase, in accordance with the following table:

Total investment	Sales charge as percent of offering price
Less than $10,000	5.25
$10,000 but less than $25,000	4.20
$25,000 but less than $50,000	3.50
$50,000 but less than $100,000	2.80
$100,000 but less than $250,000	2.10
$250,000 but less than $500,000	1.40
$500,000 but less than $1,000,000	1.05
$1,000,000 or more	.70

This application states that the variation in the rate of deduction does not arbitrarily discriminate among different categories of investors. With respect to shares of CG Fund, Inc. and CG Income Fund, Inc. purchased with insurance proceeds, Applicants state that the premiums on life insurance contracts issued by CG Life, which will be the source of the insurance proceeds, will already have been subject to certain sales charges. The reduction of the sales charge on application of such proceeds to purchase shares of CG Fund, Inc. and CG Income Fund, Inc. will avoid an unnecessary accumulation of charges which would act to the detriment of persons entitled to such proceeds. Therefore the imposition of a full sales charge on such purchases of shares of CG Fund, Inc. and CG Income Fund, Inc. would be unwarranted and not in the public interest or consistent with the protection of investors.

Section 6(c) of the Act provides that the Commission may conditionally or unconditionally exempt any person from any provision of the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than December 18, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed to the Secretary, Securities and Exchange Commission, Washington, DC 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after such date as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.72–20426 Filed 11–28–72;8:46 am]

[70–5177]

CONSOLIDATED NATURAL GAS CO. ET AL.

Amendment Regarding Acquisition by Holding Company of Additional Common Stock of Non-Utility Subsidiary Company

NOVEMBER 21, 1972.

Notice is hereby given that Consolidated Natural Gas Co. (Consolidated), 30 Rockefeller Plaza, New York, NY 10020, a registered holding company, and CNG Development Co., Ltd. (CNG Ltd) and CNG Producing Co. (CNG Company), Four Gateway Center, Pittsburgh, PA 15222, two wholly-owned nonutility subsidiary companies of Consolidated, have filed with this Commission a post-effective amendment to their application-declaration in this proceeding pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(b), 9, 10, and 12 of the Act and Rules 43, 44, and 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the amended application-declaration, which is summarized below, for a complete statement of the proposed transactions.

By order dated May 1, 1972 (Holding Company Act Release No. 17559) Consolidated was authorized, among other things, to acquire 56,000 shares with a par value of $100 (Canadian) per share of CNG Ltd., a new company organized to facilitate the Consolidated System's participation in the development of natural gas reserves in Canada. As of September 30, 1972, Consolidated had acquired, at par, 26,800 shares of CNG Ltd capital stock.

Authority is now requested for CNG Ltd to increase the maximum of such shares for issuance and sale to Consolidated from 56,000 to 86,000 shares or an aggregate par value amount of $8,600,000 (Canadian), which Consolidated proposes to purchase at par from time to time as funds are needed through May, 1973. It is stated that such additional financing is needed by CNG Ltd (i) because it could be called upon for an additional $1 million, through May, 1973 under the CanDel Agreement described in Holding Company Act Release No. 17559; and, (ii) to enable CNG Ltd to enter into an agreement with Murphy Oil Company Ltd. (Murphy), a nonaffiliate, whereby CNG Ltd will purchase from Murphy, for $1,250,000 (Canadian), an undivided 12.5 percent interest in Canadian exploratory permits and licenses to explore over 2.1 million acres offshore of Cape Breton Island, N.S. In addition, CNG Ltd will advance $750,000 (Canadian) to Murphy in 1973, which advance plus interest thereon is to be repaid by Murphy from proceeds of production from the subject acreage.

CNG Ltd. is to obtain the first competitive call to purchase gas accruing to Murphy from the latter's remaining undivided 25 percent interest in the acreage (the balance of 62½ percent being held by other non-affiliated interests) and Murphy is to obtain the first right to purchase oil accruing to CNG Ltd. from its 12.5 percent interest.

It is stated that no State Commission and no Federal Commission, other than this Commission, has jurisdiction over the proposed transaction; and that the fees and expenses to be incurred in connection with the transaction proposed in the post-effective amendment are estimated at $600, including $500 payable to Consolidated Natural Gas Service Co., Inc., a service company subsidiary of Consolidated, for its services at cost.

Notice is further given that any interested person may, not later than December 15, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air-mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as now amended or as it may be further amended may be granted and permitted to become effective in the manner provided by Rule

23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

DU PONT GLORE FORGAN INC.

Notice of Filing of Application for an Order of Exemption

NOVEMBER 22, 1972.

Notice is hereby given that Du Pont Glore Forgan Inc. (Applicant), 833 Wilshire Boulevard, Los Angeles, CA 90017, in connection with a proposed public offering of up to 1,650,000 shares of common stock (Common Shares) and 1,100,000 shares of cumulative preference stock (Preference Shares) (collectively the "shares") of CNA-Larwin Investment Co. (Company), a registered, closed-end, diversified management investment company, has filed an Application pursuant to section 6(c) of the Investment Company Act of 1940 (Act) for an order exempting certain transactions from section 30(f) of the Act to the extent that such section adopts section 16 of the Securities Exchange Act of 1934 (Exchange Act). All interested persons are referred to the Application on file with the Commission for a statement of the representations therein, which are summarized below.

Applicant is the prospective representative (Representative) of a group of underwriters (Underwriters) to be formed in connection with the aforementioned public offering. Applicant contemplates that each underwriter, including the Representative, will execute an Agreement Among Underwriters and that the Representative, acting both for itself and as Representative of the several Underwriters, will execute an Underwriting Agreement with the Company and CNA-Larwin Advisors, Inc., the Company's investment adviser (Adviser) and the Larwin Group, Inc., the Adviser's parent.

Applicant also states that it is possible that the Underwriter Commitment of any one or more of the Underwriters, including the Representative, will exceed 10 percent of the aggregate number of shares of the Company's Common Shares and/or Preference Shares. Since Section 30(f) of the Act subjects every person who is directly or indirectly the beneficial owner of more than 10 percent of any class of outstanding securities of the Comany to the same duties and liabilities as those imposed by section 16 of the Exchange Act, such Underwriter or Underwriters would become subject to the filing requirements of section 16(a) of the Exchange Act and, upon resale of the shares purchased by them to their customers, subject to the obligations imposed by section 16(b) of the Exchange Act.

Rule 16b–2 under the Exchange Act exempts certain Underwriters from the operation of section 16(b). Applicant states that the purpose of the purchase of the shares by the Underwriters will be for resale in connection with the initial distribution of the shares. Applicant also states that such purchases, therefore, will be transactions effected in connection with a distribution of a substantial block of securities within the purpose and spirit of Rule 16b–2.

Applicant further states that although it is anticipated that the requirements of Rule 16b–2(a) (1) and (2) will be met, one or more of the Underwriters, through their participation in the distribution of the Shares of the Company, may not be entitled to rely upon Rule 16b–2 to exempt them from section 16(b) of the Exchange Act. The requirements in Rule 16b–2(a)(3) that the aggregate participation of Underwriters not within section 16(b) of the Exchange Act be at least equal to the participation of Underwriters exempted therefrom under Rule 16b–2 may not be met because it is possible that one or more of the Underwriters may purchase more than 10 percent of the aggregate number of the shares of the Company's Common Shares and/or Preference Shares to be outstanding after the closing, as a result of obligations to purchase additional shares due to defaults by other Underwriters. Moreover, one or more of the Underwriters who are obligated through the Underwriting Agreement to purchase more than 10 percent of the aggregate number of shares of the Company's Common Shares and/or Preference Shares to be outstanding after the closing, may, as Underwriters and as selected dealers, distribute more than 50 percent of the aggregate number of shares being offered. Such a distribution would not meet the requirement of Rule 16b–2(a)(3).

In addition to purchases of shares from the Company and sales of shares to customers, there may be the usual transactions of purchase or sale incident to a distribution such as stabilizing purchases, purchases to cover over-allotments or other short positions created in connection with such distribution, and sales of shares purchased in stabilization.

Applicant states that there is no inside information in existence since the Company, prior to the initial distribution of the shares, will have no assets other than cash and certain contract rights discribed in the preliminary prospectus, or business of any sort, and all material facts with respect to the Company will be set forth in the prospectus pursuant to which the shares will be offered and sold. No partner, director or officer of Applicant is a director or officer of either the Company or the Adviser, and Applicant states that it is not anticipated that any partner, director or officer of any other Underwriter will be a director or officer of the Company or the Adviser.

Applicant maintains that the requested exemption from the provisions of section 30(f) of the Act is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. It further asserts that the transactions sought to be exempted cannot lend themselves to the practices to which section 16(b) of the Exchange Act and section 30(f) of the Act were enacted to apply.

Section 6(c) of the Act authorizes the Commission to exempt any person, security or transaction, or any class or classes of persons, securities or transactions, from any provision of the Act and Rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than December 11, 1972, at 12:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air-mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the Application herein may be issued by the Commission upon the basis of the information stated in said Application, unless an order for hearing upon said Application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

FIRST NATIONAL FUND, INC.

Notice of Proposal To Terminate Registration

NOVEMBER 22, 1972.

Notice is hereby given that the Commission proposes, pursuant to section 8(f) of the Investment Company Act of 1940 (Act), to declare by order upon its own motion that First National Fund, Inc. (Fund), 155 Sansome Street, San Francisco, CA 94104, a diversified, open-end management investment company registered under the Act, has ceased to be an investment company.

Fund registered under the Act by filing a Notification of Registration on form N-8A with the Commission on May 24, 1956.

At a special meeting of shareholders held on October 26, 1972, shareholders approved an Agreement and Plan of Reorganization (Agreement) contemplating the transfer of substantially all of the assets of Fund to Standard & Poor's/InterCapital Dynamics Fund, Inc. (S & P) in exchange for shares of S & P at adjusted net asset value, and the distribution of shares of S & P to the holders of shares of Fund in liquidation and dissolution of Fund. Fund has informed the Commission that the Agreement was consummated in accordance with its terms on October 30, 1972; that Fund has disposed of all of its assets, except $18,968 in cash retained for the purpose of paying its liabilities and expenses of liquidation; and that Fund is no longer engaged in business as an investment company and does not intend to conduct business as an investment company at any time in the future.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, on its own motion, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and that upon the effectiveness of such order, which may be issued upon the Commission's own motion where appropriate, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 20, 1972 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the Fund at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein may be issued by the Commission upon the basis of the information stated herein, unless an order for hearing thereon shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

SALOMON BROTHERS

Notice of Filing of Application for Exemption

NOVEMBER 22, 1972.

Notice is hereby given that Salomon Brothers (Applicant), One New York Plaza, New York, NY 10004, a registered broker-dealer and one of the prospective representatives of a group of underwriters to be formed in connection with a proposed public offering of shares of the Capital Stock ($0.01 par value) of Fort Dearborn Income Securities, Inc. (the Company), a new, registered closed-end, diversified management investment company, has filed an application, pursuant to section 6(c) of the Investment Company Act of 1940 (Act) for an order exempting Applicant and its co-underwriters from section 30(f) of the Act in respect of their transactions incident to the distribution of Company shares. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Shares of Company (the Registered Shares) are to be purchased by underwriters pursuant to an underwriting agreement to be entered into between Company and the underwriters represented by Applicant. It is intended that the several underwriters will make a public offering of the Registered Shares of Company which such underwriters are to purchase under the underwriting agreement as soon as practicable after the effective date of Company's Registration Statement on form S-4.

The representatives also intend to purchase 6,000 shares of the Company (the Investment Shares) for an approximate price of $104,000 to provide the Company with the initial net worth required by section 14 of the Act.

In addition to purchases from the Company and sales to customers, there may be the usual transactions of purchases or sales incident to a distribution such as stabilizing purchases, purchases to cover over-allotments or other short positions created in connection with such distribution, and sales of shares purchased in stabilization.

It is quite possible that Applicant and one or more other members of the underwriting group may each acquire, in accordance with the provisions of the underwriting agreement, more than 10 percent of the Company's common stock which will be outstanding at the time of the closing of the initial public offering of the shares.

Section 30(f) of the Act subjects every person who is directly or indirectly the beneficial owner of more than 10 percent of any class of outstanding securities of the Company to the same duties and liabilities as those imposed by section 16 of the Securities Exchange Act of 1934 (Exchange Act).

Section 16(a) of the Exchange Act requires insiders to file reports of their holdings and changes in their holdings and section 16(b) makes such insiders liable for short-term trading profits.

Rule 16b-2 under the Exchange Act exempts certain transactions in connection with a distribution of securities from the operation of section 16(b) of the Exchange Act. Applicant states that the purpose of the purchase by Applicant and the other underwriters is for resale in connection with the initial distribution of shares of the Company. The purchases and sales will thus be transactions effected in connection with a distribution of a substantial block of securities within the purpose and spirit of Rule 16b-2.

It is possible, however, that Applicant and certain of the co-underwriters will not be exempted from section 16(b) by the operation of Rule 16b-2, as they may fail to meet the requirement stated in paragraph (a)(3) of Rule 16b-2 that the aggregate participation of persons not within the purview of section 16(b) of the Exchange Act be at least equal to the participation of persons receiving the exemption under Rule 16b-2. It is possible that one or more of the underwriters who, pursuant to the underwriting agreement, will purchase more than 10 percent of the shares of the Company, may be obligated to purchase more than 50 percent of such shares being offered pursuant to the underwriting agreement. Moreover, Rule 16b-2 will not exempt the underwriters subject to section 30(f) from the provisions of section 16(a).

Applicant states that there is no "inside information" in existence since the Company, prior to the purchase of the Investment Shares and distribution of the Registered Shares, will have no assets or business of any sort, and detailed information with respect to the Company will be set forth in the prospectus incorporated in the Registration Statement.

Applicant submits that the requested exemption from the provisions of section 30(f) of the Act is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. It is further submitted that the transactions sought to be exempted cannot lend themselves to the practices section 16 of the Exchange Act and section 30(f) of the act were enacted to prevent.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction, or any class or classes of persons, securities, or transactions from any provision of the Act and rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice if further given that any interested person may, not later than December 7, 1972 at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air-mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the Application herein may be issued by the Commission upon the basis of the information stated in said Application, unless an order for hearing upon said Application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of

TAURSA FUND, INC.

Notice of Proposal To Terminate Registration

NOVEMBER 22, 1972.

Notice is hereby given that the Commission proposes, pursuant to section 8(f) of the Investment Company Act of 1940 (Act), to declare by order upon its own motion that Taursa Fund, Inc. (Fund), c/o Warren Allen Smith, 94 Millport Avenue, New Canaan, CT 06840, a diversified, open-end management investment company registered under the Act, has ceased to be an investment company.

Fund registered under the Act by filing a Notification of Registration on form N-8A with the Commission on May 5, 1969. At that time, it had every intention of making a public offering of its securities. However, subsequent developments have precluded the Fund from completing its plans for such an offering, and its president has informed the Commission that the Fund has never made, nor does it propose to make, a public offering; that it has only 14 shareholders; that as of October 27, 1972 it had net assets aggregating $36,221.62; and that its portfolio will be liquidated and a final liquidating dividend will be paid by December 31, 1972.

Section 3(c)(1) of the Act excepts from the definition of an investment company any issuer whose outstanding securities are beneficially owned by not more than one hundred persons and which is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, on its own motion, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and that upon the effectiveness of such order, which may be issued upon the Commission's own motion where appropriate, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 20, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air-mail if the person being served is located more than 500 miles from the point of mailing) upon the Fund at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein may be issued upon the basis of the information stated herein, unless an order for hearing thereon shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

SELECTIVE SERVICE SYSTEM

REGISTRANTS PROCESSING MANUAL

The Registrants Processing Manual is an internal manual of the Selective Service System. The following portions of that manual are considered to be of sufficient interest to warrant publication in the FEDERAL REGISTER. Therefore these materials are set forth in full as follows:

TEMPORARY INSTRUCTION 600-3

DISTRIBUTION OF REGISTRANT PROCESSING MANUAL

Due to the many instances of local board consolidation, relocation, and collocation now taking place, RPM chapters and revisions will continue to be distributed as they have been in the past, until further notice. You will be notified when the distribution schedule contained in Table No. 600-1 (October 1, 1972) of Chapter 600 of the RPM is to be implemented.

This temporary instruction will terminate on June 30, 1973.

Issued: November 20, 1972.

TEMPORARY INSTRUCTION No. 660-6

PROCESSING OF REGISTRANTS IN CLASS 1-O IN CONJUNCTION WITH THE OCTOBER, NOVEMBER, AND DECEMBER 1972 INDUCTION CALLS

1. The highest reached number for the year 1972 is established at RSN 095. (Reference § 1631.6 SSR, Chapter 631.6 RPM.)

2. *October 1972.* In conjunction with the October 1972 induction call, all fully available registrants in Class 1-O in the First Priority Selection Group, with RSN 095 or below, will be selected for alternate service in lieu of induction. Selection notices will be issued beginning September 1, 1972, and not later than September 29, 1972. (Reference Part 1660, SSR.)

3. *November 1972.* In conjunction with the November 1972 induction call, all fully available registrants in Class 1-O in the First Priority Selection Group, with RSN 095 or below, will be selected for alternate service in lieu of induction. Selection notices will be issued beginning October 2, 1972, and not later than October 30, 1972. (Reference Part 1660, SSR.)

4. *December 1972.* In conjunction with the December 1972 induction call, all fully available registrants in Class 1-O in the First Priority Selection Group, with RSN 095 or below, will be selected for alternate service in lieu of induction. Selection notices will be issued beginning November 1 and not later than November 30, 1972. (Reference Part 1660, SSR.)

The last day a 1-O registrant can be issued an SSS Form 153, with the exceptions listed below, is November 30, 1972, because the date of reporting for alternate service during December 1972, shall not be later than December 11, 1972. The exceptions are:

1. Postponed registrants whose postponements terminate in December.

2. Volunteers for alternate service.

3. Violators who are willing to commence alternate service in December.

These registrants may be ordered to commence alternate service during the period December 12 through 19 and December 26 through 28, 1972.

In the interests of equity, every available 1-O registrant, RSN 1-95, should be ordered to report for an assignment in accordance with the above schedule. (Reference Part 1660, SSR.)

5. Any registrant ordered for alternate service who attains the 26th anniversary of his date of birth prior to the date scheduled to report for alternate service shall have his order canceled. Accordingly, a notice of selection will not be issued to a registrant where his age exceeds 25 years and 9 months. (Reference § 1631.6(d)(7), SSR.)

This temporary instruction will terminate on December 29, 1972.

Issued: August 30, 1972.

Amended: November 2, 1972.

BYRON V. PEPITONE, *Acting Director.*

NOVEMBER 20, 1972.

TARIFF COMMISSION

[AA1921-101]

WOOL AND POLYESTER/WOOL WORSTED FABRICS FROM JAPAN

Determination of No Injury or Likelihood Thereof

NOVEMBER 24, 1972.

The Treasury Department advised the Tariff Commission on August 25, 1972, that wool and polyester/wool worsted fabrics from Japan are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160(a)), the Tariff Commission instituted investigation No. AA1921-101 to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

A public hearing was held October 24-27, 1972. Notice of the investigation and hearing was published in the FEDERAL REGISTER of September 1, 1972 (37 F.R. 17876).

In arriving at a determination in this case, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of the investigation, the Commission[1] has determined that an industry in the United States is not being or is not likely to be injured, or is not prevented from being established, by reason of the importation of wool and polyester/wool worsted fabrics from Japan sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

STATEMENT OF REASONS[2]

In this antidumping proceeding involving imports of wool and polyester/wool worsted fabrics from Japan we have made a negative determination.

In making such determination, we have considered the U.S. industry to consist of those facilities in the United States engaged in the production of wool and polyester/wool worsted fabrics.[3] In recent years such worsted fabrics have been produced by about a dozen firms, four of which accounted for more than 75 percent of total U.S. production in 1971.

Demand for both domestically manufactured and imported wool and polyester/wool worsted fabrics declined substantially from 1969 through the first 6 months of 1972. This decline was attributable at first to a decline in the production of men's suits and later to a shift in consumer preference to double-knit and textured polyester woven fabrics in suits and other men's and boys' outerwear, which constitute 90 percent of the market for worsted fabrics. These conditions in the U.S. marketplace caused a decline in the production of worsted fabrics, which was accompanied by an enormous increase in the production of double-knit and textured polyester woven fabrics, to a great extent by producers of the worsteds themselves.

Imports of wool and polyester/wool worsted fabrics from Japan—which the Treasury Department found were sold at less than fair value (LTFV) between November 1970 and May 1971—declined at a more rapid rate than did U.S. production. As a proportion of domestic consumption, such imports are at present barely half as large as they were in 1969.

The decline in domestic production of worsted fabrics occurred not only in the production of the higher priced fabrics of plied yarns used primarily in men's suits—like nearly all the LTFV imports—but also in that of fabrics of single and coarser yarns used principally in slacks and sport jackets. Moreover, the loss in sales by the U.S. manufacturers in 1970 and 1971 occurred earliest and with greatest impact among domestic producers of the less expensive worsted fabrics, which were least affected by competition from Japanese imports and were most exposed to replacement by double-knit fabrics.

The Japanese worsted fabrics found to have been sold at LTFV were generally priced well above domestic worsted fabrics, and the differential actually widened between 1969 and July 1972 as the price of the Japanese worsted fabrics increased and the price of the domestic worsted fabrics declined. The decline in the price of the domestic worsteds, moreover, was not confined to those of plied yarns, like the imported fabrics, but occurred in those of single yarns, most of which were sold to different customers and used in different articles of apparel. All of the evidence available to the Commission indicates that the price reduction (or the absence of a price increase)

[1] Vice Chairman Parker and Commissioner Young did not participate in the decision.

[2] Commissioner Abiondi concurs in the result.

[3] In the opinion of Commissioner Leonard, there is a question whether the industry, as defined above, should not include facilities used by the same firms in the production of double-knit and textured polyester fabrics, which have largely replaced wool and polyester/wool worsteds in men's and boys' outerwear during the last 2 years.

V 37-230 NOV 29 72 XUM

by the U.S. industry in this period was attributable to the competition of double-knit fabrics and not to the imports from Japan sold at less than fair value.

The decline in the demand for worsted fabrics resulted in the closing of worsted plants and in reduced corporate profits and actual losses. Beginning in the latter half of 1971 there was a strong improvement in the operating experience of leading producers, as a result of their growing shift to double-knits, textured polyester, and other fabrics for which there was an active demand. By the fall of 1972, after more than half of the worsted manufacturing capacity had been dismantled or converted to other use, there was renewed demand for worsteds. The remaining capacity of the largest producer was operating 6 days a week, and prices of domestic worsted fabric for delivery in the 1972–73 season ranged 15 to 35 percent above those in the year before.

Four separate industries are alleged by representatives of domestic producers to be injured by importation from Japan of fabric covered by the Treasury determination. These are the industry producing the fabric itself, that producing the yarn of which the fabric is made, that producing the wool top used in the yarn, and that dyeing the top, yarn, or woven fabric.

On the basis of the facts which have been stated, we conclude that the U.S. industry producing the fabrics is not being, or is not likely to be, injured by reason of imports of wool and polyester/wool worsted fabrics from Japan. We also conclude that the industries serving that industry are not being, or are not likely to be, injured by such imports.

By order of the Commission.

[SEAL] KENNETH R. MASON, *Secretary.*

DEPARTMENT OF LABOR

Bureau of Labor Statistics

BUSINESS RESEARCH ADVISORY COUNCIL'S COMMITTEE ON OCCUPATIONAL SAFETY AND HEALTH STATISTICS

Notice of Meeting

The BRAC Committee on Occupational Safety and Health Statistics will meet at 10 a.m., December 4, 1972, at the General Accounting Office Building, 441 G Street NW., Room 4454, Washington, DC. Agenda for the meeting follow:

1. Annual Survey Status.
2. Statistical Grant Agency Progress.
3. Response Analysis Survey.
4. Expenditures on Training and Equipment.
5. Revision of the Recordkeeping System.

Signed at Washington, D.C., this 22d day of November 1972.

GEOFFREY H. MOORE, *Commissioner of Labor Statistics.*

LABOR RESEARCH ADVISORY COUNCIL

Committee on Industrial Safety

The Labor Research Advisory Council Committee on Industrial Safety will meet at 10 a.m., December 13, 1972 in Room 4535, General Accounting Office Building, 441 G Street NW., Washington, D.C. Agenda for the meeting follows:

1. Annual Survey Status.
2. Statistical Grant Agency Progress.
3. Response Analysis Survey.
4. Expenditures on Training and Equipment.
5. Revision of the Recordkeeping System.

It is suggested that persons planning to attend this meeting as observers contact Joseph P. Goldberg, Executive Secretary, Labor Research Advisory Council on (Area Code 202) 961-2247.

Signed at Washington, D.C., this 17th day of November 1972.

GEOFFREY H. MOORE, *Commissioner of Labor Statistics.*

Occupational Safety and Health Administration

ADVISORY COMMITTEE ON AGRICULTURE—ROLLOVER PROTECTIVE STRUCTURES

Notice of Meeting; Request for Information

Notice is hereby given that the Rollover Protective Structure Subcommittee of the Standards Advisory Committee on Agriculture, established under section 7 (b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656), will meet on Tuesday, December 19, and Wednesday, December 20, 1972, at the Institute of Agricultural Medicine, Oakdale Campus, University of Iowa, Oakdale, Iowa 52241.

The Subcommittee will consider what advice is to be given to the Assistant Secretary for Occupational Safety and Health on a new standard concerning rollover protective structures on vehicles used in agricultural operations. The Subcommittee invites interested persons to submit information on the following aspects of rollover protective structures and related issues which will serve as the agenda for the meeting:

1. The nature and extent of farm tractor overturns;

2. The effectiveness of protective frames and protective cabs in eliminating or reducing injury from overturns;

3. Any problems involved in the use of tractors equipped with protective frames or cabs, and means of solving such problems while, at the same time, protecting the operators of the tractors;

4. Whether any requirements for rollover protective structures are feasible for tractors presently in use.

Such information should be submitted in writing prior to December 8, 1972, and should be addressed to Mr. Charles E. Wilson, Attention: ROPS Subcommittee, Room 308, Railway Labor Building, 400 First Street NW., Washington, DC 20210. Documents submitted to the Subcommittee in response to this notice shall comprise part of the record of the Subcommittee proceedings under 29 CFR 1912.33.

This meeting shall be open to the public.

Signed at Washington, D.C., this 22d day of November 1972.

G. C. GUENTHER, *Assistant Secretary of Labor.*

INTERSTATE COMMERCE COMMISSION

[Notice 125]

ASSIGNMENT OF HEARINGS

NOVEMBER 24, 1972.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 115311 Sub 134, J&M Transportation Co., Inc., now being assigned hearing February 5, 1973 (2 weeks), at Atlanta, Ga., in a hearing room to be later designated.

MC-F-11589, Jim Tiona, Jr.—purchase (portion)—Monkem Co., Inc., now being assigned hearing January 29, 1973 (2 days), at Kansas City, Mo., in a hearing room to be later designated.

MC-F-11502, Holmes Freight Lines, Inc.—control—Byers Transportation Co., Inc., and Commercial Freight Lines, Inc., now being assigned hearing January 31, 1973 (3 days), at Kansas City, Mo., in a hearing room to be later designated.

MC 42011 Sub 10, D. Q. Wise & Co., Inc., now being assigned hearing February 5, 1973 (2 days), at Kansas City, Mo., in a hearing room to be later designated.

MC 35629 Sub 334, Interstate Motor Freight System, now being assigned hearing February 7, 1973 (3 days), at Kansas City, Mo., in a hearing room to be later designated.

MC-117565 Sub 30, Motor Service Co., Inc., now assigned December 6, 1972, at Louisville, Ky., is canceled and application dismissed.

MC 119777 Sub 208, Ligon Specialized Hauler, Inc., now being assigned hearing January 15, 1973 (2 weeks), at Tampa, Fla., in a hearing room to be later designated.

[Notice 32]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

NOVEMBER 24, 1972.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation routes herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

No. MC-1515 (Deviation No. 636) (Cancels Deviation No. 623), GREYHOUND LINES, INC. (Eastern Division), 1400 West Third Street, Cleveland, OH 44113, filed November 14, 1972. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over deviation routes as follows: (1) From Savannah, Ga., over Interstate Highway 16 to junction Interstate Highway 95, thence over Interstate Highway 95 to junction U.S. Highway 16, approximately 1 mile south of Richmond Hill, Ga., and (2) from junction Interstate Highway 95 and U.S. Highway 17, approximately 1 mile south of Newport, Ga., over Interstate Highway 95 to Junction U.S. Highway 25, thence over U.S. Highway 25 to Brunswick, Ga., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: between Savannah, Ga., and Brunswick, Ga., over U.S. Highway 17.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 34]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

NOVEMBER 24, 1972.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969 (49 CFR 1042.4(d)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(d)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(d)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC-525 (Deviation No. 1), BAY TRANSPORTATION CO., INC., Post Office Box 2268, Dothan, AL 36301, filed November 9, 1972. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: Between Columbus, Ga., and Dothan, Ala., over U.S. Highway 431, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Dothan, Ala., over Alabama Highway 52 to the Alabama-Georgia State line, thence over Georgia Highway 62 to junction U.S. Highway 27, thence over U.S. Highway 27 to Columbus, Ga., and return over the same route.

No. MC-48958 (Deviation No. 42), ILLINOIS-CALIFORNIA EXPRESS, INC., Post Office Box 9050, Amarillo, TX 79105, filed November 15, 1972. Carrier's representative: Morris G. Cobb, same address as applicant. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Fort Worth, Tex., over U.S. Highway 180 to junction U.S. Highway 183, thence over U.S. Highway 183 to junction Interstate Highway 20 (U.S. Highway 80), thence over Interstate Highway 20 (U.S. Highway 80), to Abilene, Tex., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Wichita Falls, Tex., over U.S. Highway 281 to Jacksboro, Tex., thence over Texas Highway 199 to Fort Worth, Tex., thence over U.S. Highway 80 to Dallas, Tex., (2) from Jacksboro, Tex., over Texas Highway 199 to Seymour, Tex., thence over U.S. Highway 283 to the Texas-Oklahoma State line, (3) from Olney, Tex., over Texas Highway 199 to Jean, Tex., thence over Texas Farm or Ranch Road 1769 to junction Texas Highway 24, thence over Texas Highway 24 to Graham, Tex., (4) from New Castle, Tex., over Texas Highway 24 to Throckmorton, Tex., (5) from Abilene, Tex., over Texas Highway 351 to junction U.S. Highway 180, thence over U.S. Highway 180 to Albany, Tex., thence over U.S. Highway 283 to Throckmorton, Tex., and (6) from Graham, Tex., over Texas Highway 24 to New Castle, Tex., thence over Texas Highway 251 to Olney, Tex., thence over Texas Highway 79 to Wichita Falls, Tex., and return over the same routes.

No. MC-61788 (Deviation No. 2), GEORGIA FLORIDA ALABAMA TRANSPORTATION COMPANY, Post Office Box 2268, Dothan, AL 36301, filed November 10, 1972. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Dothan, Ala., over U.S. Highway 231 to junction Interstate Highway 10, thence over Interstate Highway 10 (using U.S. Highway 90 pending completion of any unfinished portions of Interstate Highway 10) to Pensacola, Fla., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Dothan, Ala., over Alabama Highway 52 to Opp, Ala., thence over U.S. Highway 331 to the Alabama-Florida State line, thence over Florida Highway 85 to Crestview, Fla., thence over U.S. Highway 90 to Pensacola, Fla., and return over the same route.

No. MC-71459 (Deviation No. 2), O. N. C. FREIGHT SYSTEM, 2800 West Bayshore Road, Palo Alto, CA 94303, filed November 9, 1972. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction U.S. Highway 70 and 666, near Safford, Ariz., over U.S. Highway 666 to junction Interstate Highway 10, thence over Interstate Highway 10 to junction U.S. Highway 180, at Deming, N. Mex., and return

V 37-230 NOV 29 72 XUM

V 37-230 NOV 29 72 XUM

over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Phoenix, Ariz., over U.S. Highway 70 to junction New Mexico Highway 90, at or near Lordsburg, N. Mex., thence over New Mexico Highway 90 to Silver City, N. Mex., and (2) from Silver City, N. Mex., over U.S. Highway 180 to Deming, N. Mex., thence over U.S. Highway 80 (Interstate Highway 10) to junction U.S. Highway 180 (Interstate Highway 10), thence over U.S. Highway 180 to El Paso, Tex., and return over the same routes.

No. MC–71459 (Deviation No. 3), O. N. C. FREIGHT SYSTEM, 2800 West Bayshore Road, Palo Alto, CA 94303, filed November 15, 1972. Carrier proposes to operate as *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Portland, Oreg., over U.S. Highway 26 to junction U.S. Highway 97, thence over U.S. Highway 97 to junction Oregon Highway 58, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Portland, Oreg., over U.S. Highway 99–E to junction U.S. Highway 99, (Interstate Highway 5), thence over U.S. Highway 99 to junction Oregon Highway 164 at a point north of Jefferson, Oreg., thence over Oregon Highway 164 to junction U.S. Highway 99 at a point south of Jefferson, Oreg., thence over U.S. Highway 99 to Medford, Oreg., and (2) from Klamath Falls, Oreg., over U.S. Highway 97 to junction Oregon Highway 232 (south of Fort Klamath), thence over Oregon Highway 232 to junction U.S. Highway 97 (north of Lenz, Oreg.), thence over U.S. Highway 97 to junction Oregon Highway 58, thence over Oregon Highway 58 to Goshen, Oreg., and return over the same routes.

By the Commission.

[Notice 96]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

NOVEMBER 24, 1972.

The following publications[1] are governed by the new § 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

[1] Except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality or the human environment resulting from approval of its application.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

No. MC 135652 (Sub-No. 1) (Republication) filed June 1, 1971, published in the FEDERAL REGISTER issue of July 15, 1971, and republished this issue. Applicant: SERVICE TRANSFER, INC., 4557 Princess Anne Road, Virginia Beach, VA 23462. Applicant's representative: L. C. Major, Jr., Suite 301, Tavern Square, 421 King Street, Alexandria, VA 22314. An Order of the Commission, Division 1, Acting as an Appellate Division, dated November 2, 1972, and served November 16, 1972, finds: (a) the proposed operation to be that of a *common carrier* by motor vehicle, and that the said application, therefore, to the extent it seeks *contract carrier* authority should be denied; and (b) that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes (1) Of *general commodities* (except commodities in bulk), in containers or in trailers having a prior or subsequent movement by water, and (2) of *empty containers, trailers,* and *chassis,* between points in a territory consisting of the commercial zones of Norfolk, Portsmouth, Hampton, Virginia Beach, Newport News, and Chesapeake, Va., restricted in (1) and (2) to the transportation of traffic moving through the facilities utilized by United States Lines; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. NOTE: The authority granted herein for the transportation of dangerous explosives, shall be limited, in point of time, to a period expiring 5 years from the effective date of the certificate. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

NOTICES FOR FILING OF PETITIONS

No. MC 3256 (Sub-No. 2) (Notice of Filing of Petition To Add a Shipper), filed November 14, 1972. Petitioner: BURKHAM BROTHERS, INC., 385 Route No. 22, Hillside, NJ 07205. Petitioner's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Petitioner presently holds a permit in No. MC 3256 (Sub-No. 2) authorizing operation as a contract carrier, by motor vehicle, over irregular routes, transporting: *Paper, paper products, and products* used in the manufacture of paper (except liquid commodities, in bulk, and commodities which, because of size or weight, require the use of special equipment), between Hillside, N.J., on the one hand, and, on the other, points in that part of the New York, N.Y., commercial zone as defined in *Commercial Zones and Terminal Areas*, 54 M.C.C. 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Act (the "exempt" zone), points in Nassau, Suffolk, Orange, Rockland, and Westchester Counties, N.Y., points in New Jersey, Philadelphia, Pa., and points in Fairfield County, Conn. Restriction: The operations authorized herein are limited to a transportation service to be performed under a continuing contract, or contracts, with Federal Paper Board Co., Inc., of New York, N.Y. By the instant petition, petitioner seeks to add Rothesay Shipping, Ltd., at New Brunswick, Canada, as an additional shipper to the permit described above. Any interested person desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC–87720 (Sub-No. 83) (Notice of Filing of Petition for Modification of Commodity Description), filed August 28, 1972. Petitioner: BASS TRANSPORTATION COMPANY, INC., Post Office Box 391, Flemington, NJ 08822. Petitioner's representative: Bert Collins, 140 Cedar Street, New York NY 10006. Petitioner holds a permit in No. MC–87720 (Sub-No. 83), which reads as follows: Irregular routes: *Plastic pellets or granules and powder, and plastic scrap,* (a) between points in Bergen, Essex, Middlesex, and Union Counties, N.J., on the one hand, and, on the other, points in that part of Pennsylvania, on and east of a line beginning at the Pennsylvania-Maryland State line and extending along unnumbered highway (formerly portion U.S. Highway 111) through Shrewsbury and Jacobus, Pa., to junction Interstate Highway 83, thence along Interstate Highway 83 through York, Pa., to junction unnumbered highway (formerly portion U.S. Highway 111), thence along unnumbered highway to junction Pennsylvania Highway 295, thence along Pennsylvania Highway 295 through Zions View and Strinestown, Pa., to junction Interstate Highway 83, thence along Interstate Highway 83 through Lemoyne, Pa., to junction unnumbered highway (formerly portion U.S. Highway 111), thence along unnumbered highway to junction U.S. Highway 15, near Harrisburg, Pa., and thence along U.S. Highway 15, near Harrisburg, Pa., and thence along U.S. Highway 15 to the Pennsylvania-New York State line; (b)

between points in Bergen, Essex, Hunterdon, Middlesex, and Union Counties, N.J., on the one hand, and, on the other, points in Connecticut, Massachusetts, New York, and Rhode Island, under a continuing contract or contracts with Tenneco, Inc., of Piscataway, N.J. By the instant petition, petitioner requests that its permit be modified to authorize the transportation of *chemicals* in lieu of *plastic pellets or graules and powder, and plastic scrap.* Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 126600 and (Sub-Nos. 1 and 5) (Notice of Filing of Petition To Add a Shipper), filed October 18, 1972. Petitioner: EHRSAM TRANSPORT, INC., 108 North Factory, Enterprise, KS 67441. Petitioner's representative: Mr. Robert Storey, Garland House Building, 820 Quincy Street, Topeka, KS 66612. Petitioner presently holds permits in No. MC 126600 and (Sub-Nos. 1 and 5) issued August 3, 1965, August 21, 1967, and October 8, 1970, respectively, authorizing operation as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) In No. MC 126600, *Materials handling and processing equipment, elevator equipment, power transmission equipment, foundry castings, and materials and supplies* used in the manufacture of such commodities (except commodities the transportation of which because of their size or weight require the use of special equipment), and except commodities in bulk), between Enterprise, Wichita, and Clay Center, Kans., on the one hand, and, on the other, points in the United States, including Alaska, but excluding Hawaii, under a continuing contract, or contracts, with Combustion Engineering, Inc., Ehrsam Wichita Foundry, Inc., and Ehrsam, Inc.; (2) in No. MC 126600 (Sub-No. 1), *Forest products and lumber products* (except in bulk), and *agricultural commodities* (not including manufactured products thereof) as defined in section 203(b)(6) of the Interstate Commerce Act when transported in the same vehicle and at the same time with forest products and lumber products (except in bulk), from points in Washington, Oregon, Idaho, California, and Arizona, to points in Kansas, Missouri, Oklahoma, and Texas, with no transportation for compensation on return, except as otherwise authorized, under a continuing contract, or contracts, with Combustion Engineering, Inc.; and (3) in No. MC 126600 (Sub-No. 5), *Materials handling and processing equipment, elevator equipment, power transmission equipment, foundry castings, and materials and supplies* used in the manufacture of such commodities, except in bulk, between Concordia, Kans., on the one hand, and, on the other, points in the United States, and the District of Columbia, except Alaska, Hawaii, and Cushing, Okla., under a continuing contract, or contracts, with Combustion Engineering, Inc. By the instant petition, petitioner seeks to add North Central Foundry, Inc., as an additional shipper to its above-listed permits, resulting from the sale of the foundry portion of Combustion Engineering's Enterprise, Kans., facility to North Central Foundry, Inc. Any interested person desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240.)

MOTOR CARRIERS OF PROPERTY

No. MC–F–11721. Authority sought for purchase by A. RICHNER, INC., doing business as RICHNER, INC., Post Office Box 1488, Durango, CO 81301, of a portion of the operating rights and property of (1) DON WARD, INC., 241 West 56th Avenue, Denver, CO 80216, and of the operating rights and property of (2) RICHNER, INC., also of Durango, Colo. 81301, and for acquisition by BOYD E. RICHNER, 305 Fourth Avenue, Durango, CO 81301, of control of such rights and property through the purchase. Applicants' attorney: Peter J. Crouse, 1700 Western Federal Building, Denver, CO 80202. Operating right sought to be transferred: (1) *Sulphuric acid,* in bulk, in tank vehicles, as a *common carrier* over irregular routes, from Garfield, Utah, to Maybell, Colo., from Garfield and Thompson, Utah, to Slick Rock, Colo., from Rico, Colo., to Monticello, Utah, from points within 25 miles of Grants, N. Mex. (not including Grants), to points in Colorado of the Continental Divide, from Riverton, Wyo., and points within 5 miles thereof, and Rifle, Colo., to Maybell, Colo., and points within 10 miles thereof, from Grand Junction, Colo., to Uravan, Colo.; *vanadium liquor,* in bulk, in tank vehicles, between points in McKinley and Valencia Counties, N. Mex., on the one hand, and, on the other, Salt Lake City, Utah, and points in La Plata, Mesa, and Montrose Counties, Colo., from the facilities of United Nuclear-Homestake Partners near Grants, N. Mex., to points in Garfield County, Colo.; (2) *soda ash,* as a *common carrier* over regular routes, from the site of the Westvaco plant near Green River, Wyo., to the plantsite of the Vanadium Corp of America at Durango, Colo., from the site of the Westvaco plant near Green River, Wyo., to the plantsite of the Vanadium Corp. of America at Naturita, Colo., serving no intermediate points; *soda ash,* over irregular routes, from the site of the Westvaco plant near Green River, Wyo., to Shiprock, N. Mex., and Moab and Monticello, Utah, and points within 5 miles of each; *soda ash,* in bags, from the site of the Westvaco Chemical Co. plant near Green River, Wyo., to Uravan, Colo.; *soda ash,* in bulk, from the site of the Westvaco Chemical Co. plant near Green River, Wyo., to Grand Junction, Uravan, and Gunnison, Colo., the site of Phillips Petroleum and Chemical Co. plant about 24 miles northwest of Grants, N. Mex., and the site of the Homestake of New Mexico Partners plant near Grants, N. Mex.; *soda ash,* in bulk, in tank-type vehicles, from Thompson and Crescent Junction, Utah, and Grand Junction, Colo., to Uravan, Colo. and to the plantsite of the Vanadium Corp. of America, at or near Durango, Colo., with restriction; ore concentrates, in containers, from points in McKinley and Valencia Counties, N. Mex., within 30 miles of Grants, N. Mex., to the site of the plant of the Atomic Energy Commission located approximately 4 miles from Grant Junction, Colo.; *uranium and vanadium ores,* in bulk, from points within 175 miles of Monticello, Utah, to Naturita and Durango, Colo.; *mining supplies and equipment,* between points within 175 miles of Monticello, Utah, on the one hand, and, on the other, Durango, and Naturita, Colo. Vendee is a noncarrier and holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

NOTICE

CHICAGO AND NORTH WESTERN TRANSPORTATION COMPANY (hereinafter "CNW"), SOO LINE RAILROAD COMPANY (hereinafter "Soo Line"), and the CITY OF WISCONSIN RAPIDS (hereinafter "City") hereby give notice that on the 30th day of October 1972, they filed with the Interstate Commerce Commission at Washington, D.C., an application for approval of an agreement between the CNW and the Soo Line for: (1) Joint ownership and operation over track to be constructed by the city of Wisconsin Rapids approximately 0.61 mile (3,240 feet) in length; (2) for approval of joint operations over other tracks within the city of Wisconsin Rapids owned by the Soo Line or by the CNW 1.90 miles (10,075 feet) in length. Total distance of the proposed joint operation over a line of railroad is 2.52 miles (13,315 feet). The only station involved is the city of Wisconsin Rapids in Wood County, Wis. The proposed joint operation and relocation of operation has been filed to facilitate urban renewal projects funded by the Federal Government in connection with Department of Housing and Urban Development Loan and Contract No. Wisconsin A–2 (LG). This application has been assigned Finance Docket No. 27224. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than 30 days from the

date of first publication in the FEDERAL REGISTER.

Correspondence in regard to this matter should be addressed to Stuart F. Gassner, Chicago and North Western Transportation Co., 400 West Madison Street, Chicago, IL 60606; Robert G. Gehrz, Soo Line Railroad Co., 804 Soo Line Building, Minneapolis, Minn. 55440; John D. Varda, City Attorney, City of Wisconsin Rapids, Wisconsin Rapids, Wis. 54494, and Herro, McAndrews & Porter, S.C., 121 South Pinckney Street, Madison, WI 53703.

In the opinion of the applicants, the Commission's action requested in the application will not have any significant impact upon and will not significantly affect the quality of the human environment.

NOTICE

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD COMPANY, 516 West Jackson Boulevard, Chicago, IL 60606, and its attorney, Warren H. Ploeger, 609 White Building, Seattle, Wash. 98101, hereby give notice that on the 13th day of October 1972, an application was filed with the Interstate Commerce Commission at Washington, D.C., for approval and authorization to acquire trackage rights over and joint use of a line of railroad owned and operated by Burlington Northern, Inc., between Dryad Junction and Raymond, in Lewis and Pacific Counties, State of Washington, a distance of 36.7 miles. The applicant states that no change in service to the public is involved. This application has been assigned Finance Docket No. 27209. In the opinion of the applicant, the proposed transaction will have no effect upon the quality of the human environment. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

By the Commission.

[No. MC-10622]

YOSEMITE PARK AND CURRY CO.

Proposed Discontinuance of Service

It appearing, that applicant doing business as Yosemite Transportation System, holds Certificate No. MC-10622 authorizing the transportation of passengers from and to the points and in the manner set forth below:

It further appearing, that by request filed February 28, 1972, applicant asks that a portion of the said certificate as set forth in the appendix below be revoked for the reason that the proposed operation will be more economical;

It further appearing, that the said request for revocation properly may not be given consideration until such time as the affected members of the public have been given notice thereof and an opportunity to express their positions thereon; and good cause appearing therefor:

It is ordered, That within 30 days of the service date of this order, applicant shall submit to this Commission written proof that notice of the proposed discontinuance of service together with a facsimile of this order (a) has been posted for 7 consecutive days in all buses presently operated over the route sought to be abandoned, and (b) has been published for 6 consecutive days in newspapers of general circulation in Douglas County, Nev., and Mono County, Calif.

It is further ordered, That within 45 days of the service date of this order any person-in-interest may submit to this Commission its written statement, verified under oath as to why it believes that portions of Certificate No. MC-10622 set forth in the appendix below should not be revoked.

It is further ordered, That further consideration of this matter be, and it is hereby, deferred until expiration of the time period for filing of written statements.

It is further ordered, That notice of the request for revocation and of this order be published in the FEDERAL REGISTER.

It is further ordered, That a copy of this order be served upon the Nevada Public Service Commission and California Public Service Commission.

Dated at Washington, D.C., this 21st day of August 1972.

By the Commission, Commissioner Murphy.

[SEAL] ROBERT L. OSWALD, *Secretary.*

APPENDIX

AUTHORITY HELD AND PORTION SOUGHT TO BE REVOKED [1]

[No. MC-10622]

Regular routes: Passengers and their baggage, in the same vehicles with passengers, in seasonal operations extending from July 1 to September 15, both dates inclusive, of each year,

Between Stateline, Nev., and Tioga Pass entrance to Yosemite National Park, Calif., serving all intermediate points:

"From Stateline over U.S. Highway 50 via Spooners Junction, Nev., to junction U.S. Highway 395, at or near Stewart, Nev., thence over U.S. Highway 395 to Lee Vining, Calif.," and thence over California Highway 120 to the Tioga Pass entrance to Yosemite National Park, and return over the same route.

RESTRICTION: The authority granted herein is restricted to the transportation of passengers moving to or returning from Yosemite National Park, Calif.

[Notice 156]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

NOVEMBER 20, 1972.

The following are notices of filing of applications [1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 52673 (Sub-No. 30 TA), filed October 31, 1972. Applicant: FRED OLSON MOTOR SERVICE COMPANY, 6022 West State Street, Post Office Box 7265, Milwaukee, WI 53213. Applicant's representative: Allan B. Torhorst, Post Office Box 307, Burlington, WI 53105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pellets*, in bulk, in tank vehicles, from Chicago, Ill. (except points within the Indiana portion of the Chicago commercial zone), to Baraboo, Wis., for 180 days. Supporting shippers: Flambeau Plastics Corp., Baraboo, Wis. 53913 (Charles Frank, Plant Manager); Klein Industries, Inc., 715 Lynn Avenue, Baraboo, WI 53913 (Paul Swain, Vice President); Teel Plastics Co., Inc., 426 Hitchcock Street, Baraboo, WI 53913 (Oscar Fillhouer, Purchasing Agent). Send protests to: District Supervisor John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, WI 53203.

No. MC 61825 (Sub-No. 55 TA), filed November 2, 1972. Applicant: REDSTONE TRANSFER CORPORATION (Va. Public Service Corp), V. C. Drive, Box 385, Collinsville, VA 24078. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Insulating materials, mineral wool and mineral wool products*, from Mountaintop, Luzerne County, Pa., and Williamstown Junction, N.J., to points in Kentucky, for 180 days. Supporting shipper: Certain-Teed Saint Gobain Insulation Corp., Valley Forge, Pa. 19481. Send protests to: Clatin M. Harmon, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 215 Campbell Avenue SW., Roanoke, VA 24011.

No MC 119241 (Sub-No. 7 TA), filed October 31, 1972. Applicant: PCP TRANSPORTATION COMPANY (Calif. Corp), 9500 South Norwalk Boulevard, Santa Fe Springs, CA 90670. Applicant's representative: Warren N. Grossman, 606 South Olive Street, 825 City National Bank Building, Los Angeles, CA 90014. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Prestressed concrete modules*, 60 feet in length, from Azusa, Calif., to Las Vegas, Nev., under contract with Conrad Constructors, for 180 days. Supporting shipper: Conrad Constructors, 14656 Oxnard Street, Van Nuys, CA 91401. Send protests to: John E. Nance, Officer-in-Charge, Interstate Commerce Commission, Bureau of Operations, Room 7708, 300 North Los Angeles Street, Los Angeles, CA 90012.

No. MC 119934 (Sub-No. 186 TA), filed October 31, 1972. Applicant: ECOFF TRUCKING, INC., 625 East Broadway, Portville, IN 46040. Applicant's representative: J. F. Crouch (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corn syrup*, from Penick & Ford loading station in Ponchatoula, La., to Magee, Miss., for 180 days. Supporting shipper: Penick & Ford Ltd., Post Office Box 448, Harvey, LA 70058. Send protests to: District Supervisor James W. Habermehl, Interstate Commerce Commission, Bureau of Operations, 802 Century Building, 36 South Pennsylvania Street, Indianapolis, IN 46204.

No. MC 123993 (Sub-No. 23 TA), filed November 2, 1972. Applicant: FOGLEMAN TRUCK LINE, INC., 1724 West Mill Street, Post Office Drawer 1504, Crowley, LA 70526. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corn syrup, and blends of corn syrup, and liquid sugar*, from Southdown Sugars, Inc., Houma, La., to points in Alabama, Arkansas, Florida, Mississippi, Tennessee, and Texas, for 180 days. Supporting shipper: Southdown Sugars, Inc., Eighth Floor, Odeco Building, Post Office Box 52378, New Orleans, LA 70150. Send protests to: Paul D. Collins, District Supervisor, Bureau of Operations, Interstate Commerce Commission, T-9038, Federal Building, 701 Loyola Avenue, New Orleans, LA 70113.

No. MC 128114 (Sub-No. 1 TA), filed October 30, 1972. Applicant: PAUL E. SAVAGE, doing business as SAVAGE TRANSPORTATION CO., Building 141, Pasco Airport, Pasco, WA 99302. Applicant's representative: Richter, Wimberley & Ericson, Old National Bank Building, Spokane, Wash. 99201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal feed and feed ingredients*, from points in Benton, Kittitas, Walla Walla, and King Counties, Wash., to points in the counties of Morrow, Umatilla, Marion, Wallowa, Union, Baker, and Malheur, Oreg.; and the counties of Nez Perce, Lewis, Idaho, Latah, Benewah, and Kootenai, Idaho, for 180 days. Supporting shipper: Western Feed Supplements, Northwest, Inc., 303 North Fruitland, Kennewick, Wash. 99336. Send protests to: L. D. Boone, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 6049 Federal Office Building, Seattle, Wash. 98104.

No. MC 128383 (Sub-No. 20 TA), filed November 2, 1972. Applicant: PINTO TRUCKING SERVICE, INC., 1414 Calcon Hook Road, Sharon Hill, PA 19079. Applicant's representative: James W. Paterson, 123 South Broad Street, Philadelphia, PA 19109. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, and commodities the transportation of which, because of size or weight require the use of special equipment), having a prior or subsequent movement by air, between John F. Kennedy International Airport, New York, N.Y., and Newark Airport, Newark, N.J., on the one hand, and, on the other, the facilities of Outlander Group, Ltd., in Coplay, Pa., for 180 days. Supporting shippers: Taub Hummel & Schnall, Inc., One World Trade Center, Suite 2427, New York, N.Y. 10048; Outlander Group, Ltd., 5256 North Second Street, Coplay, PA 18037. Send protests to: Peter R. Guman, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1518 Walnut Street, Room 1600, Philadelphia, PA 19102.

No. MC 133788 (Sub-No. 5 TA), filed November 2, 1972. Applicant: E Z MESSENGER SERVICE, INC., 61 Voorhis Lane, Hackensack, NJ 07601. Applicant's representative: Bowes & Millner, 744 Broad Street, Newark, NJ 07102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Materials, equipment, and supplies* used in the manufacture of or used by personnel while engaged in the manufacture of cosmetics and toiletries limited to shipments not exceeding 350 pounds per shipment, from Lakewood, N.J.; Bergen, Passaic, Hudson, Morris, Middlesex, Monmouth, Somerset, Union, Warren, and Essex Counties, N.J.; Nassau and Suffolk Counties, N.Y.; New York, N.Y. Oaks, Lafayette Hill, Chadds Ford, and Philadelphia, Pa.; Bridgeport, Wallingford, Naugatuck, and Waterbury, Conn.; to Suffern, N.Y.; (2) *Materials and supplies* used in the manufacture of cosmetics and toiletries limited to shipments in drums not exceeding 450 pounds per shipments, from Hazel, N.J., to Hillburn and Suffern, N.Y.; and (3) *toilet preparations*, not exceed 350 pounds per shipment, from Suffern, N.Y., to Newark, Del., for 180 days. Supporting shipper: Avon Products, Inc., 9 West 57th Street, New York, NY 10019. Send protests to: District Supervisor Robert E. Johnston, Interstate Commerce Commission, Bureau of Operations, 970 Broad Street, Newark, NJ 07102.

No. MC 138158 TA, filed November 1, 1972. Applicant: BELL-MERCURY MESSENGER SERVICE, INC., 131 Pearl Street, Boston, MA 02210. Applicant's representative: Frank J. Weiner, 15 Court Square, Boston, MA 02203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Blood, urine, cultures, smears, human tissue, and animal tissue*, from points in Rhode Island to Boston, Mass., (2) *Printed laboratory reports*, from Boston, Mass., to points in Rhode Island, for 180 days. Supporting shipper: Roche Clinical Laboratories, Inc., 1 Fairfield Crescent, West Caldwell, NJ 07006. Send protests to: John B. Thomas, District Supervisor, Interstate Commerce Commission, Bureau of Operations, John Fitzgerald Kennedy Federal Building, Room 2211-B, Government Center, Boston, Mass. 02203.

By the Commission.

GEOTHERMAL RESOURCES

Leasing on Public, Acquired and Withdrawn Lands; Revision of Proposed Rule

No. 230—Pt. II——1

V 37 • 230 NOV 29 72 XUM

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Parts 3000, 3045, 3104, 3200]

GEOTHERMAL RESOURCES

Leasing on Public, Acquired and Withdrawn Lands; Revision of Proposed Rule

The purpose of the revision in the proposed rule making for implementing the Geothermal Steam Act of December 24, 1970 (30 U.S.C. 1001–1025), is to provide the public with the revisions to the leasing regulations planned as a result of the public hearings and comments received on the Draft Environmental Statement and previously published proposed rules (36 F.R. 13722). The Act provides for the leasing of public lands for the purpose of geothermal resource exploration, development and production.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested parties may submit written comments, suggestions, or objections with respect to the proposed regulations to the Geothermal Coordinator, Department of the Interior, Washington, DC 20240, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

A Final Environmental Statement will be issued in accordance with the provisions of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) prior to promulgation of any leasing regulations.

1. Section 3000.0–5 of Subpart 3000, Chapter II, Title 43 of the Code of Federal Regulations is revised to read as follows:

§ 3000.0–5 Definitions.

As used in this subchapter:

(a) "Leasable minerals" means oil and gas. (1) Gas means any fluid, either combustible or noncombustible, which is produced in a natural state from the earth and which maintains a gaseous or rarefied state at ordinary temperature and pressure conditions. (2) Oil or crude oil means any liquid hydrocarbon substance which occurs naturally in the earth, including drip gasoline or other natural condensates recovered from gas, without resort to manufacturing process.

(b) "Geothermal resources" means geothermal steam and associated geothermal resources which include: (1) All products of geothermal processes, embracing indigenous steam, hot water and hot brines; (2) steam and other gases, hot water and hot brines resulting from water, gas, or other fluids artificially introduced into geothermal formations; (3) heat or other associated energy found in geothermal formations; and (4) any byproducts derived from them.

(c) "Byproduct" means (1) any mineral or minerals (exclusive of oil, hydrocarbon gas, and helium) which are found in solution or in association with geothermal steam and which have a value of less than 75 per centum of the value of the geothermal steam or are not, because of quantity, quality, or technical difficulties in extraction and production, of sufficient value to warrant extraction and production by themselves, and (2) commercially demineralized water.

(d) "Other leasable minerals" means (1) Coal, chlorides, sulphates, carbonates, borates, silicates, or nitrates of potassium and sodium; sulphur in the States of Louisiana and New Mexico; phosphate; and native asphalt, solid and semisolid bitumen and bituminous rock (including oil impregnated rock or sands from which oil is recoverable only by special treatment after the deposit is mined or quarried), (2) Solid (hardrock) minerals; minerals in acquired lands which would be subject to location under the U.S. mining laws if located in the public domain lands.

(e) "Secretary" means the Secretary of the Interior or any person duly authorized to exercise the powers vested in that officer.

(f) "Director" means the Director of the Bureau of Land Management or any person duly authorized to exercise the powers vested in that officer.

(g) "State Director" means the Director of a Bureau of Land Management State office.

(h) "Authorized officer" means any person authorized by law or by lawful delegation of authority in the Bureau of Land Management to perform the duties described.

(i) "Proper BLM office" means the Bureau of Land Management office having jurisdiction over the leased lands or lands subject to lease.

(j) "Commercial quantities" means quantities sufficient to pay a profit after all costs of production have been met.

(k) "Public domain lands" means original public domain lands which have never left Federal ownership; also, lands in Federal ownership which were obtained by the Government in exchange for public lands or for timber on such lands; also original public domain lands which have reverted to Federal ownership through operation of the public land laws.

(l) "Acquired lands" means lands which the United States obtains by deed through purchase or gift, or through condemnation proceedings. They are distinguished from public domain lands in that acquired lands may or may not have been originally owned by the Government. If originally owned by the Government such lands have been disposed of (patented) under the public land laws and thereafter reacquired by the United States.

(m) "Other lands" (1) "Withdrawn lands." Lands which have been withdrawn and dedicated to public purposes. (2) "Reserved lands." Lands which have been withdrawn from disposal and dedicated to a specific public purpose. (3) "Segregated lands." Lands included in a withdrawal or in an application or entry which segregates them from operation of the public land laws.

2. Subpart 3045 of Chapter II, Title 43 of the Code of Federal Regulations is amended by substituting the words "oil and gas, or geothermal resources" for "oil and gas" wherever they appear throughout the subpart. As revised Subpart 3045 reads as follows:

Subpart 3045—Geophysical Exploration Operations (Oil and Gas or Geothermal Resources)

Sec.
- 3045.0–1 Purposes.
- 3045.0–5 Definitions.
- 3045.0–7 Cross references.
- 3045.1 Notice of intent to conduct oil and gas or geothermal resources operations.
- 3045.1–1 Application.
- 3045.2 Completion of operations.
- 3045.3 Bond requirements.

§ 3045.0–1 Purposes.

The purpose of the regulations in this Subpart 3045 is to establish procedures to be followed in conducting exploration of the public land for oil and gas or geothermal resources. For exploratory operations for other leasable minerals, the lease or permit required by the appropriate regulations must be secured. The regulations in this subpart are not applicable to exploration operations conducted pursuant to oil and gas or geothermal resources lease, and also are not applicable to the exploration of public domain lands for minerals subject to location under the U.S. mining laws.

§ 3045.0–5 Definitions.

For the purpose of the regulations in this subpart:

(a) "Oil and gas or geothermal resources exploration" means any activity relating to the search for evidence of oil and gas or geothermal resources which requires physical presence upon the land and which may result in damage to public lands or resources thereon. It includes, but is not limited to, geophysical operations, construction of roads and trails, and cross-country transit by vehicle over public domain. It does not include the casual use of public lands for oil and gas or geothermal resources exploration. It does not include core drilling for subsurface geologic information or drilling for oil and gas or geothermal resources; these activities will only be authorized by the issuance of an oil and gas or geothermal resources lease. The regulations in this subpart, however, are not intended to prevent drilling operations necessary for placing explosive charges for seismic exploration, nor do they affect the exclusive right to "drill" for oil and gas or geothermal resources by a lessee upon his leased premises.

(b) "Public lands" means lands owned by the United States and administered by the Bureau of Land Management. It does not include retained mineral interest in lands, title to which has passed from the United States.

(c) "Casual use" means activities that involve practices which do not ordinarily lead to any appreciable disturbance

or damage to lands, resources, and improvements. For example, activities which do not involve use of heavy equipment or explosives and which do not involve vehicle movement except over established roads and trails are "casual use."

§ 3045.1 Notice of intent to conduct oil and gas or geothermal resources operations.

§ 3045.1–1 Application.

(a) *Forms and where filed.* Any person desiring to conduct oil and gas or geothermal resources exploration operations under the regulations of this subpart shall, prior to entry upon the lands, file for approval with the authorized officer of the Bureau of Land Management for the district in which the public lands are located a "Notice of Intent to Conduct Oil and Gas or Geothermal Resources Exploration Operations," on a form approved by the Director.

(b) *Requirements.* The "Notice of Intent to Conduct Oil and Gas or Geothermal Resources Exploration Operations" will contain the following:

(1) The name and address, including zip code, both of the person, association, or corporation for whom the operations will be conducted and of the person who will be in charge of the actual exploration activities.

(2) A statement that the signers agree that exploration operations will be conducted pursuant to the terms and conditions listed on the approved form.

(3) A brief description of the type of operations which will be undertaken.

(4) A description of the lands to be explored, by township and range.

(5) Approximate date of commencement of operations.

§ 3045.2 Completion of operations.

Upon completion of the exploratory operations, there shall be filed with the District Manager a "Notice of Completion of Oil and Gas or Geothermal Resources Exploration Operations." Within 90 days after the filing of such "Notice of Completion," the District Manager shall notify the party who had conducted the operations whether all of the terms and conditions set out by the regulations in this subpart and in the "Notice of Intent to Conduct Oil and Gas or Geothermal Resources Exploration Operations" have been complied with, or whether any additional measures must be taken to rectify any damage to the land, specifying the nature and extent thereof.

§ 3045.3 Bond requirements.

§ 3045.3–1 General.

(a) Individual. Simultaneously with the filing of the Notice of Intent to Conduct Oil and Gas or Geothermal Resources Exploration Operations, and before the entry is made on the land, the party or parties filing the "Notice of Intent to Conduct Oil and Gas or Geothermal Resources Exploration Operations" must file with the District Manager a surety company bond in the amount of not less than $5,000, conditioned upon the full and faithful compliance, for each oil and gas or geothermal resources exploration operation, with all of the terms and conditions of the regulations in this subpart and of that notice.

(b) A party will be excused from compliance with the requirements of paragraph (a) of this section if he possesses either a nationwide bond in the amount of not less than $50,000 covering all oil and gas or geothermal resources exploration operations or a statewide bond in the amount of not less than $25,000 covering all oil and gas or geothermal resources exploration operations in the State in which the lands on which he has filed the Notice of Intent are situated.

§ 3045.3–2 Riders to existing bond forms.

(a) Nationwide and statewide bonds. Holders of nationwide and statewide oil and gas or Geothermal Resources lease bonds shall be permitted to amend their bonds to include exploration activities in lieu of furnishing additional bonds.

§ 3045.3–3 Termination of period of liability.

The District Manager will not give his consent to the cancellation of the bond if an individual bond was submitted, or to the termination of the period of liability if a State or nationwide bond was submitted, unless and until all of the terms and conditions of the "Notice of Intent to Conduct Oil and Gas or Geothermal Resources Exploration Operations" have been complied with. Should the District Manager or any other authorized officer of the Bureau of Land Management fail to notify the party within 90 days from the filing of "Notice of Completion" that all terms and conditions have been complied with or that additional corrective measures must be taken to rehabilitate the land, the period of liability under an individual bond or the period of liability for a particular oil and gas or geothermal resources exploration operation under a State or nationwide bond shall automatically terminate on the 91st day.

3. Sections 3104.9, 3104.9–1, and 3104.9–5 of Subpart 3104, Chapter II, Title 43 of the Code of Federal Regulations are deleted and the following is substituted therefor: Section 3104.9 *Exploration Bond* (see 43 CFR 3045.3).

4. A new Group 3200 is added to Chapter II, Title 43 of the Code of Federal Regulations to read as follows:

Group 3200—Geothermal Resources Leasing

PART 3200—GEOTHERMAL RESOURCES LEASING; GENERAL

Subpart 3200—Geothermal Resources Leasing; General

Sec.
- 3200.0–3 Authority.
- 3200.0–5 Definitions.
- 3200.0–6 Preleasing procedures.
- 3200.0–7 Cross reference.
- 3200.0–8 Use of surface.

Subpart 3201—Available Lands; Limitations; Unit Agreements

Sec.
- 3201.1 Lands subject to geothermal leasing.
- 3201.1–1 General.
- 3201.1–2 Department of the Interior.
- 3201.1–3 Department of Agriculture.
- 3201.1–4 Federal Power Commission.
- 3201.1–5 Patented lands.
- 3201.1–6 Excepted areas.
- 3201.2 Acreage limitations.
- 3201.3 Leases within unit areas.

Subpart 3202—Qualifications of Lessees

- 3202.1 Who may hold leases.
- 3202.2 Statements required to be submitted.
- 3202.2–1 General.
- 3202.2–2 Guardian or trustee.
- 3202.2–3 Attorney-in-fact.
- 3202.2–4 Evidence previously filed.
- 3202.2–5 Showing as to sole party in interest.
- 3202.2–6 Heirs and devisees (estates).

Subpart 3203—Leasing Terms

- 3203.1 Primary and additional term.
- 3203.1–1 Dating of leases.
- 3203.1–2 Primary term.
- 3203.1–3 Additional term.
- 3203.1–4 Extensions.
- 3203.1–5 Conversion to mineral leases or mining claims.
- 3203.2 Lease acreage limitation.
- 3203.3 Consolidation of leases.
- 3203.4 Description of lands.
- 3203.5 Diligent exploration.

Subpart 3204—Surface Management Requirements; Special Requirements

- 3204.1 General.
- 3204.2 Waste prevention.
- 3204.3 Readjustment of terms and conditions.
- 3204.4 Reservation to the United States of oil, hydrocarbon gas, and helium.
- 3204.5 Compensation for drainage; compensatory royalty.
- 3204.6 Patented lands.

Subpart 3205—Service Charges, Rentals and Royalties

- 3205.1 Payments.
- 3205.1–1 Form of remittance.
- 3205.1–2 Where submitted.
- 3205.2 Service charges.
- 3205.3 Rentals and royalties.
- 3205.3–1 Payment with application.
- 3205.3–2 Payment of annual rental.
- 3205.3–3 Escalating rental rates.
- 3205.3–4 Fractional interest.
- 3205.3–5 Royalty on production.
- 3205.3–6 Royalty on commercially demineralized water.
- 3205.3–7 Waiver, suspension or reduction of rental or royalty.
- 3205.3–8 Application for and effect of suspension of operations and production.
- 3205.3–9 Readjustments.
- 3205.4 Rental and minimum royalty liability of lands committed to cooperative or unit plans.
- 3205.4–1 Prior to production.
- 3205.4–2 After production.

Subpart 3206—Lease Bonds

- 3206.1 Types of bonds and filing.
- 3206.1–1 Types of bonds.
- 3206.1–2 Filing of bonds.
- 3206.2 Termination of period of liability.
- 3206.3 Operators bond.
- 3206.4 Qualified corporate sureties.
- 3206.5 Nationwide bond.
- 3206.6 Statewide bond.

V37-230 NOV 29 72 XUM

Sec.
3206.7 Default.
3206.7–1 Payment by surety.
3206.7–2 Penalty.
3206.8 Applicability of provisions to existing bonds.

Subpart 3200—Geothermal Resources Leasing; General

§ 3200.0–3 Authority.

These regulations are issued pursuant to the Geothermal Steam Act of 1970 (84 Stat. 1566; 30 U.S.C. 1001–1025) and rights to develop and utilize geothermal resources in land subject to these regulations may be acquired only in accordance with these regulations.

§ 3200.0–5 Definitions.

As used in Group 3200, the term:

(a) "The Act" means the Geothermal Steam Act of 1970;

(b) "Geothermal lease" means a lease issued under authority of the Act; and unless the context indicates otherwise, "lease" means a "geothermal lease";

(c) "Sole party in interest" means a party who is and will be vested with all legal and equitable rights under the lease. No one is, or shall be deemed to be, a sole party in interest with respect to a lease in which any other party has any interest in the lease;

(d) "Interest in the lease" means any interest whatever in a geothermal lease, including, but not limited to: A record title interest; a working interest; an operating right; a claim to any prospective or future advantage or benefit from a lease; a participation in any increment, issue, or profit which may be derived, or accrue in any manner, from the lease based upon, or pursuant to, any agreement or understanding in existence at the time when the offer is filed; and an agreement pertaining to any of the foregoing;

(e) "Supervisor" means a representative of the Secretary, subject to the direction and supervisory authority of the Director, the Chief, Conservation Division, Geological Survey and the appropriate Regional Conservation Manager, Conservation Division, Geological Survey, authorized and empowered to regulate operations and to perform other duties prescribed in the regulations in this part or any subordinate of such representative acting under his direction.

(f) "Primary term" means the first 10 years in the life of the lease, exclusive of any period of suspension of operations or production, or both.

(g) "Area of operation" means that area of the leased lands which is required for exploration, development and producing operations, and which is delineated on a map or plat which is made a part of the approved plan of operations. It encompasses the area generally needed for wells, flow lines, separators, surge tanks, drill pads, mud pits, workshops, and other such facilities used for on-project geothermal resources field exploration, development and production operations.

(h) "Geothermal resource province" means an area in which higher than normal temperatures are likely to occur with depth and there is a reasonable possibility of finding reservoir rocks that will yield steam or heated fluids to wells. The classification of such a province is based on geologic inference and a determination that the area possesses one or more of the following characteristics:

(1) Volcanism of late Tertiary or Quaternary age—especially caldera structures, cones, and volcanic vents; (2) geysers, fumaroles, mud volcanoes, or thermal springs at least 40° F. higher than average ambient temperature; and (3) subsurface geothermal gradients generally in excess of two times normal, as reflected in deep water wells, oil well tests, and other test holes.

(i) "Potential geothermal resource area" means an area containing an inferred geothermal reservoir within a geothermal resource province which has not been determined to be a known geothermal resource area.

(j) "Known geothermal resource area" or "KGRA" means an area in which the geology, nearby discoveries, competitive interests, or other indicia would, in the opinion of the Secretary, engender a belief in men who are experienced in the subject matter that the prospects for extraction of geothermal steam or associated geothermal resources are good enough to warrant expenditures of money for that purpose. Any relevant data and information pertaining to the criteria, including without limitation any pertinent engineering and economic data, may be considered in classifying land for inclusion in a KGRA. Existence of a few, usually two or three, geothermal leases on Federal lands, or geothermal development on other than Federal lands, in a potential geothermal resource area within a geothermal resource province shall be deemed to be such a situation as to engender a belief in men who are experienced in the subject matter that the prospects for extraction of geothermal resources in that area are good enough to warrant expenditures of money for that purpose, and will cause that potential geothermal resource area to become a KGRA. Absence of such leases or development shall not, however, exclude an area from determination as a KGRA.

§ 3200.0–6 Preleasing procedures.

(a) When an area is initially considered for geothermal leasing or when the need arises, the Director shall request other interested Bureaus and Federal agencies to prepare reports describing, to the extent known, resources contained within the general area and the potential effect of geothermal resources operations upon the resources of the area and its total environment.

(b) The Director, or the head of the agency charged with the administration of the surface, if he so elects, prior to the final selection of tracts for leasing, shall, when appropriate, evaluate fully the potential effect of the leasing program on the total environment, fish and other aquatic resources, wildlife habitat and populations, esthetics, recreation, and other resources in the entire area during exploratory, developmental, and operational phases. This evaluation will consider the potential impact of the possible development and utilization of the geothermal resources including the construction of power generating plants and transmission facilities on lands which may or may not be included in a geothermal lease. To aid him in his evaluation and selection of tracts he may request and consider the views and recommendations of appropriate Federal agencies, may hold public hearings after appropriate notice, and may consult with State agencies, organizations, industries, and individuals, and shall consider all other potential uses of the land and its natural resources. The Director shall develop special terms and conditions to be included in leases when they are needed to protect the environment, to permit use of the land for other purposes, and to protect other natural resources. If tracts are offered for competitive leasing, any terms and conditions to be included in leases for such tracts shall be published in the notice announcing the availability of the land for leasing.

§ 3200.0–7 Cross reference.

(a) The regulations governing operations under geothermal leases are found in 30 CFR Part 270.

(b) The regulations setting forth the basic policies for management of the public lands are found in Part 1725 of this chapter.

§ 3200.0–8 Use of surface.

(a) A lessee shall be entitled to use for the production, utilization, and conservation of geothermal resources only so much of the surface of the leased lands as is deemed necessary for such purposes. The lessee shall have the right to use so much of the leased lands as may be deemed necessary for a power generation plant or a commercial or industrial facility, and may apply for the right to use so much of other Federal lands as may be deemed necessary for such purposes; however, any use of the leased lands or other Federal lands for a power generation plant or a commercial or industrial facility will be authorized only under a separate permit issued by the appropriate agency for that specific use and subject to all terms and conditions which it may include in that permit. The uses of the lands within the area of operation are subject to the supervision of the supervisor, and the uses of the remaining leased lands or other Federal lands are subject to the supervision of the appropriate surface management agency. The lessee shall not be entitled to use any mineral materials subject to the Materials Act except as provided by Part 3600 of this chapter.

(b) Operations under other leases or uses on the same lands shall not unreasonably interfere with or endanger operations under leases issued under these regulations nor shall operations under these regulations unreasonably interfere with or endanger operations under any lease, license, claim, permit, or other authorized use pursuant to the provisions of any other Act.

Subpart 3201—Available Lands; Limitations, Unit Agreements

§ 3201.1 Lands subject to geothermal leasing.
§ 3201.1–1 General.
§ 3201.1–2 Department of the Interior.
§ 3201.1–3 Department of Agriculture.
§ 3201.1–4 Federal Power Commission.
§ 3201.1–5 Patented lands.
§ 3201.1–6 Excepted areas.
§ 3201.2 Acreage limitations.
§ 3201.3 Leases within unit areas.

§ 3201.1 Lands subject to geothermal leasing.

§ 3201.1–1 General.

Subject to the exceptions listed below, geothermal leases may be issued in combination or separately for (a) lands administered by the Secretary of the Interior; (b) national forest lands or other lands administered by the Department of Agriculture through the Forest Service; and (c) geothermal resources in lands which have been conveyed by the United States subject to a reservation to the United States of geothermal resources.

§ 3201.1–2 Department of the Interior.

(a) Except as provided in this section, leases may be issued in accordance with the regulations in this part for withdrawn lands, for acquired lands, and for geothermal resources in lands which have passed from Federal ownership subject to a reservation to the United States of the geothermal resources therein where such lands or resources are administered by the Secretary of the Interior.

(b) Notwithstanding any other provision in these regulations, geothermal leases shall not be issued for: (1) Lands which the Secretary has identified or may identify as being necessary to the performance of his or any other Federal agency's authorized functions, and on which geothermal resource development would in his judgment interfere with such functions; or (2) lands respecting which the Secretary has made or may make a finding that the issuance of geothermal leases would be contrary to the public interest. Upon receipt of an application for a geothermal lease affecting lands withdrawn under section 3 of the Reclamation Act of 1902 (43 U.S.C. 416) or any other appropriate authority, notice thereof and an opportunity to comment thereon shall be given to the head of the agency for whose benefit the withdrawal was made. Should the head of the agency object to the leasing of such withdrawn lands, the lands shall not be leased unless the Assistant Secretary for Public Land Management approves the offering after consultation with the appropriate Assistant Secretary or his representative.

Where leases are issued under Part 3210 or 3220 for lands neighboring such reserved lands, the lessees shall be required to perform such lease operations and take such measures as are prescribed by the Secretary for the protection of the Federal interests therein. Stipulations for this purpose will be incorporated in any applicable leases.

§ 3201.1–3 Department of Agriculture.

Leases for lands withdrawn or acquired in aid of functions of the Department of Agriculture, for example, lands administered by the Forest Service, may be issued by the Secretary of the Interior only with the consent of, and subject to such terms and conditions as may be prescribed by, the head of that Department to insure adequate utilization of the lands for the purpose for which they were withdrawn or acquired.

§ 3201.1–4 Federal Power Commission.

Leases for lands to which section 24 of the Federal Power Act, as amended (16 U.S.C. 818), is applicable, may be issued by the Secretary of the Interior only with the consent of, and subject to, such terms and conditions as the Federal Power Commission may prescribe to insure adequate utilization of such lands for power and related purposes.

§ 3201.1–5 Patented lands.

(a) Geothermal resources in lands which have passed from Federal ownership subject to a reservation to the United States of geothermal resources therein may be leased under the regulations in this group subject to the provisions in this part and to such terms and conditions as may be prescribed by the authorized officer to insure adequate protection of the patented lands and any improvements thereon.

(b) Geothermal resources in lands the surface of which has passed from Federal ownership but in which the minerals have been reserved to the United States shall not be developed or produced except under terms and conditions prescribed by the Secretary and pursuant to any agreements made therefor while the question of the title to such resources is being resolved pursuant to the provisions of section 21(b) of the Act.

§ 3201.1–6 Excepted areas.

Leases shall not be issued for lands which are: (a) Administered under the National Park System; (b) within a national recreation area; (c) in a fish hatchery administered by the Secretary, wildlife refuge, wildlife range, game range, wildlife management area, or waterfowl production area, or for lands acquired or reserved for the protection and conservation of fish and wildlife which are threatened with extinction; or (d) tribally or individually owned Indian trust or restricted lands, within or without the boundaries of Indian reservations.

§ 3201.2 Acreage limitations.

(a) No person, association, corporation, or municipality shall take, hold, own, or control at one time, whether acquired directly from the Secretary or otherwise, any direct or indirect interest in Federal leases in any one State exceeding 20,480 acres. Nor may any person, association, or corporation be permitted to convert mineral leases, permits, applications therefor, or mining claims, pursuant to the provisions of section 4 (a)–(f) of the Act into geothermal leases for more than 10,240 acres.

(b) In computing acreage holdings or control, the accountable acreage of a party owning an undivided interest in a lease shall be that party's proportionate part of the total lease acreage. Likewise, the accountable acreage of a party owning an interest in a corporation or association shall be his proportionate part of the corporation's or association's accountable acreage except that no person shall be charged with his pro rata share of any acreage holdings of any association or corporation unless he is the beneficial owner of more than 20 per centum of the stock or other instruments of ownership or control of that association or corporation. Parties owning a royalty or other interest determined by or payable out of a percentage of production from a lease will be charged with a similar percentage of the total lease acreage.

(c) An association shall not be deemed to exist between the parties to a contract for development of leased lands, whether or not coupled with an interest in the lease, nor between colessees, but each party to any such contract or each colessee will be charged with his proportionate interest in the lease. No holding of acreage in common by the same persons in excess of the maximum acreage specified in the law for any one lessee will be permitted.

§ 3201.3 Leases within unit areas.

Before issuance of a geothermal lease for lands within an approved unit agreement, the lease applicant or successful bidder will be required to file evidence that he has entered into an agreement with the unit operator for the development and operation of the lands in a lease if issued to him under and pursuant to the terms and provisions of the approved unit agreement, or a statement giving satisfactory reasons for the failure to enter into such agreement. If such statement is acceptable, he will be permitted to operate independently but will be required to perform his operations in a manner which the Supervisor deems to be consistent with the unit operations.

Subpart 3202—Qualifications of Lessees

§ 3202.1 Who may hold leases.

Leases may be issued only to: (a) Citizens of the United States; (b) associations of such citizens; (c) corporations organized under the laws of the United States, any State or the District of Columbia; or (d) governmental units, including, without limitation, municipalities. The term "association" includes a partnership.

§ 3202.2 Statements required to be submitted.

§ 3202.2–1 General.

(a) Each applicant for a lease is required to submit with his application a statement that his interests, direct and indirect, in Federal geothermal leases and applications, do not exceed the acreage limitations prescribed in § 3201.2, together with a statement of his citizenship.

(b) If the applicant is an association or corporation the application must be accompanied by: (1) A statement showing that it is authorized to hold geothermal leases; (2) a statement that the officer executing the application is au-

V 37-230 NOV 29 72 XUM

thorized to act on behalf of the association or corporation; (3) a statement setting forth the State in which it was incorporated or formed and the names and addresses of all members or stockholders holding more than 20 percent of the association or corporation; and (4) a statement from each person owning or controlling more than 20 percent of the association or corporation setting forth his citizenship and his holdings.

(c) If the applicant is a municipality, the application must be accompanied by: (1) A statement showing that it is authorized to hold geothermal leases; (2) a statement that the officer executing the application is authorized to act on behalf of the municipality; and (3) a copy of its governing body's resolution authorizing such action.

§ 3202.2–2 Guardian or trustee.

(a) *Guardian.* If the application is made by a guardian, he must submit: (1) A certified copy of the court order authorizing him to act as guardian and, in behalf of his ward, to enter into contractual agreements and to fulfill all obligations arising under the lease; and (2) statements as to the citizenship and holdings under the Act of himself and of each person under his guardianship for whom the offer or nomination is made.

(b) *Trustee.* If the application is made by a trustee, he must submit a copy of the instrument establishing the trust or a certified copy of the court order authorizing him to act as trustee, in behalf of the beneficiary, as to all obligations arising under the lease; and statements as to the citizenship and holdings under the Act of himself and of each beneficiary.

§ 3202.2–3 Attorney-in-fact.

If an application is filed by an attorney-in-fact, it must be accompanied by evidence as to his authority to act.

§ 3202.2–4 Evidence previously filed.

Where the statements required by § 3202.2 have been previously filed a reference by serial number to the record in which they have been filed, together with a statement as to any amendments will be accepted.

§ 3202.2–5 Showing as to sole party in interest.

Each application must be accompanied either by a signed statement by the applicant that he is the sole party in interest, or by a signed statement by the applicant setting forth the names of all other persons who have an interest in the lease and their qualifications to hold a lease.

§ 3202.2–6 Heirs and devisees (estates).

If an applicant or a successful bidder dies before the lease is issued, the lease will be issued to the executor or administrator of the estate if probate of the estate has not been completed, and if probate has been completed, or is not required, to the heirs or devisees, provided there is filed in all cases an application to lease in compliance with the requirements of this section which will be effective as of the effective date of the original application filed by the deceased. If there are any minor heirs or devisees, the application can only be made by their legal guardian or trustee in his name. Each such application must be accompanied by the following information:

(a) Where probate of the estate has not been completed:

(1) Evidence that the person who as executor or administrator submits the application, and bond form if a bond is required, has authority to act in that capacity and to sign the application and bond forms.

(2) A statement over the signature of each heir or devisee or, if the heir or devisee is a minor, over the signature of his legal guardian or trustee, concerning citizenship and holdings.

(3) Evidence that the heirs or devisees are the heirs or devisees of the deceased applicant or successful bidder and are the only heirs or devisees of the deceased.

(b) Where the executor or administrator has been discharged or no probate proceedings are required:

(1) A certified copy of the will or decree of distribution, if any, and if not, a statement signed by the heirs that they are the only heirs of the applicant or successful bidder and the provisions of the law of the deceased's last domicile showing that no probate is required.

(2) A statement over the signature of each of the heirs or devisees with reference to holdings and citizenship. If the heir or devisee is a minor, the statement must be over the signature of the guardian or trustee.

Subpart 3203—Leasing Terms

§ 3203.1 Primary and additional term.

§ 3203.1–1 Dating of leases.

All geothermal leases will be dated as of the first day of the month following the date on which the leases are signed on behalf of the lessor except that, where prior written request has been made, a lease may be dated as of the first day of the month within which it is so signed. A renewal lease will be dated from the termination of the original lease.

§ 3203.1–2 Primary term.

All leases shall be for a primary term of 10 years.

§ 3203.1–3 Additional term.

(a) If geothermal steam is produced or utilized in commercial quantities within the primary term of a lease, that lease shall continue for so long thereafter as geothermal steam is produced or utilized in commercial quantities, but the lease shall in no event continue for more than 40 years after the end of the primary term except that the lessee shall have a preferential right to a renewal of his lease for a second 40-year term upon such terms and conditions as the authorized officer deems appropriate, if at the end of the first 40-year term the lands are not needed for another purpose and geothermal steam is produced or utilized in commercial quantities.

(b) For the purposes of paragraph (a) of this section, production or utilization of geothermal steam in commercial quantities shall be deemed to include the completion of one or more wells producing or capable of producing geothermal steam in commercial quantities and a bona fide sale of such geothermal steam for delivery to or utilization by a facility or facilities not yet installed but scheduled for installation not later than 15 years from the date of commencement of the primary term of the lease.

§ 3203.1–4 Extensions.

(a) A lease which has been extended by reason of production, or on which geothermal steam has been produced, and which has been determined by the Secretary to be incapable of further commercial production and utilization of geothermal steam may be further extended so long as one or more valuable byproducts are produced in commercial quantities but for not more than 5 years.

(b) Where the lessee commenced actual drilling operations prior to the end of the primary term and those operations are being diligently prosecuted at that time, a lease may also be extended for a period of five years and so long thereafter as geothermal steam is produced or utilized in commercial quantities (but for not more than 35 years).

(c) A lease committed to a cooperative plan, communitization agreement or a unit plan under or for which actual drilling operations were commenced prior to the end of the primary term of the lease, shall, if such operations are being diligently prosecuted at that time be extended for a period of five years and so long thereafter as geothermal steam is produced or utilized in commercial quantities (but for not more than thirty five years).

(d) Any lease on which there has been a suspension of operations or production, or both, under 30 CFR 270.17 shall continue in effect for the life of the suspension and, at the end of the suspension, shall be extended for a period equal to that portion of the primary term during which the suspension was in effect.

If, at the end of 40 years after the conclusion of the primary term, steam is being produced or utilized in commercial quantities and the lands are not needed for other purposes, the lessee shall have a right to a renewal of the lease for a second 40-year term on such terms and conditions as the Secretary deems appropriate.

§ 3203.1–5 Conversion to mineral leases or mining claims.

(a) If the byproducts being produced in commercial quantities are leasable under the Mineral Leasing Act of February 25, 1920, as amended and supplemented (30 U.S.C. sections 181–287), or under the Mineral Leasing Act for Acquired Lands (30 U.S.C. sections 351–359), and the leasehold is primarily valuable for the production thereof, the lessee shall be entitled to convert his geothermal lease to a mineral lease under, and subject to all the terms and conditions of, the appropriate Act upon application

at any time before expiration of the lease extension by reason of byproduct production.

(b) The lessee shall be entitled to locate under the mining laws all minerals which are not leasable and which would constitute a byproduct if commercial production or utilization of geothermal steam continued. The lessee in order to acquire the rights herein granted him shall complete the location of mineral claims within 90 days after the termination of the geothermal lease.

(c) Any lease converted under paragraph (a) of this section or under paragraph (b) of this section affecting lands withdrawn or acquired in aid of a function of a Federal department or agency, including the Department of the Interior, shall be subject to such additional terms and conditions as may be prescribed by that department or agency with respect to the additional operations or effects resulting from such conversion upon the utilization of the lands for the purpose for which they are administered.

§ 3203.2 Lease acreage limitation.

A geothermal lease may not embrace more than 2,560 acres in a reasonably compact area, except where a departure is occasioned by an irregular subdivision or subdivisions. In such event, the leased acreage may exceed 2,560 acres by an amount which is smaller than the amount by which the area would be less than 2,560 acres if the irregular subdivision were excluded. No lease will be issued for less than 1,280 acres, except at the discretion of the Secretary, or where a departure is occasioned by an irregular subdivision, or as provided for in Subpart 3230 of this chapter. In event of a departure, the leased acreage may be less than 1,280 acres by an amount which is smaller than the amount by which the area would be more than 1,280 acres if the irregular subdivision were added.

§ 3203.3 Consolidation of leases.

Two or more contiguous leases issued to the same lessee may be consolidated if the total combined acreage does not exceed 2,560 acres. Except where a departure is occasioned by an irregular subdivision or subdivisions as stated in § 3203.2.

§ 3203.4 Description of lands.

Applications and nominations shall include a description of the lands sought to be included in a geothermal lease. If the lands have been surveyed under the public land rectangular system, each application or nomination shall describe the lands by legal subdivision, section, township, and range. If the lands have not been so surveyed, each application shall describe the lands by metes and bounds, giving courses and distances between the successive angle points on the boundary of the tract, and connected by courses and distances to a monument or to a prominent topographic feature. When protracted surveys have been approved and the effective date thereof published in the FEDERAL REGISTER, each application or nomination for lands shown on such protracted surveys, filed on or after such effective date, shall describe the lands according to the legal subdivision, section, township, and range shown on the approved protracted surveys.

§ 3203.5 Diligent exploration.

All geothermal leases will include provisions for the diligent exploration of the leased resources. Diligent exploration means exploration operations (subsequent to the issuance of the lease) on, or related to, the leased lands, including, but not limited to, operations such as geochemical surveys, heat flow measurements, core drilling, or drilling of a test well. Exploration operations, in order to qualify as diligent exploration, must be approved by the Supervisor, and evidence of all expenditures therefor and the results thereof must be submitted to the Supervisor in compliance with applicable regulations and Geothermal Resources Operational Orders or upon his request. Moreover, after the fifth year of the primary lease term, exploration operations, in order to qualify as diligent exploration for a year, must entail expenditures during that year equal to at least two times the sum of (a) the minimum annual rental required by statute, and (b) the amount of rental for that year in excess of the fifth year's rental, but in no event shall the required expenditures exceed twice the rental for the 10th year. However, any expenditures for diligent operations during the first 5 years of the lease and any expenditures for diligent operations during any subsequent year in excess of the minimum required expenditures for that year may be credited, in such proportions as the lessee may designate, against (1) expenditures needed to qualify exploration operations as diligent operations for future years, or (2) any rental requirement for that or any future years in excess of the fifth year's rental pursuant to § 3205.3–3.

Subpart 3204—Surface Management Requirements, Special Requirements

§ 3204.1 General.

A lessee shall comply with and be bound by the following general terms and conditions, the specific requirements contained in the lease stipulations and any GRO orders that may be issued pursuant to 30 CFR 270.11. Assuring compliance with the requirements of this section is the responsibility of the Supervisor as to the lands within the area of operations and is the responsibility of the approprate land management agency as to the remaining lands in the lease.

(a) *Equal employment opportunity.* The lessee shall comply with Executive Order 11246, as amended, 30 F.R. 12319 (1965), and regulations issued pursuant thereto, 41 CFR Chapter 60 and Part 17 of this chapter.

(b) *Public access.* (1) The lessee shall permit free and unrestricted public access to and upon the leased lands for all lawful and proper purposes except in areas where such access would unduly interfere with operations under the lease or would constitute a hazard to health and safety. Restrictions on access will not be allowed without prior approval.

(2) During construction, the lessee shall regulate public access and vehicular traffic to protect the public, wildlife, and livestock from hazards associated with the project. For this purpose, the lessee shall provide warnings, fencing, flag men, barricades, and other safety measures as appropriate.

(c) *Pollution abatement.* The lessee shall comply with all Federal and State standards with respect to the control of all forms of air, land, water, and noise pollution, including, but not limited to, the control of erosion and the disposal of liquid, solid, and gaseous wastes. The Supervisor may, in his discretion, establish additional and more stringent standards, and, if he does so, the lessee shall comply with those standards. The lessee, in addition to any other action required by those standards, shall take the following specific actions:

(1) *Pesticides and herbicides.* The lessee shall comply with all rules issued by the Department of the Interior and the Environmental Protection Agency pertaining to the use of poisonous substances on public lands.

(2) *Water pollution.* The lessee shall conduct lease operations and maintenance in a manner consistent with Federal and State water quality standards and public health and safety standards. Toxic materials shall not be released into any surface waters or underground waters. Reinjection of waste geothermal fluids into geothermal or other suitable aquifers may be permitted when approved by the Supervisor.

(3) *Air pollution.* The lessee shall control emissions from operations in accordance with Federal and State air quality standards.

(4) *Erosion control.* The lessee shall minimize disturbance to vegetation, drainage channels, and streambanks. The lessee shall employ such soil and resource conservation and protection measures on the leased lands as the Supervisor deems necessary.

(5) *Noise control.* The lessee shall control noise emissions from operations.

(d) *Sanitation and waste disposal.* The lessee shall remove or dispose of all waste generated in connection with the operation in a manner acceptable to the Supervisor. The term "waste" as used in this stipulation means all discarded matter, including but not limited to human waste, trash, garbage, refuse, petroleum products, and waste material resulting from the extraction and processing operation.

(e) *Land subsidence, seismic activity.* The lessee shall take precautions necessary to minimize land subsidence or seismic activity which could result from production of geothermal resources and the disposal of waste fluid where such activity could damage or curtail the use of the geothermal resources or other resources, or other uses of the land and take such measures as stipulated to: (1) monitor operations for land subsidence and for seismic activity; and (2) maintain, and when requested, make

V37-230 NOV 29 72 XUM

available to the lessor, records of all monitoring activities.

(f) *Aesthetics.* The lessee shall take aesthetics into account in the planning, design, and construction of facilities on the leased premises.

(g) *Fish and wildlife.* The lessee shall employ such measures as are deemed necessary to protect fish and wildlife and their habitat.

(h) *Antiquities and historical sites.* The lessee shall conduct activities on discovered, known or suspected archeological, paleontological, or historical sites in accordance with lease terms or specific instructions.

(i) *Restoration.* The lessee shall provide for the restoration of all disturbed lands in an approved manner.

§ 3204.2 Waste prevention.

All leases shall be subject to the condition that the lessee will, in conducting his exploration, development, and operations, use all reasonable precautions to prevent waste of geothermal resources and other resources found or developed in the leased lands.

§ 3204.3 Readjustment of terms and conditions.

(a) (1) Except as otherwise provided by law, the terms and conditions of any geothermal lease may be readjusted as determined by the authorized officer at not less than 10-year intervals beginning 10 years after the date geothermal steam is produced. Each lease shall provide for such readjustments.

(2) The authorized officer shall give notice to the lessee of any proposed readjustment of the terms and conditions of the lease and the nature thereof, and unless the lessee files with the authorized officer an objection to the proposed terms or relinquishes the lease within 30 days after receipt of such notice, the lessee shall be deemed conclusively to have agreed to such terms and conditions. If the lessee files objections, and agreement cannot be reached between the authorized officer and the lessee within a period of 60 days, the lease may be terminated by either party. If the lessee files objections to the proposed readjusted terms and conditions, the existing terms and conditions will remain in effect until there has been an agreement between the authorized officer and the lessee on the new terms and conditions to be applied to the lease or until the lease is terminated.

(b) Any readjustment of the terms and conditions of any lease of lands withdrawn or acquired in aid of a function of a Federal department or agency may be made only with the approval of that other agency.

§ 3204.4 Reservation to the United States of oil, hydrocarbon gas, and helium.

The United States reserves the ownership of and the right to extract oil, hydrocarbon gas, and helium from all geothermal resources produced from lands leased under the Act. Whenever the right to extract oil, hydrocarbon gas, and helium, from geothermal resources produced from such lands is exercised, it shall be exercised so as to cause no substantial interference with the production of geothermal resources from such lands.

§ 3204.5 Compensation for drainage; compensatory royalty.

(a) Upon a determination by the Supervisor that lands owned by the United States are being drained of geothermal resources by wells drilled on adjacent or cornering lands, the authorized officer may execute agreements with the owners of adjacent or cornering lands whereby the United States, or the United States and its lessees, shall be compensated for such drainage, such agreements to be made with the consent of any lessee affected thereby. The precise nature of any agreement will depend on the conditions and circumstances involved in the particular case.

(b) Where land in any lease is being drained of its geothermal resources by a well either on a Federal lease issued at a lower rate of royalty or on land not the property of the United States, the lessee must drill and produce all wells necessary to protect the leased lands from drainage. In lieu of drilling such wells, the lessee may, with the consent of the Supervisor, pay compensatory royalty in the amount determined in accordance with 30 CFR Part 270.

§ 3204.6 Patented lands.

The terms and conditions of any geothermal resource lease for lands conveyed by the United States subject to a reservation to the United States of geothermal resources may be readjusted upon notification to the surface owner.

Subpart 3205—Service Charges, Rentals and Royalties.

§ 3205.1 Payments.

§ 3205.1–1 Form of remittance.

Remittances required under these regulations may be made by cash payment, check, certified check, bank draft, bank cashier's check, or money order. All remittances will be deposited as received.

§ 3205.1–2 Where submitted.

(a) *Rentals on nonproducing leases.* Rentals under all nonproducing leases issued shall be paid at the proper BLM office. All remittances to the Bureau of Land Management shall be made payable to the Bureau of Land Management.

(b) *Other payments.* All royalties on producing leases, communitized leases in producing well units, unitized leases in producing unit areas, leases on which compensatory royalty is payable and all payments under easements for directional drilling are to be paid to the Supervisor. All remittances to the Supervisor shall be made payable to the U.S. Geological Survey.

§ 3205.2 Service charges.

(a) *Competitive lease applications.* No service charge is required.

(b) *Noncompetitive lease applications.* Applications for noncompetitive leases must be accompanied by a nonrefundable service charge of $50 for each application.

(c) *Assignments.* Applications for approval of an assignment of a lease or interest therein must be accompanied by a nonrefundable service charge of $50 for each application.

(d) *Nominations.* No service charge is required.

§ 3205.3 Rentals and royalties.

§ 3205.3–1 Payment with application.

Each application must be accompanied by payment of the first year's rental of not less than $1 per acre or fraction thereof based on the total acreage included in the application. An application accompanied by a payment of the first year's rental which is deficient by not more than 10 percent will be approved by the authorized officer provided all other requirements are met, but, if the additional rental is not paid within 30 days from notice, the application or the lease, if issued, will be canceled.

§ 3205.3–2 Payment of annual rental.

(a) Annual rental in the amount specified in the lease which shall be not less than $1 per acre or fraction thereof must be paid in advance and must be received by the proper BLM office on or before the anniversary date of the lease. If there is no well on the leased lands capable of producing geothermal resources in commercial quantities, the failure to pay rental on or before the anniversary date shall terminate the lease by operation of law, except as provided by § 3245.2.

(b) If, on the anniversary date of the lease, less than a full year remains in the lease term, the rentals shall be payable in the same proportion as the period remaining in the lease term is to a full year. The rentals shall be prorated on a monthly basis for the full months, and on a daily basis for the fractional month remaining in the lease term. For the purpose of prorating rentals for a fractional month, each month will be deemed to consist of 30 days.

(c) If the term of a lease for which prorated rentals have been paid is further extended to or beyond the next anniversary date of the lease, rentals for the balance of the lease year shall be due and payable on the 1st day of the first month following the date through which the prorated rentals were paid. If the rentals are not paid for the balance of the lease year, the lease will be subject to cancellation. However, if the anniversary date occurs before the end of the notice period, the rental for the following lease year shall nevertheless be due on the anniversary date and failure to pay the full rental for that year on or before that date shall cause the lease to terminate automatically by operation of law except as provided by § 3245.2. The lessee shall not be relieved of liability for rental due for the balance of the previous lease year.

(d) If the payment is due on a day in which the proper BLM office to receive payment is not open, payment received on the next official working day will be deemed to be timely.

§ 3205.3 Escalating rental rates.

To encourage the orderly and timely development of geothermal leases, all leases issued pursuant to the regulations in this Group will provide that, beginning with the sixth year and for each year thereafter until the lease year beginning on or after the commencement of production of geothermal resources in commercial quantities, the rental will be set by the authorized officer as the amount of rental for the preceding year plus an additional rental of $1 per acre, but the authorized officer may, upon a showing of sufficient justification by the lessee, waive the payment of all or any portion of the additional rental.

§ 3205.3–4 Fractional interests.

Rentals, minimum royalties, and royalties payable for lands in which the United States owns an undivided fractional interest shall be in the same proportion to the rentals, minimum royalties, and royalties provided for in § 3205.3, as the undivided fractional interest of the United States in the geothermal resources is to the full geothermal resources interest.

§ 3205.3–5 Royalty on production.

Royalty shall be paid at the following rates on geothermal resources:

(a) A royalty, as set forth in the lease, of not less than 10 per centum and not more than 15 per centum of the amount or value of steam, or any other form of heat or energy derived from production under the lease and sold or utilized by the lessee or reasonably susceptible to sale or utilization by the lessee; (b) a royalty, as set forth in the lease, of not more than 5 per centum of any byproduct derived from production under the lease and sold or utilized or reasonably susceptible of sale or utilization by the lessee, except that as to any byproduct which is a mineral named in section 1 of the Mineral Leasing Act of February 25, 1920, as amended (30 U.S.C. 181), the rate of royalty for such mineral shall be the same as that provided in that Act and the maximum rate of royalty for such mineral shall not exceed the maximum royalty applicable under that Act; (c) In no event shall the royalty on any producing lease for any lease year, commencing with the lease year beginning on or after the commencement of production in commercial quantities, be less than $2 per acre or fraction thereof, and this minimum royalty, in lieu of rental, shall be payable at the expiration of each lease year.

§ 3205.3–6 Royalty on commercially demineralized water.

All geothermal leases issued pursuant to the provisions of this group shall provide for the payment to the lessor of a royalty on commercially demineralized water at a rate to be specified in the lease of not more than 5 per centum of the value of such commercially demineralized water that has beeen sold or utilized by the lessee or is reasonably susceptible of sale or utilization by the lessee, except that no payment of a royalty will be required on such water if it is used in plant operation for cooling or in the generation of electric energy or otherwise.

§ 3205.3–7 Waiver, suspension or reduction of rental or royalty.

(a) The authorized officer may waive, suspend, or reduce the rental or royalty for any lease or portion thereof in the interests of conservation and to encourage the greatest ultimate recovery of geothermal resources if he determines that this is necessary to promote development or that the lease cannot be successfully operated under the lease terms.

(b) An application hereunder shall be filed in triplicate with the Supervisor, and must: (1) Contain the serial number of the leases and the names of the lessee and operator; (2) show the number, location, and status of each well that has been drilled, a tabulated statement for each month covering a period of not less than 6 months prior to the date of filing the application of the aggregate amount of production subject to royalty computed in accordance with the operating regulations, the number of wells counted as producing each month, and the average production per well per day; (3) contain a detailed statement of expenses and costs of operating the lease, the income from the sale of any leased products and all facts tending to show whether the wells can be successfully operated using the royalty or rental fixed in the lease; and (4) where the application is for a reduction in royalty, furnish full information as to whether royalties or payments out of production are paid to others than to the United States, the amounts so paid, and the efforts made to reduce them. The applicant must also file agreements of the holders to a comparable reduction of all other royalties from the leasehold to an aggregate not in excess of one-half the Government royalties.

§ 3205.3–8 Application for and effect of suspension of operations and production.

(a) Applications by lessees for suspensions of operations or production, or both, under a producing geothermal lease (or for relief from any drilling or producing requirements of such a lease) shall be filed in triplicate with the Supervisor, who is authorized to act on applications filed pursuant to this section and to terminate suspensions which have been or may be granted. Complete information must be furnished showing the necessity of the relief sought.

(b) A suspension shall take effect as of the time specified in the order of the Supervisor. Rental or minimum royalty payments will be suspended during any period of suspension of all operations and production directed, or assented to, by the Supervisor, beginning with the first day of the lease month in which the suspension of operations and production becomes effective or, if the suspension of operations and production becomes effective on any date other than the first day of a lease month, beginning with the first day of the lease month following such effective date. The suspension of rental or royalty payments shall end on the first day of the lease month in which operations or production is resumed. Where rentals are creditable against royalties and have been paid in advance, proper credit will be allowed on the next rental or royalty due under the lease.

(c) No lease shall be deemed to expire by reason of a suspension of either operations or production, pursuant to any order or assent of the Supervisor.

(d) If there is a well on the leased premises capable of producing geothermal resources and all operations and production are suspended pursuant to any order of the Supervisor, approval of recommencement of drilling operations will terminate the suspension as to operations but not as to production, and will terminate both the period of suspension of rental and royalty payments provided in paragraph (b) of this section and the period of suspension for which an equivalent extension will be granted. However, as provided in paragraph (c) of this section, the lease will not be deemed to expire so long as the suspension of operations or production remains in effect.

(e) The relief authorized under this section may also be obtained for any leases included within an approved unit or cooperative plan of development and operation.

(f) See 30 CFR 270.17 for regulations concerning action of the Supervisor on applications filed pursuant to this section.

§ 3205.3–9 Readjustments.

The rentals and royalties of any geothermal lease may be readjusted at not less than 20-year intervals beginning 35 years after the date geothermal steam is produced as determined by the Supervisor. In the event of any such readjustment neither the rental nor royalty paid during the preceding period shall be increased by more than 50 per centum, and in no event shall the royalty payable exceed 22½ per centum. Each geothermal lease shall provide for such readjustment. The Supervisor will give notice of any proposed readjustment of rental or royalties. Unless the lessee relinquishes the lease within 30 days after receipt of such notice, he shall conclusively be deemed to have agreed to such terms and conditions. If the lessee files objections, and no agreement can be reached between the authorized officer and the lessee within a period of 60 days, the lease may be terminated by either party. If the lessee files objections to the proposed readjusted terms and conditions, the existing terms and conditions will remain in effect until there has been an agreement between the authorized officer and the lessee on the new terms and conditions to be applied to the lease or until the lease is terminated.

§ 3205.4 Rental and minimum royalty liability of lands committed to cooperative or unit plans.

§ 3205.4–1 Prior to production.

All lands within any lease committed to an approved cooperative or unit plan

XUM V37-230 NOV 29 72 XUM

XUM

V 37 • 230 NOV 29 72 XUM

shall at all times prior to production on any of the lands so committed remain liable for rental in accordance with § 3205.3–3.

§ 3205.4–2 After production.

As soon as production is obtained on or for any lands included in an approved cooperative or unit plan those lands which are included within the participating area of the producing well shall become liable for royalties in accordance with Subpart 3205. All other unitized lands, except those lands included in the lease on which production was obtained, shall remain liable for rental in accordance with § 3205.3–3.

Subpart 3206—Lease Bonds

§ 3206.1 Types of bonds and filing.

§ 3206.1–1 Types of bonds.

(a) Bonds shall be either corporate surety bonds or personal bonds except that bonds with individual sureties may be furnished for the protection of the entryman or owner of the surface rights.

(b) Lease compliance bond. The applicant for a noncompetitive lease or the successful bidder for a competitive lease must furnish, prior to the issuance of the lease, and thereafter maintain a corporate surety bond of not less than $10,000 conditioned on compliance with all the terms of the lease.

(c) Protection bond. A lessee will be required prior to entry on the leased lands to furnish and maintain a bond of not less than $5,000 for indemnification for all damages occasioned to persons or property as the result of lease operations.

§ 3206.1–2 Filing of bonds.

A single original copy of the bond on forms approved by the Director must be filed in the proper BLM office. Bonds may be filed with a noncompetitive lease application to expedite action thereon, or within 30 days after receipt of notice by the applicant of the bond requirement, or as required and directed by the authorized officer. For unit bond forms see 30 CFR Part 271.

§ 3206.2 Termination of period of liability.

The period of liability of any bond will not be terminated until all lease terms and conditions have been fulfilled.

§ 3206.3 Operators bond.

An operator, or, if there are more than one for different portions of the lease, each operator, shall furnish a corporate surety bond or bonds in an amount prescribed by the Supervisor.

§ 3206.4 Qualified corporate sureties.

Treasury lists. A list of companies holding certificates of authority from the Secretary of the Treasury under the Act of July 30, 1947 (6 U.S.C. 6–13), as acceptable sureties on Federal bonds is published in the FEDERAL REGISTER annually.

§ 3206.5 Nationwide bond.

In lieu of bonds required under any of the preceding paragraphs, the holder of leases or of operating agreements approved by the Department or holder of operating rights by virtue of being designated operator or agent by the lessee pending departmental approval of operating agreements may furnish a bond the amount of which must be not less than for $150,000 for full nationwide coverage for all geothermal leases.

§ 3206.6 Statewide bond.

In lieu of any of the bonds required by the preceding paragraphs, the holder of leases or of operating agreements approved by the Department or holder of operating rights by virtue of being designated operator or agent by the lessee pending departmental approval of operating agreements, may furnish a statewide bond, applicable to the State in which the leases are situated, the amount of which must be at the rate of not less than $50,000 for each unit of coverage.

§ 3206.7 Default.

§ 3206.7–1 Payment by surety.

Where upon a default the surety makes payment to the Government of any indebtedness due under a lease, the face amount of the surety bond and the surety's liability thereunder shall be reduced by the amount of such payment.

§ 3206.7–2 Penalty.

Thereafter, upon penalty of cancellation of all of the leases covered by that bond, the principal shall post a new nationwide bond in the amount of $150,000 or a unit bond, as the case may be, within 6 months after notice, or within such shorter period as the authorized officer may fix. However, in lieu thereof, the principal may within that time file separate bonds for each lease.

§ 3206.8 Applicability of provisions to existing bonds.

The provisions hereof may be made applicable to any nationwide or statewide bond in force at the time of the approval of the amendment of this paragraph by filing in the proper BLM office a written consent to that effect and an agreement to be bound by the provisions hereof executed by the principal and the surety. Upon receipt thereof the bond will be deemed to be subject to the provisions of this paragraph.

PART 3210—NONCOMPETITIVE LEASES

Subpart 3210—Noncompetitive Leases; General

Sec.
3210.1 Availability of land.
3210.2–1 Application.
3210.2–2 Withdrawal of application.
3210.2–3 Amendment to lease.
3210.3 Determination of priorities.
3210.4 Rejections.

Subpart 3211—Bureau Motion, Lands Previously Leased for Geothermal Resources

3211.1 Releasing of formerly leased lands.
3211.2 Nominating procedures.
3211.3 Leasing units receiving multiple nominations.
3211.4 Leasing units receiving single nominations.
3211.5 Rental returned.

Subpart 3210—Noncompetitive Leases; General

§ 3210.1 Availability of land.

Lands and deposits subject to disposition under this part which are not within any KGRA will be available for leasing after the effective date of these regulations. All applications to lease the same lands which are filed between the effective date of these regulations and 30 days following that time will be considered to have been filed simultaneously, and the respective priority of the various applications will be determined in accordance with § 3210.3. An application will be deemed to be for the lease of the same lands as a previous application when it includes not less than half the acreage embraced in the previous application. The date and the time when the first application on a tract is filed will be recorded. (a) No action on any application will be taken until the conclusion of the initial 30-day period. At that time, the tracts in a potential geothermal resource area will be listed in the order in which the first application was filed on each. Final action will not be taken on any application filed on a tract until final action has been taken on all the applications on each tract within the same potential geothermal resource area preceding that tract on the list: *Provided, however,* That if, because of an appeal or for some other reason, final action is delayed on a tract having priority, final action may be taken on tracts having lower priority as long as that final action does not result in the issuance of so many leases within that prospective area as to cause it to become a KGRA. (b) Final action will not be taken on any application filed after the initial 30-day period until final action has been taken on all applications filed during that period on that potential geothermal resource area. If, after the conclusion of the 30-day period, applications are filed on more than one tract within a potential geothermal resource area on the same day, the tracts will be listed in the order in which the first application was filed on each. Final action will not be taken on any application filed on a tract until final action has been taken on all the applications on each tract within the same potential geothermal resource area preceding that tract on the list and on all applications on tracts in that potential geothermal resource area filed on any previous day: *Provided, however,* That if, because of an appeal or for some other reason, final action is delayed on a tract having priority, final action may be taken on tracts having lower priority as long as that final action does not result in the issuance of so many leases within that potential geothermal resource area as to cause it to become a KGRA. (c) An application which, because it does not cover at least half the acreage included in a previous application, is not deemed to have been filed simultaneously with that previous application will be amended by the deletion of any acreage included in a lease by the time it becomes subject to final action, but the authorized officer, if he determines it desirable, may add to the application contiguous acreage not in excess of the acreage deleted.

§ 3210.2–1 Application.

No specific form is required. An application for a lease must be filed in the proper BLM office in duplicate for public lands and in triplicate for acquired lands. An application will be considered filed when it is received in the proper office during business hours. The application must include the following:

(a) The applicant's name and address;

(b) A statement of applicant's citizenship and qualifications;

(c) A complete and accurate description of the lands applied for;

(d) A proposed plan which shall include: (1) A map, or maps, available from State or Federal sources, showing the topography of the land applied for, on which the applicant shall show drainage patterns, present road and trail locations, present utility systems, proposed road and trail location, proposed well locations and potential surface disturbance, and (2) a narrative statement setting forth his proposed exploration plan and methods. Such plan shall provide for a program of diligent exploration as defined in § 3203.5 of this subchapter.

The narrative statement should also describe the measures proposed to be taken to prevent or control fire, soil erosion, pollution of surface and ground water, damage to fish and wildlife or other natural resources, air and noise pollution and hazards to public health and safety during lease activities; and

(e) A statement of interest, direct or indirect, in other Federal geothermal leases or applications in the same State. Such total interest may not exceed 20,480 acres.

§ 3210.2–2 Withdrawal of application.

An application may not be withdrawn, either in whole or in part, unless the request is received by the proper BLM office before the lease has been signed on behalf of the United States even though the effective date of the lease is subsequent to the date of filing of the withdrawal, except where a separate conflicting lease has been signed on behalf of the United States covering the land described in the withdrawal.

§ 3210.2–3 Amendment to lease.

If any of the land applied for is open to filing when the application was filed but is omitted from the lease for any reason and thereafter becomes available for noncompetitive leasing, the original lease will be amended to include the omitted land unless, before the issuance of the amendment, the proper BLM office receives a withdrawal of the lessee's application with respect to such land or such omitted lands have been determined to be within a KGRA.

§ 3210.3 Determination of priorities.

No lease shall be issued before final action has been taken on (a) any prior application to lease the land, (b) any subsequent application to lease the land that is based upon a claimed preferential right, and (c) any petition for the renewal or reinstatement of an existing or former lease on the land. If a lease is issued before final action has been taken on such applications and petitions, it shall be canceled, and the advance rental returned, after due notice to the lessee, where the applicant or petitioner is found to be qualified and entitled to receive a lease of the land. Multiple applications for lease of the same lands received in the mail or delivered on the same day will be deemed to have been simultaneously filed. After the receipt of applications and prior to the issuance of any lease, a determination shall be made as to whether or not the lands are within a KGRA. If the lands are then determined not to be within any KGRA, the right of priority to a noncompetitive geothermal lease, among those persons simultaneously filing therefor, will be determined by a public drawing.

§ 3210.4 Rejections.

If, after the filing of an application for a noncompetitive lease and before the issuance of a lease, or amendment thereto, pursuant to that application, the land embraced in the application becomes included within a KGRA, the application will be rejected as to such KGRA lands. The authorized officer retains discretion to reject an application for a noncompetitive lease even though the tract for which application is made is not determined to be within a KGRA.

Subpart 3211—Bureau Motion—Land Previously Leased for Geothermal Resources

§ 3211.1 Releasing of formerly leased lands.

From time to time the authorized officer will publish in the FEDERAL REGISTER, post in each proper BLM office, and provide appropriate news coverage of: (a) A list of leasing units composed of lands in canceled, expired, relinquished, or terminated leases which are not withdrawn from leasing or not included in a KGRA and which he has determined to be available for leasing; (b) a request for nomination for leasing; (c) terms and conditions on which a lease, if issued, will be conditioned; (d) address of proper BLM office; and (e) requirements for a complete nomination. Nominations of tracts should be addressed to the proper BLM office.

§ 3211.2 Nominating procedures.

No specific form is required. Only one complete leasing unit, identified by unit number, may be included in a nomination. Lands not on the published list may not be included in the nomination. The nomination must be accompanied by (a) the first year's advance rental, and (b) a signed statement that the nominator will furnished the information required by these regulations within 15 days after notification that his nomination is the only one for the tract.

§ 3211.3 Leasing units receiving multiple nominations.

If the lands are determined not to be within any KGRA, multiple nominations for such lands within the prescribed period will be considered as simultaneous filings and each nominator will be given the opportunity to qualify for a lease in accordance with Subpart 3210. Where more than one nominator qualifies for a lease, the priority shall be determined by public drawing.

§ 3211.4 Leasing units receiving single nominations.

(a) Tracts receiving only one nomination, which have not been included within any KGRA, will be leased to the nominator, upon payment of a $50 filing fee and upon his compliance with all applicable regulations, including those in Subpart 3210.

(b) If no nominations are received a lease may be issued pursuant to an application filed in accordance with these regulations.

§ 3211.5 Rental returned.

If an applicant or nominator withdraws his application or nomination or if his application or nomination to lease is rejected, the advance rental will be returned to him.

PART 3220—COMPETITIVE LEASES

Subpart 3220—Competitive Leases; General

Sec.
3220.1 General.
3220.2 Nominations.
3220.3 Publication of notice of lease sale.
3220.4 Contents of notice of lease sale.
3220.5 Bidding requirements.
3220.6 Award of lease.

Subpart 3220—Competitive Leases; General

§ 3220.1 General.

(a) Lands within a KGRA, except as provided under § 3201.1, will be available for leasing on the effective date of these regulations.

(b) The authorized officer will accept nominations to lease, or may on his own motion from time to time call for nominations to lease. Nominations may be withdrawn at any time.

§ 3220.2 Nominations.

(a) No specific form is required.

(b) A nomination must be filed in the proper BLM office in duplicate for public lands and triplicate for acquired lands and must include the following:

(1) The nominator's name and address;

(2) A statement of citizenship and qualifications for lease;

(3) A description of the lands; and

(4) A statement of the interests, direct or indirect, held in other Federal geothermal leases or nominations in the same State.

scribe the lands according to the legal

§ 3220.3 Publication of notice of lease sale.

Where the Secretary determines to offer all or any of the nominated land for competitive leasing he will publish a notice of lease sale in a newspaper of general circulation in the area in which the lands to be leased are located once a week for 4 consecutive weeks, or for such other period as he may direct.

§ 3220.4 Contents of notice of lease sale.

The notice will state that the successful bidder will be required, prior to the issuance of a lease, to pay his proportionate share of the total cost of publication of the notice which shall be that portion of the total advertising cost that the number of parcels of land awarded to him bears to the number of parcels for which high bidders are declared. The notice will also state the time and place of sale, the manner in which bids may be submitted, the description of the lands and the terms and conditions of the sale, including royalty and rental rates.

§ 3220.5 Bidding requirements.

(a) A separate sealed bid must be submitted for each lease unit. Each bidder must submit with his bid a certified or cashier's check, bank draft, money order or cash in the amount of one-half of the amount bid together with proof of qualifications as required by these regulations.

(b) All bidders are warned against violation of the provisions of Title 18 U.S.C. section 1860 prohibiting unlawful combination or intimidation of bidders.

§ 3220.6 Award of lease.

All sealed bids shall be opened at the place, date, and hour specified in the notice. No bids will be accepted or rejected at that time, except as otherwise provided in these regulations as provided in Part 3230 of this chapter or elsewhere in these regulations, and the notice for invitation for bids covering the lands involving possible lease conversion rights. Leases will be awarded to the highest responsible qualified bidder. The right to reject any and all bids is reserved. If the authorized officer fails to accept the highest bid for a lease within 30 days after the date on which the bids are opened, all bids will be considered rejected. If the lease is awarded, three copies of the lease will be sent to the successful bidder who shall be required to execute them within 30 days from receipt thereof, to pay the first year's rental, the balance of the bonus bid, and file the required bond or bonds. Deposits on rejected bids will be returned. If the successful bidder fails to execute the lease or otherwise comply with the applicable regulations, his deposit will be forfeited and disposed of as other receipts under the Act. When the three copies of the lease are executed by the successful bidder and returned to the authorized officer, the lease will be executed by the authorized officer and a copy will be mailed to the successful bidder.

PART 3230—RIGHTS TO CONVERSION TO GEOTHERMAL LEASES OR APPLICATION FOR GEOTHERMAL LEASES

Subpart 3230—Rights to Conversion to Geothermal Leases or Application for Geothermal Leases; General

Sec.

3230.1 General.
3230.1–1 Rights to conversion to geothermal leases.
3230.1–2 Rights to conversion to applications for geothermal leases.
3230.1–3 Land in which minerals are reserved to the United States.
3230.1–4 Conflicting claims of rights to conversion to geothermal leases.
3230.1–5 Evidence required to qualify for grant of rights to conversion to geothermal leases.
3230.1–6 Method of leasing to owners of conversion rights to geothermal leases.
3230.1–7 Acreage limitation.
3230.2 Qualifications
3230.3 Applications.
3230.3–1 Filing of application.
3230.3–2 Statements required.
3230.4 Conversion to geothermal leases or to applications for geothermal leases.
3230.4–1 Processing and adjudicating applications.
3230.4–2 Approval.

Subpart 3230—Rights to Conversion to Geothermal Leases or Application for Geothermal Leases

§ 3230.1 General.

§ 3230.1–1 Rights to conversion to geothermal leases.

Where lands were on September 7, 1965, subject to valid leases or permits issued under the Mineral Leasing Act of 1920, as amended and supplemented (30 U.S.C. 181–287), or the Mineral Leasing Act for Acquired Lands, as amended (30 U.S.C. 351–358), or subject to existing mining claims located on or prior to September 7, 1965, the lessees, permittees, or claimants, or their successors in interest, if qualified to hold geothermal leases, shall have the right, subject to certain limitations as hereinafter provided, to convert such leases, permits or claims to geothermal leases covering the same lands.

§ 3230.1–2 Rights to conversion to applications for geothermal leases.

Where lands were subject to application for leases or permits under the mineral leasing laws referred to in § 3230.1–1 on September 7, 1965, the applicants may, subject to certain limitations as hereinafter provided, convert their applications to applications for geothermal leases having priorities dating from the time of filing such applications under said mineral leasing laws.

§ 3230.1–3 Land in which minerals are reserved to the United States.

Where a right to one of the forms of conversion referred to in § 3230.1–1 or § 3230.1–2 is claimed as to lands the surface of which has passed from Federal ownership but in which the minerals have been reserved to the United States, final action on any claim to conversion rights under section 4 of the Act shall be held in abeyance until such time as the question of title to the geothermal resources in such lands has been resolved pursuant to the provisions of section 21(b) of the Act, unless the Secretary determines that it is in the public interest to make a determination of such claims at an earlier time, subject to the rights, if any, of non-Federal owners.

§ 3230.1–4 Conflicting claims of rights to conversion to geothermal leases.

Where there are conflicting claims of rights to conversion to geothermal leases based upon mineral leases, mineral permits, or mining claims embracing the same land, the date of issuance of the permit or lease or of recordation of the claim shall determine priority.

§ 3230.1–5 Evidence required to qualify for grant of rights to conversion to geothermal leases.

Any person claiming rights to conversion to a geothermal lease must show to the reasonable satisfaction of the authorized officer that substantial expenditures for the exploration, development or production of geothermal steam were made on the lands for which a lease is sought or on adjoining, adjacent or nearby lands, including both Federal and non-Federal lands.

§ 3230.1–6 Method of leasing to owners of conversion rights to geothermal leases.

(a) *Lands included within any KGRA—(1) Competitive lease.* Where lands have been included with any KGRA, the owner of a conversion right to a geothermal lease for such lands shall be entitled to the issuance of a competitive lease only in accordance with the provisions of subparagraph (2) of this paragraph.

(2) *Preference right.* Lands which have been included within any KGRA shall be leased only by competitive bidding in the manner prescribed in Subpart 3220 of this chapter. The person owning the right to conversion to a geothermal lease shall be informed by written notice of the highest bona fide bid submitted for the lease at the sale. If within thirty (30) days after he has received that written notice, the person owning the right to conversion to a geothermal lease shall inform the authorized officer that he wishes such a lease, pay an amount equal to the highest bona fide bid submitted, and pay the rental for the first year, a lease will be issued to him.

(b) *Lands not included within any KGRA—Noncompetive lease.* Where lands have not been included within any KGRA, the owner of a conversion right to a geothermal lease for such lands, if otherwise qualified, shall be entitled to the issuance of a noncompetitive lease for such lands.

§ 3230.1–7 Acreage limitation.

No person shall be permitted to obtain, through conversion of mineral leases or prospecting permits, or applications therefor, or mining claims, leases for more than 10,240 acres, or a lease to any land not included in the lease, permit, application or claim converted.

§ 3230.2 Qualifications.

Persons who believe they are qualified under the Act to convert mineral leases or permits or existing mining claims to geothermal leases and persons who believe they are entitled to convert applications for mineral leases and permits to applications for geothermal leases shall comply with the procedures set forth below.

§ 3230.3 Applications.

§ 3230.3–1 Filing of application.

A written application shall have been filed with the proper BLM office on or before June 22, 1971, pursuant to the notice published in the FEDERAL REGISTER of January 15, 1971, 36 F.R. 623. If such an application has been filed and does not contain the information specified in § 3230.3–2 hereof, such information must be supplied by the applicant within 60 days of the effective date of these regulations.

§ 3230.3–2 Statements required.

(a) An application based on a valid lease or permit referred to in section 3230.1–1 hereof shall include the date of issuance, the State in which the lands are located, and the serial number of the lease or permit. An application based on a mining claim referred to in § 3230.1–1 shall include the name, location, legal description or reference sufficient to identify the lands on the ground, date of location and date and place of recordation of the mining claim (including volume and page) which the applicant seeks to convert to a geothermal lease. An application based on an application for a mineral lease or permit referred to in § 3230.1–1 shall include the date the application for the lease or permit was filed with the Bureau of Land Management and the location of the proper BLM office where the application was filed, and should indicate the serial number assigned to the application.

(b) An application shall include a description of the lands sought to be included in a geothermal lease. If the lands have been surveyed under the public land rectangular system, each application shall describe the lands by legal subdivision, section, township, and range. If the lands have not been so surveyed, or it is otherwise appropriate, each application shall describe the lands by metes and bounds, giving courses and distances between the successive angle points on the boundary of the tract, and connected by courses and distances to a monument or to a prominent topographic feature. When protracted surveys have been approved and the effective date thereof published in the FEDERAL REGISTER, each application for lands shown on such protracted surveys, filed on or after such effective date, shall describe the lands according to the legal subdivision, section, township, and range shown on the approved protracted surveys.

(c) An application shall be accompanied by a detailed statement showing: (1) The expenditures made for the exploration, development, or production of geothermal steam by the applicant on lands for which a geothermal lease is sought or on adjoining, adjacent or nearby Federal or non-Federal lands and the date or dates such expenditures were made, (2) the names and current addresses of the persons who actually performed the aforesaid exploration, development, or production work, (3) the geological, geophysical, and engineering data acquired in such exploration, development, and production which demonstrates, or tends to demonstrate the expenditures claimed, and (4) a map showing the location where the expenditures and improvements were made.

(d) The applicant shall file such additional information with respect to the application as requested by the authorized officer.

§ 3230.4 Conversion to geothermal leases or to applications for geothermal leases.

§ 3230.4–1 Processing and adjudicating applications.

Application for conversion to geothermal leases or to applications for geothermal leases together with all information and data submitted pursuant to § 3230.3–2 hereof and any other pertinent available information or data shall be reviewed by the authorized officer for the purpose of determining whether the required showing has been made, and thereafter the authorized officer shall prepare a proposed determination which shall be submitted to the Secretary.

§ 3230.4–2 Approval.

The authorized officer will make a determination that the applicant has or has not satisfactorily shown that he is entitled to receive the grant of a geothermal lease, or application for a geothermal lease.

PART 3240—RULES GOVERNING LEASES

3241.3 Segregative effect of application.
3241.4 Rejection.
3241.5 Expiration by operation of law.

Subpart 3242—Assignments and Transfers

3242.1 Assignments, transfers, interests, qualifications.
3242.1–1 Record title assignments or transfers of leases or undivided lease interests.
3242.1–2 Qualifications.
3242.2 Requirements for filing of assignments or transfers.
3242.2–1 Place of filing and service charge.
3242.2–2 Number of copies required.
3242.2–3 Time of filing assignments, transfers of leases, or undivided lease interests.
3242.2–4 Forms and statements.
3242.2–5 Description of lands.
3242.3 Bonds.
3242.4 Approval.
3242.5 Continuing responsibility.
3242.6 Production payments.
3242.7 Overriding royalty interests.
3242.7–1 General.
3242.7–2 Limitation of overriding royalties.
3242.8 Lease account status; requirement.
3242.9 Effect of assignment.

Subpart 3243—Production and Use of Byproducts

3243.1 General.
3243.2 Prior rights.
3243.3 Production and use of commercially demineralized water as a byproduct, production and use of other sources of water.
3243.3–1 General.
3243.3–2 Prohibition on production of commercially demineralized water.
3243.3–3 Water wells on geothermal areas.
3243.3–4 State water laws.

Subpart 3244—Cooperative Conservation Provisions

3244.1 Cooperative or unit plans.
3244.2 Acreage chargeability.
3244.3 Communitization or drilling agreements.
3244.3–1 Approval.
3244.3–2 Requirements.
3244.4 Operating, drilling, or development contracts or a combination for joint operations.
3244.4–1 Approval.
3244.4–2 Requirements.
3244.4–3 Acreage chargeability.

Subpart 3245—Terminations and Expirations

3245.1 Relinquishments.
3245.2 Automatic terminations and reinstatements.
3245.2–1 General.
3245.2–2 Exceptions.
3245.3 Termination of lease for noncompliance with regulations or lease terms; notice; hearing.
3245.4 Removal of material and supplies upon termination of lease.

Subpart 3241—Lease Extensions, Continuation, or Renewal

§ 3241.1 Applications.

An application for lease extension, continuation, or renewal shall be filed by the record title holder of the lease or by an assignee of the record title whose assignment has been filed for approval, or by an operator whose operating agreement has been filed for approval.

§ 3241.2 Forms.

An application for extension or renewal must be filed, in triplicate for public lands and in quadruplicate for acquired lands during the 90-day period prior to the expiration date of the lease, on a form approved by the Director or unofficial copies of that form in current use. The application must be accompanied by a service charge of $50 which will be retained as a service charge even though the application is later withdrawn or rejected, and a statement setting forth the reasons the extension is

§ 3243.3–2 Prohibition on production of

V37-230 NOV 29 72 XUM

requested. The unofficial copies must be exact reproductions, on one sheet of both sides, of the official form.

§ 3241.3 Segregating effect of application.

The timely filing of an application by the lessee or other qualified party as provided under § 3241.1 for extension shall have the effect of segregating the leased lands from all other applications until the final action taken on the application is noted, for public lands, on the tract book, or, for acquired lands, on the official records relating thereto, of the proper BLM office.

§ 3241.4 Rejection.

If, during the 90-day period prior to the expiration date of the lease, the record title holder, assignee of record title, or operator files an application or request for extension, which is not on the prescribed form or unofficial copies thereof, or fails to file the prescribed number of copies, he shall be notified of the defect and allowed 30 days after receipt of notice in which to correct it. If the applicant fails to correct the defect within the time prescribed, the application will be rejected. The lands previously covered by the rejected application for extension will be subject to the filing of new lease offers only as provided in these regulations.

§ 3241.5 Expiration by operation of law.

Upon failure of the lessee or other person enumerated in § 3241.1 to file an application for extension within the specified period, the lease will expire at the end of its primary term without notice to the lessee. Notation of such expiration need not be made on the official records, but the lands previously covered by that expired lease will be subject to the filing of new lease offers only as provided in these regulations.

Subpart 3242—Assignments and Transfers

§ 3242.1 Assignments, transfers, interests, qualifications.

§ 3242.1–1 Record title assignments or transfers of leases or undivided lease interests.

(a) The record title of leases may be assigned as to all or part of the leased acreage, except that no assignment will be approved where (1) either the assigned or retained portions created by the assignment would be less than 640 acres, unless the total acreage in the lease being partially assigned is less than 1,280 acres occasioned by an irregular subdivision, as provided in § 3203.2 of this part, in which case the assigned and retained portions may be less than 640 acres by an amount which is smaller than the amount by which the area would be more than 640 acres if the irregular subdivision were added, or (2) an undivided interest of less than 10 percent would be created in the leased acreage. An exception to the minimum acreage provision of this section may be made by the Secretary where he finds such exception is necessary in the interest of conservation of the resources.

(b) To obtain approval of a transfer affecting the record title of a geothermal lease, a request for such approval must be made not more than 90 days after the date of the final execution of the assignment by the parties.

(c) A working interest or operating right may be assigned, provided that the assigned interest or right, divided or undivided, vests in the holder only the right to explore, develop and produce geothermal resources from the leased lands to the extent of the interest assigned.

§ 3242.1–2 Qualifications.

(a) No assignment will be approved (1) if the assignee or any other party in interest is not qualified to take and hold a lease; (2) if a required bond is not filed; or (3) if the statement of interest required under § 3202.2–1(a) is not filed.

(b) an assignment to a minor other than an heir or devisee of a lessee will not be approved.

(c) The assignment must be accompanied by a signed statement by the assignee either (1) that he is the sole party in interest in the assignment, or (2) setting forth the names and qualifications of the other parties holding interests in the lease. Where the assignee is not the sole party in interest, separate statements must be signed by each of the other parties and by the assignee setting forth the nature and extent of the interest of each party and the nature of the agreement between them. These separate statements must be filed in the proper BLM office not later than 15 days after the filing of assignment.

(d) Where an attorney-in-fact or agent signs, on behalf of the assignor or assignee, the instrument of transfer or the application for approval, evidence of the authority of the attorney-in-fact or agent to sign such assignment or application must be furnished to the authorized officer.

(e) In order for the heir or devisee of the deceased holder of a lease, an operating agreement, or an overriding royalty interest in a producing lease, to be recognized by the authorized officer as the holder of that lease, agreement or interest, the appropriate showing required under the regulations in § 3202.2–6 must be furnished to the authorized officer.

§ 3242.2 Requirements for filing of assignments or transfers.

§ 3242.2–1 Place of filing and service charge.

A request for approval of any assignment or other instrument of transfer of a lease or interest therein must be filed in the proper BLM office and accompanied by a nonrefundable service charge of $50. An application not accompanied by payment of such a service charge will not be accepted for filing.

§ 3242.2–2 Number of copies required.

Three copies of all instruments of assignment or transfer, and a single copy of any additional information relating to citizenship or qualifications of corporations must be filed in the proper BLM office.

§ 3242.2–3 Time of filing assignments, transfers of leases, or undivided lease interests.

(a) Any instrument of transfer of a lease or of an interest therein, including an assignment of working interests, operating agreements, and operating rights, must be filed in the proper BLM office for approval within 90 days from the date of execution of that instrument and must contain all of the terms and conditions agreed upon by the parties thereto, together with evidence and statements similar to that required of an applicant under these regulations in this group.

(b) A separate instrument of assignment must be filed in the proper BLM office for each geothermal lease involving transfers of record title. When transfers to the same person, association, or corporation involve more than one geothermal lease, one request for approval and one showing as to the qualifications of the assignee will be sufficient.

§ 3242.2–4 Forms and statements.

A form approved by the Director, or unofficial copies of that form in current use, must be used for transfers and requests for approval referred to in this section and must be filed in triplicate for public lands and in quadruplicate for acquired lands. Unofficials copies used must be exact reproductions on one sheet of both sides of the officially approved one-page form, except that the copies must include: (a) The following statement above the signature of the assignee: "This form is submitted in lieu of the official form and contains all of the provisions thereof as of the date of filing of this assignment;" and (b) the name and address of the printer or other party issuing unofficial reproductions of the official form. The approved form may be used for an assignment which affects a transfer of the record title to all or part of a geothermal lease, but it is not to be used for any other type of transfer. The application for assignment shall be deemed to be approved upon execution by the authorized officer.

§ 3242.2–5 Description of lands.

Each instrument of transfer must describe the lands involved in the same manner as described in the lease.

§ 3242.3 Bonds.

Where an assignment does not create separate leases, the assignee, if the assignment so provides, may become a joint principal on the bond with the assignor. Any assignment which does not convey the assignor's record title in all of the lands in the lease must also be accompanied by consent of his surety to remain bound under the bond of record as to the lease retained by said assignor, if the bond, by its terms, does not contain such consent. If a party to the assignment has previously furnished a nationwide or statewide bond, no additional showing by such party is necessary as to the bond requirement.

§ 3242.4 Approval.

Upon approval, an assignment shall be effective as of the first day of the lease month following the date of filing of the assignment required by this Subpart in the proper BLM office.

§ 3242.5 Continuing responsibility.

(a) The assignor and his surety will continue to be responsible for the performance of any obligation under the lease until the assignment is approved.

(b) Upon approval, the assignee and his surety shall be responsible for the performance of all lease obligations notwithstanding any terms in the assignment to the contrary.

§ 3242.6 Production payments.

If payments out of production are reserved, a statement must be submitted stating the details as to the amount, method of payment, and other pertinent items.

§ 3242.7 Overriding royalty interests.

§ 3242.7–1 General.

(a) Overriding royalty interests in geothermal leases constitute accountable acreage holdings under these regulations.

(b) If an overriding royalty interest is created which is not shown in the instrument of assignment or transfer, a statement must be filed in the proper BLM office describing the interest.

(c) Any such assignment will be deemed valid if accompanied by a statement over the assignee's signature that the assignee is a citizen of the United States, an association of such citizens, or a corporation organized under the laws of the United States or of one of the States or the District of Columbia, and that his interests in geothermal leases do not exceed the acreage limitations provided in these regulations.

(d) All assignments of overriding royalty interests must be filed for record in the proper BLM office within 90 days from the date of execution. Such interests will not receive formal approval.

§ 3242.7–2 Limitation of overriding royalties.

(a) Except as herein provided, an overriding royalty on the value of the output of all geothermal resources, or any of them, at the point of shipment to market may be created by assignment or otherwise: *Provided*, That, (1) the overriding royalty is not for less than one-fourth (¼) of 1 percent of the value of such output, and does not exceed 50 percent of the rate of royalty due to the United States as specified in the geothermal lease, or as reduced pursuant to such lease, and (2) the overriding royalty, when added to overriding royalties previously created, does not exceed the maximum rate established hereof.

(b) The creation of an overriding royalty interest that does not conform to the requirements of paragraph (a) of this section shall be deemed a violation of the lease terms, unless the agreement creating overriding royalties provides (1) for a prorated reduction of all overriding royalties so that the aggregate rate of royalties does not exceed the maximum rate established in paragraph (a) of this section and (2) for the suspension of an overriding royalty during any period when the royalties due to the United States have been suspended pursuant to the terms of the geothermal lease.

§ 3242.8 Lease account status; requirements.

Unless the lease account is in good financial standing as to the area covered by an assignment at the time the assignment and bond are filed, or is placed in good standing before the assignment is reached for action, the lease shall be subject to termination in accordance with these regulations.

§ 3242.9 Effect of assignment.

An assignment of the record title of the complete interest in a portion of the lands in a lease shall segregate the assigned and retained portions into separate and distinct leases. An assignment of an undivided interest in the entire leasehold shall not segregate the lease into separate or distinct leases.

Subpart 3243—Production and Use of Byproducts

§ 3243.1 General.

Where the Supervisor determines that production, use, or conversion of geothermal steam under a geothermal lease is susceptible of producing a valuable byproduct or byproducts, including commercially demineralized water contained in or derived from such geothermal steam for beneficial use in accordance with applicable State water laws, the authorized officer shall require substantial beneficial production or use thereof, except where he determines that:

(a) Beneficial production or use is not in the interest of conservation of natural resources;

(b) Beneficial production or use would not be economically feasible; or

(c) Beneficial production and use should not be required for other reasons satisfactory to him.

§ 3243.2 Prior rights.

The production or use of such byproducts shall be subject to the rights of the holders of preexisting leases, permits or claims covering the same lands or the same minerals.

§ 3243.3 Production and use of commercially demineralized water as a byproduct, production, and use of other sources of water.

§ 3243.3–1 General.

Except as provided in these regulations, or the lease, the lessee shall have the right to process fluids, including brine, condensate, and other fluids, which are associated with geothermal steam within lands subject to the geothermal lease for the purpose of developing, producing, and utilizing the commercially demineralized water recovered as a result of such processing.

§ 3243.3–2 Prohibition on production of commercially demineralized water.

The lessee shall not be authorized to engage in the primary production of commercially demineralized water from the produced fluids contained in or derived from geothermal steam referred to in § 3243.3–1, where such use would result in the undue waste of geothermal energy.

§ 3243.3–3 Water wells on geothermal areas.

All leases issued under these regulations shall be subject to the condition that, where the lessee finds only potable water in any well drilled for production of geothermal resources, the Secretary may, when the water is of such quality and quantity as to be valuable and useable for agricultural, domestic, or other purpose, acquire the casing in the well at the fair market value of the casing.

§ 3243.3–4 State water laws.

Nothing in these regulations shall constitute an express or implied claim or denial on the part of the Federal Government as to its exemption from State water laws.

Subpart 3244—Cooperative Conservation Provisions

§ 3244.1 Cooperative or unit plans.

For the purpose of more properly conserving the natural resources of any geothermal pool, field or like area, lessees and their representatives may unite with each other or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan of development or operation of any geothermal resource area, or any part thereof (whether or not any part of that geothermal resource area is then subject to any cooperative or unit plan of development or operation). Applications to unitize shall be filed with the Supervisor who shall certify whether such plan is necessary or advisable in the public interest. The procedure in obtaining approval of a cooperative or unit plan of development, the provisions for the supervision of the cooperative or unit plan, and a suggested text of an agreement, are contained in 30 CFR Part 271.

§ 3244.2 Acreage chargeability.

All leases committed to any unit or cooperative plan approved or prescribed by the Supervisor shall be excepted in determining holdings or control for purposes of acreage chargeability. For the extension of leases committed to a unit plan, see Subpart 3203 of these regulations.

§ 3244.3 Communitization or drilling agreements.

§ 3244.3–1 Approval.

(a) The Supervisor is authorized, when separate tracts under lease cannot be independently developed and operated in conformity with an established well-spacing or well-development program, to approve, or to require lessees to

V 37-230 NOV 29 72 XUM

enter into, communitization or drilling agreements providing for the apportionment of production or royalties among the separate tracts of land comprising the drilling or spacing unit for the lease, or any portion thereof, with other lands, whether or not owned by the United States, when in the public interest. Operations or production pursuant to such an agreement shall be deemed to be operations or production as to each lease committed thereto.

(b) Preliminary requests to communitize separate tracts shall be filed in triplicate with the Supervisor.

(c) Executed agreements shall be submitted to the Supervisor in sufficient number to permit retention of five copies after approval.

§ 3244.3–2 Requirements.

The agreement shall describe the separate tracts comprising the drilling or spacing unit, disclose the apportionment of the production or royalties to the several parties and the name of the operator, and shall contain adequate provisions for the protection of the interests of all parties, including the United States. The agreement must be signed by or in behalf of all interested parties and will be effective only after approval by the Supervisor.

§ 3244.4 Operating, drilling, development contracts or a combination for joint operations.

§ 3244.4–1 Approval.

(a) The Secretary may on such conditions as he may prescribe, approve operating, drilling, or development contracts made by one or more geothermal lessees, with one or more persons, associations, or corporation whenever he shall determine that such contracts are required for the conservation of natural resources or in the best interest of the United States.

(b) The Secretary may approve a combination for joint operations, pursuant to which lessees may combine their interests in leases for the purpose of constructing and carrying on the business of producing geothermal resources, or of establishing and constructing common lines to be used by them jointly in the transmission or transportation of geothermal resources from their several wells or from the wells of other lessees, or to increase the acreage which may be acquired or held under the provisions of the Act relating to competitive leases.

(c) Contracts submitted for approval under this section should be filed with the Supervisor together with enough copies to permit retention of five copies after approval.

(d) The authority of the Secretary to approve operating, drilling, or development contracts or a combination for joint operations, without regard to acreage limitations ordinarily will be exercised only to permit operators to enter into contracts with a number of lessees sufficient to justify operations on a large scale for the discovery, development, production, or transmission, transportation, or utilization of geothermal resources, and to finance the same.

§ 3244.4–2 Requirements.

(a) The contract must be accompanied by a statement showing all the interests held by the contractor in the area or field and the proposed or agreed plan of operation or development of the field. All the contracts held by the same contractor in the area or field should be submitted for approval at the same time, and full disclosure of the project made. Complete details must be furnished in order that the Secretary may have facts upon which to make a definite determination in accordance herewith and to prescribe the conditions on which approval of the contracts shall be made.

(b) The application must show a reasonable need for the combination and that it will not result in any concentration of control over the production or sale of geothermal resources which would be inconsistent with the antimonopoly provisions of law.

§ 3244.4–3 Acreage chargeability.

All leases operated under approved operating, drilling or development contracts or a combination for joint operations and interests thereunder, shall be excepted in determining holdings or control for purposes of acreage chargeability.

Subpart 3245—Terminations and Expirations

§ 3245.1 Relinquishments.

(a) A lease, or any legal subdivision of the area covered by such lease, may be surrendered by the record title holder by filing a written relinquishment in triplicate in the proper BLM office. The relinquishment must: (1) describe the lands to be relinquished as described in the lease; (2) include a statement as to whether the relinquished lands had been disturbed and if so whether they were restored as prescribed by the terms of the lease; (3) state whether wells had been drilled on the lands and if so whether they had been placed in condition for abandonment; and (4) furnish a statement that all moneys due and payable to workmen employed on the leased premises have been paid.

(b) A relinquishment shall take effect on the date it is filed, subject to the continued obligation of the lessee and his surety: (1) To make payments of all accruing rentals and royalties; (2) to place all wells on the land to be relinquished in condition for suspension of operations or abandonment as prescribed by the Supervisor; (3) to restore the surface resources in accordance with all regulations and the terms of the lease; and (4) to comply with all other environmental stipulations provided for by such regulations or lease. A statement must be furnished that all moneys due and payable to workmen employed on the leased premises have been paid.

§ 3245.2 Automatic terminations and reinstatements.

§ 3245.2–1 General.

Except as provided in § 3245.2–2 any lease will automatically terminate by operation of law if the lessee fails to pay the rental on or before the anniversary date of such lease. However, if the time for payment falls upon any day in which the proper office to receive payment is not open, payment received on the next official working day shall be deemed to be timely. The termination of the lease for failure to pay the rental must be noted on the official records of the proper BLM office. Upon such notation the lands included in such lease will become subject to leasing as provided for in Subpart 3211 of these regulations.

§ 3245.2–2 Exceptions.

(a) *Nominal deficiency.* If the rental payment due under a lease is paid on or before its anniversary date but the amount of the payment is deficient and the deficiency is nominal, the lease shall not have automatically terminated unless the lessee fails to pay the deficiency within the period prescribed in a Notice of Deficiency, or by the due date, whichever is later. A deficiency is nominal if it is not more than $10 or one percentum (1%) of the total payment due, whichever is more. The authorized officer shall send a Notice of Deficiency to the lessee on an approved form. The Notice shall be sent by certified mail, return receipt requested, and shall allow the lessee 15 days from the date of receipt to submit the full balance due to the proper BLM office. If the payment called for in the notice is not made within the time allowed, the lease will have terminated by operation of law as of its anniversary date.

(b) *Reinstatements.* (1) Except as hereinafter provided, the authorized officer may reinstate a lease which has terminated automatically for failure to pay the full amount of rental due on or before the anniversary date, if it is shown to his satisfaction that such failure was either justifiable or not due to a lack of reasonable diligence on the part of the lessee; and a petition for reinstatement, together with the required rental, including any back rental which has accrued from the date of termination of the lease, is filed with the proper BLM office.

(2) The burden of showing that the failure to pay on or before the anniversary date was justifiable or not due to lack of reasonable diligence will be on the lessee. Reasonable diligence normally requires sending or delivering payments sufficiently in advance of the anniversary date to account for normal delays in the collection, transmittal, and delivery of the payment. The authorized officer may require evidence, such as post office receipts, of the time of sending or delivery of payments.

(3) Under no conditions will a lease be reinstated if (i) a valid lease has been issued prior to the filing of a petition for reinstatement affecting any of the lands covered by the terminated lease, or (ii) the interest in the lands has been withdrawn, disposed of, or has otherwise become unavailable for leasing. However, the authorized officer will not issue a new lease for lands covered by a lease which terminated automatically until 90 days after the date of termination.

(4) Reinstatement of terminated leases is discretionary with the Secretary. The basic criterion in accordance with which this discretion will be exercised is whether the Secretary would be willing to issue a lease if a new lease offer for the same land were under consideration.

§ 3245.3 Termination of lease for noncompliance with regulations or lease terms; notice; hearing.

A lease may be terminated by the authorized officer for any violation of these regulations, the regulations in 30 CFR Part 270, or the lease terms, 30 days after receipt by the lessee of notice from the authorized officer of the violation, unless (a) the violation has been corrected, or (b) the violation is one that cannot be corrected within the notice period and the lessee has in good faith commenced within the notice period to correct the violation and thereafter proceeds diligently to complete the correction. A lessee shall be entitled to a hearing on the matter of any such claimed violation or proposed termination of lease if a request for a hearing is made to the authorized officer within the 30-day period after notice. The procedures with respect to notice of such hearing and the conduct thereof, and with respect to appeals from decisions of hearing examiners upon such hearings, shall follow insofar as practicable the procedural rules applicable to hearings and appeals in public lands cases within the jurisdiction of the Board of Land Appeals, Office of Hearings and Appeals, contained in Department Hearings and Appeals Procedures, Part 4 of this title. The period for correction of violation or commencement to correct a violation of regulations or of lease terms, as aforesaid, shall be extended to 30 days after the lessee's receipt of the hearing examiner's decision upon such a hearing if the hearing examiner shall find that a violation exists.

§ 3245.4 Removal of materials and supplies upon termination of lease.

Upon the expiration of the lease, or the earlier termination thereof pursuant to this subpart, the lessee shall have the privilege at any time within a period of ninety (90) days thereafter of removing from the premises any materials, tools, appliances, machinery, structures, and equipment other than improvements needed for producing wells. Any materials, tools, appliances, machinery, structures, and equipment subject to removal, but not removed within the 90-day period, or any extension thereof that may be granted because of adverse climatic conditions during that period, shall, at the option of the Supervisor, become property of the lessor, but the lessee shall remove any or all such property where so directed by the lessor.

Dated: November 22, 1972.

W. W. LYONS,
Deputy Assistant Secretary of the Interior.

[30 CFR Parts 270, 271]

GEOTHERMAL RESOURCES OPERATIONS ON PUBLIC, ACQUIRED AND WITHDRAWN LANDS

Notice of Proposed Rulemaking

The purpose of this revision in the proposed rulemaking for implementing the Geothermal Steam Act of December 24, 1970 (30 U.S.C. 1001–1025), is to provide the public with revisions planned as a result of the public hearings and comments received on the Draft Environmental Statement and previously published proposed rulemaking on operations and units (36 F.R. 13722 and 37 F.R. 8094). The Act provides for the leasing of public lands for the purpose of geothermal resource exploration, development and production.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested parties may submit written comments, suggestions, or objections with respect to the proposed regulations to the Geothermal Coordinator, Department of the Interior, Washington, D.C. 20240, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

A Final Environmental Statement will be issued in accordance with the provisions of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) prior to promulgation of any operating and unit regulations.

GENERAL PROVISIONS

PROCEDURE IN CASE OF VIOLATION OF THE REGULATIONS OR LEASE TERMS

270.80 Noncompliance with regulations or lease terms.

APPEALS

270.90 Appeals.

GENERAL PROVISIONS

§ 270.1 Purpose and authority.

The Geothermal Steam Act enacted on December 24, 1970 (84 Stat. 1566) referred to in this part as "the Act", authorizes the Secretary of the Interior to prescribe rules and regulations applicable to operations conducted under a lease granted pursuant to that Act, and for the development and conservation of geothermal steam and associated geothermal resources, the prevention of waste, the protection of the public interest, and the protection of water quality, and other environmental qualities. The regulations in this part shall be administered by the Director through the Chief, Conservation Division, or his duly appointed representative.

§ 270.2 Definitions.

As used in the regulations in this part, the term:

(a) "Secretary" means the Secretary of the Interior or any person duly authorized to exercise the powers vested in that officer.

(b) "Director" means the Director of the Geological Survey.

(c) "Supervisor" means a representative of the Secretary, subject to the direction and supervisory authority of the Director, the Chief, Conservation Division, Geological Survey, and the appropriate Regional Conservation Manager, Conservation Division, Geological Survey, authorized and empowered to regulate operations and to perform other duties prescribed in the regulations in this part or any subordinate of such a representative acting under his direction.

(d) "Geothermal lease" means a lease issued under 43 CFR Group 3200.

(e) "Lessee" means the individual, corporation, association, or municipality to which a geothermal lease has been issued and its successor in interest or assignee. It also means any agent of the lessee or an operator holding authority by or through the lessee.

(f) "Operator" means the individual, corporation, or association having control or management of operations on the leased lands or a portion thereof. The operator may be the lessee, designated operator, or agent of the lessee, or holder of rights under an approved operating agreement.

(g) "Geothermal resources" means (1) all products of geothermal processes, embracing indigenous steam, hot water, and hot brines; (2) steam and other gases, hot water, and hot brines, resulting from water, gas, or other fluids artificially introduced into geothermal formations; (3) heat or other associated energy found in geothermal formations; and (4) any byproduct derived therefrom.

(h) "Byproduct" means (1) any mineral or minerals (exclusive of oil, hydrocarbon gas, and helium), which are found in solution or developed in association with geothermal steam and which have a value of less than 75 per centum of the value of the geothermal steam or are not, because of quantity, quality, or technical difficulties in extraction and production, of sufficient value to warrant extraction and production by themselves, and (2) commercially demineralized water.

(i) "Participating area" means that part of the unit area which is deemed to be productive from a horizon or deposit and to which production would be allocated in the manner described in the unit agreement assuming that all lands are committed to the unit agreement.

(j) "Waste" means (1) physical waste, as that term is generally understood; (2) waste of reservoir energy through inefficiency, improper use of or unnecessary dissipation of reservoir energy; (3) the location, spacing, drilling, equipping, operating, or producing of any geothermal well or wells in a manner which causes or tends to cause reduction in the quantity of geothermal energy ultimately recoverable from a reservoir under prudent and workmanlike operations or which tends to cause unnecessary or excessive surface or subsurface loss or destruction of geothermal energy; and (4) the inefficient transmission of geothermal energy from the source (wellhead) to point of utilization.

(k) "Directionally drilled well" means the deviation of a well bore from the vertical or from its normal course in an intended predetermined direction or course with respect to the points of the compass. Directionally drilled well shall not include a well deviated for the purpose of straightening a hole that has become crooked in the normal course of drilling or holes deviated at random without regard to compass direction in an attempt to sidetrack a portion of the hole on account of mechanical difficulty in drilling.

(l) "Geothermal resources operational order" or "GRO order" means a formal numbered order, issued by the Supervisor, with the prior approval of the Chief, Conservation Division, Geological Survey, which implements the regulations in this part and applies to operations in an area, region, or any significant portion thereof.

(m) "Producible well" means a well which is capable of producing geothermal resources in commercial quantities.

(n) "Commercial quantities" means quantities sufficient to pay a profit after all costs of production have been met.

(o) "Area of operations" means that area of the leased lands which is required for exploration, development, and producing operations, and which is delineated on a map or plat which is made a part of the approved plan of operations. It encompasses the area generally needed for wells, flow lines, separators, surge tanks, drill pads, mud pits, workshops, and other such facilities used for on-project geothermal resources field exploration, development, and production operations.

JURISDICTION AND FUNCTIONS OF SUPERVISOR

§ 270.10 Jurisdiction.

Drilling and production operations, handling and measurement of production, determination and collection of royalty and, in general, all operations conducted on a geothermal lease are subject to the regulations in this part and the applicable regulations contained in 43 CFR Group 3200, and are under the jurisdiction of the Supervisor for the region in which the leased land is situated, subject to the supervisory authority of the Secretary and the Director.

§ 270.11 General functions.

The Supervisor is authorized and directed to carry out the provisions of this part. He will require compliance with the terms of geothermal leases, with the regulations in this part and the applicable regulations in 43 CFR Group 3200, and with the applicable statutes. He shall act on all applications, requests, and notices required in this part. In executing his functions under this part the Supervisor shall ensure that all operations, within the area of operations, will conform to the best practice and are conducted in such manner as to protect the deposits of the leased lands and to result in the maximum ultimate recovery of geothermal resources, with minimum waste, and are consistent with the principles of the use of the land for other purposes and of the protection of the environment. Inasmuch as conditions in one area may vary widely from conditions in another area, the regulations in this part are intended to be general in nature. Detailed procedures hereunder in any particular area will be covered by GRO orders. The requirements to be set forth in GRO orders relating to surface resources or uses will be coordinated with the appropriate land management agency. The Supervisor may issue oral orders to govern lease operations, but such orders shall be confirmed in writing by the Supervisor as promptly as possible. The Supervisor may issue other orders and rules to govern the development and method for production of a deposit, field, or area. Prior to the issuance of GRO orders and other orders and rules, the Supervisor may consult with, and receive comments from Federal and State agencies, lessees, operators, or interested parties. Before permitting other operations on the leased land, the Supervisor shall determine if the lease is in good standing, whether the lessee is authorized to conduct operations, has filed an acceptable bond, and has an approved plan of operations.

§ 270.12 Regulation of operations.

The Supervisor shall inspect and supervise operations performed under the regulations in this part to: (a) Prevent waste and damage to formations or deposits containing geothermal resources; (b) prevent unnecessary damage to other natural resources; (c) prevent degradation of the water quality; (d) protect other environmental qualities; and (e) prevent injury to life or property. The Supervisor shall issue such GRO orders as are necessary to accomplish these purposes.

§ 270.13 Required samples, tests, and surveys.

When necessary or advisable, the Supervisor shall require that adequate samples be taken and tests or surveys be made using acceptable techniques, without cost to the lessor, to determine the identity and character of formations; the presence of geothermal resources, water, or reservoir energy; the quantity and quality of geothermal resources, water or reservoir energy; the amount and direction of deviation of any well from the vertical; formation, casing, and tubing pressures, temperatures, rate of heat and fluid flow, and whether operations are conducted in a manner looking to the protection of the interests of the lessor.

§ 270.14 Drilling and abandonment of wells.

The Supervisor shall require that drilling be conducted in accordance with the terms of the lease, GRO orders, and the regulations in this part and 43 CFR Group 3200; and shall require plugging and abandonment of any well or wells no longer necessary for operations in accordance with plans approved or prescribed by him. Upon the failure of a lessee to comply with any requirement under this section, the Supervisor is authorized to perform the work at the expense of the lessee and the surety.

§ 270.15 Well spacing and well casing.

The Supervisor shall approve proposed well-spacing and well-casing programs or prescribe such modifications to the programs as he determines necessary for proper development, giving consideration to such factors as: (a) Topographic characteristics of the area; (b) hydrologic, geologic and reservoir characteristics of the field; (c) the number of wells that can be economically drilled to provide the necessary volume of geothermal resources for the intended use; (d) protection of correlative rights; (e) minimizing well interference; (f) unreasonable interference with multiple use of lands; and (g) protection of the environment.

§ 270.16 Values and payment for losses.

The Supervisor shall determine the value of production accruing to the lessor where there is loss through waste or failure to drill and produce protection wells on the lease, and the compensation due to the lessor as reimbursement for such loss. Payment for such losses will be paid when billed.

§ 270.17 Suspension of operations and production.

(a) On receipt of an application filed in accordance with 43 CFR 3205.3–8 for suspension of operations or production, or both, under a producing geothermal lease (or for relief from any drilling or producing requirements of such a lease), the Supervisor may, if he deems the suspension or relief warranted, approve the application.

(b) In the interest of conservation, the Supervisor may, on his own motion, suspend operations or production, or both, on any geothermal lease.

(c) Where operations or production, or both, under a lease, have been suspended, the Supervisor may approve resumption of operations or production either on his own motion or upon written request by the lessee or his agent.

(d) Whenever it appears from facts adduced by or furnished to the Supervisor that the interest of the lessor requires additional drilling or producing operations, he may, by written notice, order the beginning or resumption of such operations.

(e) Any action of the Supervisor under this Section shall be subject to the right of appeal under § 270.90.

(f) See 43 CFR 3205.3–7 and 3205.3–8 for regulations concerning requests to waive, suspend, or reduce payments of rental or royalty, and extensions of leases on which operations or production have been suspended.

REQUIREMENTS FOR LESSEES

(INCLUDING OPERATORS)

§ 270.30 Lease terms, regulations, waste, damage, and safety.

(a) The lessee shall comply with the lease terms, lease stipulations, applicable laws and regulations and any amendments thereof, GRO orders, and other written or oral orders of the Supervisor. All oral orders (to be confirmed in writing as provided in § 270.11) are effective when issued unless otherwise specified.

(b) The lessee shall take all reasonable precautions to prevent: (1) Waste; (2) damage to any natural resource including trees and other vegetation, fish and wildlife and their habitat; (3) injury or damage to persons, real or personal property; and (4) any environmental pollution or damage.

§ 270.31 Designation of operator or agent.

In all cases where operations are not conducted by the lessee but are to be conducted under authority of an unapproved operating agreement, assignment

V37-230 NOV 29 72 XUM

or other arrangement, a "designation of operator" shall be submitted to the Supervisor, in a manner and form approved by him, prior to commencement of operations. Such a designation will be accepted as authority of the operator or his local representative to act for the lessee and to sign any papers or reports required under the regulations in this part. All changes of address and any termination of the authority of the operator shall be immediately reported, in writing, to the Supervisor.

§ 270.32 Local agent.

When required by the Supervisor, the lessee shall designate a local representative empowered to receive notices and comply with orders of the Supervisor issued pursuant to the regulations in this part.

§ 270.33 Drilling and producing obligations.

(a) The lessee shall diligently drill and produce such wells as are necessary to protect the lessor from loss by reason of production on other properties, or in lieu thereof, with the consent of the Supervisor, shall pay a sum determined by the Supervisor as adequate to compensate the lessor for failure to drill and produce any such well.

(b) The lessee shall promptly drill and produce such other wells as the Supervisor may require in order that the lease be developed and produced in accordance with good operating practices. (See 43 CFR Part 3234.)

§ 270.34 Plan of operation.

Prior to commencing any operations on the lease, the lessee shall submit and obtain the approval of the Supervisor and the appropriate land management agency of a plan of operation for the area. Such plan shall include:

(a) the proposed location of each well including a layout showing the position of the mud tanks, reserve pits, cooling towers, pipe racks, etc.;

(b) existing and planned access and lateral roads;

(c) location and source of water supply and road building material;

(d) location of camp sites, air-strips, and other supporting facilities;

(e) methods for disposing of waste material; and

(f) all pertinent information or data which the Supervisor may require to support the plan of operations for the utilization of geothermal resources and the protection of the environment.

§ 270.35 Subsequent well operations.

After completion of all operations authorized under any previously approved notice or plan, the lessee shall not begin to redrill, repair, deepen, plug back, shoot, or plug and abandon any well, make casing tests, alter the casing or liner, stimulate production, change the method of recovering production, or use any formation or well for brine or fluid injection until he has submitted to the Supervisor in writing a new plan of operations and has received written approval from him. However, in an emergency a lessee may take action to prevent damage without receiving prior approval from the Supervisor, but in such cases the lessee shall report his action to the Supervisor as soon as possible.

§ 270.36 Well designations.

The lessee shall mark each derrick upon commencement of drilling operations and each producing or suspended well in a conspicuous place with his name or the name of the operator, the serial number of the lease, the number and location of the well. Whenever possible, the well location shall be described by section or tract, township, range, and by quarter-quarter section or lot. The lessee shall take all necessary means and precautions to preserve these markings.

§ 270.37 Well records.

(a) The lessee shall keep for each well at his field headquarters or at other locations conveniently available to the Supervisor, accurate and complete records of all well operations including production, drilling, logging, directional well surveys, casing, perforation, safety devices, redrilling, deepening, repairing, cementing, alterations to casing, plugging, and abandoning. The records shall contain a description of any unusual malfunction, condition or problem; all the formations penetrated; the content and character of mineral deposits and water in each formation; thermal gradients, temperatures, pressures, analyses of geothermal waters, the kind, weight, size, grade, and setting depth of casing; and any other pertinent information.

(b) The lessee shall, within 30 days after completion of any well, transmit to the Supervisor copies of the records of all operations in a form prescribed by the Supervisor.

(c) Upon request of the Supervisor, the lessee will furnish (1) legible, exact copies of service company reports on cementing, perforating, acidizing, analyses of cores, electrical, and temperature logs, chemical analyses of steam and waters, or other similar services; (2) other reports and records of operations in the manner and form prescribed by the Supervisor.

§ 270.38 Samples, tests, and surveys.

(a) The lessee, when required by the Supervisor, will make adequate sampling, tests and/or surveys using acceptable techniques, to determine the presence, quantity, quality, and potential of geothermal resources, mineral deposits, or water; the amount and direction of deviation of any well from the vertical; and/or formation temperatures and pressures, casing, tubing, or other pressures and such other facts as the Supervisor may require. Such tests or surveys shall be made without cost to the lessor.

(b) The lessee shall, without cost to the lessor, take such formation samples or cores to determine the identity and character of any formation as are required and prescribed by the Supervisor.

§ 270.39 Directional survey.

The Supervisor may require an angular deviation and directional survey to be made of the finished hole of each directionally drilled well. The survey shall be made at the risk and expense of the lessee unless requested by an offset lessee, and then, at the risk and expense of the offset lessee. A copy of the survey shall be furnished the Supervisor.

§ 270.40 Well control.

The lessee or operator shall: (a) Take all necessary precautions to keep all wells under control at all times; (b) utilize trained and competent personnel; (c) utilize properly maintained equipment and materials; and (d) use operating practices which insure the safety of life and property. The selection of the types and weights of drilling fluids and provisions for controlling fluid temperatures, blowout preventers, and other surface control equipment and materials, casing and cementing programs, etc., to be used shall be based on sound engineering principles and shall take into account apparent geothermal gradients, depths and pressures of the various formations to be penetrated and other pertinent geologic and engineering data and information about the area.

§ 270.41 Pollution.

The lessee shall comply with all Federal and State standards with respect to the control of all forms of air, land, water, and noise pollution, including, but not limited to, the control of erosion and the disposal of liquid, solid, and gaseous wastes. The Supervisor may, in his discretion, establish additional and more stringent standards, and, if he does so, the lessee shall comply with those standards. Plans for disposal of well effluents must take into account effects on surface and subsurface waters, plants, fish and wildlife and their habitats, atmosphere, or any other effects which may cause or contribute to pollution, and such plans must be approved by the Supervisor before action is taken under them.

§ 270.42 Noise abatement.

The lessee shall minimize noise during exploration, development and production activities. Welfare of the operating personnel and the public must not be affected as a consequence of the noise created by the expanding gases. The method and degree of noise abatement shall be as approved by the Supervisor.

§ 270.43 Land subsidence and seismic activity.

In the event subsidence or seismic activity results from the production of geothermal resources, as determined by monitoring activities by the lessee or a government body, the lessee shall take such action as required by the lease or by the Supervisor.

§ 270.44 Pits and sumps.

The lessee shall provide and use pits and sumps of adequate capacity and design to retain all materials and fluids necessary to drilling, production, or other operations unless otherwise specified by the Supervisor. In no event shall the contents of a pit or sump be allowed to: (a) Contaminate streams, artificial canals or waterways, ground waters, lakes or rivers; (b) adversely affect environment, persons, plants, fish and wildlife and their habitats; or (c) damage the aesthetic values of the property or adjacent properties. When no longer needed, pits and sumps are to be filled and covered and the premises restored to a near natural state, as prescribed by the Supervisor.

§ 270.45 Well abandonment.

The lessee shall promptly plug and abandon any well on the leased land that is not used or useful. No well shall be abandoned until its lack of capacity for further profitable production of geothermal resources has been demonstrated to the satisfaction of the Supervisor. Before abandoning a producible well, the lessee shall submit to the Supervisor a statement of reasons for abandonment and his detailed plans for carrying on the necessary work. A producible well may be abandoned only after receipt of written approval by the Supervisor. No well shall be plugged and abandoned until the manner and method of plugging have been approved or prescribed by the Supervisor. Equipment shall be removed, and premises at the well site shall be restored as near as reasonably possible to its original condition immediately after plugging operations are completed on any well except as otherwise authorized by the Supervisor. Drilling equipment shall not be removed from any suspended drilling well without taking adequate measures to close the well and protect the subsurface resources.

§ 270.46 Accidents.

The lessee shall take all reasonable precautions to prevent accidents and shall notify the Supervisor within 24 hours of all accidents on the leased land, and shall submit a full report thereon within 15 days.

§ 270.47 Workmanlike operations.

The lessee shall carry on all operations and maintain the property at all times in a workmanlike manner, having due regard for the conservation of the property and the environment and for the health and safety of employees. The lessee shall remove from the property or store, in an orderly manner, all scrap or other materials not in use.

§ 270.48 Departure from orders.

The Supervisor may prescribe or approve either in writing or orally with prompt written confirmation, waivers or prompt written confirmation, variances from the requirements of GRO orders and other orders issued pursuant to these regulations, when such departures are necessary for the proper control of a well, conservation of natural resources, protection of human health and safety, property, or the environment.

§ 270.49 Sales contracts.

The lessee shall file with the Supervisor within 30 days after the effective date of the sales contract a copy of any contract for the disposal of geothermal resources from the lease.

§ 270.50 Royalty payments.

The lessee shall pay all royalties as due under the terms of the lease. Payments of royalties are due not later than the last day of the month following the month in which the resource is sold or utilized, and shall be by check, bank draft, or money order, drawn to the order of the United States Geological Survey.

MEASUREMENT OF PRODUCTION AND COMPUTATION OF ROYALTIES

§ 270.60 Measurement of geothermal resources.

The lessee shall measure or gauge all production in accordance with methods approved by the Supervisor. The quantity and quality of all production shall be determined in accordance with the standard practices, procedures, and specifications generally used in industry. All measuring equipment shall be tested periodically and, if found defective, the Supervisor will determine the quantity and quality of production from the best evidence available.

§ 270.61 Determination of content of byproducts.

The lessee shall periodically furnish the Supervisor the results of periodic tests showing the content of byproducts in the produced geothermal fluid and gases. Such tests shall be taken as specified by the Supervisor and by the method of testing approved by him.

§ 270.62 Value of geothermal production for computing royalties.

(a) The value of geothermal production from the leased premises for the purpose of computing royalties shall be the reasonable value of the energy and the byproducts attributable to the lease as determined by the Supervisor. In determining the reasonable value of the energy and the byproducts the Supervisor shall consider:

(1) The highest price paid for a majority of the production of like quality in the same field or area;

(2) The total consideration accruing to the lessee from any disposition of the geothermal production;

(3) The value of the geothermal production used by the lessee;

(4) The value and cost of alternate available energy sources and byproducts;

(5) The cost of exploration and production, exclusive of taxes;

(6) The economic value of the resource in terms of its ultimate utilization;

(7) Production agreements between producer and purchaser; and

(8) Any other matters which he may consider relevant.

(b) Under no circumstances shall the value of any geothermal production for the purposes of computing royalties be less than:

(1) The total consideration accruing to the lessee from the sale thereof in cases where geothermal resources are sold by the lessee to another party;

(2) That amount which is the value of the end product attributable to the geothermal resource produced from a particular lease where geothermal resources are not sold by the lessee before being utilized, but are instead directly used in manufacturing, power production, or other industrial activity; or

(3) When a part of the resource only is utilized by the lessee and the remainder sold, the sum of the value of the end product attributable to the geothermal resource and the sales price received for the geothermal resources

§ 270.63 Computation of royalties.

(a) The value of geothermal production from a particular lease as determined pursuant to § 270.62 hereof, shall be apportioned between geothermal steam, heat, and other forms of energy and the byproducts.

(b) The royalties payable shall be the sum of (1) the amount resulting from the multiplication of the value attributable to the geothermal steam, heat, and other forms of energy by the royalty rate set for such forms of geothermal energy in the lease and (2) the amount resulting from the multiplication of the value attributable to byproducts by the royalty rate for byproducts set in the lease.

§ 270.64 Commingling production.

The supervisor may authorize a lessee to commingle production from wells on his lease with production from other leases held by him or by other lessees subjects to such conditions as he may prescribe.

REPORTS TO BE MADE BY ALL LESSEES (INCLUDING OPERATORS)

§ 270.70 General requirements.

Information required to be submitted in accordance with the regulations in this part shall be furnished as directed by the Supervisor. Copies of forms can be obtained from the Supervisor and must be filed with that official within the time limit prescribed.

§ 270.71 Application for permit to drill, redrill, deepen, or plug-back.

(a) A permit to drill, redrill, deepen, or plug-back a well on Federal lands must be obtained from the Supervisor before the work is begun. The application for the permit, which shall be filed in triplicate with the Supervisor, shall state the location of the well in feet, and direction from the nearest section or tract lines as shown on the official plat of survey or protracted surveys; the altitude of the ground and derrick floor above sea level and how it was determined, and should be accompanied by a proposed plan of operations as required by § 270.34 of this part.

(b) The proposed drilling and casing plan shall be outlined in detail under the heading "Details of Work" in the applications referred to herein, and shall describe the type of tools and equipment to be used, the proposed depth to which the well will be drilled, the estimated

PROCEDURE IN CASE OF VIOLATION OF

PART 271—GEOTHERMAL RE-

or a cooperative agreement as defined in

V37-230 NOV 29 72 XUM

depths to the top of important markers, the estimated depths at which water, geothermal resources, or other mineral resources are expected, the proposed casing program (including the size and weight of casing), the depth at which each string is to be set, and the amount of cement and mud to be used, the drilling method and type of circulating media (water, mud, foam, air or combinations thereof), the type of blowout prevention equipment to be used, the proposed coring, logging, or other program (such as drilling time log and sample description) to be used to determine the formations penetrated and the proposed program for determining geothermal gradients and the sampling and analysis of geothermal resources.

(c) Each application shall be accompanied by a plat showing the surface and expected bottomhole locations and the distances from the nearest section or tract lines as shown on the official plat of survey or protracted surveys. The scale shall not be less than 2,000 feet to 1 inch.

(d) Each application should be accompanied by supporting structural and hydrologic information based on available geologic and geophysical data.

§ 270.72 Sundry notices and reports on wells.

(a) Any written notice of intention to do work or to change plans previously approved must be filed with the Supervisor in triplicate, unless otherwise directed, and must be approved by him before the work is begun. If, in case of emergency, any notice is given orally or by wire, and approval is obtained, the transaction shall be confirmed in writing. A subsequent report of the work performed must also be filed with the Supervisor.

(b) Casing test: Notice shall be given in advance to the Supervisor or his representative of the date and time when the operator expects to make a casing test. Later, by agreement, the exact time shall be fixed. In the event of casing failure during the test, the casing must be repaired or replaced or recemented as required by the Supervisor or his representative. The results of the test must be reported within 30 days after making a casing test. The report must describe the test completely and state the amount of mud and cement used, the lapse of time between running and cementing the casing and making the test, and the method of testing.

(c) Repairs or conditioning of well: Before the repairing or conditioning of a well, a notice setting forth in detail the plan of work must be filed with, and approved by, the Supervisor. A detailed report of the work accomplished and the methods employed, including all dates, and the results of such work must be filed within 30 days after completion of the repair work.

(d) Well stimulation: Before the lessee commences stimulation of a well by any means, a notice, setting forth in detail the plan of work, must be filed with and approved by the Supervisor. The notice shall name the type of stimulant and the amount to be used. A report showing the amount of stimulant used and the production rate before and after stimulation must be filed within 30 days from completion of the work.

(e) Altering casing in a well: Notice of intention to run a liner or to alter the casing by pulling or perforating by any means must be filed with and approved by the Supervisor before the work is started. This notice shall set forth in detail the plan of work. A report must be filed within 30 days after completion of the work stating exactly what was done and the results obtained.

(f) Notice of intention to abandon well: Before abandonment work is begun on any well, whether a drilling well, geothermal resources well, water well, or so-called dry hole, notice of intention to abandon shall be filed with, and approved by, the Supervisor. The notice must be accompanied by a complete log, in duplicate, of the well to date, provided the complete log has not been filed previously, and must give a detailed statement of the proposed work, including such information as kind, location, and length of plugs (by depths), plans for mudding, cementing, shooting, testing, and removing casing, and any other pertinent information.

(g) Subsequent report of abandonment: After a well is abandoned or plugged, a subsequent record of work done must be filed with the Supervisor. This report shall be filed separately within 30 days after the work is done. The report shall give a detailed account of the manner in which the abandonment or plugging work was carried out, including the nature and quantities of materials used in plugging and the location and extent (by depths) of the plugs of different materials; records of any tests or measurements made, and of the amount, size, and location (by depths) of casing left in the well; and a detailed statement of the volume of mud fluid used, and the pressure attained in mudding. If an attempt was made to part any casing, a complete report of the methods used and results obtained must be included.

§ 270.73 Log and history of well.

The lessee shall furnish in duplicate to the Supervisor, not later than 30 days after the completion of each well, a complete and accurate log and history, in chronological order, of all operations conducted on the well. A log shall be compiled for geologic information from cores or formations samples and duplicate copies of such log shall be filed. Duplicate copies of all electric logs, temperature surveys, water and steam analyses, hydrologic or heat flow tests, or direction surveys, if run, shall be furnished.

§ 270.74 Monthly report of operations.

A report of operations for each lease must be made for each calendar month, beginning with the month in which drilling operations are initiated. The report must be filed in duplicate with the Supervisor on or before the last day of the month following the month for which the report is filed unless an extension of time for the filing of the report is granted by the Supervisor. The report shall disclose accurately all operations conducted on each well during the month, the status of operations on the last day of the month, and a general summary of the status of operations on the leased lands. The report must be submitted each month until the lease is terminated or until omission of the report is authorized by the Supervisor. The report shall show for each calendar month:

(a) The lease serial number or the unit or communitization agreement number which shall be inserted in the upper right corner;

(b) Each well listed separately by number, and its location by 40-acre subdivision (quarter-quarter section or lot), section number, township, range, and meridian;

(c) The number of days each well was produced, whether steam or hot water or both were produced, and the number of days each input well was in operation, if any;

(d) The quantity of production and any byproducts obtained from each well, if any are recovered;

(e) The depth of each active or suspended well, and the name, character, and depth of each formation drilled during the month, the date and reason for every shutdown, the names and depths of important formation changes, the amount and size of any casing run since the last report, the dates and results of any tests conducted, and any other noteworthy information on operations not specifically provided for in the form.

(f) The footnote must be completely filled out as required by the Supervisor. If no sales were made during the calendar month, the report must so state.

§ 270.75 Monthly report of sales and royalty.

A report of sales and royalty for each productive lease must be filed each month once sales of production are made even though sales may be intermittent, unless otherwise authorized by the Supervisor. Total volumes of geothermal resources produced and sold, the value of production, and the royalty due the lessor must be shown. If byproducts are being recovered, the same requirement shall be applicable. This report is due on or before the last day of the month following the month in which production was obtained and sold or utilized, together with the royalties due the United States. Payment or royalty is to be made pursuant to § 270.49 unless otherwise authorized by the Supervisor.

§ 270.76 Forms or reports.

When forms or reports other than those referred to in the regulations in this part may be necessary, instructions for the filing of such forms or reports will be given by the Supervisor.

§ 270.77 Public inspection of records.

Geologic and geophysical interpretations, maps, and data required to be submitted under this part shall not be available for public inspection without the consent of the lessee so long as the lease remains in effect.

PROCEDURE IN CASE OF VIOLATION OF THE REGULATIONS OR LEASE TERMS

§ 270.80 Noncompliance with regulations or lease terms.

Whenever a lessee or anyone acting under his authority fails to comply with the provisions of the regulations or lease terms, the Supervisor shall give the lessee notice to remedy any defaults or violations. The Supervisor is authorized to shut down any operations which he determines are unsafe or are causing or can cause pollution. Failure by the lessee to perform or commence the necessary remedial action pursuant to the notice will result in a shut down of operations and may result in referral of the matter to the authorized officer of the Bureau of Land Management for action pursuant to 43 CFR 3245.3.

APPEALS

§ 270.90 Appeals.

(a) Any party to a case adversely affected by a final order or decision of an officer of the Conservation Division of the Geological Survey shall have a right to appeal to the Director, unless the order or decision was approved by the Secretary or the Director prior to promulgation.

(b) An appeal to the Director may be taken by filing a notice of appeal in the office of the official who issued the order or decision within 30 days from service of the order or decision. The notice of appeal shall incorporate, or be accompanied by, such written showing and argument on the facts and the law as the appellant may deem adequate to justify reversal or modification of the order or decision. Within the same 30-day period, the appellant will be permitted to file in the office of the officer who issued the order or decision additional statements of reasons and written arguments or briefs. The officer with whom the appeal is filed shall transmit the appeal and accompanying papers to the Director with a full report and his recommendation on the appeal. The Director will review the record and render a decision in the case.

(c) Oral argument in any case pending before the Director will be allowed on motion in the discretion of such officer and at a time to be fixed by him.

(d) With the exception of the time fixed for filing a notice of appeal, the time for filing any document in connection with an appeal may be extended by the Director. A request for an extension of time must be filed within the time allowed for filing of the document and must be filed in the same office in which the document in connection with which the extension is requested must be filed.

(e) Any party to a case adversely affected by a decision of the Director under this part shall have a right of appeal to the Board of Land Appeals in the Office of Hearings and Appeals, Office of the Secretary, in accordance with the procedures provided in 43 CFR Part 4, Department Hearings and Appeals Procedures.

PART 271—GEOTHERMAL RESOURCES UNIT PLAN REGULATIONS (INCLUDING SUGGESTED FORMS)

GENERAL PROVISIONS

Sec.
271.1 Introduction.
271.2 Definitions.
271.3 Designation of area.
271.4 Preliminary consideration of agreements.
271.5 State land.
271.6 Qualifications of unit operator.
271.7 Parties to unit or cooperative agreements.
271.8 Approval of an executed unit or cooperative agreement.
271.9 Filing of papers and number of counterparts.
271.10 Bonds.
271.11 Appeals.
271.12 Form of unit agreement for unproved areas.
271.13 Sample form of Exhibit A of unit agreement.
271.14 Sample form of Exhibit B of unit agreement.
271.15 Form of collective bond.
271.16 Form of designation of successor unit operator by working interest owners.
271.17 Form of change in unit operator by assignment.

AUTHORITY: The provisions of this Part 271 issued under section 18 of the Geothermal Steam Act of 1970 (84 Stat. 1566) (see 43 CFR Subpart 3244).

§ 271.1 Introduction.

The regulations in this part prescribe the procedure to be followed and the requirements to be met by holders of Federal geothermal leases (see § 271.2d) and their representatives who wish to unite with each other, or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan for the development of any geothermal resources pool, field, or like area, or any part thereof. Such agreements may be initiated by lessees, or where in the interest of conserving natural resources they are deemed necessary they may be required by the Director.

§ 271.2 Definitions.

The following terms, as used in this part or in any agreement approved under the regulations in this part, shall have the meanings here indicated unless otherwise defined in such agreement:

(a) *Unit agreement.* An agreement or plan of development and operation for the production and utilization of separately owned interests in the geothermal resources made subject thereto as a single consolidated unit without regard to separate ownerships and which provides for the allocation of costs and benefits on a basis defined in the agreement or plan.

(b) *Cooperative agreement.* An agreement or plan of development and operations for the production and utilization of geothermal resources made subject thereto in which separate ownership units are independently operated without allocation of production.

(c) *Agreement.* For convenience, the term "agreement" as used in the regulations in this part refers to either a unit or a cooperative agreement as defined in paragraphs (a) and (b) of this section unless otherwise indicated.

(d *Geothermal lease.* A lease issued under the act of December 24, 1970 (84 Stat. 1566), pursuant to the leasing regulations contained in 43 CFR Part 3200, and, unless the context indicates otherwise, "lease" means a geothermal lease.

(e) *Unit area.* The area described in a unit agreement as constituting the land logically subject to development under such agreement.

(f) *Unitized land.* The part of a unit area committed to a unit agreement.

(g) *Unitized substances.* Deposits of geothermal resources recovered from unitized land by operation under and pursuant to a unit agreement.

(h) *Unit operator.* The person, association, partnership, corporation, or other business entity designated under a unit agreement to conduct operations on unitized land as specified in such agreement.

(i) *Participating area.* That part of the Unit Area which is deemed to be productive from a horizon or deposit and to which production would be allocated in the manner described in the unit agreement assuming that lands are committed to the unit agreement.

(j) *Working interest.* The interest held in geothermal resources or in lands containing the same by virtue of a lease, operating agreement, fee title, or otherwise, under which, except as otherwise provided in a unit or cooperative agreement, the owner of such interest is vested with the right to explore for, develop, produce, and utilize such resources. The right delegated to the unit operator as such by the unit agreement is not to be regarded as a working interest.

(k) *Secretary.* The Secretary of the Interior or any person duly authorized to exercise powers vested in that officer.

(l) *Director.* The Director of the U.S. Geological Survey.

(m) *Supervisor.* A representative of the Secretary, subject to the direction and supervisory authority of the Director, the Chief, Conservation Division, Geological Survey, and the appropriate Regional Conservation Manager, Conservation Division, Geological Survey, authorized and empowered to regulate operations and to perform other duties prescribed in the regulations in this part or any subordinate of such representative acting under his direction.

§ 271.3 Designation of area.

An application for designation of an area as logically subject to development and/or operation under a unit or cooperative agreement may be filed, in triplicate, by any proponent of such an agreement through the Supervisor. Each copy of the application shall be accompanied by a map or diagram on a scale of not less than 1 inch to 1 mile, outlining the area sought to be designated under this section. The Federal, State, and privately owned land should be indicated on said map by distinctive symbols or colors and Federal geothermal leases and lease ap-

TABLE OF CONTENTS—continued

hereby accepted and made a part of this

Area contemplated in Article 3.1 hereof shall

V37-230 NOV 29 72 XUM

plications should be dentified by serial number. Geological information, including the results of geophysical surveys, and such other information as may tend to show that unitization is necessary and advisable in the public interest should be furnished in triplicate. Geological and geophysical information and data so furnished will not be available for public inspection, as provided by 5 U.S.C. section 552(b), without the consent of the proponent. The application and supporting data will be considered by the Director and the applicant will be informed of the decision reached. The designation of an area, pursuant to an application filed under this section, shall not create an exclusive right to submit an executed agreement for such area, nor preclude the inclusion of such area or any part thereof in another unit area.

§ 271.4 Preliminary consideration of agreements.

The form of unit agreement set forth in § 271.12 is acceptable for use in unproved areas. The use of this form is not mandatory, but any proposed departure therefrom should be submitted with the application submitted under § 271.3 for preliminary consideration and for such revision as may be deemed necessary. In areas proposed for unitization in which a discovery of geothermal resources has been made, or where a cooperative agreement is contemplated, the proposed agreement should be submitted with the application submitted under § 271.3 for preliminary consideration and for such revision as may be deemed necessary. The proposed form of agreement should be submitted in triplicate and should be plainly marked to identify the proposed variances from the form of agreement set forth in § 271.12.

§ 271.5 State land.

Where State-owned land is to be included in the unit, approval of the agreement by appropriate State officials should be obtained prior to its submission to the Department for approval of the executed agreement. When authorized by the laws of the State in which the unitized land is situated, provisions may be made in the agreement accepting State law to the extent that they are applicable to non-Federal unitized land.

§ 271.6 Qualifications of unit operator.

A unit operator must qualify as to citizenship in the same manner as those holding interests in geothermal leases issued under the Geothermal Steam Act of 1970. The unit operator may be an owner of a working interest in the unit area or such other party as may be selected by the owners of working interests and approved by the Supervisor. The unit operator shall execute an acceptance of the duties and obligations imposed by the agreement. No designation of, or change in, a unit operator will become effective unless and until approved by the Supervisor, and no such approval will be granted unless the unit operator is deemed qualified to fulfill the duties and obligations prescribed in the agreement.

§ 271.7 Parties to unit or cooperative agreement.

The owners of any rights, title, or interest in the geothermal resources deposits to be developed and operated under an agreement can be regarded as proper parties to a proposed agreement. All such owners must be invited to join as parties to the agreement. If any owner fails or refuses to join the agreement, the proponent of the agreement should declare this to the Supervisor and should submit evidence of efforts made to obtain joinder of such owner and the reasons for nonjoinder.

§ 271.8 Approval of an executed unit or cooperative agreement.

(a) A duly executed unit or cooperative agreement will be approved by the Secretary, or his duly authorized representative, upon a determination that such agreement is necessary or advisable in the public interest and is for the purpose of properly conserving the natural resources. Such approval will be incorporated in a certificate appended to the agreement. No such agreement will be approved unless at least one of the parties is a holder of a Federal lease embracing lands being committed to the agreement and unless the parties signatory to the agreement hold sufficient interests in the area to give effective control of operations therein.

(b) Where a duly executed agreement is submitted for Departmental approval, a minimum of six signed counterparts should be filed. The same number of counterparts should be filed for documents supplementing, modifying, or amending an agreement, including change of operator, designation of new operator, and notice of surrender, relinquishment, or termination.

(c) The address of each signatory party to the agreement should be inserted below the party's signature. Each signature should be attested by at least one witness, if not notarized. Corporate or other signatures made in a representative capacity must be accompanied by evidence of the authority of the signatories to act unless such evidence is already a matter of record in the United States Geological Survey. (The parties may execute any number of counterparts of the agreement with the same force and effect as if all parties signed the same document, or may execute a ratification or consent in a separate instrument with like force and effect.).

(d) Any modification of an approved agreement will require approval of the Secretary or his duly authorized representative under procedures similar to those cited in paragraph (a) of this section.

§ 271.9 Filing of papers and number of counterparts.

(a) All proposals and supporting papers, instruments, and documents submitted under this part should be filed with the Supervisor, unless otherwise provided in this part or otherwise instructed by the Director.

(b) Plans of development and operation, plans of further development and operation, and proposed participating areas and revisions thereof should be submitted in quadruplicate.

(c) Each application for approval of a participating area, or revision thereof, should be accompanied by three copies of a substantiating geologic and engineering report, structure contour map or maps, cross-section or other pertinent data.

(d) Other instruments or documents submitted for approval should be submitted for approval in sufficient number to permit the approving official to return at least one approved counterpart.

§ 271.10 Bonds.

In lieu of separate bonds required for each Federal lease committed to a unit agreement, the unit operator may furnish and maintain a collective corporate surety bond or a personal bond conditioned upon faithful performance of the duties and obligations of the agreement and the terms of the leases subject thereto. Personal bonds shall be accompanied by a deposit of negotiable Federal securities in a sum equal at their par value to the amount of the bond and by a proper conveyance to the Secretary of full authority to sell such securities in case of default in the performance of the obligations assumed. The liability under the bond shall be for such amount as the Supervisor shall determine to be adequate to protect the interests of the United States. Additional bond coverage may be required whenever deemed necessary by the Supervisor. The bond must be filed with and accepted by the Bureau of Land Management before operations will be approved. A form of corporate surety bond is set forth in § 271.15. In case of changes of unit operator, a new bond must be filed or a consent of surety to the change in principal under the existing bond must be furnished.

§ 271.11 Appeals.

Appeals may be taken in the manner provided in § 270.90 of this chapter from any decision or order issued under the regulations in this part, unless such decision or order was approved by the Secretary prior to promulgation.

§ 271.12 Form of unit agreement for unproved areas.

---------- UNIT AGREEMENT
---------- COUNTY ----------

This Agreement entered into as of the ------ day of ----------, 19--, by and between the parties subscribing, ratifying, or consenting hereto, and herein referred to as the "parties hereto".

WITNESSETH: Whereas the parties hereto are the owners of working, royalty, or other geothermal resources interests in land subject to this Agreement; and

Whereas the Geothermal Steam Act of 1970 (84 Stat. 1566), hereinafter referred to as the "Act", authorizes Federal lessees and their representatives to unite with each other, or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan of development or operation of any geothermal resources pool, field, or like area, or any part thereof, for the purpose of more properly conserving the natural resources thereof, whenever determined and certified by the Secretary of the Interior to be necessary or advisable in the public interest; and

Whereas the parties hereto hold sufficient interest in the ---------- Unit Area covering the land herein described to effectively control operations therein; and

Whereas, it is the purpose of the parties hereto to conserve natural resources, prevent waste, and secure other benefits obtainable through development and operations of the area subject to this Agreement under the terms, conditions, and limitations herein set forth;

Now, therefore, in consideration of the premises and the promises herein contained, the parties hereto commit to this agreement their respective interests in the below-defined Unit Area, and agree severally among themselves as follows:

ARTICLE I—ENABLING ACT AND REGULATIONS

1.1 The Act and all valid pertinent regulations, including operating and unit plan regulations, heretofore or hereafter issued thereunder are accepted and made a part of this agreement as to Federal lands.

1.2 As to non-Federal lands, the geothermal resources operating regulations in effect as of the effective date hereof governing drilling and producing operations, not inconsistent with the laws of the State in which the non-Federal land is located, are hereby accepted and made a part of this agreement.

ARTICLE II—DEFINITIONS

2.1 The following terms shall have the meanings here indicated:

(a) *Geothermal lease.* A lease issued under the act of December 24, 1970 (84 Stat. 1566), pursuant to the leasing regulations contained in 43 CFR Group 3200 and, unless the context indicates otherwise, "lease" shall mean a geothermal lease.

(b) *Unit area.* The area described in Article III of this Agreement.

(c) *Unit Operator.* The person, association, partnership, corporation, or other business entity designated under this Agreement to conduct operations on Unitized Land as specified herein.

(d) *Participating area.* That part of the Unit Area which is deemed to be productive from a horizon or deposit and to which production would be allocated in the manner described in the unit agreement assuming that all lands are committed to the unit agreement.

(e) *Working interest.* The interest held in geothermal resources or in lands containing the same by virtue of a lease, operating agreement, fee title, or otherwise, under which, except as otherwise provided in this Agreement, the owner of such interest is vested with the right to explore for, develop, produce and utilize such resources. The right delegated to the Unit Operator as such by this Agreement is not to be regarded as a Working Interest.

(f) *Secretary.* The Secretary of the Interior or any person duly authorized to exercise powers vested in that officer.

(g) *Director.* The Director of the U.S. Geological Survey.

(h) *Supervisor.* A representative of the Secretary, subject to the direction and supervisory authority of the Director, the Chief, Conservation Division, Geological Survey, and the appropriate Regional Conservation Manager, Conservation Division, Geological Survey, authorized and empowered to regulate operations and to perform other duties prescribed in the regulations in this part or any subordinate of such representative acting under his direction.

ARTICLE III—UNIT AREA AND EXHIBITS

3.1 The area specified on the map attached hereto marked "Exhibit A" is hereby designated and recognized as constituting the Unit Area, containing ---------- acres, more or less.

The above-described Unit Area shall when practicable be expanded to include therein any additional lands or shall be contracted to exclude lands whenever such expansion or contraction is deemed to be necessary or advisable to conform with the purposes of this Agreement.

3.2 Exhibit A attached hereto and made a part hereof is a map showing the boundary of the Unit Area, the boundaries and identity of tracts and leases in said area to the extent known to the Unit Operator.

3.3 Exhibit B attached hereto and made a part hereof is a schedule showing to the extent known to the Unit Operator the acreage, percentage, and kind of ownership of geothermal resources interests in all lands in the Unit Area.

3.4 Exhibits A and B shall be revised by the Unit Operator whenever changes in the Unit Area render such revision necessary, or when requested by the Supervisor, and not less than five copies of the revised Exhibits shall be filed with the Supervisor.

ARTICLE IV—CONTRACTION AND EXPANSION OF UNIT AREA

4.1 Unless otherwise specified herein, the expansion and/or contraction of the Unit Area contemplated in Article 3.1 hereof shall be effected in the following manner:

(a) Unit Operator either on demand of the Director or on its own motion and after prior concurrence by the Director, shall prepare a notice of proposed expansion or contraction describing the contemplated changes in the boundaries of the Unit Area, the reasons therefore, and the proposed effective date thereof, preferably the first day of a month subsequent to the date of notice.

(b) Said notice shall be delivered to the Supervisor, and copies thereof mailed to the last known address of each Working Interest Owner, Lessee, and Lessor whose interests are affected, advising that 30 days will be allowed for submission to the Unit Operator of any objections.

(c) Upon expiration of the 30-day period provided in the preceding item (b) hereof, Unit Operator shall file with the Supervisor evidence of mailing of the notice of expansion or contraction and a copy of any objections thereto which have been filed with the Unit Operator, together with an application in sufficient number, for approval of such expansion or contraction and with appropriate joinders.

(d) After due consideration of all pertinent information, the expansion or contraction shall, upon approval by the Supervisor, become effective as of the date prescribed in the notice thereof.

4.2 Unitized Leases, insofar as they cover any lands which are excluded from the Unit Area under any of the provisions of this Article IV may be maintained and continued in force and effect in accordance with the terms, provisions, and conditions contained in the Act, and the lease or leases and amendments thereto, except that operations and/or production under this Unit Agreement shall not serve to maintain or continue the excluded portion of any lease.

4.3 All legal subdivisions of unitized lands (i.e., 40 acres by Governmental survey or its nearest lot or tract equivalent in instances of irregular surveys), no part of which is entitled to be within a Participating Area on the fifth anniversary of the effective date of the initial Participating Area established under this Agreement, shall be eliminated automatically from this Agreement effective as of said fifth anniversary and such lands shall no longer be a part of the Unit Area and shall no longer be subject to this Agreement unless diligent drilling operations are in progress on an exploratory well on said fifth anniversary, in which event such lands shall not be eliminated from the Unit Area for as long as exploratory drilling operations are continued diligently with not more than four (4) months time elapsing between the completion of one exploratory well and the commencement of the next exploratory well.

4.4 An exploratory well, for the purposes of this Article IV is defined as any well, regardless of surface location, projected for completion in a zone or deposit below any zone or deposit for which a Participating Area has been established and is in effect, or any well, regardless of surface location, projected for completion at a subsurface location under Unitized Lands not entitled to be within a Participating Area.

4.5 In the event an exploratory well is completed during the four (4) months immediately preceding the fifth anniversary of the initial Participating Area established under this Agreement, lands not entitled to be within a Participating Area shall not be eliminated from this Agreement on said fifth anniversary, provided the drilling of another exploratory well is commenced under an approved Plan of Operation within four (4) months after the completion of said well. In such event, the land not entitled to be in participation shall not be eliminated from the Unit Area so long as exploratory drilling

---

(b) To the extent practicable specify the Participating Area (or Areas) so established

ARTICLE XIV—RELINQUISHMENT OF LEASES

V37-230-NOV29-72 XUM

operations are continued diligently with not more than four (4) months time elapsing between the completion of one exploratory well and the commencement of the next exploratory well.

4.6 With prior approval of the Supervisor, a period of time in excess of four (4) months may be allowed to elapse between the completion of one well and the commencement of the next well without the automatic elimination of nonparticipating acreage.

4.7 Unitized lands proved productive by drilling operations which serve to delay automatic elimination of lands under this Article IV shall be incorporated into a Participating Area (or Areas) in the same manner as such lands would have been incorporated in such areas had such lands been proven productive during the year preceding said fifth anniversary.

4.8 In the event nonparticipating lands are retained under this Agreement after the fifth anniversary of the initial Participating Area as a result of exploratory drilling operations, all legal subdivisions of unitized land (i.e., 40 acres by Government survey or its nearest lot or tract equivalent in instances of irregular Surveys), no part of which is entitled to be within a Participating Area shall be eliminated automatically as of the 121 day, or such later date as may be established by the Supervisor, following the completion of the last well recognized as delaying such automatic elimination beyond the fifth anniversary of the initial Participating Area established under this Agreement.

ARTICLE V—UNITIZED LAND AND UNITIZED SUBSTANCES

5.1 All land committed to this Agreement shall constitute land referred to herein as "Unitized Land". All geothermal resources in and produced from any and all formations of the Unitized Land are unitized under the terms of this agreement and herein are called "Unitized Substances."

ARTICLE VI—UNIT OPERATOR

6.1 ---------- is hereby designated as Unit Operator and by signature hereto as Unit Operator agrees and consents to accept the duties and obligations of Unit Operator for the discovery, development, production, distribution and utilization of Unitized Substances as herein provided. Whenever reference is made herein to the Unit Operator, such reference means the Unit Operator acting in that capacity and not as an owner of interest in Unitized Substances, and the term "Working Interest Owner" when used herein shall include or refer to Unit Operator as the owner of a Working Interest when such an interest is owned by it.

ARTICLE VII—RESIGNATION OR REMOVAL OF UNIT OPERATOR

7.1 Prior to the establishment of a Participating Area, hereunder, Unit Operator shall have the right to resign. Such resignation shall not become effective so as to release Unit Operator from the duties and obligations of Unit Operator or terminate Unit Operators rights, as such, for a period of six (6) months after notice of its intention to resign has been served by Unit Operator on all Working Interest Owners and the Supervisor, nor until all wells then drilled hereunder are placed in a satisfactory condition for suspension or abandonment whichever is required by the Supervisor, unless a new Unit Operator shall have been selected and approved and shall have taken over and assumed the duties and obligations of Unit Operator prior to the expiration of said period.

7.2 After the establishment of a Participating Area hereunder Unit Operator shall have the right to resign in the manner and subject to the limitations provided in 7.1 above.

7.3 The Unit Operator may, upon default or failure in the performance of its duties or obligations hereunder, be subject to removal by the same percentage vote of the owners of Working Interests as herein provided for the selection of a new Unit Operator. Such removal shall be effective upon notice thereof to the Supervisor.

7.4 The resignation or removal of Unit Operator under this Agreement shall not terminate its right, title, or interest as the owner of a Working Interest or other interest in Unitized Substances, but upon the resignation or removal of Unit Operator becoming effective, such Unit Operator shall deliver possession of all wells, equipment, material, and appurtenances used in conducting the unit operations to the new duly qualified successor Unit Operator or, if no such new unit operator is elected, to the common agent appointed to represent the Working Interest Owners in any action taken hereunder to be used for the purpose of conducting operations hereunder.

7.5 In all instances of resignation or removal, until a successor Unit Operator is selected and approved as hereinafter provided, the Working Interest Owners shall be jointly responsible for performance of the duties and obligations of Unit Operator, and shall not later than 30 days before such resignation or removal becomes effective appoint a common agent to represent them in any action to be taken hereunder.

7.6 The resignation of Unit Operator shall not release Unit Operator from any liability for any default by it hereunder occurring prior to the effective date of its resignation.

ARTICLE VIII—SUCCESSOR UNIT OPERATOR

8.1 If, prior to the establishment of a Participating Area hereunder, the Unit Operator shall resign as Operator, or shall be removed as provided in Article VII, a successor Unit Operator may be selected by vote of the owners of a majority of the Working Interests in Unitized Substances, based on their respective shares, on an acreage basis, in the Unitized Land.

8.2 If, after the establishment of a Participating Area hereunder, the Unit Operator shall resign as Unit Operator, or shall be removed as provided in Article VII, a successor Unit Operator may be selected by vote of the owners of a majority of the Working Interests in Unitized Substances, based on their respective shares, on a participating acreage basis. Provided, that, if a majority but less than 60 percent of the Working Interest in the Participating Lands is owned by the party to this agreement, a concurring vote of one or more additional Working Interest Owners owning 10 percent or more of the Working Interest in the participating land shall be required to select a new Unit Operator.

8.3 The selection of a successor Unit Operator shall not become effective until

(a) The Unit Operator so selected shall accept in writing the duties, obligations and responsibilities of the Unit Operator, and

(b) The selection shall have been approved by the Supervisor.

8.4 If no successor Unit Operator is selected and qualified as herein provided, the Director at his election may declare this Agreement terminated.

ARTICLE IX—ACCOUNTING PROVISIONS AND UNIT OPERATING AGREEMENT

9.1 Costs and expenses incurred by Unit Operator in conducting unit operations hereunder shall be paid and apportioned among and borne by the owners of Working Interests; all in accordance with the agreement or agreements entered into by and between the Unit Operator and the owners of Working Interests, whether one or more, separately or collectively.

9.2 Any agreement or agreements entered into between the Working Interest Owners and the Unit Operator as provided in this Article, whether one or more, are herein referred to as the "Unit Operating Agreement".

9.3 The Unit Operating Agreement shall provide the manner in which the Working Interest Owners shall be entitled to receive their respective share of the benefits accruing hereto in conformity with their underlying operating agreements, leases, or other contracts, and such other rights and obligations, as between Unit Operator and the Working Interest Owners.

9.4 Neither the Unit Operating Agreement nor any amendment thereto shall be deemed either to modify any of the terms and conditions of this Agreement or to relieve the Unit Operator of any right or obligation established under this Agreement.

9.5 In case of any inconsistency or conflict between this Agreement and the Unit Operating Agreement, this Agreement shall govern.

9.6 Three true copies of any Unit Operating Agreement executed pursuant to this Article IX shall be filed with the Supervisor prior to approval of this Agreement.

ARTICLE X—RIGHTS AND OBLIGATIONS OF UNIT OPERATOR

10.1 The right, privilege, and duty of exercising any and all rights of the parties hereto which are necessary or convenient for prospecting, producing, distributing or utilizing Unitized Substances are hereby delegated to and shall be exercised by the Unit Operator as provided in this Agreement in accordance with a Plan of Operations approved by the Supervisor.

10.2 Upon request by Unit Operator, acceptable evidence of title to geothermal resources interests in the Unitized Land shall be deposited with the Unit Operator, and together with this Agreement shall constitute and define the rights, privileges, and obligations of Unit Operator.

10.3 Nothing in this Agreement shall be construed to transfer title to any land or to any lease or operating agreement, it being understood that the Unit Operator, in its capacity as Unit Operator shall exercise the rights of possession and use vested in the parties hereto only for the purposes specified in this Agreement.

10.4 The Unit Operator shall take such measures as the Supervisor deems appropriate and adequate to prevent drainage of Unitized Substances from Unitized Land by wells on land not subject to this Agreement.

10.5 The Director is hereby vested with authority to alter or modify from time to time, in his discretion, the rate of prospecting and development and the quantity and rate of production under this Agreement.

ARTICLE XI—PLAN OF OPERATION

11.1 Concurrently with the submission of this Agreement for approval, Unit Operator shall submit an acceptable initial Plan of Operation. Said plan shall be as complete and adequate as the Supervisor may determine to be necessary for timely exploration and/or development and to insure proper protection of the environment and conservation of the natural resources of the Unit Area.

11.2 Prior to the expiration of the initial Plan of Operation, or any subsequent Plan of Operation, Unit Operator shall submit for approval of the Supervisor an acceptable subsequent Plan of Operation for the Unit Area which, when approved by the Supervisor, shall constitute the exploratory and/or development drilling and operating obligations of Unit Operators under this Agreement for the period specified therein.

11.3 Any plan of Operation submitted hereunder shall

(a) Specify the number and locations of any wells to be drilled and the proposed order and time for such drilling, and

(b) To the extent practicable, specify the operating practices regarded as necessary and advisable for proper conservation of natural resources and protection of the environment.

11.4 The Plan of Operation submitted concurrently with this Agreement for approval shall prescribe that within six (6) months after the effective date hereof, the Unit Operator shall begin to drill an adequate test well at a location approved by the Supervisor, unless on such effective date a well is being drilled conformably with the terms, hereof, and thereafter continue such drilling diligently until the ---------- formation has been tested or until at a lesser depth unitized substances shall be discovered which can be produced in paying quantities (i.e., quantities sufficient to repay the costs of drilling, completing, and producing operations, with a reasonable profit) or the Unit Operator shall at any time establish to the satisfaction of the Supervisor that further drilling of said well would be unwarranted or impracticable, provided, however, that Unit Operator shall not in any event be required to drill said well to a depth in excess of feet.

11.5 The initial Plan of Operation and or subsequent Plans of Operation submitted under this article shall provide that the Unit Operator shall initiate a continuous drilling program providing for drilling of no less than one well at a time, and allowing no more than six (6) months time to elapse between completion of one well and the beginning of the next well, until a well capable of producing Unitized Substances in paying quantities is completed to the satisfaction of the Supervisor or until it is reasonably proved that the Unitized Land is incapable of producing Unitized Substances in paying quantities in the formations drilled under this Agreement.

11.6 When warranted by unforeseen circumstances, the Supervisor may grant a single extension of any or all of the critical dates for exploratory drilling operations cited in the initial or subsequent Plans of Operation. No such extension shall exceed a period of four (4) months for each well, required by the initial Plan of Operation.

11.7 Until there is actual production of Unitized Substances, the failure of Unit Operator to timely drill any of the wells provided for in Plans of Operation required under this Article XI or to timely submit an acceptable subsequent Plan of Operations, shall, after notice of default or notice of prospective default to Unit Operator by the Supervisor and after failure of Unit Operator to remedy any actual default within a reasonable time (as determined by the Supervisor), result in automatic termination of this Agreement effective as of the date of the default, as determined by the Supervisor.

11.8 Separate Plans of Operations may be submitted for separate productive zones, subject to the approval of the Supervisor. Also subject to the approval of the Supervisor, Plans of Operation shall be modified or supplemented when necessary to meet changes in conditions or to protect the interest of all parties to this Agreement.

ARTICLE XII—PARTICIPATING AREAS

12.1 Prior to the commencement of production of Unitized Substances, the Unit Operator shall submit for approval by the Supervisor a schedule (or schedules) of all land then regarded as reasonably proved to be productive from a pool or deposit discovered or developed; all lands in said schedule (or schedules), on approval of the Supervisor, will constitute a Participating Area (or Areas) effective as of the date production commences or the effective date of this Unit Agreement, whichever is later. Said schedule (or schedules) shall also set forth the percentage of Unitized Substances to be allocated, as herein provided, to each tract in the Participating Area (or Areas) so established and shall govern the allocation of production commencing with the effective date of the Participating Area.

12.2 A separate Participating Area shall be established for each separate pool or deposit of Unitized Substances or for any group thereof which is produced as a single pool or deposit and any two or more Participating Areas so established may be combined into one, on approval of the Supervisor. The effective date of any Participating Area established after the commencement of actual production of Unitized Substances shall be the first of the month in which is obtained the knowledge or information on which the establishment of said Participating Area is based, unless a more appropriate effective date is proposed by the Unit Operator and approved by the Supervisor

12.3 Any Participating Area (or Areas) established under 12.1 or 12.2 above shall, subject to the approval of the Supervisor, be revised from time to time to include additional land then regarded as reasonably proved to be productive from the pool or deposit for which the Participating Area was established or to include lands necessary to unit operations, or to exclude land then regarded as reasonably proved not to be productive from the pool or deposit for which the Participating Area was established or to exclude land not necessary to unit operations and the schedule (or schedules) of allocation percentages shall be revised accordingly.

12.4 Subject to the limitation cited in 12.1 hereof, the effective date of any revision of a Participating Area established under Articles 12.1 or 12.2 shall be the first of the month in which is obtained the knowledge or information on which such revision is predicated, provided, however, that a more appropriate effective date may be used if justified by the Unit Operator and approved by the Supervisor.

12.5 No land shall be excluded from a Participating Area on account of depletion of the Unitized Substances, except that any Participating Area established under the provisions of this Article XII shall terminate automatically whenever all operations are abandoned in the pool or deposit for which the Participating Area was established.

12.6 Nothing herein contained shall be construed as requiring any retroactive adjustment for production obtained prior to the effective date of the revision of a Participating Area.

ARTICLE XIII—ALLOCATION OF UNITIZED SUBSTANCES

13.1 All Unitized Substances produced from a Participating Area, established under this Agreement, shall be deemed to be produced equally on an acreage basis from the several tracts of Unitized Land within the Participating Area established for such production.

13.2 For the purpose of determining any benefits accruing under this Agreement, each Tract of Unitized Land shall have allocated to it such percentage of said production as the number of acres in the Tract included in the Participating Area bears to the total number of acres of Unitized Land in said Participating Area.

13.3 Allocation of production hereunder for purposes other than for settlement of the royalty obligations of the respective Working Interest Owners, shall be on the basis prescribed in the Unit Operating Agreement whether in conformity with the basis of allocation set forth above or otherwise.

13.4 The Unitized Substances produced from a Participating Area shall be allocated as provided herein regardless of whether any wells are drilled on any particular part or tract of said Participating Area.

ARTICLE XIV—RELINQUISHMENT OF LEASES

14.1 Pursuant to the provisions of the Federal leases and 43 CFR 3245.1, a lessee of record shall, subject to the provisions of the Unit Operating Agreement, have the right to relinquish any of its interests in leases committed hereto, in whole or in part; provided, that no relinquishment shall be made of interests in land within a Participating Area without the prior approval of the Director.

14.2 A Working Interest Owner may exercise the right to surrender, when such right is vested in it by any non-Federal lease, sublease, or operating agreement, provided that each party who will or might acquire the Working Interest in such lease by such surrender or by forfeiture is bound by the terms of this Agreement, and further provided that no relinquishment shall be made of such land within a Participating Area without the prior written consent of the non-Federal Lessor.

14.3 If as the result of relinquishment, surrender, or forfeiture the Working Interests become vested in the fee owner or lessor of the Unitized Substances, such owner may:

(1) Accept those Working Interest rights and obligations subject to this Agreement and the Unit Operating Agreement; or

(2) Lease the portion of such land as is included in a Participating Area established hereunder, subject to this Agreement and the Unit Operating Agreement; and provide for the independent operation of any part of such land that is not then included within a Participating Area established hereunder.

14.4 If the fee owner or lessor of the Unitized Substances does not, (1) accept the Working Interest rights and obligations subject to this Agreement and the Unit Operating Agreement, or (2) lease such lands as provided in 14.3 above within six (6) months after the relinquished, surrendered, or forfeited Working Interest becomes vested in said fee owner or lessor, the Working Interest benefits and obligations accruing to such land under this Agreement and the Unit Operating Agreement shall be shared by the owners of the remaining unitized Working Interests in accordance with their respective Working Interest ownerships, and such owners of Working Interests shall compensate the fee owner or lessor of Unitized Substances in such lands by paying sums equal to the rentals, minimum royalties, and royalties applicable to such lands under the lease or leases in effect when the Working Interests were relinquished, surrendered, or forfeited.

14.5 Subject to the provisions of 14.4 above, an appropriate accounting and settlement shall be made for all benefits accruing to or payments and expenditures made or incurred on behalf of any surrendered or forfeited Working Interest subsequent to the date of surrender or forfeiture, and payment of any moneys found to be owing by such an accounting shall be made as between the parties within thirty (30) days.

14.6 In the event no Unit Operating Agreement is in existence and a mutually acceptable agreement cannot be consummated between the proper parties, the Supervisor may prescribe such reasonable and equitable conditions of agreement as he deems warranted under the circumstances.

14.7 The exercise of any right vested in a Working Interest Owner to reassign such Working Interest to the party from whom obtained shall be subject to the same conditions as set forth in this Article XIV in regard to the exercise of a right to surrender.

ARTICLE XV—RENTALS AND MINIMUM ROYALTIES

15.1 Any unitized lease on non-Federal land containing provisions which would terminate such lease unless drilling oper-

21.3 Determination of creditable "Unavoid-

for the interest to be regarded as committed

on account thereof may be withheld without

V 37-230 NOV 29 72 XUM

ations are commenced upon the land covered thereby within the time therein specified or rentals are paid for the privilege of deferring such drilling operations, the rentals required thereby shall, notwithstanding any other provisions of this Agreement, be deemed to accrue as to the portion of the lease not included within a Participating Area and become payable during the term thereof as extended by this Agreement, and until the required drillings are commenced upon the land covered thereby.

15.2 Rentals are payable on Federal leases on or before the anniversary date of each lease year; minimum royalties accrue from the anniversary date of each lease year and are payable at the end of the lease year.

15.3 Beginning with the lease year commencing on or after ---------- and for each lease year thereafter, rental or minimum royalty for lands of the United States subject to this Agreement shall be made on the following basis:

(a) An advance annual rental in the amount prescribed in unitized Federal leases, in no event creditable against production royalties, shall be paid for each acre or fraction thereof which is not within a Participating Area.

(b) A minimum royalty shall be charged at the beginning of each lease year (such minimum royalty to be due as of the last day of the lease year and payable within thirty (30) days thereafter) of $2 an acre or fraction thereof, for all Unitized Acreage within a Participating Area as of the beginning of the lease year. If there is production during the lease year the deficit, if any, between the actual royalty paid and the minimum royalty prescribed herein shall be paid.

15.4 Rental or minimum royalties due on leases committed hereto shall be paid by Working Interest Owners responsible therefor under existing contracts, laws, and regulations, or by the Unit Operator.

15.5 Settlement for royalty interest shall be made by Working Interest Owners responsible therefor under existing contracts, laws, and regulations, or by the Unit Operator, on or before the last day of each month for Unitized Substances produced during the preceding calendar month.

15.6 Royalty due the United States shall be computed as provided in the operating regulations and paid in value as to all Unitized Substances on the basis of the amounts thereof allocated to unitized Federal land as provided herein at the royalty rate or rates specified in the respective Federal leases.

15.7 Nothing herein contained shall operate to relieve the lessees of any land from their respective lease obligations for the payment of any rental, minimum royalty, or royalty due under their leases.

ARTICLE XVI—OPERATIONS ON NONPARTICIPATING LAND

16.1 Any party hereto owning or controlling the Working Interest in any Unitized Land having thereon a regular well location may, with the approval of the Supervisor and at such party's sole risk, costs, and expense, drill a well to test any formation of deposit for which a Participating Area has not been established or to test any formation or deposit for which a Participating Area has been established if such location is not within said Participating Area, unless within 30 days of receipt of notice from said party of his intention to drill the well, the Unit Operator elects and commences to drill such a well in like manner as other wells are drilled by the Unit Operator under this Agreement.

16.2 If any well drilled by a Working Interest Owner other than the Unit Operator proves that the land upon which said well is situated may properly be included in a Participating Area, such Participating Area shall be established or enlarged as provided in this Agreement and the well shall thereafter be operated by the Unit Operator in accordance with the terms of this Agreement and the Unit Operating Agreement.

ARTICLE XVII—LEASES AND CONTRACTS CONFORMED AND EXTENDED

17.1 The terms, conditions, and provisions of all leases, subleases, and other contracts relating to exploration, drilling, development, or utilization of geothermal resources on lands committed to this Agreement, are hereby expressly modified and amended only to the extent necessary to make the same conform to the provisions hereof, otherwise said leases, subleases, and contracts shall remain in full force and effect.

17.2 The parties hereto consent that the Secretary shall, by his approval hereof, modify and amend the Federal leases committed hereto and the regulations in respect thereto to the extent necessary to conform said leases and regulations to the provisions of this Agreement.

17.3 The development and/or operation of lands subject to this Agreement under the terms hereof shall be deemed full performance of any obligations for development and operation with respect to each and every separately owned tract subject to this Agreement, regardless of whether there is any development of any particular tract of the Unit Area.

17.4 Drilling and/or producing operations performed hereunder upon any tract of Unitized Lands will be accepted and deemed to be performed upon and for the benefit of each and every tract of Unitized Land.

17.5 Suspension of operations and/or production on all Unitized Lands pursuant to direction or consent of the Secretary or his duly authorized representative shall be deemed to constitute such suspension pursuant to such direction or consent as to each and every tract of Unitized Land. A suspension of operations and/or production limited to specified lands shall be applicable only to such lands.

17.6 Subject to the provisions of Article XV hereof and 17.10 of this Article, each lease, sublease, or contract relating to the exploration, drilling, development, or utilization of geothermal resources of lands other than those of the United States committed to this Agreement, is hereby extended beyond any such term so provided therein so that it shall be continued for and during the term of this Agreement.

17.7 Subject to the lease renewal and the readjustment provision of the Act, any Federal lease committed hereto may, as to the Unitized Lands, be continued for the term so provided therein, or as extended by law. This subsection shall not operate to extend any lease or portion thereof as to lands excluded from the Unit Area by the contraction thereof.

17.8 Each sublease or contract relating to the operations and development of Unitized Substances from lands of the United States committed to this Agreement shall be continued in force and effect for and during the term of the underlying lease.

17.9 Any Federal lease heretofore or hereafter committed to any such unit plan embracing lands that are in part within and in part outside of the area covered by any such plan shall be segregated into separate leases as to the lands committed and the lands not committed as of the effective date of unitization.

17.10 In the absence of any specific lease provision to the contrary, any lease, other than a Federal lease, having only a portion of its land committed hereto shall be segregated as to the portion committed and the portion not committed, and the provisions of such lease shall apply separately to such segregated portions commencing as of the effective date hereof. In the event any such lease provides for a lump-sum rental payment, such payment shall be prorated between the portions so segregated in proportion to the acreage of the respective tracts.

17.11 Upon termination of this Agreement, the leases covered hereby may be maintained and continued in force and effect in accordance with the terms, provisions, and conditions of the Act, the lease or leases, and amendments thereto.

ARTICLE XVIII—EFFECTIVE DATE AND TERM

18.1 This Agreement shall become effective upon approval by the Secretary or his duly authorized representative and shall terminate five (5) years from said effective date unless,

(a) Such date of expiration is extended by the Director, or

(b) Unitized Substances are produced or utilized in commercial quantities in which event this Agreement shall continue for so long as Unitized Substances are produced or utilized in commercial quantities, or

(c) This Agreement is terminated prior to the end of said five (5) year period as heretofore provided.

18.2 This Agreement may be terminated at any time by the owners of a majority of the Working Interests, on an acreage basis, with the approval of the Supervisor. Notice of any such approval shall be given by the Unit Operator to all parties hereto.

ARTICLE XIX—APPEARANCES

19.1 Unit Operator shall, after notice to other parties affected, have the right to appear for and on behalf of any and all interests affected hereby before the Department of the Interior, and to appeal from decisions, orders or rulings issued under the regulations of said Department, or to apply for relief from any of said regulations or in any proceedings relative to operations before the Department of the Interior or any other legally constituted authority: *Provided, however,* That any interested parties shall also have the right, at its own expenses, to be heard in any such proceeding.

ARTICLE XX—NO WAIVER OF CERTAIN RIGHTS

20.1 Nothing contained in this Agreement shall be construed as a waiver by any party hereto of the right to assert any legal or constitutional right or defense pertaining to the validity or invalidity of any law of the State wherein lands subject to this Agreement are located, or of the United States, or regulations issued thereunder, in any way affecting such party or as a waiver by any such party of any right beyond his or its authority to waive.

ARTICLE XXI—UNAVOIDABLE DELAY

21.1 The obligations imposed by this Agreement requiring Unit Operator to commence or continue drilling or to produce or utilize Unitized Substances from any of the land covered by this Agreement, shall be suspended while, but only so long as, Unit Operator, despite the exercise of due care and diligence, is prevented from complying with such obligations, in whole or in part, by strikes, Acts of God, Federal or other applicable law, Federal or other authorized governmental agencies, unavoidable accidents, uncontrollable delays in transportation, inability to obtain necessary materials in open market, or other matters beyond the reasonable control of Unit Operator, whether similar to matters herein enumerated or not.

21.2 No unit obligation which is suspended under this section shall become due less than thirty (30) days after it has been determined that the suspension is no longer applicable.

21.3 Determination of creditable "Unavoidable Delay" time shall be made by the Unit Operator subject to approval of the Supervisor.

ARTICLE XXII—POSTPONEMENT OF OBLIGATIONS

22.1 Notwithstanding any other provisions of this Agreement, the Director, on his own initiative or upon appropriate justification by Unit Operator, may postpone any obligation established by and under this Agreement to commence or continue drilling or to operate on or produce Unitized Substances from lands covered by this Agreement when in his judgement, circumstances warrant such action.

ARTICLE XXIII—NONDISCRIMINATION

23.1 In connection with the performance of work under this Agreement, the Operator agrees to comply with all of the provisions of section 202 (1) to (7) inclusive, of Executive Order 11246 (30 F.R. 12319), as amended by Executive Order 11375 (32 F.R. 14303), which are hereby incorporated by reference in this Agreement.

ARTICLE XXIV—COUNTERPARTS

24.1 This Agreement may be executed in any number of counterparts no one of which needs to be executed by all parties, or may be ratified or consented to by separate instruments in writing specifically referring hereto, and shall be binding upon all parties who have executed such a counterpart, ratification or consent hereto, with the same force and effect as if all such parties had signed the same document.

ARTICLE XXV—SUBSEQUENT JOINDER

25.1 If the owner of any substantial interest in geothermal resources under a tract within the Unit Area fails or refuses to subscribe or consent to this Agreement, the owner of the Working Interest in that tract may withdraw said tract from this Agreement by written notice delivered to the Supervisor and the Unit Operator prior to the approval of this Agreement by the Supervisor.

25.2 Any geothermal resources interests in lands within the Unit Area not committed hereto prior to approval of this Agreement may thereafter be committed by the owner or owners thereof subscribing or consenting to this Agreement, and, if the interest is a Working Interest, by the owner of such interest also subscribing to the Unit Operating Agreement.

25.3 After operations are commenced hereunder, the right of subsequent joinder, as provided in this Article XXV, by a working Interest Owner is subject to such requirements or approvals, if any, pertaining to such joinder, as may be provided for in the Unit Operating Agreement. Joinder to the Unit Agreement by a Working Interest Owner, at any time, must be accompanied by appropriate joinder to the Unit Operating Agreement, if more than one committed Working Interest Owner is involved, in order for the interest to be regarded as committed to this Unit Agreement.

25.4 After final approval hereof, joinder by a nonworking interest owner must be consented to in writing by the Working Interest Owner committed hereto and responsible for the payment of any benefits that may accrue hereunder in behalf of such nonworking interest. A nonworking interest may not be committed to this Agreement unless the corresponding Working Interest is committed hereto.

25.5 Except as may otherwise herein be provided, subsequent joinders to this Agreement shall be effective as of the first day of the month following the filing with the Supervisor of duly executed counterparts of all or any papers necessary to establish effective commitment of any tract to this Agreement unless objection to such joinder is duly made within sixty (60) days by the Supervisor.

ARTICLE XXVI—COVENANTS RUN WITH THE LAND

26.1 The covenants herein shall be construed to be covenants running with the land with respect to the interest of the parties hereto and their successors in interest until this Agreement terminates, and any grant, transfer, or conveyance, of interest in land or leases subject hereto shall be and hereby is conditioned upon the assumption of all privileges and obligations hereunder by the grantee, transferee, or other successor in interest.

26.2 No assignment or transfer of any Working Interest or other interest subject hereto shall be binding upon Unit Operator until the first day of the calendar month after Unit Operator is furnished with the original, photostatic, or certified copy of the instrument of transfer.

ARTICLE XXVII—NOTICES

27.1 All notices, demands or statements required hereunder to be given or rendered to the parties hereto shall be deemed fully given if given in writing and personally delivered to the party or sent by postpaid registered or certified mail, addressed to such party or parties at their respective addresses set forth in connection with the signatures hereto or to the ratification or consent hereof or to such other address as any such party may have furnished in writing to party sending the notice, demand or statement.

ARTICLE XXVIII—LOSS OF TITLE

28.1 In the event title to any tract of Unitized Land shall fail and the true owner cannot be induced to join in this Agreement, such tract shall be automatically regarded as not committed hereto and there shall be such readjustment of future costs and benefits as may be required on account of the loss of such title.

28.2 In the event of a dispute as to title as to any royalty, Working Interest, or other interests subject hereto, payment or delivery on account thereof may be withheld without liability for interest until the dispute is finally settled: *Provided,* That, as to Federal land or leases, no payments of funds due the United States shall be withheld, but such funds shall be deposited as directed by the Supervisor to be held as unearned money pending final settlement of the title dispute, and then applied as earned or returned in accordance with such final settlement.

ARTICLE XXIX—TAXES

29.1 The Working Interest Owners shall render and pay for their accounts and the accounts of the owners of nonworking interests all valid taxes on or measured by the Unitized Substances in and under or that may be produced, gathered, and sold or utilized from the land subject to this Agreement after the effective date hereof.

29.2 The Working Interest Owners on each tract may charge a proper proportion of the taxes paid under 29.1 hereof to the owners of nonworking interests in said tract, and may reduce the allocated share of each royalty owner for taxes so paid. No taxes shall be charged to the United States or the State of ---------- or to any lessor who has a contract with his lessee which requires the lessee to pay such taxes.

ARTICLE XXX—RELATION OF PARTIES

30.1 It is expressly agreed that the relation of the parties hereto is that of independent contractors and nothing in this Agreement contained, expressed, or implied, nor any operations conducted hereunder, shall create or be deemed to have created a partnership or association between the parties hereto or any of them.

ARTICLE XXXI—SPECIAL FEDERAL LEASE STIPULATIONS AND/OR CONDITIONS

31.1 Nothing in this Agreement shall modify special lease stipulations and/or conditions applicable to lands of the United States. No modification of the conditions necessary to protect the lands or functions of lands under the jurisdiction of any Federal agency is authorized except with prior consent in writing whereby the authorizing official specifies the modification permitted.

In witness whereof, the parties hereto have caused this Agreement to be executed and have set opposite their respective names the date of execution.

operation of the _____;
(Name of Unit and State)
and

Whereas said Principal and record owners of unitized substances, pursuant to said unit agreement, have entered into certain covenants and agreements as set forth therein, under which operations are to be conducted; and

Whereas said Principal as Unit Operator has assumed the duties and obligations of the respective owners of unitized substances as defined in said unit agreement; and

Whereas said Principal and surety agree to remain bound in the full amount of the bond for failure to comply with the terms of the unit agreement, and the payment of rentals, minimum royalties, and royalties due under the Federal leases committed to said unit agreement; and

Whereas the Surety hereby waives any right of notice of and agrees that this bond may remain in force and effect notwithstanding:

(a) Any additions to or change in the ownership of the unitized substances herein described.

(b) Any suspension of the drilling or producing requirements or waiver, suspension or reduction of rental or minimum royalty payments or reduction of royalties pursuant to applicable laws or regulations thereunder; and

Whereas said Principal and Surety agree to the payment of compensatory royalty under the regulations of the Interior Department in lieu of drilling necessary offset wells in the event of drianage; and

Whereas nothing herein contained shall preclude the United States from requiring an additional bond at any time when deemed necessary:

Now, therefore, if the said Principal shall faithfully comply with all of the provisions of the above-identified unit agreement and with the terms of the leases committed thereto, then the above obligation is to be of no effect; otherwise to remain in full force and virtue.

§ 271.16 Form of designation of successor unit operator by working interest owners.

Designation of successor Unit Operator _____, Unit Area, County of _____ State of _____, No. _____

This indenture, dated as of the _____ day of _____, 19____, by and between _____ hereinafter designated as "First Party," and the owners of unitized working interest, hereinafter designated as "Second Parties."

Witnesseth: Whereas under the provisions of the Geothermal Steam Act of December 24, 1970, 84 Stat. 1566, the Secretary on the _____ day of _____, 19____, approved a unit agreement for the _____ Unit Area, wherein _____ is designated as Unit Operator; and

Whereas said _____ has resigned as such Operator,[1] and the designation of a successor Unit Operator is now required pursuant to the terms thereof; and

Whereas First Party has been and hereby is designated by Second Parties as a Unit Operator, and said First Party desires to assume all the rights, duties, and obligations of Unit Operator under the said unit agreement.

Now, therefore, in consideration of the premises hereinbefore set forth and the promises hereinafter stated, the First Party hereby covenants and agrees to fulfill the duties and assume the obligations of Unit Operator under and pursuant to all the terms of the _____ unit agreement, and the Second Parties covenant and agree that, effective upon approval of this indenture by the Supervisor, of the Geological Survey, First Party shall be granted the exclusive right and privilege of exercising any and all rights and privileges and Unit Operator, pursuant to the terms and conditions of said unit agreement; said unit agreement being hereby incorporated herein by references and made a part hereof as fully and effectively as though said unit agreement were expressly set forth in this instrument.

In witness whereof, the parties hereto have executed this instrument as of the date hereinabove set forth.

§ 271.17 Form of change in unit operator by assignment.

Change in Unit Operator _____ unit Area, County of _____, State of _____, No. _____

This indenture, dated as of the _____ day of _____, 19____, by and between _____ hereinafter designated as "First Party," and _____, hereinafter designated as "Second Party."

Witnesseth: Whereas under the provisions of the Geothermal Steam Act of December 24, 1972, 84 Stat. 1566, the Secretary on the _____ day of _____, 19____, approved a unit agreement for the _____ Unit Area, wherein the First Party is designated as Unit Operator; and

Whereas the First Party desires to transfer, assign, release, and quitclaim, and the Second Party desires to assume all the rights, duties, and obligations of Unit Operator under the unit agreement; and

Whereas for sufficient and valuable consideration, the receipt whereof is hereby acknowledged, the First Party has transferred, conveyed and assigned all his/its rights under certain operating agreements involving lands within the area set forth in said unit agreement unto the Second Party;

Now, therefore, in consideration of the premises hereinbefore set forth, the First Party does hereby transfer, assign, release, and quitclaim unto Second Party all of First Party's rights, duties and obligations as Unit Operator under said unit agreement; and

Second Party hereby accept this assignment and hereby convenants and agrees to fulfill the duties and assume the obligations of Unit Operator under and pursuant to all the terms of said unit agreement to the full extent set forth in this assignment, effective upon approval of this indenture by the Supervisor of the Geological Survey; said unit agreement being hereby incorporated herein by reference and made a part hereof as fully and effectively as though said unit agreement were expressly set forth in this instrument.

In witness whereof, the parties hereto have executed this instrument as of the date hereinabove set forth.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 7—AGRICULTURE

Chapter II—Food and Nutrition Service, Department of Agriculture

FOOD STAMP PROGRAM

Miscellaneous Amendments

Notice of proposed rule making was published in the FEDERAL REGISTER on August 25, 1972. The notice set forth a proposal to amend the regulations governing the food stamp program to (1) provide that the salary and travel costs of the person who prepares the official record of hearings held at the request of households may, in part, be paid to the State agency by the Food and Nutrition Service, (2) allow State agencies to make direct refunds to any recipients overcharged for their coupon allotment, (3) allow State agencies to cooperate with Federal, State, and local investigative agencies which are investigating suspected violations of the Food Stamp Act or program regulations; and (4) provide that court-ordered support and allmony payments will be deducted from income

of Title 7 of the Code of Federal Regu-

Secretary to be fair and reasonable. In

sugar for producers who annually harvest

V37-231 NOV 30 72 XUM

in determining eligibility and basis of issuance.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed amendments. The great weight of the responses favored adoption of the proposed amendments.

After consideration of all responses, the Department has decided to adopt the proposed amendment published in the FEDERAL REGISTER of August 25, 1972.

In addition, the address of the office of the FNS Southeast Region has changed and requires correction so that mail may be properly addressed by persons or agencies desiring information concerning the program.

Also a nonsubstantive single-word change is required in § 272.2, paragraph (e)(3) in the interest of clarity and to most accurately reflect the intent of the sentence.

The amendments are set forth below:

PART 270—GENERAL INFORMATION AND DEFINITIONS

1. In § 270.2, paragraph (ii) is revised to read as follows:

§ 270.2 Definitions.

* * * * * *

(ii) "Hearing Official" means a person or persons designated by the Agency to act in its behalf in the conducting of hearings under § 271.1(o) of this subchapter. Such persons shall not have been involved in the action in question. Medically qualified persons who make medical determinations or provide testimony on medical issues in hearing proceedings and the person who prepares the official hearing record may also be considered hearing officials.

* * * * * *

2. In § 270.5, paragraph (b)(2) is revised to read as follows:

§ 270.5 Miscellaneous provisions.

* * * * * *

(b) * * *

(2) For project areas in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, Virgin Islands, Virginia: U.S. Department of Agriculture, Food and Nutrition Service, Southeast Region, 1100 Spring Street NW., Room 200, Atlanta, GA 30309.

* * * * * *

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

3. In § 271.1, paragraph (q) is revised to read as follows:

§ 271.1 General terms and conditions for State agencies.

* * * * * *

(q) *Refunds to households.* A household shall be entitled to a cash refund for any amount that it has been overcharged for its coupon allotment as a result of an error by the State agency in the administration of the food stamp program: *Provided,* That, if the household owes a balance on a claim under § 271.7(d), the State agency shall offset the amount due under this paragraph against such balance. The State agency shall make such refunds from funds collected in payment of the purchase requirement or from its own funds or those of the project area, or, if no such funds are available for this purpose, the State agency shall request FNS to make such refunds directly to the households. If State agency or project area funds are used to make refunds, FNS will credit or reimburse the State agency or project area therefor.

* * * * * *

4. Section 271.3(c)(1)(iii) is amended by deleting the word "and" from (c), by relettering (f) to become (g), and by adding a new (f) so that (e), (f), and (g) will read as follows:

§ 271.3 Household eligibility.

* * * * * *

(c) Income and resource eligibility standards of other households. * * *

(1) Definition of income. * * *

(iii) Deductions for the following household expenses shall be made:

* * * * * *

(e) Educational expenses which are for tuition and mandatory school fees, including such expenses which are covered by scholarships, educational grants, loans, fellowships, and veterans' educational benefits;

(f) Court-ordered support and alimony payments; and

(g) Shelter costs in excess of 30 percentum of the household's income after the above deductions.

* * * * * *

5. The relettering of the items in § 271.3(c)(1)(iii) requires amendment of any reference to such subdivisions elsewhere in that section. Accordingly, the following amendment is hereby made in § 271.3(c): In § 271.3(c)(1)(f)(*b*)(*1*), the reference to "subdivision (iii)(*f*)" is amended to read "subdivision (iii)(*g*)".

6. In § 272.2, paragraph (e)(3) is amended to read as follows:

§ 272.2 Participation of retail food stores, and non-profit meal delivery services.

* * * * * *

(e) * * *

(3) Credit slips or tokens shall bear language similar to the following: "Redeemable only in eligible food and only at (insert the name of the issuing store or chain) store(s)".

* * * * * *

PART 272—PARTICIPATION OF RETAIL FOOD STORES, WHOLESALE FOOD CONCERNS, NONPROFIT MEAL DELIVERY SERVICES, AND BANKS

7. In § 272.5, the second sentence of paragraph (d) is revised and a new paragraph (f) is added to read as follows:

§ 272.5 Participation of banks.

* * * * * *

(d) * * * Such coupons which have been so issued and used, as well as any coupons which have been issued under paragraph (f) of this section, or which FNS believes may have been issued, transferred, negotiated, used, or received in violation of any provisions of this subchapter or of any applicable statute, shall at the request of any person acting on behalf of FNS and on issuance of a receipt therefor by such person, be released and turned over to FNS by the bank receiving such coupons, or by any other person to whom such request is addressed, together with the certificate(s) of redemption accompanying such coupons, if any. * * *

* * * * * *

(f) Upon the written request of Federal, State, or local governmental agencies which have authority to investigate, and are investigating, suspected violations of Federal or State statutes relating to the enforcement of the Food Stamp Act or the regulations issued thereunder, the State agency may allow households which it believes are or may be ineligible for the program to continue program participation and to receive and use ATP cards and food coupons. The State agency may allow such households to continue participation in the program until the earlier of (1) expiration of the period of 90 days after such request is received or of such longer period as FNS, upon request of the State agency, may for good cause approve in a particular case, or (2) receipt of notification from the investigative agency that such participation may be terminated or that the investigation has been completed. Notwithstanding any other provisions of this subchapter, the State agency shall not be liable to FNS for the bonus value of any coupons issued to households which the State agency allows to continue participation in the program in conformity with the provisions of this paragraph.

(78 Stat. 703, as amended, 7 U.S.C. 2011–2025)

Implementation will be effected by the States in accordance with § 271.1(s).

Effective date. This amendment shall be effective on the date of its publication in the FEDERAL REGISTER (11–30–72).

RICHARD LYNG,
Assistant Secretary.

NOVEMBER 24, 1972.

[FR Doc.72–20587 Filed 11–29–72;8:51 am]

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER H—DETERMINATION OF WAGE RATES

[Docket No. SH–295, Amdt. 1]

PART 864—SUGARCANE: LOUISIANA

Fair and Reasonable Wage Rates

Pursuant to the provisions of the Sugar Act of 1948, as amended, Part 864 of Title 7 of the Code of Federal Regulations, published December 28, 1971 (36 F.R. 24983) (effective January 10, 1972), is amended by revising paragraph (a) of § 864.23 to read as follows:

§ 864.23 Requirements.

A producer of sugarcane in Louisiana shall be deemed to have complied with the wage provisions of the act if all persons employed on the farm in production, cultivation, or harvesting work, as provided in § 864.24, shall have been paid in accordance with the following:

(a) *Wage rates.* All such persons shall have been paid in full for all such work and shall have been paid wages in cash therefore at rates required by existing legal obligations, regardless of whether those obligations resulted from an agreement (such as a labor union agreement) or were created by State or Federal legislative action, or at rates as agreed upon between the producer and worker, whichever is higher, but not less than the following:

(1) *Work performed on a time basis.*

(i) Effective October 1, 1971 and remaining in effect through December 31, 1971:

Class of worker	*Rate per hour*
Harvest work:	
Harvester and loader operators	$1.65
Tractor drivers, truck drivers, harvester bottom blade operators, and hoist operators	1.60
All other harvesting workers	1.50

(ii) Effective January 1, 1972 and remaining in effect, through October 22, 1972:[1]

Class of worker	*Rate per hour*
Production and cultivation work:	
Tractor drivers	$1.65
All other production and cultivation workers	1.60
Harvest Work:	
Harvester and loader operators	1.75
Tractor drivers, truck drivers, harvester bottom blade operators and hoist operators	1.70
All other harvesting workers	1.60

* * * * * *

(Secs. 301, 403, 61 Stat. 929, as amended, 932; 7 U.S.C. 1131, 1153)

STATEMENT OF BASES AND CONSIDERATIONS

The redetermined wage rates contained herein are issued in compliance with the October 26, 1972, Order of the United States District Court for the District of Columbia in the case of Huey Freeman, et al. v. the United States Department of Agriculture, et al., Civil Action No. 1490–72 and shall apply retroactively to all labor performed on or after October 1, 1971, in the harvest of the 1971 Louisiana sugarcane crop and the planting and cultivation of the 1972 sugarcane crop unless the aforesaid order of the district court is overturned on appeal thereof.

Section 301(c)(1) of the Sugar Act requires producers to pay wages at rates not less than those determined by the Secretary to be fair and reasonable. In making such determinations, the Secretary is directed to take into consideration the standards therefor formerly established by him under the Agricultural Adjustment Act, as amended (i.e., cost of living, prices of sugar and byproducts, income from sugarcane, and cost of production), and the differences in conditions among the various sugar producing areas.

In accordance with the court's order, the Department has redetermined the wage requirements applicable to the harvest of the 1971 Louisiana sugarcane crop and the planting and cultivation of the 1972 crop. Consideration has been given to the returns, costs, and profits of producing sugarcane for the 1969, 1970, and 1971 crops, which were obtained through a field survey conducted in Louisiana during the spring of 1972; and to other generally related standards normally considered in wage determinations, including the cost of living and producers' ability to pay. Analysis of all such data and appropriate factors demonstrates that the minimum wage rates established in this determination are fair and reasonable.

The risk of crop damage or failure is greater in connection with Louisiana sugarcane than is the case in other domestic sugar-producing areas. The Louisiana sugarcane crop has had substantial late-season damage from freeze and/or hurricanes in 4 of the last 7 years (1965 through 1971). Such late-season production hazards have severely limited returns for producers in recent years, and, during those years in which their crops were damaged, most producers suffered financial losses. For Louisiana sugarcane producers, then, the statistical probability of financial loss is greater than the probability of profit in any given year.

On September 16, 1971, prior to the beginning of the 1971 harvest, a hurricane struck the sugarcane belt in Louisiana. It was estimated shortly afterwards that 25 percent of expected sugar production had been lost. When production was completed about the turn of the year, slightly more than 571,000 tons of sugar had been produced. Although growers had cultivated almost 15 percent more sugarcane acreage than for the 1970 crop, sugar production was 5.2 percent smaller. Thus, it is clear that the hurricane did reduce average production per acre from the 1971 crop by almost 20 percent.

Not only were cultivation costs higher in 1971 because of the greater acreage under cultivation, but harvesting costs were greatly increased because of the tangled condition of the cane and the very wet fields due to several weeks of excessive rainfall following the hurricane. Many producers had to resort to the unusual and expensive practice of using large numbers of hand scrapers in the harvesting operation to salvage as much cane as possible. The cost study conducted earlier this year in Louisiana indicates that cultivation costs per ton of sugar for producers who annually harvest in excess of 100 acres of cane for sugar were 10 percent more in 1971 than in 1970, while harvesting costs per ton of sugar were 22 percent greater. The field survey also revealed that the total man-hours of labor, excluding services to personnel and administration, required to produce a ton of sugar was over 7 percent greater in 1971 than in 1970. The single greatest increase in man-hour requirements per ton of sugar occurred in the cutting, loading, and handling of sugarcane, which increased 20 percent.

All of these factors contributed significantly toward reducing the ability of Louisiana sugarcane producers to pay higher wages for 1971 harvest work than those which became effective October 12, 1970. The cost survey revealed that 1971-crop direct labor costs actually consumed 88.5 percent of the producers' margin available for labor, income taxes, and profit. The fact that producers realized a net profit after income taxes, but before any consideration for return on capital investment, averaging only $3.66 per ton of sugar indicates that the producers' ability to pay was severely limited. If a modest return of 5 percent on capital investment is included in total production costs, the producers suffered an average net loss of $1.06 per ton of sugar produced from the 1971 crop.

During the 3-year period included in the most recent study of returns, costs and profits of sugarcane production in Louisiana, the season's average prices of raw sugar and blackstrap molasses, the principal byproduct of sugar production, generally increased. The price of raw sugar increased by 2.9 percent in 1969, 4.0 percent in 1970, and 8.4 percent in 1971 above the average price for the immediately preceding crop year. The price of blackstrap molasses showed a markedly different trend. Although the average price of molasses increased a significant 32 percent from 1968 to 1969, such price decreased in 1970 by 6.2 percent but in 1971 nearly recovered to the 1969 level with a 4.8 percent increase. The average income per ton of sugar received by Louisiana producers from the sale of sugarcane to processors and from conditional payments under the Sugar Act increased only 2.1 percent in 1969 above 1968 but increased an additional 4.5 percent in 1970 and 8.5 percent in 1971. The field survey revealed that the average costs of production per ton of sugar, including rent and interest paid and taxes on income, increased in 1969 by 6.7 percent above the estimated 1968 costs, by 1.6 percent in 1970 above 1969, and by 11 percent in 1971 over 1970. Therefore, despite the increases realized in income during the 3-year period, producers earned very small profits because of the continuous increases in costs of production and hazardous weather conditions. Producers' profits (after taxes but before provision for return on equity capital) averaged 2.0, 7.0, and 3.9 percent of net worth, respectively, for the 1969, 1970, and 1971 crops. This clearly

[1] New rates for the harvest of the 1972 crop became effective Oct. 23, 1972 (37 F.R. 21795).

V 37-231 NOV 30 72 XUM

indicates: (a) That profits during that period averaged less than the 5 percent return considered as a reasonable return on investment, and (b) that producers received no return at all for their managerial labor (entrepreneurship). In fact, they suffered financial loss during that period.

The cost of living, like production costs, has increased significantly in recent years. Living costs increased 5.4 percent in calendar year 1969, 6.0 percent in 1970, and 4.2 percent in 1971. The increases in wage rates effective January 1, 1972, under this determination which range from 6.1 percent for the highest skilled worker to 6.7 percent for the lowest skilled worker more than offset the increase that occurred in living costs from calendar year 1970 to calendar year 1971.

On the basis of application of the statutory factors (cost of living, income from sugarcane, cost of production, etc.), the wage rates that were in effect for the harvest of the 1970 crop continued to be fair and reasonable for the harvest of the 1971 crop, and this determination so provides.

With respect to work performed in connection with the planting and cultivation of the 1972 crop, the Department believes that under a strict application of the statutory factors, a continuation of the 1971 planting and cultivation wage rates could be justified. However, giving greater weight to increases in the cost of living and considering the favorable outlook for the 1972 harvest, the Department believes that an increase in the wages as provided herein is fair and reasonable.

On the basis of an examination of all relevant factors, the provisions of this amendment are deemed to be fair and reasonable. Accordingly, I hereby find and conclude that the foregoing amendment will effectuate the wage provisions of the Sugar Act of 1948, as amended.

Effective date. This amendment shall become effective on the date of filing with the Director, Office of the Federal Register.

Signed at Washington, D.C., on November 27, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

SUBCHAPTER I—DETERMINATION OF PRICES

[Docket No. SH-301]

PART 871—SUGAR BEETS

Fair and Reasonable Prices for 1972 Crop

Pursuant to the provisions of section 301(c)(2) of the Sugar Act of 1948, as amended (herein referred to as "act"), after investigation, due notice of public hearings, and consideration of evidence presented at hearings held during December 1971, the following determination is hereby issued. The regulations previously appearing in these sections under "Determination of Prices; Sugar Beets" remain in full force and effect as to the crops to which they were applicable.

Sec.
871.24 General requirements.
871.25 Purchase agreements.
871.26 Reporting requirements.
871.27 Applicability.
871.28 Subterfuge.

AUTHORITY: Sections 871.24 to 871.28 issued under secs. 301, 403, 61 Stat. 929, as amended, 932; 7 U.S.C. 1131, 1153.

§ 871.24 General requirements.

A producer of sugar beets who is also a processor of sugar beets (herein referred to as "processor") shall have paid, or contracted to pay for all sugar beets of the 1972 crop grown by other producers and processed by him, in accordance with the following requirements:

§ 871.25 Purchase agreements.

(a) The price for all 1972-crop sugar beets delivered by a producer and processed by a processor, shall be not less than that required to be paid pursuant to the 1972 crop sugar beet purchase contract between the processor and the producer, subject to the provisions of paragraphs (b), (c), and (d) of this section.

(b) If the processor, in determining the net proceeds pursuant to the contract, makes a deduction from the gross sales price of sugar for factorysite bulk sugar storage facilities owned by the processor, or for factorysite bulk pulp storage facilities owned by the processor in those districts where producers share directly in the total net returns from the sales of sugar, pulp, and molasses, such deduction shall be limited to amortization of such facilities, including improvements, over a reasonable period, interest at prevailing rates on the unrecovered cost, taxes, insurance, maintenance, and operating costs properly applicable thereto. After the costs of the facilities, including improvements, have been fully recovered such deductions shall be limited to taxes, insurance, maintenance, and operating costs properly applicable thereto: *Provided*, That if there is an agreement between the processor and producers such deductions for factorysite storage facilities owned by the processor shall be as agreed upon if less than that provided above.

(c)(1) In factory districts using a scale-type sugar beet purchase contract where the processor has constructed tanks for the storage of concentrated juice, has stored such juice for a period of not less than 30 days after the end of the slicing campaign and has processed such juice into granulated sugar, and there is agreement between the processor and producers for the processor to make a charge for the storage of concentrated juice, a charge representing the additional costs incurred as a result of factory cleanup and startup in connection with the juice processing campaign may be deducted from the gross sales price of sugar: *Provided*, That such charge shall not exceed 2 cents per month (based on the length of time such juice is stored between the end of the slicing campaign and the startup of the juice processing campaign, such period not to exceed 6 months) per 100 pounds granulated sugar equivalent of the juice so stored.

(2) In those factory districts in Michigan and Ohio using a percentage-type sugar beet purchase contract, wherein growers share with the processor in factory extraction efficiency, and where the processor has constructed and is operating tanks for the storage of concentrated juice, a deduction from the gross sales price of sugar and byproducts may be made for the amortization of such tanks as provided in the processor's 1972-crop sugar beet purchase contract.

(d) In determining the net proceeds pursuant to the contract, the gross sales price per 100 pounds to be applicable to sugar sold to an affiliate company or other affiliate business entity, or to sugar used by the processor during the settlement period, shall be not less than the weighted average quoted basis price, less customary allowance, and plus appropriate prepays and package differentials which would have been applicable to such sugar had it been marketed to nonaffiliated purchasers.

§ 871.26 Reporting requirements.

The processor shall submit to the Director, Sugar Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250, within 60 days after the close of the sales period specified in the sugar beet purchase contract, an itemized statement for each settlement district, certified by an independent accountant, showing the computation of "net proceeds" or "net returns" as provided in such contract, such statement to be in substantially the form as that contained in Schedule A attached hereto and made a part hereof: *Provided*, That, if the processor markets sugar to an affiliate company or other affiliate business entity or if the processor uses any beet sugar, the weighted average gross sales price for each category, the marketing expenses applicable to each, and the net proceeds derived thereform shall be reported in substantially the form shown on Schedule A–1 attached hereto and made a part hereof, to supplement the information submitted in accordance with Schedule A: *Provided further*, That if the processor in determining net proceeds makes a deduction for factorysite bulk sugar, bulk pulp, or concentrated juice storage facilities owned by the processor, the total cost of such facilities, including improvements, the amount of the deduction and the expenses used in determining such deduction shall be reported in substantially the form shown on Schedule A–2 attached hereto and made a part hereof, to supplement the information submitted in accordance with Schedule A.

§ 871.27 Applicability.

The requirements of this part are applicable to all sugar beets purchased from other producers and processed by a processor who produces sugar beets (a processor-producer is defined in § 821.1 of this chapter).

§ 871.28 Subterfuge.

The processor shall not reduce returns to producers below those determined in accordance with the requirements of this part through any subterfuge or device whatsoever.

STATEMENT OF BASES AND CONSIDERATIONS

General. The foregoing determination establishes the fair and reasonable price requirements which must be met, as one of the conditions for payment under the Act, by a producer who processes sugar beets of the 1972 crop grown by other producers.

Requirements of the act. Section 301(c)(2) of the Act provides that the producer on the farm who is also, directly or indirectly, a processor of sugar beets or sugar cane, as may be determined by the Secretary, shall have paid, or contracted to pay under either purchase or toll agreements, for any sugar beets, or sugar cane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing.

1972-crop fair price determination. This determination provides that a processor shall be deemed to have complied with the fair price provisions of the Act if he has paid, or contracted to pay, prices for all sugar beets processed that are not less than those determined pursuant to the applicable 1972 crop purchase contract with producers. The provision of the 1971 crop determination that the processor in determining net proceeds is permitted to make a deduction for the cost of constructing or operating tanks for the storage of concentrated juice if the processor has stored such juice and provision for such deduction has been agreed upon is continued in this determination. No testimony concerning the 1972 price determination was presented at the sugar beet price hearings held in December 1971.

Examination of the 1972 crop purchase contracts, which have been negotiated by producers and processors and submitted to the Department subsequent to the hearings, indicates few major changes from 1971 relating to payments for sugar beets. One company changed its schedule of payments to provide a higher range of net selling prices in all its contracts, and to provide for an increase in payment for beets in one area. Two companies increased the initial payment for beets in California at higher net selling prices. One company instituted a freight charge on tare above 4 percent in one contract, required growers to share a higher percentage of the freight costs in two other contracts, and provided authorization in another contract for the company to deduct the grower's share of costs incurred by the growers association in the capital improvement of piling ground facilities. Another company changed one district's method of payment from a district average sugar content basis to a modified individual content basis. One processor increased its premium for early delivery of beets and changed its basis of payment to the net basic price per ton of beets modified by the ratio that the average recoverable white sugar per ton of the grower's beets is of the average for all beets accepted by the company. Previously, the net basic price per ton was modified by the sugar test. Finally, one processor initiated a deduction of 2 cents per hundredweight, per month from the gross sales price in computing the net return for sugar stored in company facilities constructed prior to 1968, while the charge for storage in facilities constructed after January 1, 1968, shall include an amortization charge, interest on the unrecovered cost, and other costs including taxes, insurance, and maintenance. That processor also included a provision in their contracts that if price controls are removed after having been in effect, then the New York raw guarantee shall apply to subsequent sales, the guarantee to become effective on a date dependent on when the price controls are removed within the sales quarter.

Consideration has been given to the provisions of the purchase contracts, to the comparative average costs of producers and processors obtained by field survey for a prior crop and recast in terms of prospective price and production conditions for the 1972 crop, and to other pertinent factors. Analysis of the comparative average operating results of producers and processors indicates that the producers' share of returns, on average, continue to be favorable as compared to their sharing of total costs, and that the payments provided in the 1972 crop purchase contracts are fair and reasonable at the levels of sugar prices and net returns which may be expected during the pricing period.

On the basis of an examination of all relevant factors, the provisions of this determination are deemed to be fair and reasonable. Accordingly, I hereby find and conclude that the foregoing price determination will effectuate the price provisions of the Sugar Act of 1948, as amended.

NOTE: The recordkeeping and reporting requirements of these regulations have been approved by, and subsequent recordkeeping and reporting requirements will be subject to the approval of the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Effective date. This determination shall become effective upon publication in the FEDERAL REGISTER (11–30–72) and is applicable to 1972-crop sugar beets.

Signed at Washington, D.C., on November 22, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

SCHEDULE A—STATEMENT OF AVERAGE NET RETURN OR NET PROCEEDS FROM SALES OF SUGAR [1]

Company _____
Settlement area _____
Settlement period _____

	Per hundredweight sugar (dollars)
Gross sales price	
Less sales and marketing expenses (applicable to sugar only):	
Federal excise tax	
Freight on sugar to destination	
Cash discount	
Allowances	
Public storage (actually paid)	
Offsite storage owned by the processor (amount charged)	
Onsite storage (computed charge) [2]	
Loading and handling	
Cost of packing in excess of basis pack	
Taxes	
Insurance	
Brokerage and commissions	
Advertising	
Sales department expenses:	
Salaries	
Travel	
Miscellaneous	
Other (specify)	
Total expense	
Net return or net proceeds	

[1] Where the purchase contract provides that the proceeds from the sales of molasses and beet pulp are to be included in calculating the net return or net proceeds, show separately the gross price and the marketing expenses applicable to each.

[2] Obtain from Schedule A–2.

(Data will be held confidential and will not be published in any manner as would disclose the operations of any company.)

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 277]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 907.577 Navel Orange Regulation 277.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on November 28, 1972.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period December 1, 1972, through December 7, 1972, are hereby fixed as follows:

(i) District 1: 1,319,000 cartons.

(ii) District 2: 93,000 cartons.

(iii) District 3: 131,000 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 29, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-20725 Filed 11-29-72;11:11 am]

Chapter X—Agricultural Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order 36; Docket No. AO 179–A36]

PART 1036—MILK IN THE EASTERN OHIO-WESTERN PENNSYLVANIA MARKETING AREA

Order Amending Order

Findings and determinations. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the eastern Ohio-western Pennsylvania marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means

pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who participated in a referendum and who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Eastern Ohio-Western Pennsylvania marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the entire order is reprinted as follows:

GENERAL PROVISIONS

Sec.
1036.1 General provisions.

CLASS PRICES

1036.50 Class prices.
1036.51 Basic formula price.
1036.52 Plant location adjustments for handlers.
1036.53 Announcement of class prices.
1036.54 Equivalent price.

UNIFORM PRICE

1036.60 Handler's value of milk for computing uniform price.
1036.61 Computation of uniform price.
1036.62 Announcement of uniform price and butterfat differential.

PAYMENTS FOR MILK

1036.70 Producer-settlement fund.
1036.71 Payments to the producer-settlement fund.
1036.72 Payments from the producer-settlement fund.
1036.73 Payments to producers and to cooperative associations.
1036.74 Butterfat differential.
1036.75 Plant location adjustments for producers and on nonpool milk.
1036.76 Payments by handler operating a partially regulated distributing plant.
1036.77 Adjustment of accounts.
1036.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1036.85 Assessment for order administration.
1036.86 Deduction for marketing services.

AUTHORITY: The provisions of this Part 1036 issued under secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

GENERAL PROVISIONS

§ 1036.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1036.2 Eastern Ohio-Western Pennsylvania marketing area.

The "Eastern Ohio-Western Pennsylvania marketing area," hereinafter called the "marketing area," means all the territory within the boundaries of the following geographical units, including all waterfront facilities connected therewith and all territory occupied by government (municipal, State, or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within the listed geographical units:

(a) "Zone 1" includes:

(1) In Ohio:

(i) The following counties in their entirety:

Ashtabula.	Monroe.
Carroll.	Portage.
Geauga.	Tuscarawas.
Harrison.	Wayne.
Holmes.	

(ii) Ashland County (except the townships of Ruggles, Sullivan, and Troy).

(iii) In Guernsey County: the townships of Londonderry, Millwood, and Oxford.

(iv) In Stark County: Sugar Creek Township.

(v) In Trumbull County: the townships of Bazetta, Bloomfield, Bristol, Champion, Farmington, Fowler, Greene, Gustavus, Hartford, Johnston, Kinsman, Mecca, Mesopotamia, Southington, and Vernon.

(2) In Pennsylvania:

(i) The following counties in their entirety:

Crawford.	Venango.
Erie.	

(ii) In Clarion County: the townships of Ashland, Beaver, Licking, Madison, Perry, Piney, Richland, Salem, and Toby.

(b) "Zone 2" includes:

(1) In Ohio:

(i) The following counties in their entirety:

Belmont.	Mahoning.
Columbiana.	Summit.
Jefferson.	

(ii) In Lorain County: the townships of Amherst, Avon, Avon Lake, Black River, Carlisle, Columbia, Eaton, Elyria, Grafton, Ridgeville, and Sheffield.

(iii) Medina County (except the townships of Chatham, Homer, Litchfield, and Spencer).

(iv) Stark County (except Sugar Creek Township).

(v) In Trumbull County: the townships of Braceville, Brookfield, Howland, Hubbard, Liberty, Lordstown, Newton, Warren, Weathersfield, and Vienna.

(2) In Pennsylvania:

(i) The following counties in their entirety:

Armstrong.	Greene.
Beaver.	Lawrence.
Butler.	Mercer.
Fayette.	Washington.

(ii) Westmoreland County (except the boroughs of Bolivar, Donegal, Ligonier, New Florence, and Seward and the townships of Cook, Donegal, Fairfield, Ligonier, and St. Clair).

(3) In West Virginia, the following counties in their entirety:

Barbour.	Ohio.
Brooke.	Preston.
Doddridge.	Randolph.
Hancock.	Taylor.
Harrison.	Tucker.
Lewis.	Tyler.
Marion.	Upshur.
Marshall.	Wetzel.
Monongalia.	

(c) "Zone 3" includes Cuyahoga and Lake counties, Ohio, in their entirety.

(d) "Zone 4" includes Allegheny County, Pa., in its entirety.

§ 1036.3 Route disposition.

"Route disposition" means a delivery (except to a plant), either directly or through any distribution facility (including disposition from a plant store, vendor, or vending machine), of a fluid milk product classified as Class I pursuant to § 1036.40(a)(1).

§ 1036.4 [Reserved]

§ 1036.5 Distributing plant.

"Distributing plant" means a plant in which fluid milk products approved by a duly constituted health authority for fluid consumption, or filled milk, are processed or packaged and from which there is route disposition in the marketing area during the month.

§ 1036.6 Supply plant.

"Supply plant" means a plant from which a fluid milk product acceptable to a duly constituted health authority, or filled milk, is transferred or diverted during the month to a pool plant.

§ 1036.7 Pool plant.

Except as provided in paragraph (e) of this section, "pool plant" means:

(a) A distributing pool plant that has:

(1) Route disposition, except filled milk, during the month of not less than 50 percent (40 percent for each month of April through August) of the total receipts of fluid milk products, except filled milk, that are approved by a duly

account from a pool plant of another

(b) Receipts of packaged fluid cream

HANDLER REPORTS

constituted health authority for fluid consumption and that are physically received at such plant or diverted as producer milk pursuant to § 1036.13 to plants other than those qualified as pool plants pursuant to this paragraph; and

(2) Route disposition, except filled milk, in the marketing area during the month of not less than 15 percent of the receipts described in subparagraph (1) of this paragraph.

(b) A supply plant from which during the months of September, October, and November, not less than 50 percent, and in all other months not less than 40 percent, of the total quantity of milk approved by a duly constituted health authority for fluid consumption that is physically received (excluding that diverted from other plants) at such plant from dairy farmers and handlers defined in § 1036.9(c) or diverted as producer milk pursuant to § 1036.13 to pool plants and nonpool plants is transferred or diverted to and physically received in the form of fluid milk products, except filled milk, at pool plants qualified under paragraph (a) of this section or disposed of as route disposition in the marketing area.

(c) A plant that qualified as a pool plant under paragraph (b) of this section on the basis of its transfers and diversions to pool plants (exclusive of its route disposition in the marketing area) in each of the immediately preceding months of September through February shall be a pool plant for the months of March through August unless the milk received at the plant does not continue to meet the requirements of a duly constituted health authority or a written application is filed by the plant operator with the market administrator on or before the first day of any such month requesting that the plant be designated as a nonpool plant for such month and each subsequent month through August during which it would not otherwise qualify as a pool plant.

(d) A plant(s) that is approved by a duly constituted health authority to handle milk for fluid consumption, that is operated by a cooperative association, and from which during the month the quantity of fluid milk products (except filled milk) shipped to pool plants qualified pursuant to paragraph (a) of this section plus the milk physically received at such plants by direct delivery from the farms of producer members of the cooperative association is not less than 65 percent in any month of September through April and not less than 50 percent in any other month of the cooperative association members' producer milk. If the cooperative association operating a plant qualified as a pool plant pursuant to this paragraph files with the market administrator prior to the first day of any month a written request for nonpool status for such plant, the plant shall be a nonpool plant for such month and for each of the next 11 months in which it does not qualify as a pool plant pursuant to paragraph (a), (b), or (c) of this section.

(e) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant; and

(2) A plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act, unless such plant is qualified as a pool plant pursuant to this section and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in this marketing area as route disposition and to pool plants qualified on the basis of route disposition in this marketing area than is disposed of from such plant in the marketing area regulated pursuant to the other order as route disposition and to plants qualified as fully regulated plants under such other order on the basis of route disposition in its marketing area.

§ 1036.8 Nonpool plant.

"Nonpool plant" means a plant (except a pool plant) which receives milk from dairy farmers or is a milk or filled milk manufacturing, processing, or bottling plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means:

(1) A nonpool plant that is a distributing plant and is not an other order plant or a producer-handler plant; and

(2) An other order plant with respect to its route disposition in the marketing area that is not priced and pooled pursuant to any order issued pursuant to the Act.

(d) "Unregulated supply plant" means:

(1) A nonpool plant that is a supply plant and is not an other order plant or a producer-handler plant; and

(2) An other order plant with respect to fluid milk products which were received at a pool plant from such a plant and which are not priced and pooled pursuant to any order issued pursuant to the Act.

§ 1036.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants;

(b) Any cooperative association with respect to producer milk which it causes to be diverted for its account from a pool plant of another handler to a nonpool plant;

(c) Any cooperative association with respect to milk of its producer-members which is delivered from the farm to the pool plant of another handler in a tank truck owned and operated by or under contract to such cooperative association. The milk for which a cooperative association is the handler pursuant to this paragraph shall be deemed to have been received at the location of the pool plant to which it was delivered;

(d) Any person in his capacity as the operator of a partially regulated distributing plant;

(e) Any producer-handler; and

(f) Any person in his capacity as the operator of an other order plant that is either a distributing plant or a supply plant.

§ 1036.10 Producer-handler.

"Producer-handler" means any person who:

(a) Operates a dairy farm and a distributing plant;

(b) Receives no fluid milk products from sources other than his own farm production and pool plants;

(c) Uses no milk products other than fluid milk products for reconstitution into fluid milk products; and

(d) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary for his own farm production and the operation of the processing and packaging business are the personal enterprise and risk of such person.

§ 1036.11 [Reserved]

§ 1036.12 Producer.

(a) "Producer" means any person, except a producer-handler as defined in any order (including this part) issued pursuant to the Act, who produces milk for fluid consumption in compliance with the inspection requirements of a duly constituted health authority, which milk is received at a pool plant or diverted pursuant to § 1036.13 from a pool plant to a nonpool plant or another pool plant.

(b) "Producer" shall not include a person with respect to milk that is physically received at a pool plant as diverted milk from an other order plant if a Class II or Class III classification under this order is designated for such milk and it is subject to the pricing and pooling provisions of another order issued pursuant to the Act.

§ 1036.13 Producer milk.

"Producer milk" means the skim milk and butterfat contained in milk of a producer which is:

(a) With respect to a handler defined in § 1036.9(a):

(1) Received at the handler's pool plant directly from the producer, excluding receipts of milk diverted from another pool plant;

(2) Received at the handler's pool plant from a handler defined in § 1036.9(c) that does not operate a pool plant;

(3) Diverted for the handler's account from his pool plant to a nonpool plant that is not a producer-handler plant, subject to the conditions set forth in paragraph (e) of this section; or

(4) Diverted for the handler's account from his pool plant to another pool plant, subject to the conditions set forth in paragraph (f) of this section;

(b) With respect to a handler defined in § 1036.9(b), diverted for the handler's account from a pool plant of another handler to a nonpool plant that is not a producer-handler plant, subject to the conditions set forth in paragraph (e) of this section;

(c) With respect to a handler defined in § 1036.9(c) that does not operate a pool plant, received by the handler from the producer's farm in excess of the producer's milk that is received by a pool plant operator pursuant to paragraph (a)(2) of this section; and

(d) With respect to a handler defined in § 1036.9(c) that also operates a pool plant, received by the handler from the producer's farm.

(e) The following conditions shall apply to milk diverted from a pool plant to a nonpool plant that is not a producer-handler plant:

(1) Such milk shall be deemed to have been received by the diverting handler at the location of the nonpool plant to which diverted;

(2) To the extent that it would result in nonpool plant status for the pool plant from which diverted, milk diverted for the account of a cooperative association from the pool plant of another handler shall not be deemed to have been received at such pool plant and shall not be producer milk;

(3) In any month of August through March, the quantity of milk of any producer diverted to nonpool plants that exceeds that physically received at pool plants shall be deemed to have not been received by the diverting handler and shall not be producer milk;

(4) The diverting handler shall designate the dairy farmers' deliveries that are not producer milk pursuant to this paragraph. If the handler fails to make such designation, no milk diverted by him to a nonpool plant shall be producer milk;

(5) In determining if the diversion limitations specified in this paragraph have been exceeded, the quantity of milk diverted to nonpool plants or physically received at pool plants shall be considered in terms of days of production of the producer; and

(6) Milk diverted to an other order plant shall be producer milk only if a Class II or Class III classification is designated for such milk pursuant to the provisions of another order issued pursuant to the Act and such milk is not subject to the pricing and pooling provisions of such order.

(f) Milk diverted from a pool plant to another pool plant shall be deemed to have been received by the diverting handler at the location of the pool plant to which diverted.

§ 1036.14 Other source milk.

"Other source milk" means the skim milk and butterfat contained in or represented by:

(a) Fluid milk products and bulk fluid cream products from any source except producer milk, fluid milk products and bulk fluid cream products from pool plants, and fluid milk products and bulk fluid cream products in inventory at the beginning of the month;

(b) Receipts of packaged fluid cream products from other plants;

(c) Products, other than fluid milk products, bulk fluid cream products and Class II products listed in § 1036.40(b)(3), from any source (including those produced at the plant) which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Any disappearance of nonfluid products in a form in which they may be converted into a Class I product and which are not otherwise accounted for.

§ 1036.15 Fluid milk product.

"Fluid milk product" means the following products or mixtures in either fluid or frozen form, including such products or mixtures that are flavored, cultured, modified (with added nonfat milk solids), concentrated, or reconstituted: Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, milk shake mixes containing less than 12 percent total milk solids, and mixtures of cream and milk or skim milk containing less than 10.5 percent butterfat. The term "fluid milk product" shall not include those products and mixtures listed in § 1036.40(b)(1) and (3), and (c)(1).

§ 1036.16 Fluid cream product.

"Fluid cream product" means cream (including aerated cream and sterilized cream) or a mixture of cream and milk or skim milk containing 10.5 percent or more butterfat.

§ 1036.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1036.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, known as the "Capper-Volstead Act";

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members; and

(c) To have all of its activities under the control of its members.

§ 1036.19 Reload point.

"Reload point" means a location at which milk moved from a farm in a tank truck is transferred to another tank truck and commingled with other milk before entering a plant. A reload operation on the premises of a plant shall be considered a part of the plant operation.

HANDLER REPORTS

§ 1036.30 Reports of receipts and utilization.

On or before the 8th day after the end of each month, reports of receipts and utilization for such month shall be made to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(a) Each handler operating a pool plant shall report for each of his pool plants:

(1) Receipts of skim milk and butterfat contained in or represented by:

(i) Producer milk, showing in the case of milk received directly from each producer the pounds and butterfat test and the number of days of production involved for each producer;

(ii) Fluid milk products and fluid cream products from other pool plants and from a handler defined in § 1036.9(c) that also operates a pool plant; and

(iii) Other source milk;

(2) Inventories at the beginning and end of the month of the following products:

(i) Fluid milk products; and

(ii) Fluid cream products, showing separately such inventories in bulk form and in packaged form;

(3) The utilization or disposition of all skim milk and butterfat required to be reported pursuant to this paragraph, showing separately:

(i) Total route disposition and route disposition in the marketing area, showing separately such disposition of filled milk inside and outside the marketing area; and

(ii) Transfers and diversions to other plants; and

(4) Such other information with respect to the receipts and utilization of skim milk and butterfat as the market administrator may prescribe;

(b) Each cooperative association shall report:

(1) The quantities of skim milk and butterfat contained in milk from producers for which it is the handler pursuant to § 1036.9 (b) and (c), showing:

(i) The quantity of milk delivered to each plant; and

(ii) For each producer the pounds and butterfat test of the milk and the number of days of production involved;

(2) The utilization of all skim milk and butterfat required to be reported pursuant to subparagraph (1) of this paragraph, except that contained in producer milk described in § 1036.13(a)(2); and

(3) Such other information with respect to its receipts and utilization of skim milk and butterfat as the market administrator may prescribe; and

(c) Each handler operating a partially regulated distributing plant shall report as required in paragraph (a) of this section except that receipts of bottling grade milk from dairy farmers shall be reported in lieu of receipts of producer milk. Such report shall include a separate statement showing the

total of such receipts shall not be classi- that resulting from transfers of fluid

§ 1036.44 Classification of producer

V 37-231 NOV 30 72 XUM

amount of reconstituted skim milk in route disposition in the marketing area.

§ 1036.31 Payroll reports.

(a) Each handler defined in § 1036.9 (a), (b), and (c) shall report to the market administrator on or before the 25th day after the end of the month, in the detail and on forms prescribed by the market administrator, his producer payroll for such month which shall show for each producer:

(1) His identity;

(2) The quantity of milk received from such producer and the number of days, if less than the entire month, on which milk was received from such producer;

(3) The average butterfat content of such milk; and

(4) The net amount of such handler's payment, together with the price paid and the amount and nature of any deductions.

(b) Each handler operating a partially regulated distributing plant who does not elect to make payments pursuant to § 1036.76(b) shall report to the market administrator on or before the 25th day after the end of the month the same information required of handlers pursuant to paragraph (a) of this section. In such report, payments to dairy farmers delivering milk that is approved by a duly constituted health authority for fluid consumption shall be reported in lieu of payments to producers.

§ 1036.32 Other reports.

(a) Each producer-handler shall report to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who operates an other order plant shall report total receipts and utilization or disposition of skim milk and butterfat at the plant at such time and in such manner as the market administrator may require and shall allow verification of such reports by the market administrator.

CLASSIFICATION OF MILK

§ 1036.40 Classes of utilization.

Except as provided in § 1036.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1036.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as provided in paragraphs (b) and (c) of this section; and

(2) Not accounted for as Class II or Class III milk.

(b) *Class II milk.* Except as provided in paragraph (c) of this section, Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product;

(2) In inventory at the end of the month of packaged fluid cream products;

(3) Used to produce yogurt, sour cream, sour cream products (e.g., dips), cottage cheese, and cottage cheese curd; and

(4) Disposed of in bulk as fluid milk products or fluid cream products to any commercial food processing establishment (other than a milk or filled milk plant) for the manufacture of packaged food products (other than milk products and filled milk) for consumption off the premises.

(c) *Class III milk.* Class III milk shall be:

(1) Skim milk and butterfat used to produce frozen desserts and frozen dessert mixes, eggnog, frozen cream, butter, cheese (excluding cottage cheese and cottage cheese curd), evaporated and condensed milk (plain or sweetened), nonfat dry milk, dry whole milk, dry whey, condensed or dry buttermilk, any product containing 6 percent or more nonmilk fat (or oil), milk shake mixes containing 12 percent or more total milk solids, and sterilized products (except fluid cream products and those products listed in paragraph (b)(3) of this section) in hermetically sealed glass or metal containers;

(2) Skim milk and butterfat in fluid milk products, fluid cream products and products listed in paragraph (b)(3) of this section that are disposed of by a handler for livestock feed;

(3) Skim milk and butterfat in fluid milk products, fluid cream products and products listed in paragraph (b)(3) of this section that are dumped by a handler after notification to, and opportunity for verification by, the market administrator;

(4) Skim milk and butterfat in inventory of fluid milk products and bulk fluid cream products at the end of the month;

(5) Skim milk represented by the nonfat milk solids added to a fluid milk product which is in excess of an equivalent volume of such product prior to the addition;

(6) Skim milk and butterfat, respectively, in each pool plant's shrinkage, but not in excess of:

(i) Two percent of producer milk physically received at the plant (except that received from a handler defined in § 1036.9(c));

(ii) Plus 1.5 percent of milk received from a handler defined in § 1036.9(c) and of milk diverted to such plant from another pool plant, except that if the plant operator receiving such milk files notice with the market administrator that he is purchasing such milk on the basis of farm weights, the applicable percentage shall be 2 percent;

(iii) Plus 0.5 percent of producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the other plant purchases such milk on the basis of farm weights, no percentage shall apply;

(iv) Plus 1.5 percent of bulk fluid milk products received by transfer from other pool plants;

(v) Plus 1.5 percent of bulk fluid milk products received from other order plants exclusive of the quantity for which Class II or Class III classification was requested by the operators of both plants;

(vi) Plus 1.5 percent of bulk fluid milk products received from unregulated supply plants exclusive of the quantity for which Class II or Class III classification is requested by the handler; and

(vii) Less 1.5 percent of the quantity of bulk fluid milk products transferred to other plants that does not exceed such quantity to which percentages were applied pursuant to subdivisions (i), (ii), (iv), (v), and (vi) of this subparagraph;

(7) Skim milk and butterfat, respectively, in shrinkage of other source milk assigned pursuant to § 1036.41(b)(2); and

(8) Skim milk and butterfat, respectively, in shrinkage of milk from producers that is diverted from a pool plant to a nonpool plant by a cooperative association acting as a handler pursuant to § 1036.9(b) or in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1036.9(c), but not in excess of 0.5 percent of the receipts of milk from producers, exclusive of such receipts for which farm weights are used as the basis of receipt at the plant to which delivered.

§ 1036.41 Shrinkage.

The market administrator shall allocate shrinkage over each pool plant's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, for each pool plant; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat, respectively, in:

(1) The net quantity of producer milk and other fluid milk products specified in § 1036.40(c)(6); and

(2) Other source milk in the form of bulk fluid milk products exclusive of that specified in § 1036.40(c)(6).

§ 1036.42 Classification of transfers and diversions.

Skim milk or butterfat in the form of a fluid milk product or a bulk fluid cream product shall be classified:

(a) At the utilization indicated by the operators of both plants, otherwise as Class I milk, if transferred or diverted from a pool plant to the pool plant of another handler, subject to the following conditions:

(1) The skim milk or butterfat so assigned to each class shall be limited to the amount thereof remaining in such class in the transferee plant after the computations pursuant to § 1036.44(a)(13) and the corresponding step of § 1036.44(b);

(2) If the transferor plant received during the month other source milk to be allocated pursuant to § 1036.44(a)(7) and the corresponding step of § 1036.44(b), the skim milk and butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor plant received during the month other source milk to be allocated pursuant to § 1036.44(a)(12) or (13) and the corresponding steps of § 1036.44(b), the skim milk and butterfat so transferred or diverted up to the

total of such receipts shall not be classified as Class I milk to a greater extent than would be applicable to a like quantity of such other source milk received at the transferee plant;

(b) As Class I milk, if transferred from a pool plant to a producer-handler plant;

(c) As Class I milk, if transferred or diverted in bulk to a nonpool plant that is neither an other order plant nor a producer-handler plant, unless the requirements of subparagraph (1) and (2) of this paragraph are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from subparagraph (3) of this paragraph:

(1) The transferring or diverting handler claims classification as Class II or Class III in his report submitted pursuant to § 1036.30;

(2) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) The skim milk and butterfat so transferred or diverted shall be classified on the basis of the following assignment of utilization at such nonpool plant in excess of receipts of packaged fluid milk products from all pool plants and other order plants:

(i) Any route disposition in the marketing area shall be first assigned to the skim milk and butterfat in the fluid milk products so transferred or diverted from pool plants, next pro rata to receipts from other order plants, and thereafter to receipts from dairy farmers who the market administrator determines constitute regular sources of supply of milk (approved by a duly constituted health authority for fluid consumption) for such nonpool plant;

(ii) Any route disposition in the marketing area of another order issued pursuant to the Act shall be first assigned to receipts from plants fully regulated by such order, next pro rata to receipts from pool plants and other order plants not regulated by such order, and thereafter to receipts from dairy farmers who the market administrator determines constitute regular sources of supply of milk (approved by a duly constituted health authority for fluid consumption) for such nonpool plant;

(iii) Class I utilization (exclusive of that resulting from transfers of fluid milk products to pool plants and other order plants) in excess of that assigned pursuant to subdivisions (i) and (ii) of this subparagraph shall be assigned first to remaining receipts from dairy farmers who the market administrator determines constitute regular sources of supply of milk (approved by a duly constituted health authority for fluid consumption) for such nonpool plant and any remaining Class I utilization (including that resulting from transfers of fluid milk products to pool plants and other order plants) shall be assigned pro rata to unassigned receipts at such nonpool plant from all pool plants and other order plants; and

(iv) To the extent that Class I utilization is not so assigned to it, the skim milk and butterfat so transferred or diverted shall be classified as Class III milk to the extent Class III utilization is available and the remainder as Class II milk; and

(d) As follows, if transferred to another order plant in excess of receipts from such plant in the same category as described in subparagraph (1), (2), or (3) of this paragraph:

(1) If transferred in packaged form, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in subparagraph (3) of this paragraph);

(3) If the operators of both the transferor and transferee plants so request in the reports of receipts and utilization filed with their respective market administrators, movements in bulk form shall be classified as Class III milk to the extent of the Class III utilization (or comparable utilization under such other order) available for such assignment pursuant to the allocation provisions of the transferee order;

(4) If information concerning the classification to which allocated under the other order is not available to the market administrator for purposes of establishing classification pursuant to this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the transferee order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk and butterfat allocated to the other class shall be classified as Class III milk; and

(6) If the form in which any fluid milk product is transferred to an other order plant is not defined as a fluid milk product under such other order, classification shall be in accordance with the provisions of § 1036.40.

§ 1036.43 General classification rules.

For each month, the market administrator shall correct for mathematical and other obvious errors all reports submitted pursuant to § 1036.30 and shall compute for each handler the total pounds of skim milk and butterfat in each class: *Provided*, That the skim milk contained in any product utilized, produced or disposed of by the handler during the month shall be considered to be an amount equivalent to the nonfat milk solids contained in such product plus all the water originally associated with such solids.

§ 1036.44 Classification of producer milk.

After making the computations pursuant to § 1036.43, the market administrator shall determine the classification of producer milk for each handler as follows: *Provided*, That the classification of producer milk for which a cooperative association is the handler pursuant to § 1036.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk classified as Class III milk pursuant to § 1036.40(c)(6);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under this or any other order issued pursuant to the Act is classified and priced as Class I milk and is not used as an offset on any other payment obligation under this or any other order;

(3) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (7)(v) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or the quantity associated with such receipts and classified as Class III milk pursuant to § 1034.40(c)(5) plus 2 percent of the remainder of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in packaged fluid cream products received from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in packaged fluid cream products that are in inventory at the beginning of the month, but not in excess of the pounds of skim milk remaining in Class II;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is added to, or used to produce, any product specified in § 1036.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product or a fluid cream product) that was

such quantities, the pounds of skim milk

(b) Report to the market administra-

by the Department for the month, ad-

XUM

not subtracted pursuant to subparagraphs (4) and (6) of this paragraph;

(ii) Receipts of fluid milk products (except filled milk) and bulk fluid cream products for which appropriate health approval is not established and receipts of fluid milk products and bulk fluid cream products, from unidentified sources;

(iii) Receipts of fluid milk products and bulk fluid cream products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants that were not subtracted pursuant to subparagraph (2) of this paragraph; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant;

(8) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in bulk fluid cream products received from nonpool plants that were not subtracted pursuant to subparagraph (7)(iii) of this paragraph and in packaged fluid cream products in inventory at the beginning of the month that were not subtracted pursuant to subparagraph (5) of this paragraph;

(9) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II and Class III (beginning with Class III), but not in excess of such quantities:

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (2) and (7)(iv) of this paragraph:

(a) For which the handler requests Class III classification; or

(b) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (7)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (7)(v) of this paragraph, in excess of similar transfers to such plant, if Class III classification was requested by the operator of such plant and the handler;

(10) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in inventory of fluid milk products and bulk fluid cream products;

(11) Add to the remaining pounds of skim milk in Class III the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(12) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (2), (7)(iv), and (9)(i) of this paragraph;

(13) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant that are in excess of similar transfers to the same plant and that were not subtracted pursuant to subparagraphs (7)(v) and (9)(ii) of this paragraph:

(i) In series beginning with Class III, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1036.45(a) or the percentage that Class II and Class III utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

(14) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products and bulk fluid cream products received from pool plants of other handlers according to the classification of such products pursuant to § 1036.42(a);

(15) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of milk from a handler defined in § 1036.9(c) that also operates a pool plant;

(16) If the pounds of skim milk remaining exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to § 1036.44(a)(16) and the corresponding step of § 1036.44(b).

§ 1036.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1036.44(a)(13) and the corresponding step of § 1036.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the classification to which such receipts are allocated pursuant to § 1036.44 pursuant to such report, and thereafter any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products and bulk fluid cream products to an other order plant the classification to which the skim milk and butterfat in such fluid milk products and bulk fluid cream products were allocated by the market administrator of the other order on the basis of the report of the receiving handler; and, as necessary, any changes in such classification arising in the verification of such report.

(d) On or before the 20th day of each month, report to each cooperative association that so requests the class utilization of milk received during the preceding month by each handler from producers who are members of such association, prorating to such receipts the class utilization of all producer receipts of such handler.

Class Prices

§ 1036.50 Class prices.

Subject to the provisions of § 1036.52, the class prices per hundredweight for milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.85.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month, but not to exceed an amount computed as follows:

(1) Multiply by 4.2 the simple average of the wholesale prices (using the midpoint of any price range as one price) of Grade A (92 score) bulk butter per pound at Chicago, as reported by the Department for the month;

(2) Multiply by 8.2 the weighted average of carlot prices per pound of nonfat dry milk solids, spray process, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 48 cents, and round to the nearest cent.

§ 1036.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported

by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92 score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1036.52 Plant location adjustments for handlers.

(a) At a plant in the marketing area and outside Zone 1, the Class I price for producer milk shall be adjusted as follows:

(1) At a plant in Zone 2, the Class I price shall be increased 5 cents;

(2) At a plant in Zone 3, the Class I price shall be increased 8 cents; and

(3) At a plant in Zone 4, the Class I price shall be increased 10 cents.

(b) At a plant outside the marketing area, the Class I price shall be that applicable pursuant to paragraph (a) of this section at the location of the nearest of the cities here listed (Canton and Cleveland, Ohio; Erie, Pittsburgh, and Uniontown, Pa.; and Clarksburg, W. Va.) to such plant. Such Class I price shall be further adjusted by a reduction of 1.5 cents for each 10 miles or fraction thereof that such plant is from the city hall of the nearest of the above named cities. Distances applied pursuant to this paragraph shall be the shortest hard-surfaced highway distances as determined by the market administrator.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraphs (a) and (b) of this section, except that the adjusted Class I price shall not be less than the Class III price.

(d) For the purpose of computing location adjustments pursuant to paragraph (b) of this section, fluid milk products physically received at a pool plant from other pool plants shall be assigned any remainder of Class I milk at such plant that is in excess of 92.5 percent of the sum of producer milk receipts at the plant and that assigned as Class I to receipts from other order plants and unregulated supply plants. Such assignment shall be made in sequence beginning with receipts from the plant(s) at which the highest Class I price is applicable.

§ 1036.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1036.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

Uniform Price

§ 1036.60 Handler's value of milk for computing uniform price.

The net pool obligation of each handler defined in § 1036.9 (a), (b), and (c) for each month shall be a sum of money computed by the market administrator as follows:

(a) Multiply the quantity of producer milk in each class as computed pursuant to § 1036.44(c) by the applicable class price, adjusted pursuant to § 1036.52;

(b) Add the amounts obtained from multiplying the overage deducted from each class pursuant to § 1036.44(a)(16) and the corresponding step of § 1036.44 (b) by the applicable class price adjusted pursuant to §§ 1036.52 and 1036.74;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I or Class II price for the current month, as the case may be, by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1036.44(a)(10) and the corresponding step of § 1036.44 (b);

(d) Add the amount obtained from multiplying the difference between the Class I price at the pool plant and the Class III price, both for the current month, by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1036.44(a) (7) and (8) and the corresponding steps of § 1036.44(b), except that for receipts of fluid milk products assigned to Class I pursuant to § 1036.44(a)(7) (iv) and (v) and the corresponding steps of § 1036.44(b) the Class I price shall be adjusted to the location of the transferor plant; and

(e) Add the amount obtained from multiplying the Class I price adjusted for the location of the nearest nonpool plants from which an equivalent volume was received by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1036.44(a)(12) and the corresponding step of § 1036.44(b), excluding such skim milk or butterfat in bulk receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under this or any other order issued pursuant to the Act is classified and priced as Class I milk and is not used as an offset on any other payment obligation under this or any other order.

§ 1036.61 Computation of uniform price.

For each month, the market administrator shall compute a uniform price per hundredweight of milk of 3.5 percent butterfat content as follows:

(a) Combine into one total the values computed pursuant to § 1036.60 for all handlers who filed the reports pursuant to § 1036.30 for the month, except those in default of payments required pursuant to § 1036.71 for the preceding month;

(b) Add an amount equal to the total value of the minus location adjustments applicable pursuant to § 1036.75;

(c) Subtract an amount equal to the total value of the plus location adjustments applicable pursuant to § 1036.75;

(d) Add an amount equal to one-half the unobligated balance in the producer settlement fund;

(e) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1036.60(e);

(f) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "weighted average price," and, except for the months specified below, shall be the "uniform price" for milk received from producers;

(g) For the months specified in paragraphs (h) and (i) of this section, subtract from the amount resulting from the computations pursuant to paragraphs (a) through (d) of this section an amount computed by multiplying the hundredweight of milk specified in paragraph (e)(2) of this section by the weighted average price;

(h) Subtract for each of the months of April, May, June, and July the amount obtained by multiplying the hundredweight of producer milk specified in paragraph (e)(1) of this section by a rate that is equal to 6 percent of the average basic formula price (computed to the nearest cent) for the preceding calendar year but not to exceed 25 cents;

(i) Add for each of the months of September, October, and November one-fourth of the total amount subtracted pursuant to paragraph (h) of this section for the preceding period of April through July, and add for the month of December the remainder of such total amount plus any interest earned on such total amount;

(j) Divide the amount resulting from the computations pursuant to paragraphs (g), (h), and (i) of this section by the hundredweight of producer milk specified in paragraph (e)(1) of this section; and

(k) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

§ 1036.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce on or before:

(a) The fifth day of each month, the butterfat differential for the preceding month; and

(b) The 14th day of each month, the uniform price for the preceding month.

Payments for Milk

§ 1036.70 Producer-settlement fund.

(a) The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which

§ 1036.71, 1036.72, 1036.77, 1036.85, and

V37-231 NOV 30 72 XUM

he shall deposit all payments pursuant to §§ 1036.71 and 1036.76 and out of which he shall make all payments pursuant to § 1036.72: *Provided*, That the market administrator shall offset the payments due to a handler against payments due from such handler.

(b) All amounts subtracted pursuant to § 1036.61(b) shall be deposited in the producer-settlement fund and set aside as an obligated balance until withdrawn for the purpose of effectuating § 1036.61(i).

§ 1036.71 Payments to the producer-settlement fund.

(a) On or before the 16th day after the end of the month, each handler shall pay to the market administrator the amount if any, by which the amount specified in subparagraph (1) of this paragraph exceeds the amount specified in suoparagraph (2) of this paragraph:

(1) The net pool obligation pursuant to § 1036.60 for such handler; and

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1036.75, of such handler's receipts of producer milk; and

(ii) The value at the weighted average price applicable at the location of the plants from which received of other source milk for which a value is computed pursuant to § 1036.60(e).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in subparagraph (1) of this paragraph to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1036.72 Payments from the producer-settlement fund.

On or before the 17th day after the end of each month, the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1036.71(a)(2) exceeds the amount computed pursuant to § 1036.71(a)(1). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the funds are available.

§ 1036.73 Payments to producers and to cooperative associations.

(a) Except as provided in paragraph (b) of this section, each handler shall make payment for producer milk as follows:

(1) On or before the last day of the month, to each producer who has not discontinued delivery of milk to such handler, not less than the amount determined by multiplying the pounds of producer milk received from such producer during the first 15 days of the month by the Class III price for the preceding month, without adjustment for butterfat content, less proper deductions authorized by the producer; and

(2) On or before the 18th day after the end of the month, to each producer not less than the amount determined by multiplying the pounds of producer milk received from such producer during the month by the uniform price as adjusted pursuant to §§ 1036.74 and 1036.75, less the following amounts:

(i) The payment made pursuant to subparagraph (1) of this paragraph for such month;

(ii) Proper deductions authorized by the producer;

(iii) Any marketing service deduction pursuant to § 1036.86; and

(iv) If before such date the handler has not received full payment from the market administrator pursuant to § 1036.72 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payment to producers shall be completed thereafter not later than the date for making payments pursuant to this subparagraph next following after receipt of the balance due from the market administrator.

(b) Upon receipt of a written request from a cooperative association which the Secretary determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association, each handler shall pay to the cooperative association for producer milk received from such members an amount equal to the sum of the individual payments otherwise payable to such producers pursuant to subparagraph (1) or (2), as the case may be, of paragraph (a) of this section. Such payment shall be made on or before the second day prior to the date specified in such applicable subparagraph. Payments under this paragraph shall be subject to the following conditions:

(1) Each handler shall submit to the cooperative association with such payments written information which shows for each such producer:

(i) The total pounds of milk received from him during the period for which the payment applies;

(ii) With respect to the payment described in paragraph (a)(2) only of this section, the total pounds of butterfat contained in such milk;

(iii) The number of days on which milk was received; and

(iv) The amount of any deductions authorized by the producer;

(2) Payments to a cooperative association and the submission of information by handlers pursuant to this paragraph shall be made with respect to that milk of each producer whom the cooperative association certifies is a member which is received on and after the first day of the calendar month next following the receipt of such certification through the last day of the month next preceding the receipt of a notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the cooperative association; and

(3) A copy of each such request, promise to reimburse, and certified list, of members shall be filed simultaneously with the market administrator by the cooperative association and shall be subject to verification at his discretion through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination.

(c) On or before the 15th day after the end of each month, each handler shall pay a cooperative association at not less than the class prices adjusted pursuant to §§ 1036.52 and 1036.74 for milk which he receives:

(1) By transfer or diversion from a pool plant operated by such cooperative association; or

(2) From such cooperative association in its capacity as a handler pursuant to § 1036.9(c), if such cooperative association also operates a pool plant.

§ 1036.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent at a rate (rounded to the nearest one-tenth cent) determined by multiplying the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month by 0.115.

§ 1036.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price for producer milk received at a plant shall be adjusted according to the location of such plant at the rates set forth in § 1036.52.

(b) The weighted average price applicable to other source milk shall be subject to the same adjustments applicable to the uniform price, except that the weighted average price shall not be less than the Class III price.

§ 1036.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay to the market administrator for the pro-

ducer-settlement fund on or before the 25th day after the end of the month either of the amounts (at the handler's election) calculated pursuant to paragraph (a) or (b) of this section. If the handler fails to report pursuant to §§ 1036.30 and 1036.31(b) the information necessary to compute the amount specified in paragraph (a) of this section, he shall pay the amount computed pursuant to paragraph (b) of this section:

(a) An amount computed as follows:

(1) The obligation that would have been computed pursuant to § 1036.60 at such plant shall be determined as though such plant were a pool plant, subject to the following modifications:

(i) Receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant;

(ii) Transfers from such nonpool plants to a pool plant or other order plant shall be classified as Class II or Class III milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. No obligation shall apply to Class I milk transferred to a pool plant or an other order plant if such Class I utilization is assigned to receipts at the partially regulated distributing plant from pool plants and other order plants at which such milk was classified and priced as Class I milk. There shall be included in the obligation so computed a charge in the amount specified in § 1036.60(e) and a credit in the amount specified in § 1036.71(a)(2)(ii) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified below in subdivision (iii) of this subparagraph;

(iii) If the operator of the partially regulated distributing plant so requests, and provides with his report pursuant to § 1036.30 a similar report for each nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1036.7 (b) and (c), with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports, there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

(2) From this obligation, deduct the sum of;

(i) The gross payments made by such handler for milk (adjusted to a 3.5-percent butterfat basis pursuant to § 1036.74) received during the month from dairy farmers at such plant and like payments made by the operator of a supply plant(s) included in the computations pursuant to subparagraph (1) of this paragraph; and

(ii) Payments to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant.

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat in the plant's route disposition in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received at the plant;

(i) As Class I milk from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act; and

(ii) From a nonpool plant that is not an other order plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such nonpool plant by handlers fully regulated under this or any other order issued pursuant to the Act is classified and priced as Class I milk and is not used as an offset on any other payment obligation under this or any other order;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area;

(4) Multiply the remaining pounds by the difference between the Class I price and the weighted average price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in subparagraph (3) of this paragraph by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

§ 1036.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in moneys due the market administrator from such handler, due such handler from the market administrator, or due any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due, and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

§ 1036.78 Charges on overdue accounts.

Any unpaid obligation of a handler or of the market administrator pursuant to §§ 1036.71, 1036.72, 1036.77, 1036.85, and 1036.86 shall be increased one-half of 1 percent on the first day of the calendar month next following the due date of such obligation, and on the first day of each calendar month thereafter until such obligation is paid.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1036.85 Assessment for order administration.

As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 16th day after the end of the month 3 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk (including such handler's own production);

(b) Other source milk allocated to Class I pursuant to § 1036.44(a) (7) and (12) and the corresponding steps of § 1036.44(b), except such other source milk on which no handler obligation applies pursuant to § 1036.60(e); and

(c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1036.76(b)(2).

§ 1036.86 Deduction for marketing services.

(a) Except as provided in paragraph (b) of this section, each handler in making payments for producer milk received during the month shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe (except on such handler's own farm production) and shall pay such deductions to the market administrator not later than the 16th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of producer milk and to provide producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers for whom a cooperative association is performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 16th day after the end of each month, pay over such deductions to the association rendering such services.

Effective date: January 1, 1973.

Signed at Washington, D.C., on November 24, 1972.

RICHARD E. LYNG,
Acting Secretary.

[FR Doc.72-20553 Filed 11-29-72;8:48 am]

V 37-231 NOV 30 72 XUM

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1464—TOBACCO

Subpart A—Tobacco Loan Program

There was published in the FEDERAL REGISTER (37 F.R. 21956, October 17, 1972; 37 F.R. 22883, October 26, 1972; 37 F.R. 23456, November 3, 1972) a notice of proposed rule making setting forth the proposed price support advance rates for 1972 crop fire-cured, dark air-cured, and Virginia sun-cured tobacco. The proposed schedule of advance rates for dark air-cured tobacco, due to an inadvertent omission in the footnote, failed to provide advance rates for tobacco of 47 length. In past years, the footnote has included a provision that the advance rates for grades of 47 length shall be the same as those for such grades of 46 length. A level of support at the same rate was intended for the 1972 crop.

Interested parties were given the opportunity to submit within 30 days data, views, and recommendations regarding the proposed advance rates. No unfavorable comments have been received, and the proposed schedules of advance rates, with correction of the footnote for the dark air-cured schedule, are hereby adopted and are set forth below. The material previously appearing under the section numbers shown below remains applicable to the crop to which each refers.

Effective date: Date of filing with the Office of the Federal Register.

Signed at Washington, D.C. on November 22, 1972.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

Sec.
1464.17 1972 Crop—Virginia Fire-cured tobacco, Type 21, advance schedule.
1464.18 1972 Crop—Kentucky-Tennessee Fire-cured tobacco, Types 22 and 23, advance schedule.
1464.19 1972 Crop—Dark air-cured tobacco, Types 35 and 36, advance schedule.
1464.20 1972 Crop—Virginia Sun-cured, Type 37, advance schedule.

AUTHORITY: The provisions of §§ 1464.17–1464.20 issued under sec. 4, 62 Stat. 1070, as amended, sec. 5, 62 Stat. 1072, secs. 101, 106, 401, 403, 63 Stat. 1051, as amended, 1054, 74 Stat. 6; 7 U.S.C. 1441, 1445, 1421, 1423, 15 U.S.C. 714b, 714c.

§ 1464.17 1972 crop—Virginia Fire-cured tobacco, Type 21—advance schedule.[1]

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 71—GENERAL PROVISIONS

Cleaning and Disinfecting Requirements

Pursuant to the provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended and the Act of July 2, 1962 (21 U.S.C. 111–113, 114, 114a–1, 115–117, 120–126, 134b), § 71.6(a) of Part 71, Title 9, Code of Federal Regulations, is hereby amended in the following respect:

That portion of the text of § 71.6(a) preceding the colon is amended to read as follows:

§ 71.6 Carrier responsible for cleaning and disinfecting of railroad cars, trucks, boats, aircraft or other means of conveyance.

(a) Railroad cars, trucks, boats, aircraft, and other means of conveyance which have been used in the interstate transportation of cattle, sheep, swine, poultry, or other animals affected with, or carrying the infection of, any contagious, infectious, or communicable disease of livestock or poultry, other than slight unopened cases of actinomycosis or actinobacillosis (or both), atrophic rhinitis, bovine foot rot, ram epididymitis, ringworm, infectious keratitis, and arthritis (simple lesions only), shall be cleaned and disinfected under Veterinary Services supervision in accordance with §§ 71.7 and 71.10–71.12 at the point where the animals are unloaded and the final carrier shall be responsible for such cleaning and disinfecting:

* * * * * *

(Secs. 4–7, 23 Stat. 32, as amended; secs 1 and 2, 32 Stat. 791, as amended; secs 1–4, 33 Stat. 1264, 41 Stat. 699, as amended; sec. 11, 58 Stat. 734, as amended, sec. 13, 65 Stat. 693, as amended; sec. 3, 76 Stat. 130; 21 U.S.C. 111–114, 114a, 114a–1, 114g, 115–117, 120, 121–126, 134b; 29 F.R. 16210, as amended, 36 F.R. 20707, 21529, 21530, 37 F.R. 6327, 6505)

Effective date. The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER (11–30–72).

The amendment deletes the condition in § 71.6 of the regulations that means of conveyance be "again used for animals" before the cleaning and disinfecting requirements of § 71.6 are applicable. This

V 37-231 NOV 30 72 XUM

condition imposes a restriction upon the enforceability of these requirements that is detrimental to efforts to prevent the interstate spread of livestock diseases, and should be deleted as soon as possible for protection of the livestock industry. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and public participation in connection with this amendment are impracticable and contrary to the public interest and good cause is found for making the amendment effective less than 30 days after its publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 24th day of November 1972.

G. H. WISE,
Acting Administrator,
Animal and Plant Health Service.

[FR Doc.72-20589 Filed 11-29-72;8:51 am]

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Regs. G, T, U]

MAXIMUM LOAN VALUE OF STOCKS

PART 207—SECURITIES CREDIT BY PERSONS OTHER THAN BANKS, BROKERS, OR DEALERS

Parts 207, 220, and 221 of Title 12 are amended as follows:

1. Effective November 24, 1972, § 207.5 (a) (the Supplement to Regulation G) is amended to read as follows:

§ 207.5 Supplement.

(a) *Maximum loan value of margin securities.* For the purpose of § 207.1, the maximum loan value of any margin security, except convertible securities subject to § 207.1(d), shall be 35 percent of its current market value, as determined by any reasonable method.

* * * * *

PART 220—CREDIT BY BROKERS AND DEALERS

2. Effective November 24, 1972, § 220.8 (a) (1) and (d) (the Supplement to Regulation T) is amended to read as follows:

§ 220.8 Supplement.

(a) *Maximum loan value for general accounts.* The maximum loan value of securities in a general account subject to § 220.3 shall be:

(1) Of a registered nonequity security held in the account on March 11, 1968, and continuously thereafter, and of a margin equity security (except as provided in § 220.3(c) and paragraphs (b) and (c) of this section), 35 percent of the current market value of such securities.

* * * * *

(d) *Margin required for short sales.* The amount to be included in the adjusted debit balance of a general account, pursuant to § 220.3(d)(3), as margin required for short sales of securities (other than exempted securities) shall be 65 percent of the current market value of each security.

* * * * *

PART 221—CREDIT BY BANKS FOR THE PURPOSE OF PURCHASING OR CARRYING MARGIN STOCKS

3. Effective November 24, 1972, § 221.4 (a) (the Supplement to Regulation U) is amended to read as follows:

§ 221.4 Supplement.

(a) *Maximum loan value of stocks.* For the purpose of § 221.1, the maximum loan value of any stock, whether or not registered on a national securities exchange, shall be 35 percent of its current market value, as determined by any reasonable method.

* * * * *

4a. These amendments are issued pursuant to section 7 of the Securities Exchange Act of 1934 (15 U.S.C. 78g). The changes are to raise the margin requirements for purchasing or carrying stocks, and for short sales, from 55 to 65 percent.

b. The requirements of section 553 of Title 5, United States Code, with respect to notice, public participation, and deferred effective date were not followed in connection with these amendments because following such requirements would have prevented the Board's action from becoming effective as promptly as necessary in the public interest.

By order of the Board of Governors, November 22, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.72-20602 Filed 11-29-72;8:52 am]

Chapter VII—National Credit Union Administration

PART 749—RECORDS PRESERVATION PROGRAM

On pages 19387–19388 of the September 20, 1972, edition of the FEDERAL REGISTER, there was published a notice of proposed rule making to establish a new Part 749 (12 CFR Part 749).

After reviewing and considering comments received from interested parties, the proposed regulations, subject to the following changes, are hereby adopted as set forth below.

1. In § 749.0(a), line 10, after the word "any" insert "federally insured".

2. In § 749.0(b), line 4, after the word "which" insert "federally".

3. In § 749.1(g), line 2, after the word "location" insert "selected by the board of directors".

4. In § 749.2(a), line 7, add the following sentence: "However, the responsibility for an off-site records preservation program may be delegated by the treasurer, subject to the approval of the board of directors, to the person who manages the day-to-day operations of the credit union."

5. In § 749.2(c), line 17, change "monthly" to "quarterly".

6. In § 749.2(c), lines 18 and 25, change "15th" to "30th".

7. In § 749.2(d), lines 10–11, change "board of directors" to "supervisory committee".

8. In § 749.3(a)(1), line 7, after the word "number" insert "is".

9. In § 749.3(a)(3)(i), line 2, change "included" to "include".

10. In § 749.3(b), lines 11–12, delete the words "a detailed listing of all investments".

11. In § 749.3(b), line 17, add the following sentences: "There shall be attached to the financial and statistical report a detailed listing of all investments. Should a majority of the listed investments remain constant, it will not be necessary for a new list to be included with each financial and statistical report. An update of the initial list will suffice: *Provided*, Such update accurately reflects the status of the credit union's investments."

12. In § 749.4(f)(4), line 4, and in § 749.4(h)(3), line 2, change "Huchinson" to "Hutchinson".

Effective date. This regulation is effective January 1, 1973.

HERMAN NICKERSON, JR.,
Administrator.

NOVEMBER 22, 1972.

Sec.
749.0 Scope.
749.1 Definitions.
749.2 Implementation.
749.3 Vital records to be stored.
749.4 Storage service provided by Administration.

AUTHORITY: The provisions of this Part 749 issued under sec. 120, 73 Stat. 635, 12 U.S.C. 1766; sec. 209, 84 Stat. 1015, 12 U.S.C. 1789.

§ 749.0 Scope.

(a) This part establishes the minimum requirements with which all federally insured credit unions shall comply in a records preservation program of off-site storage for duplicate vital records which will be used for reconstruction purposes in the event of a catastrophe. Storage of duplicate vital records above the minimums set forth below may be undertaken by any federally insured credit union shall comply.

(b) This regulation prescribes the duplicate vital records which shall be stored, the frequency of storage, and sets time limits within which federally insured credit unions shall comply.

§ 749.1 Definitions.

(a) "Catastrophe" means any act which incapacitates a credit union's ability to operate because vital records have been destroyed or made useless, making it impossible to carry on operations.

(b) "Credit Union" means a Federal or State credit union whose members' shares and deposits are insured by the Administrator of the National Credit Union Administration.

(c) "EDP" means an electronic data processing system which is used to maintain the members' share and loan ledgers.

(d) "Hard copy" means any duplicate records other than those which are on microfilm or magnetic tape.

(e) "Magnetic tape" means a thin plastic tape mounted on reels which receives and stores magnetic impressions of information.

(f) "Microfilm" means a film containing photographs of data from vital records.

(g) "Sufficiently removed" means an off-site location selected by the board of directors far enough from the credit union to avoid a simultaneous loss of both the credit union records and the records it stores at the Vital Records Center from a single catastrophe such as a flood, hurricane, earthquake, etc.

(h) "Quarterly" means any 3-month period.

(i) "Reconstruction" means rebuilding the credit union's books and records utilizing information from duplicate vital records stored in an off-site location.

(j) "Records preservation program" means a program for identifying vital records, storing duplicate copies thereof in an off-site facility, and making them available for reconstruction in the event of a catastrophe.

(k) "Vital Records Center" is the off-site location where the credit union's duplicate vital records are stored.

(l) "Record date" means the effective date of the vital records that will be stored.

§ 749.2 Implementation.

(a) The treasurer of the credit union, subject to the general direction and control of the board of directors, is responsible for developing, maintaining, and operating an off-site records preservation program which equals or exceeds the requirements of this regulation. However, the responsibility for an off-site records preservation program may be delegated by the treasurer, subject to the approval of the board of directors, to the person who manages the day-to-day operations of the credit union.

(b) Any storage center may be selected as a Vital Records Center provided the center is sufficiently removed from the location of the credit union.

(c) The records preservation program must be developed within 4 months of the effective date of this regulation or 4 months after the effective date of the credit union's share insurance certificate, whichever is later. The treasurer shall have the initial set of duplicate vital records at the Vital Records Center not later than 6 months from the effective date of this regulation, or not later than 6 months after the effective date of the credit union's share insurance certificate, whichever is later. Thereafter, the treasurer of a credit union using EDP facilities shall prepare and send duplicate vital records to the Vital Records Center on a quarterly basis to be mailed no later than the 30th day of the following month. The treasurer of each credit union which is not using EDP facilities to maintain its members' share and/or deposit and loan balances shall prepare and send duplicate vital records to the Vital Records Center on a quarterly basis to be mailed by the 30th day of the following month.

(d) The treasurer shall maintain a record, to be known as the records preservation log, of the duplicate vital records sent to the Vital Records Center. The log shall contain a description of the records sent to the center, the date they were sent, and the address of the center. The treasurer should sign and date the log each time the records have been sent to the center. The supervisory committee shall review this log at least quarterly.

§ 749.3 Vital records to be stored.

Duplicates of at least the records described in this section will be prepared and sent to the Vital Records Center in accordance with the schedule described in this regulation. Duplicates of the most recent monthend records will be used to commence the program. A magnetic tape or microfilm which contains at least the same information as the vital records may be substituted for any of the following records:

(a) A listing of the members' share and/or deposit and loan balances as of the record date. This list shall be handwritten or typewritten and in columnar form.

(1) Member's Account Number: That is, the number assigned by the credit union to the account. If the credit union uses another number (payroll number, badge number, etc.) for day-to-day operations, the credit union may choose which number is to be used.

(2) Share and/or Deposit Balance: This will include balances of regular and special share and deposit accounts, and balances of installment payments on U.S. bonds.

(3) Loan Balance: If more than one loan for a borrower is outstanding, each balance shall be listed separately.

(i) Credit unions are encouraged to also include in columnar form the account name and address of all owners, trustees, and/or beneficiaries, etc. Because of the possible workload involved, listing of account names and addresses is optional.

(ii) Instead of a handwritten or typewritten listing of members' share and/or deposit and loan balances, an adding machine or accounting machine tape, showing the balances, identified by account numbers, may be stored.

(b) A financial and statistical report as of the record date. The report shall include at least a list of all asset and liability accounts as of the record date. The reverse side of the form will be used to record significant data about the credit union. This data will include the names and addresses of the credit union's banks, location of safe-deposit boxes and other places where records are stored, a detailed listing of all investments, breakdown of pertinent other asset accounts, and a list of insurance policies such as fire, casualty, life savings and borrowers protection, surety bond, etc., with the names and addresses of the insurers. There shall be attached to the financial and statistical report a detailed listing of all investments. Should a majority of the listed investments remain constant, it will not be necessary for a new list to be included with each financial and statistical report. An update of the initial list will suffice, *Provided* Such update accurately reflects the status of the credit union's investments.

(c) Credit Union's Utilizing EDP—An insured credit union which maintains its members' share and/or deposit and loan ledgers on a data processing system, if the computer center is sufficiently removed from the credit union, shall be deemed to have met the requirements of this regulation regarding the storage of members' share and/or deposit and loan balances.

§ 749.4 Storage service provided by Administration.

In order to comply with this regulation, insured credit unions may choose to participate in the Administration's records preservation program at no cost for storage. To participate in this program, insured credit unions shall follow the instructions outlined below:

(a) Credit unions may store hard copy, magnetic tape, and microfilm records.

(b) Credit unions shall use preprinted envelopes or labels which are provided by the storage facility each time records are received for storage.

(c) Credit unions shall fill out all required information on the appropriate mailing envelope or label. Federal credit unions shall furnish charter number; insured State credit unions shall furnish insurance certificate number.

(d) Credit unions which desire to store records permanently shall so note (in large red letters) on the envelope or mailing label provided. If records are not marked "Permanent," except for magnetic tape, they will be destroyed when replacement records are received. Unmarked magnetic tape will be returned to said credit union annually for reuse.

(e) All duplicate records shall be packaged securely for mailing.

(f) Specific information for:

(1) *Hard copy records.* Material shall be no larger than 8½" x 11" so that envelop will fit into the designated storage drawer. If material is too bulky to fit into the envelope, the material should be wrapped securely with the envelope, address side up, placed on top of the package and tied for mailing. Envelopes will not be opened by the storage center.

(2) *Microfilm.* Place the microfilm inside the container in which the film is returned after developing. Microfilm will be filed in a storage tray with only the top visible; therefore, affix to the top of the container the "Microfilm or Magnetic Tape Records" label furnished.

V 37-231 NOV 30 72 XUM

Fold the label where indicated and affix to the container so that it is positioned on two sides.

(3) *Magnetic tape.* Prepare in same manner as microfilm, affixing label without folding.

(4) *Mailing.* Mail directly to the Administration's storage location at:

Underground Vaults & Storage, Inc., Post Office Box 1723, Hutchinson, KS 67501.

(g) Release of records to credit unions—in the event of a local emergency, records will be released directly from the storage center to the credit union by written request signed by any one of the authorized officials whose signature appears on the envelope or mailing label.

(h) In the event of a national emergency (only) the authorized official's written request for release of records should be addressed to one of the following sources in the order of priority listed:

(1) Regional Office of the National Credit Union Administration.

(2) Washington Office of the National Credit Union Administration.

(3) Underground Vaults & Storage, Inc., Post Office Box 1723, Hutchinson, KS 67501.

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Rev. 12]

PART 121—SMALL BUSINESS SIZE STANDARDS

Revision 12 of Part 121 rescinds Revision 11, including Amendments 1 through 10, of the Code of Federal Regulations. In addition to incorporating the amendments to Revision 11, this revision revises the Census Classification and/or Industry or subindustry codes contained in Schedule B of §121.3-8 and Schedules A, C, D, and F of § 121.3-10 so that they are in conformity with the current Standard Industrial Classification Manual (1972) which supersedes Standard Industrial Classification Manual (1967). Finally, § 121.3-8(f)(3) and § 121.3-10 (f)(4) have been reworded to clarify the meaning thereof.

Part 121 of Chapter I of Title 13 of the Code of Federal Regulations is hereby revised as follows:

Sec.
121.3 Statutory provision.
121.3-1 Purpose and method of establishing size standards.
121.3-2 Definition of terms used in this part.
121.3-3 Organization—size functions.
121.3-4 Size determinations.
121.3-5 Protest of small business status.
121.3-6 Appeals.
121.3-7 Differentials.
121.3-8 Definition of small business for Government procurement.
121.3-9 Definition of small business for sales of Government property.
121.3-10 Definition of small business for SBA loans.
121.3-11 Definition of small business for assistance by small business investment companies or by development companies.
121.3-12 Definition of small business Government subcontractors.
121.3-13 Definition of small business for the purpose of lease guarantee.
121.3-14 Definition of small business for the purpose of Government leases of uranium prospecting or mining rights.
121.3-15 Definition of small business for the purpose of surety bond guarantee assistance.
121.3-16 Interpretations.

AUTHORITY: The provisions of this Part 121 issued under Public Law 85-536, sec. 5(b)6, 72 Stat. 385, as amended.

§ 121.3 Statutory provisions.

(a) *Small Business Act, as amended.*

SEC. 3. For the purpose of this Act, a small business concern shall be deemed to be one which is independently owned and operated and which is not dominant in its field of operation. In addition to the foregoing criteria the Administrator, in making a detailed definition, may use these criteria, among others. Number of employees and dollar volume of business. Where the number of employees is used as one of the criteria in making such definition for any of the purposes of this Act, the maximum number of employees which a small business concern may have under the definition shall vary from industry to industry to the extent necessary to reflect differing characteristics of such industries and to take proper account of other relevant factors.

. . . . . .

SEC. 8(b). It shall also be the duty of the Administration and it is hereby empowered, whenever it determines such action is necessary—

. . . . . .

(6) To determine within any industry the concerns, firms, persons, corporations, partnerships, cooperatives, or other business enterprises which are to be designated "small business concerns" for the purpose of effectuating the provisions of this Act. To carry out this purpose the Administrator, when requested to do so, shall issue in response to each such request an appropriate certificate certifying an individual concern as a "small business concern" in accordance with the criteria expressed in this Act. Any such certificate shall be subject to revocation when the concern covered thereby ceases to be a "small business concern." Offices of the Government having procurement or lending powers, or engaged in the disposal of Federal property or allocating materials or supplies, or promulgating regulations affecting the distribution of materials or supplies, shall accept as conclusive the Administration's determination as to which enterprises are to be designated "small business concerns," as authorized and directed under this paragraph.

(b) *Small Business Investment Act of 1958, as amended.*

SEC. 103. As used in this Act—

. . . . . .

(5) The term "small business concern" shall have the same meaning as in the "Small Business Act."

. . . . . .

§ 121.3-1 Purpose and method of establishing size standards.

(a) *Purpose.* This part defines "small business concerns" and establishes standards, criteria, and procedures to determine which concerns are "small business concerns" within the meaning of the Small Business Act, as amended (hereinafter referred to as the "Act") and the Small Business Investment Act of 1958, as amended (hereinafter referred to as the "Investment Act").

(b) *Method of establishing size standards—(1) Use of Standard Industrial Classification Manual.* The Standard Industrial Classification (SIC) Manual, as amended, prepared and published by the Bureau of the Budget (now Office of Management and Budget), Executive Office of the President, will be used by SBA as a guide in defining industries. Its use therefore is advisory and not mandatory.

(2) *Size standards policy.* (i) The fundamental purpose of Small Business Administration assistance is to preserve free competitive enterprise by strengthening the competitive position of small business concerns.

(ii) It is the Small Business Administration's view that, in the absence of proof to the contrary, there is a segment of each industry wherein concerns by reason of their small size are at a competitive disadvantage. Therefore, the definition of small business for each industry should be limited to that segment of the industry struggling to become or remain competitive.

(iii) Smaller concerns often are forced to compete with middle-sized as compared with very large concerns. In consideration of this fact, the standard for each industry should be established as low as reasonably possible. It should be lowered in any case where the SBA determines that a few concerns under the size standard umbrella have, because of their size, gained undue competitive strength as compared with other concerns under the umbrella.

(iv) It is the Small Business Administration's view that concerns which, with or without assistance under the Small Business Act, have grown to a size which exceeds the applicable small business size standard, should compete for Government contracts not reserved for small business concerns or should seek commercial markets in the same or related fields. Under such circumstances small business concerns should not rely on continuing assistance under the Small Business Act from the cradle to the grave, but should plan for the day on which they become other than small business and should be able to compete without assistance.

(3) *Factors in formulating size standards.* The following factors shall be considered in formulating industry size standards:

(i) Concentration of output; that is, the portion of the total output of an industry which is accounted for by a limited number of companies.

(ii) Coverage ratio; that is, the ratio of the industry's shipments of its primary products, to the total shipments by all industries of the primary products of the industry in question.

(iii) Specialization ratio; that is, the ratio of the industry's shipments of its primary products to its total shipments of primary and secondary products.

(iv) The total number of concerns in the industry.

(v) The size of industry leaders.

(vi) The SBA program for which the size standard is established.

In formulating industry size standards for the purpose of Government procurement, the additional factor of Government procurement history shall be used. The use of this additional factor may cause the size standards for the purpose of Government procurement and the size standards for the purpose of financial assistance to differ for the same industry.

(4) *Product classification.* For size standards purposes, a product or service shall be classified into only one industry, even though, for other purposes, it could be classified into more than one industry. In determining the SIC industry into which particular products shall be classified for size standard purposes, consideration shall be given to all appropriate factors including:

(i) Alphabetic indices published by the Office of Management and Budget, Executive Office of the President, Bureau of the Census, and the Business and Defense Services Administration.

(ii) Description of the product under consideration.

(iii) Previous Government procurements for the same or similar products, and

(iv) Published information concerning the nature of companies which manufacture such products.

A product or service shall be classified in the industry whose definition best describes the principal nature of the product or service being procured. The end use of a product does not govern the industry into which it is to be classified. In a borderline situation the product or service shall be classified in the industry whose size standard would best serve to accomplish the purposes of the Small Business Act. When a procurement is for two or more items with different size standards a bidder must qualify as a small business under the definition of a small business applicable to any item on which it bids. If a multi-item procurement requires the successful bidder to deliver all items and/or perform all services being procured the applicable size standard is that for the industry whose products or services account for the greatest proportion of the contract price.

(5) *Products classification decision.* The SBA Regional Director or his delegatee of the SBA region in which the principal office of the applicant, not including its affiliates, is located, shall determine the appropriate SIC classification, except that for procurement purposes the determination shall be made by the official specified in § 121.3-8, and for lease guarantee reinsurance purposes the determination shall be made by the Associate Administrator for Financial Assistance. Such determination shall be subject to appeal in the manner provided in § 121.3-6.

§ 121.3-2 Definition of terms used in this part.

(a) Affiliates: Concerns are affiliates of each other when either directly or indirectly (1) one concern (other than an investment company licensed under the Small Business Investment Act of 1958 or registered under the Investment Company Act of 1940, as amended), controls or has the power to control the other, or (2) a third party or parties (other than an investment company licensed under the Small Business Investment Act of 1958 or registered under the Investment Company Act of 1940, as amended), controls or has the power to control both. In determining whether concerns are independently owned and operated and whether or not affiliation exists, consideration shall be given to all appropriate factors, including common ownership, common management, and contractual relationships: *Provided, however,* That restraints imposed on a franchisee by its franchise agreement shall not be considered in determining whether the franchisor controls or has the power to control and, therefore, is affiliated with the franchisee, if the franchisee has the right to profit from his effort, commensurate with ownership, and bears the risk of loss or failure. Where a concern is a subcontractor pursuant to section 8(a)(2) of the Small Business Act and, in connection therewith, is the subject of a Divestiture Agreement approved by SBA for the benefit of socially or economically disadvantaged individuals, the receipts, employment, and other factors of the concern attributable to the section 8(a)(2) subcontract shall not be included in determining the size of either concern during the term of such divestiture agreement. Other contracts and business of such subcontractor may also be excluded in determining the size if, in the judgment of SBA, substantial beneficiaries of such other contracts and business will be the socially or economically disadvantaged individuals in question.

(b) "Annual receipts" means the gross income (less returns and allowances, sales of fixed assets, and interaffiliate transactions) of a concern (and its domestic and foreign affiliates) from sales of products and services, interest, rents, fees, commissions, and/or from whatever other source derived, as entered on its regular books of account for its most recently completed fiscal year (whether on a cash, accrual, completed contracts, percentage of completion, or other acceptable accounting basis) and, in the case of a concern subject to U.S. Federal income taxation, reported or to be reported to the U.S. Treasury Department, Internal Revenue Service, for Federal income tax purposes. If a concern has been in business less than a year its annual receipts shall be computed by determining its average weekly receipts for the period in which it has been in business and multiplying such figure by 52. Except as set forth in § 121.3-10, if a concern has acquired an affiliate during the applicable accounting period it is necessary in computing the applicant's annual receipts, to include the affiliates receipts during the entire applicable accounting period, rather than only its receipts during the period in which it has been an affiliate. The receipts of a former affiliate are not included even if such concern had been an affiliate during a portion of the applicable accounting period.

(c) "Appeal" means a written communication addressed to the Size Appeals Board requesting it to review a determination relating to a size matter made by a district director or his delegatee, or by a Contracting Officer.

(d) "Area of substantial unemployment," for the purpose of small business size determination, means a geographical area within the United States which:

(1) Is classified by the Department of Labor either as an "Area of Substantial Unemployment," or an "Area of Substantial and Persistent Unemployment," and such classification has been listed in that Department's publication "Area Labor Market Trends" continuously from September 15, 1961, until a size determination is made; or

(2) Is individually certified by the Department of Labor as an "Area of Substantial Unemployment" and has been eligible for such certification continuously since September 15, 1961. If an area has been removed from the publication, "Area Labor Market Trends," or if an area becomes ineligible for certification at any time, such area is excluded from the above definition and cannot be reinstated for the purpose of size determinations unless it is designated as a Redevelopment Area by the Department of Commerce. (See paragraph (u) of this section.)

(e) "Base maintenance" means furnishing at an installation within the several States, Commonwealth of Puerto Rico, Virgin Islands, the Trust Territory of the Pacific Islands, or the District of Columbia, three or more services which may include but are not limited to such maintenance activities as janitorial and custodial services, protective guard services, commissary services, base housing maintenance, fire prevention services, safety engineering services, messenger services, grounds maintenance and landscaping services, and air-conditioning and refrigeration maintenance: *Provided, however,* That whenever the contracting officer determines prior to the issuance of bids that the estimated value

V37-231 NOV 30 72 XUM

of one of the foregoing services constitutes more than 50 percent of the estimated value of the entire contract, the contract shall not be classified as base maintenance but in the industry in which such service is classified.

(f) "Bona fide feed stocks" means crude and any other hydrocarbon material actually charged to refinery processing units, as distinguished from materials used as components in products to be delivered after merely filtering, settling, or blending.

(g) "Crude-oil capacity" means the maximum daily average crude throughput of a refinery in complete operation, with allowance for necessary shutdown time for routine maintenance, repairs, etc. It approximates the maximum daily average crude runs to stills that can be maintained for an extended period.

(h) "Certificate of competency" means a certificate issued by SBA pursuant to the authority contained in section 8(b)(7) of the Act stating that the holder of the certificate is competent as to capacity and credit to perform a specific Government procurement or sales contract.

(i) "Concern" means any business entity organized for profit with a place of business located in the United States and which makes a significant contribution to the U.S. economy through payment of taxes and/or use of American products, material and/or labor, etc. "Concern" includes but is not limited to an individual, partnership, corporation, joint venture, association, or cooperative. For the purpose of making affiliation findings (see paragraph (a) of this section) any business entity, i.e., any entity located outside the United States, shall be included.

(j) "Contracting officer" means the person executing a particular contract on behalf of the Government and any other employee who is properly designated contracting officer; the term includes the authorized representative of a contracting officer acting within the limits of his authority.

(k) "Convalescent or nursing home" means those facilities for the accommodation of convalescents or other persons who are not acutely ill or not in need of hospital care but who may require nursing care and related medical services, which facility is privately owned and operated for the purpose of obtaining profits which shall inure to the benefit of its owners, stockholders, or members.

(l) "Department store" means a concern employing twenty-five (25) or more persons engaged in the retail sale of some items in each of the following merchandise lines: (1) Furniture, home furnishings, appliances, radio and television sets; (2) a general line of apparel for the family; and (3) household linens and dry goods: *Provided, however,* That sales within any one of the preceding merchandise lines do not exceed eighty percent (80%) of the concern's total sales and the aggregate of such merchandise lines account for at least fifty percent (50%) of the concern's total sales.

(m) "Forest products industry" as used in § 121.3-9(b) means logging, wood preserving, and the manufacture of lumber and wood related products such as veneer, plywood, hardboard, particle board, or wood pulp, and of products of which lumber or wood related products are the principal raw material.

(n) "Gross leasable area" means the total floor area designed for tenant occupancy and exclusive use, including basements, mezzanines, and upper floors, if any, expressed in square feet measured from the centerline of a joint partition and from outside wall faces.

(o) "Hospital" means a health facility duly licensed as a hospital providing inpatient medical or surgical care of the sick or injured, including obstetrics, which facility is privately owned and operated for the purpose of obtaining profits which shall inure to the benefits of its owner, stockholders, or members.

(p) "Industry" means a grouping of establishments primarily engaged in similar lines of activity as listed and described in the Standard Industrial Classification Manual, as amended (SIC Manual), prepared and published by the Bureau of the Budget (now Office of Management and Budget), Executive Office of the President.

(q) "Medical and dental laboratory" means those facilities which provide services to doctors, dentists, hospitals, and similar health facilities, which facilities are privately owned and operated for the purpose of obtaining profits which shall inure to the benefit of its owners, stockholders, or members

(r) "Nonmanufacturer" means any concern which, in connection with a specific Government procurement contract, other than a construction or service contract, does not manufacture or produce the products required to be furnished by such procurement. Nonmanufacturer includes a concern which can manufacture or produce the products referred to in the specific procurement but does not do so in connection with that procurement.

(s) A concern is "not dominant in its field of operation" when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(t) "Number of employees" means the average employment of any conecrn, including the employees of its domestic and foreign affiliates, based on the number of persons employed on a full-time, part-time, temporary, or other basis during the pay period ending nearest the last day of the third month in each calendar quarter for the preceding four quarters. If a concern has not been in existence for four full calendar quarters, "number of employees" means the average employment of such concern and its affiliates during the period such concern has been in existence based on the number of persons employed during the pay period ending nearest the last day of each month. If a concern has acquired an affiliate during the applicable accounting period it is necessary in computing the applicant's number of employees, to include the affiliates number of employees during the entire applicable accounting period rather than only its employees during the period in which it has been an affiliate. The employees of a former affiliate are not included even if such concern had been an affiliate during a portion of the applicable accounting period.

(u) "Protest" means a statement in writing from any bidder or offeror on a particular procurement or disposal (or from any other party interested therein) alleging that another bidder or offeror on such procurement is not a small business concern. Such statement shall contain the basis for the protest, together with specific detailed evidence in support of the protestant's claim. A protest received after the time limits set forth in § 121.3-5(a) shall be acted on but such determination shall not apply to the procurement in question.

(v) "Redevelopment area" for the purpose of small business size determinations means a geographical area within the United States which has been designated as a "redevelopment area" in accordance with the Public Works and Economic Development Act of 1965 (Public Law 89-136, sec. 401, 75 Stat. 48).

(w) "Shopping center" means a group of commercial establishments planned, developed, owned, and managed as a unit with offstreet parking provided on the property.

(x) "Size determination" means an SBA ruling, in writing, that a concern is or is not, or was or was not, a small business within the meaning of this part. An opinion rendered by SBA to a contracting officer on the basis of published or commonly known information and without the benefit of a formal SBA inquiry, is not a "size determination" as that term is used in this part.

(y) "United States" as used in this regulation includes the several States, the territories and possessions of the United States, the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, and the District of Columbia.

§ 121.3-3 Organization—size functions.

The Assistant Administrator for Planning, Research, and Analysis shall:

(a) Develop and recommend small business size standards to the Administrator of SBA for promulgation;

(b) Conduct industry hearings pertaining to size matters;

(c) In concert with the Office of General Counsel, issue interpretations of the Size Standards Regulation;

(d) Consider and take appropriate action on written petitions objecting to or requesting amendments or recision of a published size standard;

(e) Establish procedures for the implementation of all size programs; and

(f) Perform such other related functions as may be appropriate to administer the SBA size program.

§ 121.3-4 Size determinations.

Original size determinations shall be made by the Regional Director, or his delegatee, serving the region in which the principal office of the concern (not including its affiliates) whose size is in question is located, except that for lease guarantee reinsurance purposes such determinations shall be made by the Associate Administrator for Financial Assistance. The Regional Director, or his delegatee, or the Associate Administrator for Financial Assistance, promptly shall notify, in writing by certified mail, return receipt requested, the concern in question and other interested persons of his decision. Such determination shall be final unless appealed in the manner provided in § 121.3-6. For the purpose of Government procurements or sales a size determination shall be made only in the event of a protest pursuant to § 121.3-5, a request for a redetermination pursuant to § 121.3-15(e), a request for a Certificate of Competency, on request by the U.S. General Accounting Office, or if a Regional Director or his delegatee has information which causes him to question the size status of a concern for the purpose of the Small Business Subcontracting Program or Facilities Inventory Program or for any other purpose relating to Government procurement and he concludes that a size determination is necessary: *Provided however,* That a Regional Director or his delegatee may, whenever he deems such action necessary, determine the size status of a concern for the purpose of the Government Timber Sales Program.

§ 121.3-5 Protest of small business status.

(a) How to protest: Any bidder or offeror or other interested party may challenge the small business status of any other bidder or offeror on a particular procurement or disposal. Such challenge shall be made by delivering a protest to the contracting officer responsible for the particular procurement involved. Such protest must be filed prior to the close of business on the fifth day, exclusive of Saturdays, Sundays, and legal holidays, after bid or proposal opening, except that in the case of negotiated procurements, a protest may be filed by any other offeror or other interested party within five (5) days exclusive of Saturdays, Sundays, and legal holidays after receipt from the contracting officer of notification of the identity of the offeror being protested: *Provided, however,* That a protest received after such time shall be deemed to be timely for the purpose of the procurement in question, if, in the case of mailed protest, such protest is sent by registered or certified mail and the postmark thereon indicates that the protest would have been delivered within this time limit but for delays beyond the control of the protestant or, in the case of telegraphed protests, the telegram date and time line indicate that the protest would have been delivered within this time limit but for delays beyond the control of the protestant. Any contracting officer who receives a protest shall promptly forward such protest to the SBA district office serving the geographical area in which the principal office of the protested concern, not including its affiliates, is located. A contracting officer may at any time after bid opening question the small business status of any bidder or offeror for the purpose of a particular procurement by filing a protest with the SBA district office serving the area in which the principal office of the protested concern, not including its affiliates, is located. A protest by a contracting officer shall be timely for the purpose of the procurement in question whether filed before or after award.

(b) Notification of protest: Upon receipt of such protest, the SBA district director or his delegatee shall immediately notify the contracting officer and the protestant of the date such protest has been received and that the size of the concern being protested is being considered by SBA. The district director or his delegatee shall also advise the protested bidder or offeror of the receipt of the protest and shall forward to the protested bidder or offeror a copy of the protest and a blank SBA Form 355, Application for Small Business Size Determination, by certified mail, return receipt requested. Such bidder must, within three (3) working days after receipt of the copy of the protest and SBA Form 355, file the completed form as directed by SBA, and must attach thereto a statement in answer to the allegations of the letter of protest, together with evidence to support such position. If such bidder or offeror does not submit the completed SBA Form 355 within the filing period provided above, or within any additional period of time granted by SBA for cause, SBA will rule the protested concern is other than a small business.

(c) Notification of determination: After receipt of a protest and responses thereto, SBA shall determine the small business status of the protested bidder or offeror and, by certified mail, return receipt requested, notify the contracting officer, the protestant, and the protested bidder or offeror of its decision within 10 working days if possible.

(d) If SBA has determined that a concern is ineligible as a small business for the purpose of a particular procurement, it cannot thereafter become eligible for the purpose of such procurement by taking affirmative acts to constitute itself a small business.

§ 121.3-6 Appeals.

(a) *Organization.* The Size Appeals Board shall review appeals from size determinations made pursuant to §§ 121.3-4 and 121.3-5 and from product classifications made pursuant to §§ 121.3-8 and 121.3-10 and shall make final decisions as to whether such determinations or classifications should be affirmed, reversed, or modified. Size Appeals Board proceedings are essentially factfinding and nonadversary in nature. The Size Appeals Board shall conduct such proceedings as it determines appropriate to enable it to discharge its duties.

(1) The Size Appeals Board shall consist of five members, to wit: The Deputy Administrator (Chairman), the Associate Administrator for Procurement and Management Assistance (Vice Chairman), the Associate Administrator for Planning, Research and Analysis, and the Associate Administrator for Investment.

(2) Each member of the Size Appeals Board shall, in writing, designate one or more alternates to serve in his stead in the event of absence or disability. Each member or his alternate shall have one vote, except that the Chairman, or the Vice Chairman acting in his stead, shall vote only in the event of a tie.

(b) *Method of appeal*—(1) *Who may appeal.* An appeal may be filed by:

(i) Any concern or other interested party which has protested the small business status of another concern pursuant to § 121.3-5 and whose protest has been denied by a Regional Director or his delegatee;

(ii) Any concern or other interested party which has been adversely affected by a decision of a Regional Director or his delegatee or by the Associate Administrator for Financial Assistance pursuant to §§ 121.3-4 and 121.3-5;

(iii) Any concern or other interested party which has been adversely affected by a decision of a contracting officer regarding product classification pursuant to § 121.3-8; and

(iv) The Small Business Administration Associate Administrator for the Small Business Administration program involved.

(2) *Where to appeal.* Written notices of appeal shall be addressed to the Chairman, Size Appeals Board, Small Business Administration, Washington, D.C. 20416.

(3) *Time for appeal.* (i) An appeal from a size determination or product classification by a Regional Director, or his delegatee, may be taken at any time, except that because of the urgency of pending procurements, appeals concerning the small business status of a bidder or offeror in a pending procurement may be taken within five (5) days, exclusive of Saturdays, Sundays, and legal holidays, after receipt of a decision by a Regional Director or his delegatee. Unless written notice of such appeal is received by the Size Appeals Board before the close of business on the fifth day, the appellant will be deemed to have waived its rights of appeal insofar as the pending procurement is concerned.

(ii) An appeal from a product classification determination by a contracting officer may be taken: (a) Not less than 10 days, exclusive of Saturdays, Sundays, and legal holidays, before bid opening day or deadline for submitting proposals or quotations, in cases wherein the bid opening date or last date to submit proposals or quotations is more than 30 days after the issuance of the invitation for bids or request for proposals or quotations, or (b) not less than five (5) days,

Substantial Unemployment, or Under-

for more than one item and a bidder is

worldwide manufacture, (ii) the value of

V37-231 NOV 30 72 XUM

exclusive of Saturdays, Sundays, and legal holidays, before the bid opening day or deadline for submitting proposals or quotations, in cases wherein the bid opening date or last date to submit proposals or quotations is 30 or less days after the issuance of the invitation for bids or request for proposals or quotations, and

(iii) The timeliness of an appeal under subdivisions (i) and (ii) of this subparagraph shall be determined by the time of receipt of the appeal by the Size Appeals Board: *Provided, however,* That an appeal received after such time limits have expired shall be deemed to be timely and shall be considered if, in the case of mailed appeals, such appeal is sent by registered or certified mail and the postmark thereon indicates that the appeal would have been received within the requisite time limit but for delays beyond the control of the appellant, or in the case of telegraphed appeals, the telegram date and time line indicates that the appeal would have been received within the requisite time limit but for delays beyond the control of the appellant.

(4) *Notice of appeal.* No particular form is prescribed for the notice of appeal. However, the appellant shall submit to the Board an original and four legible copies of such notice and, to avoid time-consuming correspondence, the notice should include the following information:

(i) Name and address of concern on which the size determination was made;

(ii) The character of the determination from which appeal is taken and its date;

(iii) If applicable, the IFB or contract number and date, and the name and address of the contracting officer;

(iv) A concise and direct statement of the reasons why the decision of a Regional Director, or his delegatee, the Contracting Officer or the Associate Administrator for Financial Assistance is alleged to be erroneous;

(v) Documentary evidence in support of such allegations; and

(vi) Action sought by the appellant.

(c) *Notice to interested parties.* The Size Appeals Board shall promptly acknowledge receipt of the Notice of Appeal and shall send a copy of such Notice of Appeal to the appropriate Regional Director or his delegatee and to the Contracting Officer (if a pending procurement is involved). If the appellant is not the concern whose size status is in question, the Board shall also send a copy of the notice to such concern. The Board shall notify all known interested parties that the appeal has been filed. The Board in its discretion may also provide any of such interested parties with copies of applicant's Notice of Appeal, or parts thereof, when the Board determines that this would be in the interest of fairness or would assist it in the performance of its functions.

(d) *Statement of interested parties.* After an appeal has been filed, any other interested parties may file with the Board a signed statement, together with four legible copies thereof, as to why the appeal should or should not be denied. Such statement shall be accompanied by appropriate evidence. Such statements and supporting evidence shall be mailed or delivered to the Chairman, Size Appeals Board, Small Business Administration, Washington, D.C. 20416, within five (5) days of the receipt of appropriate notification of appeal or other action in the proceeding unless an extension is for cause granted by the Chairman of the Size Appeals Board. If the appellant is the concern whose size status is in question, the Board will provide copies of such statements and appropriate evidence submitted in connection with the appeal or a reconsideration thereof to such appellant.

(e) *Consideration by the Size Appeals Board.* (1) The Size Appeals Board shall consider the appeal on the written submission of the parties. The Board may also, in its discretion, conduct an oral inquiry. After consideration of all relevant information, the Board shall promptly render a decision which shall state the reason for such decision.

(2) *Procedures in oral inquiries.* In considering size appeals, and in reconsidering size appeals decisions, the Size Appeals Board may hold an oral inquiry to assist it in arriving at facts necessary in deciding the appeal. The following rules shall govern such oral inquiries:

(i) Oral inquiries may be held by the Size Appeals Board upon the request of any party to a size appeal or by the Board on its own motion. The Board will, in its discretion, determine whether an oral inquiry will be of assistance in its determination of a size appeal. The Board shall inform the party making a request for oral inquiry whether its request is granted. If the Board grants the request for an oral inquiry, it will so notify all other interested parties.

(ii) Oral inquiries held by the Board are investigative in nature and not adversary. Such inquiries shall be conducted informally in a manner which will facilitate the Board's factfinding function and insure fairness to all participants.

(iii) Whenever the Board permits the appearance of two or more parties before it in an oral inquiry, cross-examination shall not be permitted between or among such parties; however, any party appearing in such oral inquiry may suggest questions for the Board to direct to other parties which may assist the Board in its determination of relevant facts.

(f) *Decision of the Size Appeals Board.* The decision of the Size Appeals Board shall be predicated upon the entire record, and it shall state in writing the basis for its findings and conclusions. The Chairman shall promptly notify, in writing, the appellant and the other interested parties of the Board's decision together with the reasons therefor.

(g) *Reconsiderations.* (1) Following any decision in a size appeals case, an interested party, within no more than five (5) business days following the decision, may petition the Board for reconsideration upon presentation of appropriate justification therefor. The Petition for reconsideration to the Board may be in any form, with an original and four copies. The Board will notify interested parties that a Petition for reconsideration has been received.

(2) The Board shall consider the Petition for reconsideration upon the statement and other evidence presented by the petitioners and any other evidence the Board, in its discretion, deems necessary.

(3) Grounds for reconsideration: Grounds for reconsideration shall be:

(i) A material error of fact in the original decision; or

(ii) Relevant information not previously considered by the Board or relevant information not previously available to any of the parties involved;

(iii) When a request for reconsideration is made by any of the interested parties, such requesting party must demonstrate to the Board that the grounds for reconsideration involve facts or information which were not previously presented to the Board through no fault or omission of such party.

(4) If the Board denies the request for reconsideration, it shall notify all parties. If the request for reconsideration is granted, the Board shall so notify all interested parties, setting forth a reasonable time within which the interested parties may, if appropriate, submit additional information. The Board may, in its discretion, provide interested parties with copies of appropriate information submitted by other parties where it determines that this is necessary in the interest of fairness or to better assist the Board in performing its fact finding functions.

(5) Following its reconsideration of the matter, the Board will promptly render a decision pursuant to paragraph (f) of this section. The decision of the Board shall constitute the final administrative remedy afforded by this Agency.

§ 121.3–7 Differentials.

(a) *Alaska.* If an applicant for a size determination is a concern which has fifty percent (50%) or more of its annual sales or receipts attributable to business activity within Alaska then, whenever "annual sales or annual receipts" are used in any size definition contained in this part, said dollar limitation is increased by twenty-five percent (25%) of the amount set forth therein.

(b) *Substantial or persistent unemployment areas; areas of concentrated unemployment or underemployment; certified eligible concerns; and redevelopment areas—(1) Assistance under sections 7(a) and 8(a) of the Small Business Act.* Notwithstanding any other provision of this part, the applicable size standards for the purposes of assistance under sections 7(a) and 8(a) of the Act are increased by twenty-five percent (25%) whenever the concern maintains or operates a plant, facility, or other business establishment within an Area of

Substantial Unemployment or Underemployment or Redevelopment Area as defined in § 121.3–2(d) and (u) or is designated as a Certified Eligible concern by the Department of Labor and agrees to use the assistance within such area or, if it does not maintain a plant, facility, or other business establishment within such area, agrees to utilize the assistance for the establishment and/or operation of a plant, facility, or other business establishment within such area.

(2) *Small business investment companies and development companies.* Notwithstanding any other provision of this part, the size standard for a small business concern receiving assistance from a small business investment company or receiving assistance from a development company in connection with section 501 or section 502 loan is increased by twenty-five percent (25%) whenever such concern qualifies for a similar differential under subparagraph (1) of this paragraph.

(3) *Government procurement assistance, sales of Government property and Government subcontracting.* Except as is provided in subparagraphs (1) and (2) of this paragraph, this paragraph is not applicable to size determinations for the purpose of Government procurement assistance, sales of Government property or Government subcontracting.

§ 121.3–8 Definition of small business for Government procurement.

A small business concern for the purpose of Government procurement is a concern, including its affiliates, which is independently owned and operated, is not dominant in the field of operation in which it is bidding on Government contracts and can further qualify under the criteria set forth in this section. When computing the size status of a bidder or offerer, the number of employees, annual receipts, or other applicable standards of the bidder or offerer and all of its affiliates shall be included. In the submission of a bid or proposal on a Government procurement, a concern which meets the criteria provided in this section and which either has not been determined by SBA to be ineligible, or has been determined to be ineligible but subsequently has on the basis of a significant change in ownership, management or contractual relations, applied for recertification and had its application granted, may represent that it is a small business. In the absence of a written protest or other information which would cause him to question the veracity of the self-certification, the Contracting Officer shall accept the self-certification at face value for the particular procurement involved. If the contracting officer has cause to question the veracity of a self-certification and elects to do so, he shall refer the eligibility issue to SBA by filing a formal protest pursuant to § 121.3–5. If a procurement calls for more than one item and the bidder can bid on any or all items, the bidder must meet the size standard for each item for which it submits a bid. If the procurement calls for more than one item and a bidder is required to bid on all or none of such items, the bidder can qualify as small business for such procurement if it meets the size standard for the item accounting for the greatest percentage of the total contract value. The determination of the appropriate classification of a product or service shall be made by the contracting officer. Both classification and the applicable size standard (number of employees, average annual receipts, etc.) shall be set forth in the solicitation and such determination of the contracting officer shall be final unless appealed in the manner provided in § 121.3–6. If no standard for an industry, field of operation or activity (e.g., animal specialty; fin fish; management-logistics support to be performed outside of the several States, Commonwealth of Puerto Rico, Virgin Islands, the Trust Territory of the Pacific Islands, or the District of Columbia) has been set forth in this section, a concern bidding on a Government contract is a small business, if including its affiliates, it is independently owned and operated, is not dominant in the field of operation in which it is bidding on Government contracts, and has 500 employees or less.

(a) *Construction.* Any concern bidding on a contract for work which is classified in Division C, Contract Construction of the Standard Industrial Classification Manual, as amended, prepared, and published by the Bureau of the Budget (now Office of Management and Budget), Executive Office of the President, is:

(1) Small if its average annual receipts for its preceding three (3) fiscal years do not exceed $7½ million.

(2) Small if it is bidding on a contract for dredging and its average annual receipts for its preceding three (3) fiscal years do not exceed $5 million.

(b) *Manufacturing.* Any concern bidding on a contract for a product it manufactured is classified:

(1) As small if it is bidding on a contract for food canning and preserving and its number of employees does not exceed 500 persons, exclusive of agricultural labor as defined in section (k) of the Federal Unemployment Tax Act, 68A Stat. 454, 26 U.S.C. (I.R.C. 1954) 3306.

(2) As small if it is bidding on a contract for a product classified within an industry set forth in Schedule B of this part and its number of employees does not exceed the size standard established for that industry.

(3) As small if it is bidding on a contract for a product classified within an industry not set forth in Schedule B of this part and its number of employees does not exceed 500 persons.

(4) As small if it is bidding on a contract for pneumatic tires within Census Classification Codes 30111 and 30112: *Provided,* That (i) the value of the pneumatic tires within Census Classification Codes 30111 and 30112 which it manufactured in the United States during the preceding calendar year is more than 50 percent of the value of its total worldwide manufacture, (ii) the value of the pneumatic tires within Census Classification Codes 30111 and 30112 which it manufactured worldwide during the preceding calendar year was less than five percent (5%) of the value of all such tires manufactured in the United States during said period, and (iii) the value of the principal products which it manufactured or otherwise produced or sold worldwide during the preceding calendar year is less than ten percent (10%) of the total value of such products manufactured or otherwise produced or sold in the United States during said period.

(5) As small if it is bidding on a contract for passenger cars within Census Classification Code 37171: *Provided,* That (i) the value of the passenger cars within Census Classification Code 37171 which it manufactured or otherwise produced in the United States during the preceding calendar year is more than fifty percent (50%) of the value of its total worldwide manufacture or production of such passenger cars, (ii) the value of the passenger cars within Census Classification Code 37171, which it manufactured or otherwise produced during the preceding calendar year was less than five percent (5%) of the total value of all such manufactured or produced in the United States during the said period, and (iii) the value of the principal products which it manufactured or otherwise produced or sold during the preceding calendar year is less than ten percent (10%) of the total value of such produce manufactured or otherwise produced or sold in the United States during said period.

(6) Rebuilding on a factory basis or equivalent: As small if it is bidding on a contract for rebuilding machinery or equipment on a factory basis, the purpose of which is to restore such machinery or equipment to as serviceable and as like new condition as possible and its number of employees does not exceed the number of employees specified for the classification code applicable to the manufacturer of the original item.

NOTE: The size standard contained herein is not limited to concerns who are manufacturers of the original item but it is applicable to all bidders or offerers. The term "rebuilding on a factory basis" as used in this subsection does not include ordinary repair services such as those involving minor repair and/or preservation operations.

(c) *Nonmanufacturing.* Any concern which submits a bid or offer in its own name, other than on a construction or service contract, but which proposes to furnish a product not manufactured by said bidder or offerer, is deemed to be a small business concern when:

(1) Its number of employees does not exceed 500 persons, and

(2) (i) In the case of Government procurement reserved for or involving the preferential treatment of small businesses, such nonmanufacturer furnishes in the performance of the contract the products of a small business manufacturer or producer which products are manufactured or produced in the United States: *Provided, however,* If the goods

V37-231 NOV 30 72 XUM

to be furnished are woolen, worsted, knitwear, duck, and webbing, dealers and converters shall furnish such products which have been manufactured or produced by a small weaver (small knitter for knitwear), and if finishing is required, by a small finisher. If the procurement is for thread, dealers and converters shall furnish such products which have been finished by a small finisher. (Finishing of thread is defined as all "dyeing, bleaching, glazing, mildew proofing, coating, waxing, and other applications required by the pertinent specifications but excluding, mercerizing, spinning, throwing, or twisting operations.")

(ii) If the procurement is for a refined petroleum product, other than a product classified in Standard Industrial Classification Industries Nos. 2951, Paving Mixtures and Blocks; No. 2952, Asphalt Felts and Coatings; No. 2992, Lubricating Oils and Greases; or No. 2999, Products of Petroleum and Coal, Not Elsewhere Classified; paragraph (g) of this section is for application.

(d) *Research, development, and testing.* Any concern bidding on a contract for research, development, and/or testing is classified:

(1) As small if it is bidding on a contract for research and/or development which requires delivery of a manufactured product and (i) it qualifies as a small business manufacturer within the meaning of paragraph (b) of this section for the industry into which the product is classified, or (ii) it qualifies as a small business nonmanufacturer within the meaning of paragraph (c) of this section.

(2) As small if it is bidding on a contract for research and/or development which does not require delivery of a manufactured product or on a contract for testing and its number of employees does not exceed 500 persons.

(e) *Services.* Any concern bidding on a contract for services, not elsewhere defined in this section, is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $1 million.

(1) Any concern bidding on a contract for engineering services other than marine engineering services is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $5 million.

(2) Any concern bidding on a contract for motion picture production or motion picture services is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $5 million.

(3) Any concern bidding on a contract for janitorial and custodial services is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $3 million.

(4) Any concern bidding on a contract for base maintenance is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $5 million.

(5) Any concern bidding on a contract for marine cargo handling services is classified as small if its annual receipts do not exceed $5 million for the preceding three (3) fiscal years.

(6) Any concern bidding on a contract for naval architectural and marine engineering services is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $6 million.

(7) Any concern bidding on a contract for food services is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $4 million.

(8) (i) Any concern bidding on a contract for laundry services including linen supply, diaper services, and industrial laundering is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $3 million.

(ii) Any concern bidding on a contract for cleaning and dyeing including rug cleaning services is classified as small if its average annual receipts for the preceding three (3) fiscal years do not exceed $1 million.

(9) Any concern bidding on a contract for computer programing services is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $3 million.

(10) Any concern bidding on a contract for flight training services is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $5 million.

(11) Any concern bidding on a contract for motorcar rental and leasing services or truck rental and leasing services is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $5 million.

(12) Any concern bidding on a contract for tire recapping service is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $3 million.

(13) Any concern bidding on a contract for data processing services is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $3 million.

(14) Any concern bidding on a contract for computer maintenance services is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $5 million.

(f) *Transportation.* Any concern bidding on a contract for passenger or freight transportation, not elsewhere defined in this section, is classified:

(1) As small if its number of employees does not exceed 500 persons.

(2) As small if it is bidding on a contract for air transportation and its number of employees does not exceed 1,500 persons.

(3) As small if it is bidding on a contract for either trucking (local and/or long distance), and/or warehousing and/or packing and crating and/or freight forwarding, and its annual receipts do not exceed $5 million.

(g) *Refined petroleum products.* Any concern bidding on a contract for a refined petroleum product other than a product classified in Standard Industrial Classification Industries No. 2951, Paving Mixtures and Blocks; No. 2952, Asphalt Felts and Coating; No. 2992, Lubricating Oils and Greases; or No. 2999, Products of Petroleum and Coal, Not Elsewhere Classified; is classified as small if (1) (i) its number of employees does not exceed 1,000 persons; (ii) it does not have more than 30,000 barrels-per-day crude oil or bona fide feed stock capacity from owned or leased facilities or from facilities made available to such concern under an arrangement such as, but not limited to, an exchange agreement (except one on a refined product for refined product basis), or a throughput or other form of processing agreement, with the same effect as though such facilities had been leased; and (iii) the product to be delivered in the performance of the contract will contain at least 90 percent components refined by the bidder from either crude oil or bona fide feed stocks; *Provided, however,* That a petroleum refining concern which meets the requirements in subdivisions (i) and (ii) of this subparagraph may furnish the product of a refinery not qualified as small business if such product is obtained pursuant to a bona fide exchange agreement, in effect on the date of the bid or offer, between the bidder or offeror and the refiner of the product to be delivered to the Government which requires exchanges in a stated ratio on a refined petroleum product for a refined petroleum product basis, and precludes a monetary settlement, and that the products exchange for the products offered and to be delivered to the Government meet the requirement in subdivision (iii) of this subparagraph; *And, provided further,* That the exchange of products for products to be delivered to the Government, will be completed within 90 days after the expiration of the delivery period under the Government contract; and that any product furnished pursuant to a bona fide exchange agreement must be for delivery in the same Petroleum Administration for Defense (PAD) District pursuant to Schedule G of this Part 121, as that in which the small refinery is located; or (2) its number of employees does not exceed 500 persons and the product to be delivered to the Government has been refined by a concern which qualifies under subparagraph (1) of this paragraph.

§ 121.3–9 Definition of small business for sales of Government property.

In the submission of a bid or proposal for the purchase of Government-owned property, a concern which meets the criteria provided in this section may represent that it is a small business. In the absence of a written protest or other information which would cause him to question the veracity of the self-certification, the contracting officer shall accept the self-certification at face value for the particular sale involved.

(a) *Sales of Government-owned property other than timber.* A small business concern for the purpose of the sale of Government-owned property other than timber is a concern, including its affiliates, which is independently owned and operated, is not dominant in its field operation, and can further qualify under the following criteria.

(1) *Manufacturers.* Any concern which is primarily engaged in manufacturing is small if its number of employees does not exceed 500 persons: *Provided however,* That a concern primarily engaged in SIC Industry 2911, Petroleum Refining, is small if its number of employees does not exceed 1,000 persons and it does not have more than 30,000 barrels-per-day crude oil or bona fide stock capacity from owned and/or leased facilities, or from facilities made available to such concern under an arrangement such as, but not limited to, an exchange agreement (except one on a refined product for refined product basis) or a throughput or other form of processing agreement, with the same effect as though such facilities had been leased.

(2) *Other than manufacturers.* Any concern which is primarily not a manufacturer (except as specified in subparagraph (3) of this paragraph) is small if its average annual receipts for its preceding three (3) fiscal years do not exceed $1 million.

(3) *Stockpile purchasers.* Any concern primarily engaged in the purchase of materials which are not domestic products is small if its annual sales or annual receipts for its preceding three (3) fiscal years do not exceed $25 million.

(b) *Sales of Government-owned timber.* (1) In connection with sale of Government-owned timber a small business is a concern that:

(i) Is primarily engaged in the logging or forest products industry;

(ii) Is independently owned and operated;

(iii) Is not dominant in its field of operation; and

(iv) Together with its affiliates, its number of employees does not exceed 500 persons.

(2) In the case of Government sales of timber reserved for or involving preferential treatment of small businesses, when the Government timber being purchased is to be resold, a concern is a small business when:

(i) It is a small business within the meaning of subparagraph (1) of this paragraph, and

(ii) It agrees that it will not sell to a concern which is not a small business within the meaning of this paragraph more than thirty percent (30%) of such timber or, in the case of timber from certain geographical areas set forth in Schedule E of this part, more than the percentage established therein for such area.

(3) In the case of Government sales reserved for or involving preferential treatment of small businesses, when the Government timber purchased is not to be resold in the form of sawlogs to be manufactured into lumber and timbers, a concern is a small business when:

(i) It meets the criteria contained in subparagraph (1) of this paragraph, and

(ii) It agrees that in manufacturing lumber or timbers from such sawlogs cut from the Government timber, it will do so only with its own facilities or those of concerns that qualify under subparagraph (1) of this paragraph as a small business.

§ 121.3–10 Definition of small business for SBA loans.

A small business concern for the purpose of receiving an SBA loan is a concern, including its affiliates, which is independently owned and operated, is not dominant in its field of operation, and can further qualify under the criteria set forth below. A concern which is a small business under § 121.3–8 which has applied for or received a Certificate of Competency is a small business eligible for an SBA loan to finance the contract covered by the Certificate of Competency. If no standard for an industry, field of operation, or activity has been set forth in this section, a concern seeking a size determination shall submit SBA Form 355 to the Assistant Administrator for Planning, Research and Analysis, Washington, D.C. 20416. If an applicant for an SBA loan has external-operating affiliates (i.e. affiliates which are primarily engaged in selling to the general public or to concerns other than the applicant concern or an affiliate thereof) and such external-operating affiliates are engaged in industries subject to size standards different than that of the applicant concern, the applicant concern's size status shall be determined by computing the percentage that the size of the applicant concern including any internal-operating affiliates (i.e. affiliates primarily engaged in selling to the applicant or an affiliate thereof) is of the size standard for the industry in which the applicant together with its internal-operating affiliates is primarily engaged; and adding to it the percentage that the size of each of its external-operating affiliates is primarily engaged. In order for the applicant to be eligible under this revision, the total of such percentages must not exceed one hundred percent (100%). If a concern, including its internal-operating affiliates if any, is engaged in more than one industry, the applicable size standard shall be that for its primary industry. In determining which of the industries is the primary industry, consideration shall be given to these criteria among others: Distribution among such industries of receipts, employment, and costs of doing business.

(a) *Construction.* Any construction concern is small if its average annual receipts do not exceed $5 million for the preceding three (3) fiscal years.

(b) *Manufacturing.* Any manufacturing concern is classified:

(1) As small if its number of employees does not exceed 250 persons;

(2) As large if its number of employees exceeds 1,500 persons;

(3) Either as small or large depending on its industry and in accordance with the employment size standards set forth in Schedule "A" of this part, if its number of employees exceeds 250 persons but not more than 1,500 persons;

(4) As small if it is primarily engaged in the food canning and preserving industry and its number of employees does not exceed 500 persons exclusive of agricultural labor as defined in subsection (k) of the Federal Employment Tax Act, 68A Stat. 454, 26 U.S.C. (I.R.C. 1954) 3306.

(c) *Retail.* (1) Any retailing concern is classified:

(i) As small if it is primarily engaged in an industry or subindustry set forth in Schedule D of this part and its annual receipts do not exceed the size standard established therein for that industry or subindustry.

(ii) As small if it is primarily engaged in an industry or subindustry not set forth in Schedule D of this part and its annual receipts do not exceed $1 million.

(d) *Services.* Any service concern is classified:

(1) As small if its annual receipts do not exceed $1 million;

(2) As small if it is primarily engaged in the hotel and motel industry and its annual receipts do not exceed $2 million;

(3) As small if it is primarily engaged in the power laundry industry and its annual receipts do not exceed $2 million;

(4) As small if it is primarily engaged in the trailer court and parks industry and its annual receipts do not exceed $1 million: *Provided,* That a minimum of fifty percent (50%) of the annual receipts is derived from the rental of space to tourist trailers for periods not in excess of thirty (30) days;

(5) As small if it is primarily engaged in owning and operating a hospital and its capacity does not exceed 150 beds (excluding cribs and bassinets);

(6) As small if it is primarily engaged in owning and operating a convalescent or nursing home and its annual receipts do not exceed $1 million;

(7) As small if it is primarily engaged in owning and operating a medical or dental laboratory and (i) it is operated in connection with an eligible proprietary hospital or (ii) it is not operated in connection with an eligible proprietary hospital and its annual receipts do not exceed $1 million;

(8) As small if it is primarily engaged in the motion picture production industry and its annual receipts do not exceed $5 million;

(9) As small if it is primarily engaged in the motion picture services industry and its annual receipts do not exceed $5 million;

(10) As small if it is primarily engaged in rendering engineering services and its annual receipts do not exceed $2.5 million.

(e) *Shopping centers.* (1) Any concern primarily engaged in operating shopping

V 37-231 NOV 30 72 XUM

of stock. If two or more parties each trolling or having the power to control applying size standards to include such

centers is small if (i) it does not have assets exceeding $5 million, (ii) it does not have net worth in excess of $2½ million, (iii) it does not have an average net income, after Federal Income Taxes, for the preceding two (2) fiscal years in excess of $250,000 (average net income to be computed without benefit of any carryover loss), and (iv) it does not lease more than twenty-five percent (25%) of the gross leasable area to concerns which do not meet the small business definitions contained in this section.

(2) For the purpose of size determinations, shopping center operators will not be considered affiliated with their tenants merely because of lease agreements.

(f) *Transportation and warehousing.* Any concern primarily engaged in passenger and freight transportation or warehousing is classified:

(1) As small if its annual receipts do not exceed $1 million;

(2) As small if it is primarily engaged in the air transportation industry and its number of employees does not exceed 1,000 persons;

(3) As small if it is primarily engaged in the storage of grain and it does not have more than 1 million bushels capacity in owned and leased facilities, and its annual receipts do not exceed $1 million;

(4) As small if it is primarily engaged in trucking (local and/or long distance) and/or warehousing and/or packing and crating and/or freight forwarding and its annual receipts do not exceed $5 million.

(g) *Wholesale.* (1) Any wholesaling concern is classified:

(i) As small if it is primarily engaged in an industry or subindustry set forth in Schedule C of this part and its annual receipts do not exceed the size standard established therein for that industry or subindustry.

(ii) As small if it is primarily engaged in an industry or subindustry not set forth in Schedule C of this part and its annual receipts do not exceed $5 million.

(2) Any concern primarily engaged in wholesaling, but also engaged in manufacturing, is not a "small business concern" unless it qualifies under both the manufacturing and wholesaling standards.

(h) *Mining and mining services.* Any mining or mining services concern primarily engaged in an industry set forth in Schedule F of this part is classified as small if its number of employees does not exceed the size standard established therein for that industry.

(i) *Custom livestock feeding.* Any concern primarily engaged in custom livestock feeding is classified as small if its annual receipts do not exceed $2 million.

(j) *Agriculture production (crops), fish farms, and fish hatcheries.* Any concern primarily engaged (1) in an industry set forth in Major Group 01—Agriculture Production—Crops, of the Standard Industrial Classification Manual, (2) in the operation of a fish farm (part of Standard Industrial Classification Industry No. 0279, Animal Specialties, Not Elsewhere Classified), or (3) in the operation of a fish hatchery (part of Standard Industrial Classification Industry No. 0921, Fish Hatcheries and Preserves) is classified as small if its annual receipts do not exceed $250,000.

§ 121.3–11 Definition of small business for assistance by small business investment companies or by development companies.

A small business concern for the purpose of receiving financial or other assistance from small business investment companies or development companies is one which:

(a) Together with its affiliates, is independently owned and operated, is not dominant in its field of operation, does not have assets exceeding $7½ million, does not have net worth in excess of $2½ million, and does not have an average net income, after Federal income taxes, for the preceding 2 years in excess of $250,000 (average net income to be computed without benefit of any carryover loss); or

(b) Qualifies as a small business concern under § 121.3–10.

§ 121.3–12 Definition of small business Government subcontractors.

(a) Any concern in connection with subcontracts of $2,500 or less which relate to Government procurements will be considered a small business concern if, including its affiliates, its number of employees does not exceed 500 persons.

(b) An yconcern in connection with subcontracts exceeding $2,500 which relate to Government procurements will be considered a small business concern if it qualifies as such under § 121.3–8: *Provided, however,* That a nonmanufacturer is considered as small business for the purpose of Government subcontracting if, including its affiliates, its number of employees does not exceed 500 persons.

§ 121.3–13 Definition of small business for the purpose of lease guarantee.

A small business concern for the purpose of lease guarantee is a concern that qualifies as a small business under § 121.3–11.

§ 121.3–14 Definition of small business for the purpose of Government leases of uranium prospecting or mining rights.

In the submission of a bid or proposal for a Government lease of uranium prospecting or mining rights, a concern whose number of employees does not exceed 100 persons may represent that it is a small business. In the absence of a written protest or other information which would cause him to question the veracity of the self-certification, the contracting officer shall accept the self-certification at face value for the particular lease involved.

§ 121.3–15 Definition of small business for the purpose of surety bond guarantee assistance.

A small business concern for the purpose of surety bond guarantee assistance is a concern that qualifies as a small business under § 121.3–10, with the following exception:

(a) *Construction.* Any construction concern is small if its annual receipts for its preceding fiscal year or its average annual receipts for its preceding 3 fiscal years, do not exceed $750,000.

§ 121.3–16 Interpretations.

(a) [Reserved]

(b) *Section 121.3–9 of Part 121, "Sales of Government-owned timber."* Any concern which self-certifies as a small business concern for the purpose of the sale of Government-owned timber is expected to maintain sufficient documentary evidence to show that it did so in good faith. This means that a concern which sells more than 30 percent (30%) of the purchased timber will have to maintain the names and addresses of the concerns to whom the timber is sold and the size status of such concerns, unless an exemption has been granted on sales of mixed stumpage of hardwood and softwood species. Further, if the timber purchased is not to be resold in the form of sawlogs, but is to be manufactured into lumber and timber by a concern other than the bidder, the bidder must maintain records to show the name, address and size status of the concern manufacturing the timber into lumber or timbers.

(c) *Section 121.3–2(a) of Part 121, "Affiliates"*—(1) *Nature of Control.* Every business concern is considered as having one or more parties who directly or indirectly control or have the power to control it. Control may be affirmative or negative and it is immaterial whether it is exercised so long as the power to control exists.

Example. A party owning 50 percent of the voting stock of a concern would have negative power to control such concern since he can block any action of the other stockholders. Also, the bylaws of a corporation may be drawn up in such a manner which would permit a stockholder with less than 50 percent of the voting stock to block any actions taken by the other stockholders. Affiliation exists when one or more parties have the power to control a concern while at the same time another party, or other parties, may be in control of the concern at the will of the party or parties with the power to control.

(2) *Meaning of "party or parties."* The term "party or parties" includes, but is not limited to, two or more persons with an identity of interest such as members of the same family or persons with common investments in more than one concern. In determining who controls or has the power to control a concern, persons with an identity of interest may be treated as though they were one person.

(3) *Control through stock ownership.* (i) A party is considered to control or have the power to control a concern if he controls or has the power to control 50 percent or more of its voting stock.

(ii) A party is considered to control or have the power to control a concern even though he owns, controls, or has the power to control less than 50 percent of the concern's voting stock if the block of stock he owns, controls, or has the power to control is large as compared with any other outstanding block of stock. If two or more parties each own, control or have the power to control less than 50 percent of the voting stock of a concern and such minority blocks are (a) equal or substantially equal in size, and (b) large as compared with any other block outstanding, there is a presumption that each of such parties controls or has the power to control such concern; however, such presumption may be rebutted by a showing that such control or power to control, in fact, does not exist.

(iii) If a concern's voting stock is distributed other than as described above, its management (officers and directors) is deemed to be in control of such concern.

Example. In a corporation where the officers and directors own various size blocks of stock totalling 40 percent of a concern's voting stock but no officer or director has a block sufficient to give him control or the power to control and remaining 60 percent is widely distributed with no individual stockholder having a stock interest greater than 10 percent, management has the power to control.

(4) *Stock options, convertible debentures, and agreements to merge.* Stock options and convertible debentures exercisable at the time of, or within a relatively short time after a size determination, and agreements to merge in the future, are considered as having a present effect on the power to control the concern. Therefore, in making a size determination, such options, debentures, and agreements are treated as though the rights held thereunder had been exercised prior to the date of the determination.

Example. If, on the date of the determination, company "A" holds an option to purchase a controlling interest in company "B" and such option can be exercised at any time by company "A", the situation is treated as though company "A" had exercised its rights and had become owner of a controlling interest in company "B" prior to the determination. Further, if, as of the date of a determination, company "A" has entered into an agreement to merge with company "B" in the future, the situation is treated as though the merger had taken place prior to the date of the determination.

(5) *Voting trusts.* If the purpose of a voting trust or similar agreement is to separate voting power from beneficial ownership of voting stock, for the purpose of shifting control of, or the power to control a concern, in order that such concern or another concern may qualify as a small business within the size regulation, and voting trust shall not be considered valid for this purpose, regardless of whether the trust is or is not valid within the appropriate jurisdiction. However, if a voting trust is entered into for a legitimate purpose other than that described above, and it is a valid trust within the appropriate jurisdiction, it may be considered valid for the purpose of a size determination, provided such consideration is determined to be in the best interest of the small business program.

(6) *Control through common management.* A concern is considered as controlling or having the power to control another concern when one or more of the following circumstances are found to exist, and it is reasonable to conclude that under the circumstances, such concern is directing or influencing, or has the power to direct or influence the operation of such other concern.

(i) *Interlocking management.* Officers, directors, employees, or principal stockholders of one concern serve as a working majority of the board of directors or officers of another concern.

(ii) *Common facilities.* One concern shares common office space and/or employees and/or other facilities with another concern, particularly where such concerns are in the same or related industry or field of operation, or where such concerns were formerly affiliated.

(iii) *Newly organized concern.* Former officers, directors, principal stockholders, and/or key employees of one concern organize a new concern in the same or a related industry or field of operation, and serve as its officers, directors, principal stockholders, and/or key employees, and one concern is furnishing or will furnish the other concern with subcontracts, financial or technical assistance, and/or other facilities, whether for a fee or otherwise.

(7) *Control through contractual relationships*—(i) *Definition of a joint venture for size determination purposes.* A joint venture, for size determination purposes, is an association of persons or concerns with interest in any degree or proportion by way of contract, express or implied, consorting to engage in and carry out a single business venture, such as a Government contract, for joint profit, for which purpose they combine their efforts, property, money, skill, or knowledge, but without creating a corporation or partnership in the legal or technical sense of the term.

(ii) *Joint ventures—financial assistance.* For the purpose of financial assistance to a joint venture, the parties thereto are considered as controlling or having the power to control each other and are considered as being affiliated. For the purpose of financial assistance to a concern which has requested assistance for its own use, but which is incidentally a party to a joint venture, such concern is not considered as being affiliated with its joint venturer.

(iii) *Joint ventures—procurement assistance.* Concerns bidding on a particular procurement as joint venturers are considered as controlling or having the power to control each other with regard to performance of the contract, and therefore are considered as being affiliated. However, a concern which is a party to one or more joint ventures, but which is bidding on a procurement as an individual concern, is not considered as being affiliated with its joint ventures since they have no power to control its performance of the contract being bid on. Where a concern is not considered as being an affiliate of a concern with which it is participating in a joint venture, it is necessary, nevertheless, in computing annual receipts, etc., for the purpose of applying size standards to include such concern's share of the joint venture receipts (as distinguished from its share of the profits of such venture).

(iv) *Franchise and license agreements.* If a concern operates or is to operate under a franchise (or a license) agreement, the following policy is applicable: In determining whether the franchisor controls or has the power to control and, therefore, is affiliated with the franchisee, the restraints imposed on a franchisee by its franchise agreement shall not be considered provided that the franchisee has the right to profit from its effort and the risk of loss or failure, commensurate with ownership. Even though a franchisee may not be controlled by the franchisor by virtue of the contractual relationship between them, the franchisee may be controlled by the franchisor or others through common ownership or common management, in which case they would be considered as affiliated.

(d) *Section 121.3–8 of Part 121, Definition of small business for Government procurement*—(1) *Sawmills.* For the purpose of a size determination, a sawmill is considered as the manufacturer of treated lumber, even if it contracts out the treatment of the lumber. Therefore, a small business sawmill can deliver in the performance of a set-aside procurement lumber which has been treated by a concern which does not qualify as a small business concern.

(2) *Oxygen converters.* For the purpose of a size determination, a concern which converts liquid oxygen to gaseous oxygen with or without additives, is a nonmanufacturer of the gaseous oxygen and therefore must furnish gaseous oxygen converted from liquid oxygen manufactured by a small business concern.

(e) *Section 121.3–8 of Part 121.* Section 121.3–8 provides that, in the submission of a bid or proposal on a Government procurement, a concern which meets the size standards criteria provided in § 121.3–8, may represent that it is a small business, provided further, however, that a concern which has been determined by SBA to be ineligible as a small business under a particular size standard: (1) Shall, if it has self-certified as a small business on a pending procurement subject to the same or lower number of employees or annual receipts size standard (whichever is applicable), immediately notify the contracting officer of such adverse size determination and, (2) shall not thereafter self-certify on a procurement subject to the same or a lower employee or annual receipts size standard (whichever is applicable) until it has applied for recertification based on a significant change in its ownership, management, or contractual relations, and has been determined eligible as a small business under such size standard by either the regional office which issued the adverse determination or the Small Business Size Appeals Board.

(f) *Section 121.3–4 of Part 121 "Application for small business size status determination."* Contracting officers, in

SCHEDULE A—EMPLOYMENT SIZE STANDARDS FOR

SCHEDULE A—EMPLOYMENT SIZE STANDARDS FOR

SCHEDULE A—EMPLOYMENT SIZE STANDARDS FOR

V 37-231 NOV 30 72 XUM

order to determine whether to set particular contracts aside for exclusive award to small business concerns or whether to send invitations for bids to particular concerns, may require information from SBA concerning the small business status of such concerns and be unable to wait for a formal small business size determination. In such cases, informal advice or information may be given based on the best evidence available concerning the small business size of such a concern. However, such informal advice is not a small business size determination within the meaning of that term in the Small Business Size Standards Regulation and is not binding with respect to eligibility as a small business for the purpose of a particular Government procurement. Further, an opinion as to a concern's future small business size status, based on proposed but unexecuted changes in its organization, management or contractual relations, is not a small business size determination.

(g) *Section 121.3–6 of Part 121 "Appeals."* The Size Appeals Board only has jurisdiction to consider appeals from formal determinations as to a concern's small business size status and appeals from product or service classification determination made by contracting officers for the purpose of Government procurements. It has no jurisdiction to consider an appeal from an informal opinion or advice concerning a company's small business size status, an opinion as to a company's future small business size status based on proposed but unexecuted changes in its organization, management or contractual relations, or an appeal based on an allegation that the small business size standard established by SBA for a particular industry or field of operation is improper for the purpose intended.

(h) *Sections 121.3–2(r) and 121.3–8(c) "Definition of nonmanufacturer."* For size determination purposes there can only be one manufacturer of the end item being procured. The manufacturer of the end item being procured is the concern which with its own forces transforms inorganic or organic substances including raw materials and/or miscellaneous parts or components into such end item. Whether a bidder on a particular procurement is the manufacturer or a nonmanufacturer for the purpose of a size determination is not for determination by the contracting officer. The decision shall be made by the appropriate SBA regional director or his delegatee, and need not be consistent with the contracting officer's decision as to whether such concern is or is not a manufacturer for the purpose of the Walsh-Healey Act, etc.

(i) *Section 121.3–8(g) "Refined petroleum products."* The proviso in § 121.3–8 (g) (1) (iii) that the product to be delivered in the performance of the contract will contain at least 90 percent components refined by the bidder from either crude oil or bona fide feed stocks, contemplates that, in accomplishing such refining, the bidder will utilize its own employees and facilities which it owns or obtains under a bona fide lease as distinguished from any other arrangement having the same effect as a lease. The proviso in §121.3–8(g) permitting a concern which meets the requirements in subdivisions (i) and (ii) of § 121.3–8 (g) to furnish the product of a refinery not qualified as small business if such product is obtained pursuant to a bona fide exchange agreement which meets prescribed requirements, contemplates that the product exchanged by the bidder for the product to be furnished, shall have been refined by the bidder utilizing only its own employees and its own facilities or facilities obtained through a bona fide lease.

(j) *Section 121.3–10 Definition of Small Business for SBA Loans.* Following is an example of the method to be utilized in computing a diversified concern's size status for the purpose of an SBA loan:

Concern A applies for an SBA loan It is affiliated with concern B. Concern A has 15 employees and $2.5 million in receipts and is primarily engaged in the retail sale of groceries (Industry No. 5411) for which the size standard is $5 million in annual receipts. Concern B has 100 employees and $3 million in receipts and is primarily engaged in the manufacture of macaroni (Industry No. 2098) for which the size standard is 250 employees. The receipts of concern A are only 50 percent of the size standard for its industry and the employment of concern B is only 40 percent of the size standard for its industry. Since the combined percentages are less than 100 percent, concern A can qualify for an SBA loan.

(k) *Section 121.3–8(e)(12).* The Small Business Size Appeals Board has interpreted this section to apply only to procurements requiring the services of tire retreading and repair shops (Standard Industrial Classification Industry No. 7534, Tire Retreading and Repair Shops) and not to procurements for the repairing and/or retreading of pneumatic aircraft tires which, by reason of the extent and nature of the equipment and operations required, is considered for size standards purposes to be manufactured within the meaning of Standard Industrial Classification Industry No. 3011, Tires and Inner Tubes.

(l) *Section 121.3–8(c) "Definition of Nonmanufacturer."* The Government often purchases items in the form of kits such as, but not limited to, tool kits and survival kits, which are not manufactured items but merely assemblages of separate manufactured items. Accordingly, a concern which purchases some or all of such items and packages them into kit form is considered to be a nonmanufacturer for size determination purposes. Such a concern can qualify as a small business only if it meets all other qualifications of a small nonmanufacturer set forth in this part and if more than 50 percent of the total value of the kit and its contents is accounted for by items manufactured by small business.

Effective date. This revision shall become effective on publication in the FEDERAL REGISTER (11–30–72).

Dated: November 16, 1972.

THOMAS S. KLEPPE,
Administrator.

SCHEDULE A—EMPLOYMENT SIZE STANDARDS FOR CONCERNS PRIMARILY ENGAGED IN MANUFACTURING

(The following size standards are to be used when determining the size status of applicants for SBA business loans, displaced business loans, economic opportunity loans, surety bond guarantee assistance, and as alternate standards for secs. 501 and 502 loans and SBIC assistance.)

Census classification code	Industry or class of products	Employment size standard (number of employees) [1]
	Major Group 23—Apparel and Other Finished Products Made From Fabrics and Similar Materials	250
2321	Men's youth's and boy's shirts (except work shirts) and nightwear	500
	Major Group 28—Chemicals and Allied Products:	
2891	Adhesives and sealants	250
2812	Alkalies and chlorine	1,000
2831	Biological products	250
2895	Carbon black	500
2823	Cellulosic manmade fibers	1,000
2869	Chemicals and chemical preparations, n.e.c	250
2865	Cyclic (coal tar) crudes, and cyclic intermediates, dyes, and organic pigments (lakes and toners)	750
28651	Cyclic (coal tar) crudes	500
2892	Explosives	750
28992	Fatty acids	500
2875	Fertilizers, mixing only	500
2861	Gum and wood chemicals	500
2813	Industrial gases	1,000
2819	Industrial inorganic chemicals, n.e.c	1,000
2869	Industrial organic chemicals, n.e.c	1,000
2816	Inorganic pigments	1,000
2833	Medicinal chemicals and botanical products	750
2873	Nitrogenous fertilizers	1,000
2851	Paints, varnishes, lacquers, enamels, and allied products	250
2844	Perfumes, cosmetics, and other toilet preparations	500
2879	Pesticides and agricultural chemicals, n.e.c	500
2834	Pharmaceutical preparations	750
2874	Phosphatic fertilizers	500
2821	Plastic materials, synthetic resins, and nonvulcanizable elastomers	750
2893	Printing ink	250
2841	Soap and other detergents, except specialty cleaners	750
2842	Specialty cleaning, polishing, and sanitation preparations	500
2843	Surface active agents, finishing agents, sulfonated oils, and assistants	250
2824	Synthetic organic fibers, except cellulosic	1,000
2822	Synthetic rubber (vulcanizable elastomers)	1,000
	Major group 36—Electrical and electronic machinery, equipment, and supplies:	
3624	Carbon and graphite products	750
3672	Cathode ray television picture tubes	750
3646	Commercial, industrial, and institutional electric lighting fixtures	250
3678	Connectors, for electronic applications	500
3643	Current-carrying wiring devices	500
3634	Electric housewares and fans	750
3641	Electric lamps	1,000
3694	Electrical equipment for internal combustion engines	750
3629	Electrical industrial apparatus, n.e.c	500
3699	Electrical machinery, equipment, and supplies, n.e.c	500
3675	Electronic capacitors	500
3677	Electronic coils, transformers, and other inductors	500
3679	Electronic components, n.e.c	500
3639	Household appliances, n.e.c	500
3631	Household cooking equipment	750
3633	Household laundry equipment	1,000
3632	Household refrigerators and home and farm freezers	1,000
3635	Household vacuum cleaners	750
3622	Industrial controls	750
3648	Lighting equipment, n.e.c	250
3621	Motors and generators	1,000
3644	Noncurrent-carrying wiring devices	500
3652	Phonograph records and prerecorded magnetic tape	750

SCHEDULE A—EMPLOYMENT SIZE STANDARDS FOR CONCERNS PRIMARILY ENGAGED IN MANUFACTURING

Census classification code	Industry or class of products	Employment size standard (number of employees) [1]
3612	Power, distribution, and specialty transformers	750
3692	Primary batteries, dry and wet	1,000
3651	Radio and television receiving sets, except communication types	750
3671	Radio and television receiving type electron tubes, except cathode ray	1,000
3662	Radio and television transmitting, signaling, and detection equipment and apparatus	750
3693	Radiographic X-ray, fluoroscopic X-ray, therapeutic X-ray, and other X-ray apparatus and tubes; electromedical and electrotherapeutic apparatus	500
3645	Residential electric lighting fixtures	250
3676	Resistors, for electronic applications	500
3674	Semiconductors and related devices	500
3636	Sewing machines	750
3691	Storage batteries	500
3613	Switchgear and switchboard apparatus	750

3493	Steel springs, except wire	500
3494	Valves and pipe fittings, except plumbers' brass goods	500
3495	Wire springs	250
	Major Group 20—Food and Kindred Products:	
2077	Animal and marine fats and oils	250
2063	Beet sugar	750
2045	Blended and prepared flour	500
2086	Bottled and canned soft drinks and carbonated waters	250
2051	Bread and other bakery products, except cookies and crackers	250
2065	Candy and other confectionery products	250
2061	Cane sugar, except refining only	250
2062	Cane sugar refining	750
2091	Canned and cured fish and seafoods	250
2033	Canned fruits, vegetables, preserves, jams, and jellies	500
2032	Canned specialties	1,000
2043	Cereal breakfast foods	1,000
2022	Cheese, natural and processed	250
2067	Chewing gum	500
2066	Chocolate and cocoa products	500
2023	Condensed and evaporated milk	500
2052	Cookies and crackers	750
2074	Cottonseed oil mills	250
2021	Creamery butter	250
2085	Distilled, rectified, and blended liquors	750
2047	Dog, cat, and other pet foods	500
2034	Dried and dehydrated fruits, vegetables, and soup mixes	500
2087	Flavoring extracts and flavoring syrups, n.e.c	500
2041	Flour and other grain mill products	500
2026	Fluid milk	500
2099	Food preparations, n.e.c	250
20991	Desserts (ready to mix)	500
20994	Baking powder and yeast	500
2092	Fresh or frozen packaged fish and seafoods	250
2037	Frozen fruits, fruit juices, and vegetables	500
2038	Frozen specialties	500
2024	Ice cream and frozen desserts	500
2098	Macaroni, spaghetti, vermicelli, and noodles	250
2083	Malt	250
2082	Malt beverages	500
2097	Manufactured ice	250
2011	Meatpacking plants	500
2035	Pickled fruits and vegetables, vegetable sauces and seasonings, and salad dressings	250
2016	Poultry dressing plants	250
2017	Poultry and egg processing	250
2048	Prepared feeds and feed ingredients for animals and fowls, n.e.c	250
2044	Rice milling	250
2095	Roasted coffee	250
2013	Sausages and other prepared meat products	500
2079	Shortening, table oils, margarine, and other edible fats and oils, n.e.c	750
2075	Soybean oil mills	500
2076	Vegetable oil mills, except corn, cottonseed, and soybean	1,000
2046	Wet corn milling	750
2084	Wines, brandy, and brandy spirits	250
	Major Group 25—Furniture and Fixtures:	
2591	Drapery hardware and window blinds and shades	250
2593	Furniture and fixtures, n.e.c	250
2519	Household furniture, n.e.c	500
2515	Mattresses and bedsprings	250
2514	Metal household furniture	250
2522	Metal office furniture	500
2542	Metal partitions, shelving, lockers, and office and store fixtures	250
2531	Public building and related furniture	250
2511	Wood household furniture, except upholstered	250
2512	Wood household furniture, upholstered	250
2521	Wood office furniture	250
2541	Wood partitions, shelving, lockers, and office and store fixtures	250
2517	Wood television, radio, phonograph, and sewing machine cabinets	250
	Major Group 31—Leather and Leather Products:	
3131	Boot and shoe cut stock and findings	250
3149	Footwear, except rubber, n.e.c	500
3142	House slippers	250
3151	Leather gloves and mittens	250
3199	Leather goods, n.e.c	250
3111	Leather tanning and finishing	250
3161	Luggage	250
3143	Men's footwear, except athletic	500
3172	Personal leather goods, except women's handbags and purses	250
3144	Women's footwear, except athletic	500
3171	Women's handbags and purses	250
	Major Group 24—Lumber and Wood Products, Except Furniture	250
	Major Group 35—Machinery, Except Electrical	
3563	Air and gas compressors	500
3585	Air conditioning and warm air heating equipment and commercial and industrial refrigeration equipment	750
3581	Automatic merchandising machines	250
3562	Ball and roller bearings	750
3564	Blowers and exhaust and ventilation fans	250
3574	Calculating and accounting machines, except electronic computing equipment	1,000
3592	Carburetors, pistons, piston rings, and valves	250
3582	Commercial laundry, dry cleaning, and pressing machines	250
3531	Construction machinery and equipment	750
3535	Conveyors and conveying equipment	250
3573	Electronic computing equipment	1,000
3534	Elevators and moving stairways	500
3523	Farm machinery and equipment	500
3551	Food products machinery	250
3524	Garden tractors and lawn and garden equipment	500
3569	General industrial machinery and equipment, n.e.c	250
3536	Hoists, industrial cranes, and monorail systems	500
3565	Industrial patterns	250
3567	Industrial process furnaces and ovens	250
3537	Industrial trucks, tractors, trailers, and stackers	750
3519	Internal combustion engines, n.e.c	1,000
3545	Machine tool accessories and measuring devices	250
35452	Precision measuring tools	500
3541	Machine tools, metal cutting types	500
3542	Machine tools, metal forming types	500
3599	Machinery, except electrical, n.e.c	250
3586	Measuring and dispensing pumps	500
3568	Mechanical power transmission equipment, n.e.c	500
3549	Metalworking machinery, n.e.c	500
3532	Mining machinery and equipment, except oil field machinery and equipment	500
3579	Office machines, n.e.c	500
3533	Oil field machinery and equipment	500
3554	Paper industries machinery	250
3546	Power driven handtools	500
3555	Printing trades machinery and equipment	500
3561	Pumps and pumping equipment	500
3547	Rolling mill machinery and equipment	500
3576	Scales and balances, except laboratory	250
3589	Service industry machines, n.e.c	250
3544	Special dies and tools, die sets, jigs and fixtures, and industrial molds	250
3559	Special industry machinery, n.e.c	250
3566	Speed changers, industrial high speed drives, and gears	500
3511	Steam, gas, and hydraulic turbines and turbine generator set units	1,000
3552	Textile machinery	250
3572	Typewriters	1,000
3553	Woodworking machinery	250
	Major Groups 38—Measuring, Analyzing and Controlling Instruments; Photographic, Medical and Optical Goods; Watches and Clocks	
3822	Automatic controls for regulating residential and commercial environments and appliances	500

Footnotes at end of table.

SCHEDULE A—EMPLOYMENT SIZE STANDARDS

SCHEDULE B—INDUSTRY EMPLOYMENT SIZE STANDARDS FOR THE PURPOSE OF GOVERNMENT PROCUREMENT

V37-231 NOV 30 72 XUM

SCHEDULE A—EMPLOYMENT SIZE STANDARDS FOR CONCERNS PRIMARILY ENGAGED IN MANUFACTURING

Census classification code	Industry or class of products	Employment size standard (number of employees) [1]
3843	Dental equipment and supplies	250
3811	Engineering, laboratory, scientific and research instruments and associated equipment	500
3823	Industrial instruments for measurement, display, and control of process variables, and related products	500
3825	Instruments for measuring and testing of electricity and electrical signals	500
3826	Measuring and controlling devices, n.e.c.	500
3851	Ophthalmic goods	250
3832	Optical instruments and lenses	250
3842	Orthopedic, prosthetic, and surgical appliances and supplies	250
3844	Photographic equipment and supplies	500
3841	Surgical and medical instruments and apparatus	250
3814	Watches, clocks, watchwork operated devices, and parts	500
3873	Major Group 39—Miscellaneous Manufacturing Industries	
3991	Brooms and brushes	250
3942	Dolls	250
3965	Fasteners	250
3955	Carbon paper and inked ribbons	250
3961	Costume jewelry and costume novelties, except precious metal	250
3962	Feathers	250
3963	Buttons	250
3966	Needles, pins, and fasteners	250
3944	Games, toys, and children's vehicles, except dolls and bicycles	250
3951	Pens, pencils, and other artists' materials	250
3993	Signs and advertising displays	250
3941	Sporting and athletic goods, n.e.c.	500
3914	Silverware, plated ware, and stainless steel ware	500
3995	Burial caskets	250
3991	Major Group 40—Railroad Equipment	
3743	Locomotives and parts	1,500
3742	Railroad and street cars	1,000
3744	Railroad equipment, n.e.c.	1,000
3799	Major Group 41—Miscellaneous Transportation Equipment	
3751	Motorcycles, bicycles, and parts	500
3792	Travel trailers and campers	250
3799	Transportation equipment, n.e.c.	1,000
3811	Major Group 42—Guided Missiles and Space Vehicles	
3812	Guided missiles and space vehicles	1,000
3821	Major Group 43—Search, Detection, Navigation, Guidance, Aeronautical, and Nautical Systems, and Instruments	
3822	Automatic controls for regulating residential and commercial environments and appliances	500
3823	Industrial instruments for measurement, display, and control of process variables, and related products	500
3824	Totalizing fluid meters and counting devices	500
3825	Instruments for measuring and testing of electricity and electrical signals	500
3826	Laboratory analytical instruments	500
3829	Measuring and controlling devices, n.e.c.	500
3831	Optical instruments and lenses	250
3841	Surgical and medical instruments and apparatus	250
3842	Orthopedic, prosthetic, and surgical appliances and supplies	250
3861	Photographic equipment and supplies	500
3871	Watches, clocks, watchcases and parts	500
3911	Jewelry, precious metal	250
3915	Jewelers' findings and materials, and lapidary work	250
3931	Musical instruments	250
3955	Pens and mechanical pencils	250
3951	Pens, pencils, and other artists' materials	250
3952	Lead pencils, crayons, and artists' materials	250
3953	Marking devices	500
3955	Carbon paper and inked ribbons	250
3961	Costume jewelry, costume novelties, except precious metal	250
3962	Feathers	250
3963	Buttons	250
3965	Fasteners	250
3991	Brooms and brushes	250
3993	Signs and advertising displays	250
3995	Burial caskets	250
3999	Manufacturing industries, n.e.c.	750
4463	Marine cargo handling	500
4493	Marinas	500
4833	Musical instruments	250
4841	Optical goods stores	500
4844	Sporting goods stores and bicycle shops	500
5094	Watches, clocks, and jewelry	500
7352	Medical equipment rental	250
7359	Equipment rental and leasing, n.e.c.	250
7819	Services allied to motion pictures	500
8071	Medical laboratories	250
8734	Testing laboratories	250

SCHEDULE A—EMPLOYMENT SIZE STANDARDS FOR CONCERNS PRIMARILY ENGAGED IN MANUFACTURING

Census classification code	Industry or class of products	Employment size standard (number of employees) [1]
3312	Blast furnaces (including coke ovens), steel works, and rolling mills	1,000
3362	Brass, bronze, copper, copper base alloy foundries (castings)	250
3316	Cold rolled steel sheet, strip, and bars	1,000
3357	Drawing and insulating of nonferrous wire	1,000
3313	Electrometallurgical products	750
3321	Gray iron foundries	500
3322	Malleable iron foundries	500
3398	Metal heat treating	750
3369	Nonferrous foundries (castings), n.e.c.	250
3399	Primary metal products, n.e.c.	750
3331	Primary production of aluminum	1,000
3331	Primary smelting and refining of copper	1,000
3332	Primary smelting and refining of lead	1,000
3339	Primary smelting and refining of nonferrous metals, n.e.c.	750
3333	Primary smelting and refining of zinc	750
3351	Rolling, drawing, and extruding of copper	750
3356	Rolling, drawing, and extruding of nonferrous metals, except copper and aluminum	750
3341	Secondary smelting and refining of nonferrous metals	250
3325	Steel foundries, n.e.c.	500
3323	Steel investment foundries	500
3317	Steel pipe and tubes	1,000
3315	Steel wire drawing and steel nails and spikes	1,000
	Major Group 27—Printing and Publishing Industries	250
	Major Group 30—Rubber and Miscellaneous Plastic Products:	
3031	Reclaimed rubber	750
3021	Rubber and plastics footwear	1,000
3052	Rubber and plastics hose and belting	500
3011	Tires and inner tubes	1,000
	Major Group 32—Stone, Clay, Glass, and Concrete Products:	
3291	Abrasive products	750
3292	Asbestos products	750
3251	Brick and structural clay tile	750
3241	Cement, hydraulic	500
3253	Ceramic wall and floor tile	500
3255	Clay refractories	250
3271	Concrete block and brick	250
3272	Concrete products, except block and brick	250
3281	Cut stone and stone products	250
3263	Fine earthenware (whiteware) table and kitchen articles	500
3211	Flat glass	1,000
3263	Graphite, packing, and sealing (soft)	500
3221	Glass containers	750
3231	Glass products, made of purchased glass	250
3275	Gypsum products	1,000
3271	Lime	500
3296	Mineral wool	750
3295	Minerals and earths, ground or otherwise treated	250
3297	Nonclay refractories	750
3299	Nonmetallic mineral products, n.e.c.	250
3274	Pottery products, n.e.c.	500
3229	Pressed and blown glass and glassware, n.e.c.	750
3273	Ready-mixed concrete	250
3275	Structural clay products, n.e.c.	250
3261	Vitreous china plumbing fixtures and china and earthenware fittings and bathroom accessories	750
3262	Vitreous china table and kitchen articles	500
	Major Group 22—Textile Mill Products:	
2211	Broad woven fabric mills, cotton	1,000
2221	Broad woven fabric mills, manmade fiber and silk	500
2231	Broad woven fabric mills, wool including dyeing and finishing	250
2279	Carpets and rugs, n.e.c.	500

SCHEDULE A—EMPLOYMENT SIZE STANDARDS FOR CONCERNS PRIMARILY ENGAGED IN MANUFACTURING

Census classification code	Industry or class of products	Employment size standard (number of employees) [1]
2257	Circular knit fabric mills	250
2295	Coated fabrics, not rubberized	250
2298	Cordage and twine	250
2299	Felt goods, except woven felts and hats	250
2261	Finishers of broad woven fabrics of cotton	500
2262	Finishers of broad woven fabrics of manmade fiber and silk	500
2269	Finishers of textiles, n.e.c.	250
2252	Hosiery, except women's full length and knee length hosiery	250
2253	Knit outerwear mills	250
2254	Knit underwear mills	250
2259	Knitting mills, n.e.c.	250
2292	Lace goods	250
2211	Narrow fabrics and other small-wares mills: cotton, wool, silk, and manmade fiber	250
2297	Nonwoven fabrics	250
2363	Paddings and upholstery filling	250
2296	Processed waste and recovered fibers and flock	250
2399	Textile goods, n.e.c.	250
2281	Thread mills	500
2296	Tire cord and fabric	1,000
2272	Tufted carpets and rugs	500
2258	Warp knit fabric mills	250
2251	Women's full length and knee length hosiery	250
2271	Woven carpets and rugs	750
2283	Yarn mills, wool, including carpet and rug yarn	250
2281	Yarn spinning mills, cotton, manmade fibers and silk	500
2282	Yarn texturizing, throwing, twisting, and winding mills: cotton, manmade fibers and silk	250
	Major Group 21—Tobacco Manufacturers:	
2111	Cigarettes	1,000
2121	Cigars	500
2131	Tobacco (chewing and smoking) and snuff	500
2141	Tobacco stemming and redrying	500
	Major Group 37—Transportation Equipment:	
3721	Aircraft [2]	1,500
3724	Aircraft engines and engine parts	1,000
3728	Aircraft parts and auxiliary equipment, n.e.c.	1,000
3732	Boat building and repairing	250
3761	Guided missiles and space vehicles	250
3769	Guided missile and space vehicle parts and auxiliary equipment n.e.c.	1,000
3764	Guided missile and space vehicle propulsion units and propulsion unit parts	1,000
3711	Motor vehicle and passenger car bodies	1,000
3714	Motor vehicle parts and accessories	500
3751	Motorcycles, bicycles, and parts	500
3743	Railroad equipment	1,000
3731	Ship building and repairing	1,000
3795	Tanks and tank components	1,000
3799	Transportation equipment, n.e.c.	250
3792	Travel trailers and campers	250
3713	Truck and bus bodies	500
3715	Truck trailers	500

[1] The "number of employees" means the average employment of any concern and its affiliates based on the number of persons employed during the pay period ending nearest the last day of the 3d month in each calendar quarter for the preceding 4 quarters.

[2] Together with its affiliates does not employ more than 1,000 persons and does not have more than 30,000 barrels per day crude oil or bona fide feed stock capacity from owned and or leased facilities or from facilities made available to such concerns under an arrangement such as, but not limited to, an exchange agreement (except one on a refined product or a refined product basis) or a throughput or other form of processing agreement with the same effect as though such facilities had been leased.

[3] Includes maintenance as defined in the Federal Aviation Regulations (14 CFR 1.1) but excludes contracts solely for preventive maintenance as defined in 14 CFR 1.1. As defined in the Federal Aviations Regulations, "Maintenance" means inspection, overhaul, repair, preservation, and the replacement of parts, but excludes preventive maintenance. "Preventive maintenance" means simple or minor preservation operations and the repalcement of small standard parts not involving complex assembly operations.

SCHEDULE B—INDUSTRY EMPLOYMENT SIZE STANDARDS FOR THE PURPOSE OF GOVERNMENT PROCUREMENT (MANUFACTURING)

Census classification	Industry or class of products	Employment size standard (number of employees) [1]
	Major Group 20—Food and Kindred Products	
2026	Fluid milk [2]	750
2032	Canned specialties	1,000
2043	Cereal breakfast foods	1,000
2046	Wet corn milling	750
2052	Cookies and crackers	750
2062	Cane sugar refining	750
2063	Beet sugar	750
2076	Vegetable oil mills, except corn, cottonseed and soybean	1,000
2079	Shortening, table oils, margarine and other edible fats and oils, n.e.c.	750
2085	Distilled, rectified, and blended liquors	750
	Major Group 21—Tobacco Manufactures	
2111	Cigarettes	1,000
	Major Group 22—Textile Mill Products	
2211	Broad-woven fabric mills, cotton	1,000
2201	Finishers of broad-woven fabrics of cotton	1,000
2271	Woven carpets and rugs	750
2295	Fabrics, not rubberized	1,000
2296	Tire cord and fabric	1,000
	Major Group 26—Paper and Allied Products	
2611	Pulp mills	750
2621	Papermills, except building	750
	Papermills	750
2631	Paperboard mills	750
2646	Pressed and molded pulp goods	750
2654	Sanitary food containers	750
2661	Building paper and building board mills	750
	Major Group 28—Chemicals and Allied Products:	
2812	Alkalies and chlorine	1,000
2813	Industrial gases	1,000
2816	Inorganic pigments	1,000
2819	Industrial inorganic chemicals, n.e.c.	1,000
2821	Plastics materials, synthetic resins, and nonvulcanizable elastomers	750
2822	Synthetic rubber (vulcanizable elastomers)	1,000
2823	Cellulosic manmade fibers	1,000
2824	Synthetic organic fibers, except cellulosic	1,000
2833	Medicinal chemicals and botanical products	750
2834	Pharmaceutical preparations	750
2841	Soap and other detergents, except specialty cleaners	750
2865	Cyclic (coal tar) crudes and cyclic intermediates, dyes, and organic pigments (lakes and toners)	750
2869	Industrial organic chemicals, n.e.c.	1,000
2873	Nitrogenous fertilizers	1,000
2892	Explosives	750
	Major Group 29—Petroleum Refining and Related Industries: [3]	
2952	Asphalt felts and coatings	750
	Major Group 30—Rubber and Miscellaneous Plastics Products:	
3011	Tires and innertubes	1,000
30111	Passenger car and motorcycle pneumatic tires (casings) [4]	
30112	Truck and bus (and off-the-road) pneumatic tires [4]	
3021	Rubber and plastics footwear	1,00
3031	Reclaimed rubber	750
	Major Group 32—Stone, Clay, Glass, and Concrete Products	
3211	Flat glass	1,000
3221	Glass containers	750
3229	Pressed and blown glass and glassware, n.e.c.	750
3241	Cement, hydraulic	750
3261	Vitreous china plumbing fixtures and china and earthenware fittings and bathroom accessories	750
3275	Gypsum products	1,000
3292	Asbestos products	750
3296	Mineral wool	750
3297	Nonclay refractories	750

SCHEDULE B—INDUSTRY EMPLOYMENT SIZE STANDARDS FOR THE PURPOSE OF GOVERNMENT PROCUREMENT (MANUFACTURING)

Census classification	Industry or class of products	Employment size standard (number of employees) [1]
	Major Group 33—Primary Metal Industries:	
3312	Blast furnaces (including coke ovens), steel works, and rolling mills	1,000
3313	Electrometallurgical products	750
3315	Steel wire drawing and steel nails and spikes	1,000
3316	Cold rolled sheet, strip and bars	1,000
3317	Steel pipe and tubes	1,000
3331	Primary smelting and refining of copper	1,000
3332	Primary smelting and refining of lead	1,000
3333	Primary smelting and refining of zinc	750
3334	Primary production of aluminum	1,000
3339	Primary smelting and refining of nonferrous metals, n.e.c.	750
3351	Rolling drawing and extruding of copper	750
3353	Aluminum sheet, plate and foil	750
3354	Aluminum extruded products	750
3355	Aluminum rolling and drawing, n.e.c.	750
3356	Rolling, drawing, and extruding of nonferrous metals, except copper and aluminum	750
3357	Drawing and insulating of nonferrous wire	1,000
3398	Metal heat treating	750
3399	Metal metal products, n.e.c.	750
	Major Group 34—Fabricated Metal Products, Except Machinery and Transportation Equipment:	
3411	Metal cans	1,000
3131	Enameled iron and metal sanitary ware	750
3182	Small arms ammunition	1,000
3483	Ammunition except for small arms, n.e.c.	1,500
3484	Small arms	1,000
	Major Group 35—Machinery, Except Electrical:	
3511	Steam, gas, and hydraulic turbines and turbine-generator set units	1,000
3519	Internal combustion engines, n.e.c.	1,000
3531	Construction machinery and equipment	750
3537	Industrial trucks, tractors, trailers, and stackers	750
3562	Ball and roller bearings	750
3572	Typewriters	1,000
3573	Electronic computing equipment	1,000
3574	Calculating and accounting machines, except electronic computing equipment	1,000

[1] The "number of employees" means the average employment of any concern and its affiliates based on the number of persons employed during the pay period ending nearest the last day of the 3rd month in each calendar quarter for the preceding 4 quarters.

[2] The size standard for Census Classification Code 2026, Fluid Milk, will be reduced to 625 employees effective May 1, 1973, and further reduced to 500 employees, effective May 1, 1974.

[3] The size standard for SIC 2911 is set forth in § 121.3-8(c).

[4] The size standard for SIC 30111, 30112, and 37111 are set forth in § 121.3-8(b)(1) and § 121.3-8(b)(5), respectively, of this part.

[5] Guided missile engines and engine parts are classified in SIC 3764 and 3724. Missile control systems are classified in SIC 3662.

[6] Includes maintenance as defined in the Federal Aviation Regulations (14 CFR 1.1) but excludes contracts solely for preventive maintenance as defined in 14 CFR 1.1. As defined in the Federal Aviation Regulations: "Maintenance" means inspection, overhaul, repair, preservation, and the replacement of parts, but excludes preventive maintenance. "Pre entive maintenance" means simple or minor preservation operations and the replacement of small standard parts not involving complex assembly operations.

SCHEDULE C—ANNUAL RECEIPTS SIZE STANDARDS FOR CONCERNS PRIMARILY ENGAGED IN WHOLESALING

(The following size standards are to be used when determining the size status of wholesaling concerns for the purpose of SBA business loans, displaced business loans, economic opportunity loans, and as alternate standards for secs. 501 and 502 and SBIC assistance. Where a code is followed by a letter, the size standard applies only to the class of product designated.)

Industry or subindustry code	Industry, subindustry, or class of products	Annual sales size standard (maximum, in millions)

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 12006; Amdt. 25-34 and 121-90]

PART 25—AIRWORTHINESS STANDARDS: TRANSPORT CATEGORY AIRPLANES

PART 121—CERTIFICATION AND OPERATIONS: DOMESTIC, FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

Rear Exit Security: Large Passenger-Carrying Turbojet Powered Airplanes

The purpose of these amendments to Parts 25 and 121 of the Federal Aviation Regulations is to provide additional security on certain large passenger-carrying turbojet powered airplanes operated under Part 121 by requiring that each ventral exit and tailcone exit be designed and constructed so that it cannot be opened during flight. These amendments also apply to air travel clubs certificated under Part 123 and to air taxi operators certificated under Part 135, when conducting operations governed by those parts with the large airplanes.

Interested persons have been afforded an opportunity to participate in the making of these amendments by a notice of proposed rule making (Notice 72-15) issued June 20, 1972, and published in the FEDERAL REGISTER on June 24, 1972 (37 F.R. 12507) and due consideration has been given to all comments received in response to the notice, insofar as they relate to matters within the scope of the notice. Except for editorial changes, and except as specifically discussed hereinafter, these amendments and the reasons therefor are the same as those contained in the notice.

Several commentators objected to the requirement in proposed § 25.809(j)(1) and § 121.310(k)(1) that means must be provided so that takeoff cannot be started if either the ventral exit or tailcone exit is not locked. They based their objection on the possible catastrophic results of a malfunction, or failure in the currently available means that could be used to implement this requirement, for example, systems providing for the locking of brakes or throttles by electrical signals from the stair lock. In this regard, a number of means were suggested by commentators to assure that the ventral exit could not be opened during flight, but that it still would be available for use as an emergency exit. The FAA agrees with those comments, and, accordingly, the proposal that means be provided so that takeoff cannot be started if the ventral exit or tailcone exit is not locked is not adopted in this amendment. However under the rule as adopted when the airplane becomes airborne the design and construction characteristics of each ventral exit and tailcone exit must be such that it cannot be opened during flight.

Certain comments contended that altering the design of an aircraft is not an effective means of overcoming the problems of hijacking because simple devices can be overcome by the hijacker and more complicated devices create additional risk in the operation of the aircraft. One comment pointed out that it is patently impossible to add a lock to an emergency exit without statistically reducing the reliability of that exit. However, the FAA does not believe that, because a device installed in compliance with the rule may be simple in design, it will necessarily also be simple for a hijacker to overcome it. Nor does the FAA believe that compliance with the rule, as adopted, will reduce the reliability of the exits in an emergency.

One commentator recommended that the rule specify that the ventral exit be available for normal and emergency ground operations. The FAA does not

agree that a rule change in this respect is necessary, since the amendment as adopted herein in no way conflicts with other rules dealing with the availability of exits for emergency egress in an actual emergency.

Several commentators recommended that an appropriately worded placard be installed in a conspicuous location near the means of opening each ventral exit and tailcone exit, stating that the exit cannot be opened during flight. The FAA agrees, and this requirement is added to the proposed amendments.

One commentator suggests that the proposed rule should not be applied to air travel clubs, because the makeup of their membership and their financial structure makes it highly unlikely that they would be subjected to the kind of hijacking and extortion the proposed rule is intended to prevent. The FAA does not agree. The proposal was intended to prevent all hijacking of certain large aircraft engaged in operations required to be conducted in accordance with Part 121 and the amendment is applicable to all such operations.

One commentator objected to the rule, stating that it is unnecessary since the proper response to any hijacker is to refuse all of his demands for ransom, whatever the cost. The FAA does not agree. As stated in the notice, every possible step must be taken to deter persons from boarding aircraft for the purpose of hijacking them and escaping by parachute. The purpose of these amendments is to make it clear that any attempt to hijack a large passenger-carrying turbojet-powered airplane and escape therefrom by parachute will be a futile effort.

While the notice proposed to make the amendment to § 121.310 effective 6 months after the effective date of the rule, the rule as adopted provides for an 8-month compliance period to allow additional time for design, manufacture, and installation, where modifications are needed to conform to the rule.

In consideration of the foregoing, and for the reasons given in notice 72-15, Parts 25 and 121 of the Federal Aviation Regulations are amended, effective December 31, 1972, as follows:

1. By adding a new paragraph (j) to § 25.809 to read as follows:

§ 25.809 Emergency exit arrangement.

* * * * *

(j) When required by the operating rules for any large passenger-carrying turbojet-powered airplane, each ventral exit and tailcone exit must be—

(1) Designed and constructed so that it cannot be opened during flight; and

(2) Marked with a placard readable from a distance of 30 inches and installed at a conspicuous location near the means of opening the exit, stating that the exit has been designed and constructed so that it cannot be opened during flight.

2. By adding a new paragraph (k) to § 121.310 to read as follows:

§ 121.310 Additional emergency equipment.

* * * * *

(k) After August 28, 1973, on each large passenger-carrying turbojet-powered airplane, each ventral exit and tailcone exit must be—

(1) Designed and constructed so that it cannot be opened during flight; and

(2) Marked with a placard readable from a distance of 30 inches and installed at a conspicuous location near the means of opening the exit, stating that the exit has been designed and constructed so that it cannot be opened during flight.

(Section 313(a), 601, 603, 604, and 605 of the Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, 1423, 1424, and 1425. Section 6(c) of the Department of Transportation Act; 49 U.S.C. 1655(c))

Issued in Washington, D.C., on November 24, 1972.

J. H. SHAFFER,
Administrator.

[Airworthiness Docket No. 72-WE-15-AD, Amdt. 39-1566]

PART 39—AIRWORTHINESS DIRECTIVES

Douglas Model DC-9-10 Series Airplanes

A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring that the entry door closing assist handle be removed and an improved design modification installed on Douglas Model DC-9-10 series airplanes was published at 37 F.R. 16621 (August 17, 1972).

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all comments received in response to the above notice, insofar as they relate to matters within the scope of the notice.

One commentator suggested that equivalent modifications need not be approved by the Chief, Aircraft Engineering Division, Federal Aviation Administration, Western Region, and that, due to procurement time, 4,000 hours would be required to schedule the modification. The agency does not agree. Due to the scope of this modification, the equivalent modifications should be approved by the Chief, Aircraft Engineering Division, Federal Aviation Administration, Western Region. The procurement time was considered when the NPRM was published. The commentator did not substantiate need for an increase in compliance time and, therefore, the compliance time of 3,000 hours was retained.

One commentator suggested that the compliance time be reduced to 500 hours and that, until the accomplishment of the AD, flight attendants should be seated in a passenger seat as near as practical to floor-level exits. This comment was based on the results of the Ozark Air Lines 1968 Sioux City accident and other related problems (see below). The FAA does not agree with the comment as it pertains to a substantial reduction of the compliance time. The service experience does not convince the agency that more immediate regulatory action is warranted. This commentator also suggested that further consideration be given to the protruding cockpit door molding and the main cabin handle. While related to the problem, the agency has considered both of these installations and has determined that these installations need not be modified by way of an AD. This conclusion is, of course, subject to continuing review of the service experience.

One commentator proposed a relocation of the main cabin door handle. The NPRM concerns the entry door closing assist handle and not the main cabin door handle, and, therefore, the comment is not within the scope of the notice.

One commentator supported and endorsed the proposed rule.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

McDONNELL DOUGLAS. Applies to Model DC-9-10 series airplanes certificated in all categories.

Compliance required within the next 3,000 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent possible injury to the forward flight attendant, remove the entry door closing assist handle, P/N 3918664-1, and install a handle, P/N 3924268-1, per McDonnell Douglas Service Bulletin No. 25-31, dated May 4, 1966, or McDonnell Douglas Service Bulletin No. 25-185, dated March 31, 1972 or later FAA-approved revisions, or an equivalent modification approved by the Chief, Aircraft Engineering Division, FAA, Western Region.

This amendment becomes effective January 3, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on November 17, 1972.

ROBERT O. BLANCHARD,
Acting Director,
FAA Western Region.

[FR Doc.72-20548 Filed 11-29-72;8:48 am]

[Airspace Docket No. 72-WA-62]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Change to Waypoint Reference Facility

The purpose of this amendment to Part 75 of the Federal Aviation Regulations is to make a change of the reference facility for the Tucson, Ariz., waypoint from Phoenix, Ariz., to Tucson in area high route J903R.

V37-231 NOV 30 72 XUM

Since this change is minor in nature because neither the route nor the waypoint is moved and since no substantive change in the regulations is effected, notice and public procedure thereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective January 4, 1973.

The Phoenix reference facility cannot be used on J905R for the Tucson waypoint because of the lack of signal coverage. However, the Tucson reference facility can be used on both J903R and J905R for this waypoint.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., January 4, 1973, as hereinafter set forth.

Section 75.400 (37 F.R. 2400 and 5489) is amended as follows:

In J903R "Tucson, Ariz. 32°07'21'' N. 110°49'12'' W. Phoenix, Ariz." is deleted and "Tucson, Ariz. 32°07'21'' N. 110°49'12'' W. Tucson, Ariz." is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act 49 U.S.C. 1655(c))

Issued in Washington, D.C., on November 27, 1972.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release No. 34-9878]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Quarterly Statements Furnished to Customers of Broker-Dealers

The Securities and Exchange Commission announced today the adoption of an amendment to paragraph (n) of rule 17a-5 (17 CFR 240.17a-5) under the Securities Exchange Act of 1934. This amendment will modify the requirements of the recently adopted paragraphs (m) and (n), which were announced on June 30, 1972 in Securities Exchange Act Release No. 9658 (37 F.R. 14607).

Paragraph (n), as originally adopted, requires all broker-dealers subject to paragraph (k) of rule 17a-5 to furnish his customers, the Commission and all the self-regulatory organizations of which he is a member, each quarter a statement of financial condition and certain information respecting the firm's net capital and subordinated capital. As originally adopted, paragraphs (m) and (n) could, in some cases, operate to require the broker-dealer to furnish five financial statements to customers annually. Four such quarterly statements would be furnished pursuant to paragraph (n) and would be unaudited. A fifth audited statement would be furnished pursuant to paragraph (m), if the firm's annual audit did not fall at the end of a firm's calendar or fiscal quarter. This situation arises primarily as a result of the surprise audit requirement of several of the self-regulatory bodies. For firms not subject to a surprise audit requirement, the broker-dealer may have other compelling reasons to have its audit on a date which does not fall as of the end of a particular quarter. In addition it is conceivable for the rule to operate so as to have the broker-dealer mail such statements to its customers twice within the same quarter.

The Commission believes that it is important that customers of broker-dealers receive regularly certain information as set forth in paragraphs (m) and (n) of the rule concerning the financial and operating condition of the broker-dealer to whom they entrust their moneys or securities. The Commission also believes that more frequent statements would not materially assist customers of broker-dealers and may be unduly burdensome and expensive for the broker-dealer. Therefore, the Commission is adopting effective immediately an amendment to rule 17a-5(n) which will permit the substitution of the broker-dealer's annual audited statement prepared pursuant to paragraph (m) of the rule in lieu of one of the unaudited quarterly statements furnished customers pursuant to paragraph (n), provided the audited statement is as of the date not more than two months preceding the regular quarterly statements. The audited statement should be sent to those customers who would have received the quarterly unaudited statements required by paragraph (n). The effect of the amendment in most instances would require the particular broker-dealer to furnish customers and to file with the appropriate regional office of the Commission and the particular self-regulatory body of which it is a member four rather than five reports annually.

Commission action. Acting pursuant to the provisions of the Securities Exchange Act of 1934 and particularly sections 15(c)(3), 17(a), and 23(a) thereof, and deeming it necessary and appropriate in the public interest and for the protection of investors and also deeming such action necessary for the execution of its functions, the Securities and Exchange Commission hereby amends paragraph (n) of § 240.17a-5 of Chapter II of Title 17 of the Code of Federal Regulations, effective immediately, to read as follows:

§ 240.17a-5 **Reports to be made by certain exchange members, brokers and dealers.**

. . . . . .

(n) Every member, broker or dealer who is subject to paragraphs (k), (l) and (m) of this section shall furnish to his customers (as defined in paragraph (o) of this section) and shall file with the Commission and with the national securities exchange and the national securities association of which he is a member not later than 40 days after the end of each calendar quarter, fiscal quarter or quarter for which the member, broker or dealer is required to file substantially equivalent information with the national securities exchange or national securities association of which he or it is a member, the information specified in paragraphs (m) (1) and (2) of this section, except that such quarterly information shall not be required to be certified. If the annual report sent to customers pursuant to paragraph (m) of this section is as of a date not more than two months preceding the quarterly report required by this paragraph, no quarterly report need be sent for such quarter.

. . . . . .

Because the effect of the above described amendments would be to relax certain of the requirements of rule 17a-5 under the Act, the Commission finds that, for good cause, the notice and procedures specified in the Administrative Procedure Act (5 U.S.C. 553) are unnecessary, and accordingly it adopts the foregoing amendment effective immediately on November 24, 1972.

(Secs. 15(c)(3), 17(a), 23(a), 48 Stat. 895, 897, 901 secs. 3, 4, 8, 49 Stat 1377, 1379, secs. 2, 5, 52 Stat. 1075, 1078, sec. 7(d), 84 Stat. 1653, 15 U.S.C. 78o(c)(3), 78q(a), 78w)

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

NOVEMBER 24, 1972.

[FR Doc.72-20523 Filed 11-29-72;8:48 am]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

TERTIARY BUTYLHYDROQUINONE

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 1A2588) filed by Eastman Chemical Products, Inc., Kingsport, Tenn. 37662, and other relevant material, concludes that the food additive regulations should be amended, as set forth below, to provide for the safe use of tertiary butylhydroquinone (TBHQ) in food as an antioxidant alone or in combination with BHA and/or BHT, whereby the total antioxidant content of the food does not exceed 0.02 percent of its oil or fat content, including its essential (volatile) oil content.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 121 is amended by adding to Subpart D the following new section:

§ 121.1244 **Tertiary butylhydroquinone (TBHQ).**

The food additive tertiary butylhydroquinone (TBHQ) may be safely used in food in accordance with the following prescribed conditions:

(a) The food additive has a melting point of 126.5° C.–128.5° C.

(b) It is used as an antioxidant alone or in combination with BHA and/or BHT.

(c) The total antioxidant content of a food containing the additive will not exceed 0.02 percent of the oil or fat content of the food, including the essential (volatile) oil content of the food.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (11-30-72).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: November 24, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Chapter III—Special Action Office for Drug Abuse Prevention

PART 401—CONFIDENTIALITY OF DRUG ABUSE PATIENT RECORDS

Correction

In F.R. Doc. 72-19925 appearing at page 24636 of the issue for Friday, November 17, 1972, in the fourth line of § 401.44(a) the comma after the word "management" should be deleted.

Title 31—MONEY AND FINANCE

Chapter II—Fiscal Service, Department of the Treasury

SUBCHAPTER B—BUREAU OF THE PUBLIC DEBT

PART 344—REGULATIONS GOVERNING UNITED STATES TREASURY CERTIFICATES OF INDEBTEDNESS—STATE AND LOCAL GOVERNMENT SERIES, UNITED STATES TREASURY NOTES—STATE AND LOCAL GOVERNMENT SERIES, AND UNITED STATES TREASURY BONDS—STATE AND LOCAL GOVERNMENT SERIES

The regulations in Department of the Treasury Circular, Public Debt Series No. 3-72, as amended (31 CFR Part 344), have been retitled and further amended, as set forth below. The changes were effected under the authority of 26 U.S.C. 103(d), 83 Stat. 656; 31 U.S.C. 753, 754, 754b, and 5 U.S.C. 301. Notice and public procedures thereon are unnecessary as they relate to the fiscal policy of the United States.

Dated: November 21, 1972.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

Department of the Treasury Circular, Public Debt Series No. 3-72, dated May 22, 1972, as amended (31 CFR Part 344), is hereby further amended and issued as Department of the Treasury Circular, Public Debt Series No. 3-72, Revised.

Sec.
344.0 Offering of securities.
344.1 Description of securities.
344.2 Subscription for purchase.
344.3 Issue date and payment.
344.4 Redemption.
344.5 General provisions.

AUTHORITY: The provisions of this Part 344 issued under 26 U.S.C. 103(d), 83 Stat. 656; 31 U.S.C. 753, 754, 754b, and 5 U.S.C. 301.

§ 344.0 Offering of securities.

In order to provide States, municipalities, and other government bodies described in section 103(a)(1) of the Internal Revenue Code of 1954 and the regulations thereunder with investments tailored to their needs under those provisions, the Secretary of the Treasury offers, under the authority of the Second Liberty Bond Act, as amended—

(a) U.S. Treasury Certificates of Indebtedness—State and Local Government Series,

(b) U.S. Treasury Notes—State and Local Government Series, and

(c) U.S. Treasury Bonds—State and Local Government Series,

for sale to those entities. The term "government body" as used herein refers to any one of these entities. The term "securities" herein refers jointly to the certificates, notes, and bonds. This offering will continue until terminated by the Secretary of the Treasury.

§ 344.1 Description of securities.

(a) *General.* The securities will be issued in book-entry form on the books of the Department of the Treasury, Bureau of the Public Debt, Washington, D.C. 20226. They may not be transferred by sale, exchange, assignment or pledge, or otherwise.

(b) *Terms and rates of interest*—(1) *Certificates of indebtedness.* The certificates will be issued in multiples of $5,000 with periods of maturity fixed, at the option of the government body, for (i) 3 months, (ii) 6 months, (iii) 9 months, or (iv) 1 year. Each certificate will bear such rate of interest as the government body may designate, provided that it shall not be more than the current Treasury rate on a comparable maturity, reduced by one-eighth of 1 percent, on the date the subscription is submitted. The applicable Treasury rates will be determined by the Treasury not less often than monthly, and will be available at Federal Reserve Banks and Branches. Interest on the certificates will be computed on an annual basis and will be payable at maturity with the principal amount.

(2) *Notes.* The notes will be issued in multiples of $5,000 with periods of maturity fixed, at the option of the government body, from 1 year 6 months up to and including 7 years, or for any intervening half-yearly period. Each note will bear such rate of interest as the government body may designate, provided that it shall not be more than the current Treasury rate on a comparable maturity, reduced by one-eighth of 1 percent, on the date the subscription is submitted. The applicable Treasury rates will be determined by the Treasury not less often than monthly, and will be available at Federal Reserve Banks and Branches. Interest on the notes will be payable on a semiannual basis by Treasury check on June 1 and December 1, and at maturity if other than June 1 or December 1. Final interest will be paid with the principal.

(3) *Bonds.* The bonds will be issued in multiples of $5,000 with periods of maturity fixed, at the option of the government body, from 7 years 6 months up to and including 10 years, or for any intervening half-yearly period. Each bond will bear such rate of interest as the government body may designate, provided that it shall not be more than the current Treasury rate on a comparable maturity, reduced by one-eighth of 1

patient's progress appears to have sta- the care of patients. In foreign countries (b) Persons retired for physical dis-

V37-231 NOV 30 72 XUM

percent, on the date the subscription is submitted. The applicable Treasury rates will be determined by the Treasury not less often than monthly, and will be available at Federal Reserve Banks and Branches. Interest on the bonds will be payable on a semiannual basis by Treasury check on June 1 and December 1, and at maturity if other than June 1 or December 1. Final interest will be paid with the principal.

§ 344.2 Subscription for purchase.

A government body may purchase a security under this offering by submitting a subscription and making payment to a Federal Reserve Bank or Branch. The subscription, dated and signed by an official authorized to make the purchase, must state the amount, issue date, maturity, and interest rate of the security desired, and must give the title of the designated official authorized to redeem it. Separate subscriptions must be submitted for certificates, notes, and bonds, and for securities of each maturity and each interest rate. A commercial bank may act on behalf of a government body in submitting subscriptions.

§ 344.3 Issue date and payment.

The issue date of a security will be the date requested by the subscriber, provided that date is not more than 3 weeks after the date of the subscription, and provided funds in full payment are available on that date at the Federal Reserve Bank or Branch to which the subscription was submitted.

§ 344.4 Redemption.

(a) *At maturity.* A security may not be called for redemption by the Secretary of the Treasury prior to maturity. Upon the maturity of a security, the Treasury will make payment of the principal amount and interest to the owner thereof by Treasury check, or in accordance with other prior arrangements made by the government body with the Bureau of the Public Debt.

(b) *Prior to maturity.* (1) Securities may be redeemed at the owner's option on 2 days' notice after 1 month from the issue date in the case of certificates, and after 1 year from the issue date in the case of notes and bonds. Where redemption prior to maturity occurs, the interest for the entire period the security was outstanding shall be calculated on the basis of the lesser of (i) the original interest rate at which the security was issued, or (ii) an adjusted interest rate reflecting both the shorter period during which the security was actually outstanding and a penalty. The adjusted interest rate is the Treasury rate which would have been in effect on the date of issuance for a marketable Treasury certificate, note, or bond maturing on the quarterly maturity date prior to redemption (in the case of certificates), or on the semiannual maturity period prior to redemption (in the case of notes and bonds), reduced in either case by a penalty which shall be the lesser of (iii) one-eighth of 1 percent times the number of months from the date of issuance to original maturity, divided by the number of full months elapsed from the date of issue to redemption, or (iv) one-fourth of 1 percent. There shall be deducted from the redemption proceeds, if necessary, any overpayment of interest resulting from previous payments made at a higher rate based on the original longer period to maturity. A schedule showing the adjusted interest rates that apply to securities redeemed prior to their maturity dates will be available at the time of issuance of the securities. A notice to redeem a security prior to the maturity date must be given by the official authorized to redeem it, as shown in the subscription for purchase, to the Bureau of the Public Debt, Division of Securities Operations, Washington, D.C. 20226, by letter, wire, or telex, or by telephone confirmed by wire or telex. The telephone number is 202-964-7007, and the telex number is 892428.

§ 344.5 General provisions.

(a) *Regulations.* U.S. Treasury Certificates of Indebtedness—State and Local Government Series, U.S. Treasury Notes—State and Local Government Series, and U.S. Treasury Bonds—State and Local Government Series, shall be subject to the general regulations with respect to U.S. securities, which are set forth in the Department of the Treasury Circular No. 300, current revision (Part 306 of this chapter), to the extent applicable. Copies of the circular may be obtained from the Bureau of the Public Debt, Division of Securities Operations, Washington, D.C. 20226, or a Federal Reserve Bank or Branch.

(b) *Fiscal agents.* Federal Reserve Banks and Branches, as fiscal agents of the United States, are authorized to perform such services as may be requested of them by the Secretary of the Treasury in connection with the purchase of, and transactions in, the securities.

(c) *Reservations.* The Secretary of the Treasury reserves the right to reject any application for the purchase of securities hereunder, in whole or in part, and to refuse to issue or permit to be issued any such securities in any case or any class or classes of cases if he deems such action to be in the public interest, and his action in any such respect shall be final. The Secretary of the Treasury may also at any time, or from time to time, supplement or amend the terms of these regulations, or of any amendments or supplements thereto.

[FR Doc.72-20556 Filed 11-29-72;8:45 am]

Title 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

SUBCHAPTER B—SALES AND SERVICES

PART 815—PERSONS AUTHORIZED MEDICAL CARE

Miscellaneous Amendments

Subchapter B of Chapter VII of Title 32 of the Code of Federal Regulations is amended as follows:

Part 815 is amended as follows:

NOTE: Part 806 states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the manuals and regulations that are referenced herein.

1. Section 815.2 is revised to read as follows:

§ 815.2 Definitions.

Terms used in this part are explained as follows:

(a) *Armed Forces.* The Air Force, Army, Navy, Marine Corps, and Coast Guard including their Reserve components.

(b) *Bureau of Employees Compensation (BEC) Beneficiary.* A civilian employee, including a civilian officer, of the U.S. Government who is injured or incurs a disease in the performance of duty and is designated as a beneficiary by the Bureau.

(c) *Continental United States (CONUS).* United States territory including the adjacent territorial waters located within the North American continent between Canada and Mexico.

(d) *Dependents.* (1) Dependents of active duty or retired members of a uniformed service and dependents of a person who at the time of his death was an active duty or a retired member of a uniformed service are defined in AFR 168-9.

(2) The following definition is applicable to dependents authorized care under other sections of this part unless otherwise specified:

(i) Spouses.

(ii) Children as defined in AFR 168-9.

(iii) Dependent parents and parents-in-law as defined in AFR 168-9.

EXCEPTION: Parents (including stepparents and parents-in-law) and foster parents of the officer or employee listed in § 815.60a of this part when the parents are dependent on the officer or employee for over one-half of their support and are residing in his household overseas (authorized medical care but not at State Department expense).

(e) *Disability.* A disease, injury, or other physical or mental defect.

(f) *Elective medical care.* Medical, surgical, or dental care desired or requested by the individual or recommended by the physician or dentist which, in the opinion of the professional authority, can be performed at another time or place without jeopardizing life, limb, health, or well-being of the patient. An example is surgery for cosmetic purposes. Certain nonessential dental prosthetic appliances, as determined by a dental officer, also fall into this category.

(g) *Emergency medical care.* The immediate inpatient or outpatient medical care required to prevent loss of life, limb, or undue suffering.

(h) *Hospital Commander.* The director of base medical service/commander of base medical unit, of hospitals or dispensaries, as appropriate.

(i) *Maximum hospital benefit.* That point during hospitalization when the patient's progress appears to have stabilized and it can be anticipated that additional hospitalization will not directly contribute to any further substantial recovery. A patient who will continue to improve slowly over a long period of time without specific therapy or medical supervision, or with only a moderate amount of treatment on an outpatient basis, may be considered as having attained maximum hospital benefit.

(j) *Medical care.* Inpatient, outpatient, dental care, and related professional services, unless otherwise qualified.

(k) *Member of a uniformed service.* A person appointed, enlisted, inducted, called, ordered, or conscripted into a uniformed service who is serving on active duty or active duty for training.

(l) *Optimum hospital improvement for disposition purposes.* That point during hospitalization when, after essential initial medical treatment, the patient's medical fitness for further active service can be determined, and it is considered probable that further treatment for a reasonable period will not result in any material change in the patient's condition which would alter his ultimate type of disposition or amount of separation benefits.

(m) *Retired member of a uniformed service.* A member or former member of a uniformed service entitled to retired or retainer pay, or equivalent pay, as a result of service in a uniformed service.

(n) *Routine dental care.* All the medical, surgical, and restorative treatment of oral diseases, injuries, and deficiencies that come within the field of dental and oral surgery as commonly practiced by the dental profession.

(o) *Uniformed services.* The Air Force, Army, Navy, Marine Corps, Coast Guard, the Commissioned Corps of the Public Health Service, their respective components, and the Commissioned Corps of the National Oceanic and Atmospheric Administration (formerly Environmental Science Services Administration).

(p) *United States.* The 50 States and the District of Columbia.

(q) *Veteran.* A person who served on active duty in the Armed Forces and was discharged or released therefrom under conditions other than dishonorable.

(r) *Veterans' Administration beneficiary.* A veteran who is entitled to certain medical care in a Veterans' Administration hospital.

2. Section 815.3 is revised to read as follows:

§ 815.3 Policies.

(a) The hospital commander is the authority to approve medical care. He may provide medical care at his facility for authorized patients who are not uniformed services personnel if space and facilities are available and the capabilities of the professional staff permit. However, such persons must furnish the commander with satisfactory identification to prove their eligibility. Medical commanders are authorized to correspond direct with other medical authorities on the care of patients. In foreign countries the laws (customs and practices) of the host country must be complied with and local customs and practices considered when applying this part so that the operating rights and status of personnel under international agreements are not jeopardized.

(b) Patients authorized only emergency care and those admitted as civilian emergencies will be treated only during the period of the emergency. As soon as the emergency period ends, the patients will be discharged, if medically indicated, or transferred if civilian medical facilities are available and adequate as determined by the local hospital commander. These disposition instructions are applicable in all emergency cases unless otherwise specified in this part. The registrar and medical resource management officer will insure complete identification of these patients before disposition. Identification should not be limited to data supplied by the patient, such as home address or location of emergency addressee. Accurate, complete identification should be ascertained from identification cards, drivers' licenses, medical insurance cards, copies of discharge papers, social security cards, etc. If feasible, this information should be verified through visitors to the patient or by contacting the emergency addressee.

(c) Persons not authorized care in Air Force medical treatment facilities by law or regulation will be charged the full reimbursement rate for the type of care provided except when charges are waived by the Secretary of the Air Force or the appropriate oversea commander or when provided medical treatment in conjunction with natural disaster relief operations. See AFR 168-7 for rates applicable to specific categories of patients, including patients in transit in the aeromedical evacuation system.

(d) Air Force medical treatment facilities operating food service activities will collect and deposit subsistence charges according to AFM 168-4, chapter 10. If the medical facility does not operate a food service activity, it will charge inpatients according to Part 814 of this subchapter. In either case, the rate charge for subsistence furnished to persons in patient status who are not entitled to subsistence at Government expense will be according to rates in AFR 168-7.

3. Section 815.10 is revised to read as follows:

§ 815.10 Retired members of a uniformed service (§ 815.2(m)).

Medical care is authorized for retired members, subject to the applicable conditions indicated below:

(a) Persons retired for other than physical disability are entitled to the same health benefits in uniformed services facilities as active duty members, subject to the availability of space and facilities and the capabilities of the professional staff, and to the priorities cited in AFR 168-9, paragraph 4-2, September 15, 1970.

(b) Persons retired for physical disability:

(1) *Temporary retirement (periodic medical examinations).* Temporarily retired members who require hospitalization in connection with the conduct of periodic medical examinations.

(2) *Temporary or permanent retirement (less than 20 years of active duty).* Members temporarily or permanently retired for physical disability or receiving disability retirement pay, with less than 20 years of active duty, except hospitalization for the following chronic conditions: chronic arthritis, malignancy, phychiatric or neuropsychiatric disorder, neurological disabilities, poliomyelitis with disability residuals and degenerative disease of the nervous system, severe injuries to the nervous system including quadriplegia, hemiplegia, and paraplegia, tuberculosis, blindness and deafness requiring definitive rehabilitation, and major amputees (hospitalization for the above conditions is the responsibility of the Veterans' Administration).

(3) *Temporary or permanent retirement (20 years or more of active duty).* Members temporarily or permanently retired for physical disability or receiving disability retirement pay, with 20 years or more of active duty, except those with blindness, neuropsychiatric or psychiatric disorders, and tuberculosis (hospitalization for the above conditions is the responsibility of the Veterans' Administration).

(c) Persons mentioned above who are eligible for medical care in uniformed services facilities may be moved between such facilities and from uniformed services facilities overseas to continental U.S. facilities, when directed in writing by competent medical authority.

NOTE: A member temporarily or permanently retired for physical disability electing to receive disability compensation from the Veterans' Administration in place of retired pay is eligible for care in uniformed services medical facilities, except for those chronic conditions listed in subparagraph (2) of paragraph (b) of this section. A member removed from the temporary disability retired list and discharged with severance pay is not eligible for medical care in uniformed services facilities at the expense of the Air Force even though he is entitled to and receives disability compensation from the Veterans' Administration.

4. Section 815.11 is amended by revising paragraphs (a)(2) and (b)(1) to read as follows:

§ 815.11 VA beneficiaries.

(a) • • •

(2) Veterans admitted to Air Force hospitals on an emergency basis may or may not be eligible Veterans' Administration beneficiaries. However, if the patient is a veteran, the hospital commander will notify the responsible VA field station of the admission within the required 72-hour period and request written authorization and disposition instructions. Notification should include a copy of the individual's discharge certificate, order for release from active

first sentence of paragraph (c) to "§ 815.

care upon presentation of written au-

uation, will be released to the custody

V37-231 NOV 30 72 XUM

duty under other than dishonorable conditions, or evidence of receipt of VA compensation or discharge for disability incurred or aggravated in line of duty, if available.

(b) * * *

(1) Veterans of the Armed Forces who are U.S. citizens residing or sojourning abroad may be provided medical care for service connected disabilities on presentation of a signed authorization. The responsibility for authorizing medical care in foreign countries is vested in:

(i) Republic of the Philippines: Director, Outpatient Clinic, United States VA Regional Office, APO San Francisco 96528.

(ii) All other foreign countries: Veterans' Administration Hospital, 50 Irving Street NW., Washington, DC 20422.

* * * * *

5. The title of Subpart C is amended to read as follows: Subpart C—Reserve Officers Training Corps, Junior Reserve Officers Training Corps, Civil Air Patrol, and Scouts of America.

6. Section 815.20 is amended by revising paragraphs (c) and (e) to read as follows:

§ 815.20 Senior Reserve Officers Training Corps members (ROTC), Air Force, Army, and Navy (includes advanced course applicants, 10 U.S.C. 2104b(6)(B)).

* * * * *

(c) Air Force ROTC members may require civilian medical attendance during their training period if medical facilities of the uniformed services or other Government agencies are not readily available. However, prior approval must be obtained for such civilian medical attendance (Part 880 of Subchapter I of this chapter).

* * * * *

(e) When directed by competent orders, ROTC students at colleges, universities, or other institutions may be given physical examinations at Air Force medical facilities, if available. When the Air Force facility does not have the capability to complete the examination, supplemental care is authorized if it is more economical than to transport the member to another Armed Forces medical facility. Hospitalization is authorized when qualification for service cannot otherwise be determined. This period is to be used for diagnostic purposes only, not to correct disqualifying defects. Hospitalization furnished such individuals for emergency conditions occurring during the physical examination period will be administered as stated in § 815.86.

* * * * *

7. Sections 815.21 and 815.22 are revised and redesignated to §§ 815.22 and 815.23 and a new § 815.21 is added to read as follows:

§ 815.21 Junior Reserve Officers Training Corps (JROTC) members, Air Force, Army, and Navy.

Members of JROTC units, Air Force, Army, and Navy, are authorized hospitalization and medical care in emergencies occurring while participating in base visits at Air Force installations. Hospitalization beyond the period of emergency or medical care at other than Air Force medical facilities is not authorized at Air Force expense.

§ 815.22 Civil Air Patrol (CAP) members.

(a) CAP membership is divided into two groups:

(1) *Seniors.* Adults over 18 years of age.

(2) *Cadets.* Boys and girls who are U.S. citizens and have passed their 13th birthday or (if younger) are enrolled in high school or its equivalent (grade 9 or above) and are not more than 20 years of age. A cadet may become a senior member when he is 18 years old, but this status change is not mandatory.

(b) During a period of specified assignment, a senior CAP member may be provided medical care in an Air Force medical treatment facility for injury or disease incurred while he was engaged in authorized activities without regard to line of duty status (Part 832 of Subchapter C of this chapter). Authorized activities are those performed under Air Force direction and authorized in writing by competent authority. Such authorization must cover a specific assignment and prescribe a time limit for the assignment.

(c) A senior member who is injured or contracts a disease in line of duty and who receives medical care beyond the period of specified assignment will be reported to the Bureau of Employees' Compensation as a potential beneficiary of that Bureau (Subpart E of this part). The benefits of the Federal Employees' Compensation Act have been extended by law (5 U.S.C. 8141) to include senior CAP members who are injured or who contract disease in line of duty while engaged in authorized activities. Such duty includes the period of travel to and from the place where service or duty is performed. Medical care beyond the authorized encampment period will not be provided at Air Force expense.

(d) Charges for medical care provided beyond the period of specified assignment for injury or disease incurred not in line of duty will be the responsibility of the patient.

(e) When attending encampments at Air Force installations, cadets will be provided medical care in an emergency. Senior member benefits do not apply to CAP cadets. Treatment required beyond the encampment period will be provided only until medical care can be arranged elsewhere and will not be provided at Air Force expense.

(f) Medical care is not authorized at Air Force expense in other than Air Force medical facilities for either senior or cadet members.

(g) Prior written authorization from the Air Force liaison officer of the CAP wing to which the member is assigned is required for admission to an Air Force medical facility, except in an emergency. In an emergency, written authorization is obtained with the least practicable delay.

§ 815.23 Scouts.

Boy Scouts of America, including Explorer Scouts, and Girl Scouts of the United States of America may be provided medical care in emergencies occurring while the scouts are participating in visits, training exercises, and encampments at Air Force installation. Hospitalization beyond the period of emergency or medical care at other than Air Force medical facilities is not authorized at Air Force expense.

8. Section 815.30 is revised to read as follows:

§ 815.30 Applicants for enlistment or commission.

(a) Physical examinations for determining qualification for duty in the uniformed services will be provided for:

(1) Personnel ordered into active service under the Military Selective Service Act.

NOTE: Selective Service registrants who suffer illness or injury while acting under orders issued under the Military Selective Service Act are entitled to emergency medical care, including hospitalization (50 U.S.C. App 461).

(2) Applicants for enlistment or commission.

(3) Applicants for Air Force, Military, Naval, and Coast Guard Academies.

(4) Reservists not on active duty as required by AFR 160–19.

(5) Aerospace medicine consultation service for Reservists as required by AFR 161–23.

When supplemental services are considered essential for the proper evaluation of an applicant for the service academies or for commission or enlistment, but are not available at the military facility, the facility may procure these necessary services from local civilian sources utilizing local funds. Hospitalization is authorized when qualification for service cannot otherwise be determined. This period is to be used for diagnostic purposes only, not to correct disqualifying defects. Medical care including hospitalization, may be furnished such individuals for emergency conditions occurring during the physical examination period.

(b) In addition to the above, applicants for the Air Force Academy may be afforded emergency hospitalization and treatment for injury incurred in the actual performance of physical aptitude examinations while at an Air Force facility. Hospitalization should not exceed 3 days. If final disposition cannot be effected within this period, instructions should be obtained from HQ USAF/SGHM, Washington, D.C. 20314.

§ 815.31 [Amended]

9. Section 815.31 is amended by changing the last sentence of paragraph (c) to: "If the mother is discharged from the hospital and the infant must remain, charges will be at the infant rate."

§ 815.40 [Amended]

10. Section 815.40 is amended by changing the section reference in the first sentence of paragraph (c) to "§ 815.22(b)."

11. Section 815.41 is revised to read as follows:

§ 815.41 Administrative procedures.

(a) Except in an emergency, persons in § 815.40 applying for medical care in an Air Force facility must present three copies of form CA 16, "Request for Examination and/or Treatment" (AFR 40–810). The supervisor or commander of the person applying for care will prepare this form. In an emergency, medical care (including hospitalization) may be furnished upon verbal authorization of the applicant's official supervisor. However, form CA 16 will be required for the responsible individual within 48 hours after verbal authorization. The date entered on the form will be the date of hospitalization or treatment.

NOTE: A CA form 16 is not required when only first aid treatment is provided civilian employees, since the Air Force does not charge the Federal Employees' Compensation Fund for such treatment. A CA form 16 is required if there is to be prolonged treatment, disability for work beyond the day of injury, recurrence of disability, or a charge to the Compensation Fund for medical treatment or supplies.

(b) Form CA 20, "Attending Physicians' Report," will be submitted to the BEC on all cases which result in charges for treatment or supplies against the BEC or which involve any loss of time beyond the day, shift, turn, or working period during which the injury occurs. Also, a copy of SF 502, "Clinical Record-Narrative Summary," will be submitted to the bureau on all hospitalized cases at the time of discharge. An interim SF 502 should be forwarded to the bureau after 30 days in hospitalized cases of extended duration.

(c) Form CA 20 pertaining to ROTC and CAP members should be submitted to the appropriate district BEC office through the local commander of the unit concerned. Air Force civilian personnel officers will, upon request, assist the claimant and the unit commander in carrying out their responsibilities.

(d) Payment for hospitalization not approved by BEC is the responsibility of the person receiving the care and will be collected locally. Sections 815.74 and 815.86, as appropriate, applies.

12. Section 815.50 is amended by revising paragraph (i) to read as follows:

§ 815.50 Persons eligible for care.

* * * * *

(i) Civilian seamen in service of ships operated by the Army or Military Sealift Command within the United States and its possessions.

* * * * *

13. Section 815.52 is amended by revising paragraph (a) to read as follows:

§ 815.52 Certain seamen.

(a) Civilian seamen in service of ships operated by the Army or Military Sealift Command outside the United States and its possessions may be provided medical care upon presentation of written authorization from the ship's master or appropriate Army authority (where the ship is in the service of the Army) or other administrative authority in case of Military Sealift Command ships. Seamen with injury or disease incurred in the course of employment should be administered as BEC beneficiaries (subpart E). Dental care is limited to relief of emergencies.

* * * * *

14. Section 815.60 is revised to read as follows:

§ 815.60 Department of State beneficiaries.

(a) *Outside the Continental United States.* (1) Officers and employees (U.S. citizens) of the agencies listed in this subparagraph serving abroad and dependents residing abroad with their sponsor may be provided medical care (including physical examinations and immunizations) in Air Force medical facilities at the expense of the State Department. Dental treatment at State Department expense is authorized only for conditions resulting in hospitalization or when required for posthospitalization follow-up.

(i) Department of State.

(ii) U.S. Information Agency (USIA).

(iii) U.S. Agency for International Development (AID). (AID contractor employees and their dependents are not entitled to medical care at State Department expense.)

(iv) Foreign Agriculture Service, Department of Agriculture (USDA).

(v) Federal Aviation Administration (FAA).

(vi) Bureau of Public Roads, Department of Commerce.

(vii) U.S. Geological Survey employees detailed to an oversea assignment under AID auspices.

(viii) Staff members of the Peace Corps. (Peace Corps volunteers, volunteer leaders, and their dependents are not included here.)

(ix) Such other agencies as may from time to time be included in the Foreign Service's Medical Program.

(2) Except in an emergency, medical treatment must be authorized in writing by a principal or administrative officer of an established State Department foreign service post before treatment is initiated. In an emergency, such approval will be obtained as soon as possible.

(3) Elective medical or surgical treatment will not be authorized unless the hospital commander concerned believes that the patient requires such elective treatment to adequately perform his assigned duties and return to the United States for medical reasons would otherwise result. Dental care is limited to relief of emergencies.

(4) Persons specified in subparagraph (1) of this paragraph requiring hospitalization for a prolonged period may be returned to the continental United States upon the written request of the sponsoring agency.

(5) Dependent patients requiring prolonged hospitalization, who decline evacuation, will be released to the custody of their sponsor. Readmission for the same condition is authorized only to prevent loss of life or undue suffering.

(6) Authorization for medical care of dependents at State Department expense normally is limited to 120 days for each illness or injury. The 120 days cover the days for which expenses for treatment are incurred and need not be consecutive. Medical care beyond the 120 days may not be provided at State Department expense, except upon written authorization of the principal or administrative officer of the foreign service post concerned.

(7) If persons listed in subparagraph (1) of this paragraph are furnished medical care which is not authorized at State Department expense, § 815.74 applies.

(8) Problems encountered in collecting locally from officers, employees, or dependents hospitalized for care not authorized at State Department expense will be referred to the immediate supervisor of the officer, employee, or sponsor.

(b) *Within the continental United States.* Upon prior written request of the State Department medical director (or appropriate official of the agency concerned), the following medical services may be provided in Air Force medical facilities within the continental United States:

(1) Pre-employment physical examinations and necessary immunizations of applicants for appointment as officers and employees in the foreign service of the agencies listed in paragraph (a)(1) of this section.

(2) Pre-embarkation and periodic physical examinations and immunizations for officers, employees, and eligible dependents. The written request will include instructions for disposition of the SF 88, "Report of Medical Examination," and SF 93, "Report of Medical History."

(c) Upon written authorization provided by the State Department medical director, or a principal or administrative officer of the foreign service post concerned, persons listed in paragraph (a)(1) of this section may be provided medical care in the continental United States at State Department expense for illness or injury incurred overseas.

15. Section 815.61 is amended by revising the introductory text to read as follows:

§ 815.61 VA employees and their dependents in oversea office.

U.S. citizen employees of VA assigned to the oversea U.S. regional office, Republic of the Philippines, and their dependents, may be provided medical care, except as indicated in paragraph (a) of this section. The U.S. VA Regional Office, APO San Francisco 96528, will provide written authorization for care for beneficiaries mentioned above prior to their admission and will furnish evacuation and disposition instructions for patients being returned to the continental United States by aeromedical evacuation. In an emergency, approval will be obtained in writing as soon as practicable.

* * * * *

23. Section 815.76 is revised to read as

provided hospitalization in Air Force

§ 815.82 Alien scientific and technologi-

V37-231 NOV 30 72 XUM

16. Section 815.62 is revised to read as follows:

§ 815.62 Peace Corps volunteer personnel and their dependents.

(a) *Within the continental United States.* (1) Peace Corps volunteer applicants (volunteers and volunteer leaders) may be provided preselection physical examinations at Air Force hospitals and clinics/dispensaries.

(2) The above-mentioned persons will apply to the medical installation for appointment, with a letter of authorization, SFs 88 and 93, detailed instructions regarding examinations required, necessary qualifications, and disposition of the two forms.

(3) Air Force physicians are not required to assess the qualifications of individuals.

(4) Hospitalization is not authorized in conjunction with these examinations.

(5) Immunizations are authorized upon special request of the Peace Corps.

(6) Upon request of the Peace Corps, separation or other special physical examinations may be provided for volunteer and volunteer leaders, and dependents of volunteer leaders. Instructions are contained above at (a).

(7) Medical care for illness or injury occurring during the training period may be provided volunteers and volunteer leaders but not dependents. A volunteer leader, upon approval at Department level, requests should be referred by the most expeditious means to HQ USAF/SGHM.

(b) *Outside the Continental United States.* (1) Volunteers, volunteer leaders, dependents of volunteer leaders and Peace Corps trainees may be provided medical care at Peace Corps expense when requested in writing by a representative of the physician of a Peace Corps medical service post. In an emergency, approval will be obtained in writing as soon as possible.

(2) Volunteers and volunteer leaders, and dependents of volunteer leaders, may be provided termination physical examinations. In most cases these examinations will be conducted by Peace Corps staff physicians; however, assistance may be requested for ancillary services. Reimbursement for the examination, if available in part, will be at the outpatient rate for each individual. Request for payment will be sent to the Peace Corps Medical Program Division, Washington, D.C. 20525.

§ 815.70 [Amended]

17. Section 815.70 is amended by correcting the reference to "SF–89" in paragraphs (a)(1) and (b)(1) to read "SF–93."

§ 815.71 [Amended]

18. Section 815.71 is amended by changing the office symbol reference in paragraph (b) to read "HQ USAF/SGHC."

19. Section 815.72 is revised to read as follows:

§ 815.72 Secret Service special agents.

Upon presentation of a letter of authority from the Chief, U.S. Secret Service, special agents of that agency may be provided routine annual physical examinations in Air Force medical facilities. The examinations will be conducted and recorded in the same manner as the periodic medical examinations provided nonflying officers. Examinations will be conducted on an outpatient basis only. If hospitalization for diagnostic purposes is considered desirable, a statement to that effect is placed in item 73 or 75, as appropriate, of the SF 88. The SF's 88 and 93 (one copy of each) are forwarded to the Chief, U.S. Secret Service, Treasury Department, Washington, D.C. 20220.

§ 815.73 [Amended]

20. Section 815.73 is amended by changing the reference to "SF–89" to read "SF–93" in paragraphs (a), (b) and subparagraphs (1) and (2) of paragraph (c).

21. Section 815.74 is revised to read as follows:

§ 815.74 Department of Defense and other U.S. Government agency employees paid from appropriated and nonappropriated funds and their dependents outside the United States.

(a) Unless otherwise specified in this part, U.S. citizens who are employees of the Department of Defense or other Federal agencies (paid from appropriated or nonappropriated funds), and their dependents, stationed outside the United States, may receive medical care in Air Force facilities. Routine dental care is on a space available basis within capabilities as determined by the base dental surgeon. When capabilities do not exist, dental care will be limited to relief of emergencies. In Puerto Rico, only those serving under a current transportation agreement are eligible for such medical and dental care.

(b) Non-U.S. citizen civilian employees of the Department of Defense paid from appropriated or nonappropriated funds and their dependents may receive medical care in Air Force medical facilities when civilian facilities are not available or are not adequate. Charges will be imposed at the special reimbursement rate per inpatient day and at the special outpatient rate per outpatient visit as prescribed in AFR 168–7 except when:

(1) It is determined by the overseas major commander that salary rates paid non-U.S. citizen personnel are inadequate for a charge at the special reimbursement rate. In such instances, the only charge will be for subsistence.

(2) Other official agreements are made to provide medical care without charge.

(c) U.S. citizen employees of the Department of Defense or their dependents may be returned to the continental United States in a patient status. Before transfer, the patient or next of kin will make arrangements for continuing the required medical care in the continental United States.

(d) Subpart E of this part applies when an employee, paid from appropriated funds, is a potential BEC beneficiary.

22. Section 815.75 is revised to read as follows:

§ 815.75 Federal civilian employees health program.

Civilian employees of the Government paid from appropriated funds, and employees of Government-owned and controlled corporations are entitled to outpatient type care for on-the-job illnesses and injuries and for other outpatient care as set forth below. Employees on temporary duty at locations other than their permanent duty station are entitled to the same outpatient type care.

(a) Preemployment physical examinations, including related medical services required to complete the examinations.

(b) Immunization of employees and their dependents when authorized by AFR 161–13.

(c) Examinations following sickness absenteeism, when indicated.

(d) Examinations, when indicated, upon request of the employee's superior or competent medical authority.

(e) Periodic examinations to determine effect of environment.

(f) Emergency care for nonservice connected illness or injury. When admission is for 24 hours or more, personnel will be administered according to § 815.86 unless they are otherwise entitled to such care. Employees who are injured or become ill while on temporary duty may be transported in the aeromedical system when a medical reason exists and commercial transportation is not available. Transportation is chargeable to the accounting classification appearing on the employee's TDY orders.

(g) Treatment of minor illnesses during work hours when necessary to alleviate pain or when illnesses would require a disproportionate amount of time lost from the job.

(h) Upon the specific request of a local physician special treatments on an outpatient basis are permitted to prevent loss of time from duty. Medicines needed for such treatments will be furnished by the employee, but will be administered without charge.

(i) Supplemental care is authorized, utilizing funds locally available to the medical facility, in performing special fitness-for-duty type examinations for civilian employees now on duty as well as for applicants for employment. In each instance, the examination should be justifiable on the ground of being necessary to determine if the physical condition of the employee or applicant for employment, such as, for example, physically handicapped persons, is commensurate with or will be aggravated by employment or will jeopardize the safety of the individual or his fellow employees. In each instance, there should be no otherwise available local Government personnel and facilities adequate to perform the particular examination.

23. Section 815.76 is revised to read as follows:

§ 815.76 Physical examinations for special categories of personnel.

Examinations are confined to those required by Air Force or major command directives and examinations considered necessary by the medical facility commander. When physical examinations are beyond the capability of the Air Force medical facility, every effort should be made to have the examination performed by another uniformed services facility. Supplemental care is authorized, when necessary, using funds locally available to the medical facility.

(a) Preemployment and periodic physical examinations may be provided for:

(1) Contract food service employees.

(2) Base exchange employees and base exchange concessionaire employees.

(3) Officer, noncommissioned officer, and service club employees.

(4) Schoolteachers when employed on base or in oversea areas when employed in Armed Forces schools operated by a U.S. military department.

(5) Employees of civilian contractors when employed in a position that requires exposure to occupational hazards, that is, laser energy, toxic substances, etc., to such a degree that special physical examinations are required.

(b) Domestic servants employed by Armed Forces personnel may be given health inspections and immunizations in Air Force medical facilities at Government expense when required by command directives as a condition of employment. In instances outside the United States where health inspections and immunizations are not required as conditions of employment, these services may be provided without charge, upon the request of the sponsor, when the local director of base medical services deems that their provision is in the best interest of the health of the command. Health inspections are performed to insure that communicable disease will not go undetected at an Armed Forces installation. Medical care is not authorized in connection with these health inspections and only those procedures necessary to establish the presence or absence of communicable disease are carried out.

(c) Medical examinations in connection with disability retirement may be furnished civilian employees of all Federal agencies without charge when such examinations are requested by authorized representatives of the U.S. Civil Service Commission.

EXCEPTION: When hospitalization is necessary to the proper conduct of these examinations, subsistence charges will be collected locally from the person concerned. Hospitalization is authorized for diagnostic purposes only, not to correct disqualifying defects.

24. A new § 815.77 is added under Subpart H to read as follows:

§ 815.77 Social Security beneficiaries.

In an emergency, beneficiaries of the Social Security Health Insurance Program for the Aged (Medicare) may be provided hospitalization in Air Force medical treatment facilities within the United States and Puerto Rico. Social Security Medicare benefits are not authorized outside the United States other than in Puerto Rico. Emergency services under Medicare are defined as those services that are necessary to prevent death or serious impairment of the health of the individual, and which, because of the threat to life or health, necessitate the use of the most accessible hospital available that is equipped to furnish such services. Benefit payments under Medicare for emergency services can be made for only that period of time during which the emergency continues. Therefore, when the emergency is terminated and it is permissible from a medical standpoint, the patient should be discharged or transferred to a hospital participating in Medicare. The Social Security Administration local office will be notified as soon as possible after emergency admission of a social security beneficiary. DD Form 7 or 7A will be forwarded to HQ USAF SGHC for central collection at the full reimbursement rate (include Medicare number and home address on the forms).

25. Section 815.80 is revised to read as follows:

§ 815.80 American National Red Cross personnel, their dependents, and other officially recognized welfare workers.

Such persons are authorized medical care subject to applicable conditions indicated below:

(a) *Red Cross personnel.* (1) Uniformed and nonuniformed, full-time, paid professional field and headquarters staff when on duty with a uniformed service.

(2) Uniformed, full-time, paid secretarial and clerical workers on duty outside the continental United States.

(3) Nonuniformed, full-time, paid secretarial and clerical workers on duty in Red Cross offices at installations within the United States, and volunteer workers, uniformed and nonuniformed both within and outside the continental United States. Medical care for these categories of personnel will be limited to care for injuries sustained in the course of performance of their duties at uniformed services facilities.

(b) *Dependents of Red Cross personnel.* Dependents of Red Cross personnel listed in paragraph (a)(1) and (2) of this section are authorized medical care on a space available basis when accompanying their sponsors outside the United States.

(c) *Other officially recognized welfare workers and non-Red Cross volunteer workers.* For injury sustained in the course of performance of their duties at uniformed services facilities.

26. Section 815.82 is amended by revising the introductory text of paragraph (e), adding a sentence to the end of subparagraph (4) of paragraph (e), and adding new paragraphs (f) and (g) to read as follows:

§ 815.82 Alien scientific and technological specialists; employees of commercial airlines; civilian employees of "Cost-Plus-A-Fixed-Fee" contractors; and certain civilians (U.S. citizens) outside CONUS.

* * * * *

(e) The following personnel who assist the oversea commander in accomplishing his mission may be furnished emergency hospitalization and medical treatment. Reimbursement for hospitalization will be obtained whenever the recipient has health or medical insurance which covers the type of medical care provided. Where the recipient has no health or medical insurance coverage, the charge will be for subsistence only. Medical care is not authorized during delays en route except when such delays are for the convenience of the Department of Defense or the Department of State:

* * * * *

(4) Representatives of the United Service Organization, other social agencies, and educational institutions (Exception: Paragraph (f) of this section.)

* * * * *

(f) Hospitalization and medical care on a space available basis may be provided USO professional personnel (oversea area executives, club directors, and associate club directors) and their accompanying dependents without charge (except subsistence which will be collected locally).

(g) Persons listed in paragraphs (e) and (f) of this section may be furnished immunizations prior to departure from CONUS at no charge.

27. Section 815.85 is revised and redesignated to § 815.86 and a new § 815.85 is added to read as follows:

§ 815.85 Claimants whose claims are administered by Federal departments and claimants who are proposed beneficiaries of private relief bills.

(a) *Air Force.* So the nature and extent of the injuries or disabilities claimed may be determined, civilian claimants may be furnished medical examinations and hospitalization incident thereto, without charge except for subsistence, upon written request from the Air Force activity responsible for administering the claim. Subsistence charges will be collected locally.

(b) *Other Federal departments.* So the nature and extent of the injuries or disabilities claimed may be determined, civilian claimants may be furnished medical examinations without charge upon written request from the Federal department responsible for administering the claim. When hospitalization is necessary to the proper conduct of these examinations, DD Form 7 will be forwarded to HQ USAF/SGHCA for reimbursement action.

(c) *Private relief bills.* So the nature and extent of the injuries or disabilities claimed may be determined, claimants who are proposed beneficiaries of private relief bills based on injuries or disabilities allegedly arising from the operation

Privilege Card." Each card will indicate

33. Section 815.100 is revised to read as

outside the Department of Defense, the

level of command by personnel assigned

V37-231 NOV 30 72 XUM

of the defense establishment may be furnished medical examinations and hospitalization incident thereto, without charge except for subsistence. Subsistence charges will be collected locally.

§ 815.86 Persons not included elsewhere.

(a) Any person may be admitted to an Air Force medical facility in an emergency upon the approval of the hospital commander or his designated representative (§ 815.3(b)). The full reimbursement rate specified in AFR 168–7 applies and will be collected locally from the individual. If collection cannot be accomplished, accounts should be processed according to AFM 168–4, chapter 10.

(b) Civilian patients hospitalized as a result of natural disaster, as defined in AFM 355–1, will be billed for subsistence only. There will be no charge for outpatient care.

28. Section 815.90 is amended by adding new paragraphs (c), (d), and (e) to read as follows:

§ 815.90 The Secretary of the Air Force and designees.

* * * * *

(c) The Secretary of the Air Force authorizes former Presidents of the United States, and their wives, widows, and minor children to receive medical care in Air Force medical facilities without advance written approval. Medical facilities will immediately notify HQ USAF/SGH of persons treated under this authorization. At the time of treatment, SGH will determine the charges (if any).

(d) The Secretary of the Air Force authorizes active members of the U.S. Senate and of the U.S. House of Representatives (dependents excluded) to receive medical care in Air Force medical facilities without advance written approval. Medical facilities will immediately notify HQ USAF/SGH of persons treated under this authorization. Unless specifically authorized otherwise by the Secretary, the full reimbursement rate or the full outpatient rate, whichever is applicable, will be collected locally from each person.

(e) The Secretary of the Air Force authorizes preadoptive children of active duty and retired members to receive medical care in Air Force medical facilities upon prior application to the medical facility commander and approval of the local staff judge advocate. Care is authorized at the rate charged military dependents.

(1) To apply for medical care as a Secretary of the Air Force designee the sponsor must submit a request to the medical facility commander with the following information:

(i) The name of the prospective adoptee.

(ii) The sponsor's name, rank, social security account number and organization, or address for retirees.

(iii) A notarized, acknowledged, or photostat copy of the legal decree or other instrument issued by a court of law or adoption agency which awarded custody for the purpose of adoption.

(iv) The date of placement and expected date of final adoption.

(v) A statement that no other organization is obligated to furnish medical care for the child.

(2) After the medical facility commander makes his determination as to whether or not the child fits within this class of Secretarial designee, he will indorse the application to the local staff judge advocate for decision. If approved, the application will be so annotated by the staff judge advocate and returned to the medical facility. A copy will be provided to the sponsor and the original retained on file in the medical facility until the adoption is final. It may then be destroyed.

(3) Responsibility for approval will not be delegated below the medical facility commander.

(4) Applications for medical care of foster children, wards, or those under the care of a legal guardian are not considered under this paragraph.

29. Section 815.95 is revised to read as follows:

§ 815.95 North Atlantic Treaty Organization (NATO) personnel in the United States.

(a) Military personnel of the following NATO nations, who in connection with their official duties are stationed in, or passing through the United States, and their dependents residing in the United States with their sponsors may be provided medical and dental care to the same extent and under the same conditions as comparable U.S. military personnel and their dependents: Belgium, Canada, Denmark, France, Federal Republic of Germany, Greece, Iceland, Italy, Luxembourg, Netherlands, Norway, Portugal, Turkey, and United Kingdom. "Official" duties in this instance are not limited to NATO duties. NATO military personnel, and their dependents, in the United States as trainees with military assistance and foreign military sales programs are included in this category, unless otherwise specified by agreement between the United States and the NATO country.

(b) Here, "military personnel" and "civilian personnel" mean:

(1) *Military personnel.* Persons belonging to the land, sea, or air armed services of any State which is a party to the North Atlantic Treaty when in the United States in connection with their official duties.

(2) *Civilian personnel.* Civilian person accompanying military personnel as employees of an armed service of the NATO nation concerned, provided that such civilians are not stateless persons nor nationals of any State which is not a party to the North Atlantic Treaty, nor nationals of, nor ordinarily resident in, the United States. (Medical care for this category is the same as for comparable U.S. civilian personnel.)

(c) Eligible persons stationed in the United States who apply for care will present an appropriate DD Form 1173, "Uniformed Services Identification and Privilege Card." Each card will indicate the services authorized and bear an expiration date. Eligible persons passing through the United States on official duties who require care will present orders or other identification verifying their status.

§ 815.96 [Amended]

30. Section 815.96 is amended by deleting the last sentences of paragraphs (e) and (f).

§ 815.97 [Amended]

31. Section 815.97 is amended by changing the office symbol reference to read "USAF/SGHM."

32. Section 815.98 is revised to read as follows:

§ 815.98 Trainees under the Military Assistance Program (MAP).

Foreign personnel (military or civilian) in the United States or stationed at U.S. Armed Forces installations overseas for training under the MAP may be provided medical care. Medical care from civilian sources may be authorized this category of personnel. Elective medical care, as defined in § 815.2(f), is not authorized. In the rare instance when elective medical care is considered necessary, the complete facts of the case will be transmitted for approval by message to CSAF/SGHM. The notification will include name, grade, country of origin, diagnosis, type of elective medical care, and prognosis.

(a) Transfer between medical facilities of the Armed Forces in the continental United States is authorized when the medical facility to which the person was originally admitted cannot provide required care.

(b) When the hospital commander has determined that a MAP trainee requires medical treatment that will force discontinuance of his training for more than 90 days, the commander of the training facility will be so notified. When it is determined that the trainee is physically or mentally disqualified for further training, the hospital commander will:

(1) Forward information by message to ATC/ACFA with an information copy to CSAF/SMSB. Information will include name, grade, service number, home country, diagnosis, prognosis, expected time and type of disposition, and recommendation on whether return to home country is indicated.

(2) When a trainee is being returned to his home country, ATC/ACFA will request HQ USAF/STPLA to move the patient, with an information copy of request to HQ USAF/SMSB and SAF/USI. Send a copy of the patient's clinical records and all personal effects with the patient.

(c) When dependents of MAP trainees live in the continental United States or on U.S. Armed Forces installations overseas with their principal, they may be provided medical care subject to the availability of space and facilities and the capabilities of the medical staff. Dental care may be provided to the same extent and under the same conditions as for dependents of U.S. military personnel.

33. Section 815.100 is revised to read as follows:

§ 815.100 Movement into the United States to obtain medical care.

(a) Foreign nationals (military or civilian) will not be moved or scheduled for movement into the United States for care in Air Force medical facilities without prior approval of the State Department, the Secretary of the Air Force, and the Chief of Staff, USAF. The responsibility for obtaining diplomatic approval rests with the foreign country concerned.

(b) The request to move a foreign national into the United States to obtain medical care will be processed in the following manner:

(1) The request will be forwarded to HQ USAF/CVAFL, Washington, D.C. 20330 and will include:

(i) Full name and grade of service member.

(ii) The country of which a citizen.

(iii) Results of coordination with chief of the diplomatic mission to the country involved.

(iv) Medical report giving the history, diagnosis, clinical findings, results of diagnostic tests and procedures, and all other pertinent medical information.

(v) Availability of professional skills and adequacy of facilities for treatment in the member's country and oversea Air Force medical facilities.

(vi) Who will assume financial responsibility for costs of transportation and hospitalization.

(2) Upon approval of entry to the United States from the Department of State, the Chief of Staff, USAF, will determine the acceptance of the patient for treatment in an Air Force medical facility. The Surgeon General, USAF, will furnish recommendations on medical aspects of the case based on subdivisions (iv) and (v) of subparagraph (1) of this paragraph and identify the Air Force hospital having capability to provide required care. The Chief of Staff, USAF (STPLA), will task the oversea commander to move the patient to a hospital in the continental United States designated by the Surgeon General, USAF. Complete recoupment for hospitalization and transportation will be indicated. Should the inability to pay for transportation and/or hospitalization become a factor, the Secretary of the Air Force will resolve the matter.

(3) If medical care for a foreign national is approved by the Secretary of the Air Force, it is considered sufficiently important that the need for hospitalization is paramount to all other considerations. Dependents, family members or wives, should not normally accompany the patient unless required as non-medical attendants for care en route or if the attending physician requests their presence. The provisions of hospitalization for a foreign person do not automatically entitle other family members to privileges of the military base, such as base exchange, housing or commissary.

(4) When a case of this nature originates with, or is processed by, an agency outside the Department of Defense, the Defense official transmitting the recommendation or request should include a statement of agreement of the agency involved that any fiscal responsibility in the matter will be borne by the originating agency if necessary.

Subpart L—[Deleted]

34. Subpart L of this part is deleted in its entirety.

(10 U.S.C. 8012, except as otherwise noted)

By Order of the Secretary of the Air Force.

JOHN W. FAHRNEY,
Colonel, U.S. Air Force, Chief, Legislative Division, Office of The Judge Advocate General.

[FR Doc.72-20535 Filed 11-29-72;8:47 am]

SUBCHAPTER C—PUBLIC RELATIONS

PART 825—AIR FORCE NEWSPAPERS, BASE GUIDES, AND DIRECTORIES

Part 825, Subchapter C of Chapter VII of Title 32 of the Code of Federal Regulations is revised to read as follows:

Sec.
825.1 Purpose.
825.2 Air Force newspaper.
825.3 Authorization to establish newspapers.
825.4 Who is responsible for Air Force newspapers.
825.5 General policies for Air Force newspapers.
825.6 Editorial policies.
825.7 Political campaign news and advertising.
825.8 Official Air Force newspapers.
825.9 Unofficial newspapers, base guides, and yearbooks.
825.10 Appropriated fund newspapers.
825.11 Commercial advertising.
825.12 Printing and production standards for official papers.
825.13 Standards for use of appropriated funds.
825.14 Mailing newspapers.
825.15 Distribution of Air Force newspapers.
825.16 Annual Air Force newspaper contest and awards.
825.17 Air Force News Service (AFNS).
825.18 Office of Information for the Armed Forces (IAF), Department of Defense.

AUTHORITY: The provisions of this Part 825 issued under 10 U.S.C. 8012.

NOTE: Part 806 states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the manuals and regulations that are referenced herein.

§ 825.1 Purpose.

This part prescribes policy and procedures for establishing and publishing Air Force newspapers. It defines and provides guidelines on the relationship of the Air Force to commercial enterprise publications, and describes services provided by the Air Force News Service (AFNS) and the Office of Information for the Armed Forces (IAF).

§ 825.2 Air Force newspaper.

(a) *Definition.* An Air Force newspaper is a publication produced at any level of command by personnel assigned to Offices of Information, or through the cooperation of such an office. Its purpose is to provide Air Force news and information not immediately available from other sources to military and civilian members of the Air Force and their families at specific locations.

(b) *Types of newspapers.* There are two types of Air Force newspapers—official and unofficial. (See §§ 825.8 and 825.9.) Air Force civilian employee newspapers and those published by or for Air National Guard and Air Force Reserve units are considered Air Force newspapers, but publication produced by or for members of the Civil Air Patrol, the AFROTC, and sundry fund activities or private associations such as wives' clubs are not. Opinions expressed in Air Force newspapers do not necessarily reflect the official views of the U.S. Air Force. This will be stated in their mastheads.

(c) *Official newspapers.* These are financed by appropriated or nonappropriated funds. Official newspapers will not carry commercial advertising.

(1) Appropriated fund newspapers are subject to printing and duplicating regulations (AFR 6–1) and certain other limitations outlined in this part. They may be published with appropriated funds when approved by HQ USAF, and when funds are available and programmed by the major command headquarters concerned. (See § 825.10.)

(2) Nonappropriated fund newspapers are subject only to the limitations prescribed in this part and are not subject to printing and duplicating regulations.

(d) *Unofficial newspapers.* These are commercial enterprise newspapers published under written agreement by civilian concerns exclusively in the interest of Air Force personnel of a particular base or organization, at no cost to the U.S. Government. A commercial enterprise newspaper is similar to an official newspaper except as noted in this paragraph.

(e) *News magazine.* The provisions of this part apply to news magazines when they serve as Air Force newspapers and so state in their masthead.

(f) *Comic and feature supplements, base guides, and yearbooks.*

(1) A commercial enterprise comic or feature supplement consists of comic strips, cartoons, and features intended for a military audience. It may be distributed as an insert in official or unofficial newspaper provided requirements of this part are met.

(2) A commercial enterprise base guide or directory, usually published annually, is a guide or directory to an Air Force installation and adjacent community and geographical area. It is published without cost to the U.S. Government.

(3) Yearbooks are memento-type publications which, through the use of photographs and narrative, describe the makeup of a particular organization. They are commercial enterprise publications which are supported from advertising revenue and/or purchase of the book by individual members of organizations concerned. Distribution through official

of individual Air Force newspapers, the

of the photographer may be used in a

(c) Only one official base newspaper

V37-231 NOV 30 72 XUM

channels is not authorized, except as required for review and/or approval.

§ 825.3 Authorization to establish newspapers.

(a) *Funding the newspaper.* Air Force organizations and installations are authorized and encouraged to establish and maintain newspapers as stated in this part. Appropriated or nonappropriated funds may be used to publish a newspaper when this need cannot be met by an unofficial commercial enterprise newspaper published at no cost to the U.S. Government. Appropriated fund expenditures are authorized to support the Air Force Internal Information program.

(b) *Allocation of funds.* Appropriated and nonappropriated funds will not be mixed to pay the costs of publishing any one issue of a newspaper. However, appropriated and nonappropriated funds may be combined to cover the overall annual costs of publishing a newspaper, as long as they are used to separately fund specific issues of the newspaper. For example, the first 40 issues of a newspaper could be supported by appropriated funds and the remaining 12 from nonappropriated funds, or in any other similar combination.

(c) *Commercial enterprise newspaper costs.* Appropriated funds may not be used to pay any part of the costs of publishing a commercial enterprise newspaper. Costs involved in the preparation and delivery of copy to a commercial enterprise newspaper are those incurred in the normal functions of an Information office, and are not costs connected with the publishing of a newspaper.

(d) *Use of Air Force personnel.* Military and civilian personnel paid from appropriated funds may serve in any editorial capacity for official Air Force newspapers supported by appropriated or nonappropriated funds.

(e) *Use of inserts.* An official paper will not be distributed as an insert in a commercial enterprise newspaper; nor will a commercial enterprise newspaper be distributed as an insert in an official paper. However, a commercial enterprise comic or feature supplement with commercial advertising may be distributed as an insert in an official newspaper provided:

(1) Fair and equal opportunity is provided for responsible persons or organizations to compete for the privilege as provided in § 825.9(c).

(2) The front page of the supplement carries a statement as required in § 825.9(k)(4), and each succeeding page carries a statement in similar type, to the effect that the appearance of commercial advertisements in the supplement does not constitute Department of the Air Force endorsement of the products or services advertised.

(f) *Purchasing Air Force newspapers.* Nonappropriated funds may be used to buy copies of commercial enterprise base newspapers for distribution to Air Force personnel when the commander feels there is insufficient revenue from other sources to make this type of publication feasible. (See § 825.5(c)(3).)

§ 825.4 Who is responsible for Air Force newspapers.

(a) The Director of Information, Office of the Secretary of the Air Force (OSAF), will exercise general supervision over Air Force newspapers and other publications covered in this part in keeping with policies established by the Secretary of the Air Force.

(b) Commanders of major commands are responsible for administrative support and financing of official newspapers, and for approving and monitoring Air Force newspapers, base guides, directories, and yearbooks published in their commands. They will establish procedures for reviewing issues of base newspapers to insure compliance with Air Force standards and directives, and review and maintain a current file of agreements between comanders and publishers of commercial enterprise base newspapers and base guides to insure compliance with Air Force directives.

(c) Base commanders will supervise Air Force newspapers published in their commands and monitor commercial enterprise publications with which they have agreements to insure compliance with Air Force and major command policies and directives.

§ 825.5 General policies for Air Force newspapers.

(a) The intent of this part is to insure that the military and civilian personnel on each Air Force base or installation be served by an Air Force newspaper. The content of the newspaper will provide for equitable consideration of both host and tenant units, and will serve the mutual interest of all military and civilian personnel and their dependents at the installation. Normally, it is not practicable for an installation of fewer than 500 assigned military and civilian personnel to publish a newspaper. Meeting the newspaper needs of such small organizations should be the responsibility of their parent organizations. However, this part does not prohibit the commander of a small organization from publishing a newspaper or unit news sheet from within the unit resources.

(b) The functions of an Air Force newspaper are to increase knowledge and understanding of the Air Force by providing detailed coverage of information of interest and value to Air Force personnel, and to afford the commander an Internal Information channel through which he may provide information on subjects of particular benefit to the Air Force, the commander, intermediate echelons, and his unit.

(c) The following priority sequence for meeting the costs of publishing a newspaper will be followed:

(1) Commanders should first try to satisfy newspaper requirements through the use of commercial enterprise publications.

(2) Where the commercial enterprise method is not feasible, commanders are authorized appropriated fund expenditures to publish Air Force newspapers.

(3) When the above methods of publishing a newspaper are not adequate, nonappropriated funds may be requested locally.

(d) Normally, Air Force newspapers will be issued once a week. However, publication once every two weeks or monthly is authorized if considered by the commander to be in the best interest of the organization.

(e) Air Force newspapers will be classified as follows:

(1) Class 1—Newspapers printed for bases having a total population of fewer than 1,000 military and civilian personnel.

(2) Class 2—Newspapers printed for bases having a total population of between 1,000 and 5,000 military and civilian personnel.

(3) Class 3—Newspapers printed for bases having a total population of between 5,000 and 10,000 military and civilian personnel.

(4) Class 4—Newspapers printed for bases having a total population in excess of 10,000 military and civilian personnel.

(5) Class 5—Command newspapers serving more than one base. This is a special classification established for U.S. Air Force newspaper contest purposes only. Bases which share common support facilities and are separated by a distance of 25 miles or less will not be considered separate bases for the purpose of determining this classification. (The term "civilian personnel" includes classified civilian employees, Department of the Air Force employees, indigenous employees, and employees paid from nonappropriated funds.)

(f) Newspaper publication activities are assigned to the organization's Office of Information, except for those published by dependents' organizations, open messes, and similar groups. The latter should be provided with advice, assistance, and news releases.

(g) The principles of operation of official newspapers are comparable to those governing civilian commercial newspapers published in the United States. Commanders occupy a status comparable to that of civilian publishers and are responsible for the publication of newspapers within their commands.

§ 825.6 Editorial policies.

Every effort will be made to provide information which is compatible with the concept of the Air Force newspaper as the house organ of the commander and to further Air Force objectives. However, overemphasis on management subjects to the exclusion of entertainment will inevitably result in loss of reading audience and negate the newspaper's purpose. A judicious balance is essential in all Air Force newspapers. The selection and writing of news and other articles will be governed by the following general policies:

(a) News coverage will be as complete as practicable. The writing should be factual, objective, and as timely as possible. Articles should be based on reports provided by members of the staffs

of individual Air Force newspapers, the Air Force News Service (AFNS), command news services, the American Forces Press Service (AFPS), official releases, and commercial press associations (where authority to use them exists).

(b) Editorial and news policies of Air Force newspapers will serve to increase knowledge and understanding of the Air Force. There must be no appeal to emotions detrimental to either the interests of the Nation or any Government agency.

(c) Newspapers will distinguish between facts and opinions which may be part of a news story. When opinion is expressed, the person or source will be identified.

(d) Editorial opinion will be identified as such. Editorials originated locally will reflect the policies of the commander and be directed to the interest and welfare of the Air Force.

(e) Newspapers are subject to the security regulations governing Air Force activities.

(f) Editors will conform to the principles of good taste, the laws governing libel and copyright, printing and postal regulations (see § 825.14), and policies of the Air Force. Care should be taken when using material on ideological subjects, world affairs, U.S. foreign policy, and nuclear weapons and missiles to insure the material is consistent with national policy.

(g) Orders and directives will be treated according to their straight news value or departmentalized as official documents published for the information of all concerned.

(h) News on base exchanges and commissaries will be governed by guidelines set forth in AFR 147–7. In no case will comparisons be made of prices, goods, and services available to service personnel through base exchanges and commissaries in contrast to those available on the civilian economy.

(i) Labor union news which might provoke controversy, that is, editorial endorsement or criticism of union actions, recruiting, or discouraging union membership should be avoided.

(j) Book reviews may be used if written objectively so there is no implication of endorsement by the Department of the Air Force or any element of the Department of Defense.

(k) Air Force newspapers may provide space for free and noncommercial listing of personal property or services offered by, and for the convenience of, local base or unit personnel without regard to race, creed, color or national origin.

(l) All Air Force newspapers will carry a front page dateline which includes the volume and issue number, geographical location of the installation (if not prohibited by security limitations) and issue date.

(m) Air Force photographs will carry the credit line "U.S. Air Force Photo." Credit may be given a photographer by name, grade, and editorial position in an official newspaper. The name and grade of the photographer may be used in a commercial enterprise newspaper if there is no inference he is a member of the staff.

(n) AFP 190–42, Armed Forces Newspaper Guide and AFP 190–38, Armed Forces News Style Guide, will be used as the official guides for publishing base newspapers.

§ 825.7 Political campaign news and advertising.

(a) Air Force newspapers published in the 50 States will not contain political campaign news, since this news generally is available in local civilian newspapers. However, it is appropriate for the Air Force to make sufficient current campaign information available to personnel stationed outside the United States to enable them to understand the political scene and vote intelligently. Political campaign news coverage will be governed by the following policies.

(1) Air Force newspapers, news sheets, or news bulletins published in oversea commands where civilian-published, English-language newspapers generally are not available may include factual political campaign news obtained from commercial news services.

(2) Presentation of political campaign news in Air Force newspapers should be impartial and nonpartisan. Great care will be exercised in maintaining a well-balanced handling of materials by, about, or originating from opposing parties or candidates.

(3) Air Force newspapers will not contain editorials dealing with candidates or issues and will not include editorial comments, criticism, analyses, or interpretations of political campaign news.

(4) Air Force newspapers will carry information during election years about voting laws of the various States and territories and editorials supporting the Federal Voting Assistance program. They may also carry nonpartisan appeals from national leaders for military personnel and their dependents to study candidates and issues and then exercise their right to vote.

(5) No Air Force newspaper will conduct a political opinion poll, survey, or straw vote. Commanders entering into an agreement with a civilian enterprise publisher will insure that such a restriction is part of the written agreement.

(6) Political advertisements will not be carried in Air Force newspapers.

§ 825.8 Official Air Force newspapers.

(a) Official newspapers will contain no commercial advertisements inserted by, or on behalf of any private individual, firm, or corporation; neither will they contain any material which implies that any military department or the Department of Defense endorses or favors a specific commercial product, commodity or service.

(b) Official newspapers will not subscribe, even without cost, to commercial or feature wire services whose primary purpose is the advertisement or promotion of commercial products, commodities, or services.

(c) Only one official base newspaper will be published to serve the total personnel of an installation.

(d) The statement of publication masthead of official Air Force newspapers will be easily identifiable and will include the names of the officer in charge, editor, members of the editorial staff, and the following statement:

> The (name of the newspaper) is an official Class (1, 2, 3, 4, as defined in this part) Air Force newspaper, published (frequency of publication), on (day of week or, in the case of a monthly or semimonthly, the actual date) for the personnel of (name of Air Force installation), (name of major air command) at (name of geographical location, if not prohibited by security limitations, and post office address). Opinions expressed herein do not necessarily represent those of the U.S. Air Force.

§ 825.9 Unofficial newspapers, base guides, and yearbooks.

(a) Commanders are authorized to enter into agreements for commercial enterprise publications for dissemination of Air Force news to units under their command.

(b) Commercial enterprise publications printed under such agreements may be distributed through official channels without cost to the publisher, provided this will not require additional expenditures of appropriated funds. With the concurrence of the commander concerned, the publisher of such a commercial enterprise publication may arrange for direct distribution to intended Air Force readers.

(c) In selecting a commercial enterprise publication for distribution within his control, each commander will afford a fair and equal opportunity to any responsible bidder who may wish to submit a proposal to publish such a publication. The best obtainable offer and price per copy, if any, will be considered if a charge from nonappropriated funds is expected. The contract period will be for a period not in excess of 2 years.

(d) A commander may afford the opportunity to reputable publishers to sell or give away publications at the activity he commands, except as provided by AFR 35–15, but such publications may not be distributed through official channels nor direct distribution to intended readership be made without his concurrence.

(e) A military installation will be limited to one commercial enterprise publication in each category, except that a commercial enterprise newspaper may carry as an insert or separate inserts, comic and/or feature supplements.

(f) Installations having selected commercial enterprise publications for distribution to Air Force personnel will maintain current written agreements with the civilian publisher. (Part 835 of this subchapter.) Such agreements are drawn up by the base commander and the civilian publisher. Copies of these agreements will be forwarded for file to major commands concerned.

(g) A separate agreement is not required for a commercial enterprise comic or feature supplement intended for distribution with a commercial enterprise

V37-231 NOV 30 72 XUM

newspaper if the contract with the newspaper publisher stipulates that any such supplements will have the prior approval of the commander.

(h) Complaints of the commander or information officer concerning the publication or distribution of an unofficial commercial enterprise publication will be sent in writing to the publisher with an information copy forwarded through channels to Secretary of the Air Force (SAFOIIB), Washington, DC 20330. Also major commands and SAFOIIB will be informed in advance whenever a commercial enterprise publication agreement is terminated before the full term of the agreement. Reasons for action will be stated in full.

(i) Before signing an agreement for a commercial enterprise publication, a commander will assure the competence, reliability, and responsibility of the prospective publisher.

(j) The content of a commercial enterprise publication is not subject to military control. However, the commander responsible for the agreement with the civilian publisher may suggest the positioning of editorial matter and military photographs within the newspaper. In addition, he has the authority and responsibility to prohibit circulation within his command of any issue of the newspaper he considers unlawful or prejudicial to good order and discipline. He also has the responsibility and authority to prohibit the distribution of a commercial enterprise publication carrying an advertisement which he determines would not be in the best interest of his command. Commanders should acquaint publishers with whom they have a distribution agreement with these criteria to avoid the acceptance of advertising which would be detrimental to the accomplishment of the military mission or in any way imply condonement of or indorsement of such activity. When such a ban is invoked the commander will give written notice to the publisher informing him of such action, and stating what he must do to have the prohibition lifted. SAFOIIB will be informed as directed in paragraph (h) of this section.

(k) A commander who authorizes distribution of a commercial enterprise publication within his command will insure that the following practices are observed:

(1) A commercial enterprise publication will not state that it is an official publication of the Air Force, nor use the name, seal, insignia, or emblem of the Air Force, command, base, or unit in any manner that might imply it is an official Air Force publication. The name of the base will not be included in the dateline of a commercial enterprise newspaper but may appear in the flag if the words "Air Force Base" or "AFB" are not included.

(2) Air Force military personnel on extended active duty and Air Force civilian personnel may not serve on the editorial staff of a commercial enterprise publication or authorize their names to be carried in its masthead. This policy does not prohibit news releases through normal channels, nor does it prohibit contributions by military and civilian personnel or articles or military photographs, with bylines, to commercial enterprise publications without reimbursement. No editorial title may be attached to the byline, and the material cannot imply that the author has an official position on the publication.

(3) All news and information made available by the Air Force to a commercial enterprise publication will be made available equally to any other publisher who requests it.

(4) The title masthead of commercial enterprise newspapers should be easily identifiable and should include the name of the newspaper, the volume and issue number, the geographical location of the installation (if not prohibited by security limitations), and the day of the week published. The following statement in 8-point bold, if available, but in any case no smaller than the main body type, will be printed on the front page or cover of each commercial enterprise newspaper, supplement or insert.

> The (name) is an unofficial newspaper published (frequency of publication) in the interest of personnel at (name of Air Force installation) of (major command). It is published by (name of publisher), a private firm (or individual), in no way connected with the Department of the Air Force. Opinions expressed by publishers and writers are their own and are not to be considered an official expression by the Department of the Air Force. The appearance of advertisements, including supplements and inserts, in this publication does not constitute an endorsement by the Department of the Air Force of products or services advertised.

(l) The front cover of a commercial enterprise base guide or directory will carry the name of the civilian publisher prominently just above the disclaimer. The word "guide" or "directory," which appears on the front page or cover, will be preceded by "unofficial" in type at least as large as that in which the word "guide" or "directory" is printed. The format for the guide or directory will be designed so that the publication cannot be mistaken for an official guide or directory. The following statements are required on the front cover of each unofficial directory or base guide:

> Published by (name of publisher), a private firm (or individual), in no way connected with the Department of (insert appropriate military department). Opinions expressed by the publishers and writers herein are their own and are not to be considered an official expression by the Department of (insert appropriate military department). The appearance of advertisements in this publication does not constitute an endorsement by the Department of (insert appropriate military department) of the products or services advertised.
>
> NOTE: If the standard (or similar) format for an unofficial directory, or base guide is used for a civilian enterprise area guide, any neighboring city, town, or area may salute a military activity. In the title on the front cover, the name of the military activity shall be subordinate to that of the city, town, or area. On the inside front cover or just after the title page, the guide may carry pictures of the city, town, or area officials, along with messages from them to base or post personnel and visitors. On subsequent pages the guide may carry pictures of military officials. These may be accompanied by biographical information but not by messages from these officials.

(m) In addition to the conditions previously set forth in this part, the agreement between the commander and the publisher of the guide or directory will include the following:

(1) No organizational charts or listings of the command will be included in the publication.

(2) The publication will not contain the base telephone numbers of personnel, or organizational elements, or the home addresses and telephone numbers of personnel. At the discretion of the base commander, emergency and service numbers, that is, hospital, security police, fire, etc., and an alphabetical listing of personnel may be included.

(3) On one of the inside pages, the publication date (month and year) and the publisher's name, permanent address, and telephone number will be shown plainly.

(4) Neither the name of the installation, organization, nor a military post office address, may be included in the publisher's letterhead or mailing address.

(5) Reference to base exchanges and commissaries in guides or directories will contain only the location and hours of operation.

(n) Base or equivalent commanders concerned may authorize publication of base or organization unofficial yearbooks provided they do not contain information determined to be of possible value to a potential enemy. Types of such information include, but are not limited to:

(1) Detailed biographical data of other than key personnel.

(2) Information on special combat equipment.

(3) Detailed manning and specialties of key combat and support units.

(4) Other detailed air order of battle data.

§ 825.10 Appropriated fund newspapers.

(a) To establish an appropriated fund newspaper or to convert a civilian enterprise or nonappropriated fund newspaper to one using appropriated funds, the major command concerned must first obtain approval of the Secretary of the Air Force.

(b) An activity must have more than 500 total military and civilian employees to be eligible for an appropriated fund newspaper. The publication will also be governed by the following:

(1) A ratio of one copy to each three members of the total complement is the maximum number of newspapers which will normally be approved. If a greater number of copies is necessary to carry out the newspaper's function, specific and conclusive justification must be submitted with the annual requests for appropriated funds.

(2) Appropriated funds may be used for special expanded issues for such occasions as Armed Forces Day, Easter, Thanksgiving, and Christmas. (See § 825.13.) Annual printing budget requests will cover the costs of these special issues and be made concurrently with other budget requests.

(3) Air Force appropriated fund newspapers are items of printing, and appropriated printing funds will be cited for the cost of contracts for printing services.

(4) Commanders are authorized to contract for newspapers on an annual fiscal year basis.

(5) The commercial enterprise method of publishing a base newspaper should be reexplored prior to renewing printing contracts for appropriated fund papers already established.

§ 825.11 Commercial advertising.

(a) To be acceptable for on-base distribution through official channels, no advertising in commercial enterprise publications shall be worded or phrased to give the reader the impression that the Air Force in any way endorses, guarantees, or sponsors any product or service. Advertisements will not be carried that imply discrimination against any person because of race, religion, national origin, or sex.

(b) The publisher of a civilian enterprise publication will be requested to place his readers and advertisers on notice of the requirements listed above by prominently displaying in an appropriate location of the publication the following statement:

> Everything advertised in this publication must be made available for purchase, use or patronage without regard to the race, creed, color, national origin, or sex of the purchaser, user, or patron. A confirmed violation or rejection of this policy of equal opportunities by an advertiser will result in the refusal to print advertising from that source.

(c) Advertisements which appear to be editorials or news stories may be confused as such by readers and should be clearly labeled, top and bottom, as advertisements in a type size equal to text type or larger.

(d) Advertisers will be requested by the publisher to observe the highest business ethics and applicable laws in describing goods, services and commodities, and the terms of sale, including guarantees, warranties, etc. If credit terms are offered in such advertisements, a clear statement of the total cash price as well as the total cost of credit, including all charges, should be shown clearly in the company's advertisements. If time payments are shown, the number of payments, the amount of each, and the time period should also be shown in order that the reader can easily compute the dollar cost of the loan.

(e) Active-duty Air Force military and civilian personnel are prohibited from soliciting or endorsing advertisements carried in commercial enterprise publications.

(f) Copy or art provided by the Department of Defense or the Air Force may not be used in commercial advertisements to promote the sale of goods or services offered by the advertiser, except as provided by Part 837 of this subchapter.

(g) The unofficial nature of the commercial enterprise publication will be made plain to every person or firm solicited for advertising. Any brochure or letter from the publisher to a prospective advertiser must make this clear.

(h) Advertisements must conform to the principles of good taste, and the amount of space in each issue used for advertisements must not detract from the primary purpose of the publication which is to provide news and information of particular interest to Air Force military and civilian personnel.

(i) The monthly ratio of advertising copy to news copy in commercial enterprise base newspapers should average:

(1) 4–8-page newspaper, 50 percent advertisements.

(2) 12–16-page newspaper, 55 percent advertisements.

(3) 20–24-page newspaper, 60 percent advertisements.

(4) More than 24-page newspaper, 65 percent advertisements.

§ 825.12 Printing and production standards for official papers.

Official Air Force newspapers will be printed commercially, except in locations where commercial sources are not available. At these locations, Air Force printing plants or duplicating activities may be used if existing production facilities are adequate to provide for newspaper production in addition to all official business.

(a) The following weekly maximum allowances for paper are established for official Air Force newspapers:

Class newspaper:	Total paper allowance per copy (square inches per week)
1	374
2	748
3	1,496
4	2,992

Newspapers issued twice monthly may increase their paper allowance in proportion to the weekly allowance. For example, a Class 1 newspaper issued twice a month may have a paper allowance of 748 square inches. To meet local printing and paper problems, newspapers may use various page sizes so long as they remain within the maximum limit of paper allowance authorized for their classification.

(b) Specifications prepared for printing official Air Force newspapers will be written to obtain maximum economy consistent with the needs of the Air Force. The following Congressional Joint Committee on Printing (JCP) standards will be used when specifying paper stocks for official Air Force newspapers.

(1) Paper produced by letterpress will be printed on standard newsprint, natural shade, not to exceed 64-pound stock (weight basis 24×36"—1,000) as specified in JCP Specification A10.

(2) Paper produced by the offset process will be printed on offset book, not to exceed 100-pound stock (weight basis 25×38"—1,000), as specified in JCP Specification A60.

(c) The use of illustrations is encouraged, but their use will not exceed 50 percent of the total weekly space allowance. Illustrations or material supplied without cost to the newspaper in matrix or photographic form are not chargeable against the illustration space limitation.

§ 825.13 Standards for use of appropriated funds.

(a) In addition to those standards prescribed in § 825.12, all Air Force newspapers printed from appropriated funds are subject to the following: Air Force newspapers printed from appropriated funds will be limited to one color (black), except that a maximum of four issues per year may be published in one additional color for Easter, Thanksgiving, Christmas, Armed Forces Day, or similar occasions. Such special issues may be printed with one additional color as an overprint, a separately printed cover, or on a double-page center section. Black is considered a color when determining the use of two colors in Air Force newspapers.

(b) Armed Forces Day issues may be printed in twice the normal number of pages and three times the normal number of copies. Any combination of these limits is permissible. For example, an issue may have the normal number of pages and be published in six times the number of copies.

§ 825.14 Mailing newspapers.

(a) Air Force newspapers containing no commercial advertising may be mailed under the "Postage and Fees Paid" indicia (AFR 182–15). Newspapers not meeting these criteria are authorized for mailing to addresses in § 825.15, and to U.S. Government addressees who need to receive copies for operational purposes. Newspapers sent through the mails must be folded (not rolled, stapled, or taped) and enclosed in an envelope or wrapper.

(b) Air Force newspapers transmitted through the mails will conform to the provisions of section 1302 of Title 18, The United States Code. Specifically, newspapers will avoid mention of lotteries or games of chance of any kind. The penalties for mailing newspapers containing such information call for fines up to $1,000 or 2 years' imprisonment.

(c) When mailing newspapers, consider both needed speed of delivery and economy in determining the type of service used. For example, airmail should not be used when military official mail or first-class service would provide delivery to addressee within acceptable time limits. Personnel making the determination should:

(1) Be aware of transit times and costs of moving various classes of mail (AFM 10–5).

(2) Carefully weigh the timely news value against cost of mailing.

(3) Monitor the mailing to insure the appropriate type of mail service is being

By order of the Secretary of the Air

Subpart E—Appointment of Chaplains

§ 831.2 Duration of appointment.

XUM
V37-231 NOV 30 72 V
XUM

used and that newspapers are properly packed and addressed.

§ 825.15 Distribution of Air Force newspapers.

(a) Issues of each Air Force newspaper will be distributed on its publication date as follows:

(1) One copy only to: Secretary of the Air Force (SAFOIIB), Washington, D.C. 20330.

(2) If subscribing to American Forces Press Service, two copies to: American Forces Press Service, 1117 North 19th Street, Arlington, VA 22209.

(b) Newspaper distribution lists will exclude persons or organizations not affiliated with the base of origin and those without official interest in the publication. Exception may be made when a written request is received, and when it is determined to be in the best interest of the Air Force to include the requester on the distribution list. Copies of such requests will be kept on file.

(c) Newspaper distribution lists will be revised at least once a year to insure they are up to date and accurate.

(d) All requests for Air Force newspapers by individuals or organizations unrecognized by the base information officer or the commander as having legitimate requirement will be forwarded for action to Secretary of the Air Force (SAFOIIB), Washington, D.C. 20330.

(e) A central office (HQ USAF (AFCVFB)) has been established by the U.S. Air Force to handle requests made by foreign diplomatic missions or attachés for Air Force newspapers.

§ 825.16 Annual Air Force newspaper contest and awards.

(a) *Period covered.* The contest is an annual worldwide competition among Air Force newspapers published under the provisions of this part. Contest periods are from January 1 through December 31. Awards recognize newspaper effectiveness.

(b) *Awards for best newspapers.* (1) Awards for official and commercial enterprise papers consist of plaques for first-, second-, and third-place winners in each of five classes in each category. The plaques, for permanent retention by the winning newspaper, will bear signatures of the Secretary of the Air Force, Chief of Staff, and Director of Information. Funding for the plaques will be from appropriated funds.

(2) The Chief of Staff presents the plaques to editors or representatives of official and commercial enterprise newspapers winning first place. This ceremony takes place in the Pentagon shortly after announcement of the judges' decisions (usually in mid-February).

(3) Second- and third-place plaques are mailed to major commands.

(c) *Who is eligible.* (1) Air Force newspapers in all classes are eligible to compete provided they meet the requirements stated in this part.

(2) Newspapers must have been in continuous publication for at least 6 months of the contest year.

§ 825.17 Air Force News Service (AFNS).

AFNS is an activity of the Office of Information, Office of the Secretary of the Air Force. Though use of AFNS is not mandatory, information officers and editors are urged to give it maximum use. AFNS material is prepared and produced with careful attention to the support of Air Force objectives.

(a) *Services provided.* (1) Air Force news emanating from HQ USAF is mailed weekly, direct to all Air Force newspapers. In addition, AFNS provides news stories on major command activities, feature stories and editorials, a photo service, and articles of interest to wives. Coverage includes information on national events having important Air Force aspects, Air Staff actions of general interest (including personnel matters, housing, regulations, and policies), and material explaining basic Air Force missions and doctrines. Coverage does not include general world or national news, but may include articles or editorials on world affairs of special significance to Air Force members. Periodically, AFNS contains Editor's Notebook, a special feature carrying advice, suggestions, and Air Force newspaper policy for editors. Attention is directed to subjects of top priority in the Air Force and means of developing stories at the local level. Special critiques are available upon request.

(2) News of greatest importance is electrically transmitted to major commands for retransmittal to base editors.

(b) *Who may receive AFNS material.* All newspapers published by or for Air Force personnel are eligible to receive material prepared by AFNS. AFNS will be furnished to commercial enterprise newspapers only through the base information officer concerned. Forward requests for AFNS distribution to: Secretary of the Air Force (SAFOIIB), Washington, D.C. 20330.

(c) *Use of AFNS material.* (1) Normally, AFNS provides material of primary interest to Air Force newspapers. However, the information in AFNS material can and should have a wider use than distribution solely through newspapers. Information officers should examine each AFNS mailing for wider application and use through such media as Air Force radio and television stations, daily bulletins, Commander's Call programs, bulletin boards, etc.

(2) Material of interest to Air Force wives should be passed on by the information officer to the editor of the base wives' club publication, whether the material is used in the base newspaper or not.

(3) Editors are encouraged to rewrite AFNS material to adapt it more closely to the interest of the installation audience, through the use of localized leads and additional local information. Use of AFNS credit lines is encouraged.

(4) Commands may establish news services to provide information of specific interest to command personnel, but such services will not duplicate material provided by AFNS.

§ 825.18 Office of Information for the Armed Forces (IAF), Department of Defense.

(a) *Services provided.* Upon request, this office provides the following press materials and services to Air Force newspapers.

(1) *American Forces Press Service.* A clipsheet, published weekly, carrying text and art which may be included in Air Force newspapers. Illustrations appearing in the press service are provided upon request in matrix form for letterpress newspapers; in electronically cut stencils for mimeograph newspapers; and in preprinted paper masters for multilith-duplicated newspapers. Photo-offset newspapers may use the illustrations as they appear in the press service.

(2) *Commanders Digest.* A publication containing Department of Defense policies, and seat-of-government news and information. Reproduction of contents is authorized.

(3) *Galley Guide.* Published monthly and distributed with the press service as a service to editors of Air Force newspapers. Contains news and professional notes of interest to staff members of Air Force newspapers.

(4) *Armed Forces Newspaper Guide.* A manual for personnel performing editorial duties on Air Force newspapers.

(5) *Armed Forces News Style Guide.* A guide designed to help Air Force newspaper staffs standardize their style by providing guidance on such matters as abbreviations, punctuation, and spelling.

(6) *Advice to Editors.* Advice concerning the organization and operation of service newspapers and detailed critiques of individual Air Force newspapers are available upon request.

(b) *Who may receive IAF material.* (1) All Air Force newspapers are eligible to receive material prepared by IAF. However, a commercial enterprise newspaper should be serviced with IAF material through the information officer of the installation it serves. Commercial enterprise newspapers may not use copyrighted material without approval.

(2) Nonpublishing activities may be provided with IAF press material upon written justification of their need for the service.

(c) *Use of IAF materials.* (1) Materials may be edited or revised by editors of Air Force newspapers as required by newspaper space limitations or as advisable for local appeal.

(2) Material will not be used in commercial advertising in any newspaper.

(d) *Department of Defense awards.* The Assistant Secretary of Defense (Manpower and Reserve Affairs) will make annual Department of Defense Thomas Jefferson awards to newspapers of active military units or installations for professional excellence and outstanding achievements in the accomplishment of their mission. Such awards for Air Force newspapers will be based on nominations submitted by the Department of the Air Force.

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,
Colonel, U.S. Air Force, Chief, Legislative Division, Office of The Judge Advocate General.

[FR Doc.72-20534 Filed 11-29-72;8:47 am]

SUBCHAPTER I—MILITARY PERSONNEL

PART 881—APPOINTMENT IN COMMISSIONED GRADES—RESERVE OF THE AIR FORCE AND UNITED STATES AIR FORCE (TEMPORARY)

Subchapter I of Chapter VII of Title 32 of the Code of Federal Regulations is amended as follows:

Part 881 is revised to read as follows:

Subpart A—General

Sec.
881.1 Purpose.
881.1a Statutory authority.
881.2 Duration of appointment.
881.3 Temporary appointments.
881.4 Responsibility.
881.5 Procurement objectives.

Subpart B—Eligibility Requirements

881.10 Who may apply for appointment.
881.11 Who is ineligible for appointment.
881.12 Former and reserve officers.
881.12a Former officers of the regular Air Force.
881.12b Former officers of any of the services.
881.12c Reserve officers of other Armed Forces of the United States.
881.12d Former rated officers
881.13 Officer training school and AFROTC graduates
881.14 Appointment as a ResAF
881.14a Appointment as a ResAF officer for assignment to the retired reserve and placement of name on the U.S. Air Force reserve retired list.
881.14b Appointment as a ResAF upon removal from the temporary disability retired list (TDRL)
881.14c Posthumous appointments
881.14d Appointment of USAFR airmen not on EAD as ResAF officers.
881.15 Appointment for immediate entry on active duty.
881.16 Eligibility requirements.
881.16a How to determine grade.
881.16b Award of constructive service.
881.16c Computing and recording total years service date (TYSD), promotion service date (PSD), and total Federal commissioned service date (TFCSD).
881.16d U.S. Air Force (temporary) appointments

Subpart C—Application and Processing Procedures

881.20 How to apply.
881.21 Processing applications to Air Force Academy and aircrew examining centers.
881.22 Duties of the examining centers.
881.23 Selection of applicants.
881.24 Personnel security investigations.
881.25 Appointing and notifying appointees.

Subpart D—Appointment of Judge Advocate Officers

881.30 Submitting applications.
881.31 Professional qualifications.
881.32 Appointment and reappointment.

Subpart E—Appointment of Chaplains

Sec.
881.40 Application for the Air Force chaplaincy.
881.41 Compensatory professional considerations.
881.42 Ecclesiastical indorsement.
881.43 The chaplain candidate program.

Subpart F—Appointment of Physicians, Dentists, Veterinarians, and Nurses

881.50 How to apply.
881.51 General qualifications for appointment.
881.52 Doctors of medicine.
881.53 Doctors of osteopathy.
881.54 Doctors of dentistry.
881.55 Criteria for appointment of doctors of medicine, osteopathy, and dentistry to grades above first lieutenant.
881.56 Doctors of veterinary medicine.
881.57 Appointment of nurses.

Subpart G—Appointment of Officers in the Medical Service Corps

881.60 Application, processing, and selection.
881.61 Health services administrator (AFSC 9021).
881.62 Other applicants.

Subpart H—Appointment of Officers in the Biomedical Sciences Corps

881.70 Application, processing and selection.
881.71 Dietitian (AFSC 9216A).
881.72 Occupational therapist (AFSC 9226).
881.73 Physical therapist (AFSC 9236).
881.74 Appointment for training.
881.75 Pharmacy officer (AFSC 9241).
881.76 Optometry officer (AFSC 9251).
881.77 Bioenvironmental engineer (AFSC 9122).
881.78 Medical entomologist (AFSC 9131).
881.79 Biomedical laboratory officer (AFSC 9151).
881.80 Aerospace physiologist (AFSC 9161).
881.81 Health physicist (AFSC 9171).
881.82 Clinical psychologist (AFSC 9181).
881.83 Social worker (AFSC 9191).
881.84 Biomedical therapist (AFSC 9261).

AUTHORITY: The provisions of this Part 881 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012; 10 U.S.C. 591, 593, 8067, 8353, 8358, 8359 and 8444, except as otherwise noted.

NOTE: Part 806 states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the manuals and regulations that are referenced herein.

Subpart A—General

§ 881.1 Purpose.

This part states the policies and procedures governing the direct appointment of commissioned officers as Reserves of the U.S. Air Force or as commissioned officers in the U.S. Air Force. It explains the method of application, eligibility requirements, and where to apply for appointment.

§ 881.1a Statutory authority.

The statutory authority for appointments tendered according to this part is contained in sections 591, 593, 1211, 8067, 8353, 8358, 8359, 8444, and 9411 and chapter 103, 10 U.S.C.

§ 881.2 Duration of appointment.

All Reserve of the Air Force (ResAF) appointments are for an indefinite term. All U.S. Air Force (temporary) appointments effected during a war or national emergency will continue for the duration of such war and for 6 months thereafter, unless sooner terminated.

§ 881.3 Temporary appointments.

(a) Appointments in the U.S. Air Force without component (temporary) will be made only according to special instructions issued by HQ USAF, except as stated in paragraph (b) of this section.

(b) Physicians and dentists who are resident aliens or conscientious objectors normally do not qualify for Reserve appointments; however, such persons who have a liability for training and service under the Military Selective Service Act of 1967 may be appointed, if otherwise qualified, as follows:

(1) Applicants who are 26 years of age or over at time of appointment will be tendered temporary appointments in grades specified in § 881.16a(c)(1). Temporary appointments made under this authority terminate upon appointee's release from active duty.

(2) Applicants, including participants in the Armed Forces Physicians' Appointment and Residency Consideration program, Berry plan, who must be appointed on a date that will require acceptance of commission before age 26 will be initially tendered Reserve appointments. The provisions of §§ 881.16(f) and 881.16(b) are waived in this instance.

(3) Noncitizen applicants must possess a valid Form I-151, Immigration and Naturalization Service, INS Alien Registration Receipt Card, which may be obtained from the local Immigration and Naturalization office, as evidence of lawful entry into the United States for permanent residence. Simultaneously this form is prohibited, the applicant must submit the following statement signed by an officer, notary public, or other persons authorized to administer oaths:

I certify that I have this date seen INS Form I-151 issued to ---------- (Name of applicant) indicating lawful entry into the United States for permanent residence on ---------- (Date)

(c) Nondeclarant aliens who are appointed to commissioned status may place their present citizenship in jeopardy by executing AF Form 133, "Oath of Office (Military Personnel)." If a nondeclarant alien indicates, while being processed for a commission, that he does not desire to take the oath of allegiance prescribed by AFR 36-39, he may be administered the following oath of service and obedience in the same manner as the AF Form 133:

I, ---------- a citizen of ---------- and without intention of surrendering such citizenship, having been appointed a ---------- do solemnly swear (or affirm) that I will serve the United

main eligible for consideration until the within 6 months from his date of dis-

V37-231 NOV 30 72 XUM

States against all their enemies whomsoever, and that I will honestly and faithfully discharge the duties of the office upon which I am about to enter; So Help Me God.

(d) Noncitizen physicians and dentists who receive temporary appointments may be tendered Reserve appointments upon request and submission of proof of citizenship as outlined in § 881.16(b).

§ 881.4 Responsibility.

(a) HQ USAF selects or appoints persons except as may be otherwise delegated:

(1) In grades above captain.

(2) To perform medical, dental, and allied medical duties.

(3) Who are former officers of the Regular Air Force (RegAF).

(4) As chaplains.

(5) As Reserves of the Air Force (ANGUS) based on extension of Federal recognition.

(6) Those removed from the temporary disability retired list (TDRL) by reason of being found physically fit.

(7) As judge advocates.

(b) Air Training Command (ATC) appoints successful graduates of the Officer Training School in the grade of second lieutenant.

(c) Air Force Reserve Officers' Training Corps (AFROTC) appoints as second lieutenants, ResAF, persons who successfully complete the AFROTC program.

(d) Air Force Reserve (AFRES) selects:

(1) Members of the medical services for concurrent Ready Reserve assignments upon approval of HQ USAF.

(2) Former rated officers of any of the services to fill Ready Reserve aircrew positions.

(3) Reserve officers of other services to fill Ready Reserve vacancies. All appointments of judge advocate officers, chaplains, personnel of the medical services, and all appointments above captain require HQ USAF approval.

(4) Air reserve technicians (ART) to fill designated ART positions in all specialties involved. Appointments above captain require HQ USAF approval.

(e) Air Reserve Personnel Center (ARPC):

(1) Appoints officers selected under subparagraphs (1) through (4) of paragraph (d) of this section, and those selected under paragraph (a) of this section when directed to do so by HQ USAF.

(2) Selects and appoints outstanding USAFR airmen under quotas and guidelines established by HQ USAF (§ 881.14d).

(f) Commands indicated in paragraphs (b), (c), (d), and (e) of this section may determine administrative procedures necessary to accomplish the required procurement objective and insure that only properly qualified persons are tendered appointments.

§ 881.5 Procurement objectives.

(a) Appointments will be made by grade and category in numbers required and authorized from time to time by HQ USAF. These authorizations will constitute procurement objectives. AFM 36–1 will be used as a guide in determining the required educational, professional, and technical qualifications for appointments for duty in specialties not specified herein. Appointments will be made only to meet procurement objectives in the categories for which appointments are currently authorized and within the grade ceilings established by law.

(b) Persons selected for appointment must be fully qualified according to criteria in this part, AFM 36–1, and/or other directives. Appointment is not assured merely by reason of meeting the established requirements. Only persons who are best qualified will be appointed.

(c) Appointments will normally be made to fill authorized Ready Reserve position vacancies or active duty requirements.

(d) Outstanding persons in business, scientific, professional, or technical fields who do not meet eligibility criteria, but who have demonstrated through their civilian occupation that they are outstanding in their field, may be appointed upon approval of the Secretary of the Air Force. Generally, they must have attained such prominence in their field or specialty as to be nationally known.

Subpart B—Eligibility Requirements

§ 881.10 Who may apply for appointment.

A person with or without prior military service may apply unless he is ineligible under § 881.11. This authorization includes airmen and warrant officers who are Reserves of the Air Force or members of the Regular Air Force or the United States Air Force (temporary).

§ 881.11 Who is ineligible for appointment.

(a) A commissioned officer of the Armed Forces serving on active duty, except as provided by this part. AFR 36–26 provides for interservice transfer of officers on active duty.

(b) An enlisted member or warrant officer of the Army, Navy, Marine Corps, or Coast Guard serving in the active service of the United States.

(c) An officer, warrant officer, or enlisted member in the Reserve Forces of the U.S. Army, Navy, Marine Corps, Coast Guard, National Oceanic and Atmospheric Administration, and Public Health Service, unless he has obtained a conditional release from his appointment or enlistment and is not on active duty or under orders to report for active duty.

(d) A person who has previously applied for appointment under this part, but was not selected, or who was selected and declined appointment is ineligible to apply for 6 months from the date of notification of previous rejection or declination.

(e) A person disenrolled or eliminated from a training program leading to a commission as an officer for the following reasons unless prior approval is obtained from HQ USAF:

(1) Resignation or dismissal from officer training programs of the Army, Navy, Air Force, Coast Guard, or Merchant Marine, because of military inaptitude, indifference, undesirable traits of character, disciplinary reasons, evasion of a contractual agreement, or declination of a proffered commission. Superintendents of military academies and commanders of officer training programs may recommend waivers only in exceptional cases worthy of consideration.

(2) Elimination from officer training programs of the Army, Navy, Air Force, Coast Guard, or Merchant Marine for lack of academic progress or breaches of the honor code.

(3) Elimination from a civilian-operated military institution by the educational authorities because of violations of the institution's honor code.

NOTE: Requests for determination of the eligibility of applicants disenrolled or eliminated for any of the reasons stated above should be made only in rare cases of sufficient merit to justify consideration. Their applications together with DD Form 785, "Record of Disenrollment from Officer Candidate Type Training," will be referred to USAFMPC (DPMRDS) for review and approval before appointment. If approved, normally an individual will not be appointed until after the date of graduation of the class from which eliminated.

(f) A conscientious objector.

(g) A person who admits or whose records show that he has at any time engaged in any of the activities in AFR 35–62, or who is reasonably believed to have done so.

(h) A person who intentionally fails or refuses to accomplish DD Form 98, "Armed Forces Security Questionnaire," in its entirety. If a medical or dental applicant for appointment is subject to induction and intentionally fails or refuses to accomplish DD Form 98 in its entirety, he will not be appointed; his induction will be handled by the Selective Service System.

(i) A person with a record of conviction (for other than a minor traffic violation) by any type of military or civil court. However, he may request the appointing authority to grant a waiver for other minor violations that are nonrecurrent and are not considered prejudicial to performance of duty as an officer. The applicant must include a request for waiver with his application, stating fully the circumstances of the case. Each request for waiver will be considered on its own merit and evaluated in connection with the National Agency check or other appropriate security investigation.

(j) A former officer, warrant officer, or enlisted member of any of the Armed Forces who has been or is being released from active duty or discharged from the service for one of the following reasons:

(1) Conditions other than honorable.

(2) Unsatisfactory service or failure to meet standards of performance prescribed by the Secretary concerned.

(3) Resignation in lieu of court-martial, reclassification, elimination, or any form of corrective or disciplinary action.

(4) Court-martial or board action initiated because of his inefficiency or misconduct, or for security reasons.

(5) Failure of selection for promotion.

(6) Dropped from the rolls of the service concerned because of confinement to a State or Federal penitentiary or correctional institution, or absence without authority for a period of 3 months.

(7) Failure to meet minimum Reserve participation requirements.

(8) Failure to respond to official correspondence.

NOTE: ARPC and HQ USAF (DPMRDS) may grant waivers of conditions, subparagraphs (7) and (8) of paragraph (j) this section on an individual basis for former rated officers applying under § 881.12d and for former line officers applying under subpart F.

(9) Elimination from the Inactive Status List Reserve Section (ISLRS).

(10) Physical disability.

(11) Any condition for which severance pay is received.

(12) Hardship or national health, safety, or interest reasons.

(13) Any other reason, when appointment would not be in the best interest of the service.

(k) A person on the retired roll of any of the Armed Forces, Public Health Service, Coast Guard, or National Oceanic and Atmospheric Administration.

(l) A cadet of any of the service academies, including the Coast Guard and Merchant Marine, and persons enrolled in a course of training or instruction leading to a commission in any of the Armed Forces.

(m) Any officer who is a deferred officer as defined in 10 U.S.C. 8368, or who has had his name removed from the recommended list under 10 U.S.C. 8377.

(n) A person who will not be available for active duty within 30 days:

(1) From date of acceptance of appointment, when appointment depends upon immediate entry on active duty.

(2) From date of issuance of orders calling him to active duty in time of war or national emergency hereafter declared by the President or by Congress, or when otherwise authorized by law, if appointment is based upon Air Force Reserve requirements and not upon immediate entry on active duty.

(3) Because he is principally engaged or employed in a key position in an essential civilian or government activity related to the defense effort.

(4) Because he is undergoing apprenticeship training in a critical civilian occupation.

(o) A person who has been ordered to report for preinduction medical examination or other appropriate processing usually conducted immediately preceding induction under the Military Selective Service Act of 1967 or who is classified 1–A unless he obtains a statement from his Selective Service Board that he is not scheduled for induction within the following 120 days. A person who has applied and is later classified 1–A may remain eligible for consideration until the date he is notified to report for induction, at which time he becomes ineligible for further consideration or appointment.

(p) A person who would not qualify for retired pay when he reaches age 60.

(q) Normally, a person who, by reason of award of constructive service or prior Reserve commissioned service creditable toward total years of service date, is ineligible for entry on extended active duty because of his inability to complete 20 years' active Federal service before attaining 28 total years of service (not applicable to chaplains).

§ 881.12 Former and reserve officers.

§ 881.12a Former officers of the regular Air Force.

(a) An officer of the RegAF who is honorably separated by reason of unqualified resignation and has a remaining military service obligation (MSO) or unfulfilled contractual agreement may be separated contingent upon his acceptance of a Reserve appointment in the grade to which entitled. An officer with an MSO will then be initially assigned to the Obligated Reserve Section (ORS), ARPC, in a Ready Reserve status. An officer with no MSO but with an unfulfilled contractual agreement will be assigned to the nonaffiliated Reserve Section (NARS–A) ARPC in a standby status. To control contingent resignations, separation from the RegAF and acceptance of the Reserve commission occur on the same date. The special orders effecting discharge also constitute the instrument of appointment as a Reserve of the Air Force (ResAF). In these cases, the effective date specified in the special orders is considered to be the last day of duty as a member of the RegAF and the individual is considered to enter status as a ResAF officer on the following day.

(b) A former officer of the RegAF who has no MSO or unfulfilled contractual agreement and is honorably separated by reason of unqualified resignation may, at the time he tenders his resignation, request an appointment as a ResAF officer. Upon approval of HQ USAF, a person appointed under this authority will be initially assigned to NARS–A, ARPC, in a standby status, unless he applies for a Ready Reserve assignment according to Part 888b of this subchapter. Appointment as a ResAF will be made by a letter of appointment, and acceptance must be accomplished after discharge from the RegAF. Execution of the oath of office as a Reserve officer on the day following discharge will insure continuous commissioned status and permit a person who holds a currently effective aeronautical rating to assume flying activities in the Reserve program without revalidating his flying status orders.

(c) A RegAF officer who does not request a Reserve appointment at the time of his resignation may apply direct to USAFMPC (DPMRDS) and be considered up to 1 year from the date of his discharge. If his application is received within 6 months from his date of discharge, he may be appointed upon letter request. If it is received after 6 months but within the 1-year limitation, he must submit the documents required by § 881.20(a)(1), (3) thru (6), (12), (13), and (17).

(d) Appointment may be made in the permanent or temporary grade in which serving at time of discharge. Constructive service appropriate for the grade will be awarded based on length of active Federal commissioned service and education where applicable. Constructive service will also be awarded for prior service in an active status as a Reserve officer not on extended active duty (EAD) for those years in which minimum participation requirements for retention and retirement were satisfied (minimum of 50 points per year). If an applicant does not have the length of service which would permit the crediting of sufficient constructive service for Reserve appointment in the active duty grade, satisfactory performance in the active duty grade constitutes the basis for award of the minimum amount of constructive service appropriate to the Reserve grade as indicated in paragraph (f) of this section. Constructive service possessed by an applicant that is in excess of that required for the grade in which appointed will be awarded as service in grade and identified as a promotion service date (PSD). No individual will be appointed as a Reserve officer in a grade higher than that in which he served on active duty. Accordingly, constructive service credit in excess of the maximum authorized for the active duty grade will not be awarded regardless of length of actual service. For example, an applicant whose highest activity duty grade was captain must be awarded at least seven but less than 14 years' constructive service.

(e) Air Force policy is to appoint as ResAF officers only individuals who normally may be expected to participate in reserve activities and who will be available for immediate active service. Under current laws, an individual who is preparing for the ministry in a recognized theological or divinity school may not be required to serve on active duty, or to participate in active duty training and service, active duty for training (ACDUTRA), or inactive duty training (INACDUTRA). Accordingly, a former officer of the RegAF who resigns to enter seminary training is not eligible for appointment as a ResAF officer. He may, however, apply for appointment as a chaplain upon meeting the requirements specified in subpart E.

(f) Constructive service:

Line	A. If active duty grade is—	B. Then minimum years of constructive service are—
1	1st lieutenant	3
2	Captain	7
3	Major	14
4	Lieutenant colonel	21
5	Colonel	23

(1) They will not be made in specialties for which the applicant is not qualified.

(2) A selectee who is an ART must be

AFM 160–1. A report of medical exam-

V37-231 NOV 30 72 XUM

(g) In addition to other requirements, a former chaplain of the RegAF must submit a current ecclesiastical endorsement for appointment as a ResAF. A former chaplain may not be appointed in any other category.

§ 881.12b Former officers of any of the services.

Except for those who are ineligible under § 881.11, former officers of any of the services may be appointed for duty in any specialty for which they are qualified and for which there is a procurement quota. Former officers may be tendered appointments based solely on prior service, except as provided in this part.

§ 881.12c Reserve officers of other Armed Forces of the United States.

A Reserve officer of another Armed Force of the United States not on active duty may be appointed as a ResAF in any grade (or equivalent permanent grade) held as a Reserve of the Armed Force concerned, without appearing before an examining board.

EXCEPTION: Appointment may be made in a higher grade only when the Reserve commission held in the other Armed Force is in other than a professional category (medical, dental, legal, etc.) and the applicant desires and qualifies for appointment in a professional category in the Air Force for which a procurement authorization exists. Grades will be determined according to § 881.16a(c)(1).

He will be awarded a permanent Reserve grade and date of rank (DOR) as determined by applying the amount of his promotion service in his present service to the appointment laws in effect for the service to which he is being transferred: *Provided*, That in addition to the application and allied papers the following requirements are met:

(a) His age does not exceed the maximum age for his grade (see § 881.16(d)(2)(i)).

(b) A Ready Reserve position vacancy exists for which he is qualified.

(c) The commander of the unit of assignment in which the vacancy exists submits a statement requesting his appointment to it.

(d) No Air Force Reserve officer with the required qualifications and residing within a reasonable distance of the assignment is available, volunteers, and will accept the assignment.

(e) He submits a completed AF Form 1288, "Application for Reserve Assignment," and DD Form 1644, "Ready Reserve Service Agreement" (triplicate).

(f) He signs an agreement to be available for active service in the assignment for 3 years.

(g) He has no active duty obligation under the Military Selective Service Act of 1967.

(h) He obtains a conditional release from the other Armed Force or component in which he holds an appointment.

(i) If a rated officer with another Armed Force, he has final approval of the aeronautical rating by HQ USAF before processing the application to completion.

§ 881.12d Former rated officers.

(a) Former rated officers of any of the services (including RegAF officers who did not apply for a Reserve commission within 1 year after resignation may be appointed in a grade held at time of discharge, not above O–4, to fill rated positions in the Ready Reserve. To be eligible for appointment, the applicant must:

(1) Have been on flying status at the time his previous appointment was terminated. He must furnish a copy of his individual flight record.

(2) Be available for, and agree to participate in, a Ready Reserve aircrew position for at least 4 years after being appointed.

(3) Qualify for an Air Force aeronautical rating or return to flying status under AFM 35–13.

(4) Not have had a previous appointment terminated for cause. Normally, the termination of appointment due to nonparticipation or failure to answer official correspondence will not automatically disqualify an individual for appointment.

(5) Meet all criteria for initial appointment as a ResAF officer, except that age may exceed the normal maximum by the number of years of previous commissioned service.

(6) Not have held a permanent Reserve grade higher than O–4 at the time of discharge.

(b) The computation of constructive service for appointment and promotion service date (PSD) purposes is as follows:

(1) A former officer who satisfactorily held the Reserve grade of O–4 will be awarded a minimum of 14 years' constructive service credit or an aggregate of the following, whichever is greater, but not to exceed a total of 16 years:

(i) Active Federal commissioned service.

(ii) All service in an active status as a Reserve officer not on active duty for the years in which minimum participation requirements for retention and retirement were satisfied (50 points minimum per year).

(2) A former officer who satisfactorily held the Reserve grade of O–3 will be awarded a minimum of 7 years' constructive service credit or an aggregate as described in § 881.12d(b)(1) (i) and (ii) of this section, whichever is greater, but not to exceed a total of 9 years.

(3) A former officer who satisfactorily held the Reserve grade of O–2 will be awarded a minimum of 3 years' constructive service credit or an aggregate as described in § 881.12d(b)(1) (i) and (ii) of this section, whichever is greater, but not to exceed a total of 5 years.

(4) Constructive service possessed by an applicant in excess of the amount required for the appointive grade, will be awarded as service in grade and identified as a PSD.

§ 881.13 Officer Training School and AFROTC graduates.

(a) *Officer Training School graduates.* Applicants must have successfully completed the prescribed course and be recommended for appointment by a faculty board (AFR 53–27 and AFM 50–5).

(b) *AFROTC graduates.* Applicants must have successfully completed the prescribed academic and military training requirements (Subchapter H of this chapter).

§ 881.14 Appointment as a ResAF.

§ 881.14a Appointment as a ResAF officer for assignment to the Retired Reserve and placement of name on the U.S. Air Force reserved retired list.

An individual who qualifies for membership in the Retired Reserve under the provisions of AFM 35–7 and does not hold a Reserve commission may be appointed under this section for the sole purpose of assignment to the Retired Reserve. Appointment will be made in the highest grade he has satisfactorily held or is eligible for by law. Former members separated for reasons involving moral or professional dereliction normally will not be tendered an appointment. Eligibility for appointment under this section is not governed by the other conditions outlined in this part.

§ 881.14b Appointment as a ResAF upon removal from the temporary disability retired list (TDRL) (10 U.S.C. 1211).

(a) If a member is removed from the TDRL following a finding that he is physically fit, he must be reappointed to the Reserve grade he held at the time he was placed on the TDRL.

(b) He will be reappointed the day following his discharge from the TDRL and will be awarded the PSD he had when he was placed on the TDRL.

§ 881.14c Posthumous appointments.

A posthumous appointment as a ResAF may be issued in the name of a member of the Air Force who was selected for appointment, or had successfully completed an Officer Training School course and been recommended for appointment by the school's commanding officer, but was unable to accept appointment because of death in the line of duty.

(a) The MAJCOM will, if he considers appointment appropriate, request USAFMPC (DPMRDS) to publish the appointment orders.

(b) No financial benefits will accrue as a result of a posthumous appointment.

(c) Authority: Title 10, U.S.C. chapter 77.

§ 881.14d Appointment of USAFR airmen not on EAD as ResAF officers.

Direct appointment of qualified and deserving airmen not on EAD to officer status and a concurrent Ready Reserve assignment may be made under the following criteria:

(a) *Quotas.* HQ USAF announces fiscal year quotas and any modifications to criteria.

(b) *Restrictions on appointments.* Appointments are subject to the following limitations:

(1) They will not be made in specialties specified in Subparts D through H of this part.

(2) They are restricted to grades of captain and below. They are limited to second lieutenants, except for applicants who have sufficient constructive credit to qualify for higher grades.

(3) An applicant who is age 30 or over and has insufficient constructive credit for appointment in a grade higher than second lieutenant is not eligible for appointment.

(c) *Waivers.* Waiver of requirements is not permitted except as provided in § 881.16(c).

(d) *Eligibility criteria.* In addition to meeting the prescribed moral, citizenship, medical, age, and testing requirements (§§ 881.16 and 881.22) an applicant must:

(1) Have completed:

(i) His MSO or have served on AD (other than ACDUTRA) for 12 months or more. The 12 months' AD need not have been consecutive.

(ii) At least 12 consecutive months in a training category A, B, or D Ready Reserve assignment and be actively participating in training in such a unit or mobilization augmentation position at the time of application and appointment.

(2) Agree in writing that, if appointed, he will meet the training requirements of the training category in which assigned and will remain assigned for 3 years in training category A, B, or D. (Subsequent failure to participate for reasons within his control may result in discharge action under AFR 45–41.)

(3) Not have reached age 40 as of July 1 of the year of selection.

(4) Be a high school graduate or possess a certificate of equivalency. College graduates will be given priority of selection. It is desirable that a noncommissioned officer (NCO) be a graduate of a recognized NCO academy. When a noncollege graduate applies, the commander of the unit possessing the vacancy must certify that a qualified college graduate is not available or, if available, refuses to apply, and that the geographical location of the unit precludes consideration of a college graduate. Noncollege graduates will not be appointed in specialties in which AFM 36–1 specifies a degree is mandatory.

(5) Be tentatively selected for assignment to a vacant lieutenant or captain position in a training category A unit or to an authorized mobilization augmentation position in a Regular Air Force unit. The vacancy is not restricted to the airman's current unit of assignment. However, if an airman is tentatively selected for a position in another unit, he must obtain from the commander of that unit and attach to his application a statement that he is acceptable and the position will be blocked pending final results of the selection board.

(e) *Miscellaneous provisions.* (1) Upon an airman's discharge to accept appointment under this program, his servicing CBPO will forward his FPR to ARPC (DPIDA).

(2) A selectee who is an ART must be informed that if he accepts the appointment he will be separated from his ART position.

§ 881.15 Appointment for immediate entry on active duty.

(a) Persons who are eligible under §§ 881.12c and 881.12d and who meet recall criteria may be appointed for immediate recall to active duty. Appointments in grades above captain will be made only when vacancies exist. Appointments may be made under this authority only in skills listed on current recall requirements listings.

(b) Applications are forwarded to ARPC for processing according to instructions provided annually by HQ USAF.

§ 881.16 Eligibility requirements.

(a) *Moral requirements.* Applicant must possess high moral character and personal qualifications.

(b) *Citizenship requirements.* A person appointed as a Reserve of the Air Force under this part must at the time of appointment be a citizen of the United States. An individual who is not a citizen by birth must submit the statement in subparagraphs (1) and (2) of this paragraph, signed by an officer, notary public, or other person authorized by law to administer oaths. In no circumstances will facsimiles or copies (photographic or otherwise) of naturalization certificates, declarations of intention, certificates of citizenship, or alien registration receipt cards be made. 18 U.S.C. 1426(h) provides that "whoever, without lawful authority, prints, photographs, makes or executes a print or impression in the likeness of a certificate of arrival, declaration of intention to become a citizen, or certificate of naturalization or citizenship, or any part thereof, shall be fined not more than $5,000 or imprisoned not more than 5 years, or both."

(1) *For persons who are citizens by naturalization.*

I certify that I have this date seen the original certificate of citizenship No. ------ (or certified copy of the court order establishing citizenship) stating that ---------- was admitted to United States citizenship by the court of ---------- at
(District or County)
----------, on ----------
(City and State) (Date)

(2) *For persons who claim derivative citizenship through naturalization of parent(s).*

I certify that I have this date seen the original certificate of citizenship No. ------ issued to ---------- by the
(Name of applicant)
Immigration and Naturalization Service, Department of Justice, stating that ----------
(Name
---------- acquired citizenship on
of applicant)

(Date)

(c) *Medical requirements.* All applicants must be medically qualified, or medically acceptable with waiver for Air Force commission, in accordance with AFM 160–1. A report of medical examination will be accomplished not more than 90 days before the date of application. Except for women applicants, medical examinations will be without expense to the Government. Women applicants for commission may be examined by qualified civilian physicians where no military examining capability exists. Funds provided for the operation of the USAF Recruiting Service will be used for this purpose. Travel performed in connection with medical examinations will be without expense to the Government.

(d) *Age, education, experience, and grade requirements*—(1) *General.* Applicants whose appointments are based on guidelines in AFM 36–1 must meet the mandatory requirements it specifies. When AFM 36–1 does not specify a degree as mandatory, applicants must possess at least 2 years of college (60 transferable semester hours or the equivalent) and 1 year of qualifying experience as a substitute for each year of college study required for the appropriate degree. Experience thus applied must be gained and evaluated as defined in subparagraph (4) of this paragraph. Exception: Persons applying for appointment under §§ 881.12a, 881.12c, 881.12d, 881.13, 881.14a, 881.14b, or 881.14d must possess the minimum educational and experience requirements specified for those categories.

(2) *Age.* By law, no person under the age of 18 years will be appointed as a Reserve of the Air Force. Applicants without prior military service will not be appointed after they reach 40 years of age. Section 881.16(d)(2)(i) shows the maximum age for grade that will apply for appointments made under this part.

(i) *Maximum age for grade* (see note).

Rule	A. If applicant is for appointment in the grade of—	B. Then the applicant's age must be less than—
1	2d lieutenant	30
2	1st lieutenant	34
3	Captain	40
4	Major	46
5	Lieutenant colonel	51
6	Colonel	56

NOTE: Age alone does not determine grade; therefore, this table must be used in conjunction with the table for grade determination (see § 881.16a(c)(1)).

(3) *Education.* Only education above high school level that is gained at accredited institutions will be acceptable for purposes of this part. Institutions recognized for credit under this part must have national or regional accreditations as listed in the Education Directory, Part 3, published by the Office of Education, Department of Health, Education, and Welfare. Persons whose credits are from other than a nationally accredited institution will be considered as meeting the educational requirements of this part upon presentation of evidence that their credits are acceptable for unconditional admission into the graduate school of, or for full transfer to,

(5) *Grade.* Grade is determined by the

(3) The degree must relate to the credit which will result in an earlier discharge, and statement of service, when applicable. Applicants with prior active

V37-231 NOV 30 72 XUM

a nationally or regionally accredited college or university, except as otherwise provided in this part.

(4) *Experience.* (i) Only experience gained through full-time employment in a responsible position will be acceptable for the purpose of this part. Any additional education or training in a field allied to nursing (includes anesthesia training) attained after graduation from a school of nursing will be credited as experience. Unless appointed under subpart F or §§ 881.71, 881.72, or 881.73, an applicant must have completed at least 12 months of employment before his experience is acceptable. If an applicant's record of experience is questionable, a statement must be obtained from his employer.

(ii) Unless otherwise provided, only experience gained after applicant attained the appropriate degree is creditable as service in an active status for appointment to duty in one of the applicable specialties. Experience is computed as follows:

(*a*) For physicians, dentists, and veterinarians—from date of graduation from medical, dental, or veterinary school, except that each year of professional experience or fraction thereof in excess of 21 years will be given only one-half credit. Periods of unemployment exceeding 30 days are not creditable.

(*b*) For nurses, dietitians, occupational and physical therapists—from date of completion of the educational requirements specified in Subparts F and H of this part and within the limitations stated therein, excluding periods in excess of 30 days per calendar year for vacations.

(*c*) For all other medical service personnel—within the limitations specified in § 881.16b, from date of attainment of the appropriate degree or date of licensure in the case of pharmacy and optometry officers. Except for a person who possesses a Master's degree, no constructive service credit is authorized unless he has at least 3 years of such professional experience and is otherwise qualified for appointment in grade of first lieutenant or higher.

(*d*) For judge advocates—within the limitations specified in § 881.16b, from date of graduation from law school or date of admission to the bar of a Federal court or of the highest court of a State, whichever is later.

(*e*) For chaplains—within the limitations specified in § 881.16b, from date of ordination, provided applicant has completed the required undergraduate study prescribed in § 881.40(c)(2)(i). No experience is creditable while attending seminary. For applicants from religious denominations which do not operate accredited or recognized seminaries, creditable experience will be determined by the Chief of Air Force Chaplains.

(*f*) For all others—as specified in pertinent sections of this part relating to appointment of former officers of the Regular Air Force, appointment of officers of other Armed Forces, and reappointment of former rated officers. For appointments for duty in specialties not listed in this part, but contained in other appointment authorizations, creditable experience will be computed from date of attainment of the appropriate degree, where applicable, and within the limitations secified in § 881.16b. Except for person who has a Master's degree, no constructive service credit is authorized unless he possesses at least 3 years of experience and is otherwise qualified for appointment in grade of first lieutenant or higher.

(5) *Grade.* Grade is determined by the combined education and experience constructive credits the applicant possesses (see § 881.16a).

§ 881.16a How to determine grades.

(a) Use subparagraph (1) of this paragraph to convert to years of constructive service credit educotion that is pertinent to applicant's specialty (see § 881.16b).

(1) *Education constructive service.*

Rule	A. If the applicant holds a—	B. Then, the amount of constructive service awarded will be—
1	Baccalaureate degree (except in nursing)	None.
2	Baccalaureate degree in nursing or a field allied to nursing	1 year.
3	Dietetic internship or a certificate, in occupational or physical therapy	Do.
4	Master's degree	Do.
5	Master's degree in nursing or a field allied to nursing, dietetics, occupational or physical therapy.	1 year.[1]
6	Doctor of philosophy, bachelor of divinity, bachelor of laws, doctor of veterinary medicin', or equivalent degree.	3 years.
7	Degree in medicine, dentistry, or osteopathy	4 years.

[1] The 1 year awarded under this rule is in addition to that awarded under rules 2 and 3. No additional constructive service is authorized if the master's degree was obtained while applicant was gainfully employed.

(b) If on date of his application an applicant possesses experience pertinent to his specialty that is in excess of that required for appointment as second lieutenant, convert it to constructive service credits by year, month, and day on a day-to-day basis (see § 881.16b).

(c) Using applicant's combined education and experience credits, determine his appointment grade from subparagraph (1) of this paragraph.

(1) Grade determination:

Rule	A. If applicant's combined education and experience constructive service credit is [1]—	B. Then appointment will be made in grade of—
1	Less than 3 years	2d lieutenant.
2	At least 3 but less than 7 years	1st lieutenant.
3	At least 7 but less than 14 years	Captain.
4	At least 14 but less than 21 years	Major.
5	At least 21 but less than 23 years	Lieutenant colonel.
6	23 or more years	Colonel or lieutenant colonel.[2]

[1] Constructive service credit does not apply to persons commissioned through AFROTC or OTS.

(2) A person who has achieved national prominence as an authority in his particular specialty may be appointed in the grade of colonel.

§ 881.16b Award of constructive service.

The award of constructive service to reflect an applicant's combined years of education and experience was originally authorized by section 201 of the Reserve Officer Personnel Act of 1954 (ROPA), now codified as 10 U.S.C. 8353. ROPA became effective on July 1, 1955, and contains no retroactive provisions. Accordingly, persons appointed before the effective date of the law, July 1, 1955, are not eligible for any constructive service credit.

(a) The constructive service credit possessed by an applicant is the amount of education (§ 881.16a(a)(1)) and experience (§ 881.16(d)(4)) credited for grade determination. Constructive credit in excess of that required for the grade in which appointed, but less than that required for the next higher grade, will be awarded as promotion service in grade.

(b) The award of constructive service credit will be limited to the minimum amount required for appointment in the determined grade. For example, 3 years for appointment in grade of first lieutenant and 7 years for captain. This rule applies to all categories except:

(1) Medical (includes osteopaths), dental, and veterinary officers.

(2) Nurses, dietitians, occupational therapists, and physical therapists appointed in grades below captain.

(3) Persons who hold master's degrees and are appointed in grade of second lieutenant.

(4) Former Regular Air Force officers appointed as Reserve officers under § 881.12a.

(5) Reserve officers of other Armed Forces of the United States as Reserves of the Air Force if eligible under the criteria stated in § 881.12c of this part or AFR 36–26.

(6) Reappointment of former rated officers in accordance with § 881.12d.

(c) The amount of constructive service awarded for education will be as specified in § 881.16a(a)(1) regardless of the actual time spent in acquiring the degree. At time of appointment, the following conditions must be met:

(1) The degree must have been conferred, or

(2) An authorized official of the educational institution awarding the degree must certify that the applicant has completed all of the requirements for the degree which will be conferred at a later specified date, and

(3) The degree must relate to the specialty in which appointment is being made.

(d) Persons who earn a degree for which constructive service is allowable, but who do so while in a commissioned status may, upon an authorized reappointment, be credited with either constructive service or their commissioned time for total years service date, but not both.

(e) Persons commissioned during a portion of the time spent in earning a degree may, upon an authorized reappointment, be awarded constructive service credit for education for the time not duplicated by commissioned service.

§ 881.16c Computing and recording total years service date (TYSD), promotion service date (PSD), and total Federal commissioned service date (TFCSD).

(a) *TYSD.* This date is computed by backdating the date of acceptance of appointment by the total amount of constructive credit awarded under § 881.16b.

NOTE: If an officer has prior commissioned service time for which he has not received constructive credit, such service is creditable as TYSD after determination of a grade in accordance with § 881.16a(c). However, in no case will any service be counted more than once in determining TYSD.

(1) Upon reappointment, generally TYSD will be recomputed from the effective date of reappointment to reflect the additional constructive credit allowable for education and/or experience under § 881.16b. Upon reappointment as a judge advocate under subpart D of this part, for example, credit for full-time experience as a lawyer accrues from date of graduation from law school or date of admission to the bar, whichever is later, to date of acceptance.

(2) To determine the actual period of time for which constructive service for education is given, backdate the applicable date of graduation or admission to the bar, whichever is later, by 3 years. Any commissioned service held during the period for which constructive service for education and experience is awarded may not be counted again for TYSD purposes. Unusual cases should be referred to USAFMPC (DPMRDS) for resolution.

(b) *PSD.* If the constructive service credit possessed by an applicant exceeds that required for the grade in which he is appointed, excess credit is subtracted from the date of his acceptance and is identified as his PSD. In no case will an officer be awarded a PSD which will make him immediately eligible for promotion. For example, an officer appointed as captain will not be awarded a PSD reflecting 7 or more years of promotion service.

(1) Upon reappointment as a judge advocate under subpart D of this part an officer's PSD will remain the same unless, on the basis of the additional constructive service awarded, he possesses constructive promotion service credit which will result in an earlier date.

(2) Upon reappointment as chaplain or an officer of the medical, dental, or veterinary corps, an individual is given a new grade (which may be the same, or a higher or lower grade) for which he qualifies by reason of education and experience. PSD will be recomputed to reflect constructive credit in excess of that required for the reappointed grade. Prior commissioned service as a line officer in the grade in which reappointed or any higher grade is not creditable unless authorized by law.

(c) *TFCSD.* This date is computed by backdating the date of an officer's acceptance by his prior commissioned service.

(d) *Entry in records.* These three dates will be entered on the file copy of the appointment documents and on records as TYSD, PSD, and TFCSD, respectively.

§ 881.16d U.S. Air Force (temporary) appointments.

TYSD and PSD will not be computed for officers holding only U.S. Air Force (temporary) appointments.

Subpart C—Application and Processing Procedures

§ 881.20 How to apply.

(a) Except for procedures that apply only to OTS and AFROTC, the documents in subparagraphs (1) through (21) of this paragraph, properly completed, constitute the application. Use of requirements below as a checklist to insure that all required information and papers have been included before forwarding application and thus preclude delays that would result from the return of incomplete applications. For officers on EAD applying for reappointment as judge advocate under subpart D of this part, items (3), (4), (5), (6), (9), (11), (12), (14), and (16) are not required. Officers already designated as judge advocates or assigned to the Judge Advocate General's Department who apply for reappointment under subpart D of this part need not submit items previously submitted if they are still current (that is, certificate of graduation from an accredited law school). Line of the Air Force officers desiring reappointment to the Medical Service Corps or the Biomedical Sciences Corps should submit application in letter form. Airmen on duty (active) need not submit subparagraphs (4) through (6) of this paragraph if a personnel security investigation has been completed. The document in subparagraph (19) of this paragraph is required instead of the investigation.

(1) AF Form 24, "Application for Appointment as Reserves of the Air Force or USAF Without Component," (in triplicate). In the upper right corner specify the specialty for which application for appointment is being made.

(2) Original or photostat of honorable discharge certificate or certificate of service, a copy of the orders effecting discharge, and statement of service, when applicable. Applicants with prior active military service will submit a photostatic copy of DD Form 214, "Armed Forces of the United States Report of Transfer or Discharge." For judge advocate appointees, a copy of the individual's certificate of graduation from an accredited law school and a copy of his certificate of admission to the bar of a Federal court or the highest court of a State, as applicable, will be forwarded to HQ USAF (JA), Washington, D.C. 20330.

(3) Completed SF 88, "Report of Medical Examination," and SF 89, "Report of Medical History," in duplicate.

(4) DD Form 398, "Statement of Personal History." Six copies for applicants requiring a background investigation under § 881.24(b). One copy of all others, including persons being considered for appointment on the basis of a prior or existing investigation.

(5) DD Form 98, "Armed Forces Security Questionnaire," in duplicate.

(6) Completed FD Form 258, "FBI Fingerprint Card", in duplicate, according to AFR 125–36.

(7) Transcripts of college work as evidence of educational level. Graduates of recognized colleges of dentistry, medicine, optometry, pharmacy, and veterinary medicine, and applicants for appointment in the Medical Service Corps may submit a photostatic or certified copy of college diploma in lieu of a transcript.

(8) Conditional release from another Armed Force or component in which appointment is currently held, if applicable.

(9) A certificate similar to the following, except for women and chaplain applicants:

I certify that I have not been ordered to report for induction under the Military Selective Service Act of 1967. After submitting application for appointment as a Reserve of the Air Force, I understand that any appointment, enlistment, or order to active military service in a branch of the service other than the Air Force automatically renders me ineligible to accept an appointment as a Reserve of the Air Force.

(10) Any other documents or information the applicant may desire to submit as evidence of his qualifications for appointment.

(11) For a civilian employee of the Federal Government, a "Certificate of Availability of Federal Employee," as required by part 888a of this subchapter.

(13) Persons applying under subparts D through H must submit the additional documents listed in those subparts.

(14) Men applicants, other than chaplains, physicians, dentists, and veterinarians, who have not attained their 26th birthday and who have had no prior military status, must submit the following statement:

In the event I am tendered an appointment as a Reserve of the Air Force, I understand that upon acceptance of appointment I am required by law to serve on active duty and in a Reserve component for a total of 6 years unless sooner discharged in accordance with regulations and standards prescribed by

the Secretary of Defense. I understand that

major commander having jurisdiction

aircrew examining centers for incorpo-

officers, officers covered by subparts E and F of this part, applicants for appoint-

V37-231 NOV 30 72 XUM

the Secretary of Defense. I understand that although the appointment is tendered and accepted for an indefinite term, my obligated service will be for a period of 6 years. I understand that I may qualify for transfer to a standby reserve on completion of a combination of active duty and satisfactory ready reserve participation totaling at least 5 years or upon completion of my military service obligation, whichever is earlier. I further understand that if my appointment is contingent upon concurrent ready reserve assignment, I will be required to meet the participation requirements of the unit to which assigned. I understand that while I am serving in a draft-deferred status, I am subject to mandatory assignment. I have been counseled and understand that I will become subject to involuntary order to active duty for up to 24 months if I fail to satisfactorily perform training requirements.

(15) Physicians, dentists, and veterinarians, including those who have reached age 26 or over, whose appointments are contingent upon concurrent assignment to a ready reserve position, must sign the following statement and have it witnessed:

In the event I am tendered an appointment as a Reserve of the Air Force, I understand and agree to accept ready reserve status for a period of 5 years, or until age 35, whichever occurs first, effective on the date of my appointment. Provided that I satisfactorily participate as a member of a ready reserve unit, I will not be liable, as provided under 50 U.S.C.A. App. 454(1)(1) for active military service as the result of special draft calls.

I understand that I must participate in 48 inactive duty training periods or assemblies and up to 15 days' active duty training annually or as required by my reserve assignment, unless excused therefrom by proper authority.

I understand that if I fail or refuse to participate satisfactorily as determined by the Secretary of the Air Force, I may be discharged or referred to the appropriate Selective Service System Board for induction, as appropriate.

WITNESSED BY:

(Unit commander or authorized representative)

(Signature of applicant)

(16) For persons whose appointments are for inactive duty, AF Form 1288, "Application for Reserve Assignment" (in triplicate) and a statement from the commander of the ready reserve unit that a vacancy exists within the unit and the appointment of the applicant is requested to fill the vacancy.

(17) For an applicant who has been eliminated from a course of training leading to a commission, the commander or activity responsible for the preliminary processing of the application will obtain and attach DD Form 785, "Record of Disenrollment From Officer Candidate Type Training." AFR 53–5 tells where and how to obtain the DD Form 785. If the DD Form 785 does not provide sufficient information, send requests for additional facts to appropriate addresses indicated or to major commands responsible for precommission programs. The applicant's previous precommission training performance, aptitude for commissioned service, a summary of any derogatory information, and the academic record should be evaluated.

(18) Appropriate certificate required by § 881.16(b) when applicable.

(19) For airmen applicants on EAD, the servicing CBPO will furnish an AF Form 47 as evidence of completed security investigation.

(20) For those seeking appointment as a judge advocate, a report of interview by an active duty career judge advocate, prepared according to separate instructions issued by the Judge Advocate General, USAF.

(21) A recent 3''×5'' photograph (head and shoulders only).

(b) Applications and allied papers will be submitted according to § 881.21(g).

(c) Physicians and allied medical specialists allocated to the Air Force under special draft calls will be processed as follows:

(1) *Application components.* (i) DD Form 1548, "Preinduction Processing and Commissioning Data—Medical, Dental, and Allied Specialists Categories" (original), constitutes the application for appointment and active duty.

(ii) Standard Forms 88 and 89 will be submitted with the DD Form 1548. Armed Forces examining stations determine acceptability for physicians who are U.S. citizens, graduates of U.S. medical schools or approved schools of osteopathy, and who are considered by the examining physicians to be physically qualified. Reports of medical examinations are acceptable for 2 years from date of examination.

(iii) Graduates of foreign medical schools must furnish evidence of permanent certification by the Educational Council for Foreign Medical Graduates.

(2) *Processing.* (i) Within 10 days of receipt of the required forms, Reserve appointments will be tendered to qualified applicants whose forms indicate they are U.S. citizens and graduates of U.S. medical schools or approved schools of osteopathy. The Department of the Army will obtain a name check of FBI files for physicians determined to be qualified for commissioning as Reserve officers by the numbered CONUS Army Headquarters and forward, when possible, the results of such checks to the HQ USAF appointing authority within the time limit specified to tender Reserve commissions. Tenders of appointment will not be delayed solely for an uncompleted name check. A tender may be delayed, however, when a completed check indicates it may not be clearly consistent with the interests of national security. If a record of adverse information is found to exist, the Department of the Army will immediately communicate this fact to the appropriate HQ USAF appointing authority who will insure that the evaluation of adverse information is completed without delay.

(ii) DD Form 98 and other forms required to conduct the personnel security investigation as prescribed by § 881.24 are completed at the individual's first duty station. For officers ordered to active duty with TDY enroute to first permanent station, the TDY unit will request the investigation. ARPC will furnish each individual a blank DD Form 398 with instructions to have it completed before reporting to first duty station. Each physician will also be directed to have in his possession reproduced copies of medical school diploma and certificates of completion of residency training when reporting to the first duty station. First duty station will use these documents to verify professional background and immediately forward them to USAFMPC (DPMDRR) for inclusion in the individual's MPer RGp. When the outcome of the processing warrants the person will be discharged from his Reserve commission.

(iii) A physician who is not a U.S. citizen must be the subject of a favorable Background Investigation before he is appointed USAF (temporary). He must, therefore, include with his DD Form 1548 the documents listed in subparagraphs (4), (5), and (6) of paragraph (a) of this section.

§ 881.21 Processing applications to Air Force Academy and aircrew examining centers.

AFR 23–11 has a current listing of these centers.

(a) *CONUS, Alaska, and Hawaii.* The commander receiving applications under this part (except those specified in Rules 3 through 9, paragraph (g) of this section), will forward the applications to the Air Force Academy and aircrew examining center most convenient to the applicant. Before forwarding the application to the examining center for processing, screen it to insure that it is complete and that the applicant is basically qualified. Forward applications to the examining centers within 15 working days of receipt, except when additional information is required to complete an application.

(b) *Overseas.* The MAJCOM having jurisdiction over the oversea area where the applicant is located will (except as specified in Rules 3 through 9, paragraph (g) of this section) forward his application to the most appropriate Air Force Academy and aircrew examining center. MAJCOM's may prescribe administrative channels, for receiving applications. However, it is the responsibility of the major command to screen all applications to insure that they are complete and that applicants are basically qualified before their applications are forwarded to the examining center for processing. MAJCOM's will screen and forward applications within 15 working days of receipt except when additional information is required to complete an application.

(c) *Examining boards.* Examining boards will be appointed to make recommendations for individuals who have not held an appointment and are being considered above the grade of major under 10 U.S.C. 594. These boards will be appointed by the commander of the major command having appointment responsibility for specialties for which the individuals are applying, or, overseas, the major commander having jurisdiction over the geographical area concerned. If required, examining boards may be convened at USAFMPC (DPMRDS).

(d) *Composition.* Examining boards will be composed of an uneven number of officers totaling not less than three, the majority of whom are Reserve officers and all of whom are in a grade equal to or higher than the grades for which applicants are being considered. When a woman applicant is being considered, one of the board members will be a woman officer. Reserve officers appointed to these boards may or may not be on active duty. However, an officer not on active duty will not be appointed without his or her consent. Reserve officers not on active duty will not be placed on active duty for this purpose. This paragraph does not constitute authority for additional personnel or funds. The recommendations of these boards will be forwarded to the Air Force Academy and aircrew examining centers for incorporation with the applicant's application and other allied papers.

(e) *Appointment without referral to a board of officers.* Any person who receives a notice of induction under the Military Selective Service Act of 1967 is allocated to the Air Force, and is otherwise qualified for appointment as a physician or dentist in a grade higher than major will be appointed in such grade without reference to a board of officers. If the overall Reserve grade ceiling established by law will be exceedcd by his appointment, he will be tendered a temporary appointment.

(f) *Applications for appointment and concurrent Ready Reserve assignments under current procurement objectives.* These applications will not be sent to the Air Force Academy and aircrew examining centers for processing. The unit having the vacancies being applied for will process them.

(g) *Submitting applications.*

Rule	A. If applicant is—	B. Then he submits his application [1]—
1	A USAF airman or WO on active duty, except as in rule 7.	Through servicing CBPO to ARPC (DPRPR); except applicants standard OS send to appropriate MAJCOM.
2	USAF Reserve not on EAD	Through commander of unit to which assigned to ARPC (DPRPR); except applicants standard OS send to appropriate MAJCOM.
3	A person seeking initial appointment as a judge advocate.	Through the USAF Recruiting Service to ATC, Randolph AFB TX 78148.
4	An officer on EAD applying for reappointment as a judge advocate.	Through servicing CBPO and major command to HQ USAF (JAF) and USAFMPC (DPMRDS), in turn.
5	An officer not on EAD applying for reappointment as a judge advocate.	Through Reserve channels to ARPC (DPRPR).
6	A person applying for appointment as a chaplain or chaplain candidate.	To USAFMPC (HCFE).
7	A person applying for appointment in the medical services under subparts F, G, and H, with concurrent active duty.[2]	To USAFMPC (SGPSS).
8	A person applying for appointment in the medical services under subparts F, G, and H, with concurrent assignment to the Ready Reserve.	Direct from unit to AFRES (SGR), Robins AFB GA 31093 and USAFMPC (SGPSS).
9	A line of the AF officers applying for reappointment of the Medical Service Corps or the Biomedical Sciences Corps and vice versa.	Through servicing CBPO and MAJCOM to USAFMPC (DPMREB) to forward to USAFMPC (SGPSS)—Officers on EAD; or through Reserve channels to USAFMPC (SGPSS) and USAFMPC (DPMRDS), in turn—officers not on EAD.
10	A former officer of the Regular Air Force	To USAFMPC (DPMRDS).
11	A Reserve officer of another Armed Force other than 3, 6, 7, and 8 above.[3]	Through Reserve channels to ARPC (DPRPR).
12	A former rated officer of any of the services applying for appointment to fill an aircrew position in the Ready Reserve.	Through Reserve channels to ARPC (DPRPR).
13	A person applying for appointment for the purpose of assignment to the Retired Reserve.	As outlined in chapter 8, AFM 35-7, utilizing AF Form 131, "Application for Transfer to the Retired Reserve."
14	A person, including a Reserve of another Armed Force, applying for appointment or reappointment as a Reserve of the Air Force (ANGUS) in any category.	To the ANG servicing CBPO, the adjutant general of the State concerned, and the Chief, National Guard Bureau (NGFP), Washington, D.C. 20310, in turn.[4]
15	Former USAF officers discharged for pregnancy	To AFMPC/DPMMPR, Randolph AFB TX 78148.[5]

[1] Approval of HQ USAF is required on all appointments above the grade of captain.
[2] Applications of airmen on active duty will be routed through the servicing CBPO for inclusion of AF Form 47 (subpar. (19), par. (a) of this section).
[3] Rule 11 pertains only to Reserve officers of other services not serving on EAD. Applications for the interservice transfer to Reserve officers of other services serving on EAD will be submitted in accordance with AFR 36-26.
[4] The Chief, National Guard Bureau (NGFP), will forward applications to appropriate HQ USAF agencies for final selection and appointment under procedures established by mutual agreement.
[5] Nurses and other medical service personnel will forward applications as specified in rule 7 or 8, as appropriate.

§ 881.22 Duties of the examining centers.

(a) *Notifying applicant of time and place of examination.* Within 15 workdays after the application is received from the major command, the Air Force Academy and aircrew examining center will notify the applicant of the time and place he must appear for processing and testing. Applicants not in the active military service must provide for travel, quarters, and meals at their own expense. Applicants will be scheduled so that, as far as practical, they will not have to spend more than 2 days at the place of processing. If an applicant fails to report for processing on the scheduled date, every reasonable attempt will be made to determine reasons for failure to report. A new reporting date will be established, if the applicant desires it.

(b) *Testing.* (1) The Air Force Officer Qualifying Test (AFOQT) will be administered to each applicant except former officers, officers covered by subparts E and F of this part, applicants for appointment under § 881.62, and applicants for appointment as dietitians, occupational therapists, and physical therapists under subpart H of this part. The test will be conducted according to current and appropriate instructions for administering and scoring the AFOQT battery, to derive the following:

(i) Pilot aptitude.
(ii) Navigator technical aptitude.
(iii) Officer quality.
(iv) Verbal aptitude.
(v) Quantitative aptitude.

(2) Testing requirements and the qualifying officer quality percentile score for AFROTC students is established in part 870 of subchapter H of this chapter.

(3) The AFOQT will be administered by a test control officer or by authorized personnel of the recruiting service. A certified record of aptitude scores will be attached to the application. If any applicant, except one in the OTS or AFROTC programs, and a BSC applicant under Subpart H, does not attain the minimum qualifying percentile score of 40 (60 for judge advocate applicants) on the officer quality portion of the test he will not be processed further.

(c) *Medical examination.* Each applicant will be given a medical examination according to AFM 160–1, if the examination has not already been accomplished.

(d) *Fingerprinting.* Examining centers will fingerprint each applicant. The FBI Fingerprint Card will be used and completed per AFR 125–36 except two copies of the fingerprint card will be submitted.

(e) *Forwarding applications and allied papers.* Applications with allied papers will be assembled and forwarded to the command (§ 881.21(g)) responsible for the appointment in the category for which the applicant is applying. The application will be forwarded within 15 workdays following the completion of the applicant's processing. The appropriate headquarters or major command will be sent a copy of the letter of transmittal of processed application, and the person's aptitude scores. If the applicant fails to comply with processing instructions, the appropriate headquarters or MAJCOM will be so advised and the application will be returned.

§ 881.23 Selection of applicants.

(a) Applicants will be selected as indicated in § 881.4.

(b) UOR of selected applicants will be initiated as prescribed in AFM 30–3, volume III, chapter 4.

§ 881.24 Personnel security investigations.

(a) U.S. citizen physicians allocated to the Air Force under Special Physicians' Draft Calls will be processed under § 881.20(c).

(b) Subparagraph (1) of this paragraph shows the personnel security investigative requirements for persons before they may be tendered an appointment.

(1) *Personnel security investigations.*

XUM
V 37 231 NOV 30 72 XUM

Rule	A. If an applicant—	B. Then he may not be tendered an appointment until—
1	Is an immigrant alien physician or dentist	A report of a Background Investigation (BI) under AFR 205-6 has been completed and a favorable report rendered.
2	Has a father, mother, sisters, brothers, spouse or children residing in one of the countries listed in AFR 205-6, attachment 3.	
3	Is a U.S. citizen and has resided or traveled in a country listed in AFR 205-6, attachment 3, after dates indicated for 30 or more continuous days.[1]	
4	Made entries on DD Form 98 that provide reasons for belief that the appointment may not be clearly consistent with the interest of national security.	
5	Is not listed in rules 1 through 4	A National Agency Check (NAC) has been completed and a favorable decision rendered.
6	Is an Air Force member under consideration for appointment with an LNAC.	
7	Has a break in service or employment after a prior investigation under AFR 205-6.	An NAC has been completed and a favorable decision rendered, if the break in service or employment exceeded 6 months.

[1] Travel or residence in these countries under the auspices of the U.S. Government will not be considered.

(c) Investigations conducted by DOD agencies as part of the preliminary processing of an applicant for initial appointment will be acceptable for 1 year. If the appointment cannot be tendered within the 1-year period, a current investigation will be requested before appointment is made.

(d) When an appointment action is to be taken on the basis of a prior or existing investigation, the appointing authority may request (from the appropriate repository indicated in AFR 205-6) verification of the existence of an entirely favorable report or specifically request that the identical report be furnished.

§ 881.25 Appointing and notifying appointees.

(a) Appointment of persons to grades above captain may be made only after final selection by HQ USAF.

(b) Appointments are made by letter or administrative orders.

(c) Each applicant must be notified of his appointment or nonselection.

(d) After appointment, a copy of the appointment letter or orders, oath of office, and application with attachments thereto, become a part of the appointee's MPerRGp.

(e) Appointments will be issued as of current date and will be effective from the date of acceptance.

(f) Persons who are found not qualified for appointment will be notified of their nonselection.

Subpart D—Appointment of Judge Advocate Officers

§ 881.30 Submitting applications.

Applicants for appointment as Reserves of the Air Force, Judge Advocate General's Department, must submit, in addition to the documents required by § 881.20(a):

(a) A certificate from proper court clerk indicating original date of admission and present standing at the bar of a Federal court or of the highest court of a State.

(b) An affidavit from the applicant containing a chronological statement of his full legal experience. Legal experience may include governmental, judicial, teaching (in accredited law schools), and military experience and private practice.

(c) [Reserved]

(d) For officers applying for reappointment as judge advocates, a statement that the applicant understands that:

(1) Upon reappointment his current Reserve commission will be vacated;

(2) His service credit will be subject to recomputation as provided in §§ 881.16(d) and 881.16b.

(3) His total years service date and promotion service date will be adjusted accordingly; and counts toward mandatory transfer to the Retired Reserve under 10 U.S.C. chapter 863, as well as for appointment and promotion purposes under 10 U.S.C. chapter 837.

§ 881.31 Professional qualifications.

Applicants possessing the following professional qualifications for the grade concerned and who are otherwise qualified, may apply for appointment as a ResAF, Judge Advocate General's Department.

(a) *First Lieutenant.* For appointment as first lieutenant, the applicant must meet the age for grade requirements established by § 881.16(d) and be a graduate of an accredited law school and a member of the bar of a Federal court or of the highest court of a State. A graduate of an accredited law school may apply for appointment before admission to the bar, provided appointment will not be tendered until he submits documentary evidence of admission to the bar. A senior attending the accredited law school may apply for appointment on the basis of his current transcript but not more than 90 days before his scheduled date of graduation. Final transcript must be submitted as soon as possible. In no event will he be tendered an appointment until he graduates from law school and submits both his final transcript and evidence of admission to the bar.

(b) *Grade above first lieutenant.* For appointment in grades above first lieutenant, applicant must possess all the qualifications specified in paragraph (a) of this section and meet the age and legal experience requirements specified in § 881.16(d). Normally, appointments will not be made in field grades.

EXCEPTION. When the applicant has had the type of legal experience that, in the opinion of the Judge Advocate General, qualifies him to satisfactorily perform judge advocate duties in the grade sought and in a legal specialty critically required by the Air Force.

§ 881.32 Appointment and reappointment.

(a) *Appointment.* HQ USAF/JA is the reviewing and approval authority for all applicants. Original appointments in this specialty are contingent upon the applicant's consent to immediately enter EAD for 4 years, except for ANG applicants.

(b) *Reappointment.* Subject to the applicable provision of subpart B and this subpart, Reserve officers of the Air Force who are not in a deferred status under 10 U.S.C. 8368 may apply for reappointment as judge advocates under the following conditions:

(1) Reappointment of applicants on EAD or in the ANGUS component will be made by AFMPC/DPMMPR.

(2) Reappointment of USAFR applicants not on EAD will be made by ARPC.

(3) Reappointment is limited to officers below the permanent or temporary grade of major who qualify for appointment as judge advocates but are not designated as judge advocates or assigned to the Judge Advocate General's Department.

(4) Officers reappointed under provisions of this paragraph will be credited with constructive service under 10 U.S.C. 8353. This service counts for appointment and promotion and toward mandatory transfer to the Retired Reserve under 10 U.S.C., chapter 863.

(5) Applicants on EAD must be in career reserve status.

(6) Reappointment of non-EAD USAFR applicants who have not served on EAD as commissioned officers is authorized to fill EAD requirements. Applicants complete AF Form 125, "Application for Extended Active Duty With the USAF." Selection to enter AD is made on a competitive basis within authorized recall quotas for judge advocates. (See AFR 45-26 for reappointment of AFROTC graduates forecast to EAD to perform judge advocate duties.)

(7) Officers, except second lieutenants, holding Reserve grades lower than those to which they would be entitled by virtue of the additional constructive service credit are not eligible for reappointment.

Subpart E—Appointment of Chaplains

§ 881.40 Application for the Air Force Chaplaincy.

(a) *General.* (1) Those appointed will be awarded Air Force Specialty Code 8921.

(2) Applicants will be considered for appointment only when military and denominational authorizations exist within the Reserve quotas allocated by the Chief of Staff, HQ USAF.

(b) *Application procedures.* (1) Section 881.21(g) shows how to apply.

(2) Applications must include all applicable documents listed in Subpart C, plus the following:

(i) Ecclesiastical endorsement.

(ii) Certified scholastic transcripts.

(c) *Qualification and requirements—*

(1) *Age and grade.* (i) Maximum age and grade for appointment are:

(a) Less than 34 years for first lieutenant.

(b) Less than 40 years for captain.

(ii) In times of national emergency or war, or when a continuing serious shortage of Air Force chaplains exists, the Chief of Air Force Chaplains may grant age waivers not to exceed the maximum age of appointment by more than 3 years.

(2) *Minimal educational requirements.* (i) Applicant must possess 120 undergraduate semester hours credit from a college or university accredited by one of the six regional accreditation agencies shown in the current issue of Part 3, Higher Education, Education Directory, published by the Department of Health, Education, and Welfare. An applicant who has completed work at a nonaccredited school is acceptable if he presents a statement or transcript from an accredited institution indicating that he has 120 semester hours credit acceptable to that institution.

(ii) Applicant must possess 90 semester hours of credit or an appropriate graduate degree from a theological seminary or from a graduate school of theology that is a component part of a university. The seminary or school of theology must be accepted as an accredited or associate member of the American Association of Theological Schools or accredited by one of the six regional accreditation agencies indicated in subdivision (i) of this subparagraph. An applicant who has completed work at a nonaccredited graduate theological school is acceptable if he presents a statement or transcript from an accredited graduate institution indicating that he has 90 graduate semester hours credit or a graduate degree acceptable to that institution.

(3) *Appointment in the grade of first lieutenant.* Applicants may be initially appointed in the grade of first lieutenant if they are less than 34 years of age; have completed 3 years of graduate study or have a graduate theological degree from an accredited or recognized theological seminary; have attained full ecclesiastical ordination status; and have the professional experience required by their denomination.

(4) *Appointment in the grade of captain.* Applicants may be initially appointed in the grade of captain if they are less than 40 years of age and can qualify under one of the following constructive service credit categories:

(i) Have completed 3 years of graduate study in an accredited or recognized theological seminary; have attained full ecclesiastical ordination status; and have had a minimum of 4 years of full-time active professional experience as a minister, priest, or rabbi, following completion of undergraduate study.

(ii) Have completed an additional year of graduate study in an accredited or recognized theological seminary beyond the regular seminary course or first seminary degree; have attained full ecclesiastical ordination status; and have had a minimum of 3 years of full-time active professional experience as a minister, priest, or rabbi, following completion of undergraduate study.

§ 881.41 Compensatory professional considerations.

Applicants from religious denominations that do not operate accredited or recognized theological seminaries may be considered by the Chief of Chaplains if they:

(a) Meet the requirement of § 881.40(c)(2)(i).

(b) Have earned a minimum of 90 graduate semester hours credit in the social sciences, the humanities, or Christian theology (or a combination of all three) at an accredited or recognized institution of learning.

(c) Have attained full ordination status as required by their particular denomination.

(d) Are actively engaged full-time in their religious vocation at the time of appointment, and have had the professional experience required by their denomination.

§ 881.42 Ecclesiastical endorsement.

Applicants must request an endorsement from their ecclesiastical endorsing agency. The endorsing agency will submit the endorsement to USAFMPC (HCFE). Upon receipt of the endorsement, application forms with instructions will be forwarded to an applicant provided there is a quota vacancy for his denomination.

(a) The ecclesiastical endorsement will be considered valid only if it has been issued by a religious endorsing agency that has been formally recognized by the Armed Forces Chaplains Board of the Department of Defense. The appropriate endorsing agency must certify in the endorsement that the applicant:

(1) Is a fully ordained minister, priest, or rabbi of the denomination the agency is legitimately authorized to represent, giving day, month, year, and place of applicant's ordination.

(2) Is professionally qualified and authorized to be appointed as a Reserve of the Air Force with the specialty of chaplain.

(3) Is authorized to enter on extended active duty in the active establishment of the Air Force.

(4) Is engaged in the full-time pursuit of his religious vocation.

(5) Is best qualified intellectually, emotionally, and psychologically for the Air Force chaplaincy.

§ 881.43 The Chaplain Candidate Program.

(a) *Eligibility criteria.* In addition to being otherwise qualified, applicants seeking appointment as chaplain candidates must:

(1) Possess 120 undergraduate semester hours credit from an accredited or recognized college or university as outlined in § 881.40(c)(2)(i).

(2) Apply after completing the first semester of the first year but before the beginning of the last semester of the final year of study while enrolled as a full-time student in an accredited or recognized theological seminary or school of religion as outlined in § 881.40(c)(2)(ii).

(3) Possess the potential professional qualifications required for chaplains as stated in § 881.40.

(4) Secure ecclesiastical approval to enter the Chaplain Candidate Program from the endorsing agency of the denomination under whose auspices he will qualify himself as a fully ordained minister, priest, or rabbi.

(5) Be less than 30 years of age at the time of appointment.

(b) *Procedures.* The application procedure established in Subparts C and E apply. Additionally, the application must include a statement of ecclesiastical approval signed by the applicant's ecclesiastical endorsing agent.

(c) *Appointment.* Appointment is contingent upon a military authorization and a denominational quota vacancy as determined by the Chief of Chaplains.

(1) Approved applicants will be commissioned in the grade of second lieutenant, awarded AFSC 8921, designated a Ready Reservist and assigned to the Obligated Reserve Section (ORS) by ARPC. At the time of appointment each student will sign the following certificate, which becomes a part of this permanent record:

I understand that to retain my commission as a Reserve of the Air Force I must earn a minimum of 90 graduate semester hours credit or an appropriate graduate theological degree from a theological school accepted as a member of the American Association of Theological Schools, or from a graduate school which is a component part of a university accredited by an appropriate regional accrediting agency. I further understand that failure to complete this theological training satisfactorily will result in the termination of my commission as a Reserve of the Air Force (Authority: AFR 45-41). Upon meeting the qualifications outlined in AFM 36-5, paragraph 5-1c(3), I must submit an application for appointment as an Air Force Chaplain. I agree to serve a minimum of 3 full years on extended active duty as a chaplain if a quota for my denomination exists and if my services are required by the Department of the Air Force. If I am not ordered to extended active duty, I agree to accept a Ready Reserve assignment when one is available, or a CHAPAR assignment, and to actively participate in the Ready Reserve program for a minimum of 3 years unless ordered to active duty. Also, I agree to attend the Chaplain Orientation Course at the USAF Chaplain School as soon as possible after reappointment as chaplain, but not later than 1 year after I receive my commission as a chaplain.

(Signature of applicant)

(2) *Submission of application.* Applications are submitted direct to USAF MPC (HCFE) for final review, approval, and appointment.

(3) *Monitoring the Chaplain Candidate Program.* AFRES (HC) monitors this program. On or before 1 September each year the chaplain candidate must

not be accepted until 4 months after their as shown in § 881.55 for the applicable

V37-231 NOV 30 72 XUM

submit to AFRES (HC) a certification by the registrar of the theological institution he is attending that he is a current student in good standing and has been accepted for enrollment for the ensuing academic year. The certification must include the estimated date of graduation.

(d) *Reappointment as chaplain.* A chaplain candidate applies for appointment as chaplain, first lieutenant, after he graduates from theological seminary and is ordained. An applicant will be approved if he is endorsed for appointment by his ecclesiastical endorsing agency and meets all requirements. If a denominational quota vacancy exists, the applicant must submit with his application an application for EAD (AF Form 125) for approval by USAFMPC (HCFE). If no active duty quota vacancy exists, or if his denomination requires professional experience, the applicant must obtain an ecclesiastical endorsement for reappointment as chaplain and assignment to the ready reserve. He will be required to actively participate in the ready reserve for a minimum of 3 years unless selected by his endorsing agency to fill an active duty quota vacancy. If reappointed as chaplain, he must agree to apply for the chaplain orientation course as soon as possible, but no later than 1 year after date of reappointment. If no vacancy exists in a Category A reserve unit or mobilization augmentation position, he may be assigned to the Chaplain Area Representative program (CHAPAR).

(e) *Title of chaplain candidate.* A chaplain candidate, when in military status, will be addressed as "lieutenant." He will show his written title as:

2d Lt, USAFR
Chaplain Candidate.

A chaplain candidate will not wear the chaplain insignia.

(f) *Termination of chaplain candidate status.* (1) The status of a chaplain candidate will be in force until his theological training has been completed, ordination rites have been conferred, and the candidate fully meets the requirements for appointment as an Air Force chaplain according to this part.

(2) A chaplain candidate's commission will be terminated under AFR 45–41, if:

(i) He fails to complete the required theological studies,

(ii) He does not qualify as a chaplain according to § 881.40(c)(3),

(iii) He is not appointed as chaplain in the ResAF,

(iv) His ecclesiastical approval is withdrawn, or

(v) He fails to apply for reappointment as chaplain, first lieutenant, upon completion of the last semester of the final year of study and full ordination.

Subpart F—Appointment of Physicians,[1] Dentists, Veterinarians, and Nurses

§ 881.50 How to apply.

Section 881.21(g) shows how to submit applications. In addition to the documents required by § 881.20(a), applicant must submit:

(a) Two photostats of license to practice, except when waivers are permitted. Nurses must have current registration in at least one State, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States. Applications may be submitted before actual receipt of license, provided evidence of satisfactory completion of examination for licensure is included with the remainder of the required documents. Nurse anesthetists must submit documentary evidence of current certification by the American Association of Nurse Anesthetists.

(b) Nurses must submit one official copy of transcript of grades from all schools of nursing, colleges, or universities and of any postgraduate training, such as anesthesia.

§ 881.51 General qualifications for appointment.

(a) Appointments will be based on criteria established for each specialty. Waiver of the maximum age requirement may be granted by HQ USAF for persons concurrently requesting EAD.

(b) A Reserve first lieutenant or captain of the Medical or Dental Corps entering on active duty will be appointed to the grade of captain (temporary) effective the date of entry on active duty with the date of rank as of date of graduation from medical or dental school, as appropriate. Temporary appointment to the grade of captain is contingent upon the person's entry on active duty. Criteria for entry on EAD of Medical Corps officers in a temporary grade higher than captain are outlined in AFR 45–26.

(c) Appointments may be tendered to draft-liable physicians for assignment to a Reserve unit, including the Air National Guard of the United States, except during the period a special physicians' draft call is being filled by the Selective Service System. Processing of appointees must be completed, except for security clearance, before the date Selective Service requisitioning begins. HQ USAF (DPMRDS) will announce beginning and closing dates of special draft calls.

§ 881.52 Doctors of medicine.

(a) *Appointment as first lieutenant.* (1) For appointment as first lieutenant, the applicant must:

(i) Be a graduate of a medical school approved by the Surgeon General or of a foreign medical school, and furnish evidence of permanent certification by the Educational Council for Foreign Medical Graduates, or permanent and unrestricted licensure in a State, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States.

(ii) Have completed a 1-year internship and be engaged in the ethical practice of medicine.

(iii) Possess a license to practice medicine in a State or in the District of Columbia, or possess a diploma from the National Board of Medical Examiners.

(2) License and actual engagement in practice may be waived for graduates of approved medical schools and for those who have attained permanent certification by the Educational Council for Foreign Medical Graduates. Application for appointment must be made within 1 year after the completion of internship or residency training, provided formal postgraduate medical training has been continuous and uninterrupted since receipt of medical degree.

(b) *Reappointment as first lieutenant.* Regardless of the provisions of subdivisions (ii) and (iii) of paragraph (a)(1) of this section, reappointment as first lieutenant will be tendered to persons who successfully complete:

(1) The Senior Medical Student program.

(2) Medical school under the Air Force Early Commissioning program or the Medical Education of Reserve Air Force Officers program.

(c) *Appointment in higher grade.* Applicants must possess all the qualifications specified in paragraph (a) of this section and have had the minimum additional professional experience, including internship, residency, fellowship, or other graduate study at a hospital, public health agency, school of public health, research institute, laboratory, medical college, recognized teaching center, or similar institution shown in § 881.55 for the applicable grade.

§ 881.53 Doctors of osteopathy.

(a) *Appointment as first lieutenant.* (1) For appointment as first lieutenant, applicants must have completed:

(i) Three years of college work before entering a college of osteopathy.

(ii) A 4-year course and been awarded a degree of doctor of osteopathy, from a school of osteopathy (approved by the Surgeon General) whose graduates are eligible for licensure to practice medicine or surgery in a majority of the States and be licensed to practice medicine, surgery, or osteopathy in a State or territory of the United States or in the District of Columbia.

(iii) A 1-year internship and be engaged in the ethical practice of osteopathy.

(2) License and actual engagement in practice may be waived for graduates of approved schools of osteopathy providing application for appointment is made within 1 year after completion of internship or residency training. Formal postgraduate training must be continuous and uninterrupted since receipt of degree is osteopathy.

(b) *Appointment in higher grades.* Applicants must possess all the qualifications specified in paragraph (a) of this section and have the minimum additional professional experience, including internship, residency, fellowship, or other gradaute study at a hospital, public health agency, school of public health, research institute, laboratory, medical college, recognized teaching center, or a similar institution shown in § 881.55 for the applicable grade.

[1] For the purpose of this part, physicians include osteopaths.

§ 881.54 Doctors of dentistry.

(a) *Appointment as first lieutenant.* (1) For appointment as first lieutenant, applicants must:

(i) Possess a degree of doctor of dental surgery or doctor of dental medicine from a school of dentistry acceptable to the Surgeon General, USAF.

(ii) Possess a license to practice dentistry in a State or in the District of Columbia.

(iii) Actually be engaged in the ethical practice of dentistry.

(2) Waiver of license and actual engagement in practice may be made for graduates of approved dental schools, if application for appointment is made within 1 year after graduation or while undergoing appropriate postgraduate instruction or engaged in a dental internship.

(3) Applications from dental students may be accepted and processed before receipt of the qualifying degree. The applicant must furnish a statement from the institution indicating he had completed all the degree requirements or is expected to do so within 7 months. If otherwise qualified, the applicant will be tendered an appointment generally between 150 to 180 days before graduation. After appointment and following graduation, the officer must furnish evidence that the degree has been conferred and all other applicable requirements have been met. Officers so appointed who do not successfully complete their educational requirements or who fail to receive the qualifying degree will be discharged under AFR 45–41. At the time of application, each student must sign the following certificate, which will become a part of his permanent file:

I understand that if appointed, continuation in the appointment is contingent upon my completing the requirements of the appropriate degree and that failure to receive my graduate degree on _____ will result in the termination of my appointment as a Reserve of the Air Force (authority: AFR 45–41). Upon meeting the qualifications for appointment, I agree to serve a minimum of 2 full years on extended active duty unless sooner relieved by proper authority.

_____ _____
(Date) (Signature)

(4) Applications will not be accepted from senior dental students who will have an obligation for military service upon graduation unless they are:

(i) Applying for a sponsored internship.

(ii) Enrolled in the Early Commissioning program under part 906, of subchapter K of this chapter; the Senior Dental Student program, when offered; or any "extended leave" or "inservice arrangement" programs, when offered.

(iii) Allocated to the Air Force under the Armed Forces Reserve Dental Officer Allocation and Commissioning program.

(5) Unless authorized in subparagraph (4) of this paragraph, applications for reserve commissions from senior dental students who do not participate in the Armed Forces Reserve Dental Officer Allocation and Commissioning program will not be accepted until 4 months after their graduation or when they are allocated to the Air Force as the result of a special call for dentists.

(b) *Appointment in higher grades.* Applicants must possess all the qualifications specified in paragraph (a) of this section for the first lieutenant and have the additional minimum experience or training in environments normally associated with high professional standards as shown in § 881.55 for the applicable grade.

(c) *Substituting graduate study for professional experience.* Graduate study, not to exceed 3 years, may be substituted for professional experience on a year-for-year basis.

§ 881.55 Criteria for appointment of doctors of medicine, osteopathy, and dentistry to grades above first lieutenant.

Rule	A. If applicant possesses all the qualifications for a 1st lieutenant and—	B. Has had—	C. Then he is qualified for appointment as a—
1	Is engaged in the practice of his specialty (medicine, osteopathy, or dentistry) in an environment normally associated with high professional standards.	3 years' actual experience.	Captain.
2	Has had a period of intensive post graduate training in a medical or dental specialty sufficiently prolonged and of a caliber to insure the optimums in professional knowledge and technique, judged by the standards normally associated with recognized teaching centers.	10 years' actual experience and must ordinarily have been certified by one of the American specialty boards for his specialty.	Major.
3	Has achieved an unequivocal prominence that makes him an authority in his field (example: a person who is an outstanding contributor to scientific research and to the development of his specialty).	17 years' actual experience.	Lieutenant colonel.
4		19 years' actual experience.	Colonel or lieutenant colonel.[1]

[1] A person who has achieved national prominence as an authority in his particular specialty may be appointed in the grade of colonel.

§ 881.56 Doctors of veterinary medicine.

(a) *Appointment as first lieutenant.* (1) For appointment as first lieutenant applicant must:

(i) Be a graduate of a school of veterinary medicine or veterinary surgery, approved by the Surgeon General, USAF.

(ii) Be licensed to practice veterinary medicine in a State or in the District of Columbia.

(iii) Be engaged in the ethical practice of veterinary medicine.

(2) License and actual engagement in practice may be waivered for graduates of approved schools of veterinary medicine or surgery who are commissioned immediately upon graduation.

(3) Appointment of veterinary students before graduation may be made as prescribed for dental students in § 881.54(a)(3).

(b) *Appointment in other grades.* Applicants must qualify under subparagraph (1) of paragraph (a) of this section and be qualified by minimum periods of acceptable professional experience as follows:

(1) *Captain.* (i) Be engaged in practice of veterinary medicine, with a major portion of the practice being in environments normally associated with high professional standards.

(ii) Have 4 years of actual experience.

(2) *Major.* (i) Give evidence of sufficient independent experience to indicate mature judgment and ability to function in the specialty without professional supervision.

(ii) Ordinarily must have been certified by an American Veterinary Specialty Board.

(iii) Have 11 years of actual experience.

(3) *Lieutenant Colonel.* (i) Give evidence of having achieved an unequivocal prominence that makes him an authority in his particular field. (Example: A person who is an outstanding contributor to scientific research; an administrator and contributor to development of the specialty under consideration.)

(ii) Have 18 years of actual experience.

(4) *Colonel.* (i) Have achieved the type of background described in subdivision (i) of subparagraph (3) of this paragraph.

(ii) Have 20 years of actual experience.

§ 881.57 Appointments of nurses.

(a) *Appointment as second lieutenant.* (1) Applicant must:

(i) Be a graduate of a school of nursing that is accredited by the national professional agency recognized by the National Commission on Accrediting and acceptable to the Surgeon General, USAF.

(ii) Possess current registration in at least one State, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States;

(iii) Be engaged in the ethical practice of nursing.

(2) An applicant who has a baccalaureate degree in nursing or an allied field may be granted 1 year of constructive service. However, if a year of constructive service is awarded for the degree, the same period of time may not be counted again as constructive experience.

(b) *Appointment in other grades.* Applicants must qualify under paragraph (a) of this section and be qualified by the indicated minimum number of years of professional experience and educational requirements outlined below. Constructive service in the amount of 1 year may be awarded to an applicant who has a baccalaureate degree; an additional year may be awarded for a master's degree. The period for which constructive service is granted for education may not again be counted toward meeting experience requirements. The period during which an applicant concurrently

shall be appointed in the temporary

§ 881.73 Physical therapist (AFSC

year of an approved course leading to a bachelor's degree in occupational ther-

V 37-231 NOV 30 72 XUM

earns a degree and acquires experience may be counted as constructive service either for education or experience but not for both.

(1) *First lieutenant.* Must have constructive education and experience totaling 3 years in one of the following combinations:

(i) Three years' appropriate professional experience, of which at least 6 months was spent either in active nursing or pursuing additional education in a field allied to nursing within the 12-month period prior to appointment.

(ii) Two years' appropriate professional experience and a baccalaureate degree in nursing or a field allied to nursing.

(iii) One year's appropriate professional experience and a master's degree in nursing, a nursing specialty, or a field allied to nursing.

(iv) Two years' appropriate professional experience and at least 1 year of anesthesia training and subsequent qualification by examination as a nurse anesthetist by the American Association of Nurse Anesthetists (AANA).

(v) One year's appropriate professional experience, a baccalaureate degree in nursing or a nursing specialty, and at least 1 year of anesthesia training and subsequent qualification by examination as a nurse anesthetist by the AANA.

NOTE: Applicants with more than 3 years of applicable experience who do not meet the qualifications for appointment in grade of captain will be given constructive service credit to which entitled under this part, except that in no case will the applicant be credited with more than 6 years.

(2) *Captain.* Must have constructive education and experience totaling 7 years in one of the following combinations:

(i) Six years' appropriate professional experience in addition to a baccalaureate degree in nursing or a field allied to nursing. (A minimum of 2 years of the required 6 years' professional experience must have been spent in public health, teaching, or an appropriate administrative position.)

(ii) Five years' appropriate professional experience plus a master's degree in nursing, a nursing specialty, or a field allied to nursing. Two years of the required 5 years' professional experience must have been spent teaching or in an appropriate administrative position.

(iii) Six years' appropriate professional experience and at least 1 year's anesthesia training and subsequent qualification by examination as a nurse anesthetist by the AANA. Applicant must have had at least 12 months' experience administering anesthetics within the 2-year period immediately prior to appointment.

(iv) Five years' appropriate professional experience, a baccalaureate degree in nursing or a nursing specialty, and at least 1 year's anesthesia training and subsequent qualification by examination as a nurse anesthetist by the AANA. Applicant must have had at least 12 months' experience in administering anesthetics within the 2-year period immediately prior to appointment.

NOTE: The maximum amount of constructive service that may be awarded upon appointment in grade of captain is 7 years.

(3) *Major or lieutenant colonel.* Appointees must possess outstanding qualifications for special positions determined by the Surgeon General, USAF, as requirements necessitate.

(c) *Appointment for training.* Applicants who meet appointment criteria may be appointed in the grade for which qualified and ordered to active duty for completion of final 12 months of degree requirements (see Part 905 of Subchapter K of this chapter). After appointment and following graduation, the officer must furnish evidence that the degree has been conferred and all other applicable requirements have been met. Officers so appointed who do not successfully complete their educational requirements or who fail to receive the qualifying degree will be discharged under AFR 36-12. At the time of application, each student must sign the following certificate, which will be filed in his unit personnel records as a permanent document:

I understand that if appointed, continuation in the appointment is contingent upon my completing the requirements of the appropriate degree and that failure to receive my degree will result in the termination of my appointment as a Reserve of the Air Force. (Authority: AFR 36-12.) Upon being ordered to active duty, I agree to serve a minimum of 4 full years unless sooner relieved by proper authority.

Subpart G—Appointment of Officers in the Medical Service Corps

§ 881.60 Application, processing, and selection.

(a) Section 881.21(g) shows how to submit applications. In addition to documents required by § 881.20(a), each applicant must submit results of the AFOQT under § 881.22(b).

(b) Qualifying experience may include both active military and full-time civilian experience that is directly related to the specialty for which application is made. For appointment in grades higher than second lieutenant, the experience must have been gained after the qualifying degree was attained.

§ 881.61 Health services administrator (AFSC 9021).

(a) *Grade.* Appointments for duty in this specialty may be made in grades of second lieutenant through lieutenant colonel as determined under § 881.16(d) and § 881.16a.

(b) *Education.* The minimum educational requirement for qualification in this specialty is a baccalaureate degree in business administration, management, or a related or included field of administration or management. A master's degree in hospital administration or a related field is desirable.

(c) *Area of experience.* Qualifying experience must have been gained in administrative or management positions, including planning, organizing, and directing such activities as hospital administration, medical registration, personnel, finance, evacuation and debarkation of patients, recreation, welfare, and installation maintenance.

§ 881.62 Other applicants.

Reserve appointment, reappointment, or promotion list transfer to the Medical Service Corps with AFSC 9021:

(a) Will be made for the following:

(1) Students pursuing courses of study as physicians, osteopaths, dentists, veterinarians, or optometrists who apply and are selected for commissioning under Part 906 of Subchapter K of this chapter.

(2) Students selected for participation in the following programs (listed in Part 905 of Subchapter K of this chapter).

(i) The Senior Medical Student Program.

(ii) The Senior Optometry School Program.

(iii) Other health or health related fields.

(3) Persons selected for advanced training in medicine, dentistry, or veterinary medicine under Part 908 of Subchapter K of this chapter.

(b) May be made under subparagraph (1) of paragraph (a) of this section only in the grade of second lieutenant and under subparagraphs (2) and (3) of paragraph (a) of this section in grades not to exceed captain. Qualification for a grade higher than second lieutenant is based on prior commissioned service.

Subpart H—Appointment of Officers in the Biomedical Sciences Corps

§ 881.70 Application, processing, and selection.

(a) Section 881.21(g) shows how to submit applications. In addition to documents required by § 881.20(a), each applicant must submit:

(1) Results of the AFOQT specified in § 881.22(b) when applicable.

(2) One official copy of transcript of grades from college or university, plus one copy of certification in specialty, if applying for appointment as a dietitian, occupational therapist, or physical therapist.

(3) One photostat of license to practice if applying for appointments for duty in specialties requiring licensure, such as optometrists and pharmacists.

(b) Grades in which selected applicants are to be appointed will be determined according to the specific paragraph that deals with the specialty and §§ 881.16(d) and 881.16a.

(c) Qualifying experience may include both active military and full-time civilian experience that is directly related to the specialty for which application is made. For appointment in grades higher than second lieutenant, the experience must have been gained after the qualifying degree was attained.

(d) Biomedical therapist (podiatrist) and optometry officers who are not otherwise eligible for a higher grade

shall be appointed in the temporary grade of first lieutenant effective on the date of entry on active duty.

§ 881.71 Dietitian (AFSC 9216A).

(a) *Appointment as second lieutenant.* Applicant must:

(1) Possess a bachelor's degree from an approved college or university.

(2) Have completed an internship acceptable to the Surgeon General, USAF.

(b) *Appointment in higher grades.* Applicants must qualify under paragraph (a) of this section and be qualified in acceptable professional experience and training as follows:

(1) *First lieutenant.* At least 2 years' experience, exclusive of internship, one of which has been as dietitian in a hospital of 100 or more beds. Applicant with more than 3 years of applicable experience who do not meet the qualifications for appointment in grade of captain will be given constructive service credit to which entitled under this part, except that in no case will applicant be credited with more than 6 years of service.

(2) *Captain.* At least 6 years' experience exclusive of internship, including 3 years in administration of a dietetic department of a hospital of 100 or more beds. The maximum amount of constructive service that may be awarded upon appointment as captain is 7 years.

(3) *Major and lieutenant colonel.* Appointees must possess outstanding qualifications for special positions determined by the Surgeon General, USAF, as requirements necessitate.

§ 881.72 Occupational therapist (AFSC 9226).

(a) *Appointment as second lieutenant.* Applicant must:

(1) Possess a bachelor's degree from an approved college, university, or school.

(2) Have completed an occupational therapy course acceptable to the Surgeon General, USAF.

(b) *Appointment in higher grades.* Applicant must possess all the qualifications in paragraph (a) of this section and be further qualified by acceptable professional experience and training as follows:

(1) *First lieutenant.* At least 2 years' professional experience in medical institutions following certification. Applicants with more than 3 years' applicable experience who do not meet the qualifications for appointment in grade of captain will be given constructive service credit to which entitled under this part, except that in no case will the applicant be credited with more than 6 years' service.

(2) *Captain.* At least 6 years' professional experience in medical institutions following certification, 3 of which must have been in a supervisory or administrative capacity. The maximum amount of constructive service that may be awarded upon appointment as captain is 7 years.

(3) *Major and lieutenant colonel.* Appointees must possess outstanding qualifications for special positions determined by the Surgeon General, USAF, as requirements necessitate.

§ 881.73 Physical therapist (AFSC 9236).

(a) *Appointment as second lieutenant.* Applicant must:

(1) Possess a bachelor's degree from an approved college, university, or school.

(2) Have completed a physical therapy training course acceptable to the Surgeon General, USAF.

(b) *Appointment in higher grades.* Applicant must possess all the qualifications in paragraph (a) of this section and be further qualified by acceptable professional experience and training as follows:

(1) *First lieutenant.* At least 2 years' professional experience in medical institutions following certification. Applicants with more than 3 years' applicable experience who do not meet the qualifications for appointment in the grade of captain will be given constructive service credit to which entitled under this part, except that in no case will the applicant be credited with more than 6 years' service.

(2) *Captain.* At least 6 years' professional experience in medical institutions following certification, 3 of which must have been in a supervisory or administrative capacity. The maximum amount of constructive service that may be awarded upon appointment as captain is 7 years.

(3) *Major and lieutenant colonel.* Appointees must possess outstanding qualifications for special positions determined by the Surgeon General, USAF, as requirements necessitate.

§ 881.74 Appointment for training.

Applicants who are 21 but not 28 years of age may be appointed as second lieutenants and ordered to active duty to complete training in one of the following courses:

(a) *Dietetic training.* Applicant must possess a bachelor's degree and have been accepted for an approved dietetic internship.

(1) Dietetic students may be appointed before graduation in substantially the same way that dental students are under § 881.54(a)(3). At the time of application, each student must sign the following certificate, which will be filed in his unit personnel records as a permanent document:

I understand that if appointed, continuation in the appointment is contingent upon my completing the requirements for a baccalaureate degree and an approved dietetic internship. Failure to complete requirements will result in termination of my appointment as a Reserve of the Air Force. (Authority: AFR 36-12.) Upon being ordered to active duty, I agree to serve a minimum of 4 full years unless sooner relieved by proper authority.

Active duty will consist of the following:
12 months—Dietetic internship.
6 months—Additional dietetic training at a USAF hospital.
30 months—Duty assignment as a dietitian at a USAF hospital.

(Date) (Signature)

(b) *Occupational therapy training.* Applicant must be enrolled in the final year of an approved course leading to a bachelor's degree in occupational therapy or possess a bachelor's degree and have completed all but the final year of an approved certificate course in occupational therapy.

(c) *Physical therapy training.* Applicant must possess a bachelor's degree and have been accepted for an approved certificate course in physical therapy or be enrolled in the final year of an approved course leading to a bachelor's degree in physical therapy.

(d) *Qualifying evidence.* After appointment and following graduation, each officer who has been appointed under paragraphs (b) and (c) of this section must furnish evidence that the applicable degree has been conferred and all other applicable requirements have been met. Officers so appointed who do not successfully complete their educational requirements, or who fail to receive the qualifying degree, will be discharged under AFR 36-12. At the time of application, each student must sign the following certificate which will be filed in his unit personnel records as a permanent document:

I understand that if appointed, continuation in the appointment is contingent upon my completing the requirements for certification in (physical/occupational) therapy. Failure to meet certification requirements will result in the termination of my appointment as a Reserve of the Air Force. (Authority: AFR 36-12.) Upon being ordered to active duty, I agree to serve a minimum of 4 full years unless sooner relieved by proper authority.

(Date) (Signature)

§ 881.75 Pharmacy officer (AFSC 9241).

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under §§ 881.16(d) and 881.16a.

(b) *Education.* The minimum educational requirement is a baccalaureate degree in pharmacy.

(c) *Area of experience.* Qualifying experience must have been gained in pharmacy positions, including conducting laboratory tests, manufacturing medications, and directing pharmacy personnel. A current license to practice pharmacy is mandatory. Licensure may be waived for individuals appointed within 1 year after date of graduation to fill an active duty requirement.

§ 881.76 Optometry officer (AFSC 9251).

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under §§ 881.16(d) and 881.16a. Students may be appointed before they attain the qualifying degree in the same that dental students are under § 881.54(a)(3)

(b) *Education.* The minimum educational requirement is a degree in optometry from an accredited school of optometry.

(c) *Area of experience.* Qualifying experience must have been gained in optometry positions, including conducting

V 37-231 NOV 30 72 XUM

examinations of the eye to determine the presence of visual defects; prescribing lenses and orthoptic therapy to correct, conserve, or improve vision; and examining and testing lenses for workmanship and conformance to prescriptions. Must posses a current license to practice optometry in a State or the District of Columbia or certification of the successful passing of all parts of the examination of the National Board of Examiners in optometry. Licensure may be waivered for individuals appointed within 1 year after date of graduation to fill an active duty requirement.

§ 881.77 Bioenvironmental engineer (AFSC 9121).

(a) *Grade.* Appointments may be made in grades of second lieutenant through major as determined under §§ 881.16(d) and 881.16a.

(b) *Education.* The minimum educational requirement is a baccalaureate degree in civil, chemical, sanitary, electrical, mechanical, or industrial hygiene engineering.

(c) *Area of experience.* Qualifying experience must have been gained in a professional capacity, including design, management, investigation, or construction of works or programs for water supply, treatment, and disposal of community wastes (that is, sanitary sewage, industrial wastes, and refuse including salvage and reclamation of useful components of such wastes); the control of pollution of surface waterways and ground waters, and of surface and subsurface soils, milk, and food facilities, housing, hospital, and institutional facilities; insect and vermin control or eradication; rural, camp, and recreation place facilities; the control of atmospheric pollution and air quality, and of light, noise, vibration, and toxic materials, including application to work spaces in industrial establishments; the prevention of radiation exposure; professional research and development work; and responsible teaching positions in engineering subjects in educational institutions of recognized standing.

§ 881.78 Medical entomologist (AFSC 9131).

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under §§ 881.16(d) and 881.16a.

(b) *Education.* The minimum educational requirement is a baccalaureate degree in entomology. A master's degree is desirable.

(c) *Area of experience.* Qualifying experience must have been gained in medical entomology positions, including formulating policies and procedures, directing personnel engaged in medical entomological activities, and conducting field and laboratory studies on development, testing, and application of insect control measures.

§ 881.79 Biomedical laboratory officer (AFSC 9151).

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under §§ 881.16(d) and 881.16a.

(b) *Education.* The minimum educational requirement is a baccalaureate degree in medical technology, bacteriology, parasitology, chemistry, biochemistry, pharmaceutical chemistry, pharmacology, hematology, serology, or virology. A master's or Ph. D. degree with a major study in one of the referenced fields is desirable.

(c) *Area of experience.* Experience must have been gained in clinical laboratory positions, including conducting clinical laboratory tests and developing and applying procedures in serology, bacteriology, parasitology, hematology, biochemistry, and tissue pathology.

§ 881.80 Aerospace physiologist (AFSC 9161).

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under §§ 881.16(d) and 881.16a.

(b) *Education.* The minimum educational requirement is a baccalaureate degree in physiology, biophysics, biochemistry, or zoology. A master's degree or Ph. D. with a major study in one of the referenced fields is desirable.

(c) *Area of experience.* Qualifying experience must have been gained in aviation physiological or related positions. Experience in physiological research and the development of physiological aids for aircrew personnel is desirable.

§ 881.81 Health physicist (AFSC 9171).

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under §§ 881.16(d) and 881.16a.

(b) *Education.* The minimum educational requirement is a master's degree in health physics, nuclear physics, radiobiology, radiological physics, or biophysics.

(c) *Area of experience.* Qualifying experience must have been gained in controlling, shipping, and disposing of radiological materials; conducting radiological protection surveys; monitoring the treatment and disposal of radioactive wastes; calibrating instruments; instructing in health physics, and supervising and directing health physics programs.

§ 881.82 Clinical phychologist (AFSC 9181).

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under §§ 881.16(d) and 881.16a.

(b) *Education.* An applicant may qualify in either of two ways:

(1) A doctoral degree with a major and dissertation in clinical psychology from an approved university and completion of internship in a medical setting, is mandatory for a fully qualified appointment.

(2) Persons with master's degree in clinical psychology who are doctoral candidates within 2 years of completing academic requirements toward the doctoral degree may be offered an appointment and sponsorship under an AFIT program to complete requirements for the doctoral degree.

(c) *Area of experience.* Qualifying experience must have been gained in clinical psychological positions, including formulating plans and policies for and directing personnel engaged in clinical psychology activities; administering psychotherapy in typical cases; selecting and interpreting results of psychological tests; and counseling maladjusted personnel on education and vocational problems.

§ 881.83 Social worker (AFSC 9191).

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under §§ 881.16(d) and 881.16a.

(b) *Education.* The minimum educational requirement is a master's degree in social work.

(c) *Area of experience.* Qualifying experience must have been gained in psychiatric case work positions, including administration of psychiatric social work programs as a member of the psychiatric team.

§ 881.84 Biomedical therapist (AFSC 9261).

(a) *Grade.* Appointments may be made in grades of second lieutenant through lieutenant colonel as determined under §§ 881.16(d) and 881.16a.

(b) *Education.* For podiatrists (AFSC 9261A), the minimum educational requirement is a Doctor of Podiatry degree from a school or college of podiatry. For all other subspecialties (AFSC 9261B, audiologist; AFSC 9261C, speech therapist; and AFSC 9261D, special), the minimum educational requirement is a master's degree in the appropriate specialty. All degrees must be from accredited institutions of higher learning acceptable to the Surgeon General, USAF.

(c) *Area of experience.* Qualifying experience must have been gained in full-time positions as a podiatrist, audiologist, speech pathologist, rehabilitation therapist (including providing care and treatment for human ailments), or planning, directing, and conducting research in the pertinent professional area of practice. License to practice in the pertinent specialty, when appropriate, or registration or certification by the special national accreditation body is mandatory. Licensure, registration, or certification may be waived for individuals appointed within 1 year after date of graduation.

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,
Colonel, U.S. Air Force, Chief, Legislative Division, Office of The Judge Advocate General.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

[CGD 72-13R]

PART 110—ANCHORAGE GROUNDS

Puget Sound Area, Wash.

This amendment to the anchorage regulations disestablishes the Port Madison Explosives Anchorage as published in 33 CFR 110.230(a)(5). The reason for the termination is that the anchorage no longer meets the minimum quantity/distance standards.

This amendment is based on a notice of proposed rule making published in the Thursday, February 3, 1972, issue of the FEDERAL REGISTER (37 F.R. 2587) and Public Notice 71-L-03 issued by the Commander, Thirteenth Coast Guard District.

No comments concerning the disestablishment of the explosives anchorage were received.

In consideration of the foregoing, § 110.230(a) is amended by deleting subparagraph (5).

§ 110.230 Puget Sound Area, Wash.

Title 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

SUBCHAPTER B—GENERAL REGULATIONS

PART 67—CANAL ZONE POSTAL SERVICE

Armed Forces Mail

Effective on publication in the FEDERAL REGISTER (11-30-72), Part 67 of Title 35, Code of Federal Regulations is amended to read as follows:

1. The index of Part 67 is amended as follows:

Subpart D—Mail Classification and Rates

Sec.
67.171 Mail addressed to military post offices overseas and mail privileges for members of the U.S. Armed Forces and friendly foreign nations in the Canal Zone.

2. Section 67.171(a) is revised to read as follows:

§ 67.171 Mail addressed to military post offices overseas and mail privileges for members of the U.S. Armed Forces and friendly foreign nations in the Canal Zone.

(a) Airlift mail: The following items of Armed Forces personnel mail, when addressed to locations where U.S. domestic postage rates apply, are given airlift on a space available basis between the Canal Zone and the point of embarkation within the United States and to final destination, except as otherwise provided herein:

(1) First-class letter mail, including postal and post cards.

(2) Sound recorded communications having the character of personal correspondence. The provisions of 39 CFR, relating to the markings required on this category of mail in the United States, are applicable to and within the Canal Zone.

(3) Second-class publications published once each week or more frequently and featuring principally current news of interest to members of the Armed Forces and the general public, except that such mail shall be transported by surface means within the 48 contiguous States of the United States.

(4) Parcels of any class paid at surface postage rate, not exceeding 15 pounds in weight and 60 inches in length and girth combined when addressed to an Armed Forces post office located outside of the 48 contiguous States of the United States and mailed by persons not members of the Armed Forces of the United States and of friendly foreign nations, except that such parcels shall be transported by surface means within the 48 contiguous States of the United States. These parcels shall be marked with large letters SAM (space available mail) on the address side, preferably below the postage and above the name of the addressee. Postal employees shall place these letters on all such parcels at the time of acceptance.

(5) Parcels of any class paid at surface postage rates not exceeding 70 pounds in weight and not exceeding 100 inches in length and girth combined when mailed by members of the Armed Forces of the United States and of friendly foreign nations, except that such parcels shall be transported by surface means within the 48 contiguous States of the United States. These parcels must be marked with large letters SAM (space available mail) on the address side, preferably below the postage and above the name of the addressee. Postal employees shall place these letters on all such parcels at the time of acceptance.

(6) Parcels, other than parcels mailed at a rate of postage requiring priority of handling and delivery, not exceeding 30 pounds in weight and not exceeding 60 inches in length and girth combined, shall be transported by air on a space available basis to final destination upon payment of a fee in addition to regular surface rate of postage. These parcels must be marked with large letters PAL (Parcel Air Lift) on the address side, preferably below the postage and above the name of the addressee. Postal employees shall place these letters on all such parcels at the time of acceptance. The provisions of 39 CFR, relating to the fee charged for PAL parcels marked in the United States are applicable to and within the Canal Zone.

Title 40—PROTECTION OF ENVIRONMENT

Chapter I—Environmental Protection Agency

SUBCHAPTER E—PESTICIDES PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Coordination Product of Zinc Ion and Maneb

Correction

In F.R. Doc. 72-19541, appearing on page 24112, in the issue of Tuesday, November 14, 1972, in the 11th line of the first paragraph, insert the preposition "on" preceding the words "corn grain".

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 3—Department of Health, Education, and Welfare

PART 3-16—PROCUREMENT FORMS

Negotiated Cost-Reimbursement Contracts

On April 25, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 8079-8085) stating that the Department of Health, Education, and Welfare was considering an amendment to 41 CFR Chapter 3 by adding a new § 3-16.950-315 under Subpart 3-16.9, Illustration of Forms. The purpose of the amendment is to illustrate the revised form HEW 315, General Provisions (Negotiated Cost-Reimbursement Contract). The form HEW 315 has been revised by making it two separate forms. Form 315 is to be used with cost-reimbursement contracts with educational institutions and form HEW 315A is to be used with cost-reimbursement contracts with nonprofit institutions other than educational institutions. These General Provisions include certain clauses prescribed by the Federal Procurement Regulations (41 CFR Ch. 1).

V 37 I 231 NOV 30 72 XUM

These clauses are not being repeated herein, but are identified by an appropriate cross reference to the applicable FPR.

Interested persons were invited to submit written data, views, or comments, within 30 days after publication. Written comments were received, and after due consideration of the views presented, the regulation is revised and adopted as set forth below.

(5 U.S.C. 301; 40 U.S.C. 486(c))

Effective date. This amendment shall become effective 90 days after publication in the FEDERAL REGISTER.

Dated: November 22, 1972.

N. B. HOUSTON,
Deputy Assistant Secretary for Administration.

1. The table of contents for Part 3–16 is amended by adding the following entries:

Subpart 3–16.9—Illustration of Forms

Sec.
3–16.950–315 Form HEW 315 (Rev. 12/72), general provisions (negotiated cost-reimbursement contract with educational institutions).
3–16.950–315A Form HEW 315A (12/72), general provisions (negotiated cost-reimbursement contract with nonprofit institutions other than educational institutions).

2. Part 3–16 is amended by adding §§ 3–16.950–315 and 3–16.950–315A to read as follows:

§ 3–16.950–315 Form HEW–315 (Rev. 12/72), general provisions (negotiated cost-reimbursement contract with educational institutions).

GENERAL PROVISIONS (NEGOTIATED COST-REIMBURSEMENT CONTRACT WITH EDUCATIONAL INSTITUTIONS)

1. DEFINITIONS

As used throughout this contract, the following terms shall have the meaning set forth below:

(a) The term "Secretary" means the Secretary, the Under Secretary, or any Assistant Secretary of the Department of Health, Education, and Welfare; and the term "his duly authorized representative" means any person, persons, or board (other than the Contracting Officer) authorized to act for the Secretary.

(b) The term "Contracting Officer" means the person executing this contract on behalf of the Government, and any other officer or employee who is properly designated Contracting Officer; and the term includes, except as otherwise provided in this contract, the authorized representative of the Contracting Officer acting within the limits of his authority.

(c) The term "Project Officer" means the person representing the Government for the purpose of technical direction of contract performance. The Project Officer is not authorized to issue any instructions or directions which effect any increase or decrease in the cost of this contract or which change the period of this contract.

(d) The term "Department" means the Department of Health, Education, and Welfare.

(e) Except as otherwise provided in this contract, the term "subcontract" includes purchase orders under this contract.

2. DISPUTES

(Text of this clause is set forth in FPR 1–7.101–12).

3. LIMITATION OF COST

(a) It is estimated that the total cost to the Government for the performance of this contract will not exceed the estimated cost set forth in this contract and the Contractor agrees to use its best efforts to perform all work and all obligations under this contract within such estimated costs. If at any time the Contractor has reason to believe that the costs which it expects to incur in the performance of this contract in the next succeeding sixty (60) days, when added to all costs previously incurred, will exceed seventy-five percent (75%) of the estimated cost set forth in the contract, or, if at any time, the Contractor has reason to believe that the total cost to the Government, for the performance of this contract, will be substantially greater or less than the estimated cost thereof, the Contractor shall notify the Contracting Officer in writing to that effect, giving its revised estimate of such total cost for the performance of this contract.

(b) The Government shall not be obligated to reimburse the Contractor for costs incurred in excess of the estimated cost set forth in the contract and the Contractor shall not be obligated to continue performance under the contract or to incur costs in excess of such estimated cost unless and until the Contracting Officer shall have notified the Contractor in writing that such estimated cost has been increased and shall have specified in such notice a revised estimated cost which shall thereupon constitute the estimated cost of performance of this contract. When and to the extent that the estimated cost set forth in this contract has been increased by the Contracting Officer in writing, any costs incurred by the Contractor in excess of such estimated cost prior to the increase in estimated cost shall be allowable to the same extent as if such costs had been incurred after such increase in estimated cost.

4. ALLOWABLE COST

(a) *Compensation for Contractor's performance.* Payment for the allowable cost, as herein defined and as actually incurred by the Contractor shall constitute full and complete compensation for the performance of the work under this contract.

(b) *Allowable cost.* The allowable cost of performing the work under this contract shall be the cost actually incurred by the Contractor, either directly incident or properly allocable to the contract, in the performance of this contract in accordance with its terms. The allowable cost, direct and indirect, including acceptability of cost allocation methods, shall be determined by the Contracting Officer in accordance with:

(1) Subpart 1–15.3 of the Federal Procurement Regulations (41 CFR 1–15.3) as in effect on the date of this contract.

(2) The terms of this contract.

5. NEGOTIATED OVERHEAD RATES

(i) The following provisions shall be applicable when post determined rates are used:

(a) Notwithstanding the provisions of the clause of this contract entitled "Allowable Cost" the allowable indirect costs under this contract shall be obtained by applying negotiated overhead rates to bases agreed upon by the parties, as specified below.

(b) The Contractor, as soon as possible, but not later than six (6) months after the close of his fiscal year, or such other period as may be specified in the contract, shall submit to the Contracting Officer, with a copy to the cognizant audit activity, a proposed final overhead rate or rates for that period based on the Contractor's actual cost experience during that period, together with supporting data. Negotiation of final overhead rates by the Contractor and the Contracting Officer shall be undertaken as promptly as practicable after receipt of the Contractor's proposal.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with Subpart 1–15.3 of the Federal Procurement Regulations (41 CFR 1–15.3) as in effect on the date of contract.

(d) The results of each negotiation shall be set forth in a modification to this contract, which shall specify (1) the agreed final rates, (2) the bases to which the rates apply, and (3) the periods for which the rates apply.

(e) Pending establishment of final overhead rates for any period, the Contractor shall be reimbursed either at negotiated provisional rates as provided in the contract, or at billing rates acceptable to the Contracting Officer, subject to appropriate adjustments when the final rates for that period are established. To prevent substantial over or under payment, and to apply either retroactively or prospectively: (1) Provisional rates may, at the request of either party, be revised by mutual agreement, and (2) billing rates may be adjusted at any time by the Contracting Officer. Any such revision of negotiated provisional rates specified in the contract shall be set forth in a modification to this contract.

(f) Any failure by the parties to agree on any final rate or rates under this clause shall be considered a dispute concerning a question of fact for decision by the Contracting Officer within the meaning of the "Disputes" clause of this contract.

(g) Submission of proposed provisional and/or final overhead rates, together with appropriate data in support thereof to the Secretary or his duly authorized representative, and agreements on provisional and/or final overhead rates entered into between the Contractor and the Secretary or his duly authorized representative, as evidenced by Negotiated Overhead Rate Agreements signed by both parties, shall be deemed to satisfy the requirements of (b), (d), and (e), above.

(ii) The following provisions shall be applicable with educational institutions when predetermined rates are used:

(a) Notwithstanding the provisions of the clause of this contract entitled "Allowable Cost," the allowable indirect costs under this contract shall be obtained by applying predetermined overhead rates to bases agreed upon by the parties, as specified below:

(b) The Contractor, as soon as possible but not later than three (3) months after the close of his fiscal year, or such other period as may be specified in the contract, shall submit to the Contracting Officer, with a copy to the cognizant audit activity, a proposed predetermined overhead rate or rates based on the Contractor's actual cost experience during that period, together with supporting cost data. Negotiation or predetermined overhead rates by the Contractor and the Contracting Officer shall be undertaken as promptly as practicable after receipt of the Contractor's proposal.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with Subpart 1–15.3 of the Federal Procurement Regulations (41

CFR 1–15.3) as in effect on the date of this contract.

(d) The results of each negotiation shall be set forth in a modification to this contract, which shall specify (1) the agreed predetermined overhead rates, (2) the bases to which rates apply, (3) the fiscal year unless the parties agree to a different period for which the rates apply, and (4) the specific items treated as direct cost or any changes in the items previously agreed to be direct costs.

(e) Pending establishment of predetermined overhead rates for the initial period of contract performance, or for any fiscal year or different period agreed to by the parties, the Contractor shall be reimbursed either at (1) the rates fixed for the previous fiscal year or other period, or (2) billing rates acceptable to the Contracting Officer, subject to appropriate adjustment when the final rates for that fiscal year or other period are established.

(f) Any failure by the parties to agree on any predetermined overhead rate or rates under this clause shall not be considered a dispute concerning a question of fact for decision by the Contracting Officer within the meaning of the "Disputes" clause of this contract. If for any fiscal year or other period of contract performance the parties fail to agree to a predetermined overhead rate or rates, it is agreed that the allowable indirect costs under this contract shall be obtained by applying negotiated final overhead rates in accordance with the terms of the "Negotiated Overhead Rates-Postdetermined" clause set forth in § 1–3.704–2(a) of the Federal Procurement Regulations (41 CFR 1–3.704–2(a)), as in effect on the date of this contract.

(g) Submission of proposed provisional and/or final overhead rates together with appropriate data in support thereof to the Secretary or his duly authorized representative and agreements on provisional and/or final overhead rates entered into between the Contractor and the Secretary or his duly authorized representative as evidenced by Negotiated Overhead Rate Agreements, signed by both parties, shall be deemed to satisfy the requirements of (b), (d), and (e), above.

(iii) The following provisions shall be applicable when fixed rates subject to carryforward adjustments are used.

(a) Notwithstanding the provisions of the clause of this contract entitled, "Allowable Cost," the allowable indirect costs under this contract shall be obained by applying negotiated fixed overhead rates for the applicable period(s) to bases agreed upon by the parties; as specified below. A negotiated fixed rate(s) is based on an estimate of the costs which will be incurred during the period for which the rate(s) applies. When the application of the negotiated fixed rates against the actual base(s) during a given fiscal period produces an amount greater or less than the indirect costs determined for such period, such greater or lesser amount(s) will be carried forward to a subsequent period.

(b) The Contractor, as soon as possible but no later than six (6) months after the close of his fiscal year, or such other period as may be specified in the contract, shall submit to the Secretary or his duly authorized representatives, with a copy to the cognizant audit activity, a proposed fixed overhead rate or rates based on the Contractor's actual cost experience during the fiscal year, including adjustment, if any, for amounts carried forward, together with supporting cost data. Negotiation of fixed overhead rates, including carryforward adjustments, if any, by the Contractor and the Secretary, or his duly authorized representative, shall be undertaken as promptly as practicable after receipt of the Contractor's proposal.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with Subpart 1–15.3 of the Federal Procurement Regulations (41 CFR 1–15.3), as in effect on the date of this contract.

(d) The results of each negotiation shall be set forth in an amendment to this contract, which shall specify (1) the agreed fixed overhead rates, (2) the bases to which the rates apply, (3) the fiscal year, unless the parties agreed to a different period, for which the rates apply, and (4) the specific items treated as direct costs or any changes in the items previously agreed to be direct costs.

(e) Pending establishment of fixed overhead rates for any fiscal year or different period agreed to by the parties, the Contractor shall be reimbursed either at the rates fixed for the previous fiscal year or other period or at billing rates acceptable to the Contracting Officer, subject to appropriate adjustment when the final rates for that fiscal year or other period are established.

(f) Any failure of the parties to agree on any fixed overhead rate or rates or to the amount of any carryforward adjustment under this clause shall not be considered a dispute concerning a question of fact for decision by the Contracting Officer within the meaning of the "Disputes" clause of this contract. If for any fiscal year or other period specified in the contract, the parties fail to agree to a fixed overhead rate or rates, it is agreed that the allowable indirect costs under this contract shall be obtained by applying negotiated final overhead rates in accordance with the terms of the "Negotiated Overhead Rates-Postdetermined" clause set forth in section 1–3.704–2(a) of the Federal Procurement Regulations, as in effect on the date of this contract.

(g) Submission of proposed fixed, provisional, and/or final overhead rates, together with appropriate data in support thereof, to the Secretary or his duly authorized representative and agreements on fixed, provisional, and/or final overhead rates entered into between the Contractor and the Secretary or his duly authorized representative, as evidenced by Negotiated Overhead Rate Agreements signed by both parties, shall be deemed to satisfy the requirements of (b), (d), and (e), above.

6. PAYMENT

(a) *Payment on account of allowable costs.* Once each month (or at more frequent intervals if approved by the Contracting Officer) the Contractor may submit to the Contracting Officer, in such form and reasonable detail as may be required, an invoice or voucher supported by a statement of costs incurred by the Contractor in the performance of this contract and claimed to constitute allowable costs. Promptly after receipt of each invoice or voucher the Government shall, subject to the provisions of (b) below, make payment thereon as approved by the Contracting Officer.

(b) *Audit adjustments.* At any time or times prior to settlement under this contract the Contracting Officer may have invoices or vouchers and statements of cost audited. Each payment theretofore made shall be subject to reduction for amounts included in the related invoice or voucher which are found by the Contracting Officer, on the basis of such audit, not to constitute allowable cost. Any payment may be reduced for overpayment, or increased for underpayments, on preceding invoices or vouchers.

(c) *Completion voucher.* On receipt and approval of the invoice or voucher designated by the Contractor as the "completion invoice" or "completion voucher" and upon compliance by the Contractor with all the provisions of this contract (including without limitation, the provisions relating to patents and provisions of (d) below) the Government shall promptly pay to the Contractor any balance of allowable cost. The completion invoice or voucher shall be submitted by the Contractor promptly following completion of the work under this contract but in no event later than 6 months (or such longer period as the Contracting Officer may in his discretion approve in writing) from the date of such completion.

(d) *Applicable credits.* The Contractor agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the Contractor or any assignee under this contract shall be paid by the Contractor to the Government, to the extent that they are properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract. Reasonable expenses incurred by the Contractor for the purpose of securing such refunds, rebates, credits, or other amounts shall be allowable costs hereunder when approved by the Contracting Officer.

(e) *Financial settlement.* Prior to final payment under this contract, the Contractor and each assignee under this contract whose assignment is in affect at the time of final payment under this contract shall execute and deliver:

(1) An assignment to the Government in form and substance satisfactory to the Contracting Officer, of refunds, rebates, credits, or other amounts (including any interest thereon) properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract; and

(2) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, subject only to the following exceptions:

(i) Specified claims in stated amounts or in estimated amounts where the amounts are susceptible to exact statement by the Contractor;

(ii) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the Contractor to third parties arising out of the performance of this contract: *Provided*, That such claims are not known to the contractor on the date of the execution of the release: *And provided further*, That the Contractor gives notice of such claims in writing to the Contracting Officer not more than 6 years after the date of the release or the date of any notice to the Contractor that the Government is prepared to make final payment, whichever is earlier; and

(iii) Claims for reimbursement of costs (other than expenses of the Contractor by reason of its indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the Contractor under the provisions of this contract relating to patents.

7. EXAMINATION OF RECORDS

(a) This clause is applicable if the amount of this contract exceeds $2,500 and was entered into by means of negotiation including small business restricted advertising, but is not applicable if this contract was entered into by means of formal advertising.

(b) The Contractor agrees that the Comptroller General of the United States and the Secretary, or any of their duly authorized representatives, shall until expiration of 3 years after final payment under this contract or of the time period for the particular records in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever

V 37-231 NOV 30 72 XUM

expires earlier, have access to and the right to examine any directly pertinent books, documents, papers, and records of the Contractor involving transactions related to this contract.

(c) The Contractor further agrees to include in all his subcontracts hereunder a provision to the effect that the subcontractor agrees that the Comptroller General of the United States, or his duly authorized representatives shall, until expiration of 3 years after final payment under the subcontract, or of the time periods for the particular records specified in Part 1-20 of the Federal Procurement Regulations (41 CFR Part 1-20), whichever expires earlier, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractor, involving transactions related to the subcontract. The term "subcontract" as used in this clause excludes (1) purchase orders not exceeding $2,500 and (2) subcontracts or purchase orders for public utility services of rates established for uniform applicability to the general public.

(d) The periods of access and examination described in (b) and (c) above, for records which relate to (1) appeals under the "Disputes" clause of this contract, (2) litigation of the settlement of claims arising out of the performance of this contract, or (3) costs and expenses of this contract as to which exception has been taken by the Comptroller General or any of his duly authorized representatives, shall continue until such appeals, litigations, claims, or exceptions have been disposed of.

8. INSPECTION AND REPORTS

(a) *Inspection of work.* The Government shall have the right to inspect the work and activities under this contract, including, without limitation, premises where any Government property may be located, at such reasonable times and in such manner as it may deem appropriate and the Contractor shall afford the Government proper facilities and assistance for such inspection.

(b) *Reports.* The Contractor shall furnish such progress reports, schedules, financial and cost reports, and other reports concerning the work under this contract as specified elsewhere in this contract. Cost and other financial data and projections furnished pursuant to this paragraph (b) shall not relieve the Contractor of the requirements for furnishing notice specified in the clause of this contract entitled, "Limitation of Cost."

9. SUBCONTRACTING

(a) *Prior approval required.* Except as provided in (c) below, the Contractor shall not enter into any subcontract or purchase order not otherwise expressly authorized elsewhere in this contract without the prior written approval of the Contracting Officer and subject to such conditions as the Contracting Officer may require.

(b) *Request for approval.* The Contractor's request for approval to enter into a subcontract pursuant to this clause shall include:

(1) A description of the supplies or services to be called for by the subcontractor;

(2) Identification of the proposed subcontractor and an explanation of why and how the proposed subcontractor was selected, including the degree of competition obtained;

(3) The proposed subcontract price, together with the Contractor's cost or price analysis thereof;

(4) Identification of the type of subcontract to be used;

(5) A copy or draft of the proposed subcontract, if available; and

(6) Any other information which the Contracting Officer may require.

(c) *Certain purchases of property and services.* Prior written approval shall not be required for firm fixed-price subcontracts for the purchase or rental of any item of permanent research equipment having an acquisition cost of less than $1,000 or for the purchase or rental of any other item of personal property having a unit acquisition cost of less than $200 or an expected service life of less than 1 year, or for other firm fixed-price subcontracts in a total amount less than $1,000, unless otherwise specified elsewhere in this contract.

(d) *Contractor's procurement system.* The Contractor shall use methods, practices or procedures in subcontracting or purchasing (hereinafter referred to as the Contractor's "procurement system") acceptable to the Contracting Officer. The Contracting Officer may, at any time during the performance of this contract, require the Contractor to provide information concerning its procurement system.

(e) *Effect of subcontracting.* Subcontracts shall be made in the name of the Contractor and shall not bind nor purport to bind the Government. The making of subcontracts hereunder shall not relieve the Contractor of any requirement under this contract (including, but not limited to, the duty to properly supervise and coordinate the work of subcontractors, and the duty to maintain and account for property pursuant to the clause of this contract entitled "Government Property"). Approval of the provisions of any subcontract by the Contracting Officer shall not be construed to constitute a determination of the allowability of any cost under this contract, unless such approval specifically provides that it constitutes a determination of the allowability of such cost. In no event shall approval of any subcontract by the Contracting Officer be construed as effecting any increase in the estimated cost set forth in this contract. No subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis.

10. ACCOUNTS, AUDIT, AND RECORDS

(a) The Contractor shall maintain books, records, documents, and other evidence, accounting procedures, and practices, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. The foregoing constitutes "records" for the purposes of this clause.

(b) The Contractor's facility(ies) or such part thereof as may be engaged in the performance of this contract, and his records shall be subject at all reasonable time to inspection and audit by the Contracting Officer of his authorized representatives.

(c) The Contractor shall preserve and make available his records (1) until the expiration of 3 years from the date of final payment under this contract, or the time periods for the particular records specified in 41 CFR Part 1-20, whichever expires earlier, and (2) for such longer period, if any, as is required by applicable statute, or by other clauses of this contract, or by (i) or (ii) below:

(i) If this contract is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of 3 years from the date of any resulting final settlement.

(ii) Records which relate to (A) appeals under the "Disputes" clause of this contract, (B) litigation or the settlement of claims arising out of the performance of this contract, or (C) costs and expenses of this contract to which exception has been taken by the Contracting Officer or any of his duly authorized representatives, shall be retained until such appeals, litigation, claims, or exceptions have been disposed of.

(d) The Contractor shall insert the substance of this clause, including this paragraph (d), in each subcontract hereunder that is not firm fixed-price or fixed-price with escalation. When so inserted, changes shall be made to designate the higher-tier subcontractor at this level involved in place of the Contractor; to add "of the Government prime contract," in place of "this contract" in (B) of subparagraph (c)(ii) above.

11. GOVERNMENT PROPERTY

(a) *Government furnished property.* (1) The Government reserves the right to furnish any property or services required for the performance of the work under this contract.

(2) The Government shall deliver to the Contractor, for use in connection with and under the terms of this contract, the property described elsewhere in this contract, together with such related data and information as the Contractor may request and as may reasonably be required for the intended use of such property (such property to be referred to as "Government furnished property").

In the event that Government furnished property is not delivered to the contractor by such time or times as stated, or if not stated, in sufficient time to enable the contractor to meet such delivery or performance dates under this contract, the Contracting Officer shall, upon timely written request made by the Contractor, make a determination of the delay occasioned the Contractor and make appropriate equitable adjustments to any contractual provisions affected by any such delay in accordance with the provisions of the clause of this contract entitled "Changes."

In the event that Government furnished property is received by the Contractor in a condition not suitable for the intended use, the Contractor shall, immediately upon receipt thereof, notify the Contracting Officer of such fact and, as directed by the Contracting Officer either (i) return or otherwise dispose of such property, or (ii) effect repairs or modifications thereto. Upon completion of (i) or (ii) above, the Contracting Officer, upon timely written request of the Contractor, shall make appropriate equitable adjustments to any contractual provisions affected thereby in accordance with the provisions of the clause of this contract entitled "Changes." The foregoing provisions for adjustment are exclusive and the Government shall not be liable to suit for breach of contract by reason of any delay in delivery of Government furnished property or delivery of such property in a condition not suitable for its intended use.

(b) *Title.* (For title provision applicable to contracts for scientific research see paragraph (h) below.)

(1) Title to all property furnished by the Government shall remain in the Government. Title to all property purchased by the Contractor, the cost of which the Contractor is entitled to be reimbursed as a direct item of cost under this contract, shall pass to and vest in the Government upon delivery of such property by the vendor. Title to other property, the cost of which is reimbursable to the Contractor under this contract, shall pass and vest in the Government upon (i) issuance for use of such property in the performance of this contract, or (ii) commencement of processing or use of such property in the performance of this contract; or (iii) reimbursement of the cost thereof by the Government in whole or in part, whichever first occurs. All Government furnished property, together with all property acquired by the Contractor, title to which vests in the Government under this paragraph are subject to the provisions of this clause and are

hereinafter collectively referred to as "Government property."

(2) Title to the Government property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government property, or any part thereof, be or become a fixture or lose its identity or personality by reason of affixation to any realty.

(c) *Use of Government property.* Government property shall, unless otherwise provided herein or approved by the Contracting Officer, be used only for the performance of this contract.

(d) *Property management and control.* The Contractor shall maintain and administer in accordance with sound business practice a program for the maintenance, repair, protection, and preservation, control of and accountability for Government property, so as to assure its full availability and usefulness for the performance of this contract. The Contractor agrees to promptly receipt for all Government property in a form and manner as prescribed by the Contracting Officer. The Contractor further agrees to take all reasonable steps to comply with all directions or instructions which the Contracting Officer may prescribe regarding the management and control of Government property.

(e) *Risk or loss.* The Contractor shall not be liable for any loss of or damage to Government property, or for expenses incidental to such loss or damage, except that the Contractor shall be responsible for any such loss or damage (including expenses incidental thereto):

(i) Which results from willful misconduct or lack of good faith on the part of any of the Contractor's direction or officers, or on the part of any of its managers, superintendents, or other equivalent representatives, who have supervision or direction of (A) all or substantially all of the Contractor's operations at any one plant, laboratory or separate location in which this contract is being performed or (B) a separate and complete major organization, industrial or otherwise, in connection with the performance of this contract:

(ii) Which results from a failure on the part of the Contractor, due to willful misconduct or lack of good faith on the part of any of its directors, officers or other representatives mentioned in subparagraph (i) above, (A) to maintain and administer, in accordance with sound business practice, the program for maintenance, repair, protection, and preservation of Government property as required by paragraph (d) hereof, or (B) to take all reasonable steps to comply with any appropriate written directions of the Contracting Officer under paragraph (4) hereof;

(iii) For which the Contractor is otherwise responsible under the express terms of this contract;

(iv) Which results from a risk expressly required to be insured under this contract, but only to the extent of the insurance so required to be procured and maintained, or to the extent of insurance actually procured and maintained, whichever is greater; or

(v) Which results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement: *Provided*, That, if more than one of the above exceptions shall be applicable in any case, the Contractor's liability under any one exception shall not be limited by any other exception.

(2) If the Contractor transfers Government property to the possession and control of a subcontractor the transfer shall not affect the liability of the Contractor for loss or destruction of or damage to Government property as set forth in (1) above. The Contractor shall require the subcontractor to assume the risk of and be responsible for any loss or destruction of or damage to Government property while in the latter's possession, or control, and the subcontract shall contain appropriate provisions requiring the return of all Government property in as good condition as when received (except for reasonable wear and tear or for the utilization of the property in accordance with the provisions of this contract). *Provided, however*, That the subcontractor may be relieved from such liability only to the extent that the subcontract, with the prior approval of the Contracting Officer, so provides.

(3) The Contractor shall not be reimbursed for, and shall not include as an item of overhead, the cost of insurance, or any provisions for a reserve, covering the risk of loss of or damage to the Government property, except to the extent that the Government may have required the Contractor to carry such insurance under any other provision of this contract.

(4) Upon the happening of loss or destruction of or damage to the Government property, the Contractor shall notify the Contracting Officer thereof, and shall take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best order, and furnish to the Contracting Officer a statement of:

(i) The lost, destroyed, and damaged Government property;

(ii) The time and origin of the loss, destruction or damage;

(iii) All known interests in commingled property of which the Government property is a part; and

(iv) The insurance, if any, covering any part of or interest in such commingled property.

The Contractor shall make repairs and renovations of the damaged Government property or take such other actions as the Contracting Officer directs.

(5) In the event the Contractor is indemnified, reimbursed, or otherwise compensated for any loss or destruction of or damage to the Government property, it shall use the proceeds to repair, renovate, or replace the Government property involved, or shall credit such proceeds against the cost of the work covered by the contract, or shall otherwise reimburse the Government, as directed by the Contracting Officer. The Contractor shall do nothing to prejudice the Government's right to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including assistance in the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery. In addition, where a subcontractor has not been relieved from liability for any loss or destruction of or damage to Government property, the contractor shall enforce the liability of the subcontractor for such loss or destruction of or damage to the Government property for the benefit of the Government.

(f) *Disposition of Government property.* (1) During the period of performance of this contract, the Contractor shall promptly and regularly report to the Contracting Officer, in such form and manner as the Contracting Officer may direct, concerning the status of Government property under the contract, including all Government property in the Contractor's possession which is not in use or which is excess to the needs of the contract. The Contractor shall make such disposition of Government property as the Contracting Officer may direct. The Contractor shall in no way be relieved of responsibility for Government property without the prior written approval of the Contracting Officer.

(2) Upon completion or expiration of this contract, or at such earlier date as may be fixed by the Contracting Officer, the Contractor shall render an accounting as prescribed by the Contracting Officer, of all Government property which had come into the possession or custody of the Contractor under this contract. Such accounting shall include inventory schedules covering all items of Government property not consumed in the performance of this contract, or not theretofore delivered to the Government, or for which the Contractor has not otherwise been relieved of responsibility. The Contractor shall deliver or make such other disposition of Government property covered in such inventory schedules as the Contracting Officer may direct.

(3) The net proceeds of any disposition of Government property, in accordance with (1) and (2) above, shall be credited to the cost of the work covered by the contract or shall be paid in such manner as the Contracting Officer may direct.

(g) *Restoration of premises.* Unless otherwise provided herein, the Government shall not be under any duty or obligation to restore or rehabilitate, or to pay the costs of the restoration or rehabilitation of the Contractor's facility or any portion thereof which is affected by removal of any Government property.

(h) *Title to property under contracts with educational institutions for scientific research.* If this is a contract with a nonprofit educational institution for scientific research, as determined by the Contracting Officer elsewhere in this contract, the following title provision shall replace paragraph (b) above and the following is added to paragraph (d),

Title. (i) Title to all Government-furnished property shall remain in the Government.

(ii) Except as otherwise expressly provided elsewhere in this contract, title to all material, supplies, and equipment purchased or otherwise acquired by the Contractor, for the cost of which the Contractor is to be reimbursed as a direct item of cost, shall be and remain in the Contractor subject to the provisions of subparagraph (iii) below: *Provided, however*, That the Contractor shall not, under any Government contract or subcontract thereunder or, under any Government grant, charge for any depreciation, amortization, or use of any property title to which remain in the Contractor pursuant to this subparagraph. The Contractor agrees to use such materials, supplies, and equipment for the benefit of research under this contract and any extension or successor contracts thereto and to continue to use such property for the benefit of research of interest to the Government.

(iii) With respect to items of equipment having an acquisition cost of $1,000 or more, title to which vests in the Contractor pursuant to subparagraph (ii) above, the Contractor agrees:

(A) To report such items to the Contracting Officer from time to time as they are acquired and to maintain a control system which will permit their ready identification and location; and

(B) To transfer title to any such items to the Government or to a third party designated by the Government, when third party is eligible under existing statutes, in accordance with any written request therefor issued by the Contracting Officer at any time prior to final payment under this contract.

V37-231 NOV 30 72 XUM

invention made under this contract, includ-

21. KEY PERSONNEL

the Government for any liability loss, cost or expense, which the Contractor may incur

(iv) All Government-furnished property, together with all property acquired by the Contractor, title to which vests in the Government pursuant to any other express provision of this contract, is subject to the provisions of this clause and is hereinafter collectively referred to as "Government property." Title to the Government property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government property, or any part thereof, be or become a fixture or lose its identity as personality by reason of affixation to any realty.

(d) Whether or not title to property is vested in the Contractor, the Contractor is responsible for maintaining property acquired from contract funds available for the performance of the contract except for property which through normal use becomes unserviceable and uneconomically repairable.

12. CHANGES

The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, make changes, within the general scope of this contract, in any one or more of the following:

(a) Drawings, designs, or specifications; (b) method of shipment or packing; (c) place of inspection, delivery, or acceptance; and (d) the amount of Government-furnished property. If any such change causes an increase or decrease in the estimated cost of, or the time required for performance of this contract, or otherwise affects any other provisions of this contract, whether changed or not by any such order, an equitable adjustment shall be made (a) in the estimated cost or delivery schedule, or both, and (b) in such other provisions of the contract as may be so affected, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of receipt by the Contractor of the notification of change: *Provided, however*, That the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Where the cost of property made obsolete or excess as a result of a change is included in the Contractor's claim for adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of such property. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled, "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

13. NOTICE TO THE GOVERNMENT OF DELAYS

Whenever the Contractor has knowledge that any actual or potential situation, including, but not limited to, labor disputes, is delaying or threatens to delay the timely performance of the work under this contract, the Contractor shall immediately give written notice thereof, including all relevant information with respect thereto, to the Contracting Officer.

14. TERMINATION FOR THE CONVENIENCE OF THE GOVERNMENT

(Text of this clause is set forth in FPR 1-8.704-1.)

15. RIGHTS IN DATA

(a) *Subject Data.* As used in this clause, the term "Subject Data" means writings, sound recordings, pictorial reproductions, drawings, designs or other graphic representations, procedural manuals, forms, diagrams, workflow charts, equipment descriptions, data files and data processing or computer programs, and works of any similar nature (whether or not copyrighted or copyrightable) which are specified to be delivered under this contract. The term does not include financial reports, cost analyses, and similar information incidental to contract administration.

(b) *Government rights.* Subject only to the proviso of (c) below, the Government may use, duplicate, or disclose in any manner and for any purpose whatsoever, and have or permit others to do so, all subject data delivered under this contract.

(c) *License to copyrighted data.* In addition to the Government rights as provided in (b) above, with respect to any subject data which may be copyrighted the Contractor agrees to and does hereby grant to the Government a royalty-free, nonexclusive and irrevocable license throughout the world to use, duplicate, or dispose of such data in any manner and for any purpose whatsoever, and to have or permit to do so: *Provided, however*, That such license shall be only to the extent that the Contractor now has or prior to completion or final settlement of this contract may acquire, the right to grant such license without becoming liable to pay compensation to others solely because of such grant.

(d) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(e) *Marking and identification.* The Contractor shall mark all subject data with the number of this contract and the name and address of the contractor or subcontractor who generated the data. The Contractor shall not affix any restrictive markings upon any subject data, and if such markings are affixed, the Government shall have the right at any time to modify, remove, obliterate, or ignore any such markings.

(f) *Subcontractor data.* Whenever any subject data is to be obtained from a subcontractor under this contract, the Contractor shall use this same clause in the subcontract, without alteration, and no other clause shall be used to enlarge or diminish the Government's rights in that subcontractor subject data.

(g) *Deferred ordering and delivery of data.* The Government shall have the right to order, at any time during the performance of this contract, or within 2 years from either acceptance of all items (other than data) to be delivered under this contract or termination of this contract, whichever is later, any subject data and any data not called for in the schedule of this contract but generated in performance of the contract, and the Contractor shall promptly prepare and deliver such data as is ordered. If the principal investigator is no longer associated with the contractor, the contractor shall exercise its best efforts to prepare and deliver such data as is ordered. The Government's right to use data delivered pursuant to this paragraph (g) shall be the same as the rights in subject data as provided in (b) above.

The Contractor shall be relieved of the obligation to furnish data pertaining to an item obtained from a subcontractor upon the expiration of 2 years from the date he accepted such items. When data, other than subject data, is delivered pursuant to this paragraph (g), payment shall be made, by equitable adjustment or otherwise, for converting the data into the prescribed form, reproducing it or preparing it for delivery.

16. REPORTING OF ROYALTIES

If this contract involves any royalty payments in excess of $250 or if the amount of any royalty payment in excess of $250 is reflected in the estimated cost, the Contractor shall report in writing to the Contracting Officer, as soon as practicable during the performance of this contract, the amount of any royalties paid or to be paid by it directly to others in connection with the performance of this contract, together with (a) the names and addresses of licensors to whom such payments are made; (b) the patent numbers or patents application serial numbers (with filing dates) involved or other identification of the basis of such royalties; and (c) information concerning the manner of computation of such royalties.

17. AUTHORIZATION AND CONSENT

The Government hereby gives its authorization and consent for all use and manufacture of any invention described in and covered by a patent of the United States in the performance of this contract or any part hereof or any amendment hereto, or any subcontract hereunder (including any lower tier subcontract).

18. NOTICE AND ASSISTANCE REGARDING PATENT AND COPYRIGHT INFRINGEMENT

(Text of this clause is set forth in FPR 1-7.101-13)

19. PUBLICATION AND PUBLICITY

(a) Unless otherwise specified in this contract, the Contractor is encouraged to publish and make available through accepted channels the results of its work under this contract. A copy of each article submitted by the Contractor for publication shall be promptly sent to the Project Officer. The Contractor shall also inform the Project Officer when the article or other work is published and furnish a copy of it as finally published.

(b) The Contractor shall acknowledge the support of the Department of Health, Education, and Welfare whenever publicizing the work under this contract in any media. To effectuate the foregoing, the Contractor shall include in any publication resulting from work performed under this contract an acknowledgement substantially as follows: "The work upon which this publication is based was performed pursuant to contract (insert number) with the (insert name of constituent agency), Department of Health, Education, and Welfare."

20. PATENT RIGHTS

(a) *Definitions.* As used in this clause, the term (1) "Invention" or "Invention or discovery" includes any art, machine, manufacture, design, or composition of matter, or any new and useful improvement thereof, or any variety of plant, which is or may be patentable under the Patent Laws of the United States; and (2) "Made," when used in relation to any invention or discovery, means the conception or first actual or constructive reduction to practice of such invention.

(b) *Disclosure.* Whenever an invention or discovery is made by the Contractor or its employees in the course of or under this contract, the Contractor shall immediately give the Contracting Officer written notice thereof and shall promptly thereafter furnish the Contracting Officer with complete information thereon, including as a minimum (1) a complete written disclosure of each such invention, and (2) information in writing as soon as practicable, concerning the date and identity of any public use, sale, or publication of such invention made by or known to the Contractor.

(c) *Determination of rights.* The Secretary, or his duly authorized representative, shall have the sole and exclusive power to determine whether or not and where a patent application shall be filed and to determine the disposition of all rights in any

invention made under this contract, including title to and rights under any patent application or patent which may issue thereon. The Secretary, or his duly authorized representative, may, upon the request of the Contractor, determine to exercise his option to waive rights to any such invention in foreign counties. The determination of the Secretary, or his duly authorized representative, on all these matters shall be accepted as final and the provisions of the clause of this contract entitled "Disputes" shall not apply. The Contractor shall use his best efforts to assure that all of its employees who may be the inventors of any such invention will execute all documents and do all things necessary or proper to effectuate the determination of the Secretary, or his duly authorized representative, or to vest in the Government the rights granted to it under this clause and to enable the Government to apply for and prosecute any patent application, in any country, covering such invention where the Government has the right under this clause to file such application.

(d) *Contractor employee and subcontractors.* The Contractor shall:

(1) Obtain patent agreements to effectuate the provisions of this clause from all persons who perform any part of the work under this contract and may be reasonably expected to make inventions.

(2) Insert in each subcontract having experimental, developmental or research work as one of its purposes, a provision making this clause applicable to the subcontractor and its employees.

(e) *Reports.* The Contractor shall furnish the Contracting Officer, in addition to the information called for in paragraph (b) of this clause:

(1) Interim reports on the first anniversary of the contract, where extended or renewed, and every year thereafter listing all inventions made during the period, whether or not previously reported, or certifying that no inventions were made during the applicable period; and

(2) A final report, prior to final settlement of this contract, listing all such inventions made in the course of or under this contract, including all those previously listed in interim reports, or certifying that there are no such unreported inventions.

(f) *Withholding payment for failure to comply.* At any time during the performance of this contract, the Contracting Officer may direct that payment be withheld in the amount of 10 percent of the total amount obligated by the Government with respect to this contract or $10,000, whichever is less, if the Contracting Officer determines that the Contractor has failed to furnish any of the written notices, disclosures, or reports required by paragraphs (b) and (e) above, until such time as the Contractor shall have corrected such failure. The withholding of any amount or subsequent payment thereof to the Contractor or the failure to withhold any amount shall not be construed as a waiver of any rights accruing to the Government under the contract. This paragraph shall not be construed as requiring the Contractor to withhold any amounts from a subcontractor to enforce compliance with the patent provisions of a subcontract.

(g) *Acknowledgment.* With respect to any patent application on any invention made in the course of or under this contract, the Contractor shall incorporate in the first paragraph of the patent specification, and prominently in any patent issued thereon, the following statement:

"The invention described herein was made in the course of or under a contract with the U.S. Department of Health, Education, and Welfare."

21. KEY PERSONNEL

Where "key personnel" have been identified in this contract, it has been determined that such named personnel are necessary for the successful performance of the work under this contract; and the Contractor agrees to assign such personnel to the performance of the work under this contract and shall not remove or replace any of them without the consent of the Contracting Officer. Whenever, for any reason, one or more of the aforementioned personnel is unavailable for work under this contract during a continuous period in excess of three months, or is expected to devote substantially less effort to the work than initially anticipated, the Contractor shall immediately notify the Contracting Officer to that effect and shall, subject to the approval of the Contracting Officer without formal modification to the contract, replace such personnel with personnel of substantially equal ability and qualifications. *Provided, however*, in the event the Contracting Officer determines that suitable replacement of key personnel is not feasible or that the reduction of effort would be so substantial as to impair the successful prosecution of the work, the Contracting Officer may direct that the contract be changed or terminated, pursuant to the clauses of this contract entitled "Changes" or "Termination for the Convenience of the Government," or may take such other action with respect thereto that he deems appropriate.

22. LITIGATION AND CLAIMS

The Contractor shall give the Contracting Officer immediate notice in writing of (a) any action, including any proceeding before an administrative agency, filed against the Contractor arising out of the performance of this contract, including, but not limited to the performance of any subcontract hereunder; and (b) any claim against the Contractor the cost and expense of which is allowable under the clause entitled "Allowable Cost." Except as otherwise directed by the Contracting Officer, the Contractor shall furnish immediately to the Contracting Officer copies of all pertinent papers received by the Contractor with respect to such action or claim. To the extent not in conflict with any applicable policy or insurance, the Contractor may, with the Contracting Officer's approval, settle any such action or claim. If required by the Contracting Officer, the Contractor shall (a) effect an assignment and subrogation in favor of the Government of all the Contractor's rights and claims (except those against the Government) arising out of any such action or claim against the Contractors; and (b) authorize representatives of the Government to settle or defend any such action or claim and to represent the Contractor in, or to take charge of, any action. If the settlement or defense of an action or claim is undertaken by the Government, the Contractor shall furnish all reasonable assistance in effecting a settlement or asserting a defense. Where an action against the Contractor is not covered by a policy of insurance, the Contractor shall, with the approval of the Contracting Officer, proceed with the defense of the action in good faith. The Government shall not be liable for the expense of defending any action or for any costs resulting from the loss thereof, to the extent that the Contractor would have been compensated by insurance which was required by law or regulation or by written direction of the Contracting Officer, but which the Contractor failed to secure through its own fault or negligence.

In any event, unless otherwise expressly provided in this contract, the Contractor shall not be reimbursed or indemnified by the Government for any liability loss, cost or expense, which the Contractor may incur or be subject to by reason of any loss, injury, or damage, to the person or to real or personal property of any third parties as may accrue during, or arise from, the performance of this contract.

23. REQUIRED INSURANCE

(a) The Contractor shall procure and maintain such insurance as is required by law or regulation, including but not limited to, the requirements of subpart 1-10.5 of the Federal Procurement Regulations (41 CFR 1-10.5), or by the written direction of the Contracting Officer. Prior written approval of the Contracting Officer shall be required with respect to any insurance policy the premiums for which the Contractor proposes to treat as a direct cost under this contract and with respect to any proposed qualified program of self-insurance. The terms of any other insurance policy shall be submitted to the Contracting Officer for approval upon request.

(b) Unless otherwise authorized in writing by the Contracting Officer, the Contractor shall not procure or maintain for its own protection any insurance covering loss or destruction of or damage to Government property.

24. OVERTIME

Except as authorized by section 1-12.102-5 of the Federal Procurement Regulations as in effect on the effective date of this contract or otherwise provided in this contract, the contractor shall not perform overtime work under or in connection with this contact for which premium compensation is required to be paid, without specific written approval from the contracting officer.

25. FOREIGN TRAVEL

Foreign travel shall not be performed without the prior written approval of the contracting officer. As used in this clause "Foreign Travel" means travel outside the United States, its Territories and Possessions, and Canada.

26. QUESTIONNAIRES AND SURVEYS

In the event the performance of this contract involves the collection of information upon identical items from 10 or more persons, other than Federal employees, the contractor shall obtain written approval from the contracting officer, prior to the use thereof, of any forms, schedules, questionnaires, survey plans or other documents, and any revisions thereto, intended to be used in such collection.

27. PRINTING

Unless otherwise specified in this contract, the contractor shall not engage in, nor subcontract for, any printing (as that term is defined in title I of the Government Printing and Binding Regulations in effect on the effective date of this contract) in connection with the performance of work under this contract: *Provided, however*, That performance of a requirement under this contract involving the reproduction of less than 5,000 production units of any one page or less than 25,000 production units in the aggregate of multiple pages, will not be deemed to be printing. A production unit is defined as one sheet, size 8 by 10½ inches, one side only, one color.

28. SERVICES OF CONSULTANTS

Except as otherwise expressly provided elsewhere in this contract, and notwithstanding the provisions of the clause of this contract entitled "Subcontracting," the prior written approval of the Contracting Officer shall be required:

(a) The term "Secretary" means the Secre-

shall be the cost actually incurred by the

the contractor on the date of the execution

here the Contractor of the requirements for

V37-231 NOV 30 72 XUM

(a) Whenever any employee of the contractor is to be reimbursed as a "consultant" under this contract; and

(b) For the utilization of the services of any consultant under this contract exceeding the daily rate set forth elsewhere in this contract or; if no amount is set forth, $100, exclusive of travel costs, or where the services of any consultant under this contract will exceed 10 days in any calendar year.

Whenever contracting officer approval is required, the contractor will obtain and furnish to the contracting officer information concerning the need for such consultant services and the reasonableness of the fees to be paid, including, but not limited to, whether fees to be paid to any consultant exceed the lowest fee charged by such consultant to others for performing consultant services of a similar nature.

29. ASSIGNMENT OF CLAIMS

(Text of this clause is set forth in FPR 1–30.703.)

30. CONTRACT WORK HOURS STANDARDS ACT—OVERTIME COMPENSATION

(Text of this clause is set forth in FPR 1–12.303.)

31. WALSH-HEALY PUBLIC CONTRACTS ACT

(Text of this clause is set forth in FPR 1–12.605.)

32. EQUAL OPPORTUNITY

(Text of this clause is set forth in FPR 1–12.802–2.)

33. CONVICT LABOR

(Text of this clause is set forth in FPR 1–12.203.)

34. OFFICIALS NOT TO BENEFIT

(Text of this clause is set forth in FPR 1–7.101–19.)

35. COVENANT AGAINST CONTINGENT FEES

(Text of this clause is set forth in FPR 1–1.503.)

36. BUY AMERICAN ACT SUPPLY AND SERVICE CONTRACTS

(Text of this clause is set forth in FPR 1–6.104–5.)

37. UTILIZATION OF SMALL BUSINESS CONCERNS

40. PAYMENT OF INTEREST ON CONTRACTORS' CLAIMS

(Text of this clause is set forth in FPR 1–1.322.)

41. LISTING OF EMPLOYMENT OPENINGS

(Text of this clause is set forth in FPR 1–12.1102–2.)

§ 3–16.950–315A Form HEW–315A (12/72), general provisions (negotiated cost-reimbursement contract with nonprofit institutions other than educational institutions).

GENERAL PROVISIONS

(NEGOTIATED COST-REIMBURSEMENT CONTRACT)

1. DEFINITIONS

As used throughout this contract, the following terms shall have the meaning set forth below:

(a) The term "Secretary" means the Secretary, the Under Secretary, or any Assistant Secretary of the Department of Health, Education, and Welfare; and the term "his duly authorized representative" means any person, persons, or board (other than the Contracting Officer) authorized to act for the Secretary.

(b) The term "Contracting Officer" means the person executing this contract on behalf of the Government, and any other officer or employee who is properly designated Contracting Officer; and the term includes, except as otherwise provided in this contract, the authorized representative of the Contracting Officer acting within the limits of his authority.

(c) The term "Project Officer" means the person representing the Government for the purpose of technical direction of contract performance. The Project Officer is not authorized to issue any instructions or directions which effect any increase or decrease in the cost of this contract or which change the period of this contract.

(d) The term "Department" means the Department of Health, Education, and Welfare.

(e) Except as otherwise provided in this contract, the term "subcontract" includes purchase orders under this contract.

2. DISPUTES

(Text of this clause is set forth in FPR 1–7.101–12.)

3. LIMITATION OF COST

(a) It is estimated that the total cost to the Government for the performance of this contract will not exceed the estimated cost set forth in this contract and the contractor agrees to use its best efforts to perform all work and all obligations under this contract within such estimated costs. If at any time the contractor has reason to believe that the costs which it expects to incur in the performance of this contract in the next succeeding 60 days, when added to all costs previously incurred, will exceed 75 percent of the estimated cost set forth in the contract, or, if at any time the Contractor has reason to believe that the total cost to the Government, for the performance of this contract, will be substantially greater or less than the estimated cost thereof, the contractor shall notify the contracting officer in writing to that effect, giving its revised estimate of such total cost for the performance of this contract.

(b) The Government shall not be obligated to reimburse the contractor for costs incurred in excess of the estimated cost set forth in the contract and the contractor shall not be obligated to continue performance under the contract or to incur costs in excess of such estimated cost unless and until the contracting officer shall have notified the contractor in writing that such estimated cost has been increased and shall have specified in such notice a revised estimated cost which shall thereupon constitute the estimated cost of performance of this contract. When and to the extent that the estimated cost set forth in this contract has been increased by the contracting officer in writing, any costs incurred by the contractor in excess of such estimated cost prior to the increase in estimated cost shall be allowable to the same extent as if such costs had been incurred after such increase in estimated cost.

4. ALLOWABLE COST

(a) *Compensation for Contractor's performance.* Payment for the allowable cost, as herein defined and as actually incurred by the contractor shall constitute full and complete compensation for the performance of the work under this contract.

(b) *Allowable cost.* The allowable cost of performing the work under this contract shall be the cost actually incurred by the Contractor, either directly incident or properly allocable to the contract, in the performance of this contract in accordance with its terms. The allowable cost, direct and indirect, including acceptability of cost allocation methods, shall be determined by the Contracting Officer in accordance with:

(1) (i) "A Guide for Nonprofit Institutions Establishing Indirect Cost Rates for Research Grants and Contracts with the Department of Health, Education, and Welfare, DHEW Publication OASC–5," or (i) "A Guide for Hospitals, Establishing Indirect Cost Rates for Research Grants and Contracts with the Department of Health, Education, and Welfare, DHEW Publication OASC–3," or (i) Subpart 1–15.7 of the Federal Procurement Regulations (41 CFR 1–15.7) if the contract is with a State or local Government Agency.

(2) The terms of the contract.

5. NEGOTIATED OVERHEAD RATES

(a) Notwithstanding the provisions of the clause of this contract entitled, "Allowable Cost," the allowable indirect costs shall be obtained by applying negotiated overhead rates to bases agreed upon by the parties, as specified below.

(b) The Contractor, as soon as possible, but not later than six (6) months after the expiration of each of the Contractor's financial years or such period as may mutually be agreed upon by the Government and the Contractor, shall submit to the Contracting Officer, with a copy to the cognizant audit agency, a proposed final overhead rate or rates for that period based on the Contractor's cost experience during that period, together with supporting cost data. Negotiation of final overhead rates by the Contractor and the Contracting Officer shall be undertaken as promptly as practicable after receipt of the Contractor's proposal.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with the cost principles set forth in paragraph (b) (1) of Clause 4, as in effect on the date of this contract, and the same hereby incorporated herein by reference.

(d) The results of each negotiation shall be set forth in an amendment to this contract, which shall specify (1) the agreed final rate, (2) the bases to which the rates apply, and (3) the periods for which the rates apply.

(e) Pending establishment of final overhead rates for any period, the Contractor shall be reimbursed either at negotiated provisional rates as provided in this contract or at billing rates acceptable to the Contracting Officer, subject to appropriate adjustment when the final rates for that period are established. To prevent substantial over or under payment, the provisional or billing rates may, at the request of either party, be revised by mutual agreement, either retroactively or prospectively. Any such revision of negotiated provisional rates provided in this contract shall be set forth in an amendment to this contract.

(f) Any failure by the parties to agree on any final rate or rates under this clause shall be considered a dispute concerning a question of fact for decision by the Contracting Officer within the meaning of the clause of this contract entitled "Disputes."

(g) Submission of proposed provisional and/or final overhead rates, together with appropriate data in support thereof, to the Secretary or his duly authorized representative, and agreements on provisional and/or final overhead rates entered into between the Contractor and the Secretary or his duly authorized representative, as evidenced by Negotiated Overhead Rate Agreements signed by both parties, shall be deemed to satisfy the requirements of (b), (d), and (e) above.

6. PAYMENT

(a) *Payment on account of allowable costs.* Once each month (or at more frequent intervals if approved by the Contracting Officer) the Contractor may submit to the Contracting Officer, in such form and reasonable detail as may be required, an invoice or voucher supported by a statement of costs incurred by the Contractor in the performance of this contract and claimed to constitute allowable costs. Promptly after receipt of each invoice or voucher the Government shall, subject to the provisions of (b) below, make payment thereon as approved by the Contracting Officer.

(b) *Audit adjustments.* At any time or times prior to settlement under this contract the Contracting Officer may have invoices or vouchers and statements of cost audited. Each payment theretofore made shall be subject to reduction for amounts included in the related invoice or voucher which are found by the Contracting Officer, on the basis of such audit, not to constitute allowable cost. Any payment may be reduced for overpayment, or increased for underpayments on preceding invoices or vouchers.

(c) *Completion voucher.* On receipt and approval of the invoice or voucher designated by the Contractor as the "completion invoice" or "completion voucher" and upon compliance by the Contractor with all the provisions of this contract (including without limitation, the provisions relating to patents and provisions of (d) below) the Government shall promptly pay to the Contractor any balance of allowable cost. The completion invoice or voucher shall be submitted by the Contractor promptly following completion of the work under this contract but in no event later than 6 months (or such longer period as the Contracting Officer may in his discretion approve in writing) from the date of such completion.

(d) *Applicable credits.* The Contractor agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the Contractor or any assignee under this contract shall be paid by the Contractor to the Government, to the extent that they are properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract. Reasonable expenses incurred by the Contractor for the purpose of securing such refunds, rebates, credits, or other amounts shall be allowable costs hereunder when approved by the Contracting Officer.

(e) *Financial settlement.* Prior to final payment under this contract, the Contractor and each assignee under this contract whose assignment is in effect at the time of final payment under this contract shall execute and deliver:

(1) An assignment to the Government in form and substance satisfactory to the contracting officer, of refunds, rebates, credits, or other amounts (including any interest thereon) properly allocable to costs for which the contractor has been reimbursed by the Government under this contract, and

(2) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, subject only to the following exceptions:

(i) Specified claims in stated amounts or in estimated amounts where the amounts are susceptible to exact statement by the contractor;

(ii) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the contractor to third parties arising out of the performance of this contract: *Provided*, That such claims are not known to the contractor on the date of the execution of the release: *And provided further*, That the contractor gives notice of such claims in writing to the contracting officer not more than 6 years after the date of the release or the date of any notice to the contractor that the Government is prepared to make final payment, whichever is earlier; and

(iii) Claims for reimbursement of costs (other than expenses of the contractor by reason of its indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the contractor under the provisions of this contract relating to patents.

7. EXAMINATION OF RECORDS

(a) This clause is applicable if the amount of this contract exceeds $2,500 and was entered into by means of negotiation including small business restricted advertising, but is not applicable if this contract was entered into by means of formal advertising.

(b) The contractor agrees that the Comptroller General of the United States and the Secretary, or any of their duly authorized representatives, shall until expiration of 3 years after final payment under this contract or of the time period for the particular records in part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever expires earlier, have access to and the right to examine any directly pertinent books, documents, papers, and records of the contractor involving transactions related to this contract.

(c) The contractor further agrees to include in all his subcontracts hereunder a provision to the effect that the subcontractor agrees that the Comptroller General of the United States, or his duly authorized representatives shall, until expiration of 3 years after final payment under the subcontract, or of the time periods for the particular records specified in part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20) whichever expires earlier, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractor, involving transactions related to the subcontract. The term "subcontract" as used in this clause excludes (1) purchase orders not exceeding $2,500 and (2) subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

(d) The periods of access and examination described in (b) and (c) above, for records which relate to (1) appeals under the "Disputes" clause of this contract, (2) litigation or the settlement of claims arising out of the performance of this contract, or (3) costs and expenses of this contract as to which exception has been taken by the Comptroller General or any of his duly authorized representatives, shall continue until such appeals, litigation, claims, or exceptions have been disposed of.

8. INSPECTION AND REPORTS

(a) *Inspection of work.* The Government shall have the right to inspect the work and activities under this contract, including, without limitation, premises where any Government property may be located, at such reasonable times and in such manner as it may deem appropriate and the contractor shall afford the Government proper facilities and assistance for such inspection.

(b) *Reports.* The contractor shall furnish such progress reports, schedules, financial and cost reports, and other reports concerning the work under this contract as specified elsewhere in this contract. Cost and other financial data and projections furnished pursuant to this paragraph (b) shall not relieve the Contractor of the requirements for furnishing notice specified in the clause of this contract entitled "Limitation of Cost."

9. SUBCONTRACTING

(a) *Prior approval required.* Except as provided in (c) below, the contractor shall not enter into any subcontract or purchase order not otherwise expressly authorized elsewhere in this contract without the prior written approval of the contracting officer and subject to such conditions as the contracting officer may require.

(b) *Request for approval.* The contractor's request for approval to enter into a subcontract pursuant to this clause shall include: (1) a description of the supplies or services to be called for by the subcontract; (2) identification of the proposed subcontractor and an explanation of why and how the proposed subcontractor was selected, including the degree of competition obtained; (3) the proposed subcontract price, together with the Contractor's cost or price analysis thereof; (4) identification of the type of subcontract to be used; (5) a copy or draft of the proposed subcontract, if available, and (6) any other information which the contracting officer may require.

(c) *Certain purchases of property and services.* Prior written approval shall not be required for firm fixed-price subcontracts for the purchase or rental of items of personal property having a unit acquisition cost of less than $200 or for subcontracts in a total amount less than $1,000 unless otherwise specified elsewhere in this contract: *Provided, however*, That advance notification shall be given by the contractor of any subcontract which exceeds in dollar amount 5 percentum of the total estimated cost of this contract.

(d) *Contractor's procurement system.* The contractor shall use methods, practices or procedures in subcontracting or purchasing (hereinafter referred to as the contractor's "procurement system") acceptable to the contracting officer. The contracting officer may, at any time during the performance of this contract, require the contractor to provide information concerning its procurement system.

(e) *Effect of subcontracting.* Subcontracts shall be made in the name of the contractor and shall not bind nor purport to bind the Government. The making of subcontracts hereunder shall not relieve the contractor of any requirement under this contract (including, but not limited to, the duty to properly supervise and coordinate the work of subcontractors, and the duty to maintain and account for property pursuant to the clause of this contract entitled "Government Property"). Approval of the provisions of any subcontract by the contracting officer shall not be construed to constitute a determination of the allowability of any cost under this contract, unless such approval specifically provides that it constitutes a determination of the allowability of such cost. In no event shall approval of any subcontract by the contracting officer be construed as effecting any increase in the estimated cost set forth in this contract. No subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis.

(f) *Procurements from contractor-controlled sources.* Procurement or transfer of equipment, materials, supplies, or services from a contractor-controlled source (any division or other organizational component of the prime contractor, exclusive of the contracting component, and any subsidiary or affiliate of the contractor under a common control) shall be considered a subcontract for the purposes of this clause.

10. ACCOUNTS, AUDIT, AND RECORDS

(a) The contractor shall maintain books, tracting officer either (i) return or otherwise dispose of such property, or (ii) effect repairs

(ii) Which results from a failure on the part of the Contractor, due to willful mis-conduct or lack of good faith on the part

(5) In the event the Contractor is indemnified, reimbursed, or otherwise compen-

in the estimated cost of, or the time required for performance of this contract, or

strued as affecting the scope of any license or other right otherwise granted to the Gov-

V37-231 NOV 30 72 XUM

10. ACCOUNTS, AUDIT, AND RECORDS

(a) The contractor shall maintain books, records, documents, and other evidence, accounting procedures, and practices, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. The foregoing constitutes "records" for the purposes of this clause.

(b) The contractor's facility(ies), or such part thereof as may be engaged in the performance of this contract, and his records shall be subject at all reasonable times to inspection and audit by the contracting officer or his authorized representatives.

(c) The contractor shall preserve and make available his records (1) until the expiration of 3 years from the date of final payment under this contract, or the time periods for the particular records specified in 41 CFR Part 1–20, whichever expires earlier and (2) for such longer period, if any, as is required by applicable statute, or by other clauses of this contract, or by (i) or (ii) below.

(i) If this contract is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of 3 years from the date of any resulting final settlement.

(ii) Records which relate to (A) appeals under the "Disputes" clause of this contract, (B) litigation or the settlement of claims arising out of the performance of this contract, or (C) costs and expenses of this contract to which exception has been taken by the contracting officer or any of his duly authorized representatives, shall be retained until such appeals, litigation, claims, or exceptions have been disposed of.

(d) The contractor shall insert the substance of this clause, including this paragraph (d), in each subcontract hereunder that is not firm fixed-price or fixed-price with escalation. When so inserted, changes shall be made to designate the higher-tier subcontractor at this level involved in place of the contractor; to add "of the Government prime contract" in place of "this contract" in (B) of subparagraph (c)(ii) above.

11. GOVERNMENT PROPERTY

(a) *Government furnished property.* (1) The Government reserves the right to furnish any property or services required for the performance of the work under this contract.

(2) The Government shall deliver to the contractor, for use in connection with and under the terms of this contract, the property described elsewhere in this contract, together with such related data and information as the contractor may request and as may reasonably be required for the intended use of such property (such property to be referred to as "Government furnished property").

In the event that Government furnished property is not delivered to the contractor by such time or times as stated, or if not stated, in sufficient time to enable the contractor to meet such delivery or performance dates under this contract, the contracting officer shall, upon timely written request made by the contractor, make a determination of the delay occasioned the contractor and make appropriate equitable adjustments to any contractual provisions affected by any such delay in accordance with the provisions of the clause of this contract entitled "Changes."

In the event that Government furnished property is received by the contractor in a condition not suitable for the intended use, the Contractor shall, immediately upon receipt thereof, notify the contracting officer of such fact and, as directed by the contracting officer either (i) return or otherwise dispose of such property, or (ii) effect repairs or modifications thereto. Upon completion of (i) or (ii) above, the contracting officer, upon timely written request of the contractor, shall make appropriate equitable adjustments to any contractual provisions affected thereby in accordance with the provisions of the clause of this contract entitled "Changes." The foregoing provisions for adjustment are exclusive and the Government shall not be liable to suit for breach of contract by reason of any delay in delivery of Government furnished property or delivery of such property in a condition not suitable for its intended use.

(b) *Title.* (1) Title to all property furnished by the Government shall remain in the Government. Title to all property purchased by the contractor, the cost of which the contractor is entitled to be reimbursed as a direct item of cost under this contract, shall pass to and vest in the Government upon delivery of such property by the vendor. Title to other property, the cost of which is reimbursable to the contractor under this contract, shall pass and vest in the Government upon (i) issuance for use of such property in the performance of this contract, or (ii) commencement of processing or use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by the Government in whole or in part, whichever first occurs. All Government furnished property, together with all property acquired by the contractor, title to which vests in the Government under this paragraph, are subject to the provisions of this clause and are hereinafter collectively referred to as "Government property."

(2) Title to the Government property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government property, or any part thereof, be or become a fixture or lose its identity or personality by reason of affixation to any realty.

(c) *Use of Government property.* Government property shall, unless otherwise provided herein or approved by the contracting officer, be used only for the performance of this contract.

(d) *Property management and control.* The contractor shall maintain and administer in accordance with sound business practice a program for the maintenance, repair, protection, and preservation, control of and accountability for Government property, so as to assure its full availability and usefulness for the performance of this contract. The contractor agrees to promptly receipt for all Government property in a form and manner as prescribed by the contracting officer. The contractor further agrees to take all reasonable steps to comply with all directions or instructions which the contracting officer may prescribe regarding the management and control of Government property.

(e) *Risk or loss.* (1) The contractor shall not be liable for any loss of or damage to Government property, or for expenses incidental to such loss or damage, except that the contractor shall be responsible for any such loss or damage (including expenses incidental thereto):

(i) Which results from willful misconduct or lack of good faith on the part of any of the contractor's directors or officers, or on the part of any of its managers, superintendents, or other equivalent representatives, who have supervision or direction of (A) all or substantially all of the contractor's operations at any one plant, laboratory or separate location in which this contract is being performed or (B) a separate and complete major organization, industrial or otherwise in connection with the performance of this contract;

(ii) Which results from a failure on the part of the Contractor, due to willful misconduct or lack of good faith on the part of any of its directors, officers, or other representatives mentioned in subparagraph (i) above, (A) to maintain and administer, in accordance with sound business practice, the program for maintenance, repair, protection, and preservation of Government property as required by paragraph (d) hereof, or (B) to take all reasonable steps to comply with any appropriate written directions of the Contracting Officer under paragraph (4) hereof;

(iii) For which the Contractor is otherwise responsible under the express terms of this contract;

(iv) Which results from a risk expressly required to be insured under this contract, but only to the extent of the insurance so required to be procured and maintained, or to the extent of insurance actually procured and maintained, whichever is greater; or

(v) Which results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement: *Provided,* That, if more than one of the above exceptions shall be applicable in any case, the Contractor's liability under any one exception shall not be limited by any other exception.

(2) If the Contractor transfers Government property to the possession and control of a subcontractor the transfer shall not affect the liability of the Contractor for loss or destruction of or damage to Government property as set forth in (1) above. The Contractor shall require the subcontractor to assume the risk of and be responsible for any loss or destruction of or damage to Government property while in the latter's possession or control, and the subcontract shall contain appropriate provisions requiring the return of all Government property in as good condition as when received (except for reasonable wear and tear or for the utilization of the property in accordance with the provisions of this contract). *Provided, however,* That the subcontractor may be relieved from such liability only to the extent that the subcontract, with the prior approval of the Contracting Officer, so provides.

(3) The Contractor shall not be reimbursed for, and shall not include as an item of overhead, the cost of insurance, or any provisions for a reserve, covering the risk of loss of or damage to the Government property, except to the extent that the Government may have required the Contractor to carry such insurance under any other provision of this contract.

(4) Upon the happening of loss or destruction of or damage to the Government property, the Contractor shall notify the Contracting Officer thereof, and shall take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best order, and furnish to the Contracting Officer a statement of:

(i) The lost, destroyed, and damaged Government property;

(ii) The time and origin of the loss, destruction, or damage;

(iii) All known interests in commingled property of which the Government property is a part; and

(iv) The insurance, if any, covering any part of or interest in such commingled property.

The Contractor shall make repairs and renovations of the damaged Government property, or take such other action as the Contracting Officer directs.

(5) In the event the Contractor is indemnified, reimbursed, or otherwise compensated for any loss or destruction of or damage to the Government property, it shall use the proceeds to repair, renovate, or replace the Government property involved, or shall credit such proceeds against the cost of the work covered by the contract, or shall otherwise reimburse the Government, as directed by the Contracting Officer. The Contractor shall do nothing to prejudice the Government's right to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer, shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including assistance in the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery. In addition, where a subcontractor has not been relieved from liability for any loss or destruction of or damage to Government property, the Contractor shall enforce the liability of the subcontractor for such loss or destruction of or damage to the Government property for the benefit of the Government.

(f) *Disposition of Government property.* (1) During the period of performance of this contract, the Contractor shall promptly and regularly report to the Contracting Officer, in such form and manner as the Contracting Officer may direct, concerning the status of Government property under the contract, including all Government property in the Contractor's possession which is not in use or which is excess to the needs of the contract. The Contractor shall make such disposition of Government property as the Contracting Officer may direct. The Contractor shall in no way be relieved of responsibility for Government property without the prior written approval of the Contracting Officer.

(2) Upon completion or expiration of this contract, or at such earlier date as may be fixed by the Contracting Officer, the Contractor shall render an accounting, as prescribed by the Contracting Officer, of all Government property which had come into the possession or custody of the Contractor under this contract. Such accounting shall include inventory schedules covering all items of Government property not consumed in the performance of this contract, or not theretofore delivered to the Government, or for which the Contractor has not otherwise been relieved of responsibility. The Contractor shall deliver or make such other disposition of Government property covered in such inventory schedules as the Contracting Officer may direct.

(3) The net proceeds of any disposition of Government property, in accordance with (1) and (2) above, shall be credited to the cost of the work covered by the contract or shall be paid in such manner as the Contracting Officer may direct.

(g) *Restoration of premises.* Unless otherwise provided herein, the Government shall not be under any duty or obligation to restore or rehabilitate, or to pay the costs of the restoration or rehabilitation of the Contractor's facility or any portion thereof which is affected by removal of any Government property.

12. CHANGES

The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, make changes, within the general scope of this contract, in any one or more of the following: (a) Drawings, designs, or specifications; (b) method of shipment or packing; (c) place of inspection, delivery, or acceptance; and (d) the amount of Government-furnished property. If any such change causes an increase or decrease in the estimated cost of, or the time required for performance of this contract, or otherwise affects any other provisions of this contract, whether changed or not by any such order, an equitable adjustment shall be made (a) in the estimated cost of delivery schedule, or both, and (b) in such other provisions of the contract as may be so affected, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of receipt by the Contractor of the notification of change: *Provided, however,* That the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Where the cost of property made obsolete or excess as a result of a change is included in the Contractor's claim for adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of such property. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled, "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

13. NOTICE TO THE GOVERNMENT OF DELAYS

Whenever the Contractor has knowledge that any actual or potential situation, including, but not limited to, labor disputes, is delaying or threatens to delay the timely performance of the work under this contract, the Contractor shall immediately give written notice thereof, including all relevant information with respect thereto, to the Contracting Officer.

14. TERMINATION FOR THE CONVENIENCE OF THE GOVERNMENT

(Text of this clause is set forth in FPR 1–8.704–1.)

15. RIGHTS IN DATA

(a) *Subject data.* As used in this clause, the term "Subject Data" means writings, sound recordings, pictorial reproductions, drawings, designs, or other graphic representations, procedural manuals, forms, diagrams, workflow charts, equipment descriptions, data files and data processing or computer programs, and works of any similar nature (whether or not copyrighted or copyrightable) which are specified to be delivered under this contract. The term does not include financial reports, cost analyses, and similar information incidental to contract administration.

(b) *Government rights.* Subject only to the proviso of (c) below, the Government may use, duplicate or disclose in any manner and for any purpose whatsoever, and have or permit others to do so, all subject data delivered under this contract.

(c) *License to copyrighted data.* In addition to the Government rights as provided in (b) above, with respect to any subject data which may be copyrighted the Contractor agrees to and does hereby grant to the Government a royalty-free, nonexclusive, and irrevocable license throughout the world to use, duplicate or dispose of such data in any manner and for any purpose whatsoever, and to have or permit others to do so: *Provided, however,* That such license shall be only to the extent that the Contractor now has, or prior to completion or final settlement of this contract may acquire, the right to grant such license without becoming liable to pay compensation to others solely because of such grant.

(d) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(e) *Marking and identification.* The Contractor shall mark all Subject Data with the number of this contract and the name and address of the contractor or subcontractor who generated the data. The Contractor shall not affix any restrictive markings upon any Subject Data, and if such markings are affixed, the Government shall have the right at any time to modify, remove, obliterate, or ignore any such markings.

(f) *Subcontractor data.* Whenever any Subject Data is to be obtained from a subcontractor under this contract, the Contractor shall use this same clause in the subcontract, without alteration, and no other clause shall be used to enlarge or diminish the Government's rights in that subcontractor Subject Data.

(g) *Deferred ordering and delivery of data.* The Government shall have the right to order, at any time during the performance of this contract, or within 2 years from either acceptance of all items (other than data) to be delivered under this contract or termination of this contract, whichever is later, any Subject Data and any data not called for in the schedule of this contract but generated in performance of the contract, and the Contractor shall promptly prepare and deliver such data as is ordered. If the principal investigator is no longer associated with the Contractor, the Contractor shall exercise its best efforts to prepare and deliver such data as is ordered. The Government's right to use data delivered pursuant to this paragraph (g) shall be the same as the rights in Subject Data as provided in (b) above. The Contractor shall be relieved of the obligation to furnish data pertaining to an item obtained from a subcontractor upon the expiration of 2 years from the date he accepts such items. When data, other than Subject Data, is delivered pursuant to this paragraph (g), payment shall be made, by equitable adjustment or otherwise, for converting the data into the prescribed form, reproducing it or preparing it for delivery.

16. REPORTING OF ROYALTIES

If this contract involves any royalty payments in excess of $250 or if the amount of any royalty payment in excess of $250 is reflected in the estimated cost, the Contractor shall report in writing to the Contracting Officer, as soon as practicable during the performance of this contract, the amount of any royalties paid or to be paid by it directly to others in connection with the performance of this contract, together with (a) the names and addresses of licensors to whom such payments are made; (b) the patent numbers or patents application serial numbers (with filing dates) involved or other identification of the basis of such royalties; and (c) information concerning the manner of computation of such royalties.

17. AUTHORIZATION AND CONSENT

The Government hereby gives its authorization and consent for all use and manufacture of any invention described in and covered by a patent of the United States in the performance of this contract or any part hereof or any amendment hereto, or any subcontract hereunder (including any lower tier subcontract).

18. NOTICE AND ASSISTANCE REGARDING PATENT AND COPYRIGHT INFRINGEMENT

(Text of this clause is set forth in FPR 1–7.101–13.)

19. PUBLICATION AND PUBLICITY

(a) Unless otherwise specified in this contract, the Contractor is encouraged to publish

and make available through accepted channels the results of its work under this contract. A copy of each article submitted by [illegible] for publication shall be

(2) Insert in each subcontract having experimental, developmental, or research work as one of its purposes, a provision making this clause applicable to the subcontractor

the Contractor the cost and expense of which is allowable under the clause entitled "Allowable Cost." Except as otherwise directed by the Contracting Officer, the Con-

25. FOREIGN TRAVEL

Foreign travel shall not be performed without the prior written approval of the contracting officer. As used in this clause "Foreign Travel" means travel outside the United

34. OFFICIALS NOT TO BENEFIT

(Text of this clause is set forth in FPR 1–7.101–19.)

35. COVENANT AGAINST CONTINGENT FEES

sion 2, instituted regulations for the transmission of tariff and schedule publications to subscribers and other interested parties, such regulations to be incorporated into all of the Commission's

and make avialable through accepted channels the results of its work under this contract. A copy of each article submitted by the Contractor for publication shall be promptly sent to the Project Officer. The Contractor shall also inform the Project Officer when the article or other work is published and furnish a copy of it as finally published.

(b) The Contractor shall acknowledge the support of the Department of Health, Education, and Welfare whenever publicizing the work under this contract in any media. To effectuate the foregoing, the Contractor shall include in any publication resulting from work performed under this contract an acknowledgement substantially as follows:

"The work upon which this publication is based was performed pursuant to Contract (insert number) with the (insert name of constituent agency), Department of Health, Education, and Welfare."

20. PATENT RIGHTS

(a) *Definitions.* As used in this clause, the term (1) "Invention" or "Invention or discovery" includes any art, machine, manufacture, design, or composition of matter, or any new and useful improvement thereof, or any variety of plant, which is or may be patentable under the Patent Laws of the United States; and (2) "Made," when used in relation to any invention or discovery, means the conception or first actual or constructive reduction to practice on such invention.

(b) *Disclosure.* Whenever an invention or discovery is made by the Contractor or its employees in the course of or under this contract, the Contractor shall immediately give the Contracting Officer written notice thereof and shall promptly thereafter furnish the Contracting Officer with complete information thereon, including a minimum (1) a complete written disclosure of each such invention, and (2) information in writing, as soon as practicable, concerning the data and identity of any public use, sale, or publication of such invention made by or known to the Contractor.

(c) *Determination of rights.* The Secretary, or his duly authorized representative, shall have the sole and exclusive power to determine whether or not, and where a patent application shall be filed and to determine the disposition of all rights in any invention made under this contract, including title to, and rights under, any patent application or patent which may issue thereon. The Secretary, or his duly authorized representative, may, upon the request of the Contractor, determine to exercise his option to waive rights to any such invention in foreign countries. The determination of the Secretary, or his duly authorized representative, on all these matters shall be accepted as final and the provisions of the clause of this contract entitled, "Disputes" shall not apply. The Contractor shall use his best efforts to assure that all of its employees who may be the inventors of any such invention will execute all documents and do all things necessary or proper to effectuate the determination of the Secretary, or his duly authorized representative, to vest in the Government the rights granted to it under this clause and to enable the Government to apply for and prosecute any patent application, in any country, covering such invention where the Government has the right under this clause to file such application.

(d) *Contractor employees and subcontractors.* The Contractor shall:

(1) Obtain patent agreements to effectuate the provisions of this clause from all persons who perform any part of the work under this contract and may be reasonably expected to make inventions.

(2) Insert in each subcontract having experimental, developmental, or research work as one of its purposes, a provision making this clause applicable to the subcontractor and its employees.

(e) *Reports.* The Contractor shall furnish the Contracting Officer, in addition to the information called for in paragraph (b) of this clause:

(1) Interim reports on the first anniversary of the contract, where extended or renewed, and every year thereafter listing all inventions made during the period, whether or not previously reported, or certifying that no inventions were made during the applicable period; and

(2) A final report, prior to final settlement of this contract, listing all such inventions made in the course of or under this contract, including all those previously listed in interim reports, or certifying that there are no such unreported inventions.

(f) *Withholding payment for failure to comply.* At any time during the performance of this contract, the Contracting Officer may direct that payment be withheld in the amount of 10 percent of the total amount obligated by the Government with respect to this contract or $10,000 whichever is less. If the Contracting Officer determines that the Contractor has failed to furnish any of the written notices, disclosures, or reports required by paragraphs (b) and (e) above, until such time as the Contractor shall have corrected such failure. The withholding of any amount or subsequent payment thereof to the Contractor or the failure to withhold any amount shall not be construed as a waiver of any rights accruing to the Government under the contract. This paragraph shall not be construed as requiring the Contractor to withhold any amounts from a subcontractor to enforce compliance with the patent provisions of a subcontract.

(g) *Acknowledgement.* With respect to any patent application on any invention made in the course of or under this contract, the Contractor shall incorporate in the first paragraph of the patent specification, and prominently in any patent issued thereon, the following statement:

"The invention described herein was made in the course of or under a contract with the U.S. Department of Health, Education, and Welfare."

21. KEY PERSONNEL

Where "key personnel" have been identified in this contract, it has been determined that such named personnel are necessary for the successful performance of the work under this contract; and the Contractor agrees to assign such personnel to the performance of the work under this contract, and shall not reassign or remove any of them without the consent of the Contracting Officer. Whenever, for any reason, one or more of the aforementioned personnel is unavailable for assignment for work under the contract, the Contractor shall immediately notify the Contracting Officer to that effect and shall, subject to the approval of the Contracting Officer without formal modification to the contract, replace such personnel with personnel of substantially equal ability and qualifications.

22. LITIGATION AND CLAIMS

The Contractor shall give the Contracting Officer immediate notice in writing of (a) any action, including any proceeding before an administrative agency, filed against the Contractor arising out of the performance of this contract, including, but not limited to, the performance of any subcontract hereunder; and (b) any claim against the Contractor the cost and expense of which is allowable under the clause entitled "Allowable Cost." Except as otherwise directed by the Contracting Officer, the Contractor shall furnish immediately to the Contracting Officer copies of all pertinent papers received by the Contractor with respect to such action or claim. To the extent not in conflict with any applicable policy of insurance, the Contractor may, with the Contracting Officer's approval, settle any such action or claim. If required by the Contracting Officer, the Contractor shall (a) effect an assignment and subrogation in favor of the Government of all the Contractor's rights and claims (except those against the Government) arising out of any such action or claim against the Contractors; and (b) authorize representatives of the Government to settle or defend any such action or claim and to represent the Contractor in, or to take charge of any action. If the settlement or defense of an action or claim is undertaken by the Government, the Contractor shall furnish all reasonable assistance in effecting a settlement or asserting a defense. Where an action against the Contractor is not covered by a policy of insurance, the Contractor shall, with the approval of the Contracting Officer, proceed with the defense of the action in good faith. The Government shall not be liable for the expense of defending any action or for any costs resulting from the loss thereof, to the extent that the Contractor would have been compensated by insurance which was required by law or regulation or by written direction of the Contracting Officer, but which the Contractor failed to secure through its own fault or negligence.

In any event, unless otherwise expressly provided in this contract, the contractor shall be reimbursed or indemnified by the Government for any liability loss, cost or expense, which the Contractor may incur or be subject to by reason of any loss, injury, or damage, to the person or to real or personal property of any third parties as may accrue during, or arise from, the performance of this contract.

23. REQUIRED INSURANCE

(a) The contractor shall procure and maintain such insurance as is required by law or regulation including, but not limited to, the requirements of subpart 1–10.5 of the Federal Procurement Regulations (41 CFR 1–10.5), or by the written direction of the contracting officer. Prior written approval of the contracting officer shall be required with respect to any insurance policy the premiums for which the contractor proposes to treat as a direct cost under this contract and with respect to any proposed qualified program of self-insurance. The terms of any other insurance policy shall be submitted to the contracting officer for approval upon request.

(b) Unless otherwise authorized in writing by the contracting officer, the contractor shall not procure or maintain for its own protection, any insurance covering loss or destruction of or damage to Government property.

24. OVERTIME

Except as authorized by Section 1–12.102–5 of the Federal Procurement Regulations as in effect on the effective date of this contract or otherwise provided in this contract, the Contractor shall not perform overtime work under or in connection with this contract for which premium compensation is required to be paid, without specific written approval from the Contracting Officer.

25. FOREIGN TRAVEL

Foreign travel shall not be performed without the prior written approval of the contracting officer. As used in this clause "Foreign Travel" means travel outside the United States, its Territories and Possessions, and Canada.

26. QUESTIONNAIRES AND SURVEYS

In the event the performance of this contract involves the collection of information upon identical items from 10 or more persons, other than Federal employees, the contractor shall obtain written approval from the contracting officer, prior to the use thereof, of any forms, schedules, questionnaires, survey plans or other documents, and any revisions thereto, intended to be used in such collection.

27. PRINTING

Unless otherwise specified in this contract, the contractor shall not engage in, nor subcontract for, any printing (as that term is defined in title I of the Government Printing and Binding Regulations in effect on the effective date of this contract) in connection with the performance of work under this contract: *Provided, however,* That performance of a requirement under this contract involving the reproduction of less than 5,000 production units of any one page or less than 25,000 production units in the aggregate of multiple pages, will not be deemed to be printing. A production unit is defined as one sheet, size 8 by 10½ inches, one side only, one color.

28. SERVICES OF CONSULTANTS

Except as otherwise expressly provided elsewhere in this contract, and notwithstanding the provisions of the clause of this contract entitled "Subcontracting," the prior written approval of the Contracting Officer shall be required:

(a) Whenever any employee of the Contractor is to be reimbursed as a "consultant" under this contract; and

(b) For the utilization of the services of any consultant under this contract exceeding the daily rate set forth elsewhere in this contract or, if no amount is set forth, $100, exclusive of travel costs, or where the services of any consultant under this contract will exceed 10 days in any calendar year.

Whenever Contracting Officer approval is required, the contractor will obtain and furnish to the contracting officer information concerning the need for such consultant services and the reasonableness of the fees to be paid, including, but not limited to, whether fees to be paid to any consultant exceed the lowest fee charged by such consultant to others for performing consultant services of a similar nature.

29. ASSIGNMENT OF CLAIMS

(Text of this clause is set forth in FPR 1–30.703.)

30. CONTRACT WORK HOURS STANDARDS ACT—OVERTIME COMPENSATION

(Text of this clause is set forth in FPR 1–12.303.)

31. WALSH-HEALEY PUBLIC CONTRACTS ACT

(Text of this clause is set forth in FPR 1–12.605.)

32. EQUAL OPPORTUNITY

(Text of this clause is set forth in FPR 1–12.803–2.)

33. CONVICT LABOR

(Text of this clause is set forth in FPR 1–12.203.)

34. OFFICIALS NOT TO BENEFIT

(Text of this clause is set forth in FPR 1–7.101–19.)

35. COVENANT AGAINST CONTINGENT FEES

(Text of this clause is set forth in FPR 1–1.503.)

36. BUY AMERICAN ACT-SUPPLY AND SERVICE CONTRACTS

(Text of this clause is set forth in FPR 1–6.104–5.)

37. UTILIZATION OF SMALL BUSINESS CONCERNS

(Text of this clause is set forth in FPR 1–1.710–3(a).

38. UTILIZATION OF LABOR SURPLUS AREA CONCERNS

(Text of this clause is set forth in FPR 1–1.805–3(a).

39. UTILIZATION OF MINORITY BUSINESS ENTERPRISES

(Text of this clause is set forth in FPR 1–1.1310–2.)

40. PAYMENT OF INTEREST ON CONTRACTOR'S CLAIMS

(Text of this clause is set forth in FPR 1–1.322.)

41. LISTING OF EMPLOYMENT OPENINGS

(Text of this clause is set forth in FPR 1–12.1102–2.)

Title 49—TRANSPORTATION

Chapter X—Interstate Commerce Commission

SUBCHAPTER D—TARIFFS AND SCHEDULES

[Docket No. 35613]

PART 1300—FREIGHT SCHEDULES; RAILROADS

PART 1303—PASSENGER SERVICE SCHEDULES; RAIL AND WATER CARRIERS

PART 1304—EXPRESS COMPANIES SCHEDULES AND CLASSIFICATIONS

PART 1306—PASSENGER AND EXPRESS TARIFFS AND SCHEDULES OF MOTOR CARRIERS

PART 1307—FREIGHT RATE TARIFFS, SCHEDULES, AND CLASSIFICATIONS OF MOTOR CARRIERS

PART 1308—FREIGHT TARIFFS AND SCHEDULES OF WATER CARRIERS

PART 1309—TARIFFS AND CLASSIFICATIONS OF FREIGHT FORWARDERS

Transmission of Tariffs and Schedules to Subscribers and Other Interested Parties

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 20th day of November 1972.

It appearing, that by order entered August 28, 1972, the Commission, Division 2, instituted regulations for the transmission of tariff and schedule publications to subscribers and other interested parties, such regulations to be incorporated into all of the Commission's tariff circulars;

It further appearing, that a petition filed jointly by Traffic Executive Association—Eastern Railroads, Southern Freight Association, and Executive Committee—Western Railroad Traffic Association and petitions filed by Freight Forwarders Tariff Bureau, Inc., and its members and by Sea-Land Service, Inc., request: (1) The reconsideration of the order entered August 28, 1972, (2) that the matter be considered under a notice of proposed rulemaking, (3) that the Commission find that it does not have jurisdiction in this matter, and (4) that the order be stayed or postponed pending final disposition;

It further appearing, that by notice entered October 17, 1972, the Commission announced that the order had been stayed pending disposition of the petitions;

It further appearing, that a reply to all petitions has been filed by the National Industrial Traffic League and a reply to the petition filed jointly by Traffic Executive Association—Eastern Railroads and others has been filed by the Board of Trade of Kansas City, Mo.;

And it further appearing, that upon reconsideration of all the matters and things involved in the order entered August 28, 1972, and upon consideration of the petitions and replies, which petitions and replies are hereby referred to and made a part hereof, sufficient justification for the actions requested has not been shown.

It is ordered, That the petitions, be, and they are hereby, denied.

It is further ordered, That the order entered August 28, 1972, shall become effective 30 days after publication of this order (entered November 20, 1972) in the FEDERAL REGISTER (11–30–72).

It is further ordered, That, in all other respects, the terms of the order entered August 28, 1972, shall remain the same.

(Sec. 12, 24 Stat. 383, as amended; secs. 5, 6, 12, 24 Stat. 380, as amended; sec. 20, 24, Stat. 386, as amended; 49 Stat. 546, as amended; 49 Stat. 560, as amended, 561, as amended, 563, as amended; sec. 210a, 52 Stat. 1238, as amended; secs. 304, 306, 54 Stat. 933, 935; secs. 403, 405, 413, 56 Stat. 285, 287, 295; 49 U.S.C. 5, 6, 12, 20, 304, 310a, 317, 318, 319, 904, 906, 1003, 1005, 1013)

And it is further ordered, That a copy of this order be served on each party of record, a copy be posted in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection and a copy be delivered to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to all other interested persons.

By the Commission, Division 2, Acting as an Appellate Division.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Department of the Interior

PART 33—SPORT FISHING

Special Regulations; Sport Fishing; for Individual Wildlife Refuge Areas

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

Sport fishing shall be in accordance with all applicable State regulations.

Proposed Rule Making

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 33—SPORT FISHING

Kirwin National Wildlife Refuge, Kans.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (11-30-72).

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

KANSAS

KIRWIN NATIONAL WILDLIFE REFUGE

Sport fishing on the Kirwin National Wildlife Refuge, Kans., is permitted from January 1 through December 31, 1973, inclusive, on all areas not designated by signs as closed to fishing. These open areas, comprising 5,000 acres, are delineated on maps available at refuge headquarters, 5 miles west of Kirwin, Kans., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103.

Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

KEITH S. HANSEN,
Refuge Manager, Kirwin National Wildlife Refuge, Kirwin, Kans.

NOVEMBER 24, 1972.

Proposed Rule Making

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 73]

[Airspace Docket No. 72-RM-27]

RESTRICTED AREA

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 73 of the Federal Aviation Regulations that would expand the annual time of use and change the controlling agency of Restricted Area R-7001, Guernsey, Wyo.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Rocky Mountain Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, Post Office Box 7213, Denver, CO 80207. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The Department of the Army has requested a change in the time of designation of R-7001 to accommodate additional training activities for Army National Guard units beginning March 1, 1973.

Increased IFR operations in the vicinity of R-7001 also necessitate the designation of Denver ARTCC as the controlling agency to facilitate the handling of these operations.

If these actions are taken, the time of designation and the controlling agency of R-7001 would be revised to show:

WYOMING

R-7001 Guernsey, Wyo.
Time of designation: 0430 to 2400 local time, March 1 through November 30.
Controlling agency: Federal Aviation Administration, Denver ARTC Center.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on November 22, 1972.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[Docket No. 32; Notice 72-3]

CARGO SECURITY ADVISORY STANDARDS

Notice of Proposed Rule Making

One of the most serious problems confronting the transportation industry today is the increasing incidence of theft and pilferage of cargo. It affects all modes of transportation. It disrupts the orderly and efficient flow of goods in the interstate and foreign commerce of the United States and levies an intolerable financial toll on the Nation. A Department of Transportation study of calendar year 1970 cargo theft and pilferage affecting transportation in the United States shows that, conservatively estimated, theft-related losses (known stolen, plus 80 percent of unaccounted for loss) amounted to more than $1 billion. Although the greatest losses were borne by the carriers themselves, shippers and consignees also experienced significant losses. On the average, carriers in all modes of transportation incurred losses valued at more than 1 percent of their revenues, and shippers and consignees incurred losses valued at approximately one-half of 1 percent of the freight charges that they paid. The following tables depict the supporting statistical data.

CALENDAR YEAR 1970

TOTAL LOSS BY MODE

	CARRIER REVENUE[1]		INDUSTRY LOSS		CARRIER LOSS Amt.	CARRIER LOSS Cost Ratio (Loss ÷ Revenue[1])	SHIPPER/CONSIGNEE LOSS Amt.	SHIPPER/CONSIGNEE LOSS Cost Ratio (Loss ÷ Freight Charges[1])
Air	.7B[2]	1.1%	28.8M[3]	1.1%	15.5M	2.2%	13.2M	1.9%
Truck	43.9B	70.8%	2012.4M	76.0%	1401.2M	3.2%	611.2M	1.39%
Rail	12.3B	19.8%	465.6M	17.6%	381.6M	3.1%	84.0M	0.7%
Maritime	5.1B	8.3%	141.2M	5.3%	101.2M	2.0%	40.0M	0.8%
Total	62.0B	100%	2648.0M	100%	1899.5M	3.06%[4]	748.4M	1.2%[4]

THEFT-RELATED LOSS BY MODE

	CARRIER REVENUE[1]		INDUSTRY LOSS		CARRIER LOSS Amt.	CARRIER LOSS Cost Ratio (Loss ÷ Revenue[1])	SHIPPER/CONSIGNEE LOSS Amt.	SHIPPER/CONSIGNEE LOSS Cost Ratio (Loss ÷ Freight Charges[1])
Air	.7B[2]	1.1%	15.4M[3]	1.5%	8.3M	1.2%	7.1M	1.0%
Truck	43.9B	70.8%	851.3M	84.5%	592.7M	1.4%	258.6M	0.6%
Rail	12.3B	19.8%	54.5M	5.5%	44.6M*	0.4%*	9.9M	0.08%*
Maritime	5.1B	8.3%	85.5M	8.5%	61.3M*	1.2%*	24.2M	0.47%*
Total	62.0B	100%	1006.7M	100%	706.9M	1.1%[4]	299.8M	0.47%[4]

* Based upon incomplete data.
1/ Revenue = freight charges.
2/ B = billions of dollars.
3/ M = millions of dollars.
4/ Industry average.

As might be expected, some losses are attributable to hijacking of trucks, but the value of such losses is surprisingly small in comparison to the total loss. Investigations by the Department of Transportation have shown that the vast majority of the goods lost (approximately 85 percent) were taken by persons having free access to them on docks, in terminals, and in warehouses. Hijacking and larceny of goods in transit and burglary account for approximately 15 percent of total losses. Some carriers, shippers, and consignees have acted to protect the goods in their care; many others, however, are still careless or unconcerned. In many instances, management simply does not know what measures can be taken to safeguard cargo. Some do not know the causes of their losses, while others, knowing the causes, do not know how to combat them.

Ultimately, it is the consumer who pays the price of these losses. He pays more, not because the goods are of higher quality or because they reach him any more quickly (in fact, they often reach him more slowly, as a second shipment is sent to replace the first which has been stolen), but because a charge to compensate for theft has been imposed.

In establishing the Department of Transportation, the Congress asserted that "the general welfare, the economic

procedural regulations. Two written copies of the comments should be sent to the Docket Clerk, Office of the Gen-

"Advisory standard" means a Cargo Security Advisory Standard issued under this part;

(c) *Denials.* If the Director determines that the petition does not justify initiating advisory standard setting, he denies the petition.

(d) *Notification.* Whenever the Direc-

mit comments in response to a notice of proposed advisory standard setting. The petition must be submitted in duplicate not later than 10 days before expiration of the time stated in the notice.

(b) The Director designates a representative to conduct any hearing held under this part. The General Counsel designates a member of his staff to serve as legal officer at the hearing.

XUM
V37-231 NOV 30 72 XUM

In establishing the Department of Transportation, the Congress asserted that "the general welfare, the economic growth and stability of the Nation and its security require the development of national transportation policies and programs conducive to the provision of fast, safe, efficient, and convenient transportation at the lowest cost consistent therewith * * * ." In serving these objectives, it is incumbent upon the Department of Transportation "to facilitate the development and improvement of coordinated transportation service, * * * to encourage cooperation of Federal, State, and local governments, carriers, labor, and other interested parties toward the achievement of national transportation objectives, * * * to provide general leadership in the identification and solution of transportation problems * * * ." October 15, 1966, Public Law 89-670, secs. 2, 4, as amended; 80 Stat. 931, 933, as amended; 49 U.S.C. 1651, 1653.)

Cargo theft is a problem affecting "the provision of fast, safe, efficient, and convenient transportation * * *," and clearly warrants the development of nationwide policies and programs designed to promote cooperative solutions among interested parties. In carrying out its responsibilities, the Department of Transportation proposes to establish a program for the issuance of Cargo Security Advisory Standards. The Department would serve as a clearinghouse and coordinator of the knowledge that exists within the public, industry, and Government of the best methods available to combat cargo theft. In specific areas related to the security of cargo from theft, after consultation with the public, industry, and Government, the Department would issue advisory standards. The standards would not be mandatory but would be an authoritative aid to all parts of the transportation system, including shippers and consignees, in the prevention of theft and pilferage of cargo. Nothing in the standards would replace or modify any statutory requirement or any regulatory authority vested in any Federal, State, or local governmental body. Procedures relating to packaging, storage, accountability, communications, and vehicle control are deemed at this time appropriate subjects for the issuance of advisory standards.

The Department cannot require compliance with the advisory standards that would be issued; however, the need to follow them, and the resulting benefits, should be self-evident. Although there has been increasing concern throughout the transportation industry with the problem of theft and pilferage, and some action in reporting and preventing losses, widespread disparities continue to exist. We believe that agreement on such basic matters as the use of seals and locks, and facing up to theft as something more than an insurance problem, can go a long way toward reducing transportation crime.

All interested persons are invited to submit their comments on these proposed procedural regulations. Two written copies of the comments should be sent to the Docket Clerk, Office of the General Counsel, Department of Transportation, Washington, D.C. 20590. All comments received by the close of business on January 3, 1973, will be considered in formulating the final procedural regulations, and will be available for public inspection and copying until that date between 9 a.m. and 5:30 p.m., Monday to Friday, except Federal holidays, in the Office of the Assistant General Counsel for Regulation, Room 10100, Department of Transportation Headquarters (Nassif) Building, 400 Seventh Street SW., Washington, DC.

In consideration of the foregoing, pursuant to section 9(e)(1) of the Department of Transportation Act (Oct. 15, 1966, Public Law 89-670, § 9(e)(1); 80 Stat. 944; 49 U.S.C. 1657(e)(1)), it is proposed to amend Title 49 of the Code of Federal Regulations by adding a Part 85, as appears below. Advisory standards to be developed would be issued as appendices to these procedural regulations.

Issued in Washington, D.C., on November 22, 1972.

JAMES M. BEGGS,
Acting Secretary of Transportation.

PART 85—CARGO SECURITY ADVISORY STANDARDS

Subpart A—General

Sec.
85.1 Applicability.
85.3 Initiation of advisory standard setting.
85.5 Participation by interested persons.
85.7 Docket.

Subpart B—Petitions for Advisory Standard Setting

85.11 Filing of petitions.
85.13 Processing of petitions.

Subpart C—Procedures

85.21 General.
85.23 Contents of notices.
85.25 Petitions for extension of time to comment.
85.27 Consideration of comments received.
85.29 Additional advisory standard-setting proceedings.
85.31 Hearings.
85.33 Adoption of final advisory standards.

AUTHORITY: The provisions of this Part 85 issued under section 9(e)(1), 80 Stat. 944; 49 U.S.C. 1657(e)(1).

Subpart A—General

§ 85.1 Applicability.

(a) This part prescribes the procedures for the development and promulgation of Cargo Security Advisory Standards. These advisory standards are suggested procedures and policies intended to assist all parts of the transportation industry in reducing the incidence of loss and theft of cargo entrusted to their care. The advisory standards are not mandatory, and nothing in the standards replaces or modifies any statutory requirement or any regulatory authority vested in any Federal, State, or local governmental body.

(b) As used herein—

"Advisory standard" means a Cargo Security Advisory Standard issued under this part;

"Director" means the Director of Transportation Security;

"Secretary" means the Secretary of Transportation.

§ 85.3 Initiation of advisory standard setting.

The Director, for the Secretary, initiates advisory standard setting on his own motion. He may also, in his discretion, consider the recommendations of other agencies of the United States, of any part of the transportation industry, and of any other interested person.

§ 85.5 Participation by interested persons.

Any person may participate in advisory standard-setting proceedings by submitting written information or views. The Director may also allow any person to participate in additional advisory standard-setting proceedings, such as informal appearance or hearings, held with respect to any advisory standard.

§ 85.7 Docket.

(a) Records of the Office of the Secretary concerning advisory standard-setting actions, including notices of proposed advisory standard setting, comments received in response to those notices, petitions for advisory standard setting, petitions for rehearing or reconsideration, denials of petitions for advisory standard setting, and final advisory standards are maintained in current docket form in the Office of the General Counsel.

(b) Any person may examine any docketed material at that office and may obtain a copy of any docketed material upon payment of the prescribed fee.

Subpart B—Petitions for Advisory Standard Setting

§ 85.11 Filing of petitions.

(a) Any person may petition the Director to issue, amend, or repeal an advisory standard.

(b) Each petition filed under this section must—

(1) Be submitted in duplicate to the Docket Clerk, Office of the General Counsel, Department of Transportation, Washington, DC 20590;

(2) Set forth the text of substance of the advisory standard or amendment proposed, or specify the advisory standard that the petitioner seeks to have repealed, as the case may be;

(3) Explain the interest of the petitioner in the action requested; and

(4) Contain any information and arguments available to the petitioner to support the action sought.

§ 85.13 Processing of petitions.

(a) *General.* No proceeding is held directly on a petition before its disposition under this section.

(b) *Grants.* If the Director determines that the petition contains adequate justification, he initiates advisory standard-setting action under Subpart C of this part.

(c) *Denials.* If the Director determines that the petition does not justify initiating advisory standard setting, he denies the petition.

(d) *Notification.* Whenever the Director determines that a petition should be granted or denied, he and the Office of the General Counsel prepare a notice of that grant or denial for issuance to the petitioner, and the Director issues it to the petitioner.

Subpart C—Procedures

§ 85.21 General.

(a) A notice of proposed advisory standard setting is issued and interested persons are invited to participate in the advisory standard-setting proceedings with respect to each advisory standard.

(b) In his discretion, the Director may invite interested persons to participate in the advisory standard-setting proceedings described in § 85.29.

§ 85.23 Contents of notices.

(a) Each notice of proposed advisory standard setting is published in the FEDERAL REGISTER.

(b) Each notice includes—

(1) A statement of the time, place, and nature of the proposed advisory standard-setting proceeding;

(2) A reference to the authority under which it is issued;

(3) A description of the subjects or issues involved or the substance or terms of the proposed advisory standard;

(4) A statement of the time within which written comments must be submitted and the required number of copies; and

(5) A statement of how and to what extent interested persons may participate in the proceedings.

§ 85.25 Petitions for extension of time to comment.

(a) Any person may petition the Director for an extension of time to submit comments in response to a notice of proposed advisory standard setting. The petition must be submitted in duplicate not later than 10 days before expiration of the time stated in the notice. The filing of the petition does not automatically extend the time for petitioner's comments.

(b) The Director grants the petition only if the petitioner shows a substantive interest in the proposed advisory standard and good cause for the extension, and if the extension is in the public interest. If an extension is granted, it is granted as to all persons and is published in the FEDERAL REGISTER.

§ 85.27 Consideration of comments received.

All timely comments are considered before final action is taken on an advisory standard-setting proposal. Late filed comments may be considered so far as possible without incurring additional expense or delay.

§ 85.29 Additional advisory standard-setting proceedings.

The Director may initiate any further advisory standard-setting proceedings that he finds necessary or desirable. The Director may also invite interested persons to present oral arguments, participate in conferences, appear at informal hearings, or participate in any other proceedings.

§ 85.31 Hearings.

(a) Sections 556 and 557 of title 5, United States Code, do not apply to hearings held under this part. As a fact-finding proceeding, each hearing is nonadversary and there are no formal pleadings or adverse parties. The record in a proceeding may include matters other than those presented at the hearing. An advisory standard issued will be based exclusively on the record in the proceeding.

(b) The Director designates a representative to conduct any hearing held under this part. The General Counsel designates a member of his staff to serve as legal officer at the hearing.

§ 85.33 Adoption of final advisory standards.

Final advisory standards are prepared by the Director and the Office of the General Counsel. If the Director adopts an advisory standard, it is published in the FEDERAL REGISTER.

VENDING STANDS OPERATED BY BLIND PERSONS

Competition with Cafeterias; Withdrawal of Proposal

Proposed rules and regulations concerning vending stands operated by blind persons were published in the FEDERAL REGISTER of October 5, 1972 (37 F.R. 20958), to clarify the practices of General Services Administration with respect to the establishment and operation of vending stands and machines by blind persons under the provisions of the Randolph-Sheppard Act (20 U.S.C. 107), along with the operation of cafeterias in buildings operated by GSA.

The proposed regulations are hereby withdrawn.

Dated: November 28, 1972.

CIVIL AERONAUTICS BOARD

[Docket No. 24958; Order 72-11-112]

AIR-LAND FREIGHT CONSOLIDATORS, INC.

Order of Suspension and Investigation Regarding Non-Acceptance of Certain Watches

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 27th day of November 1972.

By tariff revision bearing the issue date of October 31 and marked to become effective November 30, 1972, Air-Land Freight Consolidators, Inc. (Air-Land), an air freight forwarder, proposes to modify its tariff to include under shipments not acceptable for carriage shipments of watches when the declared value for carriage exceeds 50 cents per pound.

In support of its filing, the forwarder alleges that its purpose is to provide provisions similar to those currently in effect for other indirect carriers.

Upon consideration of all relevant factors, the Board finds that the proposed rule may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proposal should be suspended pending investigation.

By proposing to limit the acceptance of watches to shipments with a declared value not exceeding 50 cents per pound, Air-Land would limit its liability accordingly, without offering the shipper a choice of higher liability at additional rates. The Board, in Order 72-8-55, dated August 11, 1972, suspended a virtually identical proposal by CF Air Freight, Inc., another air freight forwarder, stating, inter alia, "This is contrary to the common law concept that the validity of a limitation on liability (or a released rate) is dependent upon the shipper having an option for greater liability at greater rates."

Further, the Board, in Order 71-2-36, in connection with a direct carrier's charter liability, and in Order 70-1-34, covering the suspension of the nonacceptance of parcel post shipments valued in excess of $200 proposed by WTC Air Freight, stated, "A choice of rates and liability is considered essential to the validity of a carrier's limitations on its common carrier responsibilities."

While some forwarders currently have in effect similar provisions to those here proposed by Air-Land, we cannot find such circumstance warrants that the Board permit this proposal to become effective.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. An investigation is instituted to determine whether the provisions in Rule No. 25(B)(10) on fifth revised page 7 of Air-Land Freight Consolidators, Inc.'s, CAB No. 12, and rules, regulations, or practices affecting such provisions are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions and rules, regulations, and practices affecting such provisions;

2. Pending hearing and decision by the Board, Rule No. 25(B)(10) on fifth revised page 7 of Air-Land Freight Consolidators, Inc.'s, CAB No. 12 is suspended and its use deferred to and including, February 27, 1973, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding herein designated Docket 24958 be assigned for hearing before an administrative law judge of the Board at a time and place hereafter to be designated; and

4. Copies of this order shall be filed with the tariff and served upon Air-Land Freight Consolidators, Inc., which is hereby made party to Docket 24958.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK, *Secretary.*

[Docket No. 20710; Order 72-11-105]

NORTH CENTRAL AIRLINES, INC.

Order to Show Cause Regarding Renewal of Temporary Suspension of Service at Winona, Minn.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 24th day of November 1972.

By Order 69-10-121, dated October 24, 1969, the Board authorized North Central Airlines to suspend its services at Winona, Minn., for a period of 3 years. The Board provided that the suspension authority would terminate if an air taxi operator failed to provide at least two round trips per day between Winona and Chicago, and two round trips per day between Winona and Minneapolis/St. Paul (except that no service was required on Saturday and only one round trip in each market was required on Sunday).

On May 16, 1972, North Central filed for renewal of its suspension authorization at Winona for an additional 3-year period.[1] In support of its application, North Central alleges, inter alia, that an air taxi operator, Mississippi Valley Airways, Inc. (MVA), has been providing Winona with more air service than is required by the Board;[2] that the city of Winona supports this renewal, subject to the same conditions as are presently in effect; and that the financial benefits to North Central which the Board found in Order 69-10-121 continue to exist.

No answers to North Central's application have been filed.

Upon consideration of the pleadings and all the relevant facts, we have tentatively decided to authorize North Central to suspend service at Winona for an additional 3-year period conditioned upon the provision of replacement service by an air taxi operator, subject to the same conditions as are presently in effect. We have tentatively concluded that the suspension/substitution arrangement at Winona is in the public interest from an overall transportation standpoint.[3]

We have also examined the facts presented herein in light of findings in a recent court case[4] involving air taxi replacement services where the Court indicated that the Board should consider whether the statutory conditions for exemption from certification continue to exist. As discussed below, we tentatively find that, with respect to MVA, the statutory conditions and guidelines for exemption from certification continue to exist.[5] MVA, which provides the commuter replacement services at Winona, was incorporated on October 1, 1969, and has conducted scheduled air taxi operations since October 28, 1969. As of the quarter ended June 30, 1972, MVA provided short haul commuter air services at six cities in addition to Winona.[6] MVA transported 26,043 passengers and performed 3,048 flights through the fiscal year ending June 30, 1972. All of these flights were with DeHavilland Twin Otters with a seating capacity of 16. The carrier did not transport any cargo. Revenue passenger miles performed by MVA for the calendar year 1971 were 4,394,023 as compared to the local service industry average for the same period of 872,387,888. Thus, MVA's total RPM's for calendar year 1971 are approximately one-half of 1 percent of the average RPM's for each of the certificated local service carriers.[7] For the calendar year 1971, MVA carried 2,969 passengers (8.1 per day) between Chicago and Winona, and 2,912 passengers (8.0 per day) between Minneapolis and Winona.

On the basis of the foregoing, and on the basis of our findings, set forth in Order 72-9-39, September 12, 1972, and our conclusion therein that the certification process is generally inappropriate for replacement commuter carriers, we tentatively conclude that it would not be in the public interest to require MVA to undergo a certification proceeding in order to provide replacement services for North Central at Winona. MVA's replacement services are neither of sufficient magnitude nor do they hold such prospects of economic success as to warrant their separate certification.

We further tentatively find that certification would be an undue burden on MVA by reason of the limited extent of, and unusual circumstances affecting, its operations. As described above, the carrier's operations are of limited extent in terms of both the replacement services involved and the overall scope of its operations. Furthermore, the very nature of the small aircraft to which MVA is restricted makes the operations limited in extent. The accommodations on these aircraft not only limit the competitive capabilities of MVA but also limit the amount of traffic it can carry and the length of the markets it can serve, compared with a certificated carrier operating large aircraft. Thus, the cost of certification procedures would impose a severe financial burden on MVA wholly disproportionate to its existing and proposed operations. Moreover, enforcement of section 401 requirements would be an undue burden not only because of the substantial cost of certification procedures, but also because certification would deprive MVA of the necessary operating flexibility it must have to conduct nonsubsidized services with small aircraft in short-haul, low-density markets.

We are also satisfied that there are no safety considerations which would warrant a determination that the substitution arrangement is contrary to the public interest. Not only must MVA conduct its operations in strict conformity with the Federal Aviation Regulations promulgated by the Secretary of Transportation, who is charged by law with insuring the highest degree of safety in air transportation, but MVA has had a successful operating history.[8]

Consequently, for the reasons set forth above, we tentatively find and conclude that:

1. North Central should be authorized to suspend service temporarily at Winona, subject to the condition that such suspension shall terminate if, at any time, an air taxi operator fails to operate at least:

(a) Two round trips per day between Winona and Chicago;

(b) Two round trips per day between Winona and Minneapolis/St. Paul: *Provided, however*, That no service need be provided in either market on Saturday and only one round trip in each market need be operated on Sunday; and

2. The authority proposed in paragraph 1 should expire on October 26, 1975.

Interested persons will be given 21 days following the service date of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to direct their objections, if any, to the specific facts in issue, and to support such objections with detailed economic or legal analysis.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, and granting the requested suspension;

2. Any interested persons having objection to the issuance of an order making final the proposed findings, conclusions, and suspension authorization set forth herein shall within 21 days after service of a copy of this order, file with the Board and serve upon all persons listed in Appendix A attached hereto, a statement of objections together with such statistical data, and other materials and evidence relied upon to support the stated objections; answers to such objections shall be filed within 14 days, thereafter;

3. Any interested persons requesting an evidentarily hearing shall state in detail why such a hearing is necessary and what relevant and material facts he would expect to establish through such a hearing. General, vague, or unsupported objections will not be entertained;

4. If timely and properly supported objections are filed, full consideration will be accorded the matters or issues raised by the objections before further action is taken by the Board;

5. In the event no objections are filed to any part of this order, all further procedural steps relating to such part or parts will be deemed to have been waived, and the case will be submitted to the Board for final action; and

6. A copy of this order shall be served upon all persons listed in Appendix A attached hereto.[9]

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

DELAWARE RIVER BASIN COMMISSION

COMPREHENSIVE PLAN

Notice of Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Tuesday, December 12, 1972, in the South Auditorium of the ASTM Building, 1916 Race Street in Philadelphia, beginning at 2 p.m. The subjects of the hearing will be as follows:

I. Construction of preliminary or preparatory phases of water resources projects prior to or pending Commission approval impairs sound administration of the project review responsibility author-

[1] Pursuant to § 377.10(a) of the Board's special regulations, the applicant has stated its intention to rely upon 5 U.S.C. 558(c) for a continuation of its present authorization which expired, by its terms, on Oct. 26, 1972.

[2] MVA currently provides two round trips Monday through Friday in the Winona-Chicago market and 2½ nonstop round trips in the Winona-Minneapolis/St. Paul market. On weekends, MVA provides one one-way trip each Saturday and one round trip each Sunday in the Winona-Chicago market and one and one-half round trips each Saturday and Sunday in the Winona-Minneapolis/St. Paul market (OAG, Nov. 15, 1972).

[3] Specifically, we adhere to our prior findings that suspension would reduce North Central's expenses considerably, improve its financial posture, and in light of the air taxi substitution service, not adversely affect the traveling public.

[4] Air Line Pilots Association, International v. C.A.B., 458 F. 2d 846 (C.A.D.C. 1972).

[5] These statutory conditions and guidelines were discussed in Order 72-9-39, dated Sept. 12, 1972. This order was adopted in response to the remand to the Board from the U.S. Court of Appeals of the three applications which were in issue in the ALPA case.

[6] The cities are La Crosse, Prairie du Chien, and Janesville, Wis.; Chicago, Ill.; Minneapolis/St. Paul, Minn.; and Dubuque, Iowa. The total number of markets served by MVA is 21.

[7] The traffic statistics submitted by commuter carriers are confidential for a period of 1 year. However, pursuant to § 298.66 of the Board's economic regulations, the Board, on its own motion, finds that it is in the public interest to disclose this information.

[8] MVA, registered with the Board as a commuter air carrier, presently has insurance in effect and according to the FAA, has excellent operations with good management, maintenance, and training, and has had no safety or maintenance violations of FAA regulations during the last 12 months.

ized by the Delaware River Basin Compact. Such preparatory work may impose substantial financial risk upon water users and may adversely affect water quality.

II. The conservation of water use is an important part of sound water resources management. Conservation of water use may be encouraged by the use of water meters incident to the distribution and sale of water supplies. The Commission proposes to amend its Comprehensive Plan by the addition thereto of policy relating to water metering. The proposed policy reads as follows:

All new public and private water supply systems using waters of the basin, and designed to serve more than 250 customers (connections), or distribute water supplies in excess of 100,000 gallons per day, shall be required to install water meters incident to the provision of such service at the retail level. Meters shall be installed so as to record water use by each individual household, commercial, industrial, or other user. Apartment houses and other multiple dwelling units shall be required to meter each dwelling unit separately.

III. A proposal to amend the Comprehensive Plan so as to include therein the following water resources projects:

1. *U.S. Soil Conservation Service.* Revision of the Assunpink Watershed work plan in Mercer and Monmouth Counties, N.J. The proposed revisions affect the reservoir pool size at structures numbers 4 and 5 and modifications of the land treatment phases of the project.

2. *Bucks County Commissioners.* A project to treat leachate from a completed landfill in Rockamixon Township, Bucks County, Pa. As a modification of a previously approved project, the treatment facilities will provide 97 percent removal of BOD_5 from an average waste flow of approximately 105,000 gallons per day. Treated effluent will discharge into a tributary of Gallows Run.

3. *Bucks County Department of Parks and Recreation.* A proposed revision to a previously approved boat launching ramp project in Bensalem Township, Bucks County, Pa. The boat launching facilities will be relocated downstream from the existing launching area on the Delaware.

4. *Borough of Deer Lake Municipal Authority.* A sewage treatment project to serve the Borough of Deer Lake, West Brunswick Township, Schuylkill County, Pa. The treatment plant will remove 90 percent of BOD_5 from a projected waste flow of 90,000 gallons per day. Treated effluent will discharge into Pine Creek, a tributary of the Schuylkill River.

5. *City of Wilmington Department of Commerce.* New docking facilities to serve the Port at Wilmington, New Castle County, Del. The project will be designed primarily to handle imports of oil for use by utilities.

6. *City of Philadelphia Water Dept.* Proposed modification to the Southwest sewage treatment plant of the City of Philadelphia, Philadelphia County, Pa. The improved facility is designed to provide 93 percent removal of BOD_5 from a waste flow of 210 million gallons per day. Treated effluent would discharge to the Delaware River.

7. *Camden County Municipal Utilities Authority.* A regional waste collection and treatment plant for that portion of Camden County, N.J., lying within the Delaware River drainage area. A system of collecting and interceptor sewers would serve all or part of the watersheds of Pennsauken, Newton, and Big Timber Creeks, the Cooper River and smaller streams draining directly into the Delaware River. Waste would be conveyed to a new central treatment plant located in the city of Camden.

IV. A proposal to approve the following water pollution abatement schedule as submitted in accordance with section 3-4.2(2) of the Basin Regulations-Water Quality (18 CFR Part 410):

1. *U.S. Pipe and Foundry Co. (A-71-8 revision).* A violation of the effluent requirements of the Commission's Basic Regulations was determined for this facility located in Burlington, N.J., and discharging into Zone 2 of the Delaware Estuary. An abatement schedule for this facility was approved on March 17, 1971. The proposed revision extends the compliance date from September 25, 1972, to October 15, 1974. The proposed revision is necessary to permit the company time to modify its present air pollution control devices which do not presently meet State standards and which are the major contaminated waste water sources.

Documents relating to the items on the hearing notice may be examined at the Commission's offices. All persons wishing to testify are requested to register in advance with the Secretary to the Commission.

W. BRINTON WHITALL,
Secretary.

NOVEMBER 22, 1972.

ENVIRONMENTAL PROTECTION AGENCY

ENVIRONMENTAL IMPACT STATEMENTS

Availability of Agency Comments

Appendix I contains a listing of draft environmental impact statements which the Environmental Protection Agency (EPA) has reviewed and commented upon in writing during the period from November 1, 1972, to November 15, 1972, as required by section 102(2)(C) of the National Environmental Policy Act of 1969 and section 309 of the Clean Air Act, as amended. The listing includes the Federal agency responsible for the statement, the number assigned by EPA to the statement, the title of the statement, the classification of the nature of EPA's comments, and the source for copies of the comments.

Appendix II contains definitions of the four classifications of EPA's comments. Copies of EPA's comments on these draft environmental impact statements are available to the public from the EPA offices noted.

Appendix III contains a listing of the addresses of the sources for copies of EPA comments listed in Appendix I.

Copies of the draft environmental impact statements are available from the Federal department or agency which prepared the draft statement or from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

Dated: November 24, 1972.

SHELDON MEYERS,
Director,
Office of Federal Activities.

APPENDIX II

DEFINITION OF CODES FOR THE GENERAL NATURE OF EPA COMMENTS

(1) *General agreement/lack of objections.* The Agency generally:

(a) Has no objections to the proposed action as described in the draft impact statement;

(b) Suggests only minor changes in the proposed action or the draft impact statement; or

(c) Has no comments on the draft impact statement or the proposed action.

(2) *Inadequate information.* The Agency feels that the draft impact statement does not contain adequate information to assess fully the environmental impact of the proposed action. The Agency's comments call for more information about the potential environmental hazards addressed in the statement, or ask that a potential environmental hazard be addressed since it was not addressed in the draft statement.

(3) *Major changes necessary.* The Agency believes that the proposed action, as described in the draft impact statement, needs major revisions or major additional safeguards to adequately protect the environment.

(4) *Unsatisfactory.* The Agency believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the Agency believes that the safeguards which might be utilized may not adequately protect the environment from the hazards arising from this action. The Agency therefore recommends that alternatives to the action be analyzed further (including the possibility of no action at all).

GENERAL SERVICES ADMINISTRATION

FIBERBOARD AND FIBERBOARD BOXES

Industry Specification Development Conference

Notice is hereby given that the Federal Supply Service, General Services Administration, will hold an Industry Specification Development Conference in connection with the use of reclaimed fibers in the manufacture of items conforming to the following Federal specifications: PPP-F-320D, fiberboard, corrugated and solid; PPP-B-636G, boxes, shipping, fiberboard; PPP-B-640D, boxes, fiberboard, corrugated, triple-wall; and PPP-B-1364B, box, corrugated fiberboard, high strength, weather-resistant, double-wall.

The purpose of the conference is to provide a forum for the consideration of suggestions by which (1) the use of reclaimed fibers can be expanded, (2) the quality of the products involved can be maintained, and (3) sufficient industry interest can be generated to insure competition for the supply of items conforming to these specifications. It will be open to all those in the private sector who have an interest or concern for these matters, and all other Government departments or agencies having an interest therein are also being invited to send their representatives.

The conference will be held on December 14, 1972, at 9 a.m., Room 508, Building 3, Crystal Mall, 1931 Jefferson Davis Highway, Arlington, VA. Anyone who wants to attend or desires further information should contact Mr. Thomas M. Bacon, General Services Administration, Federal Supply Service, at telephone number (Area Code 703) 557-7844, or write General Services Administration, Federal Supply Service (FMSX), Washington, D.C. 20406.

Issued in Washington, D.C. on November 16, 1972.

M. S. MEEKER,
Commissioner.

[FR Doc.72-20560 Filed 11-29-72;8:49 am]

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 623]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

NOVEMBER 20, 1972.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
BEN F. WAPLE,
Secretary.

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

[2] The above alternative cutoff rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the rules).

C.P. for a new station on frequency 3890H MHz toward Fort Green, Fla.; frequency 4030H MHz toward Tampa, Fla.; frequency 4050H MHz toward Auburndale, Fla.

3376-C1-P-73—Same (New), on north side of State Route 664, 1.1 miles east of State Route 663, Fort Green, Fla. Latitude 27°37'01" N., longitude 81°55'33" W. C.P. for a new station on frequency 3910V MHz toward Buchanan, Fla.; frequency 4050H MHz towards Keysville, Fla.

3377-C1-P-73—Same (New), 2.6 miles east of Buchanan, Fla. Latitude 27°25'00" N., longitude 81°45'09" W. C.P. for a new station on frequency 3890V MHz toward Arcadia, Fla.; frequency 4050H MHz toward Fort Green, Fla.

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

1257-C2-P-72—Byrnes Message Bureau, Inc. (KEJ864), resubmitted application for an additional channel to operate on 152.03 MHz at a new site described as location No. 2: 15 Virginia Avenue, Poughkeepsie, N.Y.

3469-C2-P-(6)-73—The Mountain States Telephone & Telegraph Co. (New), for a new one-way station to operate on 152.84 MHz at the following locations: Location No. 1: 228 West Adams Street, Phoenix, AZ; location No. 2: 215 East Indian School Road, Phoenix, AZ; location No. 3: 2834 North 44th Street, Phoenix, AZ; location No. 4: 12403 North 15th Avenue, Phoenix, AZ; location No. 5: 25 West First Street, Scottsdale, AZ; and location No. 6: 0.7 mile north of Tempe, Ariz.

3470-C2-P-73—Stockton Mobilphone, Inc. (KMD347), replace transmitter operating on 35.68 MHz, change the antenna system, and relocate facilities to Puck Lane, approximately 1,500 feet north of Carpenter Road, Stockton, Calif.

3471-C2-P-73—Houston Mobilfone, Inc. (New), for a new two-way station to operate on 162.12 MHz at 1½ miles east of Huntsville, Tex.

3473-C2-AL-73—MRN Services, Inc., consent to assignment of license from MRN Services, Inc., assignor, to Radio Call Company of Long Island, Inc., assignee station: KED 367 Huntington, N.Y.

3481-C2-AL-73—Electronic Answering Service. Consent to assignment of license from Jack B. McCorcle, doing business as Electronic Answering Service, assignor, to Autophone of Del Rio, Inc., assignee.

3485-C2-P-73—Radio Telephone Company of Gainesville (New), for a new two-way station to operate on 454.200 MHz, 2 miles south of Deland, Fla.

3486-C2-P-(5)—Sumo (KIY464), for additional facilities to operate on 454.150, 454.200, 454.300, and 454.350 MHz at 540 Corporation Avenue, Daytona Beach, FL and 454.150 MHz 3.1 miles southwest of New Smyrna, Fla.

3487-C2-P-(4)-73—Chesapeake & Potomac Telephone Co. (KGA586), for additional facilities to operate on 454.550, 454.575, 454.625, and 454.650 MHz at location No. 3: 6217 North 19th Road, Arlington, VA.

3502-C2-P-73—Central Telephone Co. Inc. (KLB325), replace transmitter operating on 152.09 MHz and change the antenna system in the 100 block of State Street, Decatur, Tex.

3503-C2-AL-73—Missouri Central Telephone Co., consent to assignment of license from Missouri Central Telephone Co., assignor, to: Continental Telephone Company of Missouri, assignee. Station: KDT216 Cuba, Mo.

3504-C2-AL-73—Missouri Telephone Co., consent to assignment of license from Missouri Telephone Co. (2)—Missouri Telephone Co., assignor, to: Continental Telephone Company of Missouri, assignee. Station: KAD514 Brashear, and KBN506 Wentzville, Mo.

3507-C2-P-(2)-73—Arrowhead Business Radio, Inc. (KFJ901), change the antenna system and relocate facilities operating on 152.09 MHz base and 459.200 MHz repeater at location No. 1 to: 1306 Windsor Avenue, Duluth, Minn.

3508-C2-P-73—Same (KRH654), change the antenna system and relocate base facilities operating on 152.24 MHz to 1306 Windsor Avenue, Duluth, Minn.

3511-C2-P-73—Contact of Washington, Inc. (KGA866), change the antenna system and relocate facilities operating on 43.58 MHz to the Sheraton Park Hotel, 2260 Connecticut Avenue, Washington, DC.

3512-C2-P-(2)-73—Answerite Professional Telephone Service (New), for a new two-way station to operate on 454.025 and 454.150 MHz on Fourth Street, Apopka, Fla.

3521-C2-P-73—Answerphone of Durham (KIY758), change the antenna system operating on 152.18 MHz at 111 Corcoran Street, Durham, NC.

3522-C2-TC-(2)-73—Tri-Cities Answering Service, Inc., consent to transfer of control from Ray S. Hoyt, Sr., and Evelyn Hoyt, transferors, to: Ray S. Hoyt, Jr., and Roberta Hoyt Haupt, transferees. Stations: KPC930 and KEK296 (one-way), Binghamton, N.Y.

Correction

8256-C2-P-72—The Diamond State Telephone Co. (KGA471), correct frequency 157.73 MHz to read 157.83 MHz. See Reports Nos. 615 and 620, dated September 25 and October 30, 1972, respectively.

XUM V37-231 NOV 30 72 XUM

3378–C1–P–73—Same (New), 3.6 miles southeast of Arcadia off Florida Route 31, Arcadia, Fla. Latitude 27°09'27" N., longitude 81°50'22" W. C.P. for a new station on frequency 3910V MHz toward Bermont, Fla.; frequency 4090V MHz toward Buchanan, Fla.

3379–C1–P–73—Same (New), 5.1 miles east of Bermont, Fla. Latitude 26°56'40" N., longitude 81°40'45" W. C.P. for a new station on frequency 3890H MHz toward Fort Denaud, Fla.; frequency 4050H MHz toward Arcadia, Fla.

3380–C1–P–73—Same (New), 0.8 mile north of Fort Denaud, Fla. Latitude 26°45'17" N., longitude 81°30'25" W. C.P. for a new station on frequency 3930H MHz toward Keri Station, Fla.; frequency 4090V MHz toward Bermont, Fla.

3381–C1–P–73—Same (New), 7.7 miles east of Keri on Florida Route 832, Keri Station, Fla. Latitude 26°36'19" N., longitude 81°15'27" W. C.P. for a new station on frequency 3890V MHz toward Seminole, Fla.; frequency 4050H MHz toward Fort Denaud, Fla.

3382–C1–P–72—United Video, Inc. (New), 24.7 miles east of Immokalee, Seminole (Hendry), Fla. Latitude 26°27'45" N., longitude 81°01'55" W. C.P. for a new station on frequency 3910H MHz toward Big Cypress, Fla.; frequency 4090H MHz toward Keri Station, Fla.; frequency 3930V MHz toward Lake Harbor, Fla.

3383–C1–P–73—Same (New), intersection of State Road 80 and Miama Canal, southwest corner, Lake Harbor, Fla. Latitude 26°41'25" N., longitude 80°48'30" W. C.P. for a new station on frequency 4130V MHz toward Seminole, Fla.; frequency 3790H MHz toward Belle Glade, Fla.

3384–C1–P–73—Same (New), north side of Florida Route 441 midway between 6 miles Bend, 20 miles Bend, Belle Glade, Fla. Latitude 26°40'47" N., longitude 80°30'04" W. C.P. for a new station on frequency 4150V MHz toward West Palm Beach, Fla.; frequency 4150H MHz toward Lake Harbor, Fla.

3385–C1–P–73—Same (New), 500 feet north from end of Belvedere Extension Road, West Palm Beach, Fla. Latitude 26°41'34" N., longitude 80°10'48" W. C.P. for a new station on frequency 3730H MHz toward Belle Glade, Fla.; frequencies 10,815H and 10,975H MHz toward West Palm Beach Terminal, Fla.

3386–C1–P–73—Same (New), corner of Datura Street and Olive Avenue, West Palm Beach Terminal, Fla. Latitude 26°42'42" N., longitude 80°03'07" W. C.P. for a new station on frequencies 11,345H and 11,505H MHz toward West Palm Beach, Fla.

3387–C1–P–73—Same (New), 27.0 miles east-southeast of Sunniland, Big Cypress, Fla. Latitude 26°13'15" N., longitude 80°55'37" W. C.P. for a new station on feequency 3890H MHz toward Alligator Alley, Fla.; frequency 4030V MHz toward Seminole, Fla.

3388–C1–P–73—Same (New), 10.5 miles east of Andytown, Alligator Alley, Fla. Latitude 26°08'30" N., longitude 80°37'20" W. C.P. for a new station on frequency 3910H MHz toward Perry, Fla.; frequency 4090H MHz toward Big Cypress, Fla.

3389–C1–P–73—Same (New), 1 mile south of Florida Route 820, 3.5 miles east of U.S. 27, Perry, Fla. Latitude 25°59'34" N., longitude 80°22'33" W. C.P. for a new station on frequency 4050H MHz toward Alligator Alley, Fla.; frequency 6301V MHz toward Miami, Fla.

3390–C1–P–73—Same (New), Freedom Towers, Biscayne Boulevard, Miami, Fla. Latitude 25°46'46" N., longitude 80°11'22" W. C.P. for a new station on frequency 6049H MHz toward Perry, Fla.

3394–C1–P–73—Microwave Transmission Corp. (WBO58), Squak Mountain, 1.8 miles southwest of Issaquah, Wash. (latitude 47°30'17" N., longitude 122°02'43" W.): Modification of C.P. (1884–C1–P–71) to add frequency 11,385.0V MHz toward Ravens Roost (KPR32), Wash., on azimuth 134°00'. (INFORMATIVE: MTC proposes to change the pickup point for the signal of station KTNT–TV, Seattle–Tacoma, to Squak Mountain. This proposal does not involve new service.).

3395–C1–P–73—Eastern Microwave, Inc. (KPP81), 0.2 mile northwest of Gouverneur, N.Y. (latitude 44°20'38" N., longitude 75°29'19" W.): C.P. to replace existing transmitter on frequency 6106.3V MHz and increase output power to 1.5 watts on azimuth 47°41' toward Potsdam (KPP82), N.Y.

3396–C1–P–73—Same (KPP82), 0.2 mile southwest of Potsdam, N.Y. (latitude 44°38'54" N., longitude 75°01'07" W.): C.P. to replace existing transmitter on frequency 6390.0H MHz and increase output power to 1.5 watts on azimuth 15°01'.

3397–C1–P–73—American Television Relay, Inc. (KPV76), White Tank Mountain, 10.5 miles north-northwest of Perryville, Ariz. (latitude 33°34'10" N., longitude 112°33'33" W.): C.P. to add frequencies 11,605H MHz, 11,365H MHz, 11,525H MHz, and 11,285H MHz toward new point of communication at Pete Smith Peak, Ariz. (latitude 34°03'53" N., longitude 113°21'18" W.), on azimuth 306°56'. (INFORMATIVE: ATR proposes to provide the television signals of KTLA, KHJ, KTTV, and KCOP of Los Angeles, Calif., to American Cable Television, Inc., at Pete Smith Peak, Ariz.).

3398–C1–P–73—Mountain Microwave Corp. (WDE42), 3.0 miles northwest of Toronto, S. Dak. (latitude 44°36'22" N., longitude 96°40'52" W.): C.P. to add frequency 11,625V MHz toward Watertown, S. Dak., on azimuth 310°41'. (INFORMATIVE: Mountain proposes to provide the signal of WTCN–TV, Minneapolis, Minn., to Midland Cable TV Co. in Watertown, S. Dak.).

3399–C1–P–73—American Television Relay, Inc. (KPV76), White Tank Mountain, 10.5 miles north-northwest of Perryville, Ariz. (latitude 33°34'10" N., longitude 112°33'33" W.): C.P. to add frequencies 6330.7H MHz and 6390.0H MHz toward new point of communication at Sun City, Ariz. (latitude 33°35'59" N., longitude 112°16'32" W.), on azimuth 82°39'. (INFORMATIVE: ATR proposes to provide the television signals of KTLA and KTTV of Los Angeles, Calif., to Sun Valley Cable Communications, Inc., at Sun City, Ariz.).

3400–C1–P–73—American Television and Communications Corp. (New), 2.70 miles east of Mankato, Minn. (latitude 44°10'40" N., longitude 93°56'20" W.): C.P. for a new station—frequency 5945.2H MHz toward Wells, Minn., on azimuth 158°38'.

3401–C1–P–73—Same (New), 1.0 mile east of Wells, Minn. (latitude 43°44'42" N., longitude 93°42'20" W.): C.P. for a new station—frequency 6330.7H MHz toward Albert Lea, Minn., on azimuth 116°57'.

3402–C1–P–73—Same (New), 1.0 mile south of Albert Lea, Minn. (latitude 42°37'26" N., longitude 93°21'52" W.): C.P. for a new station—frequency 5945.2V MHz toward Mason City, Iowa, on azimuth 166°49'.

3403–C1–P–73—Same (New), 1.0 mile northwest of Mason City, Iowa (latitude 43°09'56" N., longitude 93°13'04" W.): C.P. for a new station—frequency 6226.9V MHz toward Allison, Iowa, on azimuth 139°10'.

3404–C1–P–73—Same (New), 3.7 miles north of Allison, Iowa (latitude 42°48'22" N., longitude 92°47'48" W.): C.P. for a new station—frequency 5945.2V MHz toward Waterloo, Iowa, on azimuth 127°35'.

3405–C1–P–73—Same (New), 2.20 miles northeast of Waterloo, Iowa (latitude 42°31'28" N., longitude 92°18'14" W.): C.P. for a new station—frequency 6286.2H MHz toward Reinbeck, Iowa, on azimuth 230°37'.

3406–C1–P–73—Same (New), 5.80 miles west-southwest of Reinbeck, Iowa (latitude 42°16'33" N., longitude 92°42'05" W.): C.P. for a new station—frequency 6123.1V MHz toward Marshalltown, Iowa, on azimuth 220°03'.

3407–C1–P–73—Same (New), 2.20 miles west of Marshalltown, Iowa (latitude 42°01'28" N., longitude 92°59'13" W.): C.P. for a new station—frequency 6375.2V MHz toward Ames, Iowa, on azimuth 272°25'.

3408–C1–P–73—Same (New), 1.3 miles east of Ames, Iowa (latitude 42°02'12" N., longitude 93°34'52" W.): C.P. for a new station—frequency 6063.8H MHz toward Des Moines, Iowa (latitude 41°39'58" N., longitude 93°35'27" W.), on azimuth 181°08'. (INFORMATIVE: ATC proposes to provide the signal of WTCN–TV, Minneapolis, Minn., to Hawkeye Cablevision, Inc., at Des Moines for service to Urbandale, Iowa. A waiver of Section 21.701(i) of the FCC Rules is requested by ATC.)

3409–C1–P–73—Microwave Transmission Corp. (WAN96), 8.6 miles south of Pomeroy, Wash. (latitude 46°20'52" N., longitude 117°36'06" W.): C.P. (a) to relocate receiver station at Clarkston, Wash., to latitude 46°27'24" N., longitude 117°02'45" W. and (b) to change azimuth toward new site at Clarkston to 74°11'.

3410–C1–P–73—American Television Relay, Inc. (KKT81), Mount Powell, 4.5 miles north of Thoreau, N. Mex. (latitude 35°27'59" N., longitude 108°14'25" W.): C.P. to add frequencies 6212.0H MHz, 6271.4H MHz, 6330.7H MHz, and 6301.0V MHz toward Grants, N. Mex. (latitude 35°09'47" N., longitude 107°52'47" W.), on azimuth 136°36'. (INFORMATIVE: ATR proposes to provide the television signals of KTLA, KCOP, KHJ, and KTTV of Los Angeles, Calif., to Tele Vu, Inc., in Grants, N. Mex.)

3411–C1–ML–73—Western Tele-Communications, Inc. (KPT21), Nelson Peak, 18.0 miles southwest of Salt Lake City, Utah (latitude 40°36'30.5" N., longitude 112°09'34" W.): Modification of license (7695–C1–ML–72) to change azimuth toward Ogden (KOC40), Utah, to 15°46'.

3412–C1–MP–73—Same (KOC40), Ogden (Weber State College Science Building), Utah (latitude 41°11'40" N., longitude 111°56'25" W.): Modification of C.P. (7696–C1–P–72) to relocate station to foregoing coordinates—existing frequency 6137.9H MHz toward Nelson Peak (KPT21), Utah, on new azimuth 195°55' and existing frequency 6108.3V MHz toward New Promontory (KOC42), Utah, on azimuth 320°48'.

3413–C1–ML–73—Same (KOC42), New Promontory, 20.0 miles west of Tremonton, Utah (latitude 41°45'10" N., longitude 112°33'00" W.): Modification of C.P. (7697–C1–P–72), to change azimuth toward Ogden (KOC40), Utah, to 140°24'. (INFORMATIVE: Western requests Special Temporary Authority to effect these technical modifications.)

3414–C1–P–73—American Television Relay, Inc. (KOS63), Heliograph Peak, 13.9 miles southwest of Stafford, Ariz. (latitude 32°38'59" N., longitude 109°50'53" W.): C.P. to add frequencies 6219.5H MHz, 6338.1H MHz, 6249.1V MHz, and 6189.8V MHz toward Mule Mountain, Ariz. (latitude 31°28'20" N., longitude 109°57'18" W.), on azimuth 184°27'. (INFORMATIVE: ATR proposes to provide the television signals of KTLA, KTTV, KCOP, and KHJ of Los Angeles, Calif., to Bisbee CATV, Inc., at Mule Mountain, Ariz. A waiver of Section 21.701(i) of the FCC Rules is requested by ATR.)

3415–C1–P–73—Frank K. Spain, doing business as Microwave Service Co. (KSN80), 4.3 miles northeast of Harvard, Ill. (latitude 42°28'10" N., longitude 88°33'37" W.): C.P. to add frequency 6315.9H MHz toward Rockford (KSN81), Ill., on azimuth 256°22'.

3416–C1–P–73—Same (KSN81), 7 miles north of Rockford, Ill. (latitude 42°21'51" N., longitude 89°08'15" W.): C.P. to add frequencies 6034.2H MHz, 6152.8H MHz, and 6412.2H MHz toward Freeport, Ill., on azimuth 262°20'. (INFORMATIVE: MSC proposes to provide the television signals of WGN–TV, WFLD, and WTTW and the radio signal of WFMT(FM), all of Chicago, Ill., to Freeport Cablevision in Freeport, Ill. A waiver of Section 21.701(i) of the FCC Rules is requested by MSC.)

3417–C1–P–73—The Mountain States Telephone & Telegraph Co. (KVU54), 800 Main Street, Grand Junction, CO. Latitude 39°04'03" N., longitude 108°33'30" W. C.P. to replace frequencies 5937.8V and 10,755V MHz with frequencies 10,815V, 10,895V, and 11,135V MHz; to change point of communication from Palisade, Colo., to Land's End, Colo.

3418–C1–P–73—Same (New), 7 miles east of Palisade, Colo. Latitude 39°05'27" N., longitude 108°13'20" W. C.P. for a new station on frequencies 11,305H, 11,385H, and 11,625H MHz toward Grand Junction, Colo.; frequencies 11,265V, 11,345V, and 11,665V MHz toward Grand Valley, Colo.

3419–C1–P–73—Same (KBC29), 3 miles southwest of Grand Valley (Garfield), Colo. Latitude 39°25'37" N., longitude 108°06'09" W. C.P. to add frequencies 10,775H, 10,855H, and 11,175H MHz toward Land's End, Colo.; to replace frequencies 5937.8V and 10,755H MHz with frequencies 10,815V, 10,895V, and 11,135V MHz toward Rifle Junction, Colo.

3420–C1–P–73—Same (KBC41), 1 mile northeast of Rifle, Colo. Latitude 39°32'28" N., longitude 107°45'49" W. C.P. to add frequences 11,305H, 11,385H, and 11,625H MHz in place of frequencies 6189.8V and 11,685H MHz toward Grand Valley, Colo.; correct frequency to read 10,995H MHz toward Rio Blanco, Colo.

3421–C1–P–73—American Telephone & Telegraph Co. (KVU39), 110 North Hall Street, Allentown, PA. Latitude 40°36'13" N., longitude 75°28'26" W. C.P. to add frequency 3930V MHz toward Lanark, Pa.

3422–C1–P–73—Same (KGN36), 3 miles southeast of Allentown, Pa. Latitude 40°33'59" N., longitude 75°26'11" W. C.P. to add frequency 3890V MHz toward Allentown, Pa.; frequencies 3710H and 3790H MHz toward Cherryville, N.J.

3423–C1–P–73—Same (KEA77), 0.8 mile north of Cherryville, N.J. Latitude 40°34'18" N., longitude 74°54'22" W. C.P. to add frequencies 3750H and 3830H MHz toward Lanark, Pa.

3426–C1–P–73—The Mountain States Telephone & Telegraph Co. (KPX29), 14 miles southeast of Cedar City, Utah. Latitude 37°35'20" N., longitude 112°52'01" W. C.P. to add frequencies 11,325H and 11,565V MHz toward Mount Wilson, Utah via passive reflector.

3427–C1–P–73—Same (New), 11.6 miles southeast of Panguitch, Utah. Latitude 37°41'28" N., longitude 112°18'16" W. C.P. for a new station on frequencies 10,875H and 11,115V MHz toward Blowhard Mountain, Utah via passive reflector; frequencies 10,915H and 11,155V MHz toward Panguitch, Utah via passive reflector.

3428–C1–P–73—Same (New), 50 South Main Street, Panguitch, UT. Latitude 37°49'20" N., longitude 112°26'13" W. C.P. to add frequencies 11,365H and 11,605V MHz toward Mount Wilson, Utah.

3429–C1–P–73—Southwestern Bell Telephone Co. (New), 623 Eldorado Street, near League City, Tex. Latitude 29°33'46" N., longitude 95°08'20" W. C.P. for a new station on frequency 3770V MHz toward Liverpool, Tex.; frequency 4090V MHz toward Houston, Tex.

3430–C1–P–73—Same (New), 1021 West Broad Street, Freeport, TX. Latitude 28°57'09" N., longitude 95°21'34" W. C.P. for a new station on frequency 4090V MHz toward Liverpool, Tex.

3431–C1–P–73—Same (KYJ66), 1407 Jefferson Street, Houston, TX. Latitude 29°44'55" N., longitude 95°21'56" W. C.P. to add frequency 3730V MHz toward Apollo RS, Tex.

3432–C1–MP–73—Same (WCZ52), 6.2 miles east-southeast of Liverpool, Tex. Latitude 29°15'36" N., longitude 95°11'02" W. Modification. C.P. to add frequency 4050V MHz toward Apollo RS, Tex.; frequency 3730V MHz toward Freeport RS, Tex.; to change polarization from H to V on frequency 3730V and 3810V MHz toward Galveston, Tex.; to change polarization from V to H on frequencies 4050H and 4130H MHz toward Texas City, Tex.

3433–C1–P–73—United Telephone Company of Florida (KIQ75), 113 East Ventura Avenue, Clewiston, FL. Latitude 26°45'00" N., longitude 80°56'03" W. C.P. to change frequency 2178.4H MHz to 2164.6H MHz toward Sipreston, Fla.

3434–C1–P–73—Same (KIB95), 13 miles south-southeast of Devils Garden, Fla. Latitude 26°26'22" N., longitude 81°01'35" W. C.P. to change frequency from 2128.4H MHz to 2114.6H MHz toward Clewiston, Fla.

3436–C1–P–73—RCA Alaska Communications, Inc. (WBP70), Lena Point Loop Road, 1.2 miles from the Glacier Highway, Lena Point, Alaska. Latitude 58°23'32" N., longitude 134°46'02" W. C.P. to change frequencies from 4050V and 4130V MHz to frequencies 6585V and 6685V MHz toward Hoonah, Alaska.

3437–C1–MP–73—The Chesapeake & Potomac Telephone Co. of West Virginia (KXR63), 200 Woodlawn Avenue, Beckley, WV. Latitude 37°46'33" N., longitude 81°11'25" W. Modification. C.P. to change antenna system and add passive site on frequency 6123.1H MHz toward Beckley Passive toward Barker's Ridge Passive via Barker's Ridge Passive toward Barker's Ridge.

3438–C1–MP–73—Same (WHT69), Barker's Ridge, junction of Mercer, Wyoming, and Raleigh Counties, W. Va. Latitude 37°30'39" N., longitude 81°13'19" W. Modification. C.P. to change antenna system and add passive site on frequency 6375.2V MHz toward Barker's Ridge Passive toward Beckley Passive via Beckley Passive toward Beckley.

3439–C1–P–73—Southern Bell Telephone & Telegraph Co. (KJA97), 213 South Colt Street, Florence, SC. Latitude 34°11'39" N., longitude 79°46'17" W. C.P. to add frequencies 6152.8V, 5974.8V, and 6093.5V MHz toward Elliott, S.C.

3440–C1–P–73—Southern Bell Telephone & Telegraph Co. (KVH63), 1.4 miles northeast of Elliott, S.C. Latitude 34°07'11" N., longitude 80°08'48" W. C.P. to add frequency 6404.8H MHz toward Sumter, S.C.

3441–C1–P–73—Same (KJB49), 15 South Harvin Street, Sumter, SC. Latitude 33°55'08" N., longitude 80°20'24" W. C.P. to change frequencies from 6011.9H and 6130.5H MHz to 6004.5H and 6123.8H MHz toward Elliott, S.C.

3442–C1–P–73—American Telephone & Telegraph Co. (KKH66), 3.5 miles northeast of Frisco, Tex. Latitude 33°10'31" N., longitude 96°46'18" W. C.P. to add frequency 3730V MHz toward Roanoke, Tex.

3443–C1–P–73—Same (KYZ91), 4.9 miles northwest of Roanoke, Tex. Latitude 33°10'41" N., longitude 97°18'05" W. C.P. to add frequency 3770V MHz toward Adams, Tex.; frequency 4150V MHz toward Fort Worth, Tex.

3444–C1–P–73—United Inter-Mountain Telephone Co. (KJX31), 179 East Main Street, Abingdon, VA. Latitude 36°42'44" N., longitude 81°58'15" W. C.P. to add frequency 2128.0H MHz toward White Top Mountain, Va.

3445–C1–P–73—Same (New), White Top, Va. Latitude 36°38'19" N., longitude 81°36'19" W. C.P. for a new station on frequency 2178.0H MHz toward Abingdon, Va.

3446–C1–P–73—American Telephone & Telegraph Co. (KEA77), 0.8 mile north of Cherryville, N.J. Latitude 40°34'18" N., longitude 74°54'22" W. C.P. to add frequency 4010H MHz toward Iselin, N.J.

3447–C1–P–73—Same (KEA76), 0.85 mile west of Iselin, N.J. Latitude 40°34'16" N., longitude 74°20'49" W. C.P. to add frequency 3970H MHz toward Cherryville, N.J.; frequency 3970H MHz toward New York 7, N.Y.

POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

3448–C1–P–73—Same (KEL79), 811 10th Avenue, New York, NY. Latitude 40°45'59" N., longitude 73°59'27" W. C.P. to add frequency 4010H MHz toward Iselin, N.J.

3449–C1–P–ML–73—General Telephone Company of Florida (KVI27), temporary fixed location. C.P. modification of license to add transmitters 5925–6425 MHz toward temporary fixed locations.

3450–C1–P–73—American Telephone & Telegraph Co. (KIK64), 521 West Chestnut Street, Louisville, KY. Latitude 38°14'58" N., longitude 85°45'39" W. C.P. to add frequency 4198H MHz toward Lanesville, Ind.

3451–C1–P–73—Same (KSJ47), 3.8 miles southeast of Lanesville, Ind. Latitude 38°12'01" N., longitude 85°56'01" W. C.P. to add frequency 4190H MHz toward Louisville, Ky.

3452–C1–P–73—American Telephone & Telegraph Co. (KIM60), 0.7 mile northwest of Paynesville, Ky. Latitude 38°00'06" N., longitude 86°19'19" W. C.P. to add frequency 4198H MHz toward Lanesville, Ind.

3453–C1–P–73—New England Telephone & Telegraph Co. (KCO97), on Telco Hill, 3 miles northeast of the village of East Vassalboro, Maine. Latitude 44°28'52" N., longitude 69°34'07" W. C.P. to add frequencies 10,975H and 11,175.0V MHz toward Waterville, Maine.

3454–C1–P–73—Same (New), 10 Appleton Street, Waterville, Maine. Latitude 44°33'04" N., longitude 69°37'49" W. C.P. for a new station on frequencies 11,385.0H and 11,585.0V MHz toward Vassalboro, Maine.

3455–C1–P–73—Southern Bell Telephone & Telegraph Co. (KIY63), 218 College Street, Greenville, S.C. Latitude 34°51'19" N., longitude 82°24'00" W. C.P. to change frequencies from 5967.4H and 6026.8H MHz to frequencies 6004.5V and 6123.1V MHz toward Glassy Mountain, S.C.

3456–C1–P–73—Same (KJG26), Glassy Mountain, approximately 3 miles east-northeast of Pickens, S.C. Latitude 34°54'00" N., longitude 82°39'36" W. C.P. to add frequency 6375.2H MHz toward Anderson, S.C.; frequencies 6375.2V and 6256.5V MHz toward Clemson, S.C.; correct azimuth and path length to Clemson.

3457–C1–P–73—Same (KJH51), 461 East Main Street, Spartanburg, S.C. Latitude 34°57'07" N., longitude 81°55'12" W. C.P. to add frequencies 6034.2H and 6152.8H MHz toward West Springs, S.C.

3458–C1–P–73—Same (KJH52), 0.7 mile southeast of West Springs, S.C. Latitude 34°45'40" N., longitude 81°46'35" W. C.P. to add frequencies 10,795H and 11,035H MHz toward Union, S.C.

3466–C1–P–73—Bell Telephone Company of Nevada (KPF81), 195 East First Street, Reno, NV. Latitude 39°31'35" N., longitude 119°48'38" W. C.P. to modify transmitters on frequencies 10,755V and 10,995H MHz toward McClellan, Nev.

3467–C1–P–73—Same (KPR96), McClellan Peak, 3 miles west of Silver City, Nev. Latitude 39°15'35" N., longitude 119°41'53" W. C.P. to replace antenna and modify transmitter on frequencies 11,685V and 11,445H MHz toward Reno, Nev.; frequencies 11,405V and 11,845H MHz toward Carson City, Nev.

3468–C1–P–73—Same (KPX50), 709 North Stewart Street, Carson City, NV. Latitude 39°10'06" N., longitude 119°45'47" W. C.P. to replace antenna and modify transmitter on frequencies 10,715H and 10,955V MHz toward McClellan, Nev.

3472–C1–P/ML–73—Indiana Bell Telephone Co. (KYS50), temporary fixed location. C.P. modification of license to authorize the proposed use of a Western Electric ITE 5349 Waveguide TDR Test Set to be utilized for waveguide, antenna testing, and antenna orientation.

3523–C1–P–73—Eastern Microwave, Inc. (KEM35), Ingraham Hill, N.Y. (latitude 42°03'43" N., longitude 75°57'03" W.): C.P. to change polarity from (H) to (V) on frequency 6049.0 MHz, and to change frequency from 6138.0H to 6137.9H MHz on the paths to Rogers Knob (KEL89), on azimuth 54°23'; Endicott, N.Y., on azimuth 320°38'; Vestal, N.Y., on azimuth 259°28'; and Binghamton, N.Y., on azimuth 36°00'.

3524–C1–P–73—Same (KEL89), Rogers Knob, 8 miles northeast of Sidney, N.Y. (latitude 42°23'27" N., longitude 75°19'42" W.): C.P. (a) to change frequency 6181.5H MHz to 6182.4H MHz and (b) to delete frequency 6092.5H MHz and add 6301.0H MHz toward Cherry Valley (KEA64), on azimuth 50°57'; Hatch Hill (KEM36), on azimuth 323°00'; Oneonta, N.Y., on azimuth 72°13'; Sidney, N.Y., on azimuth 200°50'; Walton, N.Y. (KOA73/drop), on azimuth 145°51'; and Norwich, N.Y., on azimuth 313°38'.

POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

3525–C1–P–73—Same (KEA64), Cherry Valley, 4 miles southeast of Cherry Valley, N.Y. (latitude 42°46'31" N., longitude 74°40'56" W.): C.P. (a) to delete frequencies 6212.1V MHz, 6271.4V MHz, and 6330.7V MHz and add 5989.7V MHz, 6049.0V MHz, and 6108.3V MHz toward Helderberg Mountain (KEM58), N.Y., on azimuth 105°05'; (b) to delete frequencies 6212.1H MHz and 6271.4H MHz, and to add 5989.7H MHz and 6049.0H MHz toward Canajoharie, N.Y., on azimuth 27°45'; (c) to delete frequencies 6212.1H MHz and 6271.4H MHz and to add 5989.7H MHz and 6049.0H MHz toward Amsterdam, N.Y., on azimuth 62°39'; (d) to delete frequencies 6212.1H MHz, 6271.4H MHz, and 6330.7H MHz and to add 5989.7H MHz and 6049.0H MHz toward Gloversville, N.Y., on azimuth 46°53'.

3526–C1–P–73—Same (KEM58), Helderberg Mountain, 1.75 miles northwest of Salem, N.Y. (latitude 42°33'12" N., longitude 73°59'45" W.): C.P. (a) to delete frequencies 5960.0V MHz, 6019.3V MHz, and 6078.6V MHz and to add 6182.4H MHz, 6241.7H MHz, and 6301.0H MHz toward Black Spruce Mountain, N.Y., on azimuth 12°08'; (b) to delete frequencies 5960.0V MHz, 6019.3V MHz, and 6078.6V MHz, and to add 6182.4V MHz, 6241.7V MHz, and 6301.0V MHz toward Queensbury, N.Y., on azimuth 21°53'; (c) to delete frequency 5960.0H MHz and to add 6182.4V MHz toward Mount Greylock (KCL72), Mass., on azimuth 89°45'; (d) to delete frequencies 5960.0V MHz, 6019.3V MHz, and 6078.6V MHz and to add 6182.4H MHz, 6241.7H MHz, and 6301.0H MHz toward Troy, N.Y., on azimuth 67°26', and toward Saratoga Springs, N.Y., on azimuth 18°23', and frequencies 6182.4V MHz, 6241.7V MHz, and 6301.0V MHz toward Latham, N.Y., on azimuth 58°00'; (e) to delete frequencies 5960.0V MHz, 6019.3V MHz, and 6078.6V MHz, and to add 6182.4H MHz, 6241.7H MHz, and 6301.0H MHz toward Colonie, N.Y., on azimuth 23°24'; and (f) to delete frequencies 5960.0V MHz, 6019.3V MHz, and 6078.6V MHz, and to add 6182.4H MHz, 6241.7V MHz, and 6301.0H MHz toward Albany, N.Y., on azimuth 75°55'.

3527–C1–P–73—Same (KEM36), Hatch Hill, 2 miles southeast of Georgetown, N.Y. (latitude 42°45'10" N., longitude 75°41'56" W.): C.P. (a) to delete paths to Sentinel Heights (KEM59), Turin Mountain (KEA29), and Smith Hill (KEM49), N.Y.; (b) to delete frequencies 6212.1H MHz, 6271.4H MHz, 6330.7H MHz, and 6301.0V MHz and add 5960.0H MHz, 5989.7V MHz, 6019.3H MHz, and 6049.0V MHz toward Cortland, N.Y., on azimuth 238°50'; and (c) to add frequencies 5960.0H MHz, 5989.7V MHz, and 6019.3H MHz toward new point of communication at Quaker Hill (Stokes), N.Y., on azimuth 18°31'.

3528–C1–P–73—Same (New), Quaker Hill (Stokes), 3 miles northeast of Stokes, N.Y. (latitude 43°20'36" N., longitude 75°25'36" W.): C.P. for a new station at foregoing coordinates—frequencies 6182.4H, 6212.0V, and 6301.0H MHz toward Turin Mountain (KEA29), on azimuth 352°17'; frequencies 6271.4H and 6390.0H MHz toward Hatch Hill (KEM36), on azimuth 198°42'; frequencies 6182.4H, 6212.0V, 6301.0H, and 6390.0V MHz toward Sentinel Heights (KEM59), on azimuth 231°52' and toward Smith Hill (KEM49), on azimuth 137°51'.

3529–C1–P–73—Same (KEA29), Turin Mountain, 4 miles northwest of Turin, N.Y. (latitude 43°38'58" N., longitude 75°29'00" W.): C.P. (a) to delete path to Hatch Hill (KEM36); (b) to add frequency 5960.0V MHz toward Quaker Hill (Stokes), on azimuth 172°15'; (c) to delete frequency 6092.5H MHz and to add frequency 8108.3H MHz toward Boonville, N.Y., on azimuth 156°09'; (d) to delete frequencies 6092.5H MHz, 6241.7H, and 6360.0H MHz, and to add 5989.7V MHz, 6108.3V MHz, and 6167.0V MHz toward Carthage, N.Y., on azimuth 347°19'; and (e) to delete frequencies 6092.5H MHz, 6181.5H MHz, 6241.7H MHz, 6301.0H MHz, and 6360.0H MHz, and to add 5989.7V MHz, 6019.3H MHz, 6049.0V MHz, 6108.3V MHz, and 6167.6V MHz toward Blue Hill (KEA66), N.Y., on azimuth 24°07'.

3530–C1–P–73—Same (KEA66), Blue Hill, 2 miles southeast of Fine, N.Y. (latitude 44°13'20" N., longitude 75°07'35" W.): C.P. (a) to delete frequencies 5960.0H MHz and 5989.7V MHz and to add 6241.7 MHz and 6301.0V MHz toward Watertown, N.Y., on azimuth 242°46'; (b) to delete frequency 5960.0H MHz and to add 6241.7V MHz toward Gouverneur (KPP81/drop), N.Y., on azimuth 296°11'; (c) to delete frequency 5960.0H MHz and to add 6241.7V MHz toward Ogdensburg, N.Y., on azimuth 331°11'; and (d) to delete frequency 6049.0V MHz and to add 6360.0V MHz toward Turin Mountain, KEA29), on azimuth 204°23'. (INFORMATIVE: Eastern proposes to revise its system frequency plan to use TH-frequencies and the alternate "high-low" pattern of transmitter sites. These applications do not involve new service.)

POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

3480–C1–P–73—Racom, Inc. (KYZ85), Summit of Mount Washington, Sargent's Purchase, N.H. Latitude 44°16'13" N., longitude 71°18'13" W. C.P. to add frequency 6360.3 MHz toward Lewiston, Maine. (INFORMATIVE: Racom, Inc., proposes to provide the signals of WSMW–TV, Worcester, Mass., to CATV system serving Lewiston, Maine. A waiver of section 21.701(i) FCC rules by Racom, Inc.)

3504–C1/C2–AL–73—Missouri Telephone Co. Consent to assignment of control from stockholders of Missouri Telephone Co., assignors to Continental Telephone Co. of Missouri, assignees. Stations: KAD514, Branson, Mo.; KEM506, Wentzville, Mo.; KPP76, Forsyth, Mo.; KPP77, Blue Eye, Mo.; KPP78, Ozark, Mo.; KPP79, Rockaway Beach, Mo.; KPP80, Branson, Mo.; WAY56, Branson, Mo.

3509–C1–P–73—Southwestern Bell Telephone Co. (New), South Washington and East 30th Street, Bryan, Tex. Latitude 30°40'10" N., longitude 96°22'18" W. C.P. for a new station on frequency 4150H MHz toward Independence, Tex.

3510–C1–P–73—Same (WJL29), 1.9 miles east of Independence, Tex. Latitude 30°19'05" N., longitude 96°18'55" W. C.P. to add frequency 4050V MHz toward Bryan, Tex.

3533–C1–P–73—Data Transmission Co. (New), 0.4 mile south of New Rochester, Ohio. Latitude 41°21'28" N., longitude 83°30'27" W. C.P. for a new station on frequency 6123.1H MHz toward McComb, Ohio, azimuth 222°36' and toward Williston, Ohio, azimuth 25°30'.

3534–C1–P–73—Same as above (New), 1 mile northwest of McComb, Ohio. Latitude 41°07'14" N., longitude 83°47'44" W. C.P. for a new station. Frequency 6404.8H MHz toward Dola, Ohio, on azimuth 169°36' and frequency 6375.2H MHz toward New Rochester, Ohio, on azimuth 42°25'.

3535–C1–P–73—Same (New), 2.5 miles northwest of Dola, Ohio. Latitude 40°48'45" N., longitude 83°43'16" W. C.P. for a new station. Frequency 6152.8H MHz toward Mount Victory, Ohio, on azimuth 154°37' and toward McComb, Ohio, on azimuth 349°39'.

3536–C1–P–73—Same (New), 2 miles northwest of Mount Victory, Ohio. Latitude 40°32'38" N., longitude 83°33'15" W. C.P. for a new station. Frequency 6375.2V MHz toward Pottersburg on azimuth 174°07' and frequency 6404.8H MHz toward Dola, Ohio, on azimuth 334°44'.

3537–C1–P–73—Same (New), 1 mile northwest of Pottersburg, Ohio. Latitude 40°16'18" N., longitude 83°31'03" W. C.P. for a new station. Frequency 6152.8V MHz toward Brighton on azimuth 187°33' and frequency 6123.1V MHz toward Mount Victory, Ohio, on azimuth 354°08'.

3538–C1–P–73—Same (New), 2.4 miles north of Brighton, Ohio. Latitude 39°57'49" N., longitude 83°34'14" W. C.P. for a new station. Frequency 6404.8V MHz toward Pottersburg on azimuth 7°31' and frequency 6375.2H MHz toward Hilliard, Ohio, on azimuth 77°36'.

3539–C1–P–73—Data Transmission Co. (New), Johnstown, 2 miles southeast of Rachelwood, Pa. Latitude 40°15'59" N., longitude 79°04'56" W. C.P. for a new station. Frequency 6152.8H MHz toward Downey on azimuth 151°46' and frequency 11,055V MHz toward Youngstown, Pa., on azimuth 271°15'.

3540–C1–P–73—Same as above (New), McMurray, 2 miles south of Bethel, Pa. Latitude 40°17'33" N., longitude 80°02'57" W. C.P. for a new station. Frequency 6152.8H MHz toward Arona on azimuth 93°51'; frequency 6152.8V MHz toward Georgetown on azimuth 317°07' and frequency 11,135V MHz toward Pittsburgh, Pa., on azimuth 14°50'.

3541–C1–P–73—Same (New), 3.7 miles east of Hamburg, Pa. Latitude 40°38'49" N., longitude 75°54'43" W. C.P. for a new station. Frequency 11,465H MHz toward Eagle Peak on azimuth 222°58' and frequency 11,365V MHz toward Palmerton, Pa., on azimuth 42°12'.

3542–C1–P–73—Same (New), 1 mile northwest of Woodstock, N.J. Latitude 41°00'30" N., longitude 74°32'27" W. C.P. for a new station. Frequency 6345.5H MHz toward New York on azimuth 126°43' and frequency 10,975V MHz toward Hope, N.J., on azimuth 244°10'.

3543–C1–P–73—Same (New), 1 World Trade Center, New York, N.Y. Latitude 40°42'31" N., longitude 74°00'54" W. C.P. for a new station. Frequency 6093.5V MHz toward Woodstock, N.J., on azimuth 307°04'.

3544–C1–P–73—Same (New), 2.5 miles west of Hilliard, Ohio. Latitude 40°01'27" N., longitude 83°12'33" W. C.P. for a new station. Frequency 6123.1H MHz toward Brighton on azimuth 257°50' and frequency 11,225V MHz toward Columbus, Ohio, on azimuth 110°45'.

Correction

3068–C1–P–70—Data Transmission Co. (New), correct station location to read: 875 North Michigan Boulevard, Chicago, IL. Latitude 41°53'55" N., longitude 87°37'26" W. All other particulars same as reported on Public Notices 12–15–69; 8–3–70; 10–10–72.

Major Amendment

3084–C1–P–70—Data Transmission Co. (New), 88 East Broad Street, Columbus, OH. Delete point of communication at Yatesville and add frequency 11,095.0V MHz on azimuth 290°53' toward new point of communication at Hilliard, Ohio.

3148–C1–P–70—Same (New), 1.3 miles southwest of Williston, Ohio. Add frequency 6375.2H MHz on azimuth 205°38' toward new point of communication at New Rochester, Ohio.

3152–C1–P–70—Same (New), Eagle Peak, 1 mile south of Womelsdorf, Pa. Add frequency 10,855.0H MHz on azimuth 42°48' to new point of communication at Hamburg, Pa.

3136–C1–P–70—Same (New), Front Mountain, 2.5 miles northwest of Edenville, Pa. Add frequency 10,995.0V MHz on azimuth 273°42' to new point of communication at Crystal Spring, Pa.

3137–C1–P–70—Same (New), change station location to 5.5 miles northeast of Crystal Spring, Pa. Latitude 40°00'38" N., longitude 78°08'45" W. Change frequency toward Front Mountain to 11,645.0V MHz on azimuth 93°29'. Change frequency toward Downey to 6063.8H MHz on azimuth 262°22'.

3138–C1–P–70—Same (New), change station location to 2.7 miles southeast of Downey, Pa. Latitude 39°56'08" N., longitude 78°51'06" W. Change frequency toward Crystal Spring to 6315.9V MHz on azimuth 81°55'. Delete point of communication at Jones Mill and add frequency 6404.8V MHz on azimuth 331°55' toward new point of communication at Johnstown.

3139–C1–P–70—Same (New), change station name and location to Youngstown, 1.7 mile southeast of Youngstown, Pa. Latitude 40°16'13" N., longitude 79°19'46" W. Delete point of communication at Downey and add frequency 11,265.0V MHz on azimuth 91°06 toward new point of communication at Johnstown, Pa. Change frequency toward Arona to 11,265.0H MHz on azimuth 270°10'.

3140–C1–P–70—Same (New), change station location to 1.3 miles east of Arona, Pa. Latitude 40°16'14" N., longitude 79°38'17" W. Delete point of communication at Jones Mill and add frequency 11,055.0H MHz on azimuth 89°58' toward new point of communication at Youngstown, Pa. Delete point of communication at Pittsburgh, Pa., and add frequency 6404.8H MHz on azimuth 274°07' toward new point of communication at McMurray, Pa.

3141–C1–P–70—Same (New), 525 William Penn Place, Pittsburgh, PA. Delete point of communication at Arona, Pa., and add frequency 11,345.0V MHz on azimuth 194°52' toward new point of communication at McMurray, Pa. Delete point of communication at Georgetown, Pa.

FEDERAL POWER COMMISSION

[Docket No. CP73–135]

DISTRIGAS CORP.

Notice of Application

NOVEMBER 27, 1972.

Take notice that on November 20, 1972, Distrigas Corp. (Applicant), 25 High Street, Boston, MA 02110, filed in Docket No. CP73–135 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of imported liquefied natural gas (LNG) to certain distribution customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

By Commission Opinion No. 613, Distrigas Corp., Dockets Nos. CP70–196, et al., issued on March 9, 1972 (47 FPC ____)[1] Applicant was authorized, inter alia, to import into the United States at its Everett, Mass. terminal LNG from Algeria.

Applicant proposes to sell the LNG imported at its Everett terminal to the following customers in the following volumes:

Customer	1972–73 (million B.t.u.)	1973–74 (million B.t.u.)	1974–75 and following (million B.t.u.)
The Brooklyn Union Gas Co.	2,500,000	2,500,000	2,500,000
The Connecticut Gas Co.	500,000	500,000	500,000
Providence Gas Co.	800,000	900,000	900,000
New Jersey Natural Gas Co.		400,000	1500,000
South Jersey Gas Co.	200,000	400,000	600,000
Valley Gas Co.	120,000	120,000	120,000
Total	4,120,000	4,820,000	15,120,000

1 400,000 million B.t.u. of this quantity will be sold under agreement with New Jersey Natural Gas Co. which will be effective between Apr. 1, 1973, and Mar. 31, 1975.

Applicant proposes to charge its customers a demand charge of 70.6 cents per million B.t.u. for the contract year ending March 31, 1973, and increasing by 0.6 cent per million B.t.u. in each year thereafter, and a commodity charge of 34 cents per million B.t.u. for the LNG sold, f.o.b. the Everett terminal. Applicant proposes to charge the Brooklyn Union Gas Co. for deliveries in December through March a demand charge of $1.046 per million B.t.u. and a commodity charge of 34 cents per million B.t.u. Applicant indicates that an additional charge will be made for storage service in its tanks if a customer elects to use that service.

Applicant alleges that its existing facilities at the Everett terminal are adequate to render the proposed service and that no additional facilities are required. Applicant states that all deliveries of LNG to the aforementioned customers will be made in liquid form. Applicant further states that delivery to the Brooklyn Union Gas Co. will be made by cryogenic barge at Brooklyn, N.Y., and that deliveries to the other customers will be made at Everett. The latter customers will utilize truck transportation to deliver the LNG to their own facilities. Applicant desires to commence the sale of LNG to its interstate customers as soon as possible in order to meet the immediate needs of its customers for supplemental peak shaving supplies during the current heating season.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before December 7, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72–20581 Filed 11–29–72;8:49 am]

[1] Rehearing denied in Commission Opinion No. 613–A, Distrigas Corp., Dockets Nos CP70–196, et al., issued June 7, 1972 (47 FPC ----).

[Dockets Nos. RP66–4, RP68–1]

FLORIDA GAS TRANSMISSION CO.

Extension of Time

NOVEMBER 22, 1972.

On November 17, 1972, Florida Gas Transmission Co. requested a 1 week extension of time to comply with the requirements of paragraph (B) of the Commission's order issued November 14, 1972, accepting filing as compliance filing but rejecting proposed tariff sheets.

Upon consideration, notice is hereby given that the time is extended to and including December 1, 1972, within which to file new tariff sheets. The time is also extended to and including December 21, 1972, for all customers to file protests or comments to the compliance filing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72–20542 Filed 11–29–72;8:48 am]

[Docket No. E–7805]

GULF STATES UTILITIES CO.

Notice of Application

NOVEMBER 22, 1972.

Take notice that on October 25, 1972, Gulf States Utilities Co. (Applicant) filed an application seeking an order pursuant to section 204 of the Federal Power Act authorizing the issuance of $125 million principal amount of unsecured short-term promissory notes.

Applicant is incorporated under the laws of Texas with its principal business office at Beaumont, Tex., and is engaged in the electric utility business in portions of Louisiana and Texas. Natural gas is purchased at wholesale and distributed at retail in the city of Baton Rouge, La., and vicinity.

Applicant proposes to issue the notes to commercial banks and to commercial paper dealers. Notes issued to commercial banks and to commercial paper dealers will be issued on various dates beginning December 31, 1972, for varying periods of time, but no note issued to a commercial bank will have a maturity of more than 1 year from the date of its issuance and no note issued to commercial paper dealers will have a maturity of more than 9 months from the date of its issuance. In no event shall any such notes have a maturity after December 31, 1974.

The proceeds from the notes will be added to the general funds of the Applicant and will be used, among other things, to provide part of the funds for construction expenditures made and to be made. The preliminary estimated total for 1972–3 construction is $219 million.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 11, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

V37-231 NOV 30 72 XUM

[Docket No. RI73-93]

MARATHON OIL CO.

Order Providing for Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject to Refund

NOVEMBER 21, 1972.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A hereof.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date suspended until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

APPENDIX A

RI73-93...	Marathon Oil Co.....	65	[2] 15	Tennessee Gas Pipeline Co. (Heyser Field, Victoria and Calhoun Counties, Tex., RR. District No. 2).	$161,625	10-24-72	.....	11-25-72	18.31876	[1] 21.0	RI69-300.

*The pressure base is 14.65 p.s.i.a.
[1] Unilateral increase to new gas ceiling established in Opinion No. 595.
[2] Basic contract (Aug. 1, 1952) expired Aug. 1, 1972.

The question presented here with respect to Marathon's unilateral increase filed after the expiration of it's contract is whether the subject gas is entitled to the flowing gas rate of 19 cents or the new gas rate of 24 cents established in Opinion No. 595, Dockets Nos. AR64-2 et al., issued May 6, 1971. The proposed increase should be suspended for 1 day from the expiration of the statutory notice period, pending determination as to whether the gas involved herein is entitled to the new or old gas price.

Marathon's proposed increased rate may exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR 2.56).

CERTIFICATION OF ABBREVIATED SUSPENSION

Pursuant to § 300.16(i)(3) of the Price Commission rules and regulations, 6 CFR Part 300 (1972), the Federal Power Commission certifies as to the abbreviated suspension period in this order as follows:

(1) This proceeding involves producer rates which are established on an area rather than company basis. This practice was established by Area Rate Proceeding, Docket No. AR61-1 et al., Opinion No. 468, 34 FPC 159 (1965), and affirmed by the Supreme Court in Permian Basin Area Rate Case, 390 U.S. 747 (1968). In such cases as this, producer rates are approved by this Commission if such rates are contractually authorized and are at or below the area ceiling.

(2) In the instant case, the requested increases do not exceed the ceiling rate for a 1-day suspension.

(3) By Order No. 423 (36 F.R. 3464), issued February 18, 1971, this Commission determined as a matter of general policy that it would suspend for only 1 day a change in rate filed by an independent producer under section 4(d) of the Natural Gas Act (15 U.S.C. 717c(d)) in a situation where the proposed rate exceeds the increased rate ceiling, but does not exceed the ceiling for a 1-day suspension.

(4) In the discharge of our responsibilities under the Natural Gas Act, this Commission has been confronted with conclusive evidence demonstrating a natural gas shortage. (See Opinions Nos. 595, 598, and 607, and Order No. 435.) In these circumstances and for the reasons set forth in Order No. 423 the Commission is of the opinion in this case that the abbreviated suspension authorized herein will be consistent with the letter and intent of the Economic Stabilization Act of 1970, as amended, as well as the rules and regulations of the Price Commission, 6 CFR Part 300 (1972). Specifically, this Commission is of the opinion that the authorized suspension is required to assure continued, adequate and safe service and will assist in providing for necessary expansion to meet present and future requirements of natural gas.

FEDERAL RESERVE SYSTEM

FIRST FLORIDA BANCORPORATION

Acquisition of Bank

First Florida Bancorporation, Tampa, Fla., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of the State Bank of South Jacksonville, Jacksonville, Fla., a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than December 15, 1972.

Board of Governors of the Federal Reserve System, November 22, 1972.

NATIONAL SCIENCE FOUNDATION

ADVISORY COMMITTEE FOR PLANNING AND INSTITUTIONAL AFFAIRS

Notice of Meeting

Pursuant to Executive Order 11671, notice is hereby given that a meeting of the Advisory Committee for Planning and Institutional Affairs will be held at 9:30 a.m. on December 7 and 9 a.m. on December 8, 1972, in Room 540, 1800 G Street NW., Washington, DC 20550. The purpose of the committee is to provide advice and recommendations concerning planning activities within NSF and the impact of Foundation programs, actual and proposed, on the integrity and effectiveness of the academic institution as a whole.

The Director of the National Science Foundation has, pursuant to section 13(d) of Executive Order 11671 (dated June 5, 1972), determined that this meeting of the committee shall be exempt from the provisions of sections 13(a), (b), and (c) of the order, relating to public participation and recordkeeping, inasmuch as the activities of the committee for the December 7 and 8, 1972, meeting are matters which fall within policies analogous to those recognized in section 552(b) of title 5 of the United States Code, an the public interest requires such activities to be withheld from disclosure. At this meeting, the committee will discuss matters related to the fiscal year 1974 budget plans in relationship to specific problem areas to be considered by the committee in furnishing advice and recommendations. The matters embodied in the discussion relate to the budget formulation process and are regarded privileged in nature.

In accordance with the determination by the Director of the National Science Foundation, dated November 24, 1972, this meeting will not be open to the public. Further information relative to this committee may be obtained from Mrs. Mary L. Parramore, Executive Assistant, Office of Budget, Programing, and Planning Analysis, Room 426, 1800 G Street NW., Washington, DC 20550.

T. E. JENKINS, *Assistant Director for Administration.*

NOVEMBER 24, 1972.

Notice is hereby given that Arkansas Power & Light Co., Ninth and Louisiana Streets, Little Rock, Ark. 72203 (AP&L), Louisiana Power & Light Co., 142 Delaronde Street, New Orleans, LA 70174 (LP&L), Mississippi Power & Light Co., Post Office Box 1640, Jackson, MS 39205 (MP&L), and New Orleans Public Service Inc., Post Office Box 60340, New Orleans, LA 70160 (NOPSI) (collectively referred to as "Operating Companies"), all public utility subsidiary companies of Middle South Utilities, Inc. (MSU), a registered holding company, and System Fuels, Inc., 225 Baronne Street, New Orleans, LA 70112 (SFI), a joint nonutility subsidiary company of Operating Companies, have filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a), (7), 12(b), and 12(f) and Rules 43, 45, and 50(a)(2) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Historically, the major steam electric generating stations of Operating Companies have used natural gas as their principal fuel, with oil as emergency standby fuel. Now, due to the decreasing supply of natural gas because of curtailments, expiration of gas supply contracts, unavailability of substitute supplies and other factors, it will be necessary for Operating Companies to burn increasing amounts of oil on a continuous basis in order to meet the demands of their electric customers. By order dated December 17, 1971 (Holding Company Act Release No. 17400), the Commission authorized Operating Companies to organize a new jointly owned subsidiary company, SFI, to plan and implement programs for the procurement of fuel oil supplies for the generating units of Operating Companies; and SFI in a separate proceeding (File No. 70-5259) has applied to the Commission for authority to issue and sell unsecured promissory notes in order to acquire, and maintain for use by Operating Companies, an adequate inventory of fuel oil (See Holding Company Act Release No. 17758).

In the present filing, declarants state that it is advisable to maintain adequate bulk storage facilities at locations central to points of anticipated usage, to maintain bulk storage facilities at point of origin locations where oil is to be delivered under long-term oil purchase contracts, and to have available facilities for transferring oil from bulk storage facilities to points of usage as and when required. It is estimated that under present conditions, the total amount of stor-

age capacity required to assure reliable availability of oil to Operating Companies is approximately 35 percent of

based upon the presently estimated program for the acquisition and the completion of construction of the Fuel Storage

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

or more from the rate $0.1560 during the balance of the calendar quarter ending December 31, 1972, will be published

337(e), Tariff Act of 1930, and § 12.39(c), Customs Regulations (19 CFR 12.39(c)). Importations refused entry may be per-

leasing laws. The lands will be used for the construction, operation, and maintenance of the Auburn Dam and Reservoir.

V37-231-NOV 30 72 XUM

age capacity required to assure reliable availability of oil to Operating Companies is approximately 35 percent of annual requirements; that Operating Companies will be burning about 43 million barrels of oil in 1975 and about 66 million barrels in 1980, which would require storage capacity of about 15 million barrels and 23 million barrels in those years, respectively. As a first step, SFI now proposes to acquire bulk storage facilities with a capacity of 725,000 barrels.

In anticipation of SFI eventually becoming the medium for conducting Operating Companies' oil procurement and storage program, Arkansas and NOPSI undertook the construction of certain bulk storage and handling facilities. SFI proposes to acquire and complete the construction of these bulk storage and handling facilities (Fuel Storage Facilities) and to operate the same in conjunction with such additional bulk storage and handling facilities as SFI may need to acquire in order to conduct properly Operating Companies' oil procurement and storage program.

The purchase price to be paid by SFI to Arkansas and NOPSI will be equal to the latters' respective book costs (also original costs) of the Fuel Storage Facilities as of the closing date. It is contemplated that the closing date will be on or about December 22, 1972, and that the aggregate purchase price of the Fuel Storage Facilities as constructed to the closing date will be approximately $3,600,000. It is estimated that the additional cost after the closing date to be incurred by SFI for completion of the construction and installation of the Fuel Storage Facilities will be approximately $205,000. Arkansas and NOPSI will covenant that the property to be transferred to SFI will be rendered free and clear of all liens and encumbrances no later than March 31, 1973.

To finance the cost of the Fuel Storage Facilities, SFI proposes to issue and sell a promissory note (Note) in the principal amount of $3,600,000 to The First National Bank of Chicago, Chicago, Ill. (Bank). The Note will be issued pursuant to a loan agreement (Loan Agreement) among SFI, Bank, and the Operating Companies; will mature on July 1, 1982; and will bear interest at a rate per annum of one-half of 1 percent in excess of the prime commercial rate charged by Bank for short-term commercial loans of 90-day maturities, with adjustments to be made effective on the first day of the month following the month in which any such change occurs. There is no requirement that SFI maintain compensatory balances. SFI will pay a commitment fee at the rate of one-half of 1 percent per annum from the date of the signing of the Loan Agreement pursuant to the order of the Commission herein, to the earlier of the date of borrowing or January 1, 1973.

The Note may be prepaid by SFI in any amount at any time without penalty; *Provided, however*, That commencing July 1, 1973, SFI will be required to make quarterly prepayments in amounts calculated to equal depreciation on the Fuel Storage Facilities. Declarants state that based upon the presently estimated program for the acquisition and the completion of construction of the Fuel Storage Facilities, depreciation accruals will begin on January 1, 1973, at a rate which will permit the prepayment of 75 percent of the principal amount of the Note by maturity. The remaining 25 percent will be repaid at maturity on July 1, 1982, from funds then on hand or from the issuance and sale by SFI of such other securities as may be authorized by the Commission.

The Operating Companies will covenant (a) to take all action necessary from time to time to enable SFI to discharge its obligations under the Loan Agreement, and (b) so long as any principal amount of the Note remains unpaid, to maintain their respective shares of ownership of the Common Stock of SFI in approximately the same proportions as currently held by them, unless otherwise consented to by Bank.

SFI has represented it will at all times, unless the Commission shall otherwise expressly authorize, maintain the aggregate of its capital stock, surplus, and principal amount of its indebtedness to Operating Companies, at an amount equal to at least 35 percent of its total capitalization.

Fees and expenses to be paid in connection with the proposed transactions are estimated at $8,500, including counsel fees of $5,000 and $500 for administrative services, at cost, performed by the system service company, Middle South Services, Inc. It is stated that no State Commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than December 18, 1972, request in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law which he desires to controvert; or he may request that he be notified should the Commission order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarants at the above-stated addresses, and proof of service (by affidavit or in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective in the manner provided by Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof, or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

FOREIGN CURRENCIES

Rates of Exchange for the Ceylon Rupee

NOVEMBER 14, 1972.

Rates of exchange certified to the Secretary of the Treasury by the Federal Reserve Bank of New York for the Ceylon rupee.

The Federal Reserve Bank of New York, pursuant to section 522(c), Tariff Act of 1930, as amended (31 U.S.C. 372 (c)), has certified the following rates of exchange which vary by 5 percent or more from the quarterly rate published in Treasury Decision 72-285 for the Ceylon rupee. Therefore, as to entries covering merchandise exported on the dates listed, whenever it is necessary for Customs purposes to convert such currency into currency of the United States, conversion shall be at the following daily rates:

Ceylon rupee:	
November 8, 1972	$0.1480
November 9, 1972 [1]	.1560
November 10, 1972 [1]	.1560

[1] Rate did not vary 5 percent or more from the rate of exchange published in T.D. 72-285 for use during calendar quarter beginning October 1 through December 31, 1972.

Rates of exchange certified for the Ceylon rupee which vary by 5 percent

or more from the rate $0.1560 during the balance of the calendar quarter ending December 31, 1972, will be published in a Treasury Decision for dates subsequent to November 10, 1972, and before January 1, 1973.

[SEAL] R. N. MARRA, *Acting Assistant Commissioner, Office of Operations.*

[T.D. 72-327]

LIGHTWEIGHT LUGGAGE

Exclusion From Entry

Treasury Decision 72-5, published on December 28, 1971 (36 F.R. 25053), gave notice of a restriction under section 337(f), Tariff Act of 1930 (19 U.S.C. 1337(f)), on the importation of certain lightweight luggage described fully therein, imposed pursuant to the temporary exclusion order of the President dated December 13, 1971, due to the existence of unfair methods of competition and unfair acts in the importation and sale of such luggage.

There is hereby published for direction and guidance of Customs officers and others concerned the following superseding order of the President, issued to the Secretary of the Treasury on October 31, 1972, directing that the Secretary forbid the unlicensed entry into the United States of lightweight luggage made in accordance with registered patent claims:

Atlantic Products Corp., Trenton, N.J., made a complaint requesting relief under section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), from alleged unfair methods of competition and unfair acts in the importation and domestic sale of lightweight luggage which is made in accordance with the claims of U.S. Patent Nos. 3,298,480 and Re. 26,443 (Tariff Commission Investigation No. 337-28).

Upon the facts submitted to me by the U.S. Tariff Commission (T.C. Publication 463), I have found that the said articles are offered or sought to be offered for entry into the United States in violation of said section 337.

Therefore, I request that, except where the importation is made under license of the registered owner of said patent, you forbid the entry into the United States of lightweight luggage which is made in accordance with the claims of U.S. Patent Nos. 3,298,480 and Re. 26,443, until such time as I may find that the conditions which led to such refusal of entry no longer exist or until the date of expiration of said patents, whichever occurs first.

U.S. Patent No. 3,298,480 expires on January 16, 1984. U.S. Patent No. Re. 26,443 expires on August 15, 1983. Articles of lightweight luggage of the kind protected by the patents are generally classified under item 706.60, Tariff Schedules of the United States. Other background information is provided in U.S. Tariff Commission Publication 463, February 1972.

Entry into the United States of lightweight luggage prohibited importation by the President's order of October 31, 1972, shall be refused pursuant to section 337(e), Tariff Act of 1930, and § 12.39(c), Customs Regulations (19 CFR 12.39(c)). Importations refused entry may be permitted to be exported in accordance with provisions of § 8.49, 18.25, and 18.26 of the Customs Regulations (19 CFR 8.49, 18.25, 18.26). Excepted importations entitled to entry into the United States under license of the registered patent owner shall require the presentation with Customs entry of appropriate evidence thereof.

Articles of lightweight luggage prohibited importation by the President's order of October 31, 1972, which have been released under special bond pursuant to section 337(f), supra, and T.D. 72-5 are to be exported or destroyed under Customs supervision, upon Customs notification to each importer concerned in accordance with § 12.39(c) of the Customs Regulations (19 CFR 12.39(c)). However, entry of the merchandise is permitted if the import transaction is licensed by the registered patent owner and evidence of such license is presented to the principal Customs officer at the port of release under special bond. Special bonds taken shall be canceled and, in cases of verified exportation or destruction of the lightweight luggage, any duties that have been paid under a consumption entry that is not finally liquidated may be refunded, in accordance with § 8.49(b) of the Customs Regulations (19 CFR 8.49(b)).

Unless prohibited lightweight luggage entered and released under special bond is exported or destroyed under Customs supervision, or its entry duly licensed, within 30 days after notice is given the importer concerned, demand shall be made upon the principal and surety for payment of the amount of the penalty specified in the special bond.

Effective date. This notice shall be effective upon publication in the FEDERAL REGISTER (11-30-72).

[SEAL] VERNON D. ACREE, *Commissioner of Customs.*

Approved: November 17, 1972.

EUGENE T. ROSSIDES, *Assistant Secretary of the Treasury.*

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[S 5302]

CALIFORNIA

Notice of Proposed Withdrawal and Reservation of Lands

NOVEMBER 21, 1972.

The Bureau of Reclamation, U.S. Department of the Interior, has filed an application, Serial No. S 5302, for the withdrawal of public lands described below, from appropriation under the public land laws, including the mining laws but not from leasing under the mineral leasing laws. The lands will be used for the construction, operation, and maintenance of the Auburn Dam and Reservoir, Auburn-Folsom South Unit, American River Division and Central Valley project.

On or before December 31, 1972, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, U.S. Department of Interior, Room E 2841, Federal Office Building, 2800 Cottage Way, Sacramento, CA 95825.

The Department's regulations provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are in the Tahoe National Forest and are described below:

MOUNT DIABLO MERIDIAN

T. 14 N., R. 11 E.,
Sec. 31, SW¼SE¼SW¼ (includes mineral lot 74 and portions of mineral lots 72 and 73).

The area aggregates 10 acres.

[Colorado 17190]

COLORADO

Notice of Proposed Withdrawal and Reservation of Lands

NOVEMBER 14, 1972.

The Forest Service, U.S. Department of Agriculture, has filed an application, Serial No. C-17190, for the withdrawal of the public domain lands described below, from all forms of appropriation under the public land laws, including the mining laws, 30 U.S.C., Chapter 2, but not from leasing under the mineral leasing laws, subject to valid existing rights.

The applicant desires the lands for a National Forest administrative site.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Colorado State Office, 700 Colorado State Bank Building, 1600 Broadway, Denver, CO 80202.

The Department's regulations (43 CFR 2351.4(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations

as are necessary to determine the existing and potential demand for the lands and their resources. He will also under-

Lakes, Alaska, indicate that the classification will affect the following subdivisions of the protracted public land sur-

that will be activated by heat sensors over the pumps, (3) using automatic steel doors which will be activated by heat sen-

Petitioner requests the Secretary to modify the application of the above-quoted standard so as to permit it to use

as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced:

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN

MEEKER ADMINISTRATIVE SITE

Office of Hearings and Appeals

[Docket No. M 73-4]

CHRISTOPHER COAL CO.

Petition Regarding Modification of Mandatory Safety Standard

In regard, petition of Christopher Coal Co. for modification of application of Mandatory Safety Standard (Sec. 311(c) of Act; and 30 CFR 75.1105).

In accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), notice is given that the Christopher Coal Co., Post Office Box 100, Osage, WV 26543, has filed a petition to modify the application of section 311(c) of the Act and section 75.1105 of the Secretary's implementing regulations (30 CFR § 75.1105) to its Arkwright No. 1 Mine in Monongalia, W. Va.

Section 311(c) of the Act and § 75.1105 of the regulations provide in identical language:

(c) Underground transformer stations, battery-charging stations, substations, compressor stations, shops, and permanent pumps shall be housed in fireproof structures or areas. Air currents used to ventilate structures or areas enclosing electrical installations shall be coursed directly into the return. Other underground structures installed in a coal mine as the Secretary may prescribe shall be of fireproof construction.

Petitioner requests the Secretary to modify the application of the above-quoted standard so as to permit it to avoid having to course the air used to ventilate its Loar and Hess Pumping Stations directly to the return. Petitioner avers that it cannot comply with the applicable standard because: (1) The pumps are located on old haulages from the pit mouth to the Lynch Shaft which were mined 20 to 50 years ago (2) the haulages are ventilated with intake air and the nearest return to the Hess Station is over 2 miles and the nearest return to the Loar Station is 3,000 feet, (3) the intake air that passes the pump stations is not used to ventilate an active working section, (4) the Swickley Seam located 80 feet above the pumps has been mined, thereby eliminating the practicability of drilling additional holes for venting air to the surface, and (5) the location of the pumps in natural swags requires continuous operation to prevent flooding of the haulages.

Petitioner states that it will provide no less than the same measure of protection required by section 301(c) of the Act by: (1) Housing the pumps in a fireproof building, (2) installing in each pump station an automatic fire suppression device that will be activated by heat sensors over the pumps, (3) using automatic steel doors which will be activated by heat sensory devices. (4) prohibiting storage of oil or combustible materials in the pump stations, (5) employing electrical circuits in compliance with the Mandatory Safety Standards, and (6) making inspections of the stations in compliance with the Federal Coal Mine Health and Safety Act of 1969.

Parties interested in this petition should, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, file their answers or comments with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, VA 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director, Office of Hearings and Appeals.

NOVEMBER 21, 1972.

[FR Doc.72-20547 Filed 11-29-72;8:48 am]

[Docket No. M 73-10]

LADY JANE COLLIERIES, INC.

Petition Regarding Modification of Mandatory Safety Standard

In regard, petition of Lady Jane Collieries, Inc. for modification of application of Mandatory Safety Standard (Sec. 303(r) of Act; and 30 CFR 75.319 and 75.319-1).

In accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), notice is given that Lady Jane Collieries, Inc., 402 Indiana Theatre Building, Indiana, Pa. 15701, filed on October 4, 1972, a petition to modify the application of section 303(r) of the Act and §§ 75.319 and 75.319-1 of the Secretary's implementing regulations (30 CFR 75.319 and 75.319-1) to its Stott No. 1 Mine in Huston Township, Clearfield County, Pa.

Section 303(r) of the Act and § 75.319 of the regulations provide in identical language:

(r) Each mechanized section shall be ventilated with a separate split of intake air directed by overcasts, undercasts, or the equivalent, except an extension of time, not in excess of 9 months, may be permitted by the Secretary, under such conditions as he may prescribe, whenever he determines that this subsection cannot be complied with on the operative date of this title.

Section 75.319-1 defines a "mechanized mining section" as follows:

The term "mechanized mining section" means an area of a mine in which coal is mined with one set of production equipment, characterized in a conventional mining section by a single loading machine, or in a continuous mining section by a continuous mining machine, and which is comprised of a number of contiguous working places. Specialized mining sections, such as longwall mining sections, which utilize equipment other than specified in this section, may, if approved by the Coal Mine Safety District Manager, be ventilated by a single split of air.

Petitioner requests the Secretary to modify the application of the above-quoted standard so as to permit it to use two loading machines and three shuttle cars in conjunction with one cutting machine instead of utilizing only one loading machine and two shuttle cars with each cutting machine. Petitioner avers that the modification it seeks will provide no less than the same measure of protection required by section 301(c) of the Act because, inter alia, the number of trailing cable crossings will be reduced in that the operating area of each loading machine will be restricted to three or four working places instead of seven. Each shuttle car will have a completely separate travelway. Petitioner's proposed method of operation would, it is said, reduce damage to cables, failure of cables, and the potentiality of fires.

Petitioner also claims that its proposed method of operating would increase ventilation efficiency by decreasing disturbance of the number of checks and line brattices from those involving seven entries to disturbance of only the three or four associated with each loading machine. Utilization of two loading machines is also said to reduce the number of split checks through which each shuttle car must pass during trips from the loader to the belt feeder. Reduction of passages through split checks is claimed to be helpful in that air control is enhanced and the likelihood of injuries to shuttle car operators is reduced.

Petitioner alleges that it had operated its mine in the specialized manner described above prior to the passage of the Federal Coal Mine Health and Safety Act of 1969 and believes that its proposed method has been proven to be safe for use in the low coal (down to 30 inches) encountered in several areas of the mine and it believes that if application of the standard to its Stott No. 1 Mine is modified as requested in its petition that the safety of its overall operations will be improved.

Parties interested in this petition should, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, file their answers or comments with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, VA 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director,
Office of Hearings and Appeals.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[Docket No. C-376]

MICHAEL DAN ZUCKER

Notice of Loan Application

NOVEMBER 24, 1972.

Michael Dan Zucker, 601 Ocean Avenue, Seal Beach, CA 90740, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a new wood vessel, about 28-foot in length, to engage in the fishery for salmon, albacore, bonito, and rockfishes.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above-entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

VETERANS ADMINISTRATION REGIONAL OFFICE, ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 73-00165-33-43780. Applicant: Veterans' Administration Regional Office, Supply Officer (4814-R), 252 Seventh Avenue, New York, NY 10001. Article: Myoelectric Hand. Manufacturer: Viennatone Co., Austria. Intended use of article: The article is a prosthetic device developed by the Veterans' Administration to be used in research and educational programs conducted by the Veterans' Administration to enrich the professional and technical people in this field as well as provide the amputee population with better prosthetic devices. Application received by Commissioner of Customs: September 26, 1972.

Docket No. 73-00175-33-43780. Applicant: Miami Valley Hospital, Radiation Therapy Department, One Wyoming Street, Dayton, OH 45409. Article: 45 MeV Medical-type Betatron with accompanying Magnetic Lens. Manufacturer: Brown-Boveri, Switzerland. Intended use of article: The article is intended to be used in the following research projects:

(1) Determination of the physical characteristics of the electron beam;

(2) Investigation of the effects of inhomogeneities in the body such as, bone and air cavities, on the beam, and

(3) Development of computer programs for use in radiation dosimetry of the electron beam.

The article will also be used for teaching the principles and clinical applications of high energy electron and X-ray beam therapy to radiology residents. In addition the article will be used for both high energy X-ray and electron beam therapy in the treatment of certain cancers. Application received by Commissioner of Customs: October 2, 1972.

Docket No. 73-00209-33-46040. Applicant: Chico State College, Department of Biological Sciences, Chico, Calif. 95926. Article: Electron Microscope, Model HS-8F-2. Manufacturer: Hitachi-Perkin Elmer, Japan. Intended use of article: The article is intended to be used for electron microscopy studies which will include the following investigations:

(1) The role that microtubules play in the morphogenesis of parasitic protozoa, particularly trypanosomes,

(2) The ultrastructure and development of generative organelles (amyloplasts and mitochondria) in male transmission of cytoplasmic inherited characters in several plants and

(3) The ultrastructure of the walls of pollen grains.

The article will also be used for instruction and research of graduate students and faculty in the following courses:

Bio Sci 202, Cytology.
Biological Preparations for Electron Microscopy.
Electron Microscope Theory and Operations.
Bio Sci 398, Independent Study.
Bio Sci 399, Master's Study.

Application received by Commissioner of Customs: October 24, 1972.

Docket No. 73-00210-33-46500. Applicant: Chico State College, Department of Biological Sciences, Chico, Calif. 95926. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in the following studies:

(1) The role that microtubules play in the morphogenesis of parasitic protozoa, particularly flagellates;

(2) The ultrastructure and development of generative cells in geranium pollen grain and pollen tube; and

Purpose. Reviews and evaluates available information concerning safety and effectiveness of active ingredients in current and long-acting sulfas. Meeting will include discussion of confidential information and formulation of recommenda-

committee both for meetings open to the public and those meetings closed to the public in accordance with section

arguments to show why approval of NADA No. 6-737V and NADA No. 7-495V should not be withdrawn. Promulgation

21 U.S.C. 360b) and under the authority delegated to the Commissioner (21 CFR 2.120).

(2) The ultrastructure and development of generative cells in geranium pollen grain and pollen tube; and

(3) The role of generative organelles (amyloplasts and mitochondria) in male transmission of cytoplasmic inherited characters in several plants, and ultrastructure of the walls of pollen grains.

The article will also be used in the course, Biology Science 202, Cytology, to present an introduction to the structure and related functions of plant and animal cells and protoplasmic systems. In addition the article will be used in the course Biological Preparations for Electron Microscopy to present theory and provide actual experience in preparing biological specimens for electron microscopy. Application received by Commissioner of Customs: October 24, 1972.

Docket No.: 73-00212-33-19000. Applicant: Boston University School of Medicine, 80 East Concord Street, Boston, MA 02118. Article: Precision Density Meter for Liquids and Gases, Model No. DMA 02C-DMA 190. Manufacturer: Anton Paar, KG, Austria. Intended use of article: The article is intended to be used for rapid and accurate determination of liquids and gases. The materials to be investigated are biological lipids to be studied individually and in various combinations as suspensions or true solutions in water and in aqueous buffers.

They comprise the phospholipids; phosphatidyl choline, phosphatidyl ethanolamine, phosphatidyl serine, phosphatidyl inositol, sphingomyelin and cardiolipin, etc., cholesterol, other sterols and cholesterol esters and waxes, bile salts, lysophosphatides and certain gangliosides. Application received by Commissioner of Customs: October 19, 1972.

B. BLANKENHEIMER,
Acting Director,
Office of Import Programs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Notice of Meetings

Pursuant to Executive Order 11671, the Food and Drug Administration announces the following public advisory committee meetings and other required information in accordance with provisions set forth in section 13(a) (1) and (2) of that order:

Committee name	Date, time, place	Type of meeting and contact person
1. Panel on Review of Antacids.	Dec. 8 and 9, 9 a.m., Conference Room K, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Dec. 8, 9 a.m. to 10 a.m. Closed Dec. 8 after 10 a.m. Closed Dec. 9. Armond Welch, Room 10B-06, 5600 Fishers Lane, Rockville, Md. 20852. 301—443-3501.

Purpose. Reviews and evaluates available information concerning safety and effectiveness of active ingredients in currently marketed nonprescription antacid products.

Agenda. Continuing review of over-the-counter antacid products under investigation. Meeting will include discussion of confidential information and formulation of recommendations.

Committee name	Date, time, place	Type of meeting and contact person
2. Radiopharmaceuticals Advisory Committee.	Dec. 11 and 12, 9 a.m., Conference Room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Dec. 11, 9 a.m. to 10 a.m. Closed Dec. 11 after 10 a.m. Closed Dec. 12. Earl Meyers, Ph.D. Room 11B-20, 5600 Fishers Lane, Rockville, Md. 20852. 301—443-4250.

Purpose. Advises the Commissioner of Food and Drugs regarding safety and efficacy of drugs employed in nuclear medicine.

Agenda. Orientation of new members and discussion of package inserts for radiopharmaceuticals with respect to evaluation of safety problems and adequacy of effectiveness data. Closed portion of meeting will include discussion of confidential information and formulation of recommendations.

Committee name	Date, time, place	Type of meeting and contact person
3. Panel on Review of Cough, Cold, Allergy, Bronchodilator, and Antiasthmatic Agents.	Dec. 11 and 12, 9 a.m., Conference Room 13B-45, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Dec. 11, 9 a.m. to 10 a.m. Closed Dec. 11 after 10 a.m. Closed Dec. 12. Thomas DeCillis, Room 10B-06, 5600 Fishers Lane, Rockville, Md. 20852. 301—443-3501.

Purpose. Reviews and evaluates available information concerning safety and effectiveness of active ingredients in currently marketed nonprescription drugs containing cough, cold, allergy, bronchodilator, and antiasthmatic agents.

Agenda. Continuing review of over-the-counter drug products under investigation. Meeting will include discussion of confidential information and formulation of recommendations.

Committee name	Date, time, place	Type of meeting and contact person
4. Anti-infective Agents Advisory Committee.	Dec. 11 and 15, 9 a.m., Conference Room F, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Dec. 14, 9 a.m. to 10 a.m. Closed Dec. 11 after 10 a.m. Closed Dec. 15. Jean D. Lockhart, M.D., Room 12B-45, 5600 Fishers Lane, Rockville, Md. 20852. 301—443-4310.

Purpose. Advises the Commissioner of Food and Drugs regarding safety and effectiveness of drugs employed in the treatment of infectious diseases.

Agenda. Topical gentamicin, safety, and efficacy of trimethoprimsulfamethoxazole, comments on new antibiotic disc regulations, penicillin G combinations, and long-acting sulfas. Meeting will include discussion of confidential information and formulation of recommendations.

Committee name	Date, time, place	Type of meeting and contact person
5. Panel on Review of Cardiovascular Devices.	Dec. 15, 9:30 a.m., Room 6821, 200 C Street SW., Washington, DC.	Open 9:30 a.m. to 10:30 a.m. Closed after 10:30 a.m. David M. Link, Room 212B, 1901 Chapman Ave., Rockville, Md. 20852. 301—443-1713.

Purpose. Reviews and evaluates available information concerning safety, effectiveness, and reliability of cardiovascular medical devices currently in use.

Agenda. Continuing review of cardiovascular medical devices under investigation. Meeting will include discussion of confidential information and formulation of recommendations.

Committee name	Date, time, place	Type of meeting and contact person
6. Panel on Review of Antimicrobial Agents.	Dec. 14 to 16, 9 a.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Dec. 14, 9 a.m. to 10 a.m. Closed Dec. 14 after 10 a.m. Closed Dec. 15 and 16. Michnel Kennedy, Room 10B-06, 5600 Fishers Lane, Rockville, Md. 20852. 301—433-3501.

Purpose. Reviews and evaluates available information concerning safety and effectiveness of active ingredients in currently marketed nonprescription antimicrobial drug products.

Agenda. Continuing review of over-the-counter antimicrobial agents under investigation. Meeting will include discussion of confidential information and formulation of recommendations.

Committee name	Date, time, place	Type of meeting and contact person
7. Panel on Review of Anesthesiology Devices.	Dec. 19, 9:30 a.m., Room 6821, 200 C Street SW., Washington, DC.	Open 9:30 a.m. to 10:30 a.m. Closed after 10:30 a.m. David M. Link, Room 212B, 1901 Chapman Ave., Rockville, MD. 20852. 301—443-1713.

Purpose. Reviews and evaluates available information concerning safety, effectiveness, and reliability of anesthesiology devices currently in use.

Agenda. Continuing review of anesthesiology devices under investigation. Meeting will include discussion of confidential information and formulation of recommendations.

Agenda items are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 13(d) of Executive Order 11671 and the Secretary's notice of determination of September 27, 1972, published in the FEDERAL REGISTER of October 5, 1972 (37 F.R. 20995).

Dated: November 27, 1972.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[FR Doc.72-20642 Filed 11-29-72;8:52 am]

[Docket No. FDC-D-484; NADA No. 6-737V and NADA No. 7-495V]

HILLTOP LABORATORIES, INC., AND BEEBE LABORATORIES, INC.

Certain Drug Products Containing Sulfaquinoxaline; Notice of Opportunity for a Hearing

In an announcement in the FEDERAL REGISTER of July 9, 1970 (35 F.R. 11069, DESI 6391V), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of reports received from the National Academy of Sciences—National Research Council, Drug Efficacy Study Group, on Sulfaquin-O-Mor, NADA (new animal drug application) No. 6-737V; marketed by Hilltop Laboratories, Inc., 2035 East Larpenteur Avenue, St. Paul, Minn. 55109 and B-B-Q Liquid, NADA No. 7-495V; marketed by Beebe Laboratories, Inc., 2035 East Larpenteur Avenue, St. Paul, Minn. 55109. The announcement invited the holder of said NADA's and any other interested persons to submit pertinent data on the drugs' effectiveness.

No data were received in response to the announcement and available information fails to provide substantial evidence that these drugs will have the effect they purport to have when administered in accordance with the conditions of use prescribed, recommended, or suggested in their labeling.

Therefore, notice is given to Hilltop Laboratories, Inc., Beebe Laboratories, Inc., and to any other interested person who may be adversely affected that the Commissioner proposes to issue an order under the provisions of section 512 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b) withdrawing approval of NADA No. 6-737V and NADA No. 7-495V including all amendments and supplements thereto. This action is proposed on the grounds that there is a lack of substantial evidence that the drugs have the effect they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In accordance with the provisions of section 512 of the Act (21 U.S.C. 360b), the Commissioner will give the applicants and any other interested person who would be adversely affected by an order withdrawing such approvals an opportunity for a hearing at which time such persons may produce evidence and arguments to show why approval of NADA No. 6-737V and NADA No. 7-495V should not be withdrawn. Promulgation of the order will cause any drugs similar in composition to the above cited drug products and recommended for similar conditions of use to be a new animal drug for which an approved new animal drug application is not in effect. Any such drug then on the market will be subject to appropriate regulatory action.

Within 30 days after publication hereof in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Food and Drug Administration, Room 6-88, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing; or

2. Not to avail themselves of the opportunity for a hearing. If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner, without further notice, will enter a final order withdrawing approval of the new animal drug application.

Failure of such persons to file a written appearance of election within said 30 days will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process which the Commissioner finds is entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing, they must file a written appearance requesting the hearing and giving the reasons why approval of the new animal drug applications should not be withdrawn together with a well-organized and full-factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition to the grounds for this notice. A request for a hearing may not rest mere allegations or denials but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, the Commissioner will enter an order stating his findings and conclusions on such data. If a hearing is requested and is justified by the response to this notice, the issues will be defined, an administrative law judge will be named, and he shall issue a written notice of the time and place at which the hearing will commence.

Responses to this notice will be available for public inspection in the Office of the Hearing Clerk (address given above), during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under the authority delegated to the Commissioner (21 CFR 2.120).

Dated: November 20, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

INTERSTATE COMMERCE COMMISSION

[Notice 126]

ASSIGNMENT OF HEARINGS

NOVEMBER 27, 1972.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the official docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

RRA MC 1251, Passenger Automobiles and Trucks Auto Driveaway Co., now assigned November 28, 1972, at Washington, D.C., is canceled and application dismissed.

MC-C-7776, Cooper Transfer Co., Inc.—Investigation and Revocation of Certificates, now assigned November 28, 1972, at Birmingham, Ala., is canceled.

MC 123407 Sub 101, Sawyer Transport, Inc., now assigned February 7, 1973, at Chicago, Ill., is postponed indefinitely.

MC-F-11593, Gordons Transports, Inc.—Purchase—J. B. Reed Motor Express, Inc., and MC 11220 Sub 126, Gordons Transport, Inc., now being assigned hearing February 7, 1973 (2 days), at Chicago, Ill., in a hearing room to be later designated.

MC 668 Sub 95, Inter City Transportation Co., Inc., Donald A. Robinson, trustee, now being assigned hearing January 15, 1973 (1 week), at Newark, N.J., in a hearing room to be later designated.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

York within 100 miles of New York, N.Y., for 180 days. NOTE: Applicant presently holds authority for the same transportation from New York, N.Y., as origin, to the same destination territory, and does not seek duplicating authority by this application. Supporting shippers: Merchants Glass Distributors, Inc., Henderickson Avenue, Lynbrook, Long Island, NY 11563; Bienenfeld Industries, Inc., 1539 Covert Street, Brooklyn, NY 11227; Sentinel Enterprises, Inc., 2138 Biscayne Boulevard, Miami, FL 33137; Amworth Industries Corp., 42 Chasner Street, Hempstead, NY 11550; Daniel De Gorter, Inc., 1044 Northern Boulevard, Roslyn, NY 11576; Remington Aluminum, Window Corp., 999 Stewart Avenue, Garden City, NY 11530; John De Gorter, Inc., 1044 Northern Boulevard, Roslyn, NY 11576; Seaply Glass Corp., 271 North Avenue, New Rochelle, NY 10802. Send protests to: Thomas W. Hopp, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 26 Federal Plaza, New York, NY 10007.

No. MC 42828 (Sub-No. 4 TA), filed November 3, 1972. Applicant: THEODORE ROSSI TRUCKING CO., INC., 9 South Vine Street, Barre, VT 05641. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Granite*, from the piers in New York, N.Y., and Port Newark, N.J., to Barre and Montpelier, Vt., for 90 days. Supporting shipper: Granite Importers, Inc., Barre, Vt. Send protests to: District Supervisor Martin P. Monaghan, Jr., Interstate Commerce Commission, Bureau of Operations, 52 State Street, Room 5, Montpelier, VT 05602.

No. MC 71459 (Sub-No. 32 TA), filed October 26, 1972. Applicant: O. N. C. FREIGHT SYSTEMS, 2800 West Bayshore Road, Palo Alto, CA 94303. Applicant's representative: C. J. Boddington (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment and those injurious or contaminating to other lading, in interstate or foreign commerce, from junction U.S. Highway 89 and U.S. Highway 160 near Tuba City, Ariz., to Alamosa, Colo., over regular routes as follows: from junction U.S. Highway 89 and U.S. Highway 160 (near Tuba City, Ariz.), over U.S. Highway 160 to Alamosa, Colo., and return over the same route, serving all intermediate points, for 180 days. NOTE: Applicant does intend to tack authority here applied for to other authority held by it with MC 71459 and Subs and to interline with carriers at Alamosa, Colo. Supported by: There are approximately 39 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor Claud W. Reeves, Interstate Commerce Commission, Bureau of Operations, 450 Golden Gate Avenue, Box 36004, San Francisco, CA 94102.

No. MC 74321 (Sub-No. 62 TA), filed November 6, 1972. Applicant: B. F. WALKER, INC., 650—17th Street, Denver, CO 80202. Applicant's representative: J. Marshall Forsyth (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel beams*, from the Port of Catoosa, Okla., to points in Arkansas, Colorado, Kansas, Missouri, Nebraska, Oklahoma, and Texas, for 180 days. Supporting shipper: Jones and Laughlin Steel Corp., Three Gateway Center, Pittsburgh, PA. Send protests to: District Supervisor Roger L. Buchanan, Bureau of Operations, Interstate Commerce Commission, 2022 Federal Building, 1961 Stout Street, Denver, CO 80202.

No. MC 77340 (Sub-No. 6 TA), filed November 3, 1972. Applicant: E. J. DICKIE TRUCKING CO. (Arizona Corporation), 521 Bogart Street, Post Office Box 265, Bagdad, AZ 86321. Applicant's representative: Richard Minne, 609 Luhrs Building, Phoenix, AZ 85003. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lime*, in bulk, from the plant of Flintkote Co., U.S. Lime Division at Arrolime, Nev., to Bagdad, Ariz., for 180 days. Supporting shipper: Bagdad Copper Corp., Bagdad, Ariz. 86321. Send protests to: Andrew V. Baylor, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 3427, Federal Building, 230 North First Avenue, Phoenix, AZ 85025.

No. MC 102982 (Sub-No. 29 TA), filed November 8, 1972. Applicant: GEORGE W. KUGLER, INC., 2800 East Waterloo Road, Post Office Box 6064, Ellet Station, Akron, OH 44312. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Propane gas*, in bulk, from Marcus Hook, Pa., to the plantsite and storage facilities of Griffin Pipe Products Co., at Florence, Burlington County, N.J., restricted to service performed under continuing contract with Griffin Pipe Products Co., Oak Brook, Ill., for 180 days. Supporting shipper: Griffin Pipe Products Co., 2000 Spring Road, Oak Brook, IL 60521. Send protests to: Franklin D. Ball, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 181 Federal Office Building, 1240 East Ninth Street, Cleveland, OH 44199.

No. MC 103051 (Sub-No. 260 TA), filed November 8, 1972. Applicant: FLEET TRANSPORT COMPANY, INC., 934 44th Avenue, North, Post Office Box 90408, Nashville, TN 37209. Applicant's representative: W. G. North (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils and/or animal fats*, in bulk, in tank vehicles, moving on commercial bills of lading, from Chattanooga, Tenn., to Milwaukee, Wis., for 180 days. Supporting shipper: Swift Edible Oil Co., Chicago, Ill. Send protests to: Joe J. Tate, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Suite 803, 1808 West End Building, Nashville, TN 37203.

No. MC 103191 (Sub-No. 36 TA), filed November 7, 1972. Applicant: THE GEO. A. RHEMAN CO., INC., Post Office Box 2095, Station A, Charleston, SC 29403. Applicant's representative: Harris G. Andrews, Post Office Box 4255, Greenville, SC 29608. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid animal feed*, in bulk, from Fountain Inn, S.C., to points in Georgia and North Carolina, for 180 days. Supporting shipper: Allied Chemical Corp., Post Office Box 2120, Houston, TX 77001. Send protests to: E. E. Strotheid, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 300 Columbia Building, 1200 Main Street, Columbia, SC 29201

No. MC 107515 (Sub-No. 814 TA), filed November 2, 1972. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, 3901 Jonesboro Road, Forest Park, GA 30050. Applicant's representative: Alan E. Serby, Suite 1600, First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Crozet, Va., to points in Illinois, Indiana, Ohio, Michigan, Pennsylvania, Kentucky, West Virginia, and New York, for 150 days. Supporting shipper: ITT Continental Baking Co., Inc., Morton Frozen Foods Division, Post Office Box 731, Rye, NY 10580. Send protests to: William L. Scroggs, Interstate Commerce Commission, Bureau of Operations, Room 309, 1252 West Peachtree Street NW., Atlanta, GA 30309.

No. MC 107515 (Sub-No. 815 TA), filed November 2, 1972. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, 3900 Jonesboro Road SE., Forest Park, GA 30050. Applicant's representative: Alan E. Serby, Suite 1600, First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products, yogurt, and dessert preparations*, in vehicles equipped with mechanical refrigeration, from the plantsite and storage facilities of Breakstone Sugar Creek Foods, a division of Kraftco Corp. at Walton, N.Y., to points in North Carolina, South Carolina, Georgia, and Florida, for 150 days. Supporting shipper: Breakstone Sugar Creek Foods, Division of Kraftco Corp., 450 East Illinois Street, Chicago, IL 60611. Send protests to: William L. Scroggs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1252 West Peachtree Street NW., Room 309, Atlanta, GA 30309.

No. MC 109689 (Sub-No. 240 TA), filed November 10, 1972. Applicant: W. S. HATCH CO., Office: 643 South 800 West Street, Wood Cross, UT 84087, Mail: Post

Office Box 1825, Woods Cross, UT 84110. Applicant's representative: Mark K.

under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 200 (Sub-No. 257 TA), filed November 8, 1972. Applicant: RISS INTERNATIONAL CORP., 903 Grand Avenue, Post Office Box 2809—ZIP 64142, Kansas City, MO 64106. Applicant's representative: Ivan E. Noody (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the distribution terminal of Spiegel, Inc., at Monocacy, Union Township, Berks County, Pa., as an off-route point in connnection with applicant's regular route authority, for 150 days. NOTE: Riss has regular route authority on U.S. Highways 22 and 30 and the Pennsylvania Turnpike and all of applicant's present routes will be utilized. Supporting shipper: Spiegel, Inc., 2511 West 23d Street, Chicago, IL 60608. Send protests to: Vernon V. Coble, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 1100, Federal Office Building, 911 Walnut Street, Kansas City, MO 64106.

No. MC 2202 (Sub-No. 424 TA), filed November 2, 1972. Applicant: ROADWAY EXPRESS, INC., Post Office Box 471, 1077 Gorge Boulevard, Akron, OH 44309. Applicant's representative: James W. Conner (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between Meridian, Miss., and Florence, Ala., serving the facilities of Mueller Brass at or near Fulton, Miss., as an off-route point, and serving Meridian, Miss., and Florence, Ala., for purpose of joinder only, from Meridian over U.S. Highway 45 to the junction of U.S. Highway 45 and Mississippi Highway 25, thence over Mississippi Highway 25 to the junction of Mississippi Highway 25 and U.S. Highway 78, thence over U.S. Highway 78 to the junction of U.S. Highways 28 and 43, thence over U.S. Highway 43 to Florence, Ala., and return over the same route; and (2) between Memphis, Tenn., and the junction of U.S. Highways 278 and 431, serving the facilities of Mueller Brass at or near Fulton, Miss., as an off-route point, and serving Memphis, Tenn., and the junction of U.S. Highways 278 and 431 for purpose of joinder only, from Memphis, over U.S. Highway 78 to the junction of U.S. Highway 78 to the junction of U.S. Highways 78 and 278, thence over U.S. Highway 278 to the junction of U.S. Highways 278 and 431, and return over the same route. Restriction: Restricted against the transportation of traffic originating at or destined to Memphis, Tenn., or points in its commercial zone, for 180 days. NOTE: Applicant states that it will tack with authority in MC-2202 and Subs thereto, and will affect interchange at all points served. Supporting shipper: Federal Pacific Electric Co., 1820 Statesville Avenue, Charlotte, NC 28206. Send protests to: Franklin D. Bail, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 181 Federal Office Building, 1240 East Ninth Street, Cleveland, OH 44199.

No. MC 3252 (Sub-No. 83 TA), filed November 6, 1972. Applicant: MERRILL TRANSPORT CO., 1037 Forest Avenue, Portland, ME 04103. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, MA 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Ticonderoga, N.Y., to Montpelier, Barre, Boltonville, Northfield, Plainfield, Waitsfield, Waterbury, Wells River, Randolph, and Royalton, Vt., for 180 days. Supporting shipper: Amerada Hess Corp., 1 Hess Plaza, Woodbridge, NJ 07095. Send protests to: Donald G. Weller, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 307, 76 Pearl Street, Portland, ME 04112.

No. MC 9251 (Sub-No. 2 TA), filed November 10, 1972. Applicant: S & M TRUCK LINE, INC., 510 North Water Street, Silverton, OR 97381. Applicant's representative: Raymond Zollner (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wallboard, plywood, mouldings, and building materials*, from Vancouver, Wash., to Silverton, Oreg., for 180 days. Supporting shippers: Redman Mobile Homes, Inc., 1204 Mill Street, Silverton, OR 97381; Vanply, Inc., Post Office Box 720, Vancouver, WA 98660. Send protests to: A. E. Odoms, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 450 Multnomah Building, 319 Southwest Pine Street, Portland, OR 97204.

No. MC 16872 (Sub-No. 14 TA), filed November 8, 1972. Applicant: WILLIAM MIRRER, doing business as MIRRER'S TRUCKING CO., 54 East 11th Street, Paterson, NJ 07524. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Washing, cleaning and scouring compounds*, except commodities in bulk, from Paterson, N.J., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas (except New York, N.Y., and points in the New York, N.Y., commercial zone as defined by the Commission, Nassau, Rockland, and Westchester Counties, N.Y.), under contract with Witco Chemical Co., Ultra Division, Paterson, N.J., for 180 days. Supporting shipper: Witco Chemical Co., Ultra-Division, 2 Wood, Paterson, NJ 07524. Send protests to: District Supervisor Robert E. Johnston, Interstate Commerce Commission, Bureau of Operations, 970 Broad Street, Newark, NJ 07102.

No. MC 29120 (Sub-No. 146 TA), filed November 9, 1972. Applicant: ALL-AMERICAN TRANSPORT, INC., 1500 Industrial Avenue, Post Office Box 769, 57101, Sioux Falls, SD 57104. Applicant's representative: Allan C. Zuckerman, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Refrigerators, refrigeration, and electrical equipment, appliances, and parts, materials and supplies* used in the manufacture, repair and distribution of such commodities, from Amana, Iowa, to Kansas City, Kans., Pittsburgh, Pa., and points in Indiana, Kentucky, Michigan, Missouri, North Dakota, Ohio, South Dakota, and Wisconsin, and (2) *cleaning solvents*, in containers, from Cleveland, Ohio, to Amana, Iowa, for 180 days. Supporting shipper: Amana Refrigeration, Inc., Amana, Iowa 52203, Edward A. Morris, Jr., Traffic Manager. Send protests to: J. L. Hammond, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 369, Federal Building, Pierre, SD 57501.

No. MC 36629 (Sub-No. 2 TA), filed November 1, 1972. Applicant: STEINWAY TRUCKING, INC., 41-06 19th Avenue, Astoria, NY 11102. Applicant's representative: Arthur J. Piken, Suite 1515, One Lefrak City Plaza, Flushing, NY 11368. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Building glass*, from the piers and wharves in the New York, N.Y., commercial zone, as defined by the Commission in Fifth Supplemental Report in commercial zones and terminal areas, 53-MCC-451, within which local operations may be conducted under the exempt provisions provided by section 203 (Sub-B (8) of the Act, exempt zone), to points in Connecticut, New Jersey, Massachusetts, Rhode Island, and that part of Pennsylvania on and east of U.S. Highway 15, and that part of New

[Order 35539]

LOUISIANA INTRASTATE FREIGHT RATES AND CHARGES, 1972

Assignment for Hearing and Directing Special Procedure

It appearing, that by order dated March 13, 1972, the Commission, Division 2, instituted an investigation under section 13 of the Interstate Commerce Act to determine whether the intrastate rates and charges of the petitioning carriers by railroads, or any of them, operating in the State of Louisiana, for the intrastate transportation of property, made or imposed by the State of Louisiana, as previously indicated, cause or will cause, by reason of the failure of such rates and charges to include increases corresponding to those authorized on interstate traffic by this Commission in Ex Parte Nos. 265 and 267, Increased Freight Rates, 1970 and 1971, 339 I.C.C. 125, Ex Parte No. 262, Increased Freight Rates, 1969, 337 I.C.C. 436, Ex Parte No. 259, Increased Freight Rates, 1968, 322 I.C.C. 590 and 332 I.C.C. 714, Ex Parte No. 256, Increased Freight Rates, 1967, 329 I.C.C. 854 and 332 I.C.C. 280, Ex Parte No. 223, Increased Freight Rates, 1960, 311 I.C.C. 373, Ex Parte No. 223 (Sub-No. 1) Minimum Charges Per Car, 313 I.C.C. 563, Ex Parte No. 223 (Sub-No. 2), Increased Switching Charges, 315 I.C.C. 199, 318 I.C.C. 485, and 322 I.C.C. 560, Ex Parte No. 223 (Sub-No. 3), Increased Rates on Iron Ore, 313 I.C.C. 549, Ex Parte No. 223 (Sub-No. 5), Increased Rates on Coal and Petroleum Coke, 316 I.C.C. 159, Ex Parte No. 223 (Sub-No. 9), Increased Rates on Fresh Fruits and Vegetables, 313 I.C.C. 519, and Ex Parte No. 223 (Sub-No. 10), Increased Freight Rates, 1960 (Rule 7), 313 I.C.C. 471, and Ex Parte No. 212, Increased Freight Rates, 1958, 302 I.C.C. 665 and 304 I.C.C. 289, any undue or unreasonable advantage, preference, or prejudice, as between persons or localities in intrastate commerce on the one hand, and those in interstate or foreign commerce, on the other, or any undue unreasonable, our unjust discrimination against, or undue burden on, interstate or foreign commerce, and to determine what rates and charges, if any, or what maximum, or minimum or maximum and minimum, rates and charges should be prescribed to remove the unlawful advantage, preference, discrimination or undue burden, if any, that may be found to exist.

And it further appearing, that upon consideration of the record in the above-entitled proceeding, this matter is one which should be referred to an administrative law judge for hearing and requires the adoption of special procedure for the purpose of expediting the hearing; and for good cause shown:

It is ordered, That the above-entitled proceeding be, and it is hereby, referred to an administrative law judge for hearing and for recommendation of an appropriate order thereon, accompanied by the reasons therefor.

It is further ordered, That on or before December 28, 1972, the respondents and any persons in support thereof shall file with the Commission three copies of the verified statements of their witnesses, in writing, together with any studies to be offered at the hearing, with a statement where the underlying workpapers to such studies will be available for inspection by parties to the proceeding and at the same time, serve a copy of such prepared material upon all parties listed in Appendix A attached hereto and any additional persons who make known their desire to actively participate in the proceeding on or before December 21, 1972.

It is further ordered, That on or before January 29, 1973, protestants shall file with the Commission, three copies of reply verified statements of their witnesses, in writing, and at the same time, serve a copy of such prepared material upon all persons listed in Appendix A hereto and any additional persons who make known their desire to actively participate on or before December 21, 1972. Attached hereto as Appendix A is a list of all known persons who have indicated their desire to actively participate in the proceeding. Any additional persons who desire to actively participate and receive copies of the prepared material to be served shall notify the Commission, in writing, on or before December 21, 1972, as well as all persons listed in Appendix A attached hereto. Otherwise, any interested person desiring to participate in this proceeding may make his appearance at the hearing.

It is further ordered, That parties desiring to cross-examine witnesses who have submitted verified statements shall give notice to that effect, in writing, to the affiant and his counsel, if any, on or before February 12, 1973, a copy of such notice to be filed simultaneously with the Commission, together with a request for any underlying data that the witnesses will be expected to have available for immediate reference at the hearing. All verified statements and attachments as to which no cross-examination is requested will be considered as part of the record. Any witness who has been requested to appear for cross-examination but fails to do so, subjects his verified statement to a motion to strike.

It is further ordered, That a hearing will be held commencing on February 26, 1973, at 9:30 a.m. U.S. standard time in New Orleans, La., at a hearing room to be later designated, for the purpose of hearing cross-examination of witnesses so requested; to afford opportunity to present evidence in opposition to the cross-examination; and such other pertinent evidence which the judge deems necessary to complete the record.

And it is further ordered, That a copy of this order be served upon the respondents and protestants; that the State of Louisiana be notified of the proceeding by sending a copy of this order by certified mail to the Governor of Louisiana, Baton Rouge, La., and a copy to the Louisiana Public Service Commission, Baton Rouge, La.; and that further notice of this proceeding be given to the public by depositing a copy of this order in the Office of the Secretary of this Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, Washington, D.C., for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 20th day of November 1972.

By the Commission, Commissioner Brown.

[Notice 97]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

NOVEMBER 24, 1972.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure reasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

issuc of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 2860 (Sub-No. 118), filed October 27, 1972. Applicant: NATIONAL FREIGHT, INC., 57 West Park Avenue, Vineland, NJ 08360. Applicant's representative: Jacob P. Billig, 1108 16th Street NW., Suite 400, Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electric and gas appliances and parts thereof*, from Appliance Park/East, Columbia, Md., to points in Maine, New Hampshire, and Vermont. NOTE: Common control may be involved. Applicant states that the requested authority could be tacked with its existing authority at Columbia, Md., to serve points in the Middle Atlantic Territory. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 3854 (Sub-No. 19), filed October 30, 1972. Applicant: BURTON LINES, INC., East Durham Station, Post Office Box 11306, Durham NC 27703. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Building, Pennsylvania Avenue and 13th Street NW., Washington, DC 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Reconstituted, reconstructed, or homogenized tobacco*, from Danville, Va., and Spotswood, N.J., to Louisville, Ky. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 19227 (Sub-No. 173), filed October 24, 1972. Applicant: LEONARD BROS. TRUCKING CO., INC., 2595 Northwest 20th Street, Miami, FL 33152. Applicant's representative: J. F. Dewhurst (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Signs, sign parts, attachments; accessories, and equipment* used in connection with or installation thereof, between the plantsites of Federal Sign and Signal Corp. at Los Angeles and Oakland, Calif.; Knoxville, Tenn.; Portland, Oreg.; Louisville, Ky.; Burr Ridge, Ill.; and Arlington, Tex., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). NOTE: Common control may be involved. Applicant states that the requested authority, cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif., or Miami, Fla.

No. MC 19227 (Sub-No. 174), filed October 25, 1972. Applicant: LEONARD BROS. TRUCKING CO., INC., 2595 Northwest 20th Street, Miami, FL 33152. Applicant's representative: J. Fred Dewhurst (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Equipment shelters* from Port Jervis, N.Y., to Austin, Tex. NOTE: Common control may be involved. Applicant states it holds authority under MC 19227 to transport commodities, the transportation of which because of size or weight requires the use of special equipment, between points in New York and points in Florida, which can be tacked with its authority under Sub-No. 43 which authorizes transportation of the same commodities between points in Florida and points in Texas, and that the purpose of this application is to eliminate the Florida Gateway. Applicant further states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 26396 (Sub-No. 63), filed October 27, 1972. Applicant: POPELKA TRUCKING CO., a corporation doing business as: THE WAGGONERS, Post Office Box 990, Livingston, MT 59047. Applicant's representative: Jacob P. Billig, 1108 16th Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber products and articles of particle board*, from points in Montana to points in Arizona, Arkansas, Louisiana, Kentucky, Tennessee, Mississippi, Pennsylvania, Alabama, Georgia, Iowa, Minnesota, Nebraska, Nevada, North Dakota, South Dakota, Illinois, Wisconsin, California, Oregon, Washington, Wyoming, Utah, Idaho, and Colorado. NOTE: Applicant states that the requested authority can be tacked with its existing authority under MC 26396 and Subs thereunder. However, applicant does not specify where such physical operation would connect and the territory that would be served through such tacking. Applicant further states that its Sub 50 also duplicates in part the authority sought herein. Applicant holds contract carrier authority under MC 136777, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Billings, Mont.

No. MC 29120 (Sub-No. 147), filed November 6, 1972. Applicant: ALL-AMERICAN TRANSPORT, INC., Post Office Box 769, Sioux Falls, SD 57101. Applicant's representative: Axelrod, Goodman, Steiner & Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Refrigerators, refrigeration and electrical equipment, appliances, and parts, materials, and supplies* used in the manufacture, repair and distribution of such commodities, from Amana, Iowa to Kansas City, Kans., Pittsburgh, Pa., and points in Indiana, Kentucky, Michigan, Missouri, North Dakota, Ohio, South Dakota, and Wisconsin; and (2) *cleaning solvents*, in containers from Cleveland, Ohio, to Amana, Iowa. NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 32505 (Sub-No. 9), filed October 24, 1972. Applicant: VINCI's EXPRESS, INC., 404 Madison Avenue, Woodbine, NJ 08270. Applicant's representative: Morton E. Kiel, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, and commodities requiring special equipment), between points in Cape May County, N.J., on the one hand, and, on the other, points in the New York, N.Y. commercial zone. NOTE: Applicant is presently authorized to transport clothing from Woodbine, N.J. to New York, N.Y., cloth from New York, N.Y., and fish from Sea Isle City, N.J. to New York, N.Y., therefore duplicating authority may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Cape May, N.J.

No. MC 35628 (Sub-No. 340), filed October 20, 1972. Applicant: INTERSTATE MOTOR FREIGHT SYSTEM, a corporation, 134 Grandville, SW., Grand Rapids, MI 49502. Applicant's representative: Leonard D. Verdier, Jr., 900 Old Kent Building, Grand Rapids, Mich. 49502. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of Northern Indiana Public Service Co., near Wheatfield, Ind., as an off-route point in connection with applicant's presently authorized operations between Michigan City and Lafayette, Ind., and between Evansville, Ind., and Chicago, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Lansing, Mich.

No. MC 44447 (Sub-No. 29), filed October 23, 1972. Applicant: SUBURBAN MOTOR FREIGHT, INC., 1100 King Avenue, Columbus, OH 43212. Applicant's representative: Taylor C. Burneson, 88 East Broad Street, Suite 1680, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities

in bulk, and commodities requiring special equipment), (a) between Bellaire, Ohio, on the one hand, and, on the other, points in Washington County, Pa., and points in West Virginia on and north of U.S. Highway 50 and west of the West Virginia-Maryland State line near Brookside, W. Va., and (b) between Belpre, Ohio, on the one hand, and, on the other, points in Washington County, Pa., and points in West Virginia on and north of U.S. Highway 50 and west of the West Virginia-Maryland State line near Brookside, W. Va. NOTE: Applicant states it is authorized to transport the above described commodities under MC 44447 (Sub-No. 27) between Powhatan Point, Ohio, and points in Ohio, within 8 miles of Powhatan Point, on the one hand, and, on the other, points in Washington County, Pa., and those in that part of West Virginia on and north of U.S. Highway 50 and west of the West Virginia-Maryland State line near Brookside, W. Va. The Sub 27 authority is tacked with applicant's regular-route authority which is contained in MC 44447 to MC 44447, Sub 26, inclusive. The tacking takes place at Shadyside, Ohio (a point within 8 miles of Powhatan Point). Through the Shadyside gateway, service is rendered by applicant between the points in Ohio, Michigan, Indiana, Illinois, and Kentucky which are specified in MC 44447 to MC 44447, Sub 26, inclusive, on the one hand, and, on the other, the points in Pennsylvania and West Virginia which are specified in MC 44447, Sub 27, that its proposal is to use Bellaire and Belpre, Ohio (in lieu of Shadyside, Ohio, as gateways in connection with its operations, as aforesaid, between points in Ohio, Michigan, Indiana, Illinois, and Kentucky on the one hand, and, on the other, points in Pennsylvania and West Virginia, and at the same time, applicant would continue rendering local and joint-line service between Powhatan Point, Ohio, and points in Ohio within 8 miles of Powhatan Point, on the one hand, and, on the other, points in Washington County, Pa., and points in West Virginia on and north of U.S. Highway 50 and west of the West Virginia-Maryland State line near Brookside, W. Va. NOTE: Common control and dual operations may be involved. No duplicating authority sought. Applicant further states it is not applying for duplicative authority, and such conditions may be attached to the applied-for "gateway" authority, if granted, as may be deemed by the Commission to be necessary to prevent such authority from being separated from the existing Sub 27 authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio or Washington, D.C.

No. MC 48213 (Sub-No. 34), filed October 30, 1972. Applicant: C. E. LIZZA, INC., Post Office Box 447, Latrobe, PA 15601. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15601. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Water treatment chemicals and compounds, cleaning compounds, drugs, medicines and toilet preparations, textile softeners, activated carbon and water softener equipment; materials, equipment and supplies*, used or useful in the production, use, distribution or sale of the foregoing commodities, between points in Alabama, Arkansas, Connecticut, Delaware, Georgia, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, and Wisconsin, under continuing contracts with Calgon Corp. and Calgon Consumer Products Co., Inc. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington or Pittsburgh, Pa.

No. MC 50069 (Sub-No. 456), filed October 23, 1972. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlywood Avenue, Oregon (Toledo), OH 43616. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Spent hydrochloric acid* from Toledo, Ohio to Detroit, Mich.; and (2) *virgin hydrochloric acid* from Detroit, Mich., to Toledo, Ohio. NOTE: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 50069 (Sub-No. 457), filed October 23, 1972. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon (Toledo), OH 43516. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Kentucky, Illinois, Indiana, Ohio, Pennsylvania, and Missouri to Bay City and Midland, Mich. NOTE: Common control and dual operations may be involved. No duplicating authority sought. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 51146 (Sub-No. 296), filed August 25, 1972. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, WI 54304. Applicant's representative: Charles Singer, Suite 1000, 327 South La Salle, Chicago, IL 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic containers*, from Watertown, Mass., to points in Maine, Vermont, Connecticut, New Hampshire, Rhode Island, New York, New Jersey, Illinois, Pennsylvania, Ohio, West Virginia, Maryland, Delaware, and Virginia. NOTE: Common control may be involved. Applicant states that the requested authority will be tacked with its existing authority where feasible but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 51146 (Sub-No. 297), filed August 31, 1972. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, WI 54304. Applicant's representative: Neil DuJardin, Post Office Box 2298, Green Bay, WI 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic containers*, from Forest Park, Ga., to points in Delaware, Maryland, Virginia, West Virginia, Ohio, Indiana, Illinois, Missouri, Kentucky, Oklahoma, Arkansas, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, and Texas. NOTE: Common control may be involved. Applicant states that the requested authority could possibly be tacked with various subs of MC 51146 and applicant will tack with its MC 51146 where feasible. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states that it has various duplicative items under various subs but does not seek duplicative authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 52709 (Sub-No. 318), filed October 20, 1972. Applicant: RINGSBY TRUCK LINE, INC., 5773 So. Prince Street, Littleton, CO 80120. Applicant's representative: Robert P. Tyler (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the warehouse site of Western Electric located at or near Underwood, Iowa as an off-route point in connection with applicant's operations via Omaha, Nebr. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 57315 (Sub-No. 22), filed October 24, 1972. Applicant: TRI-STATE TRANSPORT, INC., 91 Heard Street, Chelsea, MA 02150. Applicant's representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meats*, from Portsmouth, N.H. and New Bedford, Mass. to points in Connecticut, Massachusetts, and Rhode Island. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority.

If a hearing is deemed necessary, appli-

points in Arizona and Colorado to points in Oklahoma and New Mexico. NOTE:

No. MC 76661 (Sub-No. 2), filed October 30, 1972. Applicant: SMITH

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities,*

quested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it

Wisconsin, and the plantsite of the Sperry Rand Corp., New Holland Division located at Grant Island, Nebr.; and (c) from the plantsite of the Sperry

If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 59150 (Sub-No. 74), filed October 27, 1972. Applicant: PLOOF TRANSFER COMPANY, INC., 1901 Hill Street, Jacksonville, FL 32202. Applicant's representative: Martin Sack, Jr., 1754 Gulf Life Tower, Jacksonville, Fla. 32207. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal buildings*, knocked down and *parts thereof*, from Cedartown, Ga., to points in Alabama, Louisiana, Mississippi, South Carolina, North Carolina, Virginia, Florida, and Georgia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Jacksonville, Fla., or Atlanta, Ga.

No. MC 61592 (Sub-No. 287), filed October 27, 1972. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald W. Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flat glass and glass glazing units*, from Clinton and Laurinburg, N.C., to points in the United States in and east of Montana, Wyoming, Colorado, and New Mexico. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 61592 (Sub-No. 288), filed October 27, 1972. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, in containers, from Golden, Colo., and the plantsite of Jos. Schlitz Brewing Co., Memphis, Tenn., to points in Oklahoma; and (2) *pallets and/or empty containers*, from points in Oklahoma to the plantsite of Jos. Schlitz Brewing Co., Memphis, Tenn., and Golden, Colo. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla.

No. MC 61592 (Sub-No. 289), filed October 27, 1972. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber mill products*, including particle board, (1) from points in Arizona, Colorado, and New Mexico to points in Arkansas, Illinois, Indiana, Kansas, Kentucky, Michigan, Mississippi, Missouri, Ohio, Tennessee, Texas, and Wisconsin and (2) from points in Arizona and Colorado to points in Oklahoma and New Mexico. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Santa Fe, N. Mex.

No. MC 61592 (Sub-No. 290), filed October 27, 1972. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Snowmobiles, materials, equipment, and supplies* used in the manufacture, distribution, operation and transportation of snowmobiles, between points in the United States (including Alaska but excluding Hawaii). NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 69833 (Sub-No. 104), filed October 18, 1972. Applicant: ASSOCIATED TRUCK LINES, INC., Vandenberg Center, Grand Rapids, Mich. 49502. Applicant's representative: Harry Pohlad and Earl Meisenbach (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, and commodities requiring special equipment), serving Midland, Mich. as an off-route point in connection with its presently authorized regular route operations, between Bay City and Saginaw, Mich., over U.S. Highway 23. NOTE: Applicant has pending in No. MC 69833 (Sub-No. 102) a motor common carrier application to transport calcium chloride from Dow Chemical USA, at Midland, Mich. to irregular route territory including the regular route area herein, therefore duplicating authority may be involved. If a hearing is deemed necessary, applicant requests it be held at Saginaw, Lansing, or Detroit, Mich.

No. MC 72140 (Sub-No. 60), filed October 16, 1972. Applicant: SHIPPERS DISPATCH, INC., 1216 West Sample Street, South Bend, IN 46624. Applicant's representative: Richard L. Andrysiak (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods, as defined by the Commission, Classes A and B explosives, commodities in bulk, and those requiring special equipment), serving the plantsite and warehouse facilities of the Dana Corp. at Edgerton, Wis., as an off-route point in connection with applicant's existing regular-route authority. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 76661 (Sub-No. 2), filed October 30, 1972. Applicant: SMITH TRUCK SERVICE, INC., Southeast of City, Post Office Box 373, Perry, OK 73077. Applicant's representative: Rufus H. Lawson, 106 Bixler Building, Post Office Box 75124, Oklahoma City, OK 73107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Precast or prestress concrete articles and accessories* used in the installation of the above-named commodities, from Tulsa, Okla., to points in Kansas, Missouri, Arkansas, and Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Tulsa or Oklahoma City, Okla.

No. MC 85850 (Sub-No. 8), filed October 22, 1972. Applicant: NEYLON FREIGHT LINES, INC., c/o JONES TRUCK LINES, INC., Springdale, Ark. 72764. Applicant's representative: James B. Blair, 111 Holcomb Street, Springdale, AR 72764. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, packinghouse products, and commodities used by packinghouses*, between Sioux City, Iowa and Omaha, Nebr. NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority so that its service would connect with Jones Truck Lines, Inc. to points in Missouri, Oklahoma, Arkansas, Texas, Kansas, and Tennessee. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City or St. Louis, Mo.

No. MC 94350 (Sub-No. 321), filed October 19, 1972. Applicant: TRANSIT HOMES, INC., Post Office Box 1628, Haywood Road, Greenville, SC 29602. Applicant's representative: Mitchell King, Jr. (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers* designed to be drawn by passenger automobiles in initial shipments, from points in Marshall County, Tenn., to points in the United States (excluding Alaska and Hawaii); and (2) *commodities named in (1) above* and *buildings*, or *sections of buildings* mounted on wheeled undercarriages, from points of manufacture in Monroe County, Ark., to points in the United States (excluding Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn.

No. MC 100623 (Sub-No. 37), filed October 10, 1972. Applicant: HOURLY MESSENGERS, INC., a corporation, H. M. PACKAGE DELIVERY SERVICE, 20th and Indiana Avenue, Philadelphia, PA 19132. Applicant's representative: Harold G. Hernly, Jr., 2030 North Adams Street, Suite 510, Arlington, VA 22201.

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities*, as are sold and dealt in by department stores, specialty shops and retail stores, between Philadelphia, Pa., and its commercial zone, on the one hand, and, on the other, points in Burlington, Camden, Cumberland, Gloucester, Hunterdon, Mercer, Salem, Warren, Atlantic, Ocean, and Cape May Counties, N.J.; Berks, Bucks, Carbon, Chester, Dauphin, Delaware, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Northampton, Schuykill, and York Counties, Pa.; New Castle County, Del., points in Virginia, Maryland, and the District of Columbia. RESTRICTION: The service authorized herein is subject to the following conditions: (1) No service shall be rendered in the transportation of any package or article weighing more than 50 pounds or exceeding 108 inches in length and girth combined, and each package or article shall be considered as a separate and distinct shipment; and (2) no service shall be provided in the transportation of packages or articles weighing in the aggregate more than 100 pounds from one consignor at one location to one consignee at one location on any one day. NOTE: Applicant states that the requested authority can be tacked with its existing authority but has no present intentions to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 103993 (Sub-No. 739), filed October 24, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghesani (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from Crawford County, Ark., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark.

No. MC 106497 (Sub-No. 73), filed October 30, 1972. Applicant: PARKHILL TRUCK COMPANY, a corporation, Business Route I–44 East, Joplin, Mo. 64801. Applicant's representative: A. N. Jacobs, Post Office Box 113, Joplin, MO 64801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roadbuilding, earthmoving, construction, mining, and contractors' machinery and equipment, and parts thereof*, when moving at the same time or separately, from Chattanooga, Tenn., to points in the United States including Alaska (but excluding Hawaii). NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New Orleans, La.

No. MC 107002 (Sub-No. 426), filed October 5, 1972. Applicant: MILLER TRANSPORTERS, INC., Post Office Box 1123 (U.S. Highway 80 West), Jackson, MS 39205. Applicant's representative: John J. Borth, Post Office Box 1123, Jackson, MS 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from Arlington, Tenn., to points in Illinois, Indiana, Iowa, and Texas. NOTE: Applicant states that although the authority sought could be combined with other authorities to perform through service from points, tacking is not contemplated at this time. If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn.

No. MC 107460 (Sub-No. 39), filed October 27, 1972. Applicant: WILLIAM Z. GETZ, INC., 3055 Yellow Goose Road, Lancaster, PA 17601. Applicant's representative: Donald D. Shipley (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (I)(A)(1) *Tractors* (except those with vehicle beds, bed frames and fifth wheels); (2) *equipment* designed for use in conjunction with tractors; (3) *agricultural, industrial, and construction machinery and equipment;* (4) *such merchandise* as dealt in by lawn and garden dealers (except chemicals and commodities in bulk); (5) *trailers* designed for the transportation of the above-described commodities (except those trailers designed to be drawn by passenger automobiles); (6) *attachments* for the above-described commodities; (7) *internal combustion engines;* (8) *accessories, parts, and supplies* used in the manufacture, repair, and assembly of (1) through (7) above: (a) from the plantsites of the Sperry Rand Corp., New Holland Division located at Mountville and New Holland, Pa., to points in Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania (except Belleville and Lewistown, Pa.), Rhode Island, South Carolina, Tennessee, Virginia, Vermont, West Virginia, Wisconsin, and the plantsite of the Sperry Rand Corp., New Holland Division located at Grand Island, Nebr.; (b) from the plantsite of the Sperry Rand Corp., New Holland Division at Belleville, Pa., to points in Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania (restricted to export traffic or traffic having immediately prior or subsequent movement in rail service), Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the plantsite of the Sperry Rand Corp., New Holland Division located at Grand Island, Nebr.; and (c) from the plantsite of the Sperry Rand Corp., New Holland Division at Grand Island, Nebr., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Vermont, Virginia, and West Virginia;

(II)(B) *Materials, equipment and supplies* (except commodities in bulk) used in the manufacture, repair, assembly, and distribution of the commodities described in (1) through (7) above: (a) From points in Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland (except Baltimore and points in that part of Maryland, east of the Chesapeake Bay and the Susquehanna River), Massachusetts, Michigan, New Hampshire, New York (except Buffalo, Rochester and Syracuse), North Carolina, Ohio, Pennsylvania (except Belleville and Lewistown, Pa.), Rhode Island, South Carolina, Tennessee, Virginia (except iron and steel casting and agricultural implements parts from Lynchburg, Va.), West Virginia, Wisconsin, and the plantsite of the Sperry Rand Corp., New Holland Division at Grand Island, Nebr., to the plantsites of the Sperry Rand Corp., New Holland Division at Mountville and New Holland, Pa.; (b) from points in Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania (restricted to export traffic or traffic having immediately prior or subsequent movement in rail service), Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, Wisconsin and the plantsite of the Sperry Rand Corp., New Holland Division at Grand Island, Nebr., to the plantsite of Sperry Rand Corp., New Holland Division at Belleville, Pa.; and (c) from the plantsite of Sperry Rand Corp., New Holland Division at Grand Island, Nebr., under contract with Sperry Rand Corp., New Holland Division at Grand Island, Nebr. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Harrisonburg, Va.

No. MC 108676 (Sub-No. 51), filed October 20, 1972. Applicant: A. J. METLER HAULING & RIGGING, INC., 117 Chicamauga Avenue, NE., Knoxville, TN 37917. Applicant's representative: Carl U. Hurst, Post Office Box E, Bowling Green, KY 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flat glass and glass glazing units*, from Clinton and Laurinburg, N.C. to points in the United States in and east of Montana, Wyoming, Colorado, and New Mexico. NOTE: Ap-

plicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Alkyd resins, paint oils, and vegetable oils* in bulk, in tank vehicles,

Glass Co., at or near Shakopee, Minn., to Milwaukee, Wis. (Restricted to traffic originating at the named origin point

plicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 109397 (Sub-No. 282), filed October 23, 1972. Applicant: TRI-STATE MOTOR TRANSIT CO., a Corporation, Post Office Box 113 (Business Loop I-44 East), Joplin, MO 64801. Applicant's representative: A. N. Jacobs (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Industrial and construction machinery and equipment*, from the plantsite of Mastercraft Engineering, Inc., Belleville, Mich., to points in the United States (including Alaska, but excluding Hawaii). NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 109538 (Sub-No. 20), filed October 16, 1972. Applicant: CHIPPEWA MOTOR FREIGHT, INC., Post Office Box 269, Eau Claire, WI 54701. Applicant's representative: Nancy J. Johnson, 4506 Regent, Suite 100, Madison, WI 53705. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Eau Claire, Wis., and Moline and Mendota, Ill., serving all intermediate points, (1) from Eau Claire, Wis., over U.S. Highway 53 to junction of U.S. Highway 61 at La Crosse, Wis., thence over U.S. Highway 61 to Davenport, Iowa, thence over city routes to Moline, Ill., and return over the same routes, serving the off-route point of Hager City, Wis., in connection with presently authorized operations and proposed route, and (2) from Eau Claire, Wis. over U.S. Highway 53 to junction Interstate Highway 94, thence over Interstate Highway 94 and 90 to junction Wisconsin Highway 15 near Beloit, Wis., thence over Wisconsin Highway 15 to junction U.S. Highway 51 at Beloit, Wis., and thence over U.S. Highway 51 to Mendota, Ill., and return over the same routes, and (3) from Eau Claire, Wis. over U.S. Highway 53 to junction Interstate Highway 94, thence over Interstate Highway 94 and 90 to junction U.S. Highway 20 by-pass near Rockford, Ill., thence over U.S. Highway 20 by-pass to junction Illinois Highway 2, thence over Illinois Highway 2 to Moline, Ill., and return over the same routes. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Madison, Wis., or St. Paul or Minneapolis, Minn.

No. MC 111375 (Sub-No. 65), filed October 27, 1972. Applicant: PIRKLE REFRIGERATED FREIGHT LINES, INC., Post Office Box 3358, Madison, WI 53704. Applicant's representative: Joseph M. Scanlan, 111 West Washington Street, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionery* from Robinson, Ill., to points in Arizona, California, Colorado (except Denver), Idaho, Montana, Nevada (except Reno), New Mexico, Oregon (except Portland), Utah, Washington, and Wyoming. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 111401 (Sub-No. 375), filed October 13, 1972. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Boulevard, Post Office Box 632, Enid, OK 73701. Applicant's representative: Alvin J. Meiklejohn, Jr., 420 Denver Club Building, Denver, Colo. 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products* (except liquefied petroleum gases), in bulk, in tank vehicles, (1) from points in East Baton Rouge, Iberville, Jefferson, Orleans, Plaquemines, Saint Bernard, Saint Charles, and West Baton Rouge Parishes, La., to points in Alabama, Louisiana, and Mississippi, and (2) from Meridian and Pascagoula, Miss., to points in East Baton Rouge, Iberville, Jefferson, Orleans, Plaquemines, Saint Bernard, Saint Charles, and West Baton Rouge Parishes, La. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Boyle or Hattiesburg, Miss.

No. MC 111812 (Sub-No. 481), filed October 25, 1972. Applicant: MIDWEST COAST TRANSPORT, INC., 900 West Delaware, Post Office Box 1233, Sioux Falls, SD 57101. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Hallwood, Va., to points in California, Montana, Oregon, Washington, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin. NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 112184 (Sub-No. 38), filed October 9, 1972. Applicant: THE MANFREDI MOTOR TRANSIT COMPANY, a Corporation, Route 87, Newbury, Ohio 44065. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Alkyd resins, paint oils, and vegetable oils*, in bulk, in tank vehicles, from Philadelphia, Pa., to points in Ohio north of U.S. Highways 30 and 30N, and *returned shipments* on return and (2) *Soybean oil*, from Bellevue, Ohio, to Philadelphia, Pa., and *returned shipments* on return, under contract with Cargill, Inc. NOTE: Applicant holds common carrier authority under MC 128302 and subs thereunder, therefore dual operations and common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 112617 (Sub-No. 302), filed September 5, 1972. Applicant: LIQUID TRANSPORTERS, INC., Post Office Box 21395, Louisville, KY 40221. Applicant's representative: L. A. Jaskiewicz, 1730 M Street NW., Suite 501, Washington, DC 20032. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Adhesives*, in bulk, in tank vehicles, from Nicholasville, Ky., to points in Alabama, Arkansas, Georgia, Illinois, Indiana, Mississippi, Missouri, North Carolina, Ohio, South Carolina, Tennessee, Virginia, and West Virginia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Washington, D.C.

No. MC 113678 (Sub-No. 472), filed October 24, 1972. Applicant: CURTIS, INC., 4810 Pontiac Street, Commerce City, CO 80022. Applicant's representative: Richard A. Peterson, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, (1) from Grand Island and York, Nebr., to points in Minnesota, Wisconsin, Iowa, Illinois, Indiana, Ohio, New York, Pennsylvania, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, District of Columbia, North Carolina, South Carolina, Tennessee, Alabama, Georgia, Florida, Colorado, New Mexico, Arizona, Utah, Nevada, and California; (2) from York, Nebr., to points in Montana, Idaho, Washington, and Oregon. NOTE: Applicant states that although tacking possibilities exist it has no present intention to tack. However, applicant cautions that an unopposed application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Lincoln, Nebr., Washington, D.C., or Denver, Colo.

No. MC 114457 (Sub-No. 134), filed October 23, 1972. Applicant: DART TRANSIT COMPANY, a corporation 780 North Prior Avenue, St. Paul, MN 55104. Applicant's representative: James C. Hardman, 127 North Dearborn Street, Chicago, IL 60607. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, from the plantsite and storage facilities of Midland

Glass Co., at or near Shakopee, Minn., to Milwaukee, Wis. (Restricted to traffic originating at the named origin point and destined to the named destination.) NOTE: If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn.

No. MC 115331 (Sub-No. 335), filed October 27, 1972. Applicant: TRUCK TRANSPORT, INCORPORATED, 1931 North Geyer Road, St. Louis, MO 63131. Applicant's representative: J. R. Ferris, 230 St. Clair Avenue, East St. Louis, IL 62201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale and retail grocery houses, from the facilities of United Facilities, Inc., at Galesburg, Ill., to points in Minnesota, Iowa, Wisconsin, North Dakota, South Dakota, Nebraska, Kansas, Missouri, Oklahoma, Arkansas, Michigan, Indiana, Kentucky, and Tennessee. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 115669 (Sub-No. 134), filed October 24, 1972. Applicant: HOWARD N. DAHLSTEN, doing business as DAHLSTEN TRUCK LINE, Post Office Box 95, Clay Center, NE 68933. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry feed ingredients*, from Van Buren, Ark., to points in Arkansas, Colorado, Kansas, Iowa, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 116073 (Sub-No. 245) (Amendment), filed July 24, 1972, published in the FEDERAL REGISTER issue of August 17, 1972, and republished as amended this issue. Applicant: BARRETT MOBILE HOME TRANSPORT, INC., Post Office Box 919, Moorhead, MI 56560. Applicant's representative: Robert G. Tessar, 1819 Fourth Avenue South, Moorhead, MI 56560. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Buildings and sections of buildings*, from points in Roosevelt County, Mont., to points in the United States (except Alaska and Hawaii); and (2) *trailers* designed to be drawn by passenger automobiles in initial movements; *buildings*, complete or in sections; and *pickup caps*, from points in Ravalli County, Mont., to points in Wyoming, South Dakota, Idaho, North Dakota, Utah, Washington, and Oregon. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. The purpose of this republication is to redescribe the authority being sought. If a hearing is deemed necessary, applicant requests it be held at Helena, Mont.

No. MC 116725 (Sub-No. 19), filed October 27, 1972. Applicant: INDIAN VALLEY ENTERPRISES, INC., 855 Maple Avenue, Harleysville, PA 19438. Applicant's representative: John W. Frame, Box 626, 2207 Old Gettysburg Road, Camp Hill, PA 17011. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Butter and foodstuffs* (except frozen foodstuffs and foodstuffs in bulk), between Harleysville, Pa., and points in Franconia Township (Montgomery County), Pa., south of Cowpath Road, on the one hand, and, on the other, points in Michigan, restricted to the transportation of shipments originating and destined to points in the above-named territory. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa.

No. MC 117101 (Sub-No. 8), filed October 24, 1972. Applicant: LEFFLER TRANSPORTATION CO., a Corporation, 225 East Main Street, Richland, PA 17087. Applicant's representative: S. Berne Smith, 100 Pine Street, Post Office Box 116, Harrisburg, PA 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer materials, agricultural related chemicals*, in containers, and *seed*, from East Hempfield Township, Lancaster County, Pa., to points in New York, New Jersey, Delaware, Maryland, Virginia, West Virginia, Ohio, and the District of Columbia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 117119 (Sub-No. 468), filed October 23, 1972. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., Post Office Box 188, Elm Springs, AR 72728. Applicant's representative: Bobby G. Shaw (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk), from the plantsites and warehouse facilities of Jeno's, Inc., at Duluth, Minn., to points in Kansas, Nebraska, Missouri, Oklahoma, Arkansas, Tennessee, Mississippi, Louisiana, Texas, Nevada, New Mexico, Arizona, California, Colorado, Utah, Idaho, Washington, and Oregon. NOTE: Common control may be involved. Applicant states that by combining No. MC 117119 (Sub-No. 53) with No. MC 117119 it can serve all destinations sought herein on the transportation of frozen foods and in No. MC 117119 (Sub-No. 459) it can transport foodstuffs from points in Minnesota to 11 of the destination States named above, therefore duplicating authority may be involved. Applicant further states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Duluth, Minn., or Washington, D.C.

No. MC 117565 (Sub-No. 69), filed October 27, 1972. Applicant: MOTOR SERVICE COMPANY, INC., Route 3, Post Office Box 448, Coshocton, OH 43812. Applicant's representative: John R. Hafner (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel shot, abrasives and abrasive products, and cleaning machines and replacement parts thereof*, from Adrian, Mich., to points in the United States (except Alaska and Hawaii). NOTE: Applicant has pending a motor contract carrier application in No. MC 135701 (Sub-No. 1), therefore dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Columbus, Ohio.

No. MC 117565 (Sub-No. 70), filed October 30, 1972. Applicant: MOTOR SERVICE COMPANY, INC., Route 3, Post Office Box 448, Coshocton, OH 43812. Applicant's representative: John R. Hafner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic polystyrene foam shapes, rolls, sheets, and forms* (except commodities in bulk) from Troy, Ohio, to points in the United States (except Alaska and Hawaii); and (2) *returned, rejected, or damaged shipments* of the commodities described above, from points in the United States to Troy, Ohio. NOTE: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus or Cincinnati, Ohio.

No. MC 117589 (Sub-No. 22), filed October 26, 1972. Applicant: PROVISIONERS FROZEN EXPRESS, INC., 2535 Airport Way South, Seattle, WA 98139. Applicant's representative: George R. La Bissoniere, 1424 Washington Building, Seattle, WA 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Canned seafood, vegetables, fruit, and meat products* when moving in vehicles equipped with mechanical refrigeration, from Jersey City and East Brunswick, N.J., and Hanover, Pa., to points in Washington and Oregon; and (2) *frozen human blood plasma*, from Tacoma, Wash., to Los Angeles and San Francisco, Calif. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a

XUM V37-231 NOV 30 72 XUM

hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

Maryland, Virginia, West Virginia, Kentucky, Tennessee, North Carolina, South

in bulk, in tank vehicles, high explosives and other dangerous commodities, and

on the other, points in Illinois, Ohio, and Kentucky; (3) *brick, cinderblocks, tile, clay and clay products, shale and shale*

thority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned and bottled*

erate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Phonographs and phonographs*

hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 119577 (Sub-No. 20), filed October 27, 1972. Applicant: OTTAWA CARTAGE, INC., Post Office Box 458, Rural Route 3, Ottawa, IL 61530. Applicant's representative: Albert A. Andrin, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand*, from La Salle County, Ill., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that duplicating authority may be involved with the authority it presently holds in: (1) No. MC 119577 (Sub-No. 2), authorizing transportation of sand from La Salle County, Ill., to points in Indiana, Kentucky, Michigan, Iowa, Missouri, Minnesota, Ohio, and Wisconsin; (2) No. MC 119577 (Sub-No. 17), authorizing transportation of silica sand from Ottawa and Utica, Ill., to points in Pennsylvania, West Virginia, Nebraska, and Kansas; and (3) No. MC 119577 (Sub-No. 19), authorizing transportation of silica sand from Ottawa and Utica, Ill., to points in Arkansas and Oklahoma. Applicant further states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 119656 (Sub-No. 9), filed October 19, 1972. Applicant: NORTH EXPRESS, INC., 219 East Main Street, Winamac, IN 46996. Applicant's representative: Donald W. Smith, 900 Circle Tower, Indianapolis, IN 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from Portage, Ind., to points in Illinois, Iowa, Missouri, Kansas, Nebraska, and Arkansas. NOTE: Applicant states that the requested authority can be tacked with its existing authority at Portage, Ind., but indicates that it has no present intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 119789 (Sub-No. 127), filed November 1, 1972. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188 (1616½ Irving Boulevard), Dallas, TX 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the reports in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, and hides), from Morton, Tex., to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Ohio, Indiana, Michigan, Illinois, Delaware, Maryland, Virginia, West Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Alabama, Georgia, Florida, and the District of Columbia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Washington, D.C.

No. MC 119789 (Sub-No. 128), filed November 8, 1972. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188 (1612 East Irving Boulevard), Dallas, TX 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, canned or preserved (except frozen foods), from Austin, Ind., to points in Texas, Oklahoma, Arkansas, Louisiana, Kansas, and Missouri. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Washington, D.C.

No. MC 120257 (Sub-No. 14) (Amendment), filed May 17, 1972, published in the FEDERAL REGISTER issue if June 22, 1972, and republished as amended this issue. Applicant: K. L. BREEDER & SONS, INC., 401 Alamo Street, Terrell, TX 75160. Applicant's representative: Bernard H. English, 6270 Firth Road, Fort Worth, TX 76116. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe, tubing, pipe fittings, and pipe accessories*, in straight or mixed truckloads, from Lone Star, Tex., and points within 5 miles thereof, to points in Alabama, Arkansas, Florida, Georgia, Kansas, Louisiana, Mississippi, Oklahoma, Texas and Tennessee. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. The purpose of this republication is to redescribe the territory sought. If a hearing is deemed necessary, applicant requests it be held at Dallas or Fort Worth, Tex.

No. MC 120927 (Sub-No. 3), filed October 19, 1972. Applicant: BESTWAY EXPRESS, a corporation, 1112 Key Road, Columbia, SC 29202. Applicant's representative: John H. Caldwell, 914 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Motion picture films and materials, supplies and equipment* used or useful in a motion picture theater, *newspapers, magazines, periodicals, and other publications;* and *general commodities* (except petroleum products in bulk, in tank vehicles, high explosives and other dangerous commodities, and household goods); (a) between points in Lexington and Richland Counties, S.C., and (b) between points in Lexington and Richland Counties, S.C., on the one hand, and, on the other, points in South Carolina; (2) *general commodities* (except petroleum products in bulk, in tank vehicles, high explosives and other dangerous commodities, and household goods): (a) between points in Charleston County, S.C.; (b) between points in Charleston County, on the one hand, and, on the other, points in South Carolina; (c) between points in Beaufort County, S.C., and (d) between points in Beaufort County, S.C.; on the one hand, and, on the other points in South Carolina. NOTE: Applicant states it seeks hercin to convert its present operating authority, as evidenced by its certificates of registration (Nos. MC 120927, Sub-Nos. 1 and 2), to certificates of public convenience and necessity. This conversion is necessitated by a concurrently filed section 212(b) transfer application in MC-FC 74039, pursuant to which applicant seeks to acquire the operating rights of HC&D Lines, Inc., a multistate operator in No. MC 120668 (Sub-Nos. 3 and 4). This conversion application and the concurrently filed transfer application would theoretically permit to a limited extent performance of a through service to and between points not included in this application, however, it does not intend to tack its existing authorities as converted with HC&D's operating authorities. Operations under the combined authorities could, however, result in minimal duplication with respect to transportation between Darlington and Florence Counties and Beaufort and Charleston Counties, S.C. If a hearing is deemed necessary, applicant requests it be held at either Columbia, Charleston, or Beaufort, S.C.

No. MC 123819 (Sub-No. 34), filed October 12, 1972. Applicant: ACE FREIGHT LINE, INC., Post Office Box 2103, Memphis, TN 38102. Applicant's representative: Bill R. Davis, 1208 Gas Light Tower, Atlanta, GA 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in containers, from Baton Rouge, La., to points in Arkansas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Baton Rouge, La., or Memphis, Tenn.

No. MC 124341 (Sub-No. 4), filed October 13, 1972. Applicant: LAWRENCE LAWYER, 757 North Indiana Street, Mooresville, IN 46158. Applicant's representative: Robert C. Smith, 711 Chamber of Commerce Building, Indianapolis, Ind. 46204. on the other, points in Illinois, Ohio, and Kentucky; (3) *brick, cinderblocks, tile, clay and clay products, shale and shale products, concrete and concrete products*, between the plantsite of General Shale Products Corp. near Evansville, Ind., on the one hand, and, on the other, points in Illinois, Missouri, Kentucky, Tennessee, and Ohio; and (4) *brick, cinderblocks, tile, clay and clay products, shale and shale products, concrete and concrete products, and materials and supplies* used in the manufacture of brick, between the plantsite of General Shale Products Corp. near Coral Ridge, Ky., on the one hand, and, on the other, points in Illinois, Missouri, Tennessee, and Ohio. Restriction: Restricted to a continuing contract or contracts, with General Shale Products Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 125010 (Sub-No. 12), filed October 24, 1972. Applicant: GIBCO MOTOR EXPRESS, INC., 3405 North 33d Street, Terre Haute, IN 47808. Applicant's representative: Warren C. Moberly, 777 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metal* between Kokomo, Ind., on the one hand, and, on the other, points in Vermilion County, Ill., under contract with Mervis & Sons, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Washington, D.C.

No. MC 126102 (Sub-No. 16), filed October 24, 1972. Applicant: ANDERSON MOTOR LINES, INC., 86 Washington Street, Plainsville, MA 02762. Applicant's representative: Robert G. Parks, 306 Dartmouth Street, Boston, MA 02116. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are sold or used in drugstores, chain, discount, and department stores, and *return shipments of such commodities*, from Walpole, Mass., to points in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, North Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, and the District of Columbia, under contract with D. W. Jewelry Co., Inc. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Boston, Mass.

No. MC 126844 (Sub-No. 18), filed October 19, 1972. Applicant: R. D. S. TRUCKING CO., INC., 1713 North Main Road, Vineland, NJ 08360. Applicant's representative: Jacob P. Billig, 1108 16th Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned and bottled foodstuffs*, from Cade and Lozes, La., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and West Virginia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 133627 (Sub-No. 4) (Correction), filed September 5, 1972, published in the FEDERAL REGISTER issue of September 28, 1972, and republished this issue. Applicant: COMMON MARKET DISTRIBUTING CORPORATION, 335 West Elwood, Phoenix, AZ 85030. Applicant's representative: Donald E. Fernaays, 4040 East McDowell Road, Suite 312, Phoenix, AZ 85008. Authority sought to operate as a *contract carrier*, by motor vehicle over irregular routes, transporting: *Iron and steel articles* as described in Appendix 5 to the Commission's report in Descriptions in Motor Carrier Certificates, ex parte, MC 45, 61 MCC 209 and 766, from points in California, to points in California, Arizona, New Mexico, Texas Colorado, Nevada, Utah, and Idaho, under a continuing contract, or contracts, with Common Market Trading Corp. at Los Angeles, Calif. NOTE: Application pending in No. MC 136503 for motor common carrier authority suggests that dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. The purpose of the republication is to indicate that applicant's requested operations will be carried out under a contract, or contracts, with Common Market Trading Corp. of Los Angeles, Calif., which was inadvertently omitted in the previous publication. If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz., or Los Angeles, Calif.

No. MC 133913 (Sub-No. 1), filed October 30, 1972. Applicant: FROST TRUCKING CO., INC., 677 Washington Street, New York, NY 10014. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Books and equipment, materials, and supplies* used in the composition, printing, and binding of books (except commodities in bulk), between points in New York, New Jersey, Massachusetts, Connecticut, and Brattleboro, Vt., and Philadelphia, Pa. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Newark, N.J.

No. MC 134145 (Sub-No. 32), filed October 16, 1972. Applicant: NORTH STAR TRANSPORT, INC., Post Office Box 51, Thief River Falls, MN 56701. Applicant's representative: Robert P. Sack, Post Office Box 6010, West St. Paul, MN 55118. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Phonographs and phonographs and radios combined, tape players, and recorders*, from Rochester, Minn., to points in Alabama, Arkansas, California, Colorado, Florida, Georgia, Illinois, Indiana, Kansas, Massachusetts, Michigan, Mississippi, Missouri, New Jersey, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Tennessee, Texas, Utah, Washington, Wisconsin, and the District of Columbia and (2) *parts, materials, and accessories* used in the manufacture of the above-described commodities, from points in Arkansas, California, Connecticut, Iowa, Illinois, Indiana, Massachusetts, Michigan, New Jersey, Washington, and Wisconsin to Rochester, Minn., under contract with Waters Conley Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Minneapolis or St. Paul, Minn.

No. MC 134323 (Sub-No. 34), filed October 24, 1972. Applicant: JAY LINES, INC., 720 North Grant Street, Amarillo, TX 79105. Applicant's representative: Gailyn Larson, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Compressors, electric motors, and other materials, parts, and supplies* used in the manufacture and production of household appliances, furnaces, air cleaners and conditioners, humidifiers, dehumidifiers, and related items, under contract with Fedders Corp., (1) from Elkton, Md., to Effingham, Ill., Edison, N.J., Buffalo, N.Y., and Herrin, Ill., and (2) from Trenton, N.J., to Effingham, Ill., Buffalo, NY., and Herrin, Ill. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Washington, D.C.

No. MC 134449 (Sub-No. 6), filed October 19, 1972. Applicant: LESTER V. MOZNIK, an individual, 3753 Grandview Highway, Burnaby, BC, Canada. Applicant's representative: Joseph O. Earp, 411 Lyon Building, 607 Third Avenue, Seattle, WA 98104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Kitchen cabinets, countertops, and parts thereof*, from ports of entry on the international boundary line between the United States and Canada at or near Blaine and Sumas, Wash., Eastport, Idaho, and Sweetgrass, Mont., to points in Oregon, Idaho, Wyoming, Utah, Colorado, Montana, and Washington (except King and Pierce Counties), under a continuing contract, or contracts, with Crestwood Kitchens, Ltd. of Richmond, British Columbia, Canada. NOTE: If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 134599 (Sub-No. 60), filed October 24, 1972. Applicant: INTERSTATE CONTRACT CARRIER CORP., Post Office Box 748, Salt Lake City, UT 84110. Applicant's representative: Richard A. Peterson, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate

V 37-231 NOV 30 72 XUM

as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Rubber, rubber products and equipment, chemicals, materials and supplies* used in the manufacture and production of rubber products except commodities in bulk and except commodities, which because of size or weight, require special handling or special equipment, between North Reading, Medford, and Chicopee Falls, Mass.; Providence and Coventry, R.I., Naugatuck and Sandy Hook, Conn., and Beaver Falls, N.Y., on the one hand, and, on the other, points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Minnesota, Iowa, Missouri, Arkansas, and Louisiana, under contract with Uniroyal, Inc. NOTE: No duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, or Lincoln, Nebr.

No. MC 134599 (Sub-No. 61), filed October 26, 1972. Applicant: INTERSTATE CONTRACT CORP., Post Office Box 748, Salt Lake City, UT 84110. Applicant's representative: Richard A. Peterson, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Rubber, rubber products and equipment, chemicals, materials and supplies* used in the manufacture and production of rubber products except commodities in bulk and except commodities which, because of size or weight, require special handling or special equipment, between Philadelphia and Mountain Top, Pa., and Farmville and Scottsville, Va., on the one hand, and, on the other, points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Minnesota, Iowa, Missouri, Arkansas, and Louisiana, under contract with Uniroyal, Inc. NOTE: No duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, or Lincoln, Nebr.

No. MC 134599 (Sub-No. 62), filed October 30, 1972. Applicant: INTERSTATE CONTRACT CARRIER CORP., Post Office Box 748, Salt Lake City, UT 84110. Applicant's representative: Richard A. Peterson, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Rubber, rubber products and equipment, chemicals, materials and supplies* used in the manufacture and production of rubber products except commodities in bulk and except commodities which, because of size or weight, require special handling or special equipment, between North Reading, Medford, and Chicopee Falls, Mass., Providence and Coventry, R.I.; Naugatuck and Sandy Hook, Conn., and Beaver Falls, N.Y., on the one hand, and, on the other, points in Tennessee, South Carolina, North Carolina, Mississippi, Alabama, Georgia, and Florida, under contract with Uniroyal, Inc. NOTE: No duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, or Lincoln, Nebr.

No. MC 134906 (Sub-No. 8), filed October 25, 1972. Applicant: CAPE AIR FREIGHT, INC., Post Office Box 834, Elizabethtown, KY 42701. Applicant's representative: John M. Nader, Post Office Box E, Bowling Green, KY 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, restricted to traffic having an immediately prior or subsequent movement by air, between Outlaw Field, near Clarksville, Tenn., and points in Missouri north of Missouri Highway 136, points in Illinois north of Interstate Highway 80, Iowa, Minnesota, and Wisconsin. NOTE: Applicant seeks no duplicating authority. Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn., or Louisville, Ky.

No. MC 135007 (Sub-No. 21), filed October 26, 1972. Applicant: AMERICAN TRANSPORT, INC., 108 East Renfro Circle, Millard, NE 68137. Applicant's representative: Frederick J. Coffman, 521 South 14th Street, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *New unfinished or semifinished furniture*, from (a) Loveland, Colo., to points in New Mexico and Texas, and (b) from Spangle, Wash., to points in Montana, Utah, and Idaho, under a continuing contract, or contracts, with William Volker & Co. in both (a) and (b) above. NOTE: If a hearing is deemed necessary, applicant requests it be held at San Francisco or Los Angeles, Calif.

No. MC 135007 (Sub-No. 22), filed October 27, 1972. Applicant: AMERICAN TRANSPORT, INC., 108 East Renfro Circle, Millard, NE 68137. Applicant's representative: Frederick J. Coffman, 521 South 14th Street, Post Office Box 80806, Lincoln, NE 68501. NOTE: If a hearing is deemed necessary, applicant requests it be held at San Francisco or Los Angeles, Calif.

No. MC 135634 (Sub-No. 3), filed October 20, 1972. Applicant: JOSEPH M. HANEY, SR., doing business as, J. M. HANEY TRUCKING CO., 4754 Mahoning Avenue, Youngstown, OH 44151. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tail and exhaust pipes; tail and exhaust pipe hangers and clamps; brake parts; mufflers; and shock absorbers*, from the plantsite of Midas-International Corp. at Detroit, Mich., to points in Ohio and Erie, Pittsburgh, New Castle, and Beaver Falls, Pa., under a continuing contract with Midas-International Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich.

No. MC 136037 (Sub-No. 1), filed August 25, 1972. Applicant: LEUNING TRUCKING INC., Route 1, Box 323, Zillah, WA 98953. Applicant's representative: Elwood Leuning (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Shakes and shingles* from points in Washington to points in California. NOTE: If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 136545 (Sub-No. 5), filed October 24, 1972. Applicant: NUSSBERGER BROS. TRUCKING CO., INC., Post Office Box 97, Prentice, WI 54556. Applicant's representative: A. R. Fowler, 2288 University Avenue, St. Paul, MN 55114. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed*, from Abbotsford, Wis., and New Holstein, Wis., to points in Illinois, Indiana, Iowa, Michigan, Minnesota, and Ohio. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 136646 (Sub-No. 1), filed October 30, 1972. Applicant: DYKSTRA TRANSPORT, INC., 317 Fourth Avenue SE., Sioux Center, Iowa 51250. Applicant's representative: Earl H. Scudder, Jr., Post Office 82028, 605 South 14th Street, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, in tank vehicles, (1) from Algona, Early, Fort Dodge, Garner, and Spencer, Iowa, to points in Minnesota, and (2) from East Dubuque, Ill., to points in Iowa, Minnesota, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Chicago, Ill.

No. MC 136744 (Amendment), filed May 25, 1972, published in the FEDERAL REGISTER issue of July 7, 1972, and republished as amended, this issue. Applicant: KASHMARK TRUCKING, INC., Box 437, Clinton, MN 56225. Applicant's representative: Robert E. Swanson, 1211 South Sixth Street, Stillwater, MN 55082. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food preparations, and foodstuffs*, except fresh or cured meat, between points in Minnesota, and points in North Dakota, South Dakota, Iowa, Nebraska, and Wisconsin, for the Big Stone Canning Co. at Ortonville, Minn. NOTE: Applicant states that the granting of this application will result in an improvement of the environmental qualities that now exist because of the elimination of additional vehicles that are now being operated to perform the same service herein requested. The vehicles which will be used are mechanically more efficient and adaptable to the transportation needs. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 136775 (Sub-No. 1), filed October 16, 1972. Applicant: ERKEL TRANSFER INC., 255 South Cordova, Le Center, MN 56057. Applicant's representatice: John La Framboise, Jr., 480 North Park, Le Center, MN 56057. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Madison, Wis., or Chicago, Ill.

APPLICATION FOR FREIGHT FORWARDER

No. FF-367 (Sub-No. 1) (Four Winds Forwarding, Inc., Extension—Domestic Service), filed November 15, 1972. Applicant: FOUR WINDS FORWARDING, INC., 7035 Convoy Court, San Diego, CA 92138. Applicant's representative: Alan F. Wholstetter, 1700 K Street NW., Washington, DC 20006. Authority sought under section 410, Part IV of the Interstate Commerce Act for an amended permit authorizing operations as a freight forwarder, in the forwarding of *used household goods* and *unaccompanied baggage*, between points in the United States (including Hawaii, but excluding Alaska), without restriction to import-export traffic.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING HAS BEEN REQUESTED

No. MC 113908 (Sub-No. 241) (Republication), filed October 6, 1972, and published in the FEDERAL REGISTER, issue of November 16, 1972, and republished as clarified this issue. Applicant: ERICKSON TRANSPORT CORP., 2105 East Dale Street, Springfield, MO 65804. Applicant's representative: B. B. Whitehead (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, in bulk, in tank and/or hopper type containers and empty tank and hopper type containers, between points in the United States (including Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant respectfully submits that the grant of the instant application will have a beneficial impact on the human environment. The purpose of this republication is to exclude the restriction contained in previous notice of filing.

No. MC 136587 (Sub-No. 5), filed October 30, 1972. Applicant: ALFRED J. WELLER, doing business as, A. J. WELLER, 396 Clarmont, Willowick, OH 44095. Applicant's representative: George S. Maxwell, 526 East Superior Avenue, Cleveland, OH 44114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Green salted cattle hides and green salted sheep pelts*, from Cleveland, Ohio, to Chicago, Ill.; Fond du Lac and Milwaukee, Wis.; Grand Haven, Mich.; Pownal, Vt.; points in the New York, N.Y., commercial zone and points in the Boston, Mass., commercial zone, under contract with D. E. Rose & Co.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Title 20—EMPLOYEES' BENEFITS

Chapter VI—Employment Standards Administration, Department of Labor

SUBCHAPTER B—FEDERAL COAL MINE HEALTH AND SAFETY ACT OF 1969, AS AMENDED

PART 725—CLAIMS FOR BLACK LUNG BENEFITS PAYABLE UNDER PART C OF TITLE IV OF THE FEDERAL COAL MINE HEALTH AND SAFETY ACT AS AMENDED

Pursuant to authority contained in title IV of the Federal Coal Mine Health and Safety Act of 1969, 83 Stat. 742, 30 U.S.C. 901, et seq., as amended by Public Law 92-303, 86 Stat. 156, entitled the Black Lung Benefits Act of 1972, Chapter VI of Title 20 of the Code of Federal Regulations is hereby amended by adding thereto a new Part 725 as set forth below. The new Part 725 will implement and effectuate provisions of the Act concerning claims subject to the provisions of Part C of Title IV thereof after December 31, 1973 which are filed with the Secretary of Labor for benefits payable under the Act to coal miners and their surviving dependents in cases of a miner's total disability due to pneumoconiosis and in cases of a miner's death due to pneumoconiosis or while totally disabled due to pneumoconiosis.

On September 7, 1972, at 37 F.R. 18152, 18167, public comment was invited, and was later received and considered, concerning the substance of certain proposals under consideration for inclusion in this Part 725. However, with respect to other matter contained in this Part 725 as today adopted, it has not been possible to provide a period for public comment on specific proposals in advance of final adoption of these rules. This is so because the Act requires these rules to be issued in final form not later than November 30, 1972, and requires further that they give effect to provisions of the Longshoremen's and Harbor Workers' Compensation Act, as amended, a large number of which have been recently amended effective November 26, 1972. Accordingly, I find on the basis of good cause as above set forth that it is impracticable to provide for notice, public procedure, and delayed effective date in accordance with 5 U.S.C. 553. However, notwithstanding this promulgation of the rules in final form the Employment Standards Administration will receive and consider comments submitted before February 1, 1973 on any provisions of these rules and will make such changes as may appear to be warranted through subsequent amendment of the rules. Inasmuch as these rules will not be operative after adoption until the claims to which they apply are filed many months hence, the foregoing provision should provide ample opportunity for persons affected to participate in the formulation of the rules which will actually be effective when claims are filed. Interested persons are accordingly invited to submit written data, views, or arguments concerning the rules in this new Part 725 to the Employment Standards Administration, U.S. Department of Labor, Washington, D.C. 20210, before February 1, 1973.

The new Part 725 reads as follows:

Subpart A—General

INTRODUCTORY

Sec.
725.1 Statutory provisions for black lung benefits.
725.2 Purpose and scope of this part.

APPLICABILITY OF OTHER PARTS IN THIS SUBCHAPTER B

725.5 Applicability of 20 CFR Part 715.
725.6 Inapplicability of 20 CFR Part 717.
725.7 Applicability of 20 CFR Part 718.
725.8 Inapplicability of 20 CFR Part 720.
725.9 Applicability of 20 CFR Part 726.

Subpart B—Filing and Preliminary Processing of Claims

GENERAL

725.101 Scope and applicability of this subpart.

WHO MAY FILE CLAIMS

725.111 Who may execute a claim.
725.112 Evidence of authority to execute a claim on behalf of another.
725.113 Claimant must be alive when claim is filed.

FILING OF CLAIMS

725.121 Claims forms.
725.122 Inquiry and assistance.
725.123 Place of filing claim.
725.124 Time limits for filing claim.
725.125 When a claim is considered to have been filed; time of filing claim.
725.126 When a written statement is considered a claim.
725.127 Withdrawal of a claim.
725.128 Cancellation of a request for withdrawal.
725.129 Requests and notices to be in writing.

PREPARATION AND FILING OF CLAIM FOR ADJUDICATION

725.131 Action to be taken by the OWCP—general.
725.132 Development of evidence—general.
725.133 Action to be taken by the OWCP—miner's claim.
725.134 Action to be taken by the OWCP—widows' or dependent survivor's claim.
725.135 Procedure on filing of claim with deputy commissioner.
725.136 Referral to State agency.
725.137 Medical evidence—notified operator.
725.138 Medical evidence—no responsible operator.
725.139 Additional medical evidence.
725.140 Fees for medical services.
725.141 Reimbursement for reasonable expenses in obtaining medical evidence.

NOTIFICATION OF OPERATORS

725.151 Notice of claim and issue of liability.
725.152 Operator's response to notification.

FURTHER ACTION ON CLAIM

725.161 Proceedings for determination of claim.

Subpart C—Relationship and Dependency

725.200 Relationship and dependency; general.
725.210 Determination of relationship; wife.
725.215 Determination of relationship; divorced wife.
725.220 Determination of relationship; widow.
725.225 Determination of relationship; surviving divorced wife.
725.230 Determination of relationship; child.
725.235 Determination of relationship; parent, brother, or sister.
725.240 Determination of dependency; wife.
725.245 Determination of dedendency; divorced wife.
725.250 Determination of dependency; widow.
725.255 Determination of dependency; surviving divorced wife.
725.260 Determination of dependency; child.
725.265 Determination of dependency; parent, brother, or sister.
725.270 Time of determinations.
725.275 Legal impediment.
725.280 Domicile.
725.285 Member of the same household; "living with;" "living in the same household;" and "living in the miner's household."
725.290 Contributions and support.

Subpart D—Responsible Coal Mine Operators

GENERAL PROVISIONS

725.301 Scope and policy.
725.302 Responsible operator defined.
725.303 Prior operator, successor operator.

DETERMINING RESPONSIBLE OPERATOR

725.311 Criteria for identifying a responsible operator.
725.312 Procedure for determination of operator's liability.
725.313 Operator's medical evidence.
725.314 Determination of operator's liability in formal hearing.
725.315 Deferred identification of responsible operator; liability determination.

OPERATOR'S FINANCIAL RESPONSIBILITY

725.321 Financial responsibility defined.
725.322 Insurance coverage.
725.323 Benefits a lien against assets.
725.324 Security for payments of benefits.
725.325 Liability of operator for Federal payments made.

OPERATOR'S PAYMENTS

725.331 Scope of payment obligations.
725.332 Prompt payment.
725.333 Late payments.
725.334 Payment of interest.
725.335 Suspension of payments.
725.336 Advance payments.
725.337 Receipt for payments.
725.341 Reporting requirements.
725.345 Defaulted payments.

Subpart E—Adjudicatory Process

GENERAL

725.401 Scope and applicability of this subpart.
725.402 Adjudication officers.
725.403 Powers of adjudication officers.
725.404 Legal services.
725.405 Disqualification of adjudication officer.

PROCEDURES, GENERALLY

725.411 Procedures by and before deputy commissioner.
725.412 Determinations of disability.
725.413 General procedures for determination of benefit claims.
725.414 Presumptions.
725.415 Abandonment of a claim.

PARTIES TO PROCEEDINGS

725.421 Parties in interest.
725.422 Party amicus curiae.

Sec.
725.423 Representation of parties.
725.424 Qualifications of representative.
725.425 Authority of representative.

PREHEARING CONFERENCES

725.431 Nature of conferences.
725.432 Purpose of conferences.
725.433 Notification of parties.
725.434 Time and place of conference.
725.435 Preparation for conferences.
725.436 Cancellation of conferences.
725.437 Attendance at conference.
725.438 Participation by the deputy commissioner.
725.439 File record.
725.440 Memorandum of conference.
725.441 Reply to memorandum of conference.
725.442 Adjudication without a hearing.
725.443 Accelerated hearing.

HEARINGS

725.451 Right to a hearing.
725.452 Request for hearing.
725.453 Type of hearing; parties.
725.454 Notice of hearing.
725.455 Hearing on new issues.
725.456 Time and place of hearing.
725.457 Change of time and place of hearing; transfer of cases.

CONDUCT OF HEARINGS

725.461 Hearings procedure, generally.
725.462 Evidence.
725.463 Witnesses.
725.464 Depositions; interrogatories.
725.465 Witness fees.
725.466 Oral argument and written allegations.
725.467 Waiver of right to appear and present evidence.
725.468 Consolidated issues.
725.469 Joint hearings.
725.470 Record of hearing.

DISMISSALS

725.471 Dismissal of request for hearing; by application of party.
725.472 Dismissal by abandonment of party.
725.473 Dismissal for cause.
725.474 Notice of dismissal and right to request review thereon.
725.475 Effect of dismissal.
725.476 Vacation of dismissal of request for hearing.

COMPLETION OF FINAL ADJUDICATION

725.481 Final decision and order.
725.482 Form of final decision and order.
725.483 Contents of final decision and order.
725.484 Interlocutory matters to be disposed of without formal orders.
725.485 Finality of orders.
725.486 Modification of awards.
725.487 Judicial enforcement.

APPEALS FROM FINAL DECISIONS AND ORDERS

725.491 Right to appeal; Benefits Review Board.
725.492 Procedure before the Board.
725.495 Judicial review.
725.496 Certification of record for judicial review.
725.497 Costs in proceedings brought without reasonable grounds.

Subpart F—Payment of Benefits

GENERAL

725.501 Applicability of this subpart.
725.502 Manner of payment, payment periods.
725.503 Payees.
725.504 Payment on behalf of another; "legal guardian" defined.
725.505 Guardian for minor or incompetent.
725.506 Assignment and exemption from claims of creditors.
725.507 Computation of benefits.
725.508 Certification to dependent of augmentation portion of benefit.
725.509 Commutation of payments, lump sum awards.

MODIFICATION OF BENEFITS

725.511 Modification of benefit amounts, general.
725.512 Reductions; receipt of State benefit.
725.513 Reductions; retroactive effect of an additional claim for benefits.
725.514 More than one reduction event.
725.515 Nonpayment of benefits to residents of certain States.

OVERPAYMENTS, UNDERPAYMENTS

725.521 Overpayment.
725.522 Notice of right to waiver consideration.
725.523 When waiver of adjustment or recovery may be applied.
725.524 Standards for waiver of adjustment or recovery.
725.525 Collection and compromise of claims for overpayment.
725.526 Underpayments.
725.527 Relation to provisions for reductions or increases.

REPRESENTATIVE PAYEES

725.531 Payments on behalf of an individual.
725.532 Submission of evidence by representative payee.
725.533 Responsibility of representative payee.
725.534 Use of benefits for current maintenance.
725.535 Conservation and investment of payments.
725.536 Use of benefits for beneficiary in institution.
725.537 Support of legally dependent spouse, child, or parent.
725.538 Claims of creditors.
725.539 Accountability.
725.540 Transfer of accumulated benefit payments.

MEDICAL BENEFITS

725.551 Availability of medical benefits.
725.552 Approved physicians.
725.553 Miner's physician.
725.554 Fees for medical services.

AUTHORITY: The provisions of this Part 725 issued under Title IV, Federal Coal Mine Health and Safety Act of 1969, 83 Stat. 742, 30 U.S.C. 901, et seq., as amended by Public Law 92-3-3, 86 Stat. 156, and pursuant to such Act, under 44 Stat. 1424, 33 U.S.C. 902 et seq., as amended by Public Law 92-576, 86 Stat. 1251.

Subpart A—General

INTRODUCTORY

§ 725.1 Statutory provisions for black lung benefits.

(a) *General.* Title IV of the Federal Coal Mine Health and Safety Act of 1969 as amended by the Black Lung Benefits Act of 1972 provides for the payment of prescribed benefits to coal miners who are totally disabled due to pneumoconiosis and to surviving widows, children, parents, brothers, and sisters as provided in the Act in cases of coal miners who die due to pneumoconiosis or are totally disabled by pneumoconiosis at the time of death, whether or not being paid disability benefits therefor under the Act.

(b) *Benefits under Part B of Title IV of the Act in general.* Part B of Title IV of the Act provides for the determination and the payment by the Federal Government of such benefits to coal miners and their surviving widows and dependents on disability claims filed before January 1, 1974, and on death claims filed before such date or within 6 months of the death of a miner who dies before such date, whichever is the later date. In the case of claims filed before such terminal date, Federal payment of benefits to which entitlement is established under Part B of Title IV of the Act continues beyond such terminal filing date so long as the claimant remains eligible therefor, except in those cases which are subject to special provisions terminating liability for Federal payment of benefits under Part B at the end of the Part B filing period with respect to claims therefor which were not filed before July 1, 1974.

(c) *Transition period benefits under Parts B and C of Title IV.* (1) In the case of claims for benefits under Part B of Title IV of the Act filed after June 30, 1973, and subject to the special provisions mentioned in paragraph (b) of this section, section 415 of Part B provides for the filing of such claims at the places and in the manner provided by joint regulations of the Secretary of Labor and the Secretary of Health, Education, and Welfare (Part 717 of this chapter) and for the transfer of such claims to the Secretary of Labor who is to determine such claims in accordance with the procedures provided in section 415 and regulations promulgated thereunder by the Secretary of Labor after consultation with the Secretary of Health, Education, and Welfare (Parts 715, 718, 720 of this chapter).

(2) Under section 115 of the Act, benefits to which the claimant is determined to be entitled under Part B of Title IV are to be paid by the Secretary of Labor for the period from the filing date to the date of termination of Federal Part B payments as provided in the special provisions mentioned in paragraph (b) of this section. For periods thereafter, liability for continued payment of benefits is placed in the responsible coal mine operators as determined in accordance with Part C of Title IV of the Act and section 422 thereof or, if a workmen's compensation law of a State is found by the Secretary to provide adequate coverage for pneumoconiosis, under such workmen's compensation law as provided in section 421 of Part C. (The Department has determined, pending an opinion by the Attorney General as to the meaning of section 422(e) of the Act, that the Federal Government shall be required to pay all benefits to which an individual is entitled for any period subsequent to December 31, 1971, provided that a claim for benefits has been filed with the Department prior to January 1, 1982). For any periods after December 31, 1973, when the payment

by a responsible operator of benefits to which the claimant is found entitled

fect the amount of benefits to which any miner and/or widow is entitled.

(c) Subpart D of this part prescribes

this chapter are, therefore, applicable to all claims filed for black lung benefits which must be determined pursuant to

WHO MAY FILE CLAIMS

§ 725.111 Who may execute a claim.

The Office of Workmen's Compensation Programs (OWCP) determines who

§ 725.113 Claimant must be alive when claim is filed.

For a claim to be effective, the claimant must be alive at the time the claim

ment during the 15-year period must be obtained. No period of employment after June 30, 1971 may be considered as part of such 15-year period. The Office will assist any claimant in obtaining the nec-

XUM
V37-231 NOV 30 72 XUM
V37-231 NOV 30 72 XUM

by a responsible operator of benefits to which the claimant is found entitled pursuant to section 415 of the Act is not assured, or the payment of equivalent or greater benefits under an applicable State workmen's compensation law is not assured, the Secretary of Labor is to make benefit payments from Federal funds pursuant to the provisions of section 415 of Part B and section 424 of Part C as appropriate.

(3) These provisions are intended to assure the uninterrupted receipt of benefits by claimants filing therefor on or after July 1, 1973 during the period of transition from full Federal liability for benefits under Part B of Title IV to mine operators' liability under Part C or under adequate State workmen's compensation laws identified as provided in Part C.

(d) Part C of Title IV of the Act, the provisions of which are implemented by this Part 725, makes provision for payment of pneumoconiosis disability and death claims filed on or after January 1, 1974. Under the provisions of Part C, in States having a workmen's compensation law meeting the criteria set forth in Part 722 of this subchapter, such claims are to be filed pursuant to such State law. In periods when no such law is applicable, the Secretary of Labor is charged with administering a program following the provisions of the Longshoremen's and Harbor Workers' Compensation Act under which responsibility for payment of pneumoconiosis benefits is placed upon operators of coal mines in which the miners who contracted pneumoconiosis were employed. Benefit payments by the Secretary of Labor are made in cases where payments to which a claimant is entitled are not available from the sources specified.

§ 725.2 Purpose and scope of this part.

(a) This Part 725 sets forth the rules applicable to the filing of claims for black lung benefits with the Secretary of Labor after December 30, 1973, and the rules for processing, determining and adjudicating, and paying benefits pursuant to Part C of Title IV of the Act as amended, with respect to black lung claims filed by any eligible miner, widow, child, parent, brother or sister.

(b) This subpart A describes generally the statutory framework governing the manner in which claims filed between January 1, 1974 and December 30, 1981 are to be processed and paid, as well as the applicability of other related parts contained in this subchapter to such claims.

(c) Subpart B of this part prescribes the procedure by which an individual claimant shall file his claim for black lung benefits with the Secretary of Labor after December 31, 1973, and sets forth the rules for the preliminary processing of claims for such benefits.

(d) Subpart C of this part sets forth the relationship and dependency requirements for widows, children, parents, brothers, and sisters and relationship and dependency requirements which affect the amount of benefits to which any miner and/or widow is entitled.

(e) Subpart D of this part prescribes the criteria and procedures which shall be followed by the Secretary of Labor in determining the identity and establishing the liability of any coal operators responsible under Title IV of the Act for the payment of black lung benefits after December 31, 1973.

(f) Subpart E of this part sets forth the rules which shall be applied by the Secretary of Labor in the determination and adjudication of claims for black lung benefits pursuant to Part C of Title IV of the Act.

(g) Subpart F of this part sets forth the rules under which the Secretary of Labor shall provide for payment of benefits to eligible claimants determined to be entitled thereto pursuant to the procedures enumerated in subpart E of this part.

APPLICABILITY OF OTHER PARTS IN THIS SUBCHAPTER B

§ 725.5 Applicability of Part 715 of this chapter.

All of the matter contained in Part 715 of this chapter pertaining to general definitions and use of terms as well as the public disclosure of program information and records is fully applicable to this Part 725 (see §§ 715.101, 715.301 of this chapter). As noted in Part 715 of this chapter, the matter therein subsumed under the center heading "Benefits Provided by the Act and Eligibility Therefor" is applicable to Part C claims.

§ 725.6 Inapplicability of 20 CFR Part 717.

Part 717 of this chapter is a joint regulation promulgated by the Secretary of Health, Education, and Welfare and the Secretary of Labor which sets out the procedure for filing claims for black lung benefits in the transition period during which the primary Federal responsibility for the administration of new claims under the Act is transferred from the Secretary of Health, Education, and Welfare to the Secretary of Labor. The procedures for filing claims contained in Part 717 of this chapter are applicable only to that transition period and are not applicable to claims filed with the Secretary of Labor after December 31, 1973 under Part C of Title IV of the Act.

§ 725.7 Applicability of Part 718 of this chapter.

(a) Part 718 of this chapter incorporates in this subchapter B the applicable medical standards and presumptions promulgated by the Secretary of Health, Education, and Welfare for determining whether a coal miner's total disability or death was due to pneumoconiosis or whether a coal miner was totally disabled by pneumoconiosis at the time of his death. Section 422(h) of Part C of Title IV of the Act makes these standards applicable to claims filed with the Secretary of Labor for benefits under Part C.

(b) The medical standards and presumptions incorporated by Part 718 of this chapter are, therefore, applicable to all claims filed for black lung benefits which must be determined pursuant to this Part 725, except that for the purpose of determining the applicability of the presumption established by section 411 (c)(4) of the Act to claims filed under Part C of Title IV of the Act, section 430 of the Act provides no period of employment after June 30, 1971, shall be considered in determining whether a miner was employed for at least 15 years in one or more underground mines.

§ 725.8 Inapplicability of Part 720 of this chapter.

Part 720 of this chapter sets out the procedures for processing, determining and adjudicating claims and paying benefits in respect to the Secretary of Labor's responsibility for administering the provisions of section 415 of Part B of Title IV of the Act. No section of that Part 720 is incorporated by reference in this Part 725. Part 720 of this chapter relates exclusively to the transition period claims to be determined by the Secretary as provided in section 415 of the Act and is inapplicable to any new claims filed after December 31, 1973, which are to be processed, adjudicated, and paid pursuant to subparts A–F of this Part 725.

§ 725.9 Applicability of Part 726 of this chapter.

Part 726 of this chapter relates to the criteria to be used by the Secretary of Labor in determining whether a coal mine operator in appropriate circumstances has taken the necessary steps to comply with insurance requirements which section 423 of Title IV of the Act prescribes for securing the payment of black lung benefits by qualifying as a self-insurer or contracting with an authorized insurance carrier. Part 726 of this chapter is applicable to this Part 725 insofar as it affects the responsibility of coal operators to fulfill their obligations under Title IV of the Act.

Subpart B—Filing and Preliminary Processing of Claims

GENERAL

§ 725.101 Scope and applicability of this subpart.

All claims for black lung benefits filed on or after January 1, 1974, under Part C of Title IV of the Act (except claims within the purview of a workmen's compensation law of a State listed in § 722.401 of this subchapter) shall be filed and preliminarily processed pursuant to the provisions of this subpart. This subpart does not apply to the filing of claims for black lung benefits under Part B of Title IV, or to any claims filed before January 1, 1974. Claims filed prior to July 1, 1973, under Part B of Title IV shall be filed within the Social Security Administration pursuant to the provisions of Part 410 of this title. Claims filed on or after July 1, 1973, under section 415 of Part B of Title IV shall be filed pursuant to Part 717 of this Subchapter B.

WHO MAY FILE CLAIMS

§ 725.111 Who may execute a claim.

The Office of Workmen's Compensation Programs (OWCP) determines who is the proper party to execute a claim in accordance with the following rules:

(a) If the claimant has attained the age of 18, is mentally competent, and is physically able to execute the claim, the claim shall be executed by him. Where, however, paragraph (d) of this section applies, the claim may also be executed by the claimant's legal guardian, committee, or other representative.

(b) If the claimant is between the ages of 16 and 18, is mentally competent, has no legally appointed guardian, committee, or other representative, and is not in the care of any person, such claimant may execute the claim upon filing a statement on the prescribed form indicating capacity to act on his own behalf.

(c) If the claimant is mentally competent but has not attained age 18 and is in the care of a person, the claim may be executed by such person.

(d) If the claimant (regardless of his age) has a legally appointed guardian, committee, or other representative, the claim may be executed by such guardian, committee, or representative.

(e) If the claimant (regardless of his age) is mentally incompetent or is physically unable to execute the claim, it may be executed by the person who has the claimant in his care or by a legally appointed guardian, committee, or other representative.

(f) Where the claimant is in the care of an institution and is not mentally competent or physically able to execute a claim, the manager or principal officer of such institution may execute the claim.

(g) For good cause shown, the Office may accept a claim executed by a person other than one described in paragraph (a), (b), (c), (d), (e), or (f) of this section.

§ 725.112 Evidence of authority to execute a claim on behalf of another.

Where the claim is executed by a person other than the claimant, such person shall, at the time of filing the claim or within a reasonable time thereafter, submit evidence of his authority to execute the claim on behalf of such claimant in accordance with the following rules:

(a) If the person executing the claim is the legally appointed guardian, committee, or other legal representative of such claimant, the evidence shall be a certificate executed by the proper official of the court of appointment.

(b) If the person executing the claim is not such a legal representative, the evidence shall be a statement describing his relationship to the claimant, the extent to which he has the care of such claimant, or his position as an officer of the institution of which the claimant is an inmate. The Office may, at any time, require additional evidence to establish the authority of any such person.

§ 725.113 Claimant must be alive when claim is filed.

For a claim to be effective, the claimant must be alive at the time the claim is filed with the Office.

FILING OF CLAIMS

§ 725.121 Claims forms.

(a) Claims shall be filed on approved forms and in accordance with instructions (provided thereon or attached thereto) as are prescribed by the Office of Workmen's Compensation Programs (OWCP).

(b) The forms for filing claims after December 31, 1973, for benefits under Part C of Title IV of the Act and the regulations in this part are CM–903 (Coal Miner's Claim for Benefits), CM–903A (Widow's Claim for Benefits), CM–903B (Dependent Survivor's Claim for Benefits), and CM–904 (Medical Report—Pneumoconiosis). These forms will be made generally available to the public at all OWCP offices throughout the coal mining regions and in Washington, D.C.

§ 725.122 Inquiry and assistance.

(a) *Information requests.* Inquiries or requests concerning claims and claims forms may be made by any individual by mail or in person to any of the field offices of the Office of Workmen's Compensation Programs (OWCP) which are located in various cities throughout the coal mining regions of the United States and in Washington, D.C. When appropriate, in response to inquiries or requests the Office shall tender to prospective claimants explanations of eligibility under the Act, of statutory requirements concerning disability and death claims, and of procedures for filing and processing of claims.

(b) *Assistance in the preparation of claims forms.* The OWCP will assist claimants, if necessary, in completing their claims forms, including the listing of information required to establish previous periods of a miner's coal mine employment and to determine which of these periods of employment were spent in the service of any particular coal mine operator. The OWCP will also assist claimants in securing other evidence necessary to support their claims.

(c) *Development of employment history.* Designated officials of the OWCP will assist any claimant in establishing a chronological employment history from the date of the last employment in a coal mine. Such development entails the acquisition of such facts as are necessary to identify the dates of employment with each coal mine operator with whom a disabled or deceased miner was employed. It shall not be necessary to secure documentary evidence to support a claimant's allegations in respect to these periods of employment. If, however, a claimant desires to utilize the medical presumption prescribed in section 411(c)(4) of Part B of Title IV of the Act and section 422(f)(2) of Part C of Title IV of the Act, documentary evidence of coal mine employment during the 15-year period must be obtained. No period of employment after June 30, 1971 may be considered as part of such 15-year period. The Office will assist any claimant in obtaining the necessary evidence required to establish a right to utilize this presumption (see also Part 718 of this Subchapter B).

§ 725.123 Place of filing claim.

Claims for benefits under Part C of Title IV of the Act and this Part 725 may be delivered, mailed, or otherwise presented for filing at any of the various offices of the Office of Workmen's Compensation Programs, throughout the coal mining regions of the United States or in Washington, D.C.

§ 725.124 Time limits for filing claim.

(a) Every claim for benefits filed under this part must be filed within 3 years of the discovery of total disability due to pneumoconiosis or, in the case of death due to pneumoconiosis, within 3 years of the date of such death.

(b) Any claim for benefits in the case of a disabled miner filed under Part C of Title IV of the Act and this Part 725 on the basis of eligibility under section 411(c)(4) of Part B of Title IV of the Act, must be filed within 3 years from the date of last exposed employment in a coal mine or, in the case of death from a respiratory or pulmonary impairment for which benefits would be payable under section 411(c)(4), incurred as a result of employment in a coal mine, such claim must be filed within 15 years from the date of last exposed employment in a coal mine.

(c) The time limitations described in paragraphs (a) and (b) of this section are mandatory and may not be waived or otherwise avoided for any reason.

§ 725.125 When a claim is considered to have been filed; time of filing claim.

(a) *Date of receipt.* (1) Except as otherwise provided in this section, for the purposes of determining when a claim has been filed within the meaning of Part C of Title IV of the Act, a claim is considered to have been filed only as of the date it is received at an office of the Office of Workmen's Compensation Programs or by an employee of the Office who is authorized to receive such claims.

(2) Claims submitted to any other agency or subdivision of the United States Government shall be forwarded promptly to an office of the OWCP. Such a claim shall be deemed filed with the OWCP as of the date it was received by the other governmental unit.

(3) Claims by or on behalf of a claimant residing outside the United States, submitted to an office maintained by the Foreign Service of the United States, shall be considered to have been filed with the OWCP as of the date it is received at such office of the Foreign Service.

(b) *Date of mailing.* If the claim is deposited in and transmitted by the United States mail and the fixing of the date

of delivery as the date of filing would result in a loss or impairment of benefit rights, it will be considered to have been filed as of the date of mailing. The date

OWCP has received from an individual a written statement as described in paragraph (a) or (b) of this section:

(1) Notice in writing shall be sent to the claimant or to the individual who

filed. After the withdrawal (where made before or after the date the Office makes a determination) further action will be taken by the Office only upon the filing of a new claim, except as provided in

age, marriage, or termination of marriage, death, relationship of parent and child, other relationship or dependence,

part D of Part 410 of this title (see Part 718 of this subchapter, which incorpo-

prepared for such further action by the deputy commissioner, as provided in § 725.135, as may be appropriate, includ-

V37-231-NOV30-72-XUM

of delivery as the date of filing would result in a loss or impairment of benefit rights, it will be considered to have been filed as of the date of mailing. The date appearing on the postmark (when available and legible) shall be prima facie evidence of the date of mailing. If there is no postmark or it is not legible, other evidence may be used to establish the mailing date.

(c) *Prospective filing of a claim.* A claim which is filed before the first month in which the claimant meets the requirements for entitlement to benefits is a valid claim only if the claimant meets such requirements before a final decision on his claim is made. Such a claim is deemed to have been filed on the first day such requirements are met.

(d) *Abandoned claims.* A claim considered an abandoned claim pursuant to § 725.415 shall, if once again pursued by the same claimant at a later date, be considered filed for purposes of § 725.124 as of the date the claim which was abandoned was filed.

§ 725.126 When a written statement is considered a claim.

(a) *Written statement filed by claimant on his own behalf.* Where an individual files a written statement which indicates an intention to claim benefits and such statement bears his signature or his mark properly witnessed, the filing of such written statement shall be considered to be the filing of a claim for benefits, provided that:

(1) The claimant or a proper person on his behalf (see § 725.111) executes a prescribed claims form (see § 725.121) that is filed with the Office during the claimant's lifetime and within the period prescribed in paragraph (c)(1) of this section; or

(2) In the case of a claimant who dies prior to the filing of such prescribed claims forms within the period prescribed in paragraph (c)(1) of this section, a prescribed claims form is filed with the Office within the period prescribed in paragraph (c)(2) of this section by a person acting on behalf of the deceased claimant's estate.

(b) *Written statement filed by an individual on behalf of another.* A written statement filed by an individual which indicates an intention to claim benefits on behalf of another person shall, unless otherwise indicated thereon, be considered to be the filing of a claim for such purposes, provided that:

(1) The written statement bears the signature (or mark properly witnessed) of the individual filing the statement; and

(2) The individual filing the statement is the claimant on whose behalf the statement is being filed, or a proper person to execute a claim on behalf of the claimant; and

(3) A prescribed claims form (see § 725.121) is executed and filed in accordance with the provisions of paragraph (c)(1) of this section.

(c) *Period within which prescribed claims forms must be filed.* After the OWCP has received from an individual a written statement as described in paragraph (a) or (b) of this section:

(1) Notice in writing shall be sent to the claimant or to the individual who filed the written statement on his behalf, stating that an initial determination will be made with respect to such written statement if a prescribed claims form executed by the claimant or by a proper party on his behalf is filed with the OWCP within 6 months from the date of such notice; or

(2) If notice is received that the death of such claimant occurred before the mailing of the notice described in subparagraph (1) of this paragraph, or within the 6-month period following the mailing of such notice but before the filing of a prescribed claims form by or on behalf of such individual, notification in writing shall be sent a person acting on behalf of his estate, or to the deceased's last known address. Such notification will include information that an initial determination with respect to such written statement will be made only if a prescribed claims form is filed within 6 months from the date of such notification.

(3) If, after the notice as described in this paragraph (c) has been sent, a prescribed claims form is not filed (in accordance with the provisions of paragraph (a) or (b) of this section) within the applicable period prescribed in subparagraph (1) or (2) of this paragraph, it will be deemed that the filing of the written statement to which such notice refers is not to be considered the filing of a claim for the purposes set forth in paragraphs (a) and (b) of this section.

§ 725.127 Withdrawal of a claim.

(a) *Before adjudication of claim.* A claimant (or an individual who is authorized to execute a claim on his behalf under § 725.111), may withdraw his previously filed claim provided that:

(1) He files a written request for withdrawal;

(2) The claimant is alive at the time his request for withdrawal is filed;

(3) The OWCP approves the request for withdrawal; and

(4) The request for withdrawal is filed on or before the date the Office makes a determination on the claim.

(b) *After adjudication of claim.* A claim for benefits may be withdrawn by a written request filed after the date the OWCP makes a determination on the claim, provided that:

(1) The conditions enumerated in paragraphs (a) (1) through (3) of this section are met; and

(2) There is repayment of the amount of benefits previously paid because of the claim that is being withdrawn or it can be established to the satisfaction of the Office that repayment of any such amount is assured.

(c) *Effect of withdrawal of claim.* Where a request for withdrawal of a claim is filed and such request for withdrawal is approved by the Office, such claim will be deemed not to have been filed. After the withdrawal (where made before or after the date the Office makes a determination) further action will be taken by the Office only upon the filing of a new claim, except as provided in § 725.128.

§ 725.128 Cancellation of a request for withdrawal.

Before or after a written request for withdrawal has been approved by the Office, the claimant (or a person who is authorized under § 725.111 to execute a claim on his behalf) may request that the request for withdrawal be canceled and that the withdrawn claim be reinstated. Such request for cancellation must be in writing and must be filed, in a case where the requested withdrawal was approved by the Office, no later than 60 days after such approval. The claimant must be alive at the time the request for cancellation of the request for withdrawal is filed with the Office.

§ 725.129 Requests and notices to be in writing.

Any request for a determination or a decision relating to an individual's right to benefits, the withdrawal of a claim, the cancellation of a request for such withdrawal, or any notice provided for, by, or pursuant to this part, shall be in writing and shall be signed by the person authorized to execute a claim under § 725.111.

PREPARATION AND FILING OF CLAIM FOR ADJUDICATION

§ 725.131 Action to be taken by the OWCP—General.

(a) When a claim filed pursuant to the provisions of this Subpart B has been received by the OWCP it shall be examined together with the supporting evidence transmitted with respect thereto. The Office shall promptly take such further action as may be necessary to assure that sufficient information, medical evidence, employment history, and properly executed claims forms have been submitted and that the claim is complete and ready for adjudication.

(b) At such time as all information required has been completed, a case file including the claims forms and supporting documents shall be established and filed with a deputy commissioner, who shall take such further action as may be necessary for determination and disposition of the claim. (See § 725.135.) In the following sections the action to be taken in circumstances described therein is set forth in more detail.

§ 725.132 Development of evidence—General.

(a) *Employment history.* The claimant shall furnish a complete and detailed history of the miner's coal mine employment which is pertinent to the claimant's eligibility for benefits and to the liability of any coal mine operator for payment of the benefits.

(b) *Matters of record.* In appropriate cases it shall be necessary to develop evidence pertaining to or obtain proof of

age, marriage, or termination of marriage, death, relationship of parent and child, other relationship or dependence, or any other fact which may be proven as a matter of public record. (For substantive requirements as to relationship and dependency see Subpart C of this part.) Evidence pertaining to these matters shall be obtained by the claimant and submitted to an office of the OWCP. For purposes of claims under this part, the Office and the deputy commissioner may require this evidence to be submitted in such manner as would be acceptable for Social Security Act benefit applications under the regulations of the Social Security Administration (see § 410.240(g) of this title).

(c) *Documentary evidence.* In developing documentary evidence as to any matter, the "best evidence rule" shall be applicable. This rule requires that the original document or a certified copy thereof must be produced if available. Secondary evidence in this regard may only be used in those cases where the original document is unaccounted for and an adequate explanation is given as to why it cannot be produced.

(d) *Certification of evidentiary documents.* In cases where a copy of a record, document, or other evidence, or an excerpt of information therefrom, is acceptable as evidence in lieu of the original, such copy or excerpt shall, except as may otherwise clearly be indicated thereon, be certified as a true and exact copy or excerpt by the official custodian of any such record or by an employee of the Office authorized to make certifications of any such evidence.

(e) *Evidence of miner's death due to or while disabled by pneumoconiosis.* Any reliable and probative evidence shall be admissible as part of the case record if such evidence supports a claimant's allegation that the death of the miner on whose death a claim is predicated was due to pneumoconiosis or that such miner was totally disabled by pneumoconiosis at the time of his death.

(f) *Insufficient evidence of eligibility.* Whenever a claimant for benefits has submitted no evidence or insufficient evidence of eligibility, the Office will inform the claimant what evidence is necessary for a determination of eligibility and will request him to submit such evidence within a specified reasonable time which may be extended for a further reasonable time upon the claimant's request. The claimant's failure to submit such evidence as requested shall be a basis for determining that the conditions of eligibility concerning which such evidence was requested have not been met.

§ 725.133 Action to be taken by the OWCP—Miner's claim.

(a) Upon receipt of a completed medical report form CM–904, the Office shall tentatively determine whether the medical evidence of record indicates an impairment for which benefits may be paid as determined with reference to standards promulgated by the Secretary of Health, Education, and Welfare as Subpart D of Part 410 of this title (see Part 718 of this subchapter, which incorporates these standards).

(b) If it appears that the claimant may be considered disabled in accordance with the standards published in Subpart D of Part 410 of this title, then the claim shall be prepared for such further action by the deputy commissioner, as provided in § 725.135, as may be appropriate, including consideration of the receipt of any additional medical evidence developed and obtained pursuant to §725.137 or § 725.139 and the notification and reply of any possibly responsible operator as provided in §§ 725.151 and 725.152.

(c) In cases where the medical evidence received by the Office in respect to any claim does not indicate an impairment sufficient under such Department of Health, Education, and Welfare medical criteria (see Part 718 of this subchapter) to support a claim for benefits, the claimant will be advised of the deficiency in his claim and invited to submit any additional medical evidence. Any additional reasonably necessary medical evidence shall be secured at the Department's expense or at the expense of the operator or carrier as the case may be (see §§ 725.137, 725.139).

(d) In the event that the medical evidence received by the Office pursuant to this subpart does not provide credible support for the miner's claim for benefits, any further evidentiary investigations shall be discontinued until further notice.

(e) If a miner whose claim is not considered to be supported by the medical evidence of record desires a determination thereon of the issue of his disability under the standards set forth in Subpart D of Part 410 of this title, the claim will be made ready for action by the deputy commissioner and a hearing or informal conference may be arranged pursuant to Subpart E of this part.

§ 725.134 Action to be taken by the OWCP—widows' or dependent survivor's claim.

(a) Upon receipt of a completed claims form CM–903A or CM–903B, the Office shall tentatively determine whether the evidence of record indicates that the deceased miner's death was due to pneumoconiosis or that the miner was totally disabled by pneumoconiosis at the time of his death. Such determination shall be made with reference to the standards promulgated by the Secretary of Health, Education, and Welfare contained in Subpart D of Part 410 of this title (see Part 718 of this subchapter which incorporates these standards).

(b) The Office shall also determine whether the evidence of record supports the claimant's allegation that he meets the relationship and dependency requirements for eligibility contained in Subpart C of this Part 725.

(c) If it appears that the conditions existing when the miner's death occurred satisfy the medical standards and the relationship and dependency conditions referred to in paragraph (a) and (b) of this section, then the claim shall be prepared for such further action by the deputy commissioner, as provided in § 725.135, as may be appropriate, including consideration of the receipt of any additional evidence developed and obtained pursuant to § 725.132(c) and the notification and reply of any possibly responsible operator as provided in §§ 725.151 and 725.152.

(d) In cases where the medical evidence received by the Office in respect to any claim does not indicate that the circumstances of a miner's death are sufficient under such Department of Health, Education, and Welfare medical criteria (see Part 718 of this subchapter) to support a claim for benefits, the claimant will be advised of the deficiency in his claim and invited to submit any additional medical evidence. Any additional reasonably necessary medical evidence or other documentary evidence shall be secured at the Department's, or the operator's or carrier's expense as the case may be (see § 725.141).

(e) In the event that the evidence received by the Office pursuant to this subpart does not provide credible support for the survivor's claim for benefits, any further evidentiary investigations shall be discontinued until further notice.

(f) If a survivor whose claim is not considered to be supported by the evidence desires a determination thereon of the issues of the miner's death or the sufficiency of his relationship or dependency, the claim will be made ready for filing with the deputy commissioner and filed with him as provided in § 725.131. Thereafter a hearing or informal conference may be arranged pursuant to Subpart E of this part.

§ 725.135 Procedure on filing of claim with deputy commissioner.

The deputy commissioner shall, after the filing of a claim with him as provided in §§ 725.131, 725.133, or 725.134, review the case file and, if he is satisfied that the claim is one within the jurisdiction of the Secretary of Labor under section 422 of the Act, shall proceed to make a tentative determination of the identity of any responsible coal mine operator pursuant to the criteria set forth in Subpart D of this Part 725, insure that any such operator is notified as provided in § 725.151, and take any other action he deems necessary to prepare the claim for adjudication or other final disposition. The deputy commissioner may require such further development of evidence and may cause to be made such investigations as he considers necessary in respect to the claim, and take other action as authorized under Subpart E of this part, following, to the extent appropriate, the procedures provided in section 19 of the Longshoremen's and Harbor Workers' Compensation Act as amended (44 Stat. 1424, 33 U.S.C. 919, as amended by section 14 of Public Law 92–576).

§ 725.136 Referral to State agency.

If the deputy commissioner determines that the claim is one subject to adjudication by a State agency of a State having

a workmen's compensation law which provides black lung benefits and has been

determine the nature and extent of that miner's impairment, enter his findings on form CM–904 pursuant to the instruc-

(e) *Payment for examination.* The deputy commissioner shall have the power in his discretion to charge the cost

he should not generally incur any medical expense for which he intends to claim reimbursement without first contacting the office to determine what types of

by certified mail, with proof of delivery requested.

§ 725.152 Operator's response to notification.

(c) References in §§ 725.210(c), 725.220(c), 725.230(d), and 725.235, to the "same right to share in the intestate personal property" of a deceased miner (or

XUM V37-231 NOV 30 72 XUM V3

a workmen's compensation law which provides black lung benefits and has been listed in Part 722 of this chapter as a law meeting the criteria of the Secretary of Labor prescribed pursuant to section 421 of Part C of Title IV of the Act, the deputy commissioner shall advise the claimant of such determination and of the Act's requirement that under such circumstances his claim for benefits must be filed under the applicable State workmen's compensation law. In such a case, evidence submitted to the OWCP in support of the claim including claims forms, will be forwarded to the appropriate State compensation agency. The claimant's case will then be closed.

§ 725.137 Medical evidence—notified operator.

(a) An operator who has been notified of his potential liability on a miner's claim pursuant to § 725.151 shall within 20 days of the receipt of such notice tender to the miner-claimant a list of physicians practicing in the vicinity of the miner's residence designated and approved by the Secretary to conduct examinations in connection with the black lung benefits program.

(b) The miner shall select a physician from such list and notify the office promptly of his selection.

(c) The deputy commissioner will promptly arrange for a medical examination to be conducted, after appropriate notification to the parties in interest, at a time and place convenient to both the miner and the approved physician and as soon as is practicable.

(d) The designated physician will complete an examination of the miner to determine the nature and extent of that miner's impairment, enter his findings on form CM–904 pursuant to the instructions on the form, and transmit the form within 20 days from the date of the examination to the office of the OWCP which is processing the claim.

(e) The bill for the physician's services shall be remitted to the operator or carrier allegedly liable for the payment of benefits in respect to the claim.

(f) Paragraphs (b), (c), (d), and (e) of § 725.139 shall apply with respect to examinations conducted pursuant to the provisions of this section.

§ 725.138 Medical evidence—no responsible operator.

(a) In cases of miners' claims where no responsible operator has been identified or notified the Office shall provide the miner-claimant with a list of previously designated and approved physicians from among whom the miner shall select a physician to examine him with respect to his black lung claim. The miner shall promptly notify the Office of his selection.

(b) The deputy commissioner will arrange for the examination to be conducted at a time and place convenient to both the miner and the approved physician and as soon as is practicable, after notice to the parties in interest.

(c) The designated physician will complete an examination of the miner to determine the nature and extent of that miner's impairment, enter his findings on form CM–904 pursuant to the instructions on the form and transmit the form together with the physician's bill for services directly to the office of the OWCP which is processing the claim.

(d) Proceedings shall be suspended and no benefits shall be payable for any period during which the miner may refuse to submit to examination.

§ 725.139 Additional medical evidence.

(a) *Report of examination by physician.* In the event that medical questions are raised at any time in any case of a miner's claim for benefits, the deputy commissioner may cause the claimant to be examined by a physician employed or selected by the office and may obtain from such physician a report containing his estimate of the miner's disability and such information as may be appropriate. Any party in interest (see § 725.403) who is dissatisfied with such report may request a review or reexamination of the miner by one or more different physicians employed or selected by the Secretary. The deputy commissioner shall order such review or reexamination unless he finds that it is clearly unwarranted. Such review or reexamination shall be completed within 2 weeks from the date ordered unless the deputy commissioner finds that because of extraordinary circumstances a longer period is required.

(b) *Conduct of examination.* No other physician selected by the operator, his insurance carrier, or the miner shall be present at or participate in any manner in such examination, nor shall conclusions of such physicians as to the nature or extent of impairment or the cause of impairment be available to the examining physician unless otherwise ordered, for good cause, by the deputy commissioner. Such operator or carrier shall, upon request, be entitled to have the miner examined immediately thereafter and upon the same premises by a qualified physician or physicians in the presence of such physician as the miner may select, if any.

(c) *Submittal to examination at place designated.* The miner shall submit to a physical examination under paragraph (a) of this chapter at such place as the deputy commissioner may require. The place, or places, shall be designated by the deputy commissioner and shall be reasonably convenient for the miner. Proceedings shall be suspended and no benefits shall be payable for any period during which the miner may refuse to submit to examination.

(d) *Examination by disinterested physician.* Unless the parties in interest agree the Office shall not employ or select any physician for the purpose of making examinations or reviews under paragraph (a) of this section who, during such employment, or during the period of 2 years prior to such employment, has been employed by, or accepted or participated in any fee relating to a workmen's compensation claim from any insurance carrier or any self-insurer.

(e) *Payment for examination.* The deputy commissioner shall have the power in his discretion to charge the cost of examination or review under this section to the notified operator, if he is a self-insurer, or to the operator's insurance carrier, or if there is no responsible operator, to the Office.

§ 725.140 Fees for medical services.

(a) All fees and other charges for medical examinations, treatment or service shall be limited to such charges as prevail in the same community for such treatment.

(b) Any complaint concerning a physician's fee shall be directed to the Office of Workmen's Compensation Programs in Washington, D.C.

(c) The office shall investigate the complaint or may on its own initiative investigate a fee and where appropriate inform a physician that his fee is in excess of the permissible amount for the services performed. The physician may then adjust his fee to within the permissible limits or contest the determination of the office. In the event that the fee is contested, a physician may request a hearing pursuant to subpart E of this part.

(d) Any physician who refuses to obey a final decision and order concerning his fee or refuses to adjust his fee pursuant to paragraph (c) of this section within 30 days from the date he is notified that his fee is in excess of a permissible amount, shall forthwith be removed from the Secretary's list of approved physicians and shall not otherwise be authorized to conduct black lung examinations or treatments. No subsequent treatments or examinations conducted by a physician barred under this section shall be reimbursable medical expenses pursuant to § 725.141 and no debarred physician shall be reinstated on the Secretary's list until such time as the physician affirmatively demonstrates that he shall adjust his fees to within permissible levels.

§ 725.141 Reimbursement for reasonable expenses in obtaining medical evidence.

(a) Claimants for benefits under this part shall be reimbursed promptly by the Office of Workmen's Compensation programs or the responsible operator or his insurance carrier for reasonable medical expenses incurred by them for services from medical sources of their choice in establishing their claims, including the reasonable and necessary cost of travel incident thereto. A medical expense generally is not "reasonable" when the medical evidence for which the expense was incurred is of no value in the adjudication of a claim. Medical evidence will be considered to be of "no value" when, for instance, it is wholly duplicative or when it is wholly extraneous to the medical issue of whether the claimant is disabled or, in the case of death claims, whether the miner's death occurred due to pneumoconiosis or while totally disabled therefrom. In order to minimize inconvenience and expense to the claimant,

he should not generally incur any medical expense for which he intends to claim reimbursement without first contacting the office to determine what types of evidence not already available may be useful in adjudicating his claim, what types of medical evidence may be reimbursable, and what would constitute a "reasonable medical expense" in a given case. However, a claimant's failure to contact the office before the expense is incurred will not preclude the office from later approving reimbursement for any reasonable medical expense. Where a reasonable expense for medical evidence is ascertained, the office in appropriate cases may authorize direct payment to the provider of such evidence.

(b) Medical services required for the processing of claims and those to which a miner-beneficiary is entitled under the Act shall be considered "benefits" provided by the Act and the failure to reimburse a claimant for his medical expenses within the specified time period shall subject an operator or carrier to the additional benefits provisions of §§ 725.333—725.334.

NOTIFICATION OF OPERATORS

§ 725.151 Notice of claim and issue of liability.

(a) Before a claim for benefits under Title IV of the Act is filed with a deputy commissioner for determination, the Office will have ascertained, to the extent possible, the identity of any coal mine operators whose liability as responsible operators for payment of benefits to the claimant for any month or months after December 31, 1973 may be established by the evidence submitted or obtained in connection with the claim. From the information in the case file the deputy commissioner will then make his tentative determination as to whether there are any such operators and, if there are, which operator or operators should be alleged to have such liability. (See §§ 725.131, 725.135.) Each such operator will promptly thereafter be notified of the pending claim filed with the deputy commissioner and of the fact that his liability for payment of such benefits will be one of the issues to be resolved in the determination of the claim. Such notification will include copies of the claimant's completed claim form and of the pertinent medical evaluation reports, with a cover letter informing the operator of the nature of the evidence relied on by the Office to support, prima facie, a determination that the operator is liable for payment of benefits to the claimant. Also included if the claimant is a miner will be a list of approved physicians for transmittal by the operator to the miner-claimant as provided in § 725.137. The notification shall advise the operator that a response to the notice as provided in § 725.152 shall be made as soon as possible and that in the event of a failure to respond within 20 days from the date of mailing of the notice the Office will proceed to the final determination of the claim.

(b) The notification described in paragraph (a) of this section shall be made by certified mail, with proof of delivery requested.

§ 725.152 Operator's response to notification.

(a) Within the 20-day period described in § 725.151 a notified coal mine operator shall respond to the notice as provided in the following paragraphs.

(b) If the operator does not contest the claim or his liability under the Act for payment of benefits to which the claimant may be found entitled for any month or months after December 31, 1973, he shall so state either:

(1) By letter mailed to the Office of Workmen's Compensation Programs, U.S. Department of Labor, Washington, D.C. 20211; or

(2) By completing and mailing form CM–902 (Employer's First Report and Answer to Claim for Benefits) to such address.

(c) If the notified operator contests the claim or his liability for payment of benefits to the claimant for any period after December 31, 1973, he shall so state by transmitting to the Office a completed form CM–902 setting forth generally his reasons for controverting the claim or his liability to pay benefits that may be awarded, together with a detailed description of any evidence relied upon as a basis for such contest.

FURTHER ACTION ON CLAIM

§ 725.161 Proceedings for determination of claim.

(a) *No responsible operator.* If after the deputy commissioner has received all the evidence developed with respect to a claim as provided in this subpart and there is no identifiable responsible operator, he shall proceed to a final determination of the claim pursuant to Subpart E of this Part 725.

(b) *Claim for which operator may have liability.* If after the deputy commissioner has received all the evidence developed with respect to a claim as provided in this subpart and has identified and notified an operator or operators who may be liable for payment of benefits to the claimant, a response has been received pursuant to § 725.152 or the time for such response has expired, he shall proceed to a final determination of the claim as provided in Subparts D and E of this Part 725.

Subpart C—Relationship and Dependency

§ 725.200 Relationship and dependency; general.

(a) In order to establish entitlement to benefits, a widow, child, parent, brother, or sister, must meet relationship and dependency requirements with respect to the miner or widow, as applicable, prescribed by or pursuant to the Act.

(b) In order for an entitled miner or widow to qualify for augmented benefits because of one or more dependents, such dependents must meet relationship and dependency requirements with respect to such beneficiary prescribed by or pursuant to the Act.

(c) References in §§ 725.210(c), 725.220(c), 725.230(d), and 725.235, to the "same right to share in the intestate personal property" of a deceased miner (or widow), refer to the right of an individual to share in such distribution in his own right and not by right or representation.

§ 725.210 Determination of relationship; wife.

An individual will be considered to be the wife of a miner if:

(a) The courts of the State in which such miner is domiciled would find that such individual and the miner were validly married; or

(b) The courts of the State in which such miner is domiciled would find, under the law they would apply in determining the devolution of the miner's intestate personal property, that the individual is the miner's wife; or

(c) Under State law, such individual has the same right she would have if she were the wife to share in the miner's intestate personal property; or

(d)(1) Such individual went through a marriage ceremony with the miner resulting in a purported marriage between them and which, but for a legal impediment would have been a valid marriage. However, such purported marriage shall not be considered a valid marriage if such individual entered into the purported marriage with knowledge that it was not a valid marriage, or if such individual and the miner were not living in the same household in the month in which there is filed a request that the miner's benefits be augmented because such individual qualifies as his wife. The provisions of this paragraph shall not apply, however, if the miner's benefits are or have been augmented under § 725.507 because another person qualifies or has qualified as his wife and such other person is, or is considered to be, the wife of such miner under paragraph (a), (b), or (c) of this section at the time such request is filed.

(2) The qualification for augmentation purposes of an individual who would not be considered to be the wife of such miner but for this paragraph (d), shall end with the month before the month in which (i) the Office determines that the benefits of the miner should be augmented on account of another person, if such other person is (or is considered to be) the wife of such miner under paragraph (a), (b), or (c) of this section, or (ii) if the individual who previously qualified as a wife for purposes of § 725.625(c), entered into a marriage valid without regard to this paragraph, with a person other than such miner.

§ 725.215 Determination of relationship; divorced wife.

An individual will be considered to be the divorced wife of a miner if her marriage to such miner has been terminated by a final divorce on or after the 20th anniversary of the marriage: *Provided*, That if she was married to and divorced from him more than once, she was married to him in each calendar year of the period beginning 20 years immediately

before the date on which any divorce became final and ending with the year in which that divorce became final.

(b) Such individual is the legally adopted child of such beneficiary; or

(c) Such individual is the stepchild of

(a) She is a member of the same household as the miner (see § 725.285); or

(ii) Occurs in line of duty while he is a member of a uniformed service serving on active duty (as defined in § 404.-

230) will, as applicable, be determined to be, or to have been dependent on the beneficiary, if the child:

(1) Is unmarried; and

(ii) During the periods of reasonable duration during which, in the judgment of the office, he is prevented by factors beyond his control from pursuing his

XUM

V 37-231 NOV 30 72 XUM

before the date on which any divorce became final and ending with the year in which that divorce became final.

§ 725.220 Determination of relationship: widow.

An individual will be considered to be the widow of a miner if:

(a) The courts of the State in which such miner was domiciled (see § 725.280) at the time of his death would find that the individual and the miner were validly married; or

(b) The courts of the State in which such a miner was domiciled (see § 725.280) at the time of his death would find, under the law they would apply in determining the devolution of the miner's intestate personal property, that the individual was the miner's widow; or

(c) Under State law, such individual has the same right she would have as if she were the miner's widow to share in the miner's intestate personal property; or

(d) Such individual went through a marriage ceremony with the miner resulting in a purported marriage between them and which, but for a legal impediment (see § 725.275) would have been valid marriage. However, such purported marriage shall not be considered a valid marriage if such individual entered into the purported marriage with knowledge that it was not a valid marriage, or if such individual and the miner were not living in the same household at the time of the miner's death. The provisions of this paragraph shall not apply if another person is or has been entitled to benefits as the widow of the miner and such other person is, or is considered to be, the widow of such miner under paragraph (a), (b), or (c) of this section at the time such individual files her claim for benefits.

§ 725.225 Determination of relationship: surviving divorced wife.

An individual will be considered to be the surviving divorced wife of a deceased miner if her marriage to such miner had been terminated by a final divorce on or after the 20th anniversary of the marriage: *Provided*, That, if she was married to and divorced from him more than once, she was married to him in each calendar year of the period beginning 20 years immediately before the date on which any divorce became final and ending with the year in which the divorce became final.

§ 725.230 Determination of relationship: child.

As used in this section, the term "beneficiary" means only a widow entitled to benefits at the time of her death (see § 715.207 of this chapter), or a miner, except where there is a specific reference to the "father" only, in which case it means only a miner. An individual will be considered to be the child of a beneficiary if:

(a) The courts of the State in which such beneficiary is domiciled (see § 725.280) would find, under the law they would apply in determining the devolution of the beneficiary's intestate personal property, that the individual is the beneficiary's child; or

(b) Such individual is the legally adopted child of such beneficiary; or

(c) Such individual is the stepchild of such beneficiary by reason of a valid marriage of his parent or adopting parent to such beneficiary; or

(d) Such individual does not bear the relationship of child to such beneficiary under paragraph (a), (b), or (c) of this section, but would, under State law, have the same right as a child to share in the beneficiary's intestate personal property; or

(e) Such individual is the natural son or daughter of a beneficiary but does not bear the relationship of child to such beneficiary under paragraph (a), (b), or (c) of this section, and is not considered to be the child of the beneficiary under paragraph (d) of this section, such individual shall nevertheless be considered to be the child of such beneficiary if the beneficiary and the mother or the father, as the case may be if such individual went through a marriage ceremony resulting in a purported marriage between them which but for a legal impediment (see § 725.275) would have been a valid marriage.

(f) Such individual is the natural son or daughter of a beneficiary but does not have the relationship of child to such beneficiary under paragraph (a), (b), or (c) of this section, and is not considered to be the child of the beneficiary under paragraph (d) or (e) of this section, such individual shall nevertheless be considered to be the child of such beneficiary if:

(1) Such beneficiary, prior to his entitlement to benefits has acknowledged in writing that the individual is his son or daughter, or has been decreed by a court to be the father of the individual, or he has been ordered by a court to contribute to the support of the individual (see § 725.290(c)) because the individual is his son or daughter; or

(2) Such beneficiary is shown by satisfactory evidence to be the father of the individual and was living with or contributing to the support of the individual at the time such beneficiary became entitled to benefits.

§ 725.235 Determination of relationship: parent, brother, or sister.

An individual will be considered to be the parent, brother, or sister of a miner if the courts of the State in which such miner was domiciled (see § 725.280) at the time of his death would find, under the law they would apply in determining the devolution of the miner's intestate personal property, that the individual is the miner's parent, brother, or sister. Where, under such law, the individual does not bear the relationship to the miner of parent, brother, or sister, but would, under State law, have the same status (i.e., right to share in the miner's intestate personal property) as a parent, brother, or sister, the individual will be deemed to be such.

§ 725.240 Determination of dependency; wife.

An individual who is the miner's wife (see § 725.210) will be determined to be dependent upon the miner if:

(a) She is a member of the same household as the miner (see § 725.285); or

(b) She is receiving regular contributions from the miner for her support (see § 725.290(c)); or

(c) The miner has been ordered by a court to contribute to her support (see § 725.290(e)); or

(d) She is the natural mother of the son or daughter of the miner; or

(e) She was married to the miner (see § 725.210) for a period of not less than 1 year.

§ 725.245 Determination of dependency; divorced wife.

An individual who is the miner's divorced wife (see § 725.215) will be determined to be dependent upon the miner if:

(a) She is receiving at least one-half of her support from the miner (see § 725.290(g)); or

(b) She is receiving substantial contributions from the miner pursuant to a written agreement (see § 725.290(c), (f)); or

(c) There is in effect a court order for substantial contributions to her support to be furnished by such miner (see § 725.290(c)).

§ 725.250 Determination of dependency; widow.

An individual who is the miner's widow (see § 725.220) will be determined to have been dependent on the miner if, at the time of the miner's death:

(a) She was living with the miner (see § 725.285); or

(b) She was dependent upon the miner for support or the miner has been ordered by a court to contribute to her support (see § 725.290); or

(c) She was living apart from the miner because of his desertion or other reasonable cause; or

(d) She is the natural mother of his son or daughter; or

(e) She had legally adopted his son or daughter while she was married to him and while such son or daughter was under the age of 18; or

(f) He had legally adopted her son or daughter while she was married to him and while such son or daughter was under the age of 18; or

(g) She was married to him at the time both of them legally adopted a child under the age of 18; or

(h) She was married to him for a period of not less than 9 months immediately prior to the day on which he died (but see paragraph (i) of this section).

(i) Waiver of 9-month requirement.

(1) *General.* Except as provided in paragraph (g) of this section, the requirement in paragraph (h) of this section that the surviving spouse of a miner must have been married to him for a period of not less than 9 months immediately prior to the day on which he died in order to qualify as such miner's widow, shall be deemed to be satisfied where such miner dies within the applicable 9-month period, is his death:

(i) Is accidental (as defined in subparagraph (2)) of this paragraph, or

(ii) Occurs in line of duty while he is a member of a uniformed service serving on active duty (as defined in § 404.1013(f) (2) and (3) of this title), and such surviving spouse was married to such miner for a period of not less than 3 months immediately prior to the day on which he died.

(2) *Accidental death.* For purposes of subparagraph (1)(i) of this paragraph, the death of a miner is accidental if such individual receives bodily injuries solely through violent, external, and accidental means, and as a direct result of the bodily injuries and independently of all other causes, loses his life not later than 3 months after the day on which he receives such bodily injuries. The term "accident" means an event that was unpremediated and unforeseen from the standpoint of the deceased individual. To determine whether the death of an individual did, in fact, result from an accident the Office will consider all the circumstances surrounding the casualty. An intentional and voluntary suicide will not be considered to be death by accident; however, suicide by an individual who is so insane as to be incapable of acting intentionally and voluntarily will be considered to be death by accident. In no event will the death of an individual resulting from violent and external causes be considered a suicide unless there is direct proof that the fatal injury was self-inflicted.

(3) *Applicability.* The provisions of this section shall not apply if the Office determines that at the time of the marriage involved, the miner would not reasonably have been expected to live for 9 months.

§ 725.255 Determination of dependency; surviving divorced wife.

An individual who is the miner's surviving divorced wife (see § 725.225) will be determined to have been dependent on the miner if, for the month preceding the month in which the miner died:

(a) She was receiving at least one-half of her support from the miner (see § 725.290(g)); or

(b) She was receiving substantial contributions from the miner pursuant to a written agreement (see § 725.290(c), (f)); or

(c) There was in effect a court order for substantial contributions to her support to be furnished by such waiver (see § 725.290(c), (f)).

§ 725.260 Determination of dependency; child.

(a) For purposes of augmenting the benefits of a miner or widow (see § 725.625(c)), the term "beneficiary" as used in this section means only a miner or widow entitled to benefits (see §§ 725.205, 715.207); or, for purposes of an individual's entitlement to benefits as a surviving child (see § 715.211 of this chapter), the term "beneficiary" as used in this section means only a deceased miner or a deceased widow who was entitled to benefits for the month prior to the month of her death. An individual who is the beneficiary's child (see § 725.230) will, as applicable, be determined to be, or to have been dependent on the beneficiary, if the child:

(1) Is unmarried; and

(2) (i) Is under 18 years of age; or

(ii) Is 18 years of age or older and is under a disability as defined in section 223(d) of the Social Security Act, 42 U.S.C. 423(d). For purposes of entitlement to benefits as a surviving child (see § 715.211), such disability must have begun before the child attained age 18, or, in the case of a student, before he ceased to be a student (see paragraph (b) of this section).

(iii) Is 18 years of age or older and is a student.

(b)(1) The term "student" means a "full-time student" as defined in section 202(d)(7) of the Social Security Act, 42 U.S.C. 402(d)(7), (see § 404.320(c) of this title) or an individual under 23 years of age who has not completed 4 years of education beyond the high school level and who is regularly pursuing a full-time course of study or training at an institution which is:

(i) A school, college, or university operated or directly supported by the United States, or by a State or local government or political subdivision thereof; or

(ii) A school, college, or university which has been accredited by a State or by a State-recognized or nationally-recognized accrediting agency or body; or

(iii) A school, college, or university not so accredited but whose credits are accepted, on transfer, by at least three institutions which are so accredited, for credit on the same basis as if transferred from an institution so accredited; or

(iv) A technical, trade, vocational, business, or professional school accredited or licensed by the Federal or a State government or any political subdivision thereof, providing courses of not less than 3 months duration that prepare the student for a livelihood in a trade, industry, vocation, or profession.

(2) A student will be considered to be "pursuing a full-time course of study or training at an institution" if he is enrolled in a noncorrespondence course and carrying a subject load which is considered full-time for day students under the institution's standards and practices. However, a student will not be considered to be "pursuing a full-time course of study or training" if he is enrolled in a course of study or training of less than 13 school weeks' duration. A student beginning or ending a full-time course of study or training in part of any month will be considered to be pursuing such course for the entire month.

(3) A child is deemed not to have ceased to be a student:

(i) During any interim between school years, if the interim does not exceed 4 months and he shows to the satisfaction of the office that he has a bona fide intention of continuing to pursue a full-time course of study or training during the semester or other enrollment period immediately after the interim; or

(ii) During the periods of reasonable duration during which, in the judgment of the office, he is prevented by factors beyond his control from pursuing his education.

(4) A student whose 23d birthday occurs during a semester or other enrollment period in which he is pursuing a full-time course of study or training shall continue to be considered a student for as long as he otherwise qualifies under this section until the end of such period.

§ 725.265 Determination of dependency; parent, brother, or sister.

An individual who is the miner's parent, brother, or sister will be determined to have been dependent on the miner if, during the 1-year period immediately prior to such miner's death:

(a) Such individual and the miner were living in the same household (see § 725.285); and

(b) Such individual was totally dependent on the miner for support (see § 725.290(h)).

§ 725.270 Time of determinations.

(a) *Relationship and dependency of wife or child.* With respect to the wife or child of a miner entitled to benefits, and with respect to the child of a widow entitlement to benefits, the determination as to whether an individual purporting to be a wife or child is related to or dependent upon such miner or widow shall be based on the facts and circumstances with respect to the period of time as to which such issue of relationship or dependency is material.

(b) *Relationship and dependency of widow.* The determination as to whether an individual purporting to be the widow of a miner was related to or dependent upon such miner is made after such individual effectively files a claim for benefits as a widow. Such determination is based on the facts and circumstances with respect to the time of the miner's death. A prior determination to be, or not to be, the wife of such miner, pursuant to §§ 725.210 and 725.240, for purposes of augmenting the miner's benefits for a certain period, is not determinative of the issue of whether the individual is the widow of such miner or of whether she was dependent on such miner.

(c) *Relationship and dependency of surviving divorced wife.* The determination as to whether an individual purporting to be a surviving divorced wife of a miner was related to or dependent upon such miner is made when such individual effectively files a claim for benefits as a surviving divorced wife. Such determination is made with respect to the time of the miner's death. A prior determination that such individual was, or was not, the divorced wife of such miner, pursuant to §§ 725.215 and 725.245, for purposes of augmenting the miner's benefits for a certain period, is not determinative of the issue of whether the individual is the surviving divorced wife of such miner or of whether she was dependent on such miner.

§ 725.275 Legal impediment.

For purposes of this subpart C, "legal

(3) In any other case, if the evidence establishes that despite such absence they nevertheless reasonably expected to

may have therein. However, when a wife receives and uses for her support, income from the services and the property

for pneumoconiosis. Reference should also be made to Part 726 of this chapter, which sets forth insurance requirements for securing the payment of black lung

(a) *Periods of employment.* From the evidence presented of the miner's employment history, the identity of the coal mine operator or operators with whom

shall so notify the operator. This procedure shall be known as "benefits payable without a final decision and order."

(c) If a notified operator does not re-

§ 725.273 **Legal impediment.**

For purposes of this subpart C, "legal impediment" means an impediment resulting from the lack of dissolution of a previous marriage or otherwise arising out of such previous marriage or its dissolution, or resulting from a defect in the procedure followed in connection with the purported marriage ceremony—for example, the solemnization of a marriage only through a religious ceremony in a country which requires a civil ceremony for a valid marriage.

§ 725.280 Domicile.

(a) For purposes of this subpart C, the term "domicile" means the place of an individual's true, fixed, and permanent home to which, whenever he is absent, he has the intention of returning.

(b) The domicile of a deceased miner or widow is determined as of the time of his or her death.

(c) The domicile or a change in domicile of a beneficiary or other individual is determined with respect to the period or periods of time as to which the issue of domicile is material.

(d) If an individual was not domiciled in any State at the pertinent time, the law of the District of Columbia is applied as if such individual were then domiciled there.

§ 725.285 Member of the same household; "living with"; "living in the same household"; and "living in the miner's household."

(a) *Defined.* (1) The term "member of the same household" as used in section 402(a)(2) of the Act (with respect to a wife); the term "living with" as used in section 402(e) of the Act (with respect to a widow); and the term "living in the same household" as used in §§ 725.210(d) and 725.250(d) of this subpart, means that a husband and wife were customarily living together as husband and wife in the same place of abode.

(2) The term "living in the miner's household" as used in section 412(a)(5) of the Act (with respect to a parent, brother, or sister), means that the miner and such parent, brother, or sister were sharing the same residence.

(b) *Temporary absence.* The temporary absence from the same residence of either the miner, or his wife, parent, brother, or sister (as the case may be), does not preclude a finding that one was "living with" the other, or that they were "members of the same household", etc. The absence of one such individual from the residence in which both had customarily lived shall, in the absence of evidence to the contrary, be considered temporary:

(1) If such absence was due to service in the Armed Forces of the United States; or

(2) If the period of absence from his or her residence did not exceed 6 months, and neither individual was outside the United States, and the absence was due to business or employment reasons, or because of confinement in a penal institution or in a hospital, nursing home, or other curative institution; or

(3) In any other case, if the evidence establishes that despite such absence they nevertheless reasonably expected to resume physically living together at some time in the reasonably near future.

(c) *Death during absence.* Where the death of one of the parties occurred while away from the residence for treatment or care of an illness or an injury (e.g., in a hospital), the fact that the death was foreseen as possible or probable does not, in and of itself, preclude a finding that the parties were "living with" one another or were "member(s) of the same household", etc., at the time of death.

(d) *Absences other than temporary.* In situations other than those described in paragraphs (b) and (c) of this section, the absence shall not be considered temporary, and the parties may not be found to be "living with" one another or to be "member(s) of the same household, etc." A finding of temporary absence would not be justified where one of the parties was committed to a penal institution for life or for a period exceeding the reasonable life expectancy of either, or was under a sentence of death; or where the parties had ceased to live in the same place of abode because of marital or family difficulties and had not resumed living together before death.

(e) *Relevant period of time.* (1) The determination as to whether a widow had been "living with" her husband shall be based upon the facts and circumstances as of the time of death of the miner.

(2) The determination as to whether a wife is a "member of the same household" as her husband shall be based upon the facts and circumstances with respect to the period or periods of time as to which the issue of membership in the same household is material.

(3) The determination as to whether a parent, brother, or sister was "living in the miner's household" shall take account only of the 1 year period immediately prior to the miner's death.

§ 725.290 **Contribution and support.**

(a) *"Support" defined.* The term "support" includes food, shelter, clothing, ordinary medical expenses, and other ordinary and customary items for the maintenance of the person supported.

(b) *"Contributions" defined.* The term "contributions" refers to contributions actually provided by the contributor from his own property, or the use thereof, or by the use of his own credit.

(c) *"Regular contributions" and "substantial contributions" defined.* The terms "regular contributions" and "substantial contributions" mean contributions that are customary and sufficient to constitute a material factor in the cost of the individual's support.

(d) *Contributions and community property.* When a wife receives and uses for her support, income from her services or property and such income, under applicable State law, is the community property of herself and the miner, no part of such income is a "contribution" by the miner to his wife's support regardless of any legal interest the miner may have therein. However, when a wife receives and uses for her support, income from the services and the property of the miner and, under applicable State law, such income is community property, all of such income is considered to be a contribution by the miner to his wife's support.

(e) *"Court order for support" defined.* References to support orders in §§ 725.230(f)(1), 725.240(c), and 725.250(b) mean any court order, judgment, or decree of a court of competent jurisdiction which requires regular contributions that are a material factor in the cost of the individual's support and which is in effect at the applicable time. If such contributions are required by a court order, this condition is met whether or not the contributions were actually made.

(f) *"Written agreement" defined.* The term "written agreement" in the phrase "substantial contributions * * * pursuant to a written agreement" (see §§ 725.245(b), 725.255(b)) means an agreement signed by the miner providing for substantial contributions by him for the individual's support. It must be in effect at the applicable time but it need not be legally enforceable.

(g) *"One-half support" defined.* The term "one-half support" means that the miner made regular contributions in cash or in kind, to the support of a divorced wife (see § 725.245(a)), or of a surviving divorced wife (see § 725.255(a)), at the specified time or for the specified period, and that the amount of such contributions equalled or exceeded one-half the total cost of such individual's support at such time or during such period.

(h) *"Totally dependent for support" defined.* The term "totally dependent on the miner for support" as used in § 725.265(b), means that such miner made regular contributions to the support of his parent, brother, or sister, as the case may be, and that the amount of such contributions at least equalled the total cost of such individual's support.

Subpart D—Responsible Coal Mine Operators

General Provisions

§ 725.301 **Scope and policy.**

(a) In enacting the Coal Mine Health and Safety Act of 1969, as amended by the Black Lung Benefits Act of 1972 ("the Act" as used in this part means such Act as amended), Congress sought to transfer the responsibility for the payment of black lung benefits, to the greatest extent possible, from the Federal Government to the coal mine operators as of January 1, 1974. It is the policy of the Department of Labor to implement and execute in this part this congressional intent as fully and fairly as is practicable.

(b) The provisions of this subpart D apply to coal mine operators in States whose workmen's compensation laws have not been listed by the Secretary in Part 722 of this chapter, pursuant to section 421 of Title IV of the Act and such Part 722, as providing adequate coverage

for pneumoconiosis. Reference should also be made to Part 726 of this chapter, which sets forth insurance requirements for securing the payment of black lung benefits under the Act which are applicable to every coal mine operator in any State not listed in Part 722 of this chapter.

(c) The rules in this Subpart D prescribe the manner in which the identity of a responsible operator will be determined, the extent of any responsible operator's liability for the payment of pneumoconiosis benefits in any particular case, and the nature and extent of such coal operators' duties and responsibilities as prescribed in Part C of Title IV of the Act. Included in the latter are those duties and responsibilities incorporated by reference in section 422 of Part C of the Act to certain specific provisions of the Longshoremen's and Harbor Workers' Compensation Act as amended (44 Stat. 1424, 33 U.S.C. 901 as amended by Public Law 92–576, effective November 26, 1972).

§ 725.302 **Responsible operator defined.**

A "responsible operator", within the meaning of this subchapter, is a coal mine operator who, (a) under the provisions of section 422 or section 415 of Title IV of the Federal Coal Mine Health and Safety Act, as amended, and of this subchapter is liable for the payment of benefits for any month or months after December, 1973 to any individual entitled thereto under the Act on account of death or disability of a coal miner, due to pneumoconiosis arising at least in part out of his employment in a mine during a period when it was operated by such operator, or (b) is liable for payment of such benefits as provided in § 725.303.

§ 725.303 **Prior operator, successor operator.**

(a) In accordance with section 422(i) of the Act, any coal mine operator who, after December 30, 1969, acquired his mine or substantially all the assets of his mine from a prior operator who was an operator of that mine on or after December 30, 1969, shall be liable for and shall, in accordance with section 423 of the Act and Part 726 of this subchapter, secure the payment of all benefits which would have been payable by the prior operator with respect to miners previously employed in that mine if the acquisition had not occurred and the prior operator had continued to operate the mine.

(b) Paragraph (a) of this section notwithstanding, any prior operator may, under appropriate circumstances and in accordance with the requirements of due process of law and considerations of fairness and equity, be held liable for the payment of all benefits awarded pursuant to the Act.

Determining Responsible Operator

§ 725.311 **Criteria for identifying a responsible operator.**

The following criteria shall apply in determining the identity of the responsible operator:

(a) *Periods of employment.* From the evidence presented of the miner's employment history, the identity of the coal mine operator or operators with whom the miner had the most recent periods of cumulative employment of not less than 1 year and the beginning and ending dates of such periods shall be ascertained.

(b) *Financial responsibility of operators.* The financial responsibility of the operators identified pursuant to paragraph (a) shall be determined, if in question, as provided in § 725.303.

(c) *Determination of responsible operator.* From the foregoing information the responsible operator shall be determined as follows:

(1) The operator with whom the miner had the latest period of cumulative employment of not less than 1 year shall, if financially responsible, be deemed to be the responsible operator.

(2) If such operator is not financially responsible, then the responsible operator shall be deemed to be the financially responsible operator with whom the miner had the latest period of cumulative employment of not less than 1 year.

(3) In the event that a coal mine operator is determined to be a "responsible operator" pursuant to the provisions of subparagraph (1) or (2) of this paragraph (c), there shall be a presumption that the miner's work-related pneumoconiosis arose in whole or in part sufficiently to occasion liability, out of his employment with such operator during the period or periods when he was employed in a mine or mines operated by such operator. The responsible operator as so determined shall accordingly be liable for payment and securing of benefits awarded to the claimant on account of the disability or death of the miner who was so employed.

§ 725.312 **Procedure for determination of operator's liability.**

(a) At any time after a mine operator notified pursuant to § 725.151 has responded to the allegations of his liability pursuant to § 725.152 the deputy commissioner with whom the case has been filed may proceed with the determination of the claimant's entitlement to benefits and the operator's liability for payment The deputy commissioner may order a prehearing conference to be held, at a time and place convenient to all parties, or he may refer the case to the Chief Administrative Law Judge for a formal hearing before an administrative law judge when it appears that resolution of all issues necessary to a determination of entitlement to benefits or liability of an operator cannot be accomplished without such a hearing. The particulars describing the organization and conduct of both the prehearing conference and the formal hearing are described fully in Subpart E of this part.

(b) In the event that the operator does not contest his liability he shall be deemed the responsible operator and the deputy commissioner if he determines the claimant is entitled to benefits, shall without further proceedings order the payment by the operator of such benefits to commence as of a specified date, and shall so notify the operator. This procedure shall be known as "benefits payable without a final decision and order."

(c) If a notified operator does not respond within the 20-day period described in § 725.151 the deputy commissioner shall proceed to the determination of the claim. In such a case a prehearing conference may be scheduled pursuant to Subpart E of this part. The alleged responsible operator will be given at least 10-days notice by certified mail of the prehearing conference, and advised by such notice that if he or his representative does not appear at the conference and at that time contest his liability, he will be deemed to have waived his right to a hearing and an order may be issued requiring such operator to pay any benefits to which the claimant may be found to be entitled upon determination of the claim. If no appearance is made at the conference by such operator, the deputy commissioner may order payment as provided in paragraph (b) of this section.

(d) If at any time after the running of the 20-day period described in § 725.151 but prior to the issuance of a final decision and order, an allegedly responsible operator seeks to be heard, that operator may be required to complete and transmit a Form CM–902 to the Office.

(e) No operator may be bound by any determination as to his liability to pay benefits to any claimant unless he has been properly notified of the proceedings therefor and offered an opportunity to participate. An operator may be permitted to intervene without prejudice in the proceedings at any time prior to final adjudication of his alleged liability to pay benefits, but a final determination of a claimant's entitlement to benefits will not be reopened at the instance of any operator who did not avail himself of an opportunity to controvert such entitlement provided by a timely notice of the determination proceeding.

§ 725.313 **Operator's medical evidence.**

(a) Any operator who is dissatisfied with the medical record compiled by the Office in respect to a particular case may make a timely request for a review or reexamination of a miner by one or more different physicians employed or selected by the Office. Such review or reexamination shall be ordered and conducted subject to the provisions of § 725.139 of this part, unless it is found to be clearly unwarranted.

(b) In the event that any claimant refuses to submit to a medical examination ordered under this section, the deputy commissioner shall be promptly notified. The deputy commissioner shall forthwith notify the claimant that no further action on his claim may be had until such claimant is in compliance with the order for the examination.

§ 725.314 **Determination of operator's liability in formal hearing.**

(a) If, as provided in § 725.312, or where an allegedly responsible operator does not appear at the prehearing conference, a formal hearing is ordered to be conducted pursuant to Subpart E of this part, the operator will be given 10-

days notice by certified mail of the time and place of the hearing and he or his authorized representative may appear at the particular claim after December 31, 1973. There shall be no reopening or readjudication of the claimant's entitlement to benefits at the instance of any operator who did not avail himself of an opportunity to controvert such entitlement provided by a timely notice of the determination proceeding.

§ 725.313 **Operator's medical evidence.**

(a) Any operator who is dissatisfied with the medical record compiled by the Office in respect to a particular case may make a timely request for a review or reexamination of a miner by one or more different physicians employed or selected by the Office. Such review or reexamination shall be ordered and conducted subject to the provisions of § 725.139 of this part, unless it is found to be clearly unwarranted.

(b) In the event that any claimant refuses to submit to a medical examination ordered under this section, the deputy commissioner shall be promptly notified. The deputy commissioner shall forthwith notify the claimant that no further action on his claim may be had until such claimant is in compliance with the order for the examination.

§ 725.314 **Determination of operator's liability in formal hearing.**

(a) If, as provided in § 725.312, or where an allegedly responsible operator does not appear at the prehearing conference, a formal hearing is ordered to be conducted pursuant to Subpart E of this part, the operator will be given 10-

§ 725.332 **Prompt payment.**

Where entitlement of an individual to benefits under the Act has been de-

considered late and defaulted payments pursuant to §§ 725.333 and 725.345.

(b) If at any time during which bene-

tion, notice, and hearing, as provided in Subpart E of this part, the deputy commissioner shall make a supplementary order declaring the amount of the de-

XUM V37-231 NOV 30 72 XUM

days notice by certified mail of the time and place of the hearing and he or his authorized representative may appear at and fully participate in the formal hearing, and the liability of the operator to pay benefits shall be adjudicated therein. If an allegedly responsible operator does not appear at the formal hearing and has not filed an answer to the allegations of his liability, then it shall be presumed that such operator does not contest his liability and the administrative law judge shall proceed to the conduct of the formal hearing and shall issue findings of fact, conclusions of law, and an order for benefits pursuant to Subpart E of this part. The notified operator shall be bound by this determination and may not thereafter contest his liability for the payment of benefits to the claimant. Nothing in this part shall be construed to require any operator to pay any benefits for any month prior to January 1, 1974.

(b) In the event that a notified coal mine operator or his representative does not appear at the formal hearing and has not responded to the claim filed against him, the hearing shall nevertheless be conducted and stenographically reported pursuant to Subpart E of this Part 725. In respect to the issue of such notified coal mine operator's liability, the administrative law judge shall admit into the record the medical evidence contained in the approved physician's report (see §§ 725.137–725.139), evidence of the employment history of the miner, and any other information deemed pertinent to the question of the notified mine operator's liability. Upon this record, the administrative law judge shall determine his findings of fact, conclusions of law, and final decision and order, and shall determine and in his written opinion state whether or not and the extent if any to which such notified coal mine operator is an operator responsible for the payment of benefits to the claimant for any months after December 31, 1973.

§ 725.315 Deferred identification of responsible operator; liability determination.

If at the time a claim under the Act is ready for determination there appears to be no known or identifiable responsible operator, the claimant's entitlement to benefits shall be determined and payment of benefits authorized from Federal funds as provided in this part. However, if at any time during or after the adjudicatory proceedings the claimant or the Secretary of Labor becomes aware of the existence of a possibly responsible operator, that operator shall be given notice of the claim, informed that he may be held liable for payment of benefits, supplied with copies of the record of all proceedings already conducted, and given 60 days within which to submit the answer specified in § 725.152. If it becomes necessary to hold a new formal hearing to determine the responsibility of such a coal mine operator, the subject matter of that hearing shall be limited to the responsibility of that coal mine operator for the payment of benefits on the particular claim after December 31, 1973. There shall be no reopening or readjudication of the claimant's entitlement to benefits.

OPERATOR'S FINANCIAL RESPONSIBILITY

§ 725.321 Financial responsibility defined.

Within the meaning of this part a coal mine operator shall be deemed "financially responsible" and capable of assuming his liability for the payment of benefits under the provisions of Part C of Title IV of the Act and this subchapter if he has:

(a) Obtained a policy or contract of insurance pursuant to section 423 of Title IV of the Act and Part 726 of this chapter, or;

(b) Qualified as a self-insurer pursuant to section 423 of the Act and Part 726 of this chapter, or;

(c) If such operator is an individual, partnership, joint venture, corporation, or other business entity, determined under this Subpart D to be the "responsible operator (see § 725.311)," and possessed of any assets that may be made available for the payment of benefits as provided in this Part 725 or through an action brought as provided in section 424 of the Act.

§ 725.322 Insurance coverage.

(a) Pursuant to the provisions of section 423 of the Act (see § 726.1 of this chapter), coal mine operators shall be subject to the following requirements: During any period after December 31, 1973, in which a State workmen's compensation law is not included on the list published by the Secretary under section 421(b) of Title IV of the Act and Part 722 of this chapter, each operator of a coal mine in such State shall secure the payment of benefits for which he may be found liable under section 422 or section 415 of the Act and this Part 725 by—

(1) Qualifying as a self-insurer as provided in Part 726 of this Chapter VI, or

(2) Insuring and keeping insured the payment of such benefits with an authorized insurance carrier in accordance with the provisions of Part 726 of this chapter.

(b) Every operator who has secured the payment of benefits as provided in paragraph (a) of this section shall keep posted, in a conspicuous place or places in and about each mine which he operates, typewritten or printed notices, in accordance with a form prescribed by the Office, stating that such operator has secured the payment of benefits in accordance with the provisions of the Federal Coal Mine Health and Safety Act as amended. Such notices shall contain the name and address of the insurance carrier, if any, with whom the operator has secured payment of benefits, and the date of the expiration of the policy.

(c) Under section 422 of the Act and section 15 of the Longshoremen's Act:

(1) No agreement by a miner to pay any portion of a premium paid to a carrier by the operator of a coal mine in which such miner is employed, or to contribute to a benefit fund or department maintained by such operator for the purpose of providing benefits or medical services and supplies as required by this part, shall be valid; and any operator who makes a deduction for such purpose from the pay of any miner entitled to the benefits of the Act under this part shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than $1,000;

(2) No agreement by a miner to waive his right to benefits under the Act and the provisions of this part shall be valid.

§ 725.323 Benefits a lien against assets.

Pursuant to the provisions of section 422 of the Act and section 17 of the Longshoremen's Act as incorporated therein, any person entitled to benefits under the provisions of the Act shall have a lien against the assets of the carrier or operator for such benefits without limit of amount, and shall, upon insolvency, bankruptcy, or reorganization in bankruptcy proceedings of the carrier or operator, or both, be entitled to preference and priority in the distribution of the assets of such carrier or operator, or both.

§ 725.324 Security for payments of benefits.

Whenever the deputy commissioner deems it advisable he is authorized, pursuant to section 422 of the Act and section 14(i) of the Longshoremen's Act, to require any operator to make a deposit with the Treasurer of the United States to secure the prompt and convenient payment of benefits, and payments therefrom upon any awards shall be made upon order of the deputy commissioner.

§ 725.325 Liability of operator for Federal payments made.

In any case where the Secretary has paid benefits to a miner or his widow, child, parent, brother, or sister because the responsible coal mine operator has not obtained a policy or contract of insurance or qualified as a self-insurer as provided in Part 726 of this subchapter or has not paid such benefits within a reasonable time, such operator shall be liable to the United States in a civil action in an amount equal to the amount paid to such beneficiary under Title IV of the Act (Act, sec. 424).

OPERATOR'S PAYMENTS

§ 725.331 Scope of payment obligations.

Benefits shall be paid to claimants entitled thereto under the Act by a responsible coal mine operator as provided in this Subpart D and Subpart F of this Part 725, and in accordance with the obligations imposed on coal mine operators by section 422 of the Act, including those obligations of employers under the Longshoremen's Act with respect to payment of disability or death benefits thereunder to employees which are incorporated by reference in such section 422 and implemented by the rules in this Part 725.

§ 725.332 Prompt payment.

Where entitlement of an individual to benefits under the Act has been determined or is not controverted, and liability as a responsible operator for payment of such benefits is not controverted by a coal mine operator, such operator shall pay benefits periodically as provided in this part, promptly, and directly to the person entitled thereto, without an adjudication of such liability. The first installment shall be due as provided in § 725.502 or, where action described therein has not been taken, on the 14th day after such operator has knowledge of the disability or death for which entitlement to such benefits is not controverted, and benefits shall be paid then and thereafter as provided in such section.

§ 725.333 Late payments.

(a) If any installment of benefits payable without a final decision and order (see §§ 725.312(b) and 725.332) is not paid within 14 days after it becomes due, as provided in § 725.332, there shall be added to such unpaid installment an amount equal to 10 percent thereof, which shall be paid at the same time as, but in addition to, such installment, unless such nonpayment is excused by the deputy commissioner after a showing by the operator or carrier that owing to conditions over which he had no control the installment could not be paid within the period prescribed for the payment. (See section 14(e) of the Longshoremen's Act.)

(b) If any benefits, payable by an operator determined to be responsible therefor under the terms of an award, are not paid within 10 days after they become due, there shall be added to such unpaid benefits an amount equal to 20 percent thereof, which shall be paid at the same time as, but in addition to, such benefits, unless review of the order making such award is had as provided in Subpart E of this part and an order staying payment has been issued by the court.

§ 725.334 Payment of interest.

In the event that an operator or carrier controverts a claimant's right to benefits and therefore pays no benefits and it is later determined that the claimant was entitled to benefits for any time prior to such time as the operator or carrier finally is adjudged liable for the payment of benefits, such operator or carrier shall be liable for the past benefits owed and, in addition, an amount equal to 6 percent simple annual interest, computed on the basis of all past due benefits.

§ 725.335 Suspension of payments.

(a) There may be no suspension in the payment of benefits except upon notice to the deputy commissioner pursuant to § 725.341 and to the party or parties to whom benefits are being paid. Any suspension of benefit payments which is not preceded by such notice shall be considered late and defaulted payments pursuant to §§ 725.333 and 725.345.

(b) If at any time during which benefits are being paid to an eligible individual an operator determines to suspend his payments on any grounds, the deputy commissioner shall make such investigations, cause such medical examinations to be made, or refer for such hearings, and take such further action as he considers will properly protect the rights of all parties.

(c) In the event that the deputy commissioner, or the administrative law judge to whom the matter was assigned for hearing, determines that the suspension of payments was invalid, such deputy commissioner or judge shall order the reinstatement of benefits and shall order the operator or carrier to pay to the entitled individual all unpaid amounts due for the periods during which the payment of benefits was suspended, with interest as provided in § 725.334.

§ 725.336 Advance payments.

If an operator has made advance payments of benefits he shall be entitled to be reimbursed out of any unpaid installment or installments of benefits due.

§ 725.337 Receipt for payment.

A disabled miner or in case of death his dependents or personal representative, shall give receipts for payment of benefits to the operator paying the same and such operator shall produce the same for inspection by the deputy commissioner, whenever required.

§ 725.341 Reporting requirements.

(a) *First payment, suspension of payments.* Upon making the first payment, and upon suspension of payment for any cause, the operator shall immediately notify the deputy commissioner, in accordance with a form prescribed by the Office, that payment of benefits has begun or has been suspended, as the case may be.

(b) *Final payment of benefits.* Within 16 days after final payment of benefits has been made, the operator shall send to the deputy commissioner a notice, in accordance with a form prescribed by the Office, stating that such final payment has been made, the total amount of benefits paid, the name of the miner and of any other person to whom benefits have been paid, the date of the disability or death, and the date to which benefits have been paid. If the operator fails to so notify the deputy commissioner within such time the Secretary shall assess against such operator a civil penalty in the amount of $100.

§ 725.345 Defaulted payments.

(a) In case of default by an operator in the payment of benefits due from him under any award for a period of thirty days after the benefits are due and payable, the person to whom such benefits are payable may, within 1 year after such default, make application to the deputy commissioner making the order for a supplementary order declaring the amount of the default. After investigation, notice, and hearing, as provided in Subpart E of this part, the deputy commissioner shall make a supplementary order, declaring the amount of the default, which shall be filed in the same manner as the final decision and order (see § 725.482). In case the payment in default is an installment of the award, the deputy commissioner may, in his discretion, declare the whole of the award as the amount in default. The applicant may file a certified copy of such supplementary order with the clerk of the Federal district court for the judicial district in which the operator has his principal place of business or maintains an office. In case such principal place of business or office is in the District of Columbia, a copy of such supplementary order may be filed with the clerk of the United States District Court for the District of Columbia. Such supplementary order of the deputy commissioner shall be final, and the court shall upon the filing of the copy enter judgment for the amount declared in default by the supplementary order if such supplementary order is in accordance with law. Review of the judgment so entered may be had as in civil suits for damages at common law. Final proceedings to execute the judgment may be had by writ of execution in the form used by the court in suits at common law in actions of assumpsit. No fee shall be required for filing the supplmentary order nor for entry of judgment thereon, and the applicant shall not be liable for costs in a proceeding for review of the judgment unless the court shall otherwise direct. The court shall modify such judgment to conform to any later benefits order upon presentation of a certified copy thereof to the court.

(b) In cases where judgment cannot be satisfied by reason of an insolvency or other circumstances precluding payment, the Secretary shall make payment pursuant to section 424 of Part C of Title IV of the Act upon any award made under this Act, and in addition, provide any necessary medical, surgical, and other treatment required by section 7 of the Longshoremen's Act in any case of disability where there has been a default in furnishing medical treatment by reason by the insolvency of the operator. Such an operator shall be liable to the United States for payment of the amounts paid by the Secretary of Labor under this subsection; and for the purpose of enforcing this liability, the Secretary of Labor shall be subrogated to all the rights of the person receiving such payments or benefits, including the right of lien and priority provided for by section 17 of the Longshoremen's Act, as against the operator and may by a proceeding in the name of the Secretary of Labor under section 18 or under subsection (c) of section 21 of the Longshoremen's and Harbor Worker's Compensation Act, or both seek to recover the amount of the default or so much thereof as in the judgment of the Secretary is possible, or the Secretary may settle and compromise any such claim.

Subpart E—Adjudicatory Process

power to preserve and enforce order during any proceedings for determination or adjudication of entitlement to benefits

account of services rendered as a representative of a claimant, unless such consideration or gratuity is approved by the

stage the case will be forwarded with the deputy commissioner's recommendation to the Chief Administrative Law Judge for assignment to an administrative law

XUM V37-231 NOV 30 72 XUM

Subpart E—Adjudicatory Process

GENERAL

§ 725.401 Scope and applicability of this subpart.

Every dispute arising in respect to any claim for benefits or any action taken by an adjudication officer pursuant to this Part 725, and any other issue of fact or law arising out of the Department of Labor's administration of any of the provisions of Part C of Title IV of the Act as amended shall be determined or adjudicated pursuant to the procedures enumerated in this subpart, except as otherwise specifically provided in this Part 725 or as elsewhere provided by statute or treaty. Disputes arising out of or in respect to claims for benefits under Part B of Title IV of the Act filed under section 415 of the Act shall be determined or adjudicated pursuant to procedures contained in Part 720 of this subchapter.

§ 725.402 Adjudication officers.

(a) *Who are adjudication officers.* The deputy commissioner, the administrative law judge, or the Benefits Review Board before whom a benefit claim proceeding under the Act is pending are the Department's adjudication officers with respect to such claim.

(b) *Deputy Commissioner.* The deputy commissioner is that official of the Office of Workmen's Compensation Programs or his designee authorized to make initial recommendations for determinations with respect to any case and to insure that any case is developed and processed according to these regulations. He may also under appropriate circumstances conduct prehearing conferences, prepare or issue motions and orders as provided in this part, prepare stipulations for the signatures of the parties in interest in any case, and sign benefits orders in cases for which no formal hearing procedure is required. The deputy commissioner shall not hold formal hearings.

(c) *Administrative Law Judge.* The administrative law judge is that official of the Department of Labor empowered by the Secretary to conduct formal hearings whenever necessary, in respect of any claim for black lung benefits. Each such administrative law judge shall be qualified under 5 U.S.C. 3105 to conduct hearings in accordance with the provisions of 5 U.S.C. 554 et seq.

(d) *Benefits Review Board.* The Benefits Review Board is that body appointed by the Secretary pursuant to section 21 (b) of the Longshoremen's and Harbor Workers' Compensation Act Amendments of 1972, which is empowered to hear and determine finally for the Department of Labor appeals raising a substantial question of law or fact taken by any party in interest from decisions and orders of any duly authorized Department of Labor official with respect to any claim for black lung benefits.

§ 725.403 Powers of adjudication officers.

(a) *Conduct of proceedings.* The adjudication officer in any case shall have power to preserve and enforce order during any proceedings for determination or adjudication of entitlement to benefits or liability for benefit payments; to issue subpoenas for, to administer oaths to and to compel the attendance and testimony of witnesses, or the production of books, papers, documents and other evidence, or the taking of depositions before any designated individual competent to administer oaths; to examine witnesses; and to do all things conformable to law which may be necessary to enable him effectively to discharge the duties of his office (Act, section 422 and Longshoremen's Act, sections 19(d) and 27(a)).

(b) *Contumacy.* Pursuant to section 19(d) of the Longshoremen's Act as incorporated by sections 415 and 422 of the Act, if any person in proceedings before an adjudication officer disobeys or resists any lawful order or process, or misbehaves during a hearing or so near the place thereof as to obstruct the same, or neglects to produce, after having been ordered to do so, any pertinent book, paper or document, or refuses to appear after having been subpoenaed, or upon appearing refuses to take the oath as a witness, or after having taken the oath refuses to be examined according to law, the adjudication officer shall certify the facts to the Federal district court having jurisdiction in the place in which he is sitting (or to the U.S. District Court for the District of Columbia if he is sitting in the District) which shall thereupon in a summary manner hear the evidence as to the acts complained of, and, if the evidence so warrants, punish such person in the same manner and to the same extent as for a contempt committed before the court, or commit such person upon the same conditions as if the doing of the forbidden act had occurred with reference to the process or in the presence of the court.

§ 725.404 Legal services.

(a) *Approval of fees and assessment against operators.* If a claimant is represented by an attorney at law, the Act requires approval of such fees as provided in section 28 of the Longshoremen's Act; and if there is a responsible operator liable for payment of benefits such fees may, under the circumstances set forth in subsections (a) and (b) of such section 28, be awarded to the claimant to be paid by the operator or his insurance carrier in addition to amounts otherwise payable as benefits under the Act. In cases where the obligation to pay the attorney's fee is upon the claimant, it may be made a lien upon the benefits due under an award as provided in section 28(d) of the Longshoremen's Act and, as therein provided, the adjudication officer or court shall fix in the award approving the fee, such lien and manner of payment.

(b) *Unapproved fees; solicitation of claimants.* Under the provisions of section 28(e) of the Longshoremen's Act as incorporated in Part C of Title IV of the Act, any person who receives any fees, other consideration, or any gratuity on account of services rendered as a representative of a claimant, unless such consideration or gratuity is approved by the adjudication officer or court, or who makes it a business to solicit employment for a lawyer, or for himself in respect of any claim or award for black lung benefits under the Act, shall upon conviction thereof, for each offense be punished by a fine of not more than $1,000 or by imprisonment for not more than 1 year, or by both fine and imprisonment.

(c) *Procedure for approval of fees by adjudication officer.* No contract for a stipulated fee or for a fee on a contingent basis will be recognized, and no fee shall be approved, except upon an application to the appropriate adjudication officer supported by a complete statement of the extent and character of the necessary work done on behalf of the claimant. The fee approved by the appropriate adjudication officer shall be reasonably commensurate with the actual necessary work performed by the representative, taking into account the capacity in which the representative has appeared, the amount of benefits involved and the financial circumstances of the claimant.

(d) *Witness fees and mileage.* In cases where an attorney's fee is awarded against an operator or carrier, there may be further assessed against such operator or carrier as costs, fees, and mileage for necessary witnesses attending the hearing at the request of claimant. Both the necessity for the witnesses and the reasonableness of the fee of expert witnesses must be approved by the appropriate adjudication officer. The amounts awarded against an operator or carrier as attorney's fees, costs, fees, and mileage for witnesses shall not in any respect affect or diminish the disability, death, or medical benefits payable (Act, section 422 and Longshoremen's Act, section 28(d)).

(e) *Legal assistance for claimants.* The Secretary may, upon request, provide a claimant with legal assistance in processing a claim for benefits payable under section 422 or 424 of Part C of Title IV of the Act. Such assistance may be made available to a claimant at any time prior to or during which the claim is being processed and shall be furnished without charge to the claimant. Legal assistance may be provided only in the processing of the claim; legal representation of the claimant in adjudicatory proceedings is not authorized under this section.

§ 725.405 Disqualification of adjudication officer.

(a) No adjudication officer shall conduct any proceeding in a case in which he is prejudiced or partial with respect to any party, or where he has any interest in the matter pending for decision before him. Notice of any objection which a party may have to any adjudication officer who will conduct the proceeding, shall be made by such party at his earliest opportunity. The adjudication officer shall consider such objection and shall, in his discretion, either proceed with the case or withdraw. If the adjudication officer withdraws, another such officer shall be designated by the Director of the Office of Workmen's Compensation programs or the Chief Administrative Law Judge as the case may be. If the interested officer is a member of the Benefits Review Board, the procedure in case of disqualification of any board member who has an irreconcilable interest shall be in accordance with the applicable regulations and rules to be promulgated by the Secretary and the board.

(b) Neither a deputy commissioner, administrative law judge, or board member, nor any business associate of a deputy commissioner, administrative law judge, or board member, shall appear as attorney in any proceeding under the Act, and no deputy commissioner, administrative law judge, or board member, shall act in any such case in which he is interested, or when he is employed by any party in interest or related to any party in interest by consanguinity or affinity within the third degree as determined by the common law (Act, section 422 and Longshoremen's Act, sections 19(d), 40(f)).

PROCEDURES, GENERALLY

§ 725.411 Procedures by and before deputy commissioner.

(a) Each claim for benefits under this part received by the Office of Workmen's Compensation programs will be filed with a deputy commissioner after preliminary processing as provided in § 725.131. The deputy commissioner will be responsible thereafter for compiling the case record, notifying any operator who may be liable to pay benefits to the claimant after December 31, 1973, of the pendency of the claim, notifying a claimant of any deficiency in the medical record, scheduling and conducting prehearing conferences pursuant to this subpart E effecting the settlement or compromise of disputes, whenever possible at the prehearing stage, drafting stipulations of fact for the signature of the parties in interest, conclusions of law and orders for cases in which no further proceedings are necessary beyond the prehearing stage, and making recommendations in respect to any case for which a formal hearing is to be conducted.

(b) At any time after a claim has been filed with the Office of Workmen's Compensation programs, the deputy commissioner, having jurisdiction over the claim may, with the approval of the office, transfer such case to any other office of the Department for the purpose of making investigation, taking testimony, making physical examinations, or the taking of such other necessary action therein as may be directed. Such transfer is to be made in accordance with procedures established by the office.

§ 725.412 Determinations of disability.

(a) By State agencies: In any State which has entered into an agreement with the Secretary of Labor providing therefor, determinations as to whether a miner is under a total disability due to pneumoconiosis, as to the date total disability began, and as to the date total disability ceases, shall be made by the State agency or agencies designated in such agreement on behalf of the Secretary of Labor with respect to all individuals in such State, or with respect to such class or classes of individuals in the State as may be designated in the agreement.

(b) By the Social Security Administration: Determinations as to whether a miner is under a total disability due to pneumoconiosis as to the date the total disability began, and to the date total disability ceases, made by the Social Security Administration under part B of title IV of the Act on behalf of the Secretary of Health, Education, and Welfare with respect to individuals in any State which has not entered into an agreement to make such determinations, or with respect to any class or classes of individuals to which such an agreement is not applicable, or with respect to any individuals outside the United States may be accepted by the Secretary of Labor for purposes of part C of title IV of the Act.

(c) Review by Office of Workmen's Compensation Programs of State agency determinations: The Secretary of Labor may review a determination made by a State agency but not a determination made by the Social Security Administration, that a miner is under a total disability and, as a result of such review, may determine that such individual is not under a total disability, or that the total disability began on a date later than that determined by the State agency, or that the total disability ceased on a date earlier than that determined by the State agency.

(d) All other determinations of disability shall be made by the Secretary of Labor pursuant to the regulations contained in this subpart.

§ 725.413 General procedures for determination of benefit claims.

(a) In the event that there are contested issues of fact in any case, those issues generally will be resolved by the following procedure:

(1) If in the opinion of the deputy commissioner the medical evidence does not support the claim for benefits, the claimant will be given an opportunity to submit additional medical evidence at the expense of the Department of Labor or the responsible operator or carrier (see §§ 725.133, 725.134, 725.139). If the additional evidence is still insufficient in the deputy commissioner's opinion to support the claim and no resolution may or might be reached at the prehearing stage, the case will be forwarded to the Chief Administrative Law Judge for assignment to an administrative law judge who will conduct a hearing pursuant to this Subpart E and issue a final order granting or denying the claim, or where appropriate, remand the case to the Office for further evidentiary development or for the completion of the case record.

(2) The deputy commissioner will make every effort to resolve any dispute at a prehearing conference conducted pursuant to this Subpart E. If no resolution can be achieved at the prehearing stage the case will be forwarded with the deputy commissioner's recommendation to the Chief Administrative Law Judge for assignment to an administrative law judge who will schedule and conduct a formal hearing pursuant to this Subpart E and issue a formal order granting or denying the claim and, where appropriate (see Subpart D of this part), establishing the identity of any operator or operators who will either be liable or not liable for payment of benefits to the claimant for any periods after December 31, 1973.

(b) In the event that there are no contested issues of fact or law the deputy commissioner will prepare stipulations of fact, identifying any operator or operators who will be liable for payments of such benefits for any periods after December 31, 1973. These stipulations will be signed by the parties in interest and the deputy commissioner who will either approve and sign a benefits order or take any other action he deems appropriate. If the proposed order is signed by a deputy commissioner it will become a final order pursuant to this Subpart E.

(c) If there has been no final resolution of a case after 60 days from the date upon which any claim has been filed with the deputy commissioner pursuant to § 725.131 and there has been no prior request for a formal hearing, the deputy commissioner assigned the case shall either:

(1) Make an award in respect of the case pursuant to § 725.442; or

(2) Declare the case abandoned pursuant to § 725.415; or

(3) Transfer the case to the Chief Administrative Law Judge pursuant to paragraph (a) of this section for the purpose of making the formal hearing procedures described in this subpart available to any or all of the parties in interest.

§ 725.414 Presumptions.

In any proceeding for the enforcement of liability on a claim for benefits under the Act it shall be presumed, in the absence of substantial evidence to the contrary, that the claim comes within the provisions of the Act, and that sufficient notice of such claim has been given.

§ 725.415 Abandonment of a claim.

(a) If a claimant at any time during the proceedings to adjudicate his claim, chooses to terminate those proceedings he may do so in his discretion by:

(1) Notifying the appropriate adjudication officer or the Office of his intention in this regard; or

(2) Failing to comply with a lawful order of any adjudication officer in respect to his claim, provided that such failure to comply is not later excused for good cause; or

(3) Failing in a significant way to pursue his claim with reasonable diligence. A finding that a claimant has failed to pursue his claim with reasonable diligence may be made by the adjudication officer who is processing the claim, at any time during formal or informal proceedings, where, for instance, the claimant fails to undergo a required

medical examination or submit medical evidence, fails or refuses to submit

(d) Any coal mine operator or prior operator or insurance carrier who has not

he represents, any request or notice relative to any proceeding before an adjudi-

to be certain that it contains all the necessary material to insure that the conference will be productive. His file shall contain information submitted by

operator, carrier's representatives, etc.), of all persons attending the conference;
(3) Reason why conference was held;
(4) Issues discussed at conference;

conclusions or law, and a final decision and order.

§ 725.443 Accelerated hearing.

Notwithstanding any other provision

XUM

V37-231 NOV 30 72 XUM

medical examination or submit medical evidence, fails or refuses to submit evidence of relationship or dependency, or fails or refuses to participate in the adjudicatory process. Any claim in which proceedings are suspended or terminated pursuant to subparagraph (1), (2) of this paragraph, or this subparagraph (3) shall be deemed an "abandoned claim."

(b) Notwithstanding any other provision of this part, before any claim may be considered an "abandoned claim" the appropriate adjudication officer shall notify the claimant of the pending termination of proceedings and afford such claimant 10 days within which to take affirmative action to cure the deficiency in his claim. If no response is received within the 10-day period, all proceedings and evidentiary developments in respect to the claim shall cease. If the claimant expresses his intent to continue his pursuit of the claim, the adjudication officer shall suspend or continue whatever proceedings are in progress in such a manner as he deems appropriate.

(c) In the event that a claim is abandoned the claimant's original filing date (see § 725.125) shall remain for purposes of § 725.124 the date on which the claim was filed should such claimant later decide to once again pursue his claim.

PARTIES TO PROCEEDINGS

§ 725.421 Parties in interest.

(a) Except as provided in § 725.422, persons other than the Secretary of Labor and authorized personnel of the Department of Labor may not participate at any stage of the adjudicatory process unless they are determined by the adjudication officer to qualify under the provisions of this section as parties in interest. The following persons may qualify as parties in interest:

(1) The claimant;

(2) A person other than a claimant authorized to execute a claim on such claimant's behalf pursuant to § 725.111;

(3) A dependent who may be entitled to receive augmented benefits or for whom augmented benefits are payable pursuant to Subpart F of this Part 725;

(4) Any coal mine operator who has been notified pursuant to § 725.151 of his possible liability to the claimant for benefits payable for any month after December 31, 1973; and

(5) Any insurance carrier of such operator.

(b) The Secretary of Labor is a party in interest in any proceeding in which his obligation to pay benefits under section 424 of the Act or to take other action under provisions of the Act may depend on the resolution of an issue or issues to be determined or adjudicated in that proceeding.

(c) A widow, surviving child, parent, brother, or sister or representative of a decedent's estate, who makes a showing in writing that an individual's rights with respect to benefits may be prejudiced by a decision that may be made, may be made a party in interest.

(d) Any coal mine operator or prior operator or insurance carrier who has not been notified pursuant to § 725.151 and who makes a showing in writing that its rights may be prejudiced by any final decision of an adjudication officer may in the discretion of the deputy commissioner or administrative law judge be made a party in interest.

(e) Any other individual may be made a party in interest if that individual's rights with respect to benefits may be prejudiced by the decision, upon notice given to him by the deputy commissioner or administrative law judge to appear at the hearing or otherwise present evidence as to fact or law as he may desire in support of his interest.

§ 725.422 Party amicus curiae.

At the discretion of the Chief Administrative Law Judge or the administrative law judge assigned to the case, a party not named in § 725.421 may be allowed to participate, fully or partially, in a formal hearing only, as to an issue of law. If a party wishes to participate amicus curiae in a formal hearing he shall request such status in writing with supporting arguments at least 10 days prior to the hearing. If the request is granted, the Chief Administrative Law Judge or the administrative law judge hearing the case will inform the party of the extent to which he may participate. The request may, however, be denied summarily and without explanation.

§ 725.423 Representation of parties.

Except for the Secretary of Labor, whose interests shall be represented by the Solicitor of Labor or an authorized attorney on his staff, each of the parties in interest may appoint an individual to represent his interest in any proceeding for determination of a claim under this part. Such appointment shall be made in writing or on the record at the hearing. A written notice appointing a representative shall be signed by the party in interest or his legal guardian and shall be sent to the Office or, for representation at a formal hearing, to the Chief Administrative Law Judge. In any case such representative must be qualified under § 725.424.

§ 725.424 Qualifications of representative.

(a) *Attorney.* Any attorney in good standing who is admitted to practice before a court of a State, territory, district, or insular possession or before the Supreme Court of the United States or other Federal court and is not, pursuant to any provision of law, prohibited from acting as a representative may be appointed as a representative.

(b) *Other person.* Any other person with the approval of the adjudication officer may be appointed as a representative so long as that person is not, pursuant to any provision of law, prohibited from acting as a representative.

§ 725.425 Authority of representative.

A representative, appointed and qualified as provided in §§ 725.423 and 725.424 may make or give, on behalf of the party he represents, any request or notice relative to any proceeding before an adjudication officer under part C of title IV of the Act, including reconsideration, hearing and review, except that such representative may not execute a claim for benefits, unless he is a person designated in § 725.111 as authorized to execute a claim. A representative shall be entitled to present or elicit evidence and allegations as to facts and law in any proceeding affecting the party he represents and to obtain information with respect to the claim of such party to the same extent as such party. Notice to any party of any administrative action, determination, or decision, or request to any party for the production of evidence may be sent to the representative of such party, and such notice or request shall have the same force and effect as if it had been sent to the party represented.

PREHEARING CONFERENCES

§ 725.431 Nature of conferences.

(a) In cases which cannot be disposed of summarily and on the record, prehearing conferences are to be scheduled to expedite the handling of contested issues and to avoid, whenever possible, the need for formal hearings.

(b) The proceedings are to be informal and are presided over by a deputy commissioner. Testimony is not stenographically reported. The parties in interest are not required to be represented by counsel, but may be so represented if they desire. The conference is not a formal hearing and witnesses may not be produced.

§ 725.432 Purpose of conferences.

Among the purposes of a prehearing conference are:

(a) To amicably dispose of controversies whenever possible;

(b) To narrow issues; and

(c) To simplify the subsequent methods of proof.

§ 725.433 Notification of parties.

When, after reviewing the record, the deputy commissioner assigned the case determines that a prehearing conference might fulfill one or more of the purposes listed in § 725.432 he shall notify all parties in interest that a conference has been called. Conferences may be called upon at least 10 days notice to the parties in interest or a shorter period if agreed upon by the parties. In any event, every effort shall be made to give all parties sufficient notice to insure that the conference will be productive.

§ 725.434 Time and place of conference.

The deputy commissioner shall assign a definite time and place for the prehearing conference and shall include this information in his notice to the parties. Whenever practicable the conference shall be held in the area of the claimant's residence and be convenient to public transportation.

§ 725.435 Preparation for conferences.

Prior to scheduling a conference the deputy commissioner shall review his file

to be certain that it contains all the necessary material to insure that the conference will be productive. His file shall contain information submitted by the parties in interest indicating that they have made every possible effort to resolve all the issues and delineating the issues which are still unresolved and which require a conference. The file should also contain copies of all medical reports from all parties in interest and there should be evidence in the file that the parties have exchanged all medical reports and any other material pertinent to the case. If this information does not appear in the file the deputy commissioner may advise the parties of these requirements and postpone the setting of the conference.

§ 725.436 Cancellation of conferences.

Any party may request cancellation and rescheduling of a conference upon 5 days written notice prior to the conference date sent to the Office or the deputy commissioner assigned the case. Such request shall state the reasons warranting cancellation. The deputy commissioner may, if reasonable cause is shown, grant the request, and should do so when all parties agree to the cancellation.

§ 725.437 Attendance at conferences.

(a) The claimant and/or his representative and any operator whose liability for payment of benefits after December 31, 1973, may be determined by a final order in the case and/or the operator's insurance carrier and/or their representatives must attend all prehearing conferences. The deputy commissioner may, in his discretion, grant or deny such waiver.

(b) Any representative of an operator or of an operator's insurance carrier must have sufficient authority to expedite settlement.

§ 725.438 Participation by the deputy commissioner.

A characteristic of an informal conference under the Act is the active participation in the proceedings by the deputy commissioner. It is his responsibility to see that the conference is productive. He shall assist the parties whenever possible by answering questions pertaining to the law and offer compromises for the parties to consider. He shall direct the discussion of the parties. He has the authority to conduct direct examinations of the claimants, operators whose liabilities may be determined, and their insurance carriers' representatives and he may conduct such examinations whenever necessary.

§ 725.439 File record.

(a) During the course of the conference the deputy commissioner shall take notes upon which to base his written memorandum of conference. The information which must appear in the memorandum of conference is:

(1) Date, time, and place of conference;

(2) Names, addresses, telephone numbers, and status (i.e., claimant, attorney, operator, carrier's representatives, etc.), of all persons attending the conference;

(3) Reason why conference was held;

(4) Issues discussed at conference;

(5) Additional material presented (i.e., medical reports, employment reports, marriage certificates, birth certificates, etc.);

(6) Issues resolved at conference; and

(7) Deputy Commissioner's recommendation.

§ 725.440 Memorandum of conference.

At the conclusion of the conference the deputy commissioner shall issue a comprehensive but brief memorandum summarizing the conference for the record. Copies of the memorandum shall be sent to each party in interest no more than 20 days after the date on which the conference is terminated.

§ 725.441 Reply to memorandum of conference.

Each party shall, in writing either accept or reject in part or in whole the deputy commissioner's recommendations, stating in appropriate cases the reasons for rejecting any recommendation. If no reply is received within 10 days from the date on which the recommendations were sent to the parties, the recommendations shall be deemed rejected. If the recommendations are not wholly agreed upon, the deputy commissioner or any party in interest may request a formal hearing. If it appears that final settlement might be reached without formal hearing, the deputy commissioner may schedule one or more additional prehearing conferences, notwithstanding a party's request for formal hearing.

§ 725.442 Adjudication without a hearing.

(a) If the parties in interest indicate that they are willing to dispose of the issues in the case based on the recommendations made, the deputy commissioner shall obtain stipulations to this effect signed by the parties. The stipulations shall contain all the information required for inclusion in a formal order and shall show that the parties agree that a final order may be issued by the deputy commissioner without a formal hearing. The deputy commissioner shall then proceed to prepare and sign a final decision and order based on the stipulations.

(b) If no formal hearing is requested by any party or ordered by the deputy commissioner within 10 days from the close of any prehearing conference the deputy commissioner shall notify the parties by certified mail that a final adjudication of the case shall be made on the basis of the record and the stipulations made by the parties at the prehearing stage, if any. Each party shall have 10 days from the date of such notice to request a formal hearing describing the issues on which that party desires to be heard. If no request is received by the deputy commissioner within the 10-day period the deputy commissioner in appropriate cases shall proceed to a final adjudication of the case and issue formal findings of fact, conclusions or law, and a final decision and order.

§ 725.443 Accelerated hearing.

Notwithstanding any other provision of this Part 725, after 30 days from the date upon which a claim is filed with the deputy commissioner pursuant to § 725.131, a claimant, a notified operator, or the Secretary may request and shall have a right to a formal hearing to be conducted by an administrative law judge pursuant to this subpart E. In the event that a formal hearing is requested pursuant to this paragraph, all responsibility and authority pertaining to the evidentiary development and settlement of the case vested in the deputy commissioner shall be vested in the Chief Administrative Law Judge or the administrative law judge assigned the case.

HEARINGS

§ 725.451 Right to a hearing.

(a) A person affected by proceedings under this part has a right to a formal hearing concerning any issue of fact or law unresolved in a prehearing conference if:

(1) He is a party in interest as defined in § 725.421; and

(2) No final disposition of the case has been achieved in prior proceedings within the period specified in § 725.443.

§ 725.452 Request for hearing.

Any party in interest may in writing or on the record at a prehearing conference request a formal hearing as to any contested issue of fact or law. In addition, a deputy commissioner may on his own initiative refer a case for hearing, when he determines a hearing necessary to protect the rights of any party in interest. If a hearing is requested by any party in interest, that request shall state the reasons for which a hearing is needed and the issues the requesting party intends to discuss and resolve at the hearing. If the deputy commissioner determines that a hearing is required under this part or is necessary to resolution of any issues, he shall refer the case to the Chief Administrative Law Judge who will assign it for a hearing.

§ 725.453 Type of hearing; parties.

In contested cases for which a formal hearing is deemed necessary, the hearing shall be conducted by an administrative law judge designated by the Chief Administrative Law Judge. The necessary parties to this hearing are the administrative law judge and all parties in interest or their designated representatives, except that any party may in writing or on the record at the hearing waive his right to be heard as to any or all issues. All hearings shall be conducted in accordance with the provisions of 5 U.S.C. 554 et seq. If any party in interest chooses to plead his own case at a formal hearing he may do so only upon the written approval of the administrative law judge. No party shall be permitted to represent himself in a formal hearing if it appears to the administrative law judge that such party may

not be sufficiently able to protect the rights granted him by the Act.

trative Law Judge may for good cause transfer such case from one administrative law judge to another.

§ 725.464 Depositions; interrogatories.

The testimony of any witness may be taken by deposition or interrogatory ac-

and material evidence the party or parties may present in writing for consideration by the administrative law judge.

may also be dismissed upon its abandonment by the party or parties who filed it. A party shall be deemed to have abandoned a request for hearing if

§ 725.482 Form of final decision and order.

(a) Orders adjudicating claims for

not be sufficiently able to protect the rights granted him by the Act.

§ 725.454 Notice of hearing.

In each case in which a hearing is ordered the deputy commissioner shall prepare a notice of hearing for the signature of the Chief Administrative Law Judge and by service thereof shall give all parties in interest at least 10 days notice of the time and place at which the hearing is to be conducted and the issues to be resolved. The notice of hearing shall be sent to each party in interest by certified mail. No issue may be raised or discussed at a hearing if the party who must contest the issue has not had at least 10 days notice that the issue was to be raised at the hearing, unless he waives such notice in writing or on the record in the proceeding.

§ 725.455 Hearing on new issues.

(a) At any time after a hearing has been ordered but before a final decision has been mailed, the administrative law judge may in his discretion, either on the application of a party or on his own motion, give notice that he will consider any specified new issue. In such a case the administrative law judge shall give the parties at least 10 days notice of the hearing on the new issue, unless they stipulate that the issue may be heard at an earlier time, and shall proceed to hearing on the new issue in the same manner as he would on an issue initially considered.

(b) A hearing on any new issue shall be limited to a discussion of that new issue.

(c) In the event that a new issue is raised at the time any formal hearing is conducted, the party confronted with that new issue may, upon request to the administrative law judge, be granted a continuance of not less than 5 days with respect to that new issue.

§ 725.456 Time and place of hearing.

The Chief Administrative Law Judge shall assign a definite time and place for the formal hearing and shall include this information in his notice to the parties. Whenever practicable, the hearing shall be held in the area of the claimant's residence and be convenient to public transportation.

§ 725.457 Change of time and place for hearing; transfer of cases.

(a) The Chief Administrative Law Judge or the administrative law judge may change the time and place for the hearing, either on his own motion or for good cause shown by a party. The Chief Administrative Law Judge or administrative law judge may adjourn or postpone the hearing, or he may reopen the hearing for the receipt of additional evidence at any time prior to the mailing of notice to the party of the decision in the case. Unless otherwise agreed, at least 10 days notice shall be given to the parties of any change in the time or place of hearing or of an adjournment or a reopening of the hearing.

(b) At any time after a notice of hearing has been issued the Chief Administrative Law Judge may for good cause transfer such case from one administrative law judge to another.

CONDUCT OF HEARINGS

§ 725.461 Hearings procedure, generally.

All hearings shall be attended by the parties or their representatives and such other persons as the administrative law judge deems necessary and proper. The administrative law judge shall inquire fully into the matters at issue and shall receive in evidence the testimony of witnesses and any documents which are relevant and material to such matters. If the administrative law judge believes that there is relevant and material evidence available which has not been presented at the hearing, he may adjourn the hearing or, at any time, prior to the mailing of notice of the decision, reopen the hearing for the receipt of such evidence. The order in which evidence and allegations shall be presented and the procedures at the hearing generally, except as these regulations otherwise expressly provide, shall be in the discretion of the administrative law judge and of such nature as to afford the parties a reasonable opportunity for a fair hearing.

§ 725.462 Evidence.

In making an investigation or inquiry or conducting a hearing the administrative law judge shall not be bound by common law or statutory rules of evidence or by technical or formal rules of procedure, except as provided by 5 U.S.C. 554 and this subpart; but may make such investigation or inquiry or conduct such hearing in such a manner as to best ascertain the rights of the parties. Declarations of a deceased miner concerning the disability or death in respect of which the investigation or inquiry is being made or the hearing conducted shall be received in evidence and shall, if corroborated by other evidence, be sufficient to establish the disability or death.

§ 725.463 Witnesses.

(a) Witnesses at the hearing shall testify under oath or affirmation or as directed by the administrative law judge unless they are excused by the administrative law judge for cause. The administrative law judge may examine the witnesses and shall allow the parties or their representatives to do so. If the administrative law judge conducts the examination of a witness, he may allow the parties to suggest matters as to which they desire the witness to be questioned, and the administrative law judge shall question the witness with respect to such matters if they are relevant and material to any issue pending for decision before him.

(b) No person shall be required to attend as a witness in any proceeding before an administrative law judge at a place outside the State of his residence and more than 100 miles from his place of residence, unless his lawful mileage and fee for 1 day's attendance shall be paid to him in advance of the hearing date.

§ 725.464 Depositions; interrogatories.

The testimony of any witness may be taken by deposition or interrogatory according to the rules of practice of the Federal district court for the judicial district in which the case is pending (or of the U.S. District Court for the District of Columbia if the case is pending in the District).

§ 725.465 Witness fees.

Witnesses summoned in a formal hearing before an administrative law judge or whose depositions are taken shall receive the same fees and mileage as witnesses in courts of the United States (Act, section 422 and Longshoremen's Act, section 25). Before any witness fees are incurred the Chief Administrative Law Judge or administrative law judge shall determine, in his discretion, that the presence of any witness was necessary. If it is determined that the presence of a witness is not necessary then that witness shall not be entitled to witness fees pursuant to this section.

§ 725.466 Oral argument and written allegations.

The parties, upon their request, shall be allowed a reasonable time for the presentation of oral argument or for the filing of briefs or other written statements of allegations as to facts or law. Where there is more than one party to the hearing, copies of any brief or other written statement shall be filed with the administrative law judge and served on all parties in interest by the party submitting the statement.

§ 725.467 Waiver of right to appear and present evidence.

If all parties waive their right to appear before the administrative law judge or to present evidence or argument personally or by representative, it shall not be necessary for the administrative law judge to give notice of and conduct an oral hearing. A waiver of the right to appear and present evidence and allegations as to facts and law shall be made in writing and filed with the Chief Administrative Law Judge or the administrative law judge. Such waiver may be withdrawn by a party at any time prior to the mailing of notice of the decision in the case. Even though all of the parties have filed a waiver of the right to appear and present evidence and contentions at a formal hearing, such officer may, nevertheless, give notice of a time and place and conduct a hearing, if he believes that the personal appearance and testimony of the party or parties would assist him to ascertain the facts in issue in the case. Where such a waiver has been filed by all parties, and they do not appear before the administrative law judge personally or by representative, the administrative law judge shall make a record of the relevant written evidence, including applications, written statements, certificates, affidavits, reports, and other documents which were considered in connection with the recommendations of the deputy commissioner, and whatever additional relevant

and material evidence the party or parties may present in writing for consideration by the administrative law judge. Such documents shall be considered as all of the evidence in the case and the decision shall be based on them.

§ 725.468 Consolidated issues.

When one or more additional issues are raised by the administrative law judge pursuant to § 725.455, such issues may, in the discretion of the Chief Administrative Law Judge, be consolidated for hearing and decision with other issues pending before the administrative law judge upon the same request for a hearing, whether or not the same or substantially similar evidence is relevant and material to the matters in issue. A single decision may be made upon all such issues.

§ 725.469 Joint hearings.

When two or more hearings are to be held, and the same or substantially similar evidence is relevant and material to the matters in issue at each such hearing the Chief Administrative Law Judge may upon motion by any party in interest, or on his own motion or on the motion of an adjudication officer, order the administrative law judge assigned the case to fix the same time and place for each such hearing and conduct all such hearings jointly. Where joint hearings are held, a single record of the proceedings shall be made and the evidence introduced in one case may be considered as introduced in the others and a separate or joint decision shall be made, as appropriate.

§ 725.470 Record of hearing.

All formal hearings shall be open to the public and shall be stenographically reported. All evidence upon which the administrative law judge relies for his final decision shall be contained in the transcript of testimony either directly or by appropriate reference. All medical reports, exhibits, and any other pertinent document or record either in whole or in material part shall be incorporated into the record either by reference or as an appendix.

DISMISSALS

§ 725.471 Dismissal of request for hearing; by application of party.

With the approval of the Chief Administrative Law Judge or administrative law judge at any time prior to the mailing of notice of the decision, a request for a hearing may be withdrawn or dismissed upon the application of the party or parties filing the request for such hearing. A party may request a dismissal by filing a written notice of such request with the Chief Administrative Law Judge or administrative law judge or orally stating such request at the hearing.

§ 725.472 Dismissal by abandonment of party.

Notwithstanding the provisions of § 725.415, with the approval of the Chief Administrative Law Judge or administrative law judge, a request for hearing may also be dismissed upon its abandonment by the party or parties who filed it. A party shall be deemed to have abandoned a request for hearing if neither the party nor his representative appears at the time and place fixed for the hearing and either (a) prior to the time for hearing such party does not show good cause as to why neither he nor his representative can appear or (b) within 10 days after the mailing of a notice of hearing to him to show cause, such party does not show good cause for such failure to appear and failure to notify the Chief Administrative Law Judge or administrative law judge prior to the time fixed for hearing that he cannot appear.

§ 725.473 Dismissal for cause.

The Chief Administrative Law Judge or administrative law judge may, on his own motion dismiss a hearing request, either entirely or as to any stated issue, under any of the following circumstances:

(a) *Res judicata.* Where there has been a previous determination or decision by the Secretary with respect to the rights of the same party on the same facts pertinent to the same issue or issues which has become final either by judicial affirmance or, without judicial consideration, upon the claimant's failure timely to request reconsideration, or hearing, or to commence a civil action with respect to such determination or decision.

(b) *No right to hearing.* Where the party requesting a hearing is not a proper party under § 725.452 or does not otherwise have a right to a hearing under the provisions of this part.

§ 725.474 Notice of dismissal and right to request review thereon.

Notice of the Chief Administrative Law Judge's or administrative law judge's dismissal action shall be given to the parties or mailed to them at their last known addresses, within 20 days from the date on which the hearing was scheduled. Such notice shall advise the parties of their right to request review by the Benefits Review Board pursuant to § 725.491.

§ 725.475 Effect of dismissal.

The dismissal of a request for hearing shall be final and binding unless vacated.

§ 725.476 Vacation of dismissal of request for hearing.

The Chief Administrative Law Judge or administrative law judge may, upon request of the party and for good cause shown, vacate any dismissal of a request for hearing at any time within 3 months from the date of mailing notice of the dismissal to the party requesting the hearing at his last known address.

COMPLETION OF FINAL ADJUDICATION

§ 725.481 Final decision and order.

Within 20 days after the close of a hearing the administrative law judge shall by order reject the claim or make an award in respect of the claim.

§ 725.482 Form of final decision and order.

(a) Orders adjudicating claims for benefits or suspending payments of benefits shall be designated by the term "final decision and order" followed by a descriptive phrase designating the particular type of such order, such as "award of benefits," "rejection of claims," "suspension of benefits," "modification of award." All final decisions and orders shall contain the name of the Office and agency, the names of the parties in interest, a statement of the basis for, findings of fact, an award, rejection, or other appropriate paragraph containing the action of the administrative law judge, and appended thereto shall be a paragraph headed "proof of service," containing the certification of the administrative law judge that a copy of the final decision and order was, on a date stated, sent by certified mail, with the names and addresses of the parties to whom sent. Final decisions and orders shall be signed by the administrative law judge at two places, (1) following the action paragraph, and (2) following the certification under the "proof of service."

(b) Copies of final decisions and orders shall be served personally or by certified mail upon the claimant, and upon any operator and his insurance carrier when applicable at the last known address of each.

§ 725.483 Contents of final decision and order.

(a) *Findings of Fact.* (1) All original final decisions and orders shall contain, in the paragraph headed "Findings of Fact," findings with respect to the names and addresses of the parties in interest, the dates and places of employment pertinent to the claim, the circumstances surrounding the coal miner's exposure to respirable coal dust, the nature and extent of the disability, notice of total disability or death, and such other facts as may be necessary to determine all of the issues raised before the administrative law judge upon the hearing of the case or otherwise, but in case of rejection of the claim the administrative law judge may in his discretion omit any findings unnecessary to support such action. In cases in which the claim is rejected, the ground for such rejection shall be stated in a paragraph following the findings of fact.

(2) In orders other than the original order, the statement of the basis for the order shall contain reference to all prior orders with the dates thereof. In such orders the findings of fact shall relate only to the immediate issues before the administrative law judge without restatement of facts found in any prior order relating to the same disability or death, unless necessary for the completeness of the order.

(3) Findings of fact shall be stated positively; that is, without equivocation or qualification.

(b) *Conclusions of law.* All final decisions and orders shall contain after the findings of fact a paragraph entitled

"Conclusions of Law." This paragraph shall, when appropriate, contain statements of all ultimate facts necessary to

Court for the District of Columbia, if the injury occurred in the District). If the court determines that the order was

the proceedings in respect of such claim or order have been instituted or continued without reasonable ground, the

OWCP may, in its discretion, certify to any two or more of such individuals joint payment of the total benefits payable to them for such period.

(b) *Basic benefit.* When a miner or widow is entitled to benefits for a month for which he or she has no dependents who qualify under Part 715 of

(3) Since a fraction of a cent is not a multiple of 10 cents, such an amount which contains a fraction in the third decimal place is raised to the next higher

XUM
V 37 - 231 NOV 30 72 V 37 - 231 NOV 30 72 XUM

"Conclusions of Law." This paragraph shall, when appropriate, contain statements of all ultimate facts necessary to support the action of the administrative law judge. This paragraph shall contain among other things a statement as to the claimant's eligibility for benefits and, when appropriate, a statement asserting or denying the liability of an operator or his insurance carrier for the payment of benefits to the claimant for any periods after December 31, 1973.

(c) *Order.* All final decisions and orders shall contain after the conclusions of law the orders of the administrative law judge directing the parties to take any action consistent with the findings of fact and conclusions of law as required by the Act.

§ 725.484 Interlocutory matters to be disposed of without formal orders.

Final decisions and orders or other formal orders shall not be made or filed with respect to interlocutory matters of a procedural nature arising during the pendency of a case where benefits have been claimed.

§ 725.485 Finality of orders.

A final decision and order shall become effective when signed by the appropriate adjudication officer, and shall become final at the expiration of the 30th day thereafter.

§ 725.486 Modification of awards.

Upon his own initiative, or upon the application of any party in interest, on the ground of a change in conditions or because of a mistake in a determination of fact by the administrative law judge the administrative law judge may, at any time prior to 1 year after the date of the last payment of benefits, whether or not an order has been issued, or at any time prior to 1 year after the rejection of a claim, review a case in accordance with the procedure prescribed in respect of claims in this subpart and in accordance therewith issue a new final decision and order which may terminate, continue, or reinstate, increase, or decrease such benefits, or award benefits. Such new order shall not affect any benefits previously paid, except that an award increasing the benefits rate may be made effective from the date of the entitlement and if any part of the benefit due or to become due is unpaid, an award decreasing the benefit rate may be made effective from the date of the entitlement, and any payment made prior thereto in excess of such decreased rate shall be deducted from any unpaid benefit pursuant to Subpart F of this part.

§ 725.487 Judicial enforcement.

Pursuant to section 21(d) of the Longshoreman's Act as incorporated by section 422 of the Act, if any operator or his officers or agents fails to comply with an order making an award, that has become final, any beneficiary of such award or the adjudication office making the order, may apply for the enforcement of the order to the Federal district court for the judicial district in which the claimant resides (or to the U.S. District Court for the District of Columbia, if the injury occurred in the District). If the court determines that the order was made and served in accordance with law, and that such operator or his officers or agents have failed to comply therewith, the court shall enforce obedience to the order by writ of injunction or by other proper process, mandatory or otherwise, to enjoin upon such person and his officers and agents compliance with the order.

APPEALS FROM FINAL DECISION AND ORDERS

§ 725.491 Right to appeal; Benefits Review Board.

Any party in interest, adversely affected or aggrieved by a final decision and order of an adjudication officer issued pursuant to § 725.481 may appeal such final decision and order to the Benefits Review Board.

§ 725.492 Procedure before the Board.

All appeals filed with the Board shall be processed and determined pursuant to rules and regulations duly promulgated by the Board as authorized by the Secretary.

§ 725.493 Judicial review.

Pursuant to section 21(c) of the Longshoremen's and Harbor Workers' Compensation Act as incorporated by section 422 of the Act, any person adversely affected or aggrieved by a final order of the Board may obtain a review of that order in the U.S. Court of Appeals for the circuit in which the claimant resides or in the most convenient U.S. Circuit Court of Appeals if the claimant resides outside of the United States by filing in such court within 60 days following the issuance of such Board order a written petition praying that the order be modified or set aside. The statute provides that payment of the amounts required by an award shall not be stayed pending final decision in any such proceeding unless ordered by the court. No stay shall be issued unless irreparable injury would otherwise ensue to an operator or carrier. The order of the court allowing any stay shall contain a specific finding, based upon evidence submitted to the court and identified by reference thereto, that irreparable damage would result to the operator, and specifying the nature of the damage.

§ 725.496 Certification of record for judicial review.

Whenever the record of a hearing shall be required for review or otherwise by any court of competent jurisdiction, the Secretary or his designated representative shall transmit the record with a certification thereof over an appropriate signature as the official record of the case in his custody. The certification shall list each transcript of testimony and other paper included in the certification.

§ 725.497 Costs in proceedings brought without reasonable grounds.

If the court having jurisdiction of proceedings in respect of any claim or final decision and order determines that the proceedings in respect of such claim or order have been instituted or continued without reasonable ground, the costs of such proceedings shall be assessed against the party who has so instituted or continued such proceedings (Act, section 422 and Longshoremen's Act, section 26).

Subpart F—Payment of Benefits

GENERAL

§ 725.501 Applicability of this subpart.

For purposes of the Department of Labor's administration of part C of title IV of the Act, benefits shall be determined and paid pursuant to the provisions of this subpart. This subpart applies to all new claims of eligible individuals filed after December 31, 1973, as well as new claims filed with the Department of Labor pursuant to section 415 of part B of title IV of the Act by claimants entitled thereby to benefit payments under part C of title IV after December 31, 1973. However, in respect to new claims filed under section 415 of the Act, no payment of benefits under this Subpart F of this Part 725 shall commence before January 1, 1974. Benefits due any eligible individual from the Department of Labor which are payable under part B of title IV of the Act shall be determined and paid pursuant to Subpart C of Part 720 of this subchapter.

§ 725.502 Manner of payment; payment periods.

(a) Benefits under this Act shall be paid periodically, promptly, and directly to the person entitled thereto. Coal mine operators shall be liable for such payments as provided in Subpart D of this Part 725.

(b) Benefits are payable for monthly periods. If the claimant meets all the requirements for entitlement to benefits in the same month in which his claim is filed, the filing will be effective for the whole month. If a claimant dies in the first month for which he meets all the requirements for entitlement to benefits, he will be considered to be entitled to benefits for that month.

(c) On the 14th day after the date when there has been a determination by a deputy commissioner or decision by an administrative law judge to the effect that the claimant is entitled to receive benefits, or the date when payment of benefits has been ordered pursuant to § 725.312(b), the first installment of benefits shall become due and all benefits then due shall be paid. Thereafter compensation shall be paid in monthly installments, except where the adjudicating officer determines that payment in installments should be made semimonthly or at some other period.

§ 725.503 Payees.

Benefits may be paid, as appropriate, to a beneficiary, to a qualified dependent, or to a representative authorized under this subpart to receive payments on behalf of such beneficiary or dependent. Also, where an amount is payable under part C of title IV of the Act for any month to two or more individuals who are members of the same family, the

OWCP may, in its discretion, certify to any two or more of such individuals joint payment of the total benefits payable to them for such period.

§ 725.504 Payment on behalf of another; "legal guardian" defined.

Benefits are paid only to the beneficiary or his legal guardian. As used in this section, "legal guardian" means an individual who has been appointed by a court of competent jurisdiction or otherwise appointed pursuant to law, to assume control of, and responsibility for, the care of the beneficiary, the management of his estate, or both.

§ 725.505 Guardian for minor or incompetent.

The deputy commissioner may require the appointment by a court of competent jurisdiction, for any person who is mentally incompetent or a minor, of a guardian or other representative to receive benefits payable to such person under part C of title IV of the Act and to exercise the powers granted to or to perform the duties required of such person under the Act.

§ 725.506 Assignment and exemption from claims of creditors.

No assignment, release, or commutation of benefits due or payable under this part, except as provided by the Act as implemented by this Part 725, shall be valid, and such benefits shall be exempt from all claims of creditors and from levy, execution, and attachment or other remedy for recovery or collection of a debt, which exemption may not be waived. (Act, section 422, and Longshoremen's Act, section 16.)

§ 725.507 Computation of benefits.

(a) *Basic rate.* The benefit amount of each beneficiary entitled to a benefit for any month is determined, in the first instance, by computing the "basic rate." The basic rate is equal to 50 percent of the minimum monthly payment to which a totally disabled Federal employee in grade GS–2 would be entitled for such period under the Federal Employees' Compensation Act, chapter 81, title 5, United States Code. Such basic rate is determined by:

(1) Ascertaining the lowest annual rate of pay ("step 1") for grade GS–2 of the General Schedule applicable to such period (see 5 U.S.C. 5332);

(2) Ascertaining the monthly rate thereof by dividing the amount determined in subparagraph (1) of this paragraph by 12.

(3) Ascertaining the minimum monthly payment under the Federal Employees' Compensation Act by multiplying the amount determined in subparagraph (2) of this paragraph by 0.75 (that is, by 75 percent) (see 5 U.S.C. 8112); and

(4) Ascertaining the basic rate under the Act by multiplying the amount determined in subparagraph (3) of this paragraph by 0.50 (that is, by 50 percent).

(b) *Basic benefit.* When a miner or widow is entitled to benefits for a month for which he or she has no dependents who qualify under Part 715 of this chapter and when a surviving child of a miner or widow, or a parent, brother, or sister of a miner, is entitled to benefits for a month for which he or she is the only beneficiary entitled to benefits, the amount of benefits to which such beneficiary is entitled is equal to the basic rate as computed in accordance with this section (raised, if not a multiple of 10 cents, to the next higher multiple of 10 cents). This amount is referred to as the "basic benefit."

(c) *Augmented benefit.* (1) When a miner or widow is entitled to benefits for a month for which he or she has one or more dependents who qualify under Part 715 of this chapter, the amount of benefits to which such miner or widow is entitled is increased. This increase is referred to as an "augmentation."

(2) Any request to the Office that the benefits of a miner or widow be augmented in accordance with this paragraph shall be in writing on such form and in accordance with such instructions as are prescribed by the Office. Such request shall be filed with the Office in accordance with those provisions of Subpart B of this Part 725 dealing with the filing of claims as if such request were a claim for benefits, and as if such dependent were the "beneficiary" referred to therein. Ordinarily, such request is made as part of the claim of the miner or widow for benefits.

(3) The benefits of a miner or widow are augmented to take account of a particular dependent beginning with the first month in which such dependent satisfies the conditions set forth in Part 715 of this chapter and continue to be augmented through the month before the month in which such dependent ceases to satisfy the conditions set forth in Part 715 of this chapter, except in the case of a child who qualifies as a dependent because he is a student. In the latter case such benefits continue to be augmented through the month before the first month during no part of which he qualifies as a student.

(4) The basic rate is augmented by 50 percent for one such dependent, 75 percent for two such dependents, and 100 percent for three or more such dependents.

(d) *Survivor benefit.* (1) As used in this section, "survivor" means a surviving child of a miner or widow, or a surviving parent, brother, or sister of a miner, who establishes entitlement to benefits under the provisions of Part 715 of this chapter.

(e) *Computation and rounding.* (1) Any computation prescribed by this section is made to the third decimal place.

(2) Benefits are payable in multiples of 10 cents. Therefore, a payment of amounts derived under paragraph (c) (4) of this section which is not a multiple of 10 cents is increased to the next higher multiple of 10 cents.

(3) Since a fraction of a cent is not a multiple of 10 cents, such an amount which contains a fraction in the third decimal place is raised to the next higher multiple of 10 cents.

§ 725.508 Certification to dependent of augmentation portion of benefit.

(a) If the benefit of a miner or of a widow is augmented because of one or more dependents (§ 725.507), and it appears to the Director of the OWCP that the best interest of such dependent would be served thereby, the Director may certify payment of the amount of such augmentation (to the extent attributable to such dependent) to such dependent directly or to a representative payee for the use and benefit of such dependent.

(b) Any request to the Office to certify separate payment of the amount of an augmentation in accordance with paragraph (a) of this section, shall be in writing on such instructions as are prescribed by the Office, and shall be filed with the Office in accordance with those provisions of Subpart B of this part dealing with the filing of claims as if such request were a claim for benefits (see Subpart A of this part).

(c) In determining whether it is in the best interest of such dependent to certify separate payment of the amount of the augmentation in benefits attributable to him, the Director of the Office shall apply the standards pertaining to representative payment in this subpart and the instructions issued pursuant thereto.

(d) When the Director of the Office determines that the amount of a miner's benefit attributable to the miner's wife or child should be certified for separate payment to a person other than such miner, or that the amount of a widow's benefit attributable to such widow's child should be certified for separate payment to a person other than the widow, and the miner or widow disagrees with such determination and alleges that separate certification is not in the best interest of such dependent, the Director shall reconsider that determination.

(e) Any payment made under this section, if otherwise valid under the Act, is a complete settlement and satisfaction of all claims, rights, and interests in and to such payment.

§ 725.509 Commutation of payments, lump sum awards.

(a) Whenever the deputy commissioner determines that it is in the interest of justice, the liability for benefits or any part thereof as determined by a final adjudication, may, with the approval of the Director of the OWCP, be discharged by the payment of a lump sum equal to the present value of future benefits payments commuted, computed at 4 percent true discount compounded annually.

(b) Applications for commutation of future payments of benefits shall be made to the Office on the form provided for that purpose. If the deputy commissioner determines that an award of

a lump sum payment of such benefits would be in the interest of justice, he shall refer such application, together

of this chapter for an augmentation portion of a benefit of a miner or widow for a period in which another dependent

cluding compensation for occupational disease), unemployment compensation, or disability insurance.

not below zero) by the amount of excess earnings chargeable to such period.

§ 725.515 Nonpayment of benefits to

§ 725.522 Notice of right to waiver consideration.

Whenever an initial determination is

representation on the part of such deceased individual, and (ii) a claim for overpayment regardless of the amount will not be compromised, nor will there

XUM
V 37-231 NOV 30 72 XUM

claimant resides (or to the U.S. District final decision and order determines that are members of the same family, the

a lump sum payment of such benefits would be in the interest of justice, he shall refer such application, together with the reasons in support of such determination, to the Director of the Office for consideration.

(c) The Director of the OWCP shall, in his discretion, grant or deny the application for commutation of payments. In the case of a denial an appeal may be taken pursuant to the adjudicatory procedures prescribed in Subpart E of this Part 725 as though such appeal were an appeal from a denial of benefits.

(d) The computation of all commutations of such benefits will be made by the Office of Workmen's Compensation Programs and for such purpose the deputy commissioner shall refer the file to the appropriate officer. For this purpose the file shall contain the date of birth of the person on whose behalf commutation is sought, as well as the date upon which such commutation shall be effective.

(e) For purposes of determining the amount of any lump sum award, the probability of the death of the disabled miner or other person entitled to benefits before the expiration of the period during which he is entitled to benefits, shall be determined in accordance with the American Experience Table of Mortality, and the probability of the remarriage of the surviving wife shall be determined in accordance with the remarriage tables of the Dutch Royal Insurance Institution. The probability of the happening of any other contingency affecting the amount or duration of the compensation shall be disregarded.

MODIFICATION OF BENEFITS

§ 725.511 Modification of benefit amounts, general.

Under certain conditions, the amount of monthly benefits as computed in § 725.507 must be modified to determine the amount actually to be paid to a beneficiary. A modification of the amount of a monthly benefit may be required in the following instances:

(a) *Reduction.* A reduction from a beneficiary's monthly benefit may be required because of:

(1) In the case of benefits to a miner, parent, brother, or sister, the excess earnings from wages and from net earnings from self-employment of such miner, parent, brother, or sister, respectively; or

(2) Failure to report earnings from work in employment and self-employment within the prescribed period of time; or

(3) The receipt by a beneficiary of payments made on account of any disability of the miner under State or Federal laws relating to workmen's compensation (including compensation for occupational disease), unemployment compensation, or disability insurance.

(4) The fact that a claim for benefits from an additional beneficiary is filed, or that such a claim is effective for a payment prior to the month of filing, or a dependent qualifies under Part 715 of this chapter for an augmentation portion of a benefit of a miner or widow for a period in which another dependent has previously qualified for an augmentation.

(b) *Adjustment.* An adjustment in a beneficiary's monthly benefit may be required because an overpayment or underpayment has been made to such beneficiary.

(c) *Nonpayment.* No benefits under this part are payable to the residents of a State which reduces its payments made to beneficiaries pursuant to certain State laws (see § 725.662).

(d) *Suspension.* A suspension of a beneficiary's benefits may be required when the Office has information indicating that reductions on account of the miner's excess earnings (based on criteria in section 203(b) of the Social Security Act, 42 U.S.C. 403(b)) may reasonably be expected.

(e) *"Rounding" of benefit amounts.* See § 725.507(e).

(f) *Failure to disclose pertinent evidence.* Any individual entitled to a benefit who is aware of any circumstance which, under the provisions of this part could affect his entitlement to benefits, his eligibility for payment, or the amount of his benefits, or result in the termination, suspension, or reduction of his benefit, shall promptly report such circumstance to the Office of Workmen's Compensation Programs. The Office may at any time require an individual receiving, or claiming that he is entitled to receive a benefit, either on behalf of himself or on behalf of another, to submit a written statement giving pertinent information bearing upon the issue of whether or not an event has occurred which would cause such benefit to be terminated, or which would subject such benefit to reductions or suspension under the provisions of the act. If such individual fails to submit any such report or statement, properly executed, to the Office as herein required, the Office may subject such benefit to reductions, suspension, or termination as the case may be.

(g) *Reimbursement of trust fund.* Pursuant to the provisions of section 422 of the Act and section 17(b) of the Longshoremen's Act as incorporated therein, where a trust fund which complies with section 302(c) of the Labor-Management Relations Act of 1947 (29 U.S.C. 186(c)) established pursuant to a collective bargaining agreement in effect between an employer and an employee entitled to benefits under this Act has paid disability benefits to an employee which the employee is legally obligated to repay by reason of his entitlement to benefits under this Act, the Secretary may authorize a lien on such benefits in honor of the trust fund if for the amount of such payments.

§ 725.512 Reductions: receipt of State benefit.

(a) As used in this section, the term "State benefit" means a payment to a beneficiary made on account of any disability of the miner under State laws relating to workmen's compensation (including compensation for occupational disease), unemployment compensation, or disability insurance.

(b) Benefit payments to a beneficiary for any month are reduced (but not below zero) by an amount equal to any payments of State benefits received by such beneficiary for such month.

(c) Where a State benefit is paid periodically but not monthly, or in a lump sum as a commutation of or a substitute for periodic benefits, the reduction under this section is made at such time or times and in such amounts as the Office determines will approximate as nearly as practicable the reduction required under paragraph (b) of this section. In making such a determination, a weekly State benefit is multiplied by $4\frac{1}{3}$ and a biweekly benefit is multiplied by $2\frac{1}{6}$ to ascertain the monthly equivalent for reduction purposes.

(d) Amounts paid or incurred or to be incurred by the individual for medical, legal, or related expenses in connection with his claim for State benefits (defined in paragraph (a) of this section) or the injury or occupational disease, if any, on which such award of State benefits (or settlement agreement) is based, are excluded in computing the reduction under paragraph (b) of this section, to the extent that they are consonant with State law. Such medical, legal, or related expenses may be evidenced by the State benefit award, compromise agreement, or court order in the State benefit proceedings, or by such other evidence as the Office may require. Such other evidence may consist of:

(1) A detailed statement by the individual's attorney, physician, or the employer's insurance carrier; or

(2) Bills, receipts, or canceled checks; or

(3) Other clear and convincing evidence indicating the amount of such expenses; or

(4) Any combination of the foregoing evidence from which the amount of such expenses may be determinable.

Such expenses will not be excluded unless established by evidence as required by the Office.

§ 725.513 Reductions: retroactive effect of an additional claim for benefits.

Beginning with the month in which a person other than a miner files a claim and becomes entitled to benefits, the benefits of other persons entitled to benefits with respect to the same miner, are adjusted downward, if necessary, so that no more than the permissible amount of benefits (the maximum amount for the number of beneficiaries involved) will be paid.

§ 725.514 More than one reduction event.

If a reduction for receipt of State benefits and a reduction on account of excess earnings are chargeable to the same monthly period, the benefit for such period is first reduced (but not below zero) by the amount of the State benefits, and the remainder of the benefit for such period, if any, is then reduced (but not below zero) by the amount of excess earnings chargeable to such period.

§ 725.515 Nonpayment of benefits to residents of certain States.

No benefits shall be paid under this part to the residents of any State which, after December 30, 1969, reduces the benefits payable to persons eligible to receive benefits under this part, under its State laws which are applicable to its general work force with regard to workmen's compensation (including compensation for occupational disease), unemployment compensation, or disability insurance benefits which are funded in whole or in part out of employer contributions.

OVERPAYMENTS, UNDERPAYMENTS

§ 725.521 Overpayment.

(a) *General.* As used in this subpart, the term "overpayment" includes:

(1) Payment where no amount is payable under Part C of Title IV of the Act;

(2) Payment in excess ofthe amount due under Part C of Title IV of the Act;

(3) Payment resulting from the failure to reduce benefits under sections 412(b) and 430 of the Act;

(4) Payment to a resident of a State whose residents are not eligible for payment; and

(5) Payment resulting from the failure to terminate benefits of an individual no longer entitled thereto.

(b) *Adjustments for overpayment.* If the beneficiary to whom an overpayment was made is entitled to benefits at the time of a determination of such overpayment, or becomes so entitled, at any time thereafter, no such benefit for any month is payable to such individual, except as provided in paragraph (c) of this section, until an amount equal to the amount of the overpayment has been withheld or refunded.

(c) *Adjustment by withholding part of a monthly benefit.* Adjustment under paragraph (b) of this section may be effected by withholding a part of the benefit payable to a beneficiary where it is determined that:

(1) Withholding the full amount of each payment period would deprive the beneficiary of income required for ordinary and necessary living expenses;

(2) The overpayment was not caused by the beneficiary's intentionally false statement or representation, or willful concealment of, or deliberate failure to furnish material information; and

(3) Recoupment can be effected in an amount of not less than $10 a month and at a rate which would not extend the period of adjustment beyond 3 years after the initiation of the adjustment action.

(d) *Adjustment of overpayment to deceased beneficiary.* If an overpaid beneficiary dies before adjustment is completed under the provisions of paragraph (b) or (c) of this section, recovery of the overpayment shall be effected through repayment by the estate of the deceased overpaid beneficiary, or by withholding of amounts due the estate of such deceased beneficiary, or both.

§ 725.522 Notice of right to waiver consideration.

Whenever an initial determination is made that more than the correct amount of payment has been made, notice of the provisions of section 204(b) of the Social Security Act regarding waiver of adjustment or recovery shall be sent to the overpaid individual and to any other individual against whom adjustment or recovery of the overpayment is to be effected.

§ 725.523 When waiver of adjustment or recovery may be applied.

There shall be no adjustment or recovery in any case where an incorrect payment under Part C of Title IV of the Act has been made with respect to an individual—

(a) Who is without fault, and

(b) Adjustment or recovery would either:

(1) Defeat the purpose of Title IV of the Act, or

(2) Be against equity and good conscience.

§ 725.524 Standards for waiver of adjustment or recovery.

The standards for determining the applicability of the criteria listed in § 725.523 shall be the same as those applied by the Social Security Administration pursuant to §§ 410.561–410.561(h) of this title.

§ 725.525 Collection and compromise of claims for overpayment.

(a) *General effect of the Federal Claims Collection Act of 1966.* Claims by the Office of Workmen's Compensation Programs against an individual for recovery of overpayments under Part C of Title IV of the Act, not exceeding the sum of $20,000, exclusive of interest, may be compromised, or collection suspended or terminated where such individual or his estate does not have the present or prospective ability to pay the full amount of the claim within a reasonable time (see paragraph (c) of this section) or the cost of collection is likely to exceed the amount of recovery (see paragraph (d) of this section) except as provided under paragraph (b) of this section.

(b) *When there will be no compromise, suspension or termination of collection of a claim for overpayment—(1) Overpaid individual living.* In any case where the overpaid individual is alive, a claim for overpayment will not be compromised, nor will there be suspension or termination of collection of the claim by the Office if there is an indication of fraud, the filing of false claim, or misrepresentation on the part of such individual or on the part of any other party having an interest in the claim.

(2) *Overpaid individual deceased.* In any case where the overpaid individual is deceased (i) a claim for overpayment in excess of $5,000 will not be compromised, nor will there be suspension or termination of collection of the claim by the Office if there is an indication of fraud, the filing of a false claim, or misrepresentation on the part of such deceased individual, and (ii) a claim for overpayment regardless of the amount will not be compromised, nor will there be suspension or termination of collection of the claim by the Office if there is an indication that any person other than the deceased overpaid individual had a part in the fraudulent action which resulted in the overpayment.

(c) *Inability to pay claim for recovery of overpayment.* In determining whether the overpaid individual is unable to pay a claim for recovery of an overpayment under Part C of Title IV of the Act, the Office will consider such individual's age, health, present and potential income (including inheritance prospects), assets (e.g., real property, savings account), possible concealment or improper transfer of assets, and assets or income of such individual which may be available in enforced collection proceedings. The Office will also consider exemptions available to such individual under the pertinent State or Federal law in such proceedings. In the event the overpaid individual is deceased, the Office will consider the available assets of the estate, taking into account any liens or superior claims against the estate.

(d) *Cost of collection or litigative probalities.* Where the probable costs of recovering an overpayment under Part C of Title IV of the Act would not justify enforced collection proceedings for the full amount of the claim or there is doubt concerning the Office's ability to establish its claim as well as the time which it will take to effect such collection, a compromise or settlement for less than the full amount will be considered.

(e) *Amount of compromise.* The amount to be accepted in compromise of a claim for overpayment under Part C of Title IV of the Act shall bear a reasonable relationship to the amount which can be recovered by enforced collection proceedings giving due consideration to the exemptions available to the overpaid individual under State or Federal law and the time which collection will take.

(f) *Payment.* Payment of the amount which the Office has agreed to accept as a compromise in full settlement of a claim for recovery of an overpayment under Part C of Title IV of the Act must be made within the time and in the manner set by the Office. A claim for such recovery of the overpayment shall not be considered compromised or settled until the full payment of the compromised amount has been made within the time and manner set by the Office. Failure of the overpaid individual or his estate to make such payment as provided shall result in reinstatement of the full amount of the overpayment less any amounts paid prior to such default.

§ 725.526 Underpayments.

(a) General: As used in this subpart, the term "underpayment" includes a payment in an amount less than the amount of the benefit due for any month, and nonpayment where some amount of such benefits are payable.

(b) Underpaid individual is living: If an individual to whom an underpayment

person can give the Administration good acquittance (as defined in paragraph (f)

a miner or widow who could qualify for certification of separate payment of an

account in a bank or trust company or in a savings and loan association if the

will facilitate the beneficiary's earliest possible rehabilitation or release from the institution or which otherwise will

be, shall furnish such medical, surgical, and other attendance or treatment, nurse and hospital service, medicine, crutches,

XUM

RULES AND REGULATIONS

(b) Underpaid individual is living: If an individual to whom an underpayment is due is living, the amount of such underpayment will be paid to such individual either in a single payment (if he is not entitled to a monthly benefit) or by increasing one or more benefit payments to which such individual is or becomes entitled.

(c) Underpaid individual dies before adjustment of underpayment: If an individual to whom an underpayment is due dies before receiving payment or negotiating a check or checks representing such payment, such underpayment will be distributed to the living person (or persons) in the highest order of priority as follows:

(1) The deceased individual's surviving spouse who was either:

(i) Living in the same household with the deceased individual at the time of such individual's death, or

(ii) In the case of a deceased miner, entitled for the month of death to widow's black lung benefits.

(2) In the case of a deceased miner or widow, his or her child entitled to benefits as the surviving child of such miner or widow for the month in which such miner or widow died (if more than one such child, in equal shares to each such child).

(3) In the case of a deceased miner, his parent entitled to benefits as the surviving parent of such miner for the month in which such miner died (if more than one such parent, in equal shares to each such parent).

(4) The surviving spouse of the deceased individual who does not qualify under subparagraph (1) of this paragraph.

(5) The child or children of the deceased individual who do not qualify under subparagraph (2) of this paragraph (if more than one such child, in equal shares to each such child).

(6) The parent or parents of the deceased individual who do not qualify under subparagraph (3) of this paragraph (if more than one such parent, in equal shares to each such parent).

(7) The legal representative of the estate of the deceased individual as defined in paragraph (e) of this section.

(d) In the event that a person who is otherwise qualified to receive an underpayment under the provisions of paragraph (c) of this section, dies before receiving payment or before negotiating the check or checks representing such payment, his share of the underpayment will be divided among the remaining living person(s) in the same order of priority. In the event that there is (are) no other such person(s), the underpayment will be paid to the living person(s) in the next lower order of priority under paragraph (c) of this section.

(e) *Definition of legal representative:* The term "legal representative," for the purpose of qualifying to receive an underpayment, generally means the executor or the administrator of the estate of the deceased beneficiary. However, it may also include an individual, institution, or organization acting on behalf of an unadministered estate, provided the person can give the Administration good acquittance (as defined in paragraph (f) of this section). The following persons may qualify as legal representative for purposes of this section, provided they can give the Administration good acquittance:

(1) A person who qualifies under a State's "small estate" statute; or

(2) A person resident in a foreign country who under the laws and customs of that country, has the right to receive assets of the estate; or

(3) A public administrator; or

(4) A person who has the authority, under applicable law, to collect the assets of the estate of the deceased beneficiary.

(f) Definition of "good acquittance": A person is considered to give the Administration "good acquittance" when payment to that person will release the Administration from further liability for such payment.

§ 725.527 Relation to provisions for reductions or increases.

The amount of an overpayment or underpayment is the difference between the amount actually paid to the beneficiary and the amount of the payment to which the beneficiary was actually entitled. Such overpayment or underpayment, for example, would be equal to the difference between the amount of a benefit in fact paid to the beneficiary and the amount of such benefit as reduced under section 412(b) of the Act, as increased pursuant to section 412(a)(1), or as augmented under section 412(a)(3), of the Act. In effecting an adjustment with respect to an overpayment, no amount can be considered as having been withheld from a particular benefit which is in excess of the amount of such benefit as so reduced. Overpayment and underpayment simultaneously outstanding on account of the same beneficiary are first adjusted against one another before adjustment pursuant to the other provisions of this subpart.

REPRESENTATIVE PAYEES

§ 725.531 Payments on behalf of an individual.

(a) When it appears to the Office that the interest of a beneficiary entitled to a payment under Part C of Title IV of the Act would be served thereby, certification of payment may be made by the Office, regardless of the legal competency or incompetency of the beneficiary entitled thereto, either for direct payment to such beneficiary, or for his use and benefit to a relative or some other person as the "representative payee" of the beneficiary. When it appears that an individual who is receiving benefit payments may be incapable of managing such payments in his own interest, the Office shall, if such individual is age 18 or over and has not been adjudged legally incompetent, continue payments to such individual pending a determination as to his capacity to manage benefit payments and the selection of a representative payee.

(b) As used in this section and the related sections following, the term "beneficiary" includes the dependent of a miner or widow who could qualify for certification of separate payment of an augmentation portion of such miner's or widow's benefits.

§ 725.532 Submission of evidence by representative payee.

Before any amount shall be certified for payment to any relative or other person as representative payee for and on behalf of a beneficiary, such relative or other person shall submit to the Office such evidence as it may require of his relationship to, or his responsibility for the care of, the beneficiary on whose behalf payment is to be made, or of his authority to receive such payment. The Office may, at any time thereafter, require evidence of the continued existence of such relationship, responsibility, or authority. If any such relative or other person fails to submit the required evidence within a reasonable period of time after it is requested, no further payments shall be certified to him on behalf of the beneficiary unless for good cause shown, the default of such relative or other person is excused by the Office and the required evidence is thereafter submitted.

§ 725.533 Responsibility of representative payee.

A relative or other person to whom certification of payment is made on behalf of a beneficiary as representative payee shall, subject to review by the Office and to such requirements as it may from time to time prescribe, apply the payments certified to him on behalf of a beneficiary only for the use and benefit of such beneficiary in the manner and for the purposes determined by him to be in the beneficiary's best interest.

§ 725.534 Use of benefits for current maintenance.

Payments certified to a relative or other person on behalf of a beneficiary shall be considered as having been applied for the use and benefit of the beneficiary when they are used for the beneficiary's current maintenance—i.e., to replace current income lost because of the disability, retirement, or death of the insured individual. Where a beneficiary is receiving care in an institution, current maintenance shall include the customary charges made by the institution to individuals it provides with care and services like those it provides the beneficiary and charges made for current and foreseeable needs of the beneficiary which are not met by the institution.

§ 725.535 Conservation and investment of payments.

(a) Payments certified to a relative or other person on behalf of a beneficiary which are not needed for the current maintenance of the beneficiary except as they may be used pursuant to § 725.720, shall be conserved or invested on the beneficiary's behalf. Preferred investments are U.S. savings bonds, but such funds may also be invested in accordance with the rules applicable to investment of trust estates by trustees. For example, surplus funds may be deposited in an interest or dividend bearing account in a bank or trust company or in a savings and loan association if the account is either federally insured or is otherwise insured in accordance with State law requirements. Surplus funds deposited in an interest or dividend bearing account in a bank or trust company or in a savings and loan association must be in a form of account which clearly shows that the representative payee has only a fiduciary, and not a personal, interest in the funds.

(b) The preferred forms of such accounts are as follows:

_____
(Name of beneficiary)
by
_____
(Name of representative payee)
or
_____
(Name of beneficiary)
by
_____
(Name of representative payee), Trustee

(c) U.S. savings bonds purchased with surplus funds by a representative payee for a minor should be registered as follows:

_____
(Name of beneficiary)
_____, a minor, for whom
(Social Security No.)
_____ is representative
(Name of payee)
payee for black lung benefits.

(d) U.S. savings bonds purchased with surplus funds by a representative payee for an incapacitated adult beneficiary should be registered as follows:

_____
(Name of beneficiary)
_____, for whom
(Social Security No.)
_____ is representative
(Name of payee)
payee for black lung benefits.

A representative payee who is the legally appointed guardian or fiduciary of the beneficiary may also register U.S. savings bonds purchased with funds from the payment of benefits under Part B of Title IV in accordance with applicable regulations of the U.S. Treasury Department (31 CFR 315.5 through 315.8). Any other approved investment of the beneficiary's funds made by the representative payee must clearly show that the payee holds the property in trust for the beneficiary.

§ 725.536 Use of benefits for beneficiary in institution.

Where a beneficiary is confined in a Federal, State, or private institution because of mental or physical incapacity, the relative or other person to whom payments are certified on behalf of the beneficiary shall give highest priority to expenditure of the payments for the current maintenance needs of the beneficiary, including the customary charges made by the institution in providing care and maintenance. It is considered in the best interests of the beneficiary for the relative or other person to whom payments are certified on the beneficiary's behalf to allocate expenditure of the payments so certified in a manner which will facilitate the beneficiary's earliest possible rehabilitation or release from the institution or which otherwise will help him live as normal a life as practicable in the institutional environment.

§ 725.537 Support of legally dependent spouse, child, or parent.

If current maintenance needs of a beneficiary are being reasonably met, a relative or other person to whom payments are certified as representative payee on behalf of the beneficiary may use part of the payments so certified for the support of the legally dependent spouse, a legally dependent child, or a legally dependent parent of the beneficiary.

§ 725.538 Claims of creditors.

A relative or other person to whom payments under Part C of Title IV of the Act are certified as representative payee on behalf of a beneficiary may not be required to use such payments to discharge an indebtedness of the beneficiary which was incurred before the first monthly period for which payments are certified to a relative or other person on the beneficiary's behalf. In no case, however, may such payee use such payments to discharge such indebtedness of the beneficiary unless the current and reasonably foreseeable future needs of the beneficiary are otherwise provided for.

§ 725.539 Accountability.

A relative or other person to whom payments are certified as representative payee on behalf of a beneficiary as the Office may require, accounting for the payments certified to him on behalf of the beneficiary unless such payee is a court-appointed fiduciary and, as such, is required to make an annual accounting to the court, in which case a true copy of each such account filed with the court may be submitted in lieu of the accounting form prescribed by the Office. If any such relative or other person fails to submit the required accounting within a reasonable period of time after it is requested, no further payments shall be certified to him on behalf of the beneficiary unless for good cause shown, the default of such relative or other person is excused by the Office, and the required accounting is thereafter submitted.

§ 725.540 Transfer of accumulated benefit payments.

A representative payee who has conserved or invested funds from payments under Part B of Title IV of the Act certified to him on behalf of a beneficiary shall, upon direction of the Office, transfer any such funds (including interest earned from investment of such funds) to a successor payee appointed by the Office, or, at the option of the Office, shall transfer such funds, including interest, to the Office for recertification to a successor payee or to the beneficiary.

MEDICAL BENEFITS

§ 725.551 Availability of medical benefits.

A responsible operator, its insurance carrier, or the Secretary, as the case may be, shall furnish such medical, surgical, and other attendance or treatment, nurse and hospital service, medicine, crutches, and apparatus, for such period as the nature of a miner's pneumoconiosis and related disability, or the process of recovery may require.

§ 725.552 Approved physicians.

The Office shall designate authorized physicians who are to render medical care under the Act. The names of physicians so designated in the community shall be made available to employees through postings or in such other form as the Secretary may prescribe.

§ 725.553 Miner's physician.

(a) A miner shall have the right to choose an attending physician authorized by the Office to provide medical care under the Act. If, due to the nature of the disability, the miner is unable to select his physician and the nature of the disability requires immediate medical treatment and care, the responsible operator or the Office, as the case may be shall select a physician for him.

(b) The Office shall actively supervise the medical care rendered to disabled miners, shall require periodic reports as to the medical care being rendered to disabled miners, and shall have authority to determine the necessity, character, and sufficiency of any medical aid furnished or to be furnished. The Director of the Office may, on his own initiative or at the request of the responsible operator, order a change of physicians or hospitals when in his judgment such change is desirable or necessary in the interest of the miner. Change of physicians at the request of miners shall be permitted only upon a showing made to the Office that the attending physician is unable or unwilling to provide adequate medical care and treatment for the miner or that the physician is in some way not in compliance with the rules governing physicians contained in this Part 725.

§ 725.554 Fees for medical services.

(a) Fees for medical services contemplated in this subpart shall be paid by a responsible operator if he is a self-insurer or by his insurance carrier. In the event there is no financially responsible operator, fees shall be paid by the Office.

(b) A miner shall not be entitled to recover any amount expended by him for medical treatment or services unless (1) he shall have requested the responsible operator or insurance carrier or the Office to furnish or authorize such services or to authorize provision of such services by the physician selected by the miner, and the operator, the carrier, or the Office shall have refused or neglected to do so; or unless (2) the nature of the disability required such treatment and services and the operator, carrier, or the Office, with knowledge thereof, refused or neglected to provide or authorize the same. No claim for medical or surgical treatment shall be valid and enforceable, as against operator, carrier, or the Secretary, unless within 10 days following the first treatment the physician giving

such treatment furnishes to the operator, carrier, or the Office a report of such treatment on a form prescribed by the

medical or surgical treatment, or to an examination by a physician selected by the operator, carrier, or the Office, a

regulating physicians' charges in respect of a black lung benefits claim.

This part shall become effective No-

such treatment furnishes to the operator, carrier, or the Office a report of such treatment on a form prescribed by the Office. The Director of the Office may, however, excuse the failure to furnish such report within 10 days when he finds it to be in the interest of justice to do so, and he or a deputy commissioner may, upon application by a party in interest, make an award for the reasonable value of such medical or surgical treatment so obtained by the miner. If at any time the miner unreasonably refuses to submit to medical or surgical treatment, or to an examination by a physician selected by the operator, carrier, or the Office, a deputy commissioner may, by order, suspend the payment of further benefits during such time as such refusal continues, and no benefits shall be paid at any time during the period of such suspension, unless the circumstances justified the refusal.

(c) Fees for medical services shall be subject to the provisions of this part regulating physicians' charges in respect of a black lung benefits claim.

This part shall become effective November 30, 1972.

Signed at Washington, D.C., this 27th day of November 1972.

R. J. GRUNEWALD,
Assistant Secretary for Employment Standards.

with respect to payment of wage rates and fringe benefits based on those agreed upon for substantially the same services

of Labor for Employment Standards, and their authorized representatives.

(2) "Administrator" means the Dep-

cation. Section 4(c) provides that no such contractor or subcontractor shall pay any employee employed on the contract work less than the wages and fringe

ployed, would be determined as provided in 5 U.S.C. 5341. Unless otherwise specified in the wage determination, the wage rates and fringe benefits so determined

proposed contract will succeed, and if such incumbent contractor is furnishing such services through the use of service employees whose wage rates and fringe

XUM

Title 29—LABOR

Subtitle A—Office of the Secretary of Labor

PART 4—LABOR STANDARDS FOR FEDERAL SERVICE CONTRACTS

Subpart A—Service Contract Labor Standards Provisions and Procedures

MISCELLANEOUS AMENDMENTS

Pusuant to section 4 of the Service Contract Act of 1965 as amended (79 Stat. 1034, 86 Stat. 789; 41 U.S.C. 351 et seq.) and Secretary of Labor's Order No. 13-71 (36 F.R. 8755), amendments are hereby made to 29 CFR Part 4 as set forth below in order to conform the provisions of Part 4 to the provisions of such Act as amended by Public Law 92-473, 86 Stat. 789, enacted and effective October 9, 1972. These amendments to Part 4 also make editorial changes in references to officers and organizational components of the Department of Labor performing functions under the part so that they may be identified by their correct titles under the current organizational structure of the Department.

Since these amendments implement amendments to such Act having application to Government procurement procedures for public contracts, which statutory amendments are already in effect, and reflect currently effective revisions in the organization of the Department of Labor, I find that notice and public procedure on these amendments and delay in effective date as provided in 5 U.S.C. 553 would be contrary to the public interest. These amendments shall, therefore, be effective immediately, and shall be applicable, to the extent consistent with law and established procurement procedures, from the effective date of Public Law 92-473. Interested persons shall, notwithstanding, be afforded opportunity until December 31, 1972 to present any written data, views, or arguments concerning these amendments to the Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210 for consideration in the same manner as if such amendments were being proposed for adoption. If, upon review of the comments so received, it is concluded that any of them warrant changes in these amendments as adopted, the provisions of these amendments will be further amended accordingly.

Part 4 of Subtitle A of Title 29 of the Code of Federal Regulations is amended as follows:

1. Subpart A is amended by adding, after § 4.1, new §§ 4.1a, 4.1b, and 4.1c to read as follows:

§ 4.1a The Act as amended.

(a) The provisions of the Act (see §§ 4.102-4.103) were amended, effective October 9, 1972, by Public Law 92-473, signed into law by the President on that date. By virtue of amendments made to paragraphs (1) and (2) of section 2(a) and the addition to section 4 of a new subsection (c), the compensation standards of the Act (see §§ 4.159-4.164) were revised to impose on successor contractors certain requirements (see § 4.1c) with respect to payment of wage rates and fringe benefits based on those agreed upon for substantially the same services for the same location in collective bargaining agreements entered into by their predecessor contractors (unless such agreed compensation is substantially at variance with that locally prevailing or the agreement was not negotiated at arm's length), and to require the Secretary of Labor to give effect to the provisions of such collective bargaining agreements in his wage determinations under section 2 of the Act. A new paragraph (5) added to section 2(a) of the Act requires a statement in the government service contract of the rates that would be paid by the contracting agency in the event of its direct employment of those classes of service employees to be employed on the contract work who, if directly employed by the agency, would receive wages determined as provided in 5 U.S.C. 5341. The Secretary of Labor is directed to give due consideration to such rates in determining minimum monetary wages and fringe benefits under the Act's provisions. Other provisions of the 1972 amendments include the addition of a new section 10 to the Act to insure extension of coverage by wage determinations of the Secretary to substantially all service contracts subject to section 2(a) of the Act at the earliest administratively feasible time; an amendment to section 4(b) of the Act to provide, in addition to the conditions previously specified for issuance of administrative limitations, variations, tolerances, and exemptions (see § 4.123), that administrative action in this regard shall be taken only in special circumstances where the Secretary determines that it is in accord with the remedial purpose of the Act to protect prevailing labor standards; and a new subsection (d) added to section 4 of the Act providing for the award of service contracts for terms not more than 5 years with provision for periodic adjustment of minimum wage rates and fringe benefits payable thereunder by the issuance of wage determinations by the Secretary of Labor during the term of the contract. A further amendment to section 5(a) of the Act requires the names of contractors found to have violated the Act to be submitted for the debarment list (see § 4.188) not later than 90 days after the hearing examiner's finding of violation unless the Secretary recommends relief, and provides that such recommendations shall be made only because of unusual circumstances.

(b) Included in this Subpart A and in Part 6 of this subtitle are provisions to give effect to the amendments mentioned in paragraph (a) of this section. Until editorial revisions of other provisions of this part can be made to conform to the Act as amended, such provisions should be read in conjunction with the statutory amendments referred to in paragraph (a) of this section.

§ 4.1b Definitions and use of terms.

(a) As used in this part, unless otherwise indicated by the context—

(1) "Secretary" includes the Secretary of Labor, the Assistant Secretary of Labor for Employment Standards, and their authorized representatives.

(2) "Administrator" means the Deputy Assistant Secretary for Employment Standards in the Employment Standards Administration of the Department of Labor who is also Administrator of the Wage and Hour Division, or his authorized representative as set forth in this part. In the absence of the Deputy Assistant Secretary/Wage-Hour Administrator, the Deputy Administrator of the Wage and Hour Division/Director of Office of Wage and Compensation Programs is designated to act for him under this part. Except as otherwise provided in this part, the Assistant Administrator is the authorized representative of the Administrator for the performance of functions relating to the making and effectuation of wage determinations under the Service Contract Act of 1965, as amended, and this part.

(3) "Office of Special Wage Standards" or "OSWS" means the organizational unit in the Employment Standards Administration to which is assigned the performance of functions of the Secretary under the Service Contract Act of 1965 as amended.

(4) "Contract" includes any contract subject wholly or in part to provisions of the Service Contract Act of 1965 as amended, and any subcontract of any tier thereunder. (See §§ 4.107-4.134.)

(5) "Contractor" includes a subcontractor whose subcontract is subject to provisions of the Act.

(6) "Wage determination" includes any determination of minimum wage rates or fringe benefits made pursuant to the provisions of section 2(a) of the Act for application to the employment in a locality of any class or classes of service employees in the performance of any contract in excess of $2,500 which is subject to the provisions of the Service Contract Act of 1965.

(7) "Act," "Service Contract Act," or "Service Contract Act of 1965" shall mean the Service Contract Act of 1965 as amended by Public Law 92-473, 86 Stat. 789, enacted and effective October 9, 1972.

(b) Because of organizational changes in the Department of Labor (see Secretary of Labor's Order No. 13-71, 36 F.R. 8755), any references in provisions of this part to the Workplace Standards Administration should be read as referring to the Employment Standards Administration, and references to the Office of Government Contracts Wage Standards should be read as referring to the Office of Special Wage Standards, until such provisions are revised to reflect such organizational changes.

§ 4.1c Payment of minimum compensation based on collectively bargained wage rates and fringe benefits applicable to employment under predecessor contract.

Section 4(c) of the Service Contract Act of 1965 as amended provides special minimum wage and fringe benefit requirements applicable to every contractor and subcontractor under a contract which succeeds a contract subject to the Act and under which substantially the same services as under the predecessor contract are furnished for the same location. Section 4(c) provides that no such contractor or subcontractor shall pay any employee employed on the contract work less than the wages and fringe benefits provided for in a collective bargaining agreement as a result of arms-length negotiations, to which such service employees would have been entitled if they were employed under the predecessor contract, including accrued wages and fringe benefits and any prospective increases in wages and fringe benefits provided for in such collective bargaining agreement. If, however, the Secretary finds after a hearing in accordance with the regulations set forth in § 4.10 of this subpart that in any of the foregoing circumstances such wages and fringe benefits are substantially at variance with those which prevail for services of a character similar in the locality, the payment obligations of such contractor or subcontractor with respect thereto shall not apply in such circumstances.

2. Section 4.3 is revised to read as follows:

§ 4.3 Register of wage determinations.

(a) The minimum monetary wages and fringe benefits for service employees which the Act requires to be specified in contracts and bid specifications subject to section 2(a) thereof will be set forth in wage determinations issued by the Administrator as an orderly series constituting a register of such minimum wages and fringe benefits. The register shall include, as soon as administratively feasible, wage determinations applicable to all contracts subject to section 2(a) of the Act, and will include in any event, for the localities in which services under such contracts are to be furnished, wage determinations applicable to all contracts entered into during the following years under which more than the stated number of service employees are to be employed: (1) Fiscal year ending June 30, 1973—25; (2) ending June 30, 1974—20; (3) ending June 30, 1975—15; (4) ending June 30, 1976—10; (5) ending June 30, 1977, and for each fiscal year thereafter—5.

(b) Such wage determinations will set forth for the various classes of service employees to be employed in furnishing services under such contracts in the several localities, minimum monetary wage rates to be paid and minimum fringe benefits to be furnished them during the periods when they are engaged in the performance of such contracts, including, where appropriate under the Act, provisions for adjustments in such minimum rates and benefits to be placed in effect under such contracts at specified future times. The wage rates and fringe benefits set forth in such wage determinations shall be determined in accordance with the provisions of sections 2(a) (1), (2), and (5), 4(c) and 4(d) of the Act from those prevailing in the locality for such employees and from pertinent collective bargaining agreements, with due consideration of the rates that would be paid for direct Federal employment of any classes of such employees whose wages, if federally employed, would be determined as provided in 5 U.S.C. 5341. Unless otherwise specified in the wage determination, the wage rates and fringe benefits so determined for any class of service employees to be engaged in furnishing covered contract services in a locality shall be made applicable by contract to all service employees of such class employed to perform such services in the locality under any contract subject to section 2(a) of the Act which is entered into thereafter and before such determination has been rendered obsolete by a withdrawal, modification, or supersedure.

(c) Wage determinations included in the register will be available for public inspection during business hours at the Office of Special Wage Standards in the Employment Standards Administration, U.S. Department of Labor, and copies will be made available on request at regional offices of the Administration.

3. Section 4.4 is revised to read as follows:

§ 4.4 Notice of intention to make a service contract.

(a) Not less than 30 days prior to any invitation for bids, request for proposals, or commencement of negotiations for any contract exceeding $2,500 which may be subject to the Act, the contracting agency shall file with the Office of Special Wage Standards, Employment Standards Administration, Department of Labor, its notice of intention to make a service contract. Such notice shall be submitted on Standard Form 98, Notice of Intention to Make a Service Contract, which shall be completed in accordance with the instructions provided and shall be supplemented by the information required under paragraphs (b) and (c) of this section. Supplies of Standard Form 98 are available in all GSA supply depots under stock number 7540-926-8972.

(b) The contracting agency shall file with its Notice of Intention to Make a Service Contract (SF-98) a statement in writing containing the following information concerning the service employees expected by the agency to be employed by the contractor and any subcontractors in performing the contract:

(1) The number of such employees of all classes, or a statement indicating whether such number will or will not exceed the number for which a wage determination is mandatory under the provisions of § 4.3(a); and

(2) A listing of those classes of service employees expected to be employed under the contract which, if employed by the agency, would be subject to the wage provisions of 5 U.S.C. 5341, together with a specification of the rates of wages and fringe benefits that would be paid by the Government to employees of each such class if such statute were applicable to them. (Under section 2(a)(5) of the Act and § 4.6 of this part the inclusion of such a statement in the service contract is also required.)

(c) If the services to be furnished under the proposed contract will be substantially the same as services being furnished for the same location by an incumbent contractor whose contract the proposed contract will succeed, and if such incumbent contractor is furnishing such services through the use of service employees whose wage rates and fringe benefits are the subject of one or more collective bargaining agreements, the contracting agency shall file with its Notice of Intention to Make a Service Contract (SF-98) a copy of each such collective bargaining agreement together with any related documents specifying the wage rates and fringe benefits currently or prospectively payable under such agreement. If such services are being furnished for more than one location and the collectively bargained wage rates and fringe benefits are different for different locations or do not apply for one or more locations, the agency shall identify the locations to which such agreements have application. In the event that the agency has reason to believe that any such collective bargaining agreement was not entered into as a result of arms-length negotiations, a full statement of the facts so indicating shall be transmitted with the copy of such agreement. If the agency has information indicating that any such collectively bargained wage rates and fringe benefits are substantially at variance with those prevailing for services of a similar character in the locality, the agency shall so advise the Office of Special Wage Standards and, if it believes a hearing thereon pursuant to section 4(c) of the Act is warranted, shall file its request for such hearing pursuant to § 4.10 of this part at the time of filing the Notice of Intention to Make a Service Contract (Form SF-98).

(d) Any Standard Form 98 submitted by a contracting agency without the information required under paragraphs (b) and (c) of this section will be returned to the agency for further action.

(e) If exceptional circumstances prevent the filing of the notice of intention and supplemental information required by this section on a date at least 30 days prior to any invitation for bids, request for proposals, or commencement of negotiations for a proposed contract subject to section 2(a) of the Act, the notice shall be submitted to the Office of Special Wage Standards as soon as practicable with a detailed explanation of the special circumstances which prevented timely submission.

4. Section 4.5 is revised to read as follows:

§ 4.5 Contract specification of determined minimum wages and fringe benefits.

(a) Any contract agreed upon in excess of $2,500 shall contain an attachment specifying the minimum wages and fringe benefits for service employees to be employed thereunder, as determined in any applicable currently effective wage determination made and included in the register as provided in § 4.3, including any expressed in any document referred to in subparagraph (1) or (2) of this paragraph:

(1) Any communication from the Office of Special Wage Standards, Employment Standards Administration, Depart-

V37-231 NOV 30 72

ment of Labor, responsive to the notice required by § 4.4; or

where necessary, its power to negotiate, its power to pay any necessary additional costs, and its power under any provision

fication or reclassification which is, in fact, conformable, the contracting officer shall submit the question, together with

thorized representative determines that the collective bargaining agreement applicable to service employees employed under the predecessor contract was not

an appropriate officer of the Labor Department, decides may be necessary to pay underpaid employees. Additionally, any failure to comply with the require-

copy of the collective bargaining agreement. Such report shall be made upon commencing performance of the contract, in the case of collective bargain-

V3

ment of Labor, responsive to the notice required by § 4.4; or

(2) Any revision of the register by a wage determination issued prior to the award of the contract or contracts which specifies minimum wage rates or fringe benefits for classes of service employees whose wages or fringe benefits were not previously covered by wage determinations in the register, or which changes previously determined minimum wage rates and fringe benefits for service employees employed on covered contracts in the locality. However, revisions received by the Federal agency later than 10 days before the opening of bids, in the case of contracts entered into pursuant to competitive bidding procedures, shall not be effective if the Federal agency finds that there is not a reasonable time still available to notify bidders of the revision.

(b)(1) The following exemptions from the compensation requirements of section 2(a) of the Act apply, subject to the limitations set forth in subparagraphs (2), (3), and (4) of this paragraph: To avoid serious impairment of the conduct of Government business it has been found necessary and proper to provide exemption (i) from the determined wage and fringe benefits section of the Act (section 2(a) (1), (2)) but not the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended (section 2 (b) of this Act), of all contracts for which no such wage or fringe benefit has been determined for any class of service employees to be employed thereunder; and (ii) from the fringe benefits section (section 2(a)(2)) of all contracts and of all classes of service employees employed thereunder if no such benefits have been determined for any such class of service employees.

(2) The exemptions provided in subparagraph (1) of this paragraph, which were adopted pursuant to section 4(b) of the Act prior to its amendment by Public Law 92–473, do not extend to undetermined wages or fringe benefits in contracts for which one or more, but not all, classes of service employees are the subject of an applicable wage determination. The procedure for determination of wage rates and fringe benefits for any classes of service employees engaged in performing such contracts whose wages and fringe benefits are not specified in a wage determination included in the register is set forth in § 4.6(b).

(3) The exemptions provided in subparagraph (1) of this paragraph do not apply to any contract for which section 10 of the Act as amended and § 4.3 of this part require an applicable wage determination.

(4) The exemptions provided in subparagraph (1) of this paragraph do not exempt any contract from the application of the provisions of section 4(c) of the Act as amended.

(c) If the notice of intention required by § 4.4 is not filed with the required supporting documents within the time provided in such section, the contracting agency shall exercise any and all of its power that may be needed (including, where necessary, its power to negotiate, its power to pay any necessary additional costs, and its power under any provision of the contract authorizing changes) to include in the contract any wage determinations communicated to it within 30 days of the filing of such notice or of the discovery by the Employment Standards Administration, U.S. Department of Labor, of such omission.

5. Section 4.6 is amended as follows: Paragraph (b) is revised and divided into two subparagraphs and a new subparagraph (3) is added; paragraph (c) is revised; paragraph (d) is revised and the revised text designated as subparagraph (1) and a new subparagraph (2) is added; paragraph (f) is amended by changing the number of the part of this title referred to therein; the first sentence of paragraph (g) is revised; the text of paragraph (j) is designated as subparagraph (1) and a new subparagraph (2) is added; the text of paragraph (k) is designated as subparagraph (1) and a new subparagraph (2) is added; in paragraph (m), subparagraph (9), the text preceding subdivision (i) is revised; and in paragraph (n) the text preceding subparagraph (1) is revised. As amended, § 4.6 reads as follows:

§ 4.6 Labor standards clauses for Federal service contracts exceeding $2,500.

The clauses set forth in the following paragraphs shall be included in every contract (and any bid specification therefor) entered into by the United States or the District of Columbia, in excess of $2,500, the principal purpose of which is to furnish services through the use of service employees:

(a) Service Contract Act of 1965: This contract, to the extent that it is of the character to which the Service Contract Act of 1965 (79 Stat. 1034, 41 U.S.C. 351) applies, is subject to the following provisions and to all other applicable provisions of the Act and regulations of the Secretary of Labor thereunder (this Part 4).

(b)(1) Each service employee employed in the performance of this contract by the contractor or any subcontractor shall be paid not less than the minimum monetary wage and shall be furnished fringe benefits in accordance with the wages and fringe benefits determined by the Secretary of Labor or his authorized representative, as specified in any attachment to this contract.

(2) If there is such an attachment, any class of service employees which is not listed therein, but which is to be employed under this contract, shall be classified by the contractor so as to provide a reasonable relationship between such classifications and those listed in the attachment, and shall be paid such monetary wages and furnished such fringe benefits as are determined by agreement of the interested parties, who shall be deemed to be the contracting agency, the contractor, and the employees who will perform on the contract or their representatives. If the interested parties do not agree on a classification or reclassification which is, in fact, conformable, the contracting officer shall submit the question, together with his recommendation, to the Office of Special Wage Standards, ESA, of the Department of Labor for final determination. Failure to pay such employees the compensation agreed upon by the interested parties or finally determined by the Administrator or his authorized representative shall be a violation of this contract. No employee engaged in performing work on this contract shall in any event be paid less than the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended.

(3) If, as authorized pursuant to section 4(d) of the Service Contract Act of 1965 as amended, the term of this contract is more than 1 year, the minimum monetary wages and fringe benefits required to be paid or furnished thereunder to service employees shall be subject to adjustment after 1 year and not less often than once every 2 years, pursuant to wage determinations to be issued by the Employment Standards Administration of the Department of Labor as provided in such Act.

(c) The contractor or subcontractor may discharge the obligation to furnish fringe benefits specified in the attachment or determined conformably thereto by furnishing any equivalent combinations of fringe benefits, or by making equivalent or differential payments in cash in accordance with the applicable rules set forth in Subparts B and C of this part, and not otherwise.

(d)(1) In the absence of a minimum wage attachment for this contract, neither the contractor nor any subcontractor under this contract shall pay any of his employees performing work under the contract (regardless of whether they are service employees) less than the minimum wage specified by section 6(a)(1) of the Fair Labor Standards Act of 1938. Nothing in this provision shall relieve the contractor or any subcontractor of any other obligation under law or contract for the payment of a higher wage to any employee.

(2) If this contract succeeds a contract, subject to the Service Contract Act of 1965 as amended, under which substantially the same services were furnished and service employees were paid wages and fringe benefits provided for in a collective bargaining agreement, then in the absence of a minimum wage attachment for this contract neither the contractor nor any subcontractor under this contract shall pay any service employee performing any of the contract work less than the wages and fringe benefits, provided for in such collective bargaining agreements, to which such employee would be entitled if employed under the predecessor contract, including accrued wages and fringe benefits and any prospective increases in wages and fringe benefits provided for under such agreement. No contractor or subcontractor under this contract may be relieved of the foregoing obligation unless the Secretary of Labor or his authorized representative determines that the collective bargaining agreement applicable to service employees employed under the predecessor contract was not entered into as a result of arms-length negotiations, or finds, after a hearing as provided in Labor Department regulations, 29 CFR 4.10 that the wages and fringe benefits provided for in such agreement are substantially at variance with those which prevail for services of a character similar in the locality.

(e) The contractor and any subcontractor under this contract shall notify each service employee commencing work on this contract of the minimum monetary wage and any fringe benefits required to be paid pursuant to this contract, or shall post a notice of such wages and benefits in a prominent and accessible place at the worksite, using such poster as may be provided by the Department of Labor.

(f) The contractor or subcontractor shall not permit any part of the services called for by this contract to be performed in buildings or surroundings or under working conditions provided by or under the control or supervision of the contractor or subcontractor which are unsanitary or hazardous or dangerous to the health or safety of service employees engaged to furnish these services, and the contractor or subcontractor shall comply with the safety and health standards applied under Part 1925 of this title.

(g) The contractor and each subcontractor performing work subject to the Act shall make and maintain for 3 years from the completion of the work records containing the information specified in subparagraphs (1) through (5) of this paragraph for each employee subject to the Act and shall make them available for inspection and transcription by authorized representatives of the Employment Standards Administration of the U.S. Department of Labor.

(1) His name and address.

(2) His work classification or classifications, rate or rates of monetary wages and fringe benefits provided, rate or rates of fringe benefit payments in lieu thereof, and total daily and weekly compensation.

(3) His daily and weekly hours so worked.

(4) Any deductions, rebates, or refunds from his total daily or weekly compensation.

(5) A list of monetary wages and fringe benefits for those classes of service employees not included in the minimum wage attachment to this contract, but for which such wage rates or fringe benefits have been determined by the interested parties or by the Administrator or his authorized representative pursuant to the labor standards clause in paragraph (b) of this section. A copy of the report required by the clause in paragraph (k)(1) of this section shall be deemed to be such a list.

(h) The contracting officer shall withhold or cause to be withheld from the Government prime contractor under this or any other Government contract with the prime contractor such sums as he, or an appropriate officer of the Labor Department, decides may be necessary to pay underpaid employees. Additionally, any failure to comply with the requirements of these clauses relating to the Service Contract Act of 1965 may be grounds for termination of the right to proceed with the contract work. In such event, the Government may enter into other contracts or arrangements for completion of the work, charging the contractor in default with any additional cost.

(i) The contractor agrees to insert these clauses relating to the Service Contract Act of 1965 in all subcontracts. The term "contractor" as used in these clauses in any subcontract, shall be deemed to refer to the subcontractor, except in the term "Government Prime Contractor."

(j)(1) As used in these clauses relating to the Service Contract Act of 1965, the term "service employee" means guards, watchmen, and any person engaged in a recognized trade or craft, or other skilled mechanical craft, or in unskilled, semiskilled, or skilled manual labor occupations; and any other employee including a foreman or supervisor in a position having trade, craft, or laboring experience as the paramount requirement; and shall include all such persons regardless of any contractual relationship that may be alleged to exist between a contractor or subcontractor and such persons.

(2) The following classes of service employees expected to be employed under the contract with the Government would be subject, if employed by the contracting agency, to the provisions of 5 U.S.C. 5341 and would, if so employed, be paid not less than the following rates of wages and fringe benefits:

Employee class	*Monetary wage-fringe benefits*
----------	----------
----------	----------
----------	----------

(k)(1) If there is a wage determination attachment to this contract and one or more classes of service employees which are not listed thereon are to be employed under the contract, the contractor shall report to the contracting officer the monetary wages to be paid and the fringe benefits to be provided each such class of service employee. Such report shall be made promptly as soon as such compensation has been determined as provided in the clause in paragraph (b) of this section.

(2) If wages to be paid or fringe benefits to be furnished any service employees employed by the Government prime contractor or any subcontractor under the contract are provided for in a collective bargaining agreement which is or will be effective during any period in which the contract is being performed, the Government prime contractor shall report such fact to the contracting officer, together with full information as to the application and accrual of such wages and fringe benefits, including any prospective increases, to service employees engaged in work on the contract, and a copy of the collective bargaining agreement. Such report shall be made upon commencing performance of the contract, in the case of collective bargaining agreements effective at such time, and in the case of such agreements or provisions or amendments thereof effective at a later time during the period of contract performance, such agreements shall be reported promptly after negotiation thereof.

(l) All interpretations of the Service Contract Act of 1965 expressed in Subpart C of this part, are hereby incorporated by reference in this contract.

(m) These clauses relating to the Service Contract Act of 1965 shall not apply to the following:

(1) Any contract of the United States or District of Columbia for construction, alteration and/or repair, including painting and decorating of public buildings or public works;

(2) Any work required to be done in accordance with the provisions of the Walsh-Healey Public Contracts Act (49 Stat. 2036);

(3) Any contract for the carriage of freight or personnel by vessel, airplane, bus, truck, express, railway line, or oil or gas pipeline where published tariff rates are in effect, or where such carriage is subject to rates covered by section 22 of the Interstate Commerce Act;

(4) Any contract for the furnishing of services by radio, telephone, telegraph, or cable companies, subject to the Communications Act of 1934;

(5) Any contract for public utility services, including electric light and power, water, steam, and gas;

(6) Any employment contract providing for direct services to a Federal agency by an individual or individuals;

(7) Any contract with the Post Office Department, the principal purpose of which is the operation of postal contract stations.

(8) Any services to be furnished outside the United States. For geographic purposes, the "United States" is defined in section 8(d) of the Service Contract Act to include any State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Outer Continental Shelf Lands as defined in the Outer Continental Shelf Lands Act, American Samoa, Guam, Wake Island, Eniwetok Atoll, Kwajalein Atoll, Johnston Island. It does not include any other territory under the jurisdiction of the United States or any U.S. base or possession within a foreign country.

(9) Any of the following contracts exempted from all provisions of the Service Contract Act of 1965, pursuant to section 4(b) of the Act, which exemptions the Secretary of Labor, prior to amendment of such section by Public Law 92–473, found to be necessary and proper in the public interest or to avoid serious impairment of the conduct of Government business:

(i) Contracts entered into by the United States with common carriers for the carriage of mail by rail, air (except air star routes), bus, and ocean vessel,

HEARINGS PURSUANT TO SECTION 4(c) OF THE ACT

(1) or section 2(b)(1) of the Act, in accordance with the regulations in Part

for the attention of the Administrator, and must describe the evidence on which the applicant relies to show a substantial variance between the collectively bar-

tentative determination shall be given to all parties who have submitted matter for consideration or have otherwise made known their interest. Such notice shall

set forth in the decision, which shall have the finality accorded to a decision of the Secretary under the provisions of 41 U.S.C. 39. Such decision shall be filed

V 37 • 231 NOV 30 72 XUM
V 37

where such carriage is performed on regularly scheduled runs of the trains, airplanes, buses, and vessels over regularly established routes and accounts for an insubstantial portion of the revenue therefrom;

(ii) Any contract entered into by the U.S. Postal Service with an individual owner-operator for mail service where it is not contemplated at the time the contract is made that such owner-operator will hire any service employee to perform the services under the contract except for short periods of vacation time or for unexpected contingencies or emergency situations such as illness or accident.

(n) Notwithstanding any of the clauses in paragraphs (b) through (l) of this section, relating to the Service Contract Act of 1965, the following employees may be employed in accordance with the following variations, tolerances, and exemptions, which the Secretary of Labor, pursuant to section 4(b) of the Act prior to its amendment by Public Law 92-473, found to be necessary and proper in the public interest or to avoid serious impairment of the conduct of Government business:

(1)(i) Apprentices, student-learners, and workers whose earning capacity is impaired by age, physical, or mental deficiency or injury may be employed at wages lower than the minimum wages otherwise required by section 2(a)(1) or 2(b)(1) of the Service Contract Act of 1965, without diminishing any fringe benefits or cash payments in lieu thereof required under section 2(a)(2) of that Act, in accordance with the procedures prescribed for the employment of apprentices, student-learners, handicapped persons, and handicapped clients of sheltered workshops under section 14 of the Fair Labor Standards Act of 1938, in the regulations issued by the Administrator (Parts 520, 521, 524, and 525 of this title).

(ii) The Administrator will issue certificates under the Service Contract Act of 1965 for the employment of apprentices, student-learners, handicapped persons, or handicapped clients of sheltered workshops not subject to the Fair Labor Standards Act of 1938, or subject to different minimum rates of pay under the two acts, authorizing appropriate rates of minimum wages (but without changing requirements concerning fringe benefits or supplementary cash payments in lieu thereof), applying procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act of 1938 (Parts 520, 521, 524, and 525 of this title).

(iii) The Administrator will also withdraw, annul, or cancel such certificates in accordance with the regulations in Parts 525 and 528 of Title 29 of the Code of Federal Regulations.

(2) An employee engaged in an occupation in which he customarily and regularly receives more than $20 a month in tips may have the amount of his tips credited by his employer against the minimum wage required by section 2(a)(1) or section 2(b)(1) of the Act, in accordance with the regulations in Part 531 of this title: *Provided, however,* That the amount of such credit may not exceed 80 cents per hour.

6. Section 4.7 is amended by deleting the parenthetical reference and the sentence following it in the contract clause. As amended, § 4.7 reads as follows:

§ 4.7 Labor standards clause for Federal service contracts not exceeding $2,500.

Every contract with the Federal Government which is not in excess of $2,500 but has as its principal purpose the furnishing of services through the use of service employees shall contain the following clause:

Service Contract Act of 1965. Except to the extent that an exemption, variation or tolerance would apply pursuant to 29 CFR 4.6 if this were a contract in excess of $2,500, the contractor and any subcontractor hereunder shall pay all of his employees engaged in performing work on the contract not less than the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended. All regulations and interpretations of the Service Contract Act of 1965 expressed in 29 CFR Part 4 are hereby incorporated by reference in this contract.

7. Section 4.8 is revised to read as follows:

§ 4.8 Notice of awards.

Whenever an agency of the United States or the District of Columbia shall award a contract which may be in excess of $2,500 subject to the Act, it shall furnish the Office of Special Wage Standards, ESA, an original and one copy of Standard Form 99, Notice of Award of Contract. The form shall be completed as follows:

(a) Items 1 through 7 and 12 and 13: Self-explanatory;

(b) Item 8: Enter the notation "Service Contract Act of 1965;"

(c) Item 9: Leave blank;

(d) Item 10: (1) Enter the notation "Major Category," and indicate beside this entry the general service area into which the contract falls (e.g., food services, grounds maintenance, computer services, installation or facility support services, custodial-janitorial service, garbage collection, insect and rodent control, laundry and drycleaning services), and (2) enter the heading "Detailed Description," and following this entry set forth a detailed description of the services to be performed; and

(e) Item 11: Enter the dollar amount of the contract, or the estimated dollar value with the notation "estimated" (if the exact amount is not known). If neither the exact nor the estimated dollar value is known, enter "indefinite," or "not to exceed $----------." Supplies of Standard Form 99 are available in all GSA supply depots under stock number 7540-634-4049.

8. Subpart A is further amended by adding at the end thereof a new center heading and a new § 4.10 to read as follows:

HEARINGS PURSUANT TO SECTION 4(c) OF THE ACT

§ 4.10 Provisions for hearing.

(a) *Statutory provision.* Under section 4(c) of the Act, and under wage determinations made as provided in section 2(a)(1) and (2) of the Act, contractors and subcontractors performing certain contracts subject to the Act may be obliged to pay to service employees employed on the contract work wages and fringe benefits not less than those to which they would be entitled if they were employed on like work under a predecessor contract for which the wages and fringe benefits of service employees were governed by a collective bargaining agreement. (See §§ 4.1a, 4.1c, 4.3(b), 4.6(b), 4.6(d)(2).) Section 4(c) provides, however, that "such obligations shall not apply if the Secretary finds after a hearing in accordance with regulations adopted by the Secretary that such wages and fringe benefits are substantially at variance with those which prevail for service of a character similar in the locality."

(b) *Prerequisites for hearing.* (1) No hearing on the issue whether monetary wage rates and fringe benefits otherwise payable to service employees by virtue of the provisions of section 4(c) of the Act are substantially at variance with those which prevail for services of a character similar in the locality will be provided unless it appears from information available to the Administrator or submitted with a request for such a hearing that evidence showing, prima facie, that such a substantial variance exists will be presented.

(2) When it appears from the information available to him or submitted with such a request that such evidence sufficient to warrant an administrative determination of the issue will be presented, the Administrator on his own motion or on application of any person affected may by order refer the issue to a hearing officer for final determination in a proceeding held as provided in this section. As provided in section 4(a) of the Act, the provisions of sections 4 and 5 of the Walsh-Healey Public Contracts Act (41 U.S.C. 38, 39) shall be applicable to such proceeding.

(3) The Administrator shall designate as hearing officer for a proceeding under this section an administrative law judge assigned for the purpose by the Chief Administrative Law Judge of the Department.

(4) A request for a hearing under this section may be made by the contracting agency or other person affected or interested including contractors or prospective contractors and associations of contractors, representatives of employees or their unions, and other interested governmental agencies. Such a request must be submitted in writing to the Office of Special Wage Standards, Employment Standards Administration, Department of Labor, Washington, D.C. 20210

for the attention of the Administrator, and must describe the evidence on which the applicant relies to show a substantial variance between the collectively bargained rates or fringe benefits in question and the wages and fringe benefits prevailing for services of a similar character in the locality. If the information prerequisite for hearing as described in subparagraph (1) of this paragraph is not submitted with the request, the Administrator may deny the request or request supplementary information, in his discretion. No particular form for submission of a request under this section is prescribed.

(c) *Opportunity to be heard.* (1) In any proceeding under this section opportunity to be heard will be afforded to persons who may be affected by determination of the issue, including the agency whose contract is involved, any contractor or subcontractor performing on such contract or known to be desirous of bidding thereon or performing services thereunder, any unions or other authorized representatives of service employees employed or who may be expected to be employed by such a contractor or subcontractor on the contract work, and any other known interested persons. Such opportunity will be afforded at the earliest possible time after referral to the hearing officer and the proceeding will be expedited to completion and a final determination made on the issue as soon as possible thereafter.

(2) Upon referral of the issue to the hearing officer by the Administrator, written notice shall be given to the persons who may be affected by the determination (see subparagraph (1) of this paragraph) specifying a place where and a period (not less than 5 and not more than 10 days) within which they may submit in writing any factual evidence, data, views, or arguments on the issue which they desire to have considered by the hearing officer. Such notice shall also make provision for furnishing copies of such documents to all parties and specify reasonable but expeditious time limits, not more than 10 days in the absence of exceptional circumstances, within which each of the interested persons may thereafter review and respond, if desired, in writing to any matter submitted by the others. Such notice shall, whenever practicable, be included in the Administrator's order referring the matter to the hearing officer, and if not so included shall be given by the hearing officer promptly upon his assignment to the case. The order and notice shall be served upon the persons interested by certified mail or in such other manner as will provide record proof or acknowledgment of receipt by such persons.

(3) Upon completion of the period for review and comment by interested persons on matter submitted by other interested persons the hearing officer shall forthwith review, with such assistance as may be made available by the Administrator, all material submitted and, after evaluating the same, shall make a tentative determination on the issue. Prompt notice in writing of his tentative determination shall be given to all parties who have submitted matter for consideration or have otherwise made known their interest. Such notice shall set an early date and a place at which such parties may appear before the hearing officer for resolution on an informal basis or through agreement, if possible, of any areas of conflict between them which may appear from the materials presented to the hearing officer, and for agreement, if possible, or for decision by the hearing officer as to the scope and nature of any further hearing that may be required for the presentation by any party of evidence and argument on issues that cannot be resolved by the hearing officer with agreement of the parties. Service of the notice on the parties shall be made as provided in subparagraph (2) of this paragraph. All procedure set forth in this subparagraph (3), including hearing of the parties informally pursuant to such notice, shall be completed not less than 10 days after the final date for submission of materials in writing by the parties as provided under subparagraph (2) of this paragraph.

(4) If as a result of the informal hearing provided as set forth in subparagraph (3) of this paragraph there is agreement among the parties that no further hearing is necessary to supplement the written evidence and the views and arguments that have been presented to the hearing officer the hearing officer shall forthwith render his final decision.

(5) If as a result of the informal hearing provided as set forth in subparagraph (3) of this paragraph a further hearing, limited to matters remaining in controversy among the parties or to the presentation of other evidence deemed necessary by parties to a fair hearing of their contentions, is ordered by the hearing officer, he shall set a place and an early time therefor, not later than 5 days after the date of such informal hearing, and, after consultation with the parties, set reasonable guidelines and limitations for the presentations to be made at the hearing which will serve to expedite the proceeding to the extent possible consistent with adequate opportunity for the parties to be heard. At any such hearing there shall be a minimum of formality in the proceeding consistent with orderly procedure. The hearing officer may, to the extent appropriate, conduct the hearing in accordance with procedures prescribed in Part 6 of this Subtitle A, and may exercise the powers of a hearing officer as set forth therein. If oral testimony is presented, it shall be stenographically reported and a transcript thereof filed, together with all written materials submitted and orders and notices issued in the proceeding (with evidence of service thereof), in a case file which shall constitute the hearing record. The hearing officer shall promptly and not more than 5 days after completion of the hearing under this paragraph, render his decision.

(d) *Decision of hearing officer.* The hearing officer shall render a decision as provided in paragraph (c) (4) or (5) of this section based on findings of fact set forth in the decision, which shall have the finality accorded to a decision of the Secretary under the provisions of 41 U.S.C. 39. Such decision shall be filed with the case record and copies shall be transmitted promptly to the parties and to the Administrator, who shall cause to be issued any necessary wage determinations in conformance thereto.

(Sec. 4, 79 Stat. 1035, as amended by 86 Stat. 789; 41 U.S.C. 353; Secretary of Labor's Order No. 13-71, 36 F.R. 8755)

Signed at Washington, D.C., this 27th day of November 1972.

R. J. GRUNEWALD,
Assistant Secretary for Employment Standards.

[FR Doc.72-20569 Filed 11-29-72;8:49 am]

PART 6—RULES OF PRACTICE FOR ADMINISTRATIVE PROCEEDINGS ENFORCING LABOR STANDARDS IN FEDERAL SERVICE CONTRACTS

Miscellaneous Amendments

Pursuant to section 4 of the Service Contract Act of 1965 as amended (79 Stat. 1034, 86 Stat. 789; 41 U.S.C. 351 et seq.) and Secretary of Labor's Order No. 13-71 (36 F.R. 8755), the rules of practice for administrative enforcement proceedings under such Act are hereby revised by amending 29 CFR Part 6 as set forth below, in order to bring such rules into conformity with amendments made to section 5(a) of such Act by section 4 of Public Law 92-473, 86 Stat. 790 as enacted and effective October 9, 1972, and in order to conform the titles of officers and organizational units of the Department of Labor referred to in such rules with the titles presently applicable under the current organization of the Department.

The provisions of 5 U.S.C. 553 with respect to notice of proposed rule making and public procedure thereon are not applicable to the amendments of these rules because they relate solely to agency organization, procedure, and practice concerning which no statute requires notice and hearing. I find that delay in effective date of these amendments would be contrary to the public interest because they are urgently needed to prescribe changes in procedures required by a statute already in effect and are necessary to correct existing references in the rules to titles of officers and organizational units of the Department which have ceased to be accurate. These amendments shall accordingly be effective upon publication in the FEDERAL REGISTER.

Part 6 of Subtitle A of Title 29 of the Code of Federal Regulations is amended as follows:

1. Section 6.2 is revised to read as follows:

§ 6.2 Definitions.

As used in this part:

(a) "Hearing examiner" means an administrative law judge appointed as provided in 5 U.S.C. 3105 and Subpart B of

Part 930 of Title 5 of the Code of Federal Regulations (see 37 F.R. 16787) and qualified to preside at hearings under section 5 of the Act.

(b) "Administrative Law Judge" means a hearing examiner appointed pursuant to 5 U.S.C. 3105.

(c) "Board" means the Wage Appeals Board established by the Secretary of Labor pursuant to section 5(a) of the Act.

(d) "Chief Administrative Law Judge" means the Chief Administrative Law Judge, Office of Administrative Law Judges, Department of Labor, Washington, D.C. 20210.

(e) "Administrator" means the Administrator, Wage and Hour Division, Employment Standards Administration, Department of Labor, Washington, D.C. 20210.

(f) "Solicitor" means the Solicitor, U.S. Department of Labor, Washington, D.C. 20210.

2. In § 6.10, paragraph (b) is amended to read as follows:

§ 6.10 Hearings.

(b) Hearings shall be conducted by an Administrative Law Judge or by the Board. Hearings shall be conducted in accordance with the provisions of 5 U.S.C. 554, 556, and 557. Hearings shall be open to the public unless otherwise ordered by the Administrative Law Judge or the Board. Hearings shall be conducted expeditiously and without unnecessary delay. The Administrative Law Judge or the Board shall have all powers necessary to that end, including the following powers:

3. In § 6.11, paragraph (a) is amended to read as follows:

§ 6.11 Decision of Administrative Law Judge upon hearing.

(a) Within a reasonable time after the close of the hearing, the Administrative Law Judge shall make his decision upon the record. The decision shall include findings of fact and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record and the appropriate order, sanction, relief, or denial thereof. The decision shall be served upon all parties to the proceeding and upon the Administrator.

4. In § 6.12, paragraph (a) is amended to read as follows:

§ 6.12 Decision of Board upon hearing.

(a) Within a reasonable time after the close of the hearing, the Board shall make its decision upon the record. The decision shall include findings of fact and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record and the appropriate order, sanction, relief, or denial thereof. The decision shall be served upon all parties to the proceeding and upon the Administrator.

5. In § 6.13, paragraph (a) is amended to read as follows:

§ 6.13 Petition for review of decision of Administrative Law Judge.

(a) Any party desiring review by the Board of the decision of the Administrative Law Judge shall file a petition for review of the decision with the Board within 30 days after the decision of the Administrative Law Judge has been served upon the parties. A copy of the petition shall be served upon all parties and upon the Administrator. Every petition shall refer to the decision involved, and shall set forth the findings, conclusions, and orders of the Administrative Law Judge to which exception is taken. Every petition shall state briefly the grounds relied upon by the petitioner. Failure to file a petition within the period specified shall not affect the finality of the decision of the Administrative Law Judge.

6. In § 6.14, paragraph (a) is amended to read as follows:

§ 6.14 Review by Board.

(a) The Board may grant or deny any petition for review, in whole or in part, in its discretion. Every petition shall be acted upon by the Board within 30 days after the time for filing petitions for review has expired. The Board's decision shall be served upon all parties to the proceeding and upon the Administrator.

7. In § 6.15, paragraph (a) is amended to read as follows:

§ 6.15 Decision of Board upon review.

(a) Within a reasonable time after the close of the hearing, the Board shall make its decision upon the record. The decision shall include findings of fact and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record and the appropriate order, sanction, relief, or denial thereof. The decision shall be served upon all parties to the proceeding and upon the Administrator.

8. In § 6.16, paragraph (a) is amended to read as follows:

§ 6.16 Decision of Administrative Law Judge effective without review.

(a) The decision of the Administrative Law Judge shall become effective without further proceedings if no petition for review of the decision is filed with the Board within the time specified in § 6.13(a), or if the Board denies all petitions for review of the decision.

9. In § 6.17, paragraph (a) is amended to read as follows:

§ 6.17 Decision of Board effective without review.

(a) The decision of the Board shall become effective without further proceedings if no petition for reconsideration of the decision is filed with the Board within the time specified in § 6.18(a), or if the Board denies all petitions for reconsideration of the decision.

10. In § 6.18, paragraph (a) is amended to read as follows:

§ 6.18 Reconsideration.

(a) Any party desiring reconsideration by the Board of its decision shall file a petition for reconsideration with the Board within 30 days after the decision of the Board has been served upon the parties. A copy of the petition shall be served upon all parties and upon the Administrator. Every petition shall refer to the decision involved, and shall set forth the findings, conclusions, and orders of the Board to which exception is taken. Every petition shall state briefly the grounds relied upon by the petitioner. Failure to file a petition within the period specified shall not affect the finality of the decision of the Board.

11. In § 6.19, paragraph (a) is amended to read as follows:

§ 6.19 Action upon reconsideration.

(a) The Board may grant or deny any petition for reconsideration, in whole or in part, in its discretion. Every petition shall be acted upon by the Board within 30 days after the time for filing petitions for reconsideration has expired. The Board's decision shall be served upon all parties to the proceeding and upon the Administrator.

12. In § 6.20, paragraph (a) is amended to read as follows:

§ 6.20 Decision of Board effective without reconsideration.

(a) The decision of the Board shall become effective without further proceedings if no petition for reconsideration of the decision is filed with the Board within the time specified in § 6.18(a), or if the Board denies all petitions for reconsideration of the decision.

13. In § 6.21, paragraph (a) is amended to read as follows:

§ 6.21 Record of hearing.

(a) The hearing shall be recorded and transcribed under the supervision of the Administrative Law Judge or the Board. The original transcript shall be a part of the record and shall be the official transcript. Copies of the official transcript may be obtained by the parties upon payment of the cost thereof.

14. In § 6.22, paragraph (a) is amended to read as follows:

§ 6.22 Exhibits.

(a) All exhibits offered in evidence shall be identified and received in evidence and shall be a part of the record. Documents and other exhibits, when offered in evidence, shall be in such form as the Administrative Law Judge or the Board may direct. Documents or other exhibits submitted but not received in evidence shall be returned to the person submitting them, unless they are withdrawn by consent of the parties.

15. In § 6.23, paragraph (a) is amended to read as follows:

§ 6.23 Depositions.

(a) Upon application of any party to the proceeding, the Administrative Law Judge or the Board may order the deposition of witnesses to be taken in the manner prescribed by Rule 26(a) of the Federal Rules of Civil Procedure.

16. In § 6.24, paragraph (a) is amended to read as follows:

§ 6.24 Briefs.

(a) Any party to the proceeding before the Administrative Law Judge or the Board may file a brief with the Administrative Law Judge or the Board, as the case may be, within such reasonable period of time as the Administrative Law Judge or the Board may direct.

17. In § 6.25, paragraph (a) is amended to read as follows:

§ 6.25 Oral argument.

(a) Any party to the proceeding before the Administrative Law Judge or the Board may request oral argument before the Administrative Law Judge or the Board, as the case may be. The Administrative Law Judge or the Board may grant such request in its discretion.

18. In § 6.26, paragraph (a) is amended to read as follows:

§ 6.26 Extraordinary procedure.

(a) Any party to the proceeding before the Administrative Law Judge or the Board may request the Administrative Law Judge or the Board, as the case may be, to recommend to the Secretary that he take jurisdiction of the proceeding. The Administrative Law Judge or the Board may grant such request in its discretion.

19. In § 6.27, paragraph (a) is amended to read as follows:

§ 6.27 Sanctions.

(a) The Administrative Law Judge or the Board may make such orders with regard to the conduct of the proceeding before him or it as are necessary and appropriate to avoid delay, to prevent prejudice to the public interest or the rights of the parties, to maintain the decorum of the hearing, and to avoid boycotts and strikes. He or it may exclude from the hearing any person who refuses to comply with his or its orders.

20. In § 6.28, paragraph (a) is amended to read as follows:

§ 6.28 Ex parte communications.

(a) Ex parte communications relevant to the merits of the proceeding shall not be received by the Administrative Law Judge or the Board from any person, unless opportunity for all parties to participate is granted.

21. In § 6.29, paragraph (a) is amended to read as follows:

§ 6.29 Separation of functions.

(a) The Administrative Law Judge or the Board shall not consult any person or party on any fact in issue unless upon notice and opportunity for all parties to participate.

22. In § 6.30, paragraph (a) is amended to read as follows:

§ 6.30 Computation of time.

(a) In computing any period of time prescribed or allowed by these rules, by the order of the Administrative Law Judge or the Board, or by any applicable statute, the day of the act, event, or default from which the designated period of time begins to run shall not be included. The last day of the period so computed shall be included, unless it is a Saturday, Sunday, or legal holiday, in which event the period runs until the end of the next day which is neither a Saturday, Sunday, or legal holiday. When the period of time prescribed or allowed is less than 7 days, intermediate Saturdays, Sundays, and legal holidays shall be excluded in the computation.

23. In § 6.31, paragraph (a) is amended to read as follows:

§ 6.31 Motions.

(a) Any application to the Administrative Law Judge or the Board for an order or ruling shall be by motion. Motions shall state the relief sought, the authority relied upon, and the facts alleged, and shall be filed with the Administrative Law Judge or the Board, as the case may be, and served on all parties.

24. In § 6.32, paragraph (a) is amended to read as follows:

§ 6.32 Service.

(a) Except as otherwise provided in these rules, or as otherwise directed by the Administrative Law Judge or the Board, papers required to be served upon a party shall be served upon the party or upon the party's attorney of record by delivering a copy to him or by mailing it to him at his last known address. Service upon the Administrator shall be by delivering a copy to the Solicitor or by mailing it to the Solicitor at his address.

25. In § 6.33, paragraph (a) is amended to read as follows:

§ 6.33 Rights of parties.

(a) All parties to the proceeding may appear in person, by counsel, or by other representative. All parties shall be afforded an opportunity to present evidence and to cross-examine witnesses in the manner prescribed by section 7 of the Administrative Procedure Act (5 U.S.C. 556).

26. In § 6.34, paragraph (a) is amended to read as follows:

§ 6.34 Witnesses.

(a) Witnesses shall testify under oath or affirmation. Witnesses shall be paid the same fees and mileage that are paid witnesses in the courts of the United States.

27. In § 6.35, paragraph (a) is amended to read as follows:

§ 6.35 Subpenas.

(a) Upon application of any party to the proceeding, the Administrative Law Judge or the Board may issue subpenas requiring the attendance of witnesses and the production of documents at the hearing or before a designated person or officer. Application for the issuance of a subpena shall be made in writing at least 5 days before the hearing, unless otherwise permitted by the Administrative Law Judge or the Board.

28. In § 6.36, paragraph (a) is amended to read as follows:

§ 6.36 Fees.

(a) Witnesses subpenaed for attendance at a proceeding shall be paid the same fees and mileage that are paid witnesses in the courts of the United States.

29. In § 6.37, paragraph (a) is amended to read as follows:

§ 6.37 Rules of evidence.

(a) The Administrative Law Judge or the Board shall receive relevant, material, and reliable evidence. Irrelevant, immaterial, unreliable, and unduly repetitious evidence shall be excluded. The Administrative Law Judge or the Board shall give effect to the rules of privilege recognized by law. Objections to evidence shall be timely and briefly stated on the record, with the grounds relied upon. Rulings on all objections shall appear in the record.

30. In § 6.38, paragraph (a) is amended to read as follows:

§ 6.38 Official notice.

(a) Official notice may be taken of any material fact which might be judicially noticed by a district court of the United States or any matter in the public records of the Department of Labor or other Government agencies. Parties shall be given adequate notice, at the hearing or thereafter, of the matters so noticed, and they shall be given adequate opportunity to show that such facts are erroneously noticed.

31. In § 6.39, paragraph (a) is amended to read as follows:

§ 6.39 Stipulations.

(a) The parties may stipulate any relevant fact or the authenticity of any relevant document or the admissibility of any relevant evidence. Stipulations may be received in evidence at a hearing, and when so received shall be binding on the parties with respect to the matters stipulated.

32. In § 6.40, paragraph (a) is amended to read as follows:

§ 6.40 Liberal construction.

(a) These rules shall be liberally construed to secure just, speedy, and inexpensive determination of any proceeding subject to these rules.

Signed at Washington, D.C., this 27th day of November 1972.

R. J. GRUNEWALD,
Assistant Secretary for Employment Standards.

CUMULATIVE LIST OF PARTS AFFECTED—NOVEMBER

The following numerical guide is a list of parts of each title of the Code of

XUM
V37-231 NOV 30 72 V37

FEDERAL REGISTER, VOL. 37, NO. 231—THURSDAY, NOVEMBER 30, 1972

XUM

V37-231 NOV 30 72

Part 930 of Title 5 of the Code of Federal Regulations (see 37 F.R. 16787) and qualified to preside at hearings under 5 U.S.C. 557.

(b) "Chief Hearing Examiner" means the Chief Administrative Law Judge, U.S. Department of Labor, Washington, D.C. 20210.

(c) "Respondent" means the contractor, subcontractor, or affiliate (in which a contractor or subcontractor is alleged to have a substantial interest) against whom the proceedings are brought.

(d) "The Act" means the Service Contract Act of 1965 as amended (79 Stat. 1034, 86 Stat. 789; 31 U.S.C. 351 et seq.).

(e) "Administrator" means the Deputy Assistant Secretary for Employment Standards in the Employment Standards Administration of the Department of Labor who is also Administrator of the Wage and Hour Division, or his authorized representative as set forth in this part.

(f) "Associate Solicitor in charge of litigation" means the Associate Solicitor for General Legal Services, Office of the Solicitor, U.S. Department of Labor, Washington, D.C. 20210.

2. In § 6.10, paragraph (b) is amended by adding a new sentence at the end thereof reading as follows:

§ 6.10 Decision of the hearing examiner.

* * * * *

(b) * * * Any recommendation that the respondent be relieved by the Secretary of Labor from the ineligible list provision under section 5(a) of the Act as amended shall be supported by a finding of the unusual circumstances, within the meaning of such section, which are relied upon as a reason for the recommendation.

3. Section 6.12 is amended by designating the existing text as paragraph (a) and by adding a new paragraph (b) at the end thereof. As amended, § 6.12 reads as follows:

§ 6.12 Relief from ineligible list.

* * * * *

(b) Any application filed by respondent for relief from the ineligible list provision shall state the unusual circumstances to be considered by the Secretary of Labor in determining whether to recommend such relief. The Secretary shall forward to the Comptroller General the name of any respondent found in violation of the Act within 90 days after the decision of the hearing examiner, finding such violation, becomes final unless the Secretary within such period decides that relief from the ineligible list provision will be recommended because of unusual circumstances.

(Sec. 4, 86 Stat. 790, 41 U.S.C. 354(a); sec. 4, 79 Stat. 1035, 41 U.S.C. 353(a); Secretary of Labor's Order No. 13-71, 36 F.R. 8755)

Signed at Washington, D.C. this 27th day of November 1972.

R. J. GRUNEWALD,
Assistant Secretary for Employment Standards.

An Invaluable Reference

V 37-231 NOV 30 72 XUM

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

$3.00 per copy.
Paperbound, with charts
